### The Smart Set

#### Magazine of Cleverness

Each number should have a well-defined purpose. The entertainment, amusement and mental recreation are the chief objects of the Smart Set, the most successful of magazines.

Its contents (a complete one in each number) are by the most brilliant writers of both hemispheres.

Short Stories are matchless—clean and full of human interest.

Humor is by the most popular poets, men and women; of the day.

Witticisms, sketches, etc., are admittedly the most sparkling.

"I feel quite lost tonight. Forgot to bring my new glasses. Who is that over-dressed woman by the piano?"

"Eh? That's my wife."

"Beg pardon. And who is the scrawny girl in blue standing by her?"

"That's my daughter."

"By Jove, how stupid! And tell me, please, who is that gawky-looking fellow with the big ears who is standing just opposite to us?"

"That's your reflection in the mirror, you idiot."

The grand jury at Dallas gave as the cause for not returning more bills, "that there was no use to return bills, as men could not be convicted in Dallas county."—Arlington Journal.

For the eighth time in his life old Geronimo, the Apache warrior, has become a benedict, his spouse being an Apache widow of 58.

In New York a strong suspicion is entertained that President Roosevelt means to solve the question, "what shall we do with our ex-presidents," by becoming a United States senator.

Mr. Akioki, a Japanese of distinction in his own country, is in Texas seeking information as to the climate and resources of the state, and proposes to bring over 300 families from his country and settle a solid tract of 10,000 acres in Bee county, where they will undertake bee, silk and tea culture.

Wm. R. Harper, president of Chicago University, died on Wednesday of this week of cancer, from which he had been suffering for two years. Dr. Harper was in his 50th year.

A revolution in China, eclipsing in magnitude the Boxer uprising of 1900, is imminent, and the United States and Great Britain are moving troops to points in easy reach of China, to protect their interests and citizens should the crisis come.

The New York Sun and Washington Post express high opinions of the character and ability of Senator Joe Bailey of Texas.

The Amarillo Bank and Trust Company with a paid up capital of \$50,000 was organized at Amarillo this week, and charter applied for. The company will operate under the Texas banking law, handling heavy real estate paper. The officers are J. C. Paul, president; Avery Turner, vice-president; Chas. A. Fisk, secretary; Ray Whelan, cashier.

The Kansas supreme court holds that the law passed by the last legislature of Kansas providing for separate high schools for the whites and negroes at Kansas City is valid. This now opens the way for the legislature to pass an act separating the whites from the negroes in all schools of the state. Then Kansas can put on an air of respectability.

"Chamberlain's Stomach and Liver Tablets have done me a great deal of good," says C. Towns of Rat Portage, Ontario, Canada. "Being a mild physic the after effects are not unpleasant, and I can recommend them to all who suffer from stomach disorder." For sale at Central Drug Store.

### THINK EVERY DAY.

Monday.—Be accurate, practical, and persistent.

Tuesday.—Remember that what one man has done another can do, if he but find the way, fit himself for the journey, and travel it.

Wednesday.—Look at the highest average rewards of the calling you propose to adopt, and if the same efforts in some other direction would have a brighter prospect, choose the latter.

Thursday.—Mind your own business. Your business will not mind itself, and nobody will mind it for you.

Friday.—There are no doubt exceptions to every rule, so when you find a man able and willing to faithfully mind your business for you, and your business is big enough to need his help, realize that you have a treasure, and recollect that he is a man of intelligence, capable of knowing when he is justly or generously treated, or otherwise.

Saturday.—Beware of the man who is only acting the part of the "good and faithful servant."

Sunday.—Think with caution, act with decision, and never lose courage.

Vigorous earthquakes were felt in Missouri, Kansas and Nebraska on Monday of this week, rattling dishes and causing people to rush from their houses. No damage done.

A man at Indianapolis, Ind., who for ten years has been conducting a grocery as he believed "Christ would run them," is a bankrupt, his liabilities being \$30,000 in excess of his assets. The gentleman, Norton, by name, is said to have many eccentricities, refusing to handle cigars and tobacco or any groceries that were known to contain spirits; and he paid his clerks every evening, holding that the money belonged to them and he had no right to keep it over night. In these days of trusts and organized labor we can hardly see how any man can have the faintest idea of just how Christ would conduct a store.

The Kansas supreme court holds that the law passed by the last legislature of Kansas providing for separate high schools for the whites and negroes at Kansas City is valid. This now opens the way for the legislature to pass an act separating the whites from the negroes in all schools of the state. Then Kansas can put on an air of respectability.

Measurements. Every man wants to measure himself by what he is going to do, but the world insists on measuring him by what he has done.

Make Tons of Cheese Annually. In Cheshire, England, and the adjoining counties, more than 25,000 tons of Cheshire cheese are made annually.

Peculiarity of Men and Dogs. Two kinds of living creatures only, men and dogs, can stand an instantaneous change from Arctic cold to tropical heat without suffering deterioration or losing their health.

Definition of Tact. Tact is the knack of keeping quiet at the right time; of being so agreeable yourself that no one can be disagreeable to you; of making inferiority feel like quality.

Cold-Blooded Lover. "Literary man wants to buy or borrow old love letters; no names used." This cold-blooded advertisement has appeared in the Sydney (Australia) Morning Herald.

Grave Women Pilots. Woman pilots are employed by the Danish and Scandinavian governments. Many Scandinavian captains say they prefer them to men, because they have more patience. Norway and Sweden also employ women in the mercantile marine; they do the same work as the men before the mast, and take their turn at night lookout duty.

An Everlasting Problem. Ever since the amassing of great fortunes began there has been a great difficulty before the minds of the possessors as to how to dispose of them to the best advantage either to their immediate heirs or the ready among their fellow men. Though it is the easiest thing in the world to give away money, it is an everlasting problem how to dispose of it properly.—"Table Talk," Melbourne.

Bismarck's Fondness for Tobacco. Love of tobacco and wisdom often go together. Prince Bismarck was wont to boast that he had in something like fifty years consumed 100,000 cigars, a number that works out an average of five a day—no great feat, perhaps, for one who was at one period a "chain" smoker, lighting each cigar from the glowing stump of the one just enjoyed.

Child Bids Fair to Be Pat. Lloyd Ashurst, a 1-year-old autocrat of Kildeare, Ill., is a great-grandchild, the elder of the "greats" being Mrs. Lucinda Watkins of Atterbury, Ill., born April 7, 1809. He and his four grandmothers were all photographed recently and the interesting group pictured has been distributed among a vast crowd of relatives.—Chicago Chronicle.

The Fine Art of Being Popular. Notice carefully and you will find that the man you like to talk with best always talks with you about your affairs and not about his own.—Somerville Journal.

Lest Kerr. A Boston man by the name of Kerr went out on a spree a week ago and has not been heard of since. Maybe the dog-catcher got him.—Denver Post.

Low Wages Paid in China. Often among more advanced people a need for skilled labor is not felt. In China a farm hand never gets more than two meals a day and \$2.50 in currency a month. Skilled labor does not fare much better, as a carpenter feels well satisfied with 30 cents a day, while masons and painters do not average 40 cents.

### West Texas.

Years ago wise men of that day prophesied that the lands of West Texas could be used only for grazing purposes. Time has demonstrated the fallacy of such predictions. The small farmer is pushing his way steadily to the front, the large ranches are being cut up and prosperous settlements established in every nook and corner of the great west. Why, it hasn't been many years ago when the stockmen, speaking of this section, would shake their heads in disparagement of the idea of this ever developing into a farming country. But it has blossomed as the rose. Here the product of the soil are more varied than perhaps in any other section of the state. Lands are advancing in value every year because of the rapidly increasing demand, and at the present rate of improvement it will not be many years before almost all the available land will be under cultivation. For these and other reasons it would be the part of wisdom for everyone who is contemplating settling in the Panhandle to get in the "push" right now. Many men have missed their opportunity by procrastinating.—Memphis Herald.

Stop that Cough. If you have a cough, cold, sore throat or chest, don't delay a moment—cure it. Simon's Cough Syrup is a sure remedy. It makes you well.

Did you know that the railroad men, who own this government, were given the authority to build roads in the Philippines and that this government guarantees them a net profit on the business, whether they make it or not? And don't you know that they will water their stock and pay high salaries and thus make the government pay 5 per cent on nothing but wind and two streaks of rust? What would be said if the government guaranteed the farmers all their expenses and salaries and 5 per cent profit on their investment? Wouldn't there be a howl? Yet that is just what it is doing with capitalists in the Philippines. Paternalism, did you say?—Appeal to Reason.

Every little while some person who wants a little notoriety makes some startling statement. Not long since one Doctor Osler said a man over forty years of age was past usefulness and should be chloroformed. Now comes a Prof. Norton of Harvard, and a Miss Annie S. Hall of Ohio, who say the incurable sick, who are doomed to suffering, should be put out of their misery by the physician under whose care they are. The practice of medicine is a noble profession and there are numbers of good, conscientious men in it, but there are some who are not, and to give them the liberty of removing from life any they see fit would be preposterous. There have been numbers of patients pronounced incurable who have recovered and spent long lives of usefulness.—Chardon Chronicle.

### One and Ten.

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by Central Drug Store.

### Vardeman on the Negro

Gov. Vardeman, in his address to the Mississippi legislature, again took a strong stand against spending public money for the education of the negro, saying in part:

"What shall we do with the negro? Certainly the education of the white child does not suit the negro. This has been demonstrated by the forty years of experience, and the expenditure in the southern states of nearly \$300,000,000.

"As a race the negro is deteriorating morally every day.

"Time has demonstrated that he is more criminal as a free man than as a slave, that he is increasing in criminality with fearful rapidity, being one-third more criminal in 1890 than he was in 1880.

"The startling facts revealed by the census show that those who can read and write are more criminal than the illiterate, which is true of no other element of our population.

"In the South, Mississippi particularly, I know he is growing worse every year. You can scarcely pick up a newspaper whose pages are not blackened with a crime of unmentionable name, committed by a negro brute, and this crime I want to impress upon you, is but the manifestation of the negro's aspiration for social equality, encouraged largely by the character of free education in vogue, which the State is levying tribute upon the white people to maintain.

"It is your duty to put a stop to wasting half a million dollars annually—money taken from the toiling white men and women of Mississippi—and devoted to the vain purpose of trying to make something of the negro, which the Great Architect of the universe failed to provide for in the original plan of creation."

Reliable estimates by the U. S. Bureau of Agriculture show that there are 5,739,657 farms in the United States. Each farm has an average seventy-five acres. There are about six million small farms in the United States. Small farms pay the highest taxes. More than 200,000,000 people are dependent on their land.

POWER PLANTS FOR NIAGARA.

Scheme Now on Foot to Utilize the Lower River.

Always room for one more power plant at Niagara. The latest looks to the lower Niagara river, which falls eighty feet in a length of two and a half miles, with the whirlpool nearly at the center of this length. This is about half the descent of the great cataract above and is made by the entire volume of water that passes over both the American and Horseshoe falls. Alton D. Adams calculates that the unused power of these rapids just above and below the whirlpool could develop half as much power as could be developed by diverting the entire flow of Niagara river at the falls. If the American falls are to be saved further concessions must be limited to the gorge and lower rapids. His idea is to build pipe lines between the upper and lower points of the rapids. Niagara river has a normal discharge of 222,000 cubic feet of water a second, and this water falling eighty feet develops 2,000,000 gross horse power. Making due allowance for losses in the pipe line, water wheels, tailrace and generators, it may fairly be said that 60 per cent of the gross energy could be delivered as electric current if the entire discharge of the river were utilized. This net power is twice as great as that of all the electric plants now completed and under construction at Niagara falls.

Moving Pictures in Science. Jack of all useful trades is the moving picture machine which has been successfully applied to natural science research, microscopy, electrical and physical phenomena, medical science, chemistry and anthropology, and latest of all to a native devil dance in Borneo. The march of civilization is so rapidly taking undeveloped peoples beyond their native customs that it is of the greatest importance some means should be adopted for placing them on record. And in this work the moving picture is the ideal agent, for by its aid is obtained a truthful and permanent record of native ceremonies and customs.

CONGRESSIONAL NEWS

Leaders Dare Not Yet Bring Hamilton Statehood Bill Up.

IS SHROUDED IN UNCERTAINTY.

Insurgents Are Firm and Claim to Have Enough Votes to Force Amendments — Other Matters Are Brought up and Discussed.

Washington, Jan. 11.—Speaker Cannon's efforts to win the insurgents over to the Hamilton joint statehood bill have met with little success apparently and the joint statehood proposition is still shrouded in uncertainty. The insurgents' claim they have more than fifty-eight votes, the number which, coupled with the solid Democratic vote will force a consideration of amendments to the Hamilton bill. Two or three representatives are reported to have been won over to the administration measure through Speaker Cannon, but the weakening in the opposition is so slight that until further changes are brought about the Hamilton bill will not be taken before the house. All sorts of compromises have been suggested by the insurgents, but have met with no favor at the hands of supporters of joint statehood. The last compromise offered by the insurgents was the insertion of the single word, "Each."

Republican insurgents held a statehood caucus which was attended by about 25 representatives. A poll of the house on the joint statehood proposition by the insurgents was reported at the caucus to have shown slightly less than 75 representatives who will vote against a proposed rule preventing the amendment of the Hamilton joint statehood bill. The insurgents are confident they will retain enough of these votes to make it possible for them, with the Democrats, to defeat the proposed rule.

The caucus was held in the committee room of Representative Babcock of Wisconsin. Sugar beet interests of the middle west were well represented in the caucus.

The senate adopted two resolutions of inquiry. One of them authorizes an investigation by the committee on inter-oceanic canals into the general conduct of the affairs of the Panama canal, and the other an inquiry by the finance committee into the question of the exchange rate on money on the isthmus. The first resolution was reported from the canal committee by its chairman, Mr. Millard and the second is the resolution presented yesterday by Mr. Bailey with the provision relative to the sale of Panama railway bonds omitted.

The remainder of the open session was devoted to a speech by Mr. Morgan on the railroad rate question. He advocated the settlement of all differences over rates in the courts according to common law methods as calculated to do away with much awkward machinery.

Washington, Jan. 9.—The senate will begin the week with the consideration of the question of the relations between this country and San Domingo. The subject will be brought up on Senator Tillman's resolution calling upon the president for information relative to the status of affairs since the flight of Morales, and if the senate does not take up that resolution Mr. Rayner will address the senate on the general Dominican question.

It is Senator Tillman's intention to press his resolution and unless it is accepted by the senate he probably will talk on it, if not tomorrow, then on some other day during the week. With the subject once opened up considerable debate may be expected, for the Republican senators are prepared to defend the attitude of the president in the Dominican matter. It is not expected that the treaty with Morales will be presented for some time, but Republican senators say they have no intention of letting it go by default. The president, it is preferred, rejection to failure to act. His friends in the senate cite the course of events in the present revolution, when the financial affairs of the country are less disturbed than in previous uprisings, as sustaining the president's attitude toward the Dominican republic. On the other hand, the revolution has had a tendency to solidify the Democratic senators against the agreement and if they hold together they will be able to defeat ratification.

up the committee shipping bill and if he does so, that measure being the unfinished business, will supplant the Dominican question. If through courtesy, however, he should give way to senators to discuss other questions, he will bring up the shipping bill later. When the commission's bill is taken up Mr. Gallinger will open the debate on that measure. He will be followed later by Senator Lodge, in support, and by Senator Mallory, in opposition to the bill. The measure probably will be before the senate for some time, but Senator Gallinger will urge a vote as soon as possible.

After contemplating a plan to displace the Philippine tariff bill with the statehood measure in the house this week, the leaders arrived at the conclusion just before adjournment Saturday that the present order of business should not be disturbed, and the list of speeches, which is to occupy at least the first half of the week, on the revenue measure, will be unrestricted. Mr. Payne, in charge of the bill, estimates that the discussion on this subject next week will occupy the first three or four days. After the Philippine bill has been disposed of the statehood bill, which the committee on territories has still in preparation, will be brought forward immediately and that question discussed and acted upon without interruption. No appropriation measure will be taken up until the statehood bill has been disposed of, but the regular supply measures are expected to come in with regularity thereafter.

DRIVEN FROM FORTIFICATIONS. St. Petersburg, Jan. 10.—Colonel Makeeff at Rostof-on-Don, telegraphed the details of a smart action in which the insurgents in that vicinity were driven from their fortified stronghold in the village of Zatermeratik. The insurgents had dug intrenchments and erected barricades and were prepared to offer a house to house resistance, but they were driven out by the combined use of artillery, infantry and cavalry and fled, leaving most of their weapons.

TO BE TRIED IN WASHINGTON.

Representative Hermann's Case to be Called in March.

Washington, Jan. 11.—Representative Binger Hermann, of Oregon, will be tried in the courts of the District of Columbia for complicity in the land fraud cases in Oregon, beginning the last week in March.

Francis J. Heney, a special counsel of the department of justice, who has had direct charge of the Oregon land cases, made this statement today at the White House.

Mr. Heney had a conference with President Roosevelt in which some details of the land cases were discussed.

Following the Hermann trial, the case of P. A. Hyde, John A. Benson, J. H. Schneider and H. P. Diamond will be taken up.

Mr. Hermann just now is ill at the residence of his son-in-law, H. Prescott Galley in his city. He is suffering from the after effects of an attack of erysipelas, which he sustained while in Oregon. His condition is not thought to be serious and he is expected to be out in a few days.

PHILIPPINE TARIFF BILL.

Many Speeches in Opposition to it are Made in the House.

Washington, Jan. 11.—The Philippine tariff measure was the single topic of consideration in the house. The speeches were uniformly against the measure and were allowed to go in general without answer. Discussion in the form of tariff revision discussion was made in a brief speech by Mr. Gillett, of Massachusetts, who favored Canadian reciprocity. Mr. Bonnyage, of Colorado, discussed the bill from the standpoint of the beet sugar industry. Mr. Burgess, of Texas, opposed it on constitutional grounds and had a lively colloquy with the minority leader, Mr. Williams, on this point. He charged that Democrats, to be consistent, should oppose anything but free trade with the Philippines, on the ground that it was an American possession. Mr. Williams defended the minority position by stating that he was supporting this bill because it was as near free trade as it was possible to obtain from the majority. The issue was sharply drawn between the two members of the minority and furnished the interesting situation of the day. Mr. Cassel, of Pennsylvania, spoke in opposition, in behalf of the tobacco raisers of his district. Mr. Henry, of Connecticut, took the same position for his constituents. Mr. Gordon, of New York, closed the debate for the day with a brief reference to the need of taking the protection of the Dingley rates from the "plant trusts" of the country. The house, at 5 o'clock adjourned until tomorrow, when the discussion will be resumed.

A New Being.

Shepard, Ill., Jan. 8th (Special). Mrs. Sarah E. Rowe, who is now here, says she feels like "A New Being," although she is in her fifty-eighth year. Why? Because she took Dodd's Kidney Pills, that known medicine that has put new life into old bodies, and has come a God-send into homes of sorrow and suffering. She says:—

"No one knows what awful tortures I suffered with Rheumatism and my Trouble, until I got cured by Dodd's Kidney Pills. This grand remedy drove the Rheumatism out of my body, nothing else ever did me good. Dodd's Kidney Pills are for one hundred times their price, for I have made one, though I am 57 years of age now, a new being. In better shape now than I have been for many years and I owe it all to Dodd's Kidney Pills."

RAILROADS IN A FIGHT FOR TERMINAL PRIVILEGES

San Francisco, Jan. 11.—Colonel Heuer, the United States engineer in charge of harbor improvements on this coast, received from the war department the maps of rejected improvements in Oakland harbor, filed by the Western Pacific and Southern Pacific Railroad companies. They are alleged to show considerable variations from the claims heretofore attributed to the competing companies. The Western Pacific made an important move in the contest for supremacy in West Oakland, Vice-President Bogue of the Western Pacific, through his attorney, filed with the city council, two applications for franchises in this disputed territory. The first application is for a franchise to construct a railroad beginning at First and Union streets, thence running southwesterly across the property of the Southern Pacific company near the Perilla street slip, and running thence along the north retaining wall of the Oakland harbor, to the lighthouse. The second application is for a franchise to erect a passenger depot at the end of the wall, also wharves and four docks. It is proposed to make this the terminal station of the Western Pacific.

LAND OWNERS TALE OF WOE; GERMANS ABANDON ESTATES

Riga, Livonia, Jan. 11.—Although the troops are operating energetically in all directions, the revolutionary peasants are continuing their work of devastation, wandering in groups through the provinces, cutting the railway wherever an opportunity is offered, and attacking trains and passengers. Of the many historic castles erected in the days of the Teutonic knights of the Hanseatic league, which were rich in memories of the wars between the Russians and the Swedes, and Germans and Letts, only a few remain. Among those destroyed was the magnificent castle of Neumbers, the oldest in Courland, which was built in 1214 and contained historical documents and priceless pictures and antiquities. It belonged to Baron Von Dereke. Another baron, formerly a prosperous land owner, but now impoverished, bitterly assigns responsibility for the era of Jacques to the Russian government, which, he says, coquetted with the Lettish peasantry, promising in land and cattle, all inciting it against the estate owners with whom it formerly was on good terms. He added that he and his fellows of the Baltic nobility are forced to renounce their Russian citizenship and leave estates their forefathers had held for several centuries and migrate to Germany. "Bismarck, years ago, declared that the Baltic Germans were the best material for the Germanization of the Polish provinces," the baron adds, "and the Russian government is now helping make good the Bismarckian proposal." The German newspapers are appealing to the land owners to heed the call of duty and return to their estates, but this is impossible. The land owners are mostly without funds with which to restore the devastated estates, and must abandon them. On account of the continual anarchy the summer crops were meager, and the revolutionary peasants, who are living in the woods of destroyed estates, are forced by famine to attack and plunder villages where military protection is slight, and are perpetrating inhuman outrages. A number of the chief agitators at Windau and Galdingin, which places were occupied by troops after they had been for several weeks in the hands of the insurgents, were tried by court martial and shot.

STATEHOOD MEASURE HAS OPPOSITION IN DEVELOPING

Washington, Jan. 10.—Republicans in the house who oppose the proposed joint statehood bill have developed such strength that the date of the favorable report of the committee on territories on the measure is uncertain, and many members do not expect to have the bill brought before the house early this week, as was originally planned. Insurgent Republicans allege they have seventy-five Republican votes against the proposed rule preventing the amendment of the joint statehood measure. As the Democrats would vote solidly against such a rule, it has been reported that the rules committee will not attempt to prevent the amendment of the statehood bill. However, the friends of joint statehood do not admit that seventy-five Republicans will join in the attempt to amend the bill, and insist that the committee on rules will have no hesitation in submitting a rule preventing amendments. Speaker Cannon and his associates in support of the administration policy are exerting every effort to enforce party discipline. The indorsement of joint statehood by the Republican caucus and the position of the president in favor of the proposition as it will be presented in the Hamilton bill are being urged as imperative reasons for presenting a solid party front on the question. The most ardent supporters of the joint statehood bill admit that the movement to amend the Hamilton bill, and thus get a separate consideration of the admission of Oklahoma and Indian Territory and the admission of Arizona and New Mexico is stronger than was expected, but it has to concede more than forty Republican votes against the rule preventing the amendment of the Hamilton bill. If the advice of the conservative friends of the joint statehood proposition as approved by the Republican caucus of the house is followed, according to late developments, the statehood bill will not be brought into the house for action until some time after the Philippine tariff measure has been disposed of. An effort undoubtedly is being put forth to unite the opposition on both the statehood and Philippine measures. This effort has succeeded to a limited extent.

THE REBATE QUESTION AND ALL IT CONCERNS

Washington, Jan. 10.—Senator Long introduced in the senate a resolution calling on the attorney general for all correspondence between him and the president, the secretary of the navy and with Messrs. Harmon and Jackson, special counsel, and also for the decision of Judge Phillips, in regard to the Atchison, Topeka & Santa Fe rebate cases at Kansas City. This resolution is intended to supplement the motion of Senator Tillman requiring that the senate be furnished with all evidence and correspondence in the case in the hands of the interstate commerce committee. In Hands of a Mob. Shepherd, Tex., Jan. 11.—Ben Harris, a negro, who shot and killed A. Washington, Jan. 10.—No other country produced so great a surplus of meat and no other country, except Ireland, sends so many cattle to the English market as the United States, according to a bulletin issued.

OPEN PUBLICITY THE BEST GUARANTEE OF MERIT.

When the maker of a medicine, sold through druggists for family use, takes his patients into his confidence by frankly and fearlessly publishing broadcast as well as on its bottle wrappers, a full list of all its ingredients in plain English, and the action on its part, the best possible evidence that he is not afraid to have the search light of investigation shine upon his formula and that it will bear the fullest scrutiny and the most thorough investigation. Dr. W. W. Allen's Prescription for the cure of the weakness, periodical pains and functional derangements of the organs distinctly feminine, is the only medicine put up for sale through druggists for woman's special use, the maker of which is not afraid to take his patient into his confidence by publishing broadcast and honest publicity. A glance at the published ingredients of each bottle wrapper, will show that it is made wholly from native, American, medicinal roots, that it contains no poisonous or habit-forming ingredients, and is not an alcohol-pure, triple-refined glycerine, of proper strength being used instead of the commonly employed alcohol. It is the only medicine for women's peculiar diseases, sold by druggists, that does not contain a large percentage of alcohol, which is in the long run so harmful to woman's delicate, nervous system. Now, glycerine is perfectly harmless, and serves a valuable purpose by possessing intrinsic value all its own, and besides it enhances the curative effect of the other ingredients entering into the "Favorite Prescription." Some of the ablest medical writers and teachers endorse these views and praise the several ingredients of which "Favorite Prescription" is composed—recommending them for the cure of the very same diseases for which this famous medicine is advised. No other medicine for women has any such professional endorsement worth more than any number of ordinary testimonials. If interested, send name and address to Dr. W. W. Allen, 111 N. 3rd St., Philadelphia, Pa. A book of extracts from the works of eminent medical writers and teachers, endorsing the several ingredients and the "Favorite Prescription" medicine, are made of. It's free for the asking.

YOU HAVE NO RIGHT TO SUFFER

From Constipation, Bowel and Stomach Trouble.

Q. What is the beginning of sickness? A. Constipation.

Q. What is Constipation? A. Failure of the bowels to carry off the waste matter which lies in the alimentary canal where it decays and poisons the system. Eventually the results are death under the name of some other disease. Note the deaths from typhoid fever and appendicitis, stomach and bowel trouble, and the loss of vitality.

Q. What causes Constipation? A. Neglect to respond to the call of nature. Excessive use of alcohol, excess of brain work. Mental emotion and improper diet.

Q. What are the results of neglected Constipation? A. Constipation causes more suffering than any other disease. It causes rheumatism, colds, fever, stomach, bowel, kidney, lung and heart troubles, etc. It is the one disease that starts all others. Indigestion, dyspepsia, diarrhoea, loss of sleep and strength are its symptoms—piles, appendicitis and Astma, are caused by Constipation. Its consequences are known to all physicians, but few sufferers realize their condition until it is too late. Women become constipated and invalids as a result of Constipation.

Q. Do physicians recognize this? A. Yes. The first question your doctor asks you are you constipated? That is the secret.

Q. Can it be cured? A. Yes. By proper treatment. The common error is to resort to physics, such as pills, salts, mineral water, castor oil, injections, etc. These are not only injurious. They weaken and increase the malady. You know this by your own experience.

Q. What then should be done to cure it? A. Get a bottle of Mull's Grape Tonic at once. Mull's Grape Tonic will positively cause from a public standpoint; if the shortest space of time. No other remedy has before been known to cure Constipation positively and permanently.

Q. What is Mull's Grape Tonic? A. It is a Compound with 40 per cent. of the juice of Concord Grapes. It exerts a peculiar strengthening, healing influence upon the intestines, so that they can do their work. It is not a physic, but it cures Constipation, Dysentery, Stomach and Bowel Trouble, indigestion, biliousness, and all other ailments. It is pleasant to take. A Grape Tonic it is unequalled, insuring the system against disease. It strengthens and builds up the system.

Q. Where can Mull's Grape Tonic be had? A. Your druggist sells it. The dollar bottle contains nearly three times the 50-cent size.

Q. Good for all children and nursing mothers. A free bottle to all who have never used it because we know it will cure you.

140 FREE BOTTLE 1138 FREE. Send this coupon with your name and address, your druggist's name and loc., and we will supply you a sample free. If you have never used Mull's Grape Tonic, and will also send you a certificate good for \$1.00 toward the purchase of one more bottle from your druggist.

One Full Address and Write Plainly. Send 10 cent stamp for full catalogue. The 10 cent stamp should show six lines as much as 10 cent. Send one of these to your druggist as the 50 cent bottle. There is a great saving in buying the 10 cent bottle.

The genuine has a date and number stamped on the label—take no other than your druggist's.

MORGAN'S RATE BILL

Senator From Alabama Discusses The Question.

ANY CITIZEN MAY COMPLAIN.

Shipper May Recover Damages Sustained by Unjust Preference—Authorizes His State to Bring Suit for Recovery.

Washington, Jan. 10.—A new measure for the regulation of railroad rates was introduced by Senator Morgan. The bill makes it unlawful for common carriers to demand or receive more than a reasonable compensation for transporting freight or passengers, or from giving unreasonable preferences in rates or charges or in facilities either to shipper or passenger or locality, and provides for the recovery of any such unreasonable charges or damages sustained as the result of such preferences in any United States district court wherever the claim amounts to \$50. Any citizen of a state may make complaint to the governor thereof, and the governor is authorized, if empowered by the laws of such state, to institute suit for recovery. Senator Culberson, of Texas, offered a rate regulation bill which provides that whenever the interstate commerce commission decides that any rate is unjust it shall fix a rate which shall be the lawful charge for one year. In case the rate fixed is confiscatory of a carrier's property, proceedings against the commission may be instituted in any equity court. Representative Townsend of Michigan, introduced a bill empowering the president to name a special commission of seven members, similar to the anthracite coal strike commission, to act in emergencies in case of difference between employers and employees where the mails and interstate commerce may be affected.

The senate adopted a resolution offered by Senator Long, directing Attorney General Moody to send to the senate copies of the correspondence between the president and the attorney general; the president and the secretary of the navy, and the attorney general and special counsel, Harmon & Judson, relating to a departure from the published rates by the Atchison, Topeka & Santa Fe railroad in the transportation of coal for the Colorado Fuel and Iron Company.

Representative Fowler, of New Jersey, introduced a bill amending the national bank laws so that the total liabilities of any single person, firm or corporation to any bank shall not exceed one-tenth of the amount of the capital stock actually paid in and of the unimpaired surplus of the bank, instead of their capital stock only.

\$450,000 BONDS INVALIDATED. Held Up Until Montana Legislature Can Act.

Helena, Mont., Jan. 11.—By decision rendered by the state supreme court \$450,000 of bonds of the State Normal College and other institutions are invalidated. A special session of the legislature may be necessary to straighten out the tangle, and until this is done several state institutions may be compelled to suspend activities. On advice of Attorney General Galen, State Treasurer Rice recently declined to pay warrants drawn against the State Normal school funds.

The attorney general maintained that money derived from the sale of state school lands has been illegally invested in bonds of state institutions and that the funds derived from such bond sales could not legally be used. This contention the supreme court upholds.

PREACHER FOR THE CAUTION. Says It Is Best Solution of a Difficult Problem.

Chicago, Jan. 10.—Rev. George D. Rogers, pastor of the First Baptist church of Highland Park, near Fort Sheridan, declared himself without reserve in favor of the re-establishment of the army canton. In a letter published he says he has made a study of conditions surrounding the army post at Fort Sheridan and has come to the conclusion that the expulsion of the canton is the best solution of a difficult problem.

SUIT TO OUST STORM. Governor of Indiana Swears to the Complaint.

Indianapolis, Ind., Jan. 9.—Sul, to remove Daniel E. Storms from his office as secretary of Indiana was instituted in the circuit court of Marion county immediately following the filing of a complaint sworn to by Gov. J. Frank Hanly, alleging misconduct in his office, embezzlement, conversion of funds and wrongful use of funds. Saturday, Jan. 13, was fixed as the day upon which the secretary of state must appear and answer.

Japanese Cañon to Resign. Tokio, Jan. 6.—It is understood that the China-Japanese convention will be ratified January 6, after which the cabinet of Gen. Count Katsuma will resign. The Marquis Satonji, leader of the constitutionalists, will assume the premiership January 7.

Orange Crop Failure Denied. San Francisco, Jan. 9.—Both Southern Pacific and Santa Fe officials deny the truth of the report that the Southern orange crop has been damaged either by wind or by rats.

Depressing Orators.

Congressman John Wesley Gaines of Tennessee, and Robert Adams, Jr., of Pennsylvania, somehow or other have acquired reputation as being very poor speakers. When either begins speaking the galleries become empty about as rapidly as though the house were on fire. Mr. Adams began a speech the other day and there was such a rush outward that the man whose duty it is to lower the flag at the adjournment started to perform that task. A member of the house who had not been in listening to the speeches came to the same conclusion as he pushed into a crowded elevator. "When did the house adjourn to?" he asked the elevator conductor. "It hasn't adjourned," said he. "Mr. Adams, of Pennsylvania, is speaking," he added, whereupon the member guessed he would go home anyhow.

Lights of London's Streets. The London council now, for the first time, according to the Indianapolis News, is proposing to take upon itself the lighting of the city's streets. Hitherto it has been a matter of private enterprise. In 1716 the old common council thought itself most public spirited in passing an act by which "all housekeepers whose house, door or gateway fronts or lies next to any street, lane or public passage or place of the said city shall in every dark night, that is, every night between the second night after each full moon and the seventh night after each new moon, set or hang out one or more lights, with sufficient cotton wicks, on penalty of 1 shilling."

Dealers say that as soon as a customer tries Defiance Starch it is impossible to sell them any other cold water starch. It can be used cold or boiled.

A Notable Edition. To show what Alabama is doing, the Montgomery Advertiser issued a Christmas edition of a hundred pages on December 17. The paper contained 376 columns of reading matter, the greater part of which was by Alabama writers, which may cause some envy in Indiana. Among other things showing how Southern journalism is progressing, the Advertiser calls attention to the fact that its Christmas edition also contained 424 columns of advertising and 237 engravings made in its own plant, and mostly drawn by its own men. There were 26,761 copies of the edition sold.

Plan to Empty London. That sanguine evolutionary prophet H. G. Wells has pictured for us England covered with a network of roads of different kinds—pedestrians, bicyclists, horseback riders, trucks, carriages, slow motors, fast motors, racing motors, all in their proper places, and London emptying itself into the country swiftly and without confusion or friction. This beautiful fancy picture will probably not come true in our day, but motorists will take heart at the news of plans for the first road for the exclusive use of automobiles. The road from London to Brighton is prodigiously used during the season, and the additional highway will no doubt be a welcome relief.

London Is Exclusive. Jack London, the author, who was recently in Boston, recalls an earlier visit eleven years ago, when he arrived on the truck of a freight car. He lost his way in the tortuous streets of the city, unique experience for him, although he has tramped about many cities of the world. London's experiences as a tramp have not made him open-handed and hospitable. On the door of the London home in San Francisco is a sign reading: "No Admission Except on Business; No Business Transacted Here," while on the back door is another sign, reading: "Please Do Not Enter Without Knocking; Please Do Not Knock."

**Public is Aroused.**

The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach, liver and kidneys. Mary H. Walters, of 546 St. Clair Ave., Columbus, O., writes: "For several months I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, my stomach was so weak from useless doctors' drugs that I could not eat. Soon after beginning to take Electric Bitters I obtained relief and in a short time I was entirely cured." Guaranteed at Central Drug Store; 50c.

Mr. Hood has about sixty acres in wheat, while it don't show up much because the top of the ground is frozen the greater part of the time, thus retarding growth, the plant is making root and Mr. Hood thinks that with the season now in the ground there is fine prospects for a good crop next summer.

The Commissioners Court at their meeting Monday agreed to furnish half the funds for a well and windmill for the cemetery, if the ladies of the W. C. T. U. succeeded in raising the other half. This is a commendable work started by the W. C. T. U., and it is good in the court assisting them.

Today is the time set for another big wolf drive to come off in this county. The day is clear, still, and warm for this time of year, and ideal for the sport.

The weather thus far this winter has been fine, no severe storms whatever. It has not been exactly ideal for stock because of so much moisture during the fall and early winter causing the grass to rot and lose its substance. The rains and snows have been followed by clear warm weather and for the combined interests of the country we think the weather could hardly have been better.

If there were a great many good, patriotic and liberal men like Thos. O'Loughlin, newspaper men would be like most other folks; then it would be no uncommon thing for members of the fraternity to be accustomed to three square meals a day. An eight year old son of Mr. and Mrs. B. F. Stokes was killed at Memphis, Texas, Monday. W. B. Ware moving from the district. Thus so early in the year will you be able to make valuable use of that insignificant looking piece of paper they call a poll tax receipt. **Never Disappoints**

Many extensively advertised remedies are failures when put to the test. Hunt's Lightning Oil is an exception. Confidence in it is never misplaced—disappointment never follows its use. **Building Material Still Advances.**

On January 1st the lumber mills made another advance on lumber. The advance being from \$1 to \$3 per thousand, according to grade. This, it is claimed, was occasioned by the unprecedented heavy demand for building material throughout the Southwest. This indicates the material prosperity of the country; and is also indicative that there is but little likelihood of the price ever being lower than at present, in fact, it will be higher. It looks like the prophecy of the Chairman of the Texas Lumbermen's Association made last summer that "inside of three years lumber will be so high that only the very rich can afford to use it for building purposes" will prove true.

**Let Him Prosper.**

If your neighbor is prospering let him prosper. Don't growl, grunt or grumble. Say a good word for him and let him go at that. Don't be a kicker. Your turn will come. No one is the money show. If you see the town is moving along rapidly, feel proud of it. Help it along. Show a little push. Try to get some of the benefit yourself. Don't stand around like a chilly cadaver and waste your time feeling sore because some other fellow has more sense and success than you have. Do a little hustling yourself, and if you can say a good word for your town or its people, say it like a prince. If you are full of bile and disposed to say something mean, put a padlock on your mouth and keep it there till you can get a hypodermic injection of the milk of human kindness. Don't be a kicker. No man ever made a dollar kicking but a few professional ball players. No man ever helped himself up permanently by kicking his neighbor down. Give others a kind word and give it freely. It won't cost you a penny, and remember you may want a kind word yourself some day. You may have thousands today and tomorrow be without the price of a shave. Don't be a kicker. It doesn't pay. You can't afford it. There is nothing in it. If you want to throw at somebody, throw omelette, and don't throw mud or bricks. If you feel that way, you are the man that needs kicking. Whatever you do, don't allow yourself to become a chronic kicker. Let everybody push together and we will be happier and live longer.

**Sunday School Convention.**

The Executive Committee of the Third Annual Convention of the Panhandle Sunday School Association met December 31st, 1905.

The Committee decided to hold the annual convention of 1906 at Miami in the Baptist church, June 16 and 17.

The Secretary was ordered to correspond with C. D. Meigs, Superintendent and Secretary of the State Association, to conduct the next convention.

A Program Committee of five were appointed, viz: Mr. Kelly, Chairman, and Messdames Gist, Heare, Ewing and Stump.

The Secretary is to act as a financial committee to solicit the various Sunday Schools to give a free will offering.

An Entertainment Committee was appointed as follows: S. V. Gist, Chairman, and Mr. Coffee, Mrs. Winsett, Miss Edna Davis, Miss Lela Tolbert, Miss Luella Carter, Miss Rilla Pulaski, Will Hubbard, Levi Stump, Claud Moore.

Secretary was instructed to correspond with W. A. Edwards of the American Sunday School Union, the traveling organizer, to visit and organize Sunday Schools in this district.

It was voted to have these minutes published in The Miami Chief.

Adjourned. Mrs. STUMP, Sec.

 CORRESPONDENTS:

**Cholera Infantum.**

Ruth, the little daughter of E. N. Dewey of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. "I happened to think of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got a bottle of it from the store. In five hours I saw a change for the better. We kept on giving in and before she had taken the half of one small bottle she was well." This remedy for sale at Central Drug.

**The Possible Pace.**

"An example that ye should follow his steps."—1 Peter, II, 21.

"Strike a gait that will net kill your horses and will bring your men in at the week's end in good fighting trim," was the parting order of the commanding colonel to an expedition starting out in hot pursuit of the marauding Indians.

So when entering upon the campaign of life it is of first importance to take a stride you can maintain; the pursuit is long and the way often rough and weary. When choosing a calling, venturing into place in the social and domestic world, setting up moral ideals and planning the religious belief, character and work, be wary of the false gait; it may be the lagging shamble of failure or the impossible dash that must end in disappointment and defeat.

Every man has his own gait, his own peculiarities, that we call individualisms. For this very reason the athlete goes into training that he may standardize himself physically, and most men, by observing the laws of the state and of good society, standardize themselves civically and morally, yet without destroying their individuality.

It is the high office of the "Captain of our salvation" both to direct us to the discovery of ourselves and our individual gifts and to set the marching steps for us. His steps mark the course to be followed, measure the rate of progress, standardize character and shape ideals for all noble ambitions. He would stir, stimulate, help and train our feet to follow in His own blood-stained tracks. First, His is the pace possible. He has adapted it to all the race; it is neither too high nor too low, too hard nor too easy. It is spoken of as "the upward way of God" or the "high calling"—the lofty walk. Stronuous, yes! But the native nobility in us delights in such a challenge as this. Difficultly, burden and glorious struggle make life worth living and most worth saving. The pity and grief come only with failure, and failure comes too often from the false pace.

The wise and loving apostle calls us to submit to the divine example and to establish our steps by His, and to follow on the golden mean that is made surely possible to all the serious and noble.

Again, His is a pace progressive. He ever leads—even along the higher levels of thought, development and endeavor. He is ever calling us on and on and upward.

And His is a pace that arrives. One who follows in His steps meets duty with preparedness and lends opportunity with readiness, fights his last battle with increasing strength and strides along the last march with hope and joy unabated and a faith triumphant.

The Secretary is to act as a financial committee to solicit the various Sunday Schools to give a free will offering.

An Entertainment Committee was appointed as follows: S. V. Gist, Chairman, and Mr. Coffee, Mrs. Winsett, Miss Edna Davis, Miss Lela Tolbert, Miss Luella Carter, Miss Rilla Pulaski, Will Hubbard, Levi Stump, Claud Moore.

Secretary was instructed to correspond with W. A. Edwards of the American Sunday School Union, the traveling organizer, to visit and organize Sunday Schools in this district.

It was voted to have these minutes published in The Miami Chief.

Adjourned. Mrs. STUMP, Sec.

**Snub Rider Haggard.**

Rider Haggard heard that a ballet based on "She" was to be produced in Hungary. He wrote for programs and photographs. The reply of the manager was that the illustrious "Herr Author" was dead. Mr. Haggard asked for a denial, but the manager replied that the editors refused to insert it, as they believed it to be an unscrupulous attempt to obtain free advertising for the ballet.
