Mills County Schools Primed For 1979-1980 Openings

Young Homemakers Close Out 12th Year

The Mills County Young Homemakers are about to complete their 12th year of service to this community. It has been a very busy and rewarding year for the 21 members.

Outgoing officers for 1978-1979 are Sue Cockrum, president; Pam Ledbetter, vice-president; Elaine Blackwell, secretary; Mary Blackwell, treasurer; and Patsy Head, reporter-historian. Divisors for the year were Mrs. Patty Johnson, Mrs. Anita House, and Mrs. Wynona Head.

The Young Homemakers have strived to serve the community by working on projects such as the Mills County United Fund, the local blood drive, and the Ministerial Alliance Halloween Carnival. They also assisted in three areas of the Mills County Stock Show and presented a silver tray to the outstanding person of the show.

Other projects included providing refreshments at the Elementary School Open House; providing the Heritage Home residents with a Birthday Party, supporting the Senior Citizens Awards, and providing a booth at the Fiddler's Contest.

The Young Homemakers have furnished pea gravel to the Elementary School playground, purchased partitions for the ladies dressing room at the Municipal Swimming Pool, sponsored letters to Santa Claus, taught swimming lessons, and organized a local number of Commerce, conducted a Fun Day and raised money for our children, and held Community Birthdays to raise money for the 1979-1980 year.

The club tries to channel a large percentage of their money back into the community by donations to the park for playground equipment, to the Fire Department for a county truck, to the Museum for a planter, and to local victims of fires.

Melody Gwinnup was awarded a \$100 YHT Scholarship as an outstanding senior. They also assisted Beverly Carothers with her expenses to the National FHA Convention. Donations of books were made to the homemaking departments in Mullin, Priddy and Goldthwaite.

The Annual Installation Banquet was held in July and the following officers were installed for the coming year: Elaine Blackwell, president; Belinda Baker, vice president; Juel Ann Holtzclaw, secretary; Wynona Head, treasurer; Suzanne Doggett, reporter; Gayle Smith, historian. These officers plan to start the year in September with what should be a very interesting program by Dr. V.J. Koli and Dr. M. Koli. Any woman, 35 years of age, or younger, is invited to join Young Homemakers and visitors are always welcome.

The Young Homemakers would like to say a special 'Thank You' to all the people of this area who support us each year.

All friends and relatives are invited to attend.

Tennis Clinic To Be Held This Week

A unique tennis clinic will be held this Sunday and Monday, August 19 & 20. If interested call Winn Welch, 648-3275, immediately for a reservation in the clinic which is sponsored by the local Tennis Association.

There will be one class of six hours' instruction, ten spots for private lessons, and one hour of free strategy instruction for all interested players. The class can have 6 - 8 students, and will be held at 1:00 - 2:00 p.m. on Sunday; and 8:00 - 10:00 a.m. and 12:00 - 2:00 p.m. on Monday. The persons signing up will determine the character of the class as to level of instruction.

The private lessons will be a half hour each. These sessions will be designed to work on one area such as serve, backhand, net play, etc., as the student requests. There are only ten half hour slots available. However, one person may sign for two or more periods as time is available. The times of these lessons will be in between the class hour lessons above.

The free hour for instruction in strategy is for all players in Goldthwaite who would like to learn more about strategy, particularly in doubles. Come to the church tennis courts at 6:00-7:00 p.m. on Sunday evening. Bring all questions for the pro to try to answer. There will also be a short Tennis Association meeting at this time.

Professional for this clinic will be Tom Infram, John's brother and assistant at the Lost Creek Country Club in Austin. Both men are certified instructors of the U.S.P.T.A. The local association feels very fortunate in securing their services in the clinics.

Remember, call 648-3275 immediately for reservations since time is very short. Payment will be due at first lesson.

Mormons Meet In Lampasas August 18

The name Brigham Young is synonymous with the Mormon Church. He was the second president of the Church of Jesus Christ of Latter Day Saints. He led the saints to the Salt Lake Valley, where the church is one of the fastest growing churches in the world with over 27,000 missionaries serving throughout the world.

Brigham Young IV, the great grandson of Brigham Young, is 82 years old. Elder and Sister Young are currently serving on a mission in Brownwood. He served his first mission in England and Germany in 1921 to 1924. All missionaries furnish their own expenses while on mission, usually 18 months to 2 years.

Brigham Young IV will be the featured speaker at a Fireside, August 18, 1979, on Saturday, at 7:00 p.m., at the Lampasas branch of the L.D.S. Church.

Also featured will be a professional vocalist, Darlene Gordon, from San Francisco, California. She has sung on television, a back-up singer for Ella Fitzgerald, Special Events, church affairs and has cut two recordings. She is the daughter of Mrs. Dalton Laughlin of Goldthwaite.

There will be a movie shown "Ancient America Speaks". Everyone is invited to attend. The church is located on the corner of Avenue B and Race Street, Lampasas, Texas. Refreshments will be served.

result, but it's a necessary first step. And watch this column. CHAMBER COMMENT will be coming at you with ideas, questions, and [with the help of all of you] results.

Q. You say you need my help, but what can I do?

A. Several things. First, become a Chamber member. Second, talk to the present directors. [Names are below]. Tell them what you'd like to see happening in the way of promoting Mills County. Ask them what they are doing. Voice an opinion. And third, find out how you can help carry out the Chamber's programs. We need all people to get active on committees, volunteer work, advertising and publicity. In short, get involved! A few directors can't do it all.

I suppose so. But you begin to see the avenues a Chamber can take to enhance living in Mills County. It's hard to get excited.

When will we see the first results?

Sure, it's not a big result, but it's a big step.

People And Calories At Koen Reunion

The descendants of the late F.D.L. and Susanah Koen met for their 51st annual reunion at the American Legion Hall in Goldthwaite on August 4th and 5th. It seemed to have been the BEST!

There was the regular homemade Ice Cream Supper on Saturday night and as usual "a good attendance". For breakfast, we had our 'low calorie' hot

biscuits, butter, sausage, bacon, eggs, gravy, jelly preserves, coffee and orange juice. One cousin from Lubbock said "I'll bet this is the biggest group that 'Grandpa' (F.D.L.) has had at his table in a long time."

Saturday night we introduced our new president, Clarence A. Koen, and 'first lady' Juanita.

Sunday, 11:30 a.m., the business meeting was conducted. "Amazing Grace" was sung in memory of our departed loved ones.

Our first-time visitors were John and Marihelen Miller of Marble Falls; Sam Koen and wife Shirley and two children of Hurst. The youngest was Shelia Koen, 3 years old, of Comanche; the oldest was Thomas

Huckabee, 91, the son of the late Argie (Koen) Huckabee.

The ones traveling the farthest were Mr. & Mrs. Sammie Couch of Abilene, Kansas.

Several enjoyed seeing displays at Mills County Museum.

There were 92 people attending, all hoping to meet again next year, the first Saturday and Sunday in August, 1980.

The Moline Menace

by Bob Altenloh

OLD MOTHER HUBBARD ... all this talk about the neutron bomb doesn't convince me. Who says we have one? The politicians in Washington are so eager to make the SALT talks a success, they will come up with anything as a bargaining point with the USSR. The neutron bomb is more likely an impossibility. To get freed neutrons, an

explosion is needed - to put it simply - too large to be feasible.

An explosion represented by the figures 4, 8, 16 and 32 produces only 1, 2, 3 and 4 neutrons. To obtain emanating neutrons as they depict would take an explosion of ridiculous proportions. I think the Soviet Union caught on. They

claim they have one now. If the so-called secret plans of our nation were stolen by the Russians, they'd probably find a recipe for creamed spinach. If we stole their's, we'd find the floor plans for the men's room in their subway.

If we are aware of all this nuclear discussion we will be more so with the new moves to create a civilian defense network, complete with block captains in splendid beanies and wrinkled bugles. It will make us conscious of an atomic war threat. But if you are worried about it, there is great comfort to know that the safest place to be is in the exact center of a large city. Fifty or a hundred miles out you are more apt to get hit. No country has ever fired a nuclear bomb at a major city before. (The two atomic bombs released on Hiroshima and Nagasaki in August 1945, were dropped from planes). The

chances are greater since they haven't produced our enemies will miss entirely.

If we want something back us up at the talks, our best bet is to not bluff, the Russians can build suicide cannons for the defense of Earth. The ball would weigh tons, the cannon weight 17.

We tell the Russkys rather than surrender rope to their super forces, if a show-down arrives, we'll turn cannons on ourselves, suicide cannon! We, hundreds of them up at our camps. What Russkys don't know is when fired, the ball still and the cannon four miles! Right into ranks of course. I mean take this up with the Department of Defense let you know how I mean out and describe the for you.

As I viewed the film "Corrie, The Lives She Touched", recently, I was impressed with a very realistic statement she made in regard to the American Indian. After indicating that the native Americans were being treated very poorly by our government, she said, "I hope you will contact persons in power to help improve this situation."

Persons of Power!

Another incident involves the discovery of some very immoral material being used in a "test" by persons in our government.

Say it again: Persons in Power!

It seems to me that we can be very realistic by saying that our world is run by persons in power. The problem we face (particularly in government) is 'who is in power'. We should insist that our legislative branch, when it writes laws, build

into the program a system of checks and balances that we can clearly distinguish the 'person in power'.

This would make it possible for the ordinary citizen to know who is responsible and "call his hand" on immoral or unethical practice. Too often the "boss" never has a place to stand and no one wishes to assume authority on their own.

It may be that the tendency to shift the blame pass the buck, or find another scapegoat, or get involved in the great weakness we face today. We can't accept our own and do something about it like ask forgiveness, accept forgiveness, or correct error. If we can't do this, persons, how can we expect it of elected officials? We need to work constantly to correct the errors "government" makes. The best way to begin is to say to ourselves: "Let me be a better world. O God, and let it begin with me."

Chiropractor Mahan Administers 'AK' Treatment On Athletes

The Lewisville News-Advertiser newspaper of Lewisville, Texas, carried a nice story in their Aug. 1st edition about Mike Mahan, a Lewisville chiropractor. Mahan claims that through applied kinesiology, you can strengthen any muscle in the body that you can touch.

That's why Mahan has been invited to the U.S. Olympic Development Camp for middle and long distance runners in Champaign, Ill. He'll be there as a guest of the Olympic Development Committee and North Texas State University track coach John McKenzie, chairman of the committee's middle distance panel.

Mahan has treated two of McKenzie's athletes. Kinesiology, Mahan explains, is the relationship of muscles and bones to motion, and while applied kinesiology has any number of practical applications, its relationship to athletics is a natural.

The doctor says you can't always put athletes back on the track immediately after the treatment, but the beauty of the system is that it allows for a much shorter recovery time. It is done through the science of acupressure.

If Mahan gets the chance at the Olympic camp to administer the "AK" treatment successfully, it might even open some doors for him to try his techniques elsewhere.

In fact, he might even find himself on a plane to Moscow next summer as the applied kinesiology for the U. S. Olympic Team.

Just imagine what winning a few gold medals would do to the stereotyped image of chiropractors.

Mahan is the grandson of Wiley Mahan of Goldthwaite.
