An Awful Cough Cured.

Two years ago our little girl had a

bad case of pneumonia which left her

with a cough which she could not

get rid of. She was coughing just

like one with the whooping cough

and some thought would not get

well at all. We got

Chamberlain's Cough Remedy

which acted like a charm. She

stopped coughing and got stout and

Can you win? You realize that to

win anything these days requires

strength, with mind and body in tune.

Man or woman with disordered di-

gestive organs is not in shape for a

day's work or a day's play. How can

you expect to win? Kodol for Dyspep-

sis contains the digestive juices of a

healthy stomach and will put your

stomach in a shape to perform its im-

portant function of supplying the body

with strength building blood. What

do you eat that relieves indiges-

tion, dyspepsia, sour stomach, palpi-

tation of the heart and constipation.

Wounds, Bruises and Burns.

By applying an antiseptic dressing to

wounds, bruises, burns and like inju-

ries before inflammation sets in, they may

be healed without maturation and in

about one-third the time required by

the old treatment. This is the great

discovery and triumph of modern

surgery. Chamberlain's Pain Balm acts

on this same principle. It is an anti-

septic and when applied to such inju-

ries, causes them to heal very quickly.

It also allays the pain and soreness and

prevents any danger of blood poison-

ing. Keep a bottle of Pain Balm in

your home and it will save you time

and money, not to mention the incon-

venience and suffering such injuries

entail. For sale at Central Drug Store.

A New Rock Machine.

Geo. Nickel has a new machine for

making concrete building stones. It

has plates for various shapes and do-

own stone for building purposes. Or

Mr. Nickel will contract to make the

The Advance pithily says: "The newspaper is a law book for the indolent, a sermon for the thoughtless, a library for the poor and an admonisher for the lawless. It may stimulate the most indifferent, but it can not be published without cost and sent free to subscribers."

Cotton made another advance of \$2 a bale on the strength of storm and frost reports. This week at Clarkville, Texas, some cotton of long staple sold at 16 cents, and another central Texas point some sold at 18 cents. At most points the price is from 9 1/2 to 10 1/2 cents.

Murder at Amarillo.

Amarillo is fast gaining the name of being a tough place. The rest of the Panhandle is surprised ever few days at hearing of some work of some black handed villain being done there and each crime seems more atrocious in its nature. The most fiendish yet reported is the murder of a youth of about 17, the body was found on Thursday of last week near the Choctaw Y, perfectly naked, not quite dead but unconscious, with eleven gashes about the head that looked like they were done with a hatchet. He died two days later without gaining consciousness. Four days later his clothes were found in a steel tank car of water that stood on the track near where the body was found where the murder evidently put them in the hope of hiding every possible clue to the identity of his victim. Not a paper or other article by which to identify the unfortunate man was left with his clothing.

Wealthiest County in Texas

Dallas County again forged to the front as the wealthiest county in Texas with Harris county close second. For the past several years there has been considerable rivalry between these two counties as to which is the wealthiest in assessed valuations. While the tax rolls of these two counties for 1906 have not been received as yet by the comptroller's department, it is learned that Dallas has gained in wealth nearly \$1,000,000 more than Harris county for 1906.—Ex.

Death Dealing Machines.

It has not been many months since the world was informed of the wonderful invention of a Frenchman by which submarines would be guided on voyages of destruction, mines would be exploded under the hulls of unsuspecting battleships and fires kindled at distances varying from a mile to fifteen miles, all of which was to be accomplished by a power akin to that known to commerce as the wireless telegraph. War was to be made so terrible by this new invention that nations would hesitate long before resorting to this extreme in the effort to arrive at a settlement of differences. From England now comes accounts of marvelous performances of a newly perfected magazine gun that the Technical world asserts will make mince meat of an army in less time than it would take to wind a clock. An English sergeant major with this terrible instrument fired fifteen well aimed shots in nine seconds and 40 shots in one minute, every shot being fired at 200 yards and hit within a circle of 15 inches in diameter; in every case he would have hit his man had he been in battle. This rifle's automatic mechanism is worked by the recoil of the gun, and all the soldier has to do is to aim and keep pulling the trigger. Thus the soldier is saved much fatigue, for with the ordinary gun the operator goes through several motions, the hardest veteran is exhausted in a few minutes of rapid firing. With the Halle gun, as it is called, 250 rounds can be fired in 8 minutes.

It's Fine.

C. M. Johnson, Louisville, Ky. writes: "I have used Hunt's Cure and it is fine. We have had many similar letters. Hunt's Cure is a strictly guaranteed remedy for any variety of skin diseases. It stops itching instantaneously."

H. E. Hoover becomes associated with B. F. Tepe in the lumber yards formerly owned by Mr. Tepe alone. The new company will be incorporated.

Senator Willacy suggests that the abandoned fort at Brownsville be donated by Uncle Sam for the proposed Pan-American College.

Were it not for the invention of the barbed wire the Panhandle to day would be one vast stretch of almost uninhabited country, or still the home of the Indian and buffalo. The man who first conceived the idea of the wire with the barb for fencing was truly a benefactor of mankind, and the Panhandle people especially, should long remember the name of Jos. H. Glidden, the inventor of the barbed wire fence. Mr. Glidden died at his home in Dekalb, Ill., last Tuesday, aged 93.

The Terminal Advance is the name of a new paper started in a town without a name, located at the terminal point of the Texas Central road in Fisher county. The publisher is Don H. Biggers. He explains that he expects the place to be a town. He says, "Seemingly this paper may be previously established, but the editor has always contended that if the north pole was discovered it would be by some country newspaper man looking for a new location.—Exchange.

The eyes of all Wall street and the Wall street editors are still on the crop reports. They know very well if the farmers do not produce wealth they can't steal it, so they are all very anxious about this time of the year. They say that the wheat crop is larger this year than last, but the corn crop is somewhat less.

Did anyone ever know of a candidate dying before election day? It seems that the candidate and the proverbial gray mule are the only creatures on earth that are immune from the cold and icy hand of death.—Joe Sappington's Remarks.

The Confederate pension appropriation for the ensuing twelve months is \$500,000 against \$400,000 for the preceding year, making the new apportionment \$165,000 instead of \$14 per quarter as heretofore.

Danger from the Plague.

There's great danger from the plague of coughs and colds that are prevalent unless you take Dr. King's New Discovery for consumption, coughs and cold. Mrs. Geo. Walls of Forest City, Mo., writes: "It is a Godsend to people living in climates where coughs and colds prevail. I find it quickly ends them. It prevents pneumonia, cures lagrippe, gives wonderful relief in asthma and hay fever and makes weak lungs strong enough to ward off consumption, coughs and cold. 50c and \$1. Guaranteed at Central Drug Store."

If you have a field of kafir corn to head it will pay you to buy a pair of the Gordon Corn Topping Tools, made for both right and left hands. They are a great labor and time saving tool and will pay for themselves twice over in one day's work, as they leave both hands free to cut and toss the heads into a wagon, two rows at a time, nearly as fast as a team can walk. Man and His "Gallusus."

The "gallus" marks the freeman and the man of genuine, unpretending culture and civilization. Your snob and your savage abhor it. In Mesopotamia the wild bashi bazoak wear a belt; in Yucatan the Indian wears a girdle of shark's teeth in Senegambia the shameless cannibal sport a gunny sack; in Atlanta City some years back the dudes used to wear sashes. But find a man who when he throws off his coat to begin his daily toil, lays bare a pair of heavy sky blue gallusos and you'll find a man who pays his way in the world, loves his wife, rears his children in the fear of the Lord and votes the straight ticket. The "gallus" is useful, it is graceful, and properly adorned with hand painted flowers and brass buckles it is beautiful. To be ashamed of it, to conceal it or to abandon it for a sober leather belt is to fail in an essential of true manhood and fly in the face of fate.—Baltimore Sun.

A nominee on the Grayson county Republican ticket offered, if elected, to serve without pay. The matter was referred to the attorney general's department. Assistant Attorney General Pollard holds that compensation must be accepted, and that a candidate making such an offer could not hold office, even as in this case, he agreed to give his salary to charity.—Clarendon Chronicle.

Governor Lanham will deliver the principal address at the opening of the State Fair of Texas on Saturday, the 13th of October at Dallas.

Governor Lanham has granted a stay of execution to Joan Boya, a negro who was to have been hanged at La Grange Friday.

John Smith, a deaf-mute was run over and instantly killed seven miles east of Mineola by an eastbound Texas and Pacific passenger train Thursday.

The Bois d'Arc Schoolhouse, two miles northwest of McKinney, was burned while it was being moved to another location. The traction engine pulling it set fire to it.

J. F. Turley, a highly respected young railroad man, was shot and instantly killed at El Paso. Turley was a member of a very prominent Tennessee family and formerly lived in Fort Worth, Texas.

Sid Logan met a tragic death at Harrisburg Switch in McLennan County one night last week. While feeding a gin, he was caught in the saws and so badly torn that he bled to death.

A logging road, fifteen miles in length, will be built from Cooper, Delta County, to the forests on White Oak and Sulphur creeks. The timber supply on these two streams is seemingly inexhaustible.

Zach Conley, a well-known negro character, was struck on the head, presumably by a bottle, at a saloon in the Red Light district at Temple and his skull crushed. Two white men were arrested.

Turner Goodwin, an old Confederate soldier, near Garrettts Bluff, who went through the war without receiving a scratch, was accidentally shot a few days ago with a target rifle in the hands of a small boy.

The Railroad Commission has issued an order directing the Texas and Pacific to provide adequate depot accommodations at Savoy; the new structure to be completed by December 1.

W. B. Martin, of Terrell, a few days since marketed a bale of long staple cotton which he had grown on his farm near Terrell at 4 cents per pound. It was pronounced the finest staple cotton marketed in Terrell.

October 30 to November 3 has been set as the time for holding the carnival in Dallas this fall. The carnival is under the management of the Business Men's League, as heretofore.

Allen Turner, a Beaumont oil man, was found mortally wounded in front of the Y. M. C. A. building of that city a few nights since. It is not known whether he fell from a window of the building or was the victim of a personal attack.

While out hunting with a companion of about his age, Preston Hinson, the 14-year-old son of Mrs. E. W. Bishop, of Nixon, was accidentally, and probably fatally shot in the head with a .22-calibre rifle. It entered the front of the ear, ranging down and lodging in the neck.

The reorganized Republicans formally opened their State campaign in Dallas Saturday night. Dr. A. W. Arkeson, of Denison, nominee for Governor, and M. T. Conner, of Dallas, nominee for Congress, were the principal speakers.

Twelve arrests were made in Fort Worth Wednesday for violation of the anti-spitting ordinance. Three of the offenders were unable to pay the fines, and are now "making little ones out of big ones."

In an altercation at DeWittville, in the southern part of Burleson county, Joe Sehaj, a prominent Bohemian farmer, shot and instantly killed a negro named Horace Christman. It seems that the negro had done some insulting talk to Mrs. Sehaj.

The Commissioners Court of Fitch County has ordered an election to be held on the 17 day of November to determine whether or not bonds to the amount of \$50,000 shall be issued for the purpose of building a new court house.

Mike Salom, who was awarded the contract to build the Knights of Pythias Widows and Orphans home at Weatherford, commenced work on the new home last week. The building will be made of brick and is located about two miles east of the city.

While picking cotton near Comland, south of Taylor, an 18-year-old son of F. Nickel, a German farmer, was bitten three times above the knee by a rattlesnake. Prompt rational treatment saved the boy's life.

R. E. Wadkins, a race horse man of New York, arrived in Dallas Thursday with a car of fifteen horses to be run on the Fair Grounds race course during the coming Fair. Mr. Wadkins stabled his horses in the race track barns.

It is announced that the tie-treating plant of the Missouri, Kansas and Texas railway system, which is located at Greenville, Texas, will soon be enlarged and improved to double its present capacity.

EVENTS OF EVERYWHERE.

The World editorially suggests Governor Cleveland to the Democrats of New Jersey who are seeking a candidate for United States senator.

William Rice, an old Confederate veteran at Schneck Sulphur Springs, Ala., killed himself. He was familiarly known throughout the country as "Bill Arp."

Tommy Burns, claimant of the heavyweight championship, scored a decisive victory over Flynn of Philadelphia, knocking Flynn for three minutes in the fifteenth round.

The deterioration in the Arkansas cotton crop since September 1 has been marked. It is reliably estimated that the crop has decreased not less than 15 per cent.

The trial of Dr. Frank Brouwer, charged with the murder of his wife last September, began Monday in Toms River, N. J., before Supreme Court Justice Hendrickson. The case has attracted much public attention.

Fire broke out in the rear of the grocery store of J. R. Duncan & Co. at Mill Creek, I. T., completely destroying the store and contents; also three other frame buildings, including the postoffice.

Mrs. Emma Chattlos, wife of Louis Chattlos, died at her home in Tuckahoe, New York, a few days since. She was said to have been the mother of the largest family in that state, having had nineteen children.

Charles R. Halliwell, first vice president of the American Tobacco Company, was married last Tuesday to Miss Ruth A. Cole, a trained nurse who attended him through a long illness a few months ago.

Five passengers were killed outright and a score were injured in a rear-end collision between a regular passenger train and a military special on the Boston and Maine Railroad, directly in front of the Lansingburg, N. Y., depot.

The press copies of President Roosevelt's Harrisburg speech were printed in reformed spelling, but there were only six reformed words in the 3,900 composing the address.

The Danison fair closed Saturday after a most satisfactory season.

Bad O'Neal, a resident of Dallas, who was working on a grading gang at Caney, I. T., was killed by the accidental discharge of his pistol.

A car containing forty-eight bales of cotton burned on the track at Bay City Friday morning.

Contracts were signed recently for \$55,000 worth of machinery by the Fulton Bag and Cotton Mills of Atlanta, Ga., for equipping their branch factory now in process of erection at Dallas. The new factory at Dallas will be equipped to turn out bagging, twines and similar products.

Eight men were killed and nearly two-score persons were injured by the explosion of illuminating gas in the Market street subway at Sixth street, Philadelphia. High buildings were shaken by the force of the explosion and for a block on either side of the scene nearly every window was shattered.

The first snow of the season fell in Colorado Springs last Thursday. Jack Link, a prospector, who was whipped in the Lamar County jail, has filed suit against the sheriff, jailer, county attorney and two deputies and a justice of the peace for \$35,000.

Cotton seed products have very much strengthened in price as a result of the storm which swept Louisiana, Alabama and Mississippi, and the result of rains which have fallen heavily in those States and Arkansas.

It is estimated that the cost of intervention in Cuba is \$10,000 a day for transports alone. This does not include transportation to the point of embarkation. The total cost will be about \$50,000 a day.

After an existence of eighteen years the Tri-State Medical Society, representing prominent physicians in Tennessee, Alabama and Georgia, agreed to relinquish their charter and go out of existence for the purpose of forming the Southern Medical Association.

Louis Caell, president of the People's Bank, New Orleans, aged sixty-six, is dead. He served in the Confederate Army throughout the war.

Dallas city council has under advisement the imposition of a vehicle tax.

At the Red Cut, half a mile east of Silsbee, a man named Larry was shot and instantly killed.

J. M. Martin, living three miles west of Rexton, picked 704 pounds of cotton Wednesday, and 648 pounds the day before.

The president has appointed Chas. H. Robb of Vermont, at present associate attorney general, to be Justice of the District of Columbia court of appeals, to succeed Judge Dool, resigned.

PRETTY PASTIMES.

DEVICES BY WHICH HOSTESS MAY AMUSE GUESTS.

Portrait Party Easily Arranged and Very Enjoyable—Setting for a Harvest Home Frolic in Barn or Parlor.

The hostess who enjoys a social affair entailing no brain fag should issue invitations for a portrait party.

The only apparatus necessary is a quantity of blank cards or squares of pasteboard, say about five inches square, and pencils.

Each gentleman on arriving receives a slip of paper on which is written the name of some lady in the company, and when the fun is in readiness the partners thus appointed must sit opposite each other and draw each other's likenesses.

At the end of ten minutes the portraits are collected by the hostess, numbered and pinned up on the wall.

The men then choose new partners and the game proceeds as before.

Each player before the drawing stops must draw three members of the opposite sex in rounds of ten minutes each.

When the drawing is at an end the company, furnished with slips of paper and pencils, guesses or tries to guess the subjects of the different likenesses.

A prize, which might be an order for pictures on some photographic establishment of the neighborhood, is awarded for the best set of guesses.

Another prize could be given for the sketch pronounced cleverest by a consensus of opinion. A framed photograph of some portrait masterpiece would make a good choice.

Harvest Home Party.

The harvest home idea is a splendid one for an evening indoors, and can be made extremely picturesque as well as amusing.

A barn is an ideal setting for such a frolic, but when this is not available the requirements of the festival, of the chimerical, can be met by the use of a room with a fireplace (if not in use) and sheaves of wheat, through which you must twine scarlet tissue paper poppies.

Have for the mantel or some other prominent position a large, prettily arranged basket of fruit and vines, or fruit and vegetables.

The hostess and other girls of the party should wear gingham aprons and sun bonnets.

Any of the several amusing apple games is in order, such as a race, pushing apples with match sticks, or the game where those present are divided into two sides and strive each other in filling two baskets with the fruit, which is carried on teapoons.

Or introduce a corn shelling contest, with a prize for the person shelling his or her ear in the shortest time.

Or have a list of names of fruit and vegetables in which the letters are jumbled, and let the men and girls work these out, with a gift for the one getting most words in the shortest time.

The supper should be of the good old-fashioned country type. Corn meal porridge, with maple syrup, fried chicken, waffles, baked apples, milk, tea, preserves and plain cake.

A barn dance, or a parlor imitation of it, should round out a very pleasant evening.

Rules for Baking.

ADOPT NEW CANAL POLICY.

Place Made Vacant by Gov. Magoon Is to Be Left Unfilled.

It Has Been Definitely Decided to Try Digging the Big Ditch by Contract.

Washington, D. C.—President Roosevelt has decided to adopt a new policy with regard to the administration of the Panama canal zone.

The governorship is to be left vacant and affairs in the zone are to be administered by Chief Engineer Stevens and the isthmian canal commission of which he is a member.

The decision not to name a successor to Charles Magoon as governor of the canal zone is due to the president's belief that all important administrative questions requiring the time of one man had been settled and that in the interests of a simplified administration it is advisable to place the government in the hands of the chief engineer.

It was pointed out that the United States is not trying to establish a colony on the isthmus, but is endeavoring to construct a canal.

It has been fully decided that the canal will be completed by contract. In a few days the commission will make public a statement setting forth its reasons for favoring the contract system and at that time a form of contract will also probably be published showing exactly the sort of document believed by the commission to be the best for safeguarding the work.

President Roosevelt is known to support the commission in its position that the work can be done more satisfactorily by contractors than by the government. He had a long conference with Chairman Shontz Monday on the subject and the various arguments in favor of the contract system were discussed fully.

President Roosevelt still intends to visit the isthmus this fall, and unless there be some change for the worse in the Cuban situation will probably leave for Cuba a short time after the election.

Authorities Want Cars Examined.

Kingfisher, Ok.—The discovery of a woman's skirt, gloves and side comb under one corner of the day coach of the Rock Island passenger train which was derailed at the Cimarron river bridge near Dover September 18, led Tuesday to a renewal of efforts on the part of Kingfisher county authorities to compel the railroad company to raise or destroy both the day and smoking coaches. It is believed by many that a number of bodies of missing passengers are inside the smoker's entrance to which were choked with sand. It is probable that mandamus proceedings will be brought by the county authorities.

Daniel Tarbox, Jersey Dead.

St. Louis, Missouri.—Complications arising from advanced cancer resulted in the death Sunday of Daniel Tarbox Jewett, 59 years old, former United States senator from Missouri. In earlier years he was a prominent attorney in St. Louis. He opposed Abraham Lincoln in four separate suits at law, defeating him at three of them.

Yellow Fever Threatens Havana.

Cienfuegos, Cuba.—Col. Belmont Tuesday ordered the immediate removal of the American marines from the city on account of the appearance here of yellow fever. The marines were taken on board the transport.

Ask for Panama Canal Bill.

Washington, D. C.—Invitations for proposals to complete the Panama canal were issued Tuesday by the canal commission and the form of contract under which the work is to be done was made public.

Schwab Visits the President.

Washington, D. C.—Charles M. Schwab, of the Bethlehem Steel company, was one of President Roosevelt's callers Monday. He called to brief and Mr. Schwab said related to personal matters of which he was not at a liberty to speak.

Leishman at Last Received.

Constantinople.—The sultan Friday officially received Ambassador Leishman who presented his credentials as first ambassador of the United States to Turkey.

EXPLOSION IN SUBWAY.

Six Men Were Killed and Great Damage Done in Busy Section of Philadelphia.

Philadelphia, Pa.—A terrific explosion of illuminating gas in the subway of the Philadelphia Rapid Transit company under construction at Sixth and Market streets Friday resulted in the death of six men, the injuring of about a dozen others and causing property damage that will run into thousands of dollars.

Besides the six men that are known to be dead, it is said that at least three others are buried under tons of earth in the wrecked subway.

The explosion was caused by a leak in a city gas main that had been improperly repaired Thursday night. The escaping gas formed in a pocket in the subway and it is believed that a workman carrying a lamp into the hole ignited the gas.

The force of the explosion wrecked the subway for half a block and all the heavy timbering and other structural work including tons of earth, fell into the excavation. A heavy rain during the night had slightly weakened the walls of the excavation and added to the damage.

THE KIMMEL VERDICT.

Jury Decides Kansas Man Who Disappeared in 1868 Dead and Insurance Policy Payable.

CAN NOT ENJOIN NEWSPAPER

If Libelous Matter is Published Only Recourse is Suit for Damages According to Judge Mullins.

Denver, Col.—That newspapers cannot be restrained by courts of equity from publishing matter alleged to be libelous was the gist of a decision handed down by Judge John I. Mullins of the Denver district court, Thursday when he dissolved the temporary restraining order issued by him two weeks ago against the Daily Mining Record, of this city, at the instance of G. G. Rice, a Goddell, Nev., mining promoter.

If libelous matter is published in a newspaper the only recourse of the person or institution claiming to be damaged is in an action for damages at law, ruled Judge Mullins who stated that according to his interpretation of the statutes no publisher could be enjoined from printing whatever he saw fit as long as he could respond to any suit for damages.

ARKANSAS RIVER CASE.

Federal Supreme Court Postpones the Hearing Until a Full Bench is Secured.

Washington, D. C.—Because of the constitutional questions involved the supreme court of the United States Tuesday postponed the hearing of the irrigation case of Kansas versus Colorado, relating to the disposition of the waters of the Arkansas river until a full bench is secured by the appointment of a successor to Justice Brown. In response to questions from counsel the chief justice said that while the court sympathized with the attorneys in their desire for a speedy trial he could give no promise when it could be had beyond the assurance that the case would be placed at the head of the calendar as soon as Justice Brown's successor is appointed.

Magoon Arrives in Cuba.

Havana, Cuba.—Charles E. Magoon, the newly appointed provisional governor of Cuba, arrived here Tuesday afternoon. NERVOUS DEBILITY

A Scranton Woman Tells How Williams' Pink Pills Made Her Well and Strong.

Nervous debility is the common ailment for which the doctors term neurasthenia. It is characterized by mental depression, fits of "blues," or melancholy, loss of energy and spirits. The patient becomes dull, the pink fades from the cheeks, the memory becomes defective, that it is difficult to recall dates and names at will. Some of these symptoms may be present or all of them, and the remedy lies in toning up the nervous system and there is no medicine better adapted for this purpose than Williams' Pink Pills.

Mrs. Jane J. Davies, of No. 314 Wren street, Scranton, Pa., says: "My health and strength and my nervous system became so debilitated that I was wretched. I could not rest or sleep at night and woke up as weary as when I went to bed. My head ached in the morning and often there was a pain in my right side which was worse than anything else. My nerves were on edge and I was generally very nervous. I decided to try Dr. Williams' Pink Pills for Pale People, as my husband had taken them with good results, and they worked for me. Now I have no more pain in my side, no more headaches, sleep well and feel strong and able to do my work."

Dr. Williams' Pink Pills cured Mrs. Davies and they can do just as much for other nervous people, including women who are slipping into a general decline. They strike straight at the cause of all common diseases caused by poor and impoverished blood.

Dr. Williams' Pink Pills are sold by druggists, or will be sent postpaid, on receipt of price, 50 cents per box, or boxes for \$2.50, by Dr. Williams' Medicine Co., Schenectady, N. Y.

Starch, like everything else, is being constantly improved, the patent Starches put on the market 25 years ago are very different and inferior to those of the present day. In the latest discovery—Defiance Starch—all injurious chemicals are omitted, while the addition of another ingredient, invented by us, gives to the Starch a strength and smoothness never approached by other brands.

Hard-Working Chinese Official.

Everybody in China works hard, even those who have reached the highest positions. It is related of a member of the Chinese cabinet that he left home every morning at two o'clock, as he was on duty at the palace from three to six. As a member of the privy council he was engaged from six to nine. From nine until he was at the war department, of which he was president. As the member of the board of punishment he was in attendance from 12 till two, and as a minister of the foreign office he spent every day from two till five or six there. In addition he frequently served on special boards or commissions.

Nothing to Fear. Mothers need have no hesitancy in continuing to give Chamberlain's Cough Remedy to their little ones as it contains absolutely nothing injurious. This remedy is not only perfectly safe to give small children but is a medicine of great worth and merit. It has a world wide reputation for its cures of coughs, colds and croup and can always be relied upon. At Central Drug Store.

W. S. Tolbert brought to this office Monday a sweet potato weighing 7 1/2 pounds. From one-fifth of an acre, and after the family had been supplied for two months from the patch, he says he harvested sixty-seven and one-half bushels.

Eiler's "King of the Cattle Ring" was presented here Monday night and was witnessed by a very large crowd for Weeping Water. The play is good and is well presented by the company. The company included some very good artists and every part of the show, including the concert, was above the average. We think that should they decide to come this way again they would have to enlarge their tent to hold the crowd.—The Weeping Water Republic, Weeping Water, Neb., Sept. 29, '06. THE NEW FLOUR MILL

The Pride of the Town

Wednesday afternoon the machinery of the new flour mill was put in motion, the golden grain rolled from the bin passing through the powerful rollers on in its winding course and reached the packer a product of the finest texture and snowy whiteness. The mill has been crowded with visitors and nearly all them carrying away a small sack of flour, a gift from the mill, and already everybody in town have tasted the bread made from the product of our home mill and made from select Panhandle grown wheat. All pronounce the flour of the best quality, making bread of a rich flavor and after eating leaves a satisfied feeling down where one lives. Our citizens take great pride in the success of this our first undertaking in the industrial line. The mill is installed with electric lights and have been running several hours every night. They propose to put in grist mill machinery at once, for grinding corn and making meal.

Railroad Mass-Meeting.

One by One in Quick Succession New Propositions Pop Up for Miami.

A new railroad for Miami would be all right, and traversing the country north and south of us it would cross a wide scope of country rich in possibilities and not yet penetrated by another road, and having as it is project a Gulf port terminus at Port Arthur and running through the oil and rice belt of South Texas, the rich developed agricultural, cotton and fruit belt of Central Texas, the wheat and small grain section of North Texas, the as yet undeveloped section of the great Panhandle that is rich in possibilities and resources and which it has already been demonstrated can raise the very finest fruit, cotton, corn, wheat and other small grain, alfalfa and other fine hay, forage crops, sugar beets, broom corn, castor beans, and all kinds of live stock, and giving some indications of oil—all in all the most promising section for strict diversification; then on north to the mineral belt and coal fields of Colorado. No one can deny that such a road should prove a paying one and would be a booster for Miami. This Denver & Gulf road was the matter under consideration at a mass-meeting last Saturday night at which a Mr. Davis of Oklahoma was present, having driven over from Mobeetie with F. P. Reid and Prof. Wiley. Mr. Davis claimed to be doing the preliminary work previous to surveying and asks from Mobeetie and Miami jointly a bonus of \$75,000 and a right-of-way thru Wheeler and Roberts County, 20 per cent of the bonus promised by each town to be paid when the grade is finished to the town and the balance when the track is finished to each town. W. S. Martin as chairman of the meeting appointed Judge Carter, T. M. Cunningham and Attorney W. R. Ewing as a committee with authority to select others to see what bonus could be raised and as to the right-of-way, and to take up correspondence in regards to the road, and the committee propose to go work and see what can be done as there is nothing to lose, and much to be gained should the road go through and Miami thus gain another road.
