City Manager To Take Over Dec. 4th

The Goldthwaite City Council, meeting in a special called session last Tuesday night, unanimously voted to hire Don Petty of Waco, as City Manager of Goldthwaite.

Petty will take over the management of the City effective December 4. He is at present employed in Waco as a heating and lighting specialist with the Texas Power and Light Company.

The Colorado City native, has held positions of Rural Service Advisor in Hillsboro, Corsicana, and Waco and also was a service representative in Waco.

The 29 year old manager has been responsible for working with and consulting with architects and engineers for TP&L in Waco.

Petty has credits amounting to over 140 hours of college work at Texas Tech in Lubbock. He joined Texas Power and Light in June, 1966.

"Putting our roots down in a smaller town is the primary reason why we applied for the city manager job in Goldthwaite," said Petty. "Goldthwaite reminds us of home and the advantages of the

school for our children and the personal relationships with the people that is very important to me and my family," he added.

Petty and his wife, Orena, have two children, Brenna, age 2 and Brent, age 6.

Mrs. Petty holds a degree in home economics from Texas Tech and has taught in public schools. She has been teaching three and four year old children in a private kindergarten operated by the Crestview Church of Christ in Waco, of which they are members.

The job of City Manager was left open following the death of long time city manager W. C. Barnett, August 24, 1972.

The city council received eleven applications for the job of city manager.

Also discussed was the new Voluntary Hunter Safety Program which has been initiated by the Texas Game and Fish Commission to educate hunters, both young and old, in safety and state game laws.

After a short question and answer session, the meeting was adjourned with the FFA members in enthused anticipation of the opening day of deer season.

A little work done now can make the fireplace the center of attraction during the Christmas season. Log treating or paper log making can liven up a fireplace. You can have flames that are red, green, blue, orange or purple depending upon the chemicals used to treat the material to be burned in the fireplace.

Calcium chloride can be used to produce orange colored flames; copper chloride — blue flames; potassium chloride — purple flames; strontium nitrate — red flames; lithium chloride — carmine flames and copper sulfate — emerald green flames.

Dry pine cones, small blocks or chips of wood can be soaked in solutions of these above chemicals to produce the multi-colored flames when burned. Most of these chemicals can be purchased from local chemical dealers or drug stores.

To treat cones or wood, a plastic pail and a porous sack such as an onion sack are needed. The cones or chips are placed in the sack and immersed in a solution containing one pound of the desired chemical dissolved thoroughly in one gallon of water. The bag must be weighed down so the material is completely covered by the solution. Allow the cones or wood to soak for at least 10 minutes. After soaking,

the treated material may be placed on newspapers to dry. After drying overnight, they will be ready to use in the fireplace.

Paper 'logs' can be made of loosely rolled newspapers tied with a heavy twine and soaked in a solution of four pounds of copper sulfate and three pounds of rock salt in a gallon of water. They will require several days to dry out. Once dry, a paper log will burn all evening and produce a rainbow of colors.

AUSTIN — "There were 55,000 criminal trials pending in district courts and 216,000 civil cases pending on dockets in Texas at the beginning of 1972," former Texas Chief Justice Robert Calvert told those attending the Governor's fourth annual Traffic Safety Public Support Conference in Austin.

This "crisis in our courts" has been caused by the constitutional restrictions on the Judicial Article, Judge Calvert explained.

The "crisis is approaching a judicial scandal," he quoted Judge Truman Roberts of the Texas Court of Criminal Appeals as saying.

Judge Calvert outlined problems in the present judicial system in Texas — explaining that they were analyzed by the 1972 Chief Justice's Task Force for Court Improvement.

The major problems are (1) docket congestion and trial delay; (2) proper administration and (3) proper election of judges.

Proposals for complete reorganization of Texas courts will be presented to the 1973 Texas Legislature," the former Chief Justice continued. "Opposition will come from elected officials who are afraid it will affect their jobs.

"Judicial reform is doomed for this generation if public support does not overcome the opposition to these proposed changes in the Judicial Article of the Texas Constitution," he concluded.

A citizen's conference to gain support for the proposed judicial reform will be held in Austin on November 17 — at which time specific legislative proposals will be outlined for the public and press.

REVENUE SHARING COUNCIL FORMED — The Texas Department of Community Affairs has been designated as the agency to provide information and aid to local governments in federal revenue sharing implementation.

Designation of the agency for liaison between state — federal and local governments was agreed on at a meeting of the new Texas Revenue Sharing Council.

Texas is expected to receive about \$245 million during 1972 under the new federal revenue sharing program. About \$163 million of that will go to local governments, and \$81.5 million to state government.

The council, said Gov. Preston Smith, is not to interfere with individual decisions of local governments. Its purpose is to assist the local units with legal constraints and federal rules and regulations.

Council members directed the Department of Community Affairs to establish and man an Office of Revenue Sharing Assistance to local governments. The department, Texas Municipal League and Texas Association of Counties will assist the Treasury Department in completing lists of eligible governments and their officials.

The Department of Community Affairs was further ordered to plan a statewide workshop on revenue sharing for local officials.

Texas was termed "best prepared" of any state to begin implementation of revenue sharing.

Members of the Revenue Sharing Council include the Governor, Lt. Gov. Ben Barnes, House Speaker Rayford Price, Seguin Mayor Al Koebig, Houston Mayor Louie Welch, Victoria Mayor or Kemper Williams Jr., Nueces County Judge Bob Barnes, Ector County Commissioner Kellus Turner and Bexar

County Commissioner Frank Vaughan Jr.

COURTS SPEAK — Former State Sen. David Ratliff of Stamford was found guilty by a Travis County district court jury of theft of state paychecks made out to a one-time employee and drew a 10-year probated sentence.

The Texas Supreme Court upheld a one-year suspension of license for a Dallas lawyer who allegedly embezzled \$2,772 of a client's money. The State Bar of Texas wanted the lawyer disbarred, but lower courts settled on the suspension instead.

The Third Court of Civil Appeals dashed hopes of Texas Fine Arts Association to inherit the Austin home of the late artist Wayman Adams.

Plans to pay off depositors of the closed W. L. Moody Co., Bankers, Uninc., Galveston,

were delayed by federal district court after the state filed a motion to intervene.

The Court of Criminal Appeals scheduled a December 12 hearing on the appeal of former State Rep. Walter Knapp of Amarillo from a four-year prison sentence for theft by false pretext.

COURTS SPEAK — A state law permitting landlords to seize property for non-payment of rent was declared unconstitutional by the Fifth U. S. Circuit Court of Appeals.

Texas Supreme Court held good will of a medical practice is not part of community property of a married couple.

A Houston school teacher was awarded \$1.5 million in a suit against General Motors for a defective steering wheel that caused a wreck.

Local Lions Host Zone 8 Meeting

The Goldthwaite Lions Club met in a special meeting Monday night and hosted the Zone 8 meeting.

Lions Club representatives from Buchanan, Kingsland, and San Saba were on hand to discuss problems and items of mutual interest covering the entire zone of Lions District 2-A1 of Texas.

Johnny Oswald, zone chairman of San Saba, led the discussion and carried out a very informative and interesting meeting.

Oswald reviewed with those present the role of the committee in the organization of the Lions club and that a club is falling short if it does not utilize the committee to its fullest as a method of keeping older members busy and as a way of attracting new members to the service organization.

Deputy District Governor Clarence Smith of Buchanan, was on hand and told the group of a membership drive challenge issued by the members of zone 7, which lies to the north of zone 8.

Losers of the percentage basis contest will host the winners to a meal and an evening of socializing sometime next year, if the clubs wish to hold such an event.

LOCAL LIONS CLUB BUSINESS
Goldthwaite Lions Club President Horace Brooks reminded the members present of the annual Santa Claus Day celebration coming up this year on December 9th. Lions will sack candy for the children at their regular meeting on December 5th. This year's activities include an expanded parade and other activities for the benefit of the children of the area.

'B' Team Falls To San Saba 12-7 In Final Season Game

The Goldthwaite 'B' closed out their football season last Thursday night losing a close game to San Saba 'B' by a score of 12 to 7.

The Eagles ended the season with a 7-3 record scoring 259 points to their opponents 64.

San Saba was the toughest team the Eagles had faced this season, but the young Eagles were prepared for the meeting and played very good game offensively and defensively.

In the first half the Eagles failed to capitalize on several scoring opportunities that could have put the game away with the way they were playing defense.

A stubborn San Saba defense and mistakes on big plays by the Eagles, forced them into two field goal situations and they got only 7 points out of 5 penetrations in the first half.

The half ended with the Eagles on the one foot line.

The Eagles scored first on a 45 yard pass from Ray Frazier to Scott Johnson and Johnson booted

the extra point to make it 7 to 0. San Saba came back and QB Davenport got the Dillos on the field late in the second quarter on a 4th down, 5 yards to go situation by keeping it round left end. The try for the two point conversion failed to make it so the score stood 7 to 6 at half time.

The Eagles continued to play good defense the second half early in the fourth quarter the Dillos found Orasono Salinas on a pass that put the Dillos on one yard line. From that point Dillos pushed it over to end the game for the night downing the Eagles in a hard-fought battle.

The B team had a very successful and rewarding season and the absence of a few injuries in crucial games could have easily gone undefeated.

Randy Baker, coach for the team expressed his appreciation for all of the support the Team has received this season.
