

The Blunt Edge

By LELAND BOYD

Another bill has been introduced in the Senate by Ralph Yarborough. An announcement of his introduction came via the mails this week.

The bill was introduced in the House by Congressman Jim Wright. Yarborough says of the bill, "The future Scientists of America bill...should help a great deal in building American students' interest in science."

"Ever since the Russians shot Sputnik into outer space, it has been obvious that we must speed up our scientific development program. But not believing in communist tactics, we should not force a high percentage of our students to become scientists."

"Instead, to spur our youngsters' interest in the world of science, we must do more to institute programs and courses which will attract more able students to this fascinating field."

LIKE FFA

Yarborough continues to explain that the program he and Wright are interested in getting adopted would be similar to the Future Farmers of America program. The program would be financed with appropriations of \$75 million to be spent on a matching basis with states and schools for training equipment, employing teachers, and financing the program.

As of this week, Bovina has another slogan, though the new title is not yet official.

"CANTALOPE CAPITAL OF PARMER COUNTY is the phrase that cantaloupe farmers are talking about. Credit the two that are in a dither for their cantaloupes to come up first, Howard Ellison and Don Sides. Each is anxious for his to be first so he can claim to be the champion cantaloupe grower. Wouldn't be surprised to have cantaloupe steak for dinner in the next week.

What this area needs is a bunch of recipes for cantaloupe preparation. If the right cook gets a-hold of a cantaloupe it might be possible to prepare them to taste as a wide variety of food such as steak, beans, potatoes, and liver.

ROADEING CHARLESSES
The Bovina Jaycees stirred up quite a crowd Saturday during the first rodeo which they sponsored. Having seen one other rodeo, I would credit the Jaycees with having the best one that I know anything about. It was for the teen-agers, and there were quite a few contestants.

Though not quite qualifying to compete in the rodeo, a pair of adults were seen soon after the track tests were finished, trying their skill at the barrel race. Jimmy and Harry J. Charles were both in pickups and both were on the barrel track at the same time. Spectators held their breath for a few moments, but the barrels somehow managed to keep from being crushed.

This writer tried the barrel track with a station wagon with fair success, but the strain was too much. Ended up with a crick in a shoulder that reminds me that I might as well be ridden in a genuine rodeo.

PAVING MISERIES
Scott Levins says that paving costs more than just money, and that people who live on paving project streets are paying for paving in inconvenience, because of the intersection hump.

Along the middle of the street on which Levins lives was a tall dump of gravel as of the first part of the week.

SWEATING IN SHORTS
A whole crowd of cotton farmers were "sweating" while wearing short sleeves this past weekend while the temperatures dropped and the moisture fell again.

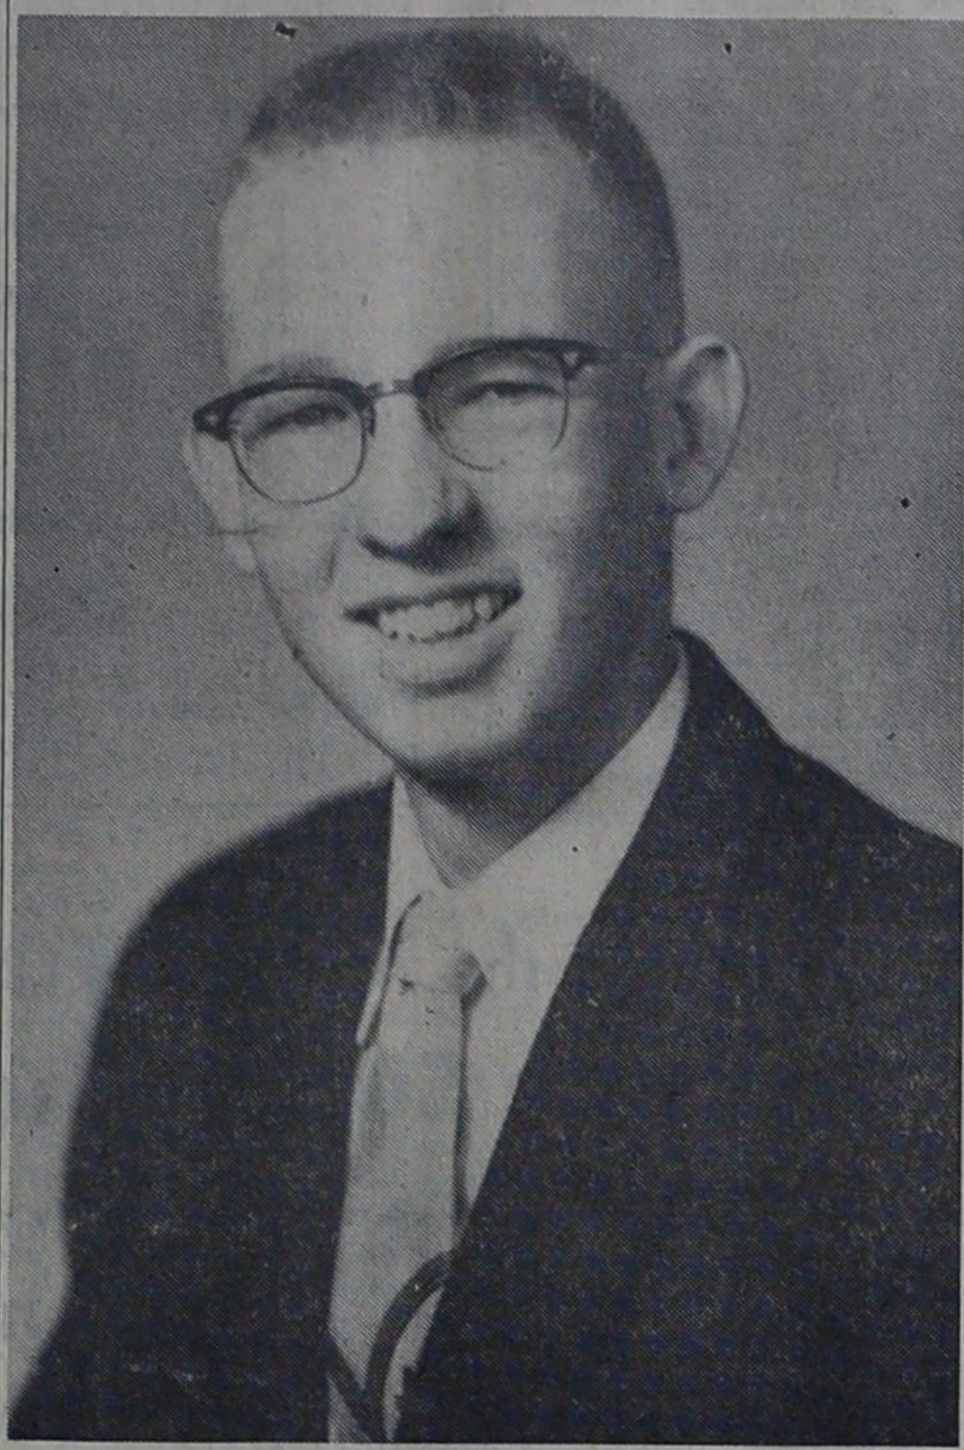

I met one farmer wearing his short sleeved shirt, and knew just how cold he was, since I had one on too. Quoth a town citizen: "I know you must have some cotton planted because you are wearing your short sleeved shirts."

With the coming of the warmer weather the first part of this week, wide grins were coming from most farmers as well as townspeople because of the temperate weather.

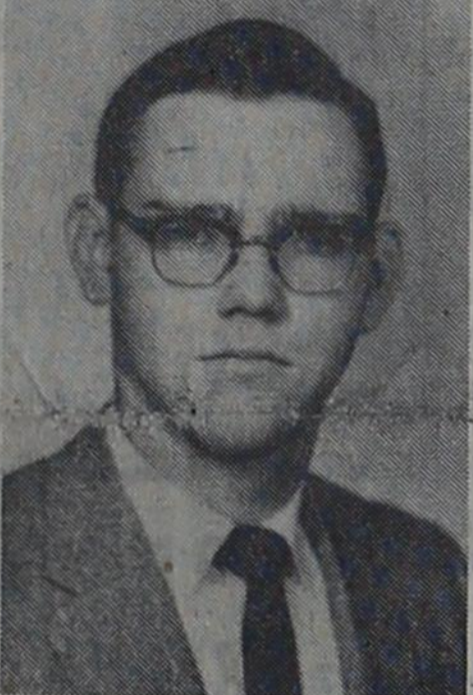

It is interesting to note the change in tempers and facial expressions with the change in weather. Especially during the long wet spell, that has passed now (we hope), there was a frown about town. With the change in humidity and temperature, there have been quite a few more smiles, and a farmer will even feel good enough to pick up a coffee tab once in a while.

Not so for the drylanders, though, because a few were heard this week to wish for more rain.

Troy Fuller's place of business has a sign that might be worth taking to heart: "Lord, help me to keep my words tender and sweet, because tomorrow I might have them to eat."

DANNY MORTON has been named the valedictorian of the Bovina High School senior class with an average of 91.53 for his four high school years. Morton has attended Bovina School two years. Besides his high scholastic marks, he participated in all sports, was vice-president of the senior class, a member of the science club, and is president of the Methodist Youth Fellowship of the Bovina Methodist Church. Morton is 17 years old; the son of Mr. and Mrs. Warren Morton.

JAMES STEVENS—The salutatorian of the Bovina High School senior class is James Stevens, 18, with a grade average of 90.82. Stevens' activities included being president of the FFA his junior year, and sentinel for the district, lettering two years on the football team, with all-district honors this year, two-time band letterman, and 4-H club work. Stevens plans to go to West Texas State College after graduation from Bovina.

Accident Victim Reported Improved

Kenneth Northcutt, who was critically injured in a one-car accident on Running Water Draw bridge several weeks ago, is still in Northwest Texas Hospital in Amarillo, and continues to progress, reports from his friends in Bovina said this week.

Although it is still not known when he will be released, and there are possibilities of further treatment for bone injuries, his condition is described as much improved.

How seldom we weigh our neighbor in the same balance with ourselves!
—Thomas A. Kempis

How come gals with cotton stockings never see a mouse?
—Coast Guard Magazine.

Highway 60 Work To Total \$831,000

Although Parmer County got left out of the main or arterial intra-state master road program that was drawn up a year ago, improvements scheduled for this year to Highway 60, which slices from the southwest to the northeast corner, will be substantial.

The county this week was notified by the Texas Highway Department that the \$831,000 will be spent on the highway this year in improvements. O. L. Crain, district engineer, Lubbock, says the road will be widened, improved, and sealed with the funds.

Official confirmation is lacking, but observers expect the improvements to compare with the stretch in Highway 60 from near Summerfield in Castro

Band Concert Is Postponed

Due to conflict in schedules the late spring concert to be presented by the advanced band of Bovina Public Schools will be next Tuesday evening. The concert was originally planned for Sunday afternoon.

The concert will be at 8 p.m. in the school auditorium. Admission will be 50 cents for adults and 25 cents for students.

Featured on the program, reports W. Wayne Stevens, Bovina band and musical instructor, will be popular numbers, as well as overture and march selections. Also, a woodwind choir will perform and a girls' trio will sing popular selections. The advanced band is made up of youngsters from the seventh through twelfth grades. Everyone is cordially invited to attend the last band program of the year, says Stevens.

Lettermen Announced At Banquet

Thirty-two Bovina High School boys and 15 girls were awarded letters for sports participation at the annual Student Council Athletic Banquet Saturday night.

Senior boys and the sports they lettered in are Terry Adams, football and baseball; Dick Horn, football, track and baseball; Dickie Steelman, football; James Stevens, football; Mike O'Hair, football and track; Jerry Burnett, football, basketball and track; and Danny Morton, football, basketball and baseball.

Junior class boys awarded letters are Donald Jones, basketball and baseball; Ronnie Isham, baseball; Don Bandy, football, track and baseball; Kent Glasscock, football and baseball; Ramey Brandon, foot-

ball, basketball and baseball; Jerry Strawn, track and baseball; Billy Burnam, football, track and basketball; Furman Kelso, football and baseball; James Lawlis, football, basketball, track and baseball; and Duane Rea, who was awarded a letter for managership.

Four sophomores who lettered included John Lorenz, football and track; Jerry Barron, football; Sid Killough, basketball; and Arnold Kriegel, basketball.

Freshmen and their letters are James Clayton, football; Don Caldwell, football, basketball, track and baseball; Delbert Hall, football; John Riddle, basketball, track and baseball; Lynn Baxter, football; Bill Strawn, track; Roger Ezell, basketball, football and baseball; O. W. Adams, football; Jerry Wright, football; Tommy Taylor, football; and Jackie Turner, football.

The girls who lettered included the Fillie basketball team and their managers. They were Kay Leake, Sandra Martin, Janice Richards, Nancy Cumpton, Joan Kay Ezell, Nita Beth Estes, Kay Hartzog, Mildred Young, Lexie Stevenson, Celia Berry, Joy Redden and Arlene Clayton. Managers were Barbara Taylor, Nicki Woelfel and Virginia Embree.

ALVIN FARRELL—

Mechanic Burned When Motor Spits From Carburetor

Alvin Farrell received burns varying from first to third degree when an irrigation motor spit flames from the carburetor while he was "priming" it with gasoline. The accident occurred Monday night at 10:30 p.m. at his shop, Farrell Motor Co. Farrell was taken to Parmer County Community Hospital where he remained for treatment as of Wednesday.

Farrell had finished overhauling the motor late and was trying to start it, reports Mrs. Farrell. He was pouring gasoline in it with a can, and the gas ignited when the motor backfired. He tossed the can down, spilling some of the burning fuel on his leg.

His doctor says that he received first and second degree burns about his hands and legs, and some third degree burns on his right hand, Mrs. Farrell reported.

Farrell rubbed dirt on his clothing to put out the burning fuel and Mrs. Farrell put out the rest of the fire with an extinguisher.

It was not known when Farrell would be released from the hospital.

New Ownership At McKillip Motor

McKillip Motor Company, Ford dealer for Parmer County, has been sold to Oscar Baxter and Cordie Potts of Friona, E. R. "Weedy" Coffman of Farrell and Vance Crume of Hereford.

The transaction was made Saturday.

The four men are buying the firm under the business name Friona Motors, but will continue operation in Farrell for an indefinite period. All employees of the company have been retained by the new management.

McKillip Motor has been owned and operated by Lawrence McKillip and Coffman, who were partners until Saturday. McKillip is keeping the used cars, but all other assets of the business are being transferred to the new owners.

Baxter owns and operates the Ford tractor and implements house in Friona. Potts is a farmer from the Rhea community. Crume has been associated with McKillip Motor as bookkeeper and parts manager since the two men bought out Sikes Motor Company two years ago.

T. W. Bewley Files For Commissioner

T. W. (Tot) Bewley of Lazbuddie has filed for a place on the ballot in the Democratic Primary to be held in July.

Mr. Bewley, in announcing his candidacy for the office of commissioner of Precinct No. 4 of Parmer County, made the following statement:

"As commissioner I will be able to devote my full time to the duties of my office, and if elected, I pledge my best efforts for the interest of Precinct 4 and of Parmer County. "I will appreciate any consideration shown my candidacy. I will do my utmost to see each person individually as soon as possible and will appreciate an opportunity to visit with you."

Mr. Bewley has lived in Precinct 4 for 15 years and is a retired farmer.

P'ment Gets No Protest

No protests to assessments to property for paving were heard at the public hearing held by the Bovina city commission Monday night. The meeting concerned property from First to Highway 60.

However, several residents were present at the meeting. Jess Vestal wanted to be assured that the paving would not affect his homestead at the corner of Eighth Street and Highway 86.

Also present were Tommy Horton, Oscar Venable, Luther Boatman, and Otho Hammonds, chief of the fire department. Hammonds presented a request that the commission consider compensating the firemen for their service, through the minimum water bill and by paying them for actual time spent fighting fires.

The commission requested that he present his request in writing for study and action at a later time.

Also discussed was hiring an auditor to prepare the city records. Along with the auditor discussion was a suggestion by Boatman that the financial statement be published in the Bovina Blade.

However, this suggestion was not met with favor by the commission, with Emmett Tabor replying that it was not necessary, because the city records are open to anyone who wanted to inspect them, and because of the cost.

WEATHER
by **WILLIE**
Hot, damp days, cool nights, some very pretty days. More rain this weekend.
—Willie

SHED SPOT CAUSING DIFFICULTY

FD Recruits Four

Temporarily at least, difficulty has arisen in finding a suitable location that is available for building the vegetable packing shed slated for Bovina, according to Otto Ables of Gateway Produce Co.

Charlie Flynn, who owns the company, was in Bovina Sunday, and scouted for a location. Two city-owned lots in the western part of town were located and were chosen for the location, but protest from nearby residents inclined the city commission to not allow the shed to be located there.

However, the only limitations on the location of the shed are the availability of city water and sewer connections and electricity, according to Ables.

The company is already going ahead with plans to start the shed soon, and Ables has been contacting contractors for estimates on the building.

However, a suitable location is the main problem facing the construction of the shed.

Seniors Sell Bake Goods Saturday

The senior class of Bovina High School will sponsor a bake sale at ABC Drug Saturday beginning at 9 a.m., according to class sponsor, Bob Willis.

The sale is planned to raise money for the senior trip to Galveston at the end of school.

Mr. and Mrs. Elbert Kelley, Mrs. Kelley is also her daughter.

The California couple returned to their home last Wednesday.

Morton Wins JC Rodeo

Danny Morton won the Bovina Jaycees Teenage Safe Driving Rodeo Saturday morning with a score of 478 points out of a possible 500 total with a steady hand on the wheel and a high score on the written part of the examination.

The winner was announced Tuesday night at an awards supper at which Morton received a plaque and a certificate of his award.

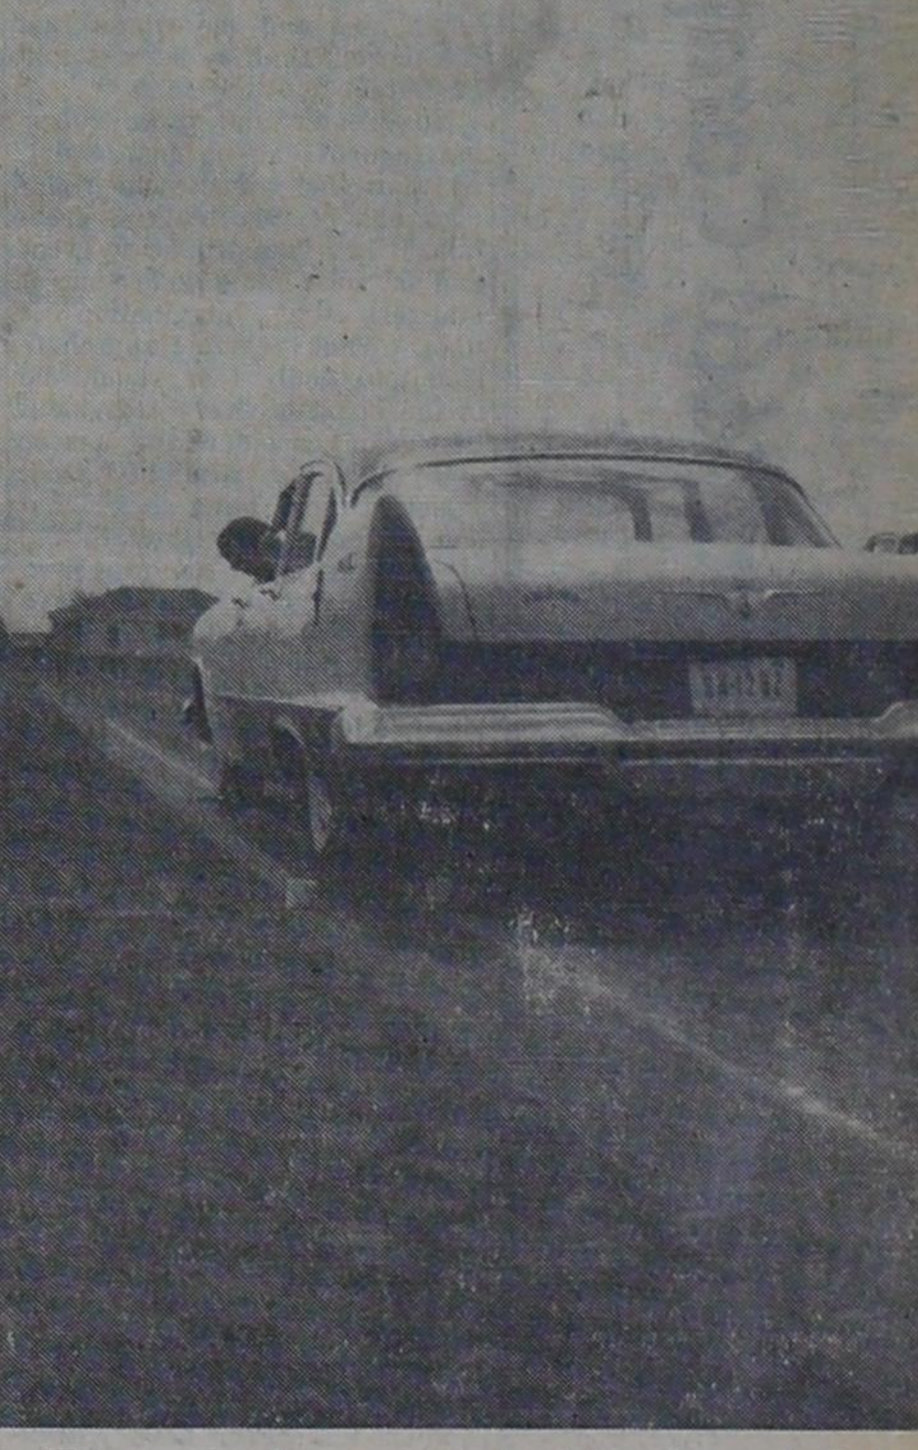

Second place winner was Julius Bradshaw and Ronnie Isham was third place winner. Both scored high points in the contest.

The rodeo was the first the Jaycees had conducted, but President Tom Bonds announced at the banquet that the organization plans to make it an annual project of the Jaycees.

The driving contest was conducted Saturday morning at the baseball park, with Charles Don Smith in charge of the contest and Tom Atkins and J. E. Sherrill Jr. as judges of the driving.

Morton, Bradshaw and Isham are to enter the Regional Jaycees Rodeo in Plainview Sunday afternoon, competing against winners of the surrounding towns that had a Safe Driving Rodeo.

If they win in the regional contest, they will be eligible to enter the state contest.

BACKER UPPER TESTER

This track of cups is part of the Jaycee's Safe Driving Rodeo contest that was conducted Saturday morning. Lexie Stevenson tries her skill at backing, trying not to smash the cups.

ROADEO CONTESTANTS—Grouped about the contest car are six of the teenagers who entered the Jaycees Rodeo Saturday. They are Danny Morton, Nicki Woelfel, Lexie Stevenson, Ronnie Isham, and Julius Bradshaw.

MUSTANGS BEAT FRIONA, LOSE TO LAZBUDDIE

The Bovina Mustangs added another win to their season record in play last week but during the same period were handed a loss by the Lazbuddie Longhorns.

District-wise, the Mustangs are on the short side with 2 wins out of 5 games. Next district game will be tomorrow with Hart there. The season record is five wins and four losses.

"Snow White" To Be Presented

The operetta "Snow White and the Seven Dwarfs" will be presented Friday afternoon by the members of Mrs. June Rhodes' third grade class. It will be at 2:30, in the school auditorium.

Margaret Jo Venable, daughter of Mr. and Mrs. Elton Venable, will portray Snow White and James Lee Calaway, son of the Robert Calaways, will play the part of the prince. The traditional story will be given with the music of Walt Disney's production used as a background.

Mrs. Rhodes promises the public that the operetta will be "very cute and very entertaining." She invites everyone to attend.

CARD OF THANKS
We want to thank you for being so cooperative as we took the survey last Sunday. We sincerely appreciate it. Members of the Bovina Baptist Church
46-11c

Members of the Woman's Society of Christian Service of the Methodist Church will meet Tuesday, May 13, in the fellowship hall for a regular, monthly meeting.

Beginning at 12:30 with a covered dish luncheon, the program for the day will feature Mrs. L. M. Grissom as worship leader and Mrs. L. H. Pesch as program chairman. Hostesses will be Mrs. Rouel Barron and Mrs. O. H. Jones. Members of the organization are urged to attend.

Letters to the editor and mailed items should have the name of the contributor signed.

Mrs. Woelfel Is Shower Honoree

Mrs. Billy Woelfel was honored with a bridal shower Friday afternoon in the home of Mrs. Sammy Sudderth. The shower, a "come and go" event, was between three and five o'clock.

The bride's table was laid with a pink lace cloth over pink. The centerpiece featured twin white net "stand-up" hearts, which served as a background for an arrangement of fresh lilac blossoms. The centerpiece rested on a circular mirror.

The hostesses alternated at the table. Refreshments were pink punch, white individual cakes and assorted salted nuts. Mrs. Sudderth presided at the guest book, from a small table

which featured a miniature bride and groom centerpiece among the ruffles of two white net hearts.

Gifts were opened by the bride and displayed in the Sudderth living room.

Hostesses for the shower were Mrs. Joe Pinner, Mrs. Billy Marshall, Mrs. Jesse Walling, Mrs. Sudderth, Mrs. Boye Taylor, Mrs. Levi Johnson, Mrs. Robert Calaway, Mrs. Buck Ellison, Mrs. Tom Rhodes and Mrs. Lloyd Killough.

Others were Mrs. Jay Sherrill, Mrs. Charlie Jefferson, and Mrs. William Gromowsky. The hostess gift was an automatic coffee maker.

The honoree, her mother, Mrs. Carl McMennamy of Hale Center, and the bridegroom's mother, Mrs. E. E. Woelfel of Bovina, were all presented corsages of white carnations.

Guests attending the shower were Mrs. Carl McMennamy and Mrs. Joe McMennamy, both of Hale Center, Mrs. Jack Anderson, Mrs. E. E. Woelfel, Miss Nancy Cumpton, Miss

Nickie Woelfel, Mrs. W. J. Parker, Mrs. J. R. Caldwell, Mrs. James Boardman, Mrs. Alfred White, Mrs. E. M. Ware and Mrs. Norman Taylor. Gifts were sent by many who were unable to attend.

'Sleeping Beauty' Is Presented By Third Grade Class

The traditional story of "Sleeping Beauty" was presented last Wednesday morning by the third grade class of Mrs. Emma Beard. The production was in the school auditorium for the elementary classes and for many guests.

The story was acted out by the youngsters, who were in costumes made by their mothers. Gale Boyd, daughter of Mr. and Mrs. Earl Dean Boyd, was the princess; Lee Terry, son of Mr. and Mrs. Hilton Terry played the part of the prince and the king and queen were played by Kregg Wilson, son of Mr. and Mrs. Robert E. Wilson, and Beverly Pinner, daughter of Mr. and Mrs. Joe Pinner.

Also taking part was Betty Pounds, who portrayed the bad fairy. Other fairies were Linda Homer, Karen Beauchamp, Roxie Hutto, Debra Edens, Patsy and Lupe Calderon and Rose Villarreal.

Hunters were played by Eddi Corn, Ricky Kunselman, Louis Jardo and Robert McCollough. Guards were Craton Looney, Billy White, Baldimer Villarreal and Joe Straskulic.

Pedro Villarreal was in charge of the stage lighting and Sammy Stoner took charge of the curtain. The four-act play was, according to teachers and guests who attended, exceptionally well produced. Not only did each child know his own part, says Mrs. Pinner, but he knew everyone else's as well.

So well was the program produced, says Mrs. Beard, that guests who visited from Farwell invited the class to present the play in the Farwell Schools today (Wednesday). The invitation was accepted.

Before the production, several vocal selections were given by a number of children. Mrs. Doris Wilson accompanied them on the piano.

HD Club Has Family Life Study Friday

A study and demonstration on "Family Life" by Miss Jimmie Lou Wainscott, Parmer County home demonstration agent, was the main feature of the Friday afternoon meeting of the Bovina Good Neighbor Home Demonstration Club. The meeting was in the home of Mrs. Jack Morris.

Miss Wainscott spoke on several phases of family life, but stressed the keeping of family, home, and farm economic records. She handed out a variety of pamphlets on the subject and gave suggestions of how best to keep records up to date and clear to the whole family.

During a business meeting, presided over by Mrs. Wilfred Sikes, club president, a report of the Parmer County Home Demonstration Club Council was given. Mrs. Sikes told of several plans of the Council's for future meetings. Among them were tentative plans for a first aid course for members of the several county clubs. The local club discussed the possibility of such a series of studies on first aid and made plans to have it later in the season, if an instructor can be obtained.

Also, a plan for a blood-typing program was discussed. Tentative plans are to contact technicians in the area for more information.

May 29 was the date set for the annual Pressure Cooker Workshop. A demonstration of the correct and easiest ways of using the pressure cooker will be given by Miss Wainscott. The place for the meeting was not designated.

The exchange of meetings program with the Oklahoma Lane Club was also discussed. The Oklahoma Lane Club will present a program on spices and herbs to the local club Friday, June 12. The meeting will be in the home of Mrs. J. D. Stevens. The Bovina Club will present a program to the Oklahoma Lane Club in June also.

The hostess served refreshments of cookies, coffee and punch to Mrs. Don Bernard, Mrs. D. C. Looney, Mrs. Mabel Newberry, Mrs. Howard Looney, Mrs. Wilfred Sikes, Mrs. John Sikes, Mrs. Charles Don Smith and Mrs. Stevens. Others were Mrs. J. A. Taylor, Mrs. D. H. Wilkerson, Mrs. Stacy Queen and Miss Wainscott. One guest, Mrs. Bill Litscher, also attended.

Following the program and business meeting was a "white elephant" sale. Each member brought a small object which was auctioned off to raise money for the club treasury. A total of \$8.68 was raised through the sale.

The next meeting will be Friday afternoon, May 16, in the home of Mrs. Newberry. The demonstration, on kitchen improvements, will be given by Mrs. J. A. Taylor and Mrs. Charles Corn.

Members of the Woman's Society of Christian Service of the Methodist Church and the Wesleyan Service Guild met Tuesday evening of last week for the final session of a series of Bible studies. The meeting was in the parlor of the Methodist Church and Mrs. W. R. Beard led the study, "The Gospel, According to Saint Mark."

The meeting was devoted almost entirely to a review of the five previous meetings. Also discussed were the arrest, trial, crucifixion and burial of Jesus, as told in the book of Mark. The discussion, in which the group all participated, also included Peter's denial of Christ; the Lord's Supper and His appearances after He arose.

Mrs. John Dixon gave a devotional which was along the same theme. The worship center, which was prepared by Mrs. Dixon, featured a table laid with a black cloth and resting in the center was a replica of the cross and a crown of thorns. On another table, laid with a white cloth, a royal crown rested thus showing the promise of life, through Christ's death.

Those attending were Mrs. W. Wayne Stevens, Mrs. Bedford Caldwell, Mrs. George Turner, Miss Rita Caldwell, Mrs. Margaret Caldwell, Mrs. E. M. Ware, Mrs. Warren Morton, Mrs. C. F. Hastings, Mrs. Dixon, Mrs. Jimmie Ware, Miss Lola Grissom, Mrs. L. M. Grissom, Mrs. Wilbur Charles, Mrs. Hilton Terry, Miss Grace Paul, Mrs. W. E. Williams, Mrs. Alvin Farrell, Mrs. W. E. Thornton and Mrs. Beard.

All regular meetings of the two organizations involved in the study had been suspended for the past six weeks. However, they will be resumed next week. The Wesleyan Service Guild meeting has been tentatively set for Monday evening, May 12, and the Marzie Lynn Circle for the following Tuesday afternoon.

From Dumas

Mr. and Mrs. D. A. McCutchan and sons of Dumas visited over the weekend in Bovina. They were guests in the home of his uncle and wife, Mr. and Mrs. A. R. McCutchan, and also visited with other friends in this area.

chicken.

Following the meal, Rev. W. R. Beard, pastor of the church, gave a short devotional. Afterwards, the group visited and played ping-pong.

Among those attending were Mr. and Mrs. Alvin Farrell, Mr. and Mrs. D. R. Bushnell, Mr. and Mrs. Tom Caldwell, Mr. and Mrs. Bedford Caldwell, Mr. and Mrs. S. E. Redden, Mr. and Mrs. Gene Ezell, Mr. and Mrs. J. W. Whelan, Mr. and Mrs. Warren Morton, Mr. and Mrs. H. L. McLean, Mr. and Mrs. Robert Wilson, Vernon Estes, Roy Clark and Mr. and Mrs. W. E. Thornton.

Others were Mr. and Mrs. R. G. Barron, Mr. and Mrs. Thomas Beauchamp, Mr. and Mrs. A. M. Wilson, Mr. and Mrs. Earl Stevenson, Mr. and Mrs. Billie Suddenth, Mr. and Mrs. John Dixon, Rev. and Mrs. J. T. Hammonds, Mr. and Mrs. Jimmie Charles and Mr. and Mrs. W. Wayne Stevens. Children of many of the couples also attended.

WSSC and Guild Have Final Study Tuesday Night

Members of the Woman's Society of Christian Service of the Methodist Church and the Wesleyan Service Guild met Tuesday evening of last week for the final session of a series of Bible studies. The meeting was in the parlor of the Methodist Church and Mrs. W. R. Beard led the study, "The Gospel, According to Saint Mark."

The meeting was devoted almost entirely to a review of the five previous meetings. Also discussed were the arrest, trial, crucifixion and burial of Jesus, as told in the book of Mark. The discussion, in which the group all participated, also included Peter's denial of Christ; the Lord's Supper and His appearances after He arose.

Mrs. John Dixon gave a devotional which was along the same theme. The worship center, which was prepared by Mrs. Dixon, featured a table laid with a black cloth and resting in the center was a replica of the cross and a crown of thorns. On another table, laid with a white cloth, a royal crown rested thus showing the promise of life, through Christ's death.

Those attending were Mrs. W. Wayne Stevens, Mrs. Bedford Caldwell, Mrs. George Turner, Miss Rita Caldwell, Mrs. Margaret Caldwell, Mrs. E. M. Ware, Mrs. Warren Morton, Mrs. C. F. Hastings, Mrs. Dixon, Mrs. Jimmie Ware, Miss Lola Grissom, Mrs. L. M. Grissom, Mrs. Wilbur Charles, Mrs. Hilton Terry, Miss Grace Paul, Mrs. W. E. Williams, Mrs. Alvin Farrell, Mrs. W. E. Thornton and Mrs. Beard.

All regular meetings of the two organizations involved in the study had been suspended for the past six weeks. However, they will be resumed next week. The Wesleyan Service Guild meeting has been tentatively set for Monday evening, May 12, and the Marzie Lynn Circle for the following Tuesday afternoon.

Men Are Hosts At Church School Supper Thursday

As a result of a recent membership attendance contest between the men and women of the Hammonds Church School Class of the Methodist Church, the men were hosts to a party Thursday evening. The social was in the fellowship hall of the church and the men, as losers of the contest, provided and prepared a supper of fried

OES Has Brother's Night Thursday

The program and refreshments for the Thursday evening meeting of the Bovina Chapter of the Order of Eastern Star were provided by the "brothers" of the organization. The meeting in the Masonic Hall is the highlight of the year for the ladies. An annual observance, the Brother's Night was well attended.

Members and their guests were treated to a meal of baked ham followed by an address by Dr. Floyd D. Golden, president of Eastern New Mexico University at Portales. Dr. Golden discussed current school problems with some possible solutions.

O. W. Rhinehart was chairman of the host committee and was assisted by a number of other men. Carl Rea was program chairman.

Among those attending were Mr. and Mrs. A. D. Smith, Mr. and Mrs. E. R. Barry, Mr. and Mrs. C. F. Hastings, Mr. and Mrs. Clyde Perkins, Mr. and Mrs. Reagan Looney, Mr. and Mrs. O. W. Rhinehart, Mr. and Mrs. Otho Hammonds, Mr. and Mrs. H. J. Charles, Mr. and Mrs. Aubrey Brock

and Mr. and Mrs. Claude Rose. Others were Mr. and Mrs. Elmer Lowrie, Mr. and Mrs. Earl Derrick, Mr. and Mrs. Carl Rea, Mr. and Mrs. Roy Crawford, Mr. and Mrs. Charles Russell, Mr. and Mrs. W. E. Williams, Mrs. Mary Ruth Martin, Mrs. Ona Ruth Martin, Mrs. Mary Looney, Mrs. Sue Charles and the speaker.

The next meeting of the chapter will be Thursday evening, May 15. Officers for the coming year will be elected and Mrs. W. E. Williams, worthy matron, urges all members to be present.

TO CONFERENCE

Members of the local Pentecostal Holiness Church will go to Amarillo Thursday to attend the annual Woman's Auxilia of the Great Plains Conference. The meeting will be in the Cleveland Street Pentecostal Holiness Church. Several local women are expected to attend.

"IF I BE LIFTED UP . . ." Jn. 12:32 - THE END OF THE WORLD - "But the day of the Lord will come as a thief in the night; in the which the heavens shall pass away with a great noise, and the elements shall melt with fervent heat, the earth also and the works that are therein shall be burned up." (2 Peter 3:10) - No greater and more sobering thought can be contemplated than the violent and righteous end of the material creation. It is a catastrophe so great and of such magnitude that it staggers the imagination of man. What fearful apprehension and godly fear should be in the heart of every individual that can consider the power and might of Almighty God. - Notice first how unexpected it will come—as a thief in the night that gives no warning. Jesus said, "But as in the days that were before the flood they were eating and drinking, marrying and giving in marriage, until the day that Noah entered into the ark, and knew not until the flood came, and took them all away; so shall also the coming of the Son of man be." (Matt. 24:37-39) - People in the days of Noah are like people today and as it will be when all things come to an abrupt end. They ate, they drank, they married, they worked, they played without thinking of the preaching of Noah. Even so today, the majority of the world rejects the coming end of the earth as absurd and ridiculous. - The heavens consist of the stars, the moon, the things that are celestial and can be seen with the naked eye. These will pass away with a great noise and as has never been witnessed but is reserved for that great calamity. The Revelation writer states "And I saw a great white throne, and him that sat on it, from whose face the earth and the heavens

HD Club Has Social Friday

Members of the Bovina Good Neighbor Home Demonstration Club and their families gathered Friday evening for a covered dish supper and an evening of visiting and games. The meeting was in the American Legion Hall in honor of retiring members. It was also a celebration connected with the National Home Demonstration Club Week being observed this week.

The club furnished the ham for the meal and covered dishes of assorted vegetables, salads and desserts were brought by the members. Following the meal, games of "42" were played.

Honored guests for the evening were Mr. and Mrs. David Spring and children, who recently moved to Amarillo; Mr. and Mrs. Bill Burnam, Mr. and Mrs. Wilbur McLean and Mr. and Mrs. C. L. Murray. Also guests for the evening were Miss Linda Gilreath and Miss Janet Gooch.

Members of the organization and their families attending were Mr. and Mrs. John Sikes and Johnny, Mr. and Mrs. Don Bernard and children, Mr. and Mrs. Jack Morris and children, Mr. and Mrs. J. D. Stevens

and family, Mr. and Mrs. Charles Don Smith and children and Mr. and Mrs. Wilfred Sikes and Kathy.

Others present were Mr. and Mrs. Stacy Queen, Mr. and Mrs. T. J. Hopingardner, Mrs. Mabel Newberry, Lee Hopingardner, Mr. and Mrs. D. H. Wilkerson and Mrs. Howard Looney and children.

In the past, the club has had such socials often. During the summer, they plan to have a party about every three weeks.

WMU Has Mission Study Here

Members of both circles of the First Baptist Church Women's Missionary Union met last week for a mission study.

Members of the Rea Buster Circle met Wednesday evening, in the church annex and Mrs. Ovid Lawlis led a study of "God's World Plans." The study dealt with plans for missions according to the Bible presentations.

Attending were Mrs. E. H. Moody, Mrs. Travis Lloyd, Mrs. Carl Lamb, Mrs. Don Murphy, and Mrs. Lawlis.

Mrs. Glenn Kelley led the same study Tuesday afternoon, when members of the Blanch Grove Circle met in the church annex.

Wiener Roast Monday Evening

Members of the Sunday School classes of the Pentecostal Holiness Church had a wiener roast and social Monday evening, in the back yard of the John Norman Crim home.

As a result of an attendance and visitor contest between the women and the men of the Sunday School classes, the men, as losers, furnished and prepared the meal. After the meal, the group visited.

Among those attending were Rev. and Mrs. S. W. Blake and sons, Rev. and Mrs. A. T. Kersey, Mr. and Mrs. Olan Kersey and sons, Mr. and Mrs. E. L. McCutchan and sons, Mr. and Mrs. Arch McCutchan and Mrs. Florene Curry.

Others were Mr. and Mrs. Jack Stanberry and family, Mr. and Mrs. Dewey Morris and children, Mr. and Mrs. Jack Williams, Mr. and Mrs. J. W. Crim, Mr. and Mrs. Weldon Crim and son, Mr. and Mrs. Winn Henley and Buford Stanberry.

Friendship Class Has Regular Social

Members of the Friendship Church School Class of the local Methodist Church met Tuesday evening of last week for a regular monthly social in the fellowship hall of the church. Mrs. Jimmie Ware and Miss Lola Grissom were hostesses. Games of "progressive 42" were played and the hostesses served refreshments of cake, coffee and tea. Among those attending were Mr. and Mrs. Jimmie Clements, Mr. and Mrs. Van Horn, Mr. and Mrs. Leon Ware, Mr. and Mrs. Durward Bell, Mr. and Mrs. Jimmie Ware, Mr. and Mrs. Mark Charles, Miss Grissom and Rev. and Mrs. W. R. Beard.

The next social for the class is planned for Tuesday, May 27.

To Arkansas

Mrs. Elsie Block left Monday of last week for Harrison, Ark., for an extended visit. She will be visiting there with her son and family, Mr. and Mrs. Harold Block and sons. Mrs. Block accompanied her son-in-law and daughter and family, Mr. and Mrs. Carl Patton, of House N. M., on the trip. She makes her home in Bovina with another son-in-law and daughter, Mr. and Mrs. G. A. Whitesides. She plans to be gone until about September.

"ELECTRIC COOKING IS Easy... EVEN FOR ME!"

says **CARL McKINNON GUYMON, OKLAHOMA**

Mr. McKinnon says, "Cooking electrically is easy for even inexperienced cooks like me. I never thought I would actually enjoy preparing dinner for the boys while Lou, my wife, is not at home. Now, when she goes to her church and social affairs, the McKinnon men take to the kitchen. Roger helps with the salad, Doug helps set the table, and Warner, like most four-year-olds, just does a little bit of nothing. Although we're having steaks tonight, the boys ordinarily vote for hot dogs or hamburgers; regardless, our electric grill does a wonderful job, no matter the menu."

"Now, with our steaks, salads, green beans and cake (Lou baked it in our electric oven this morning), we are ready to settle down and enjoy our meal, along with our 'men talk.' With Roger and Doug, that's football — with Warner, cowboys and TV"

Get free certificate for two bug lamps just for watching an electric range demonstration at your Reddy Kilowatt dealer store. Yellow bug lamps, which fit ordinary sockets, eliminate most of the light that insects see, yet provide a soft, comfortable light for outdoor living.

Wheat Looks Good In Parmer County

Some wheat is hurting this week, but on the whole, prospects for a big wheat harvest continue the best since 1949, indications are this week.

Dryland wheat, which has been doing extremely well until about a week ago when some of it began hurting for rain, still promises to yield well, although the rainfall of the past few days that has broken into scattered showers instead of general moisture has checked prospects.

Rainfall, high winds and sand, insects, and disease are the main factors affecting dryland wheat production on the Plains. Most all of these have been in favor of the farmer this year for the first time in many years.

In fact, this spring has been virtually without sandstorms and insects, and disease, except for mention of rust on the Eastern High Plains, is no problem, either.

Also, there has been no widespread damage from hail—but farmers are keeping their fingers crossed.

Irrigated wheat, which constitutes about half of the crop, is being watered as needed and will continue to make good progress whether rains come

or not. Nearly all farmers are watering wheat this week with prospects of rain so scattered.

Parmer County farmers have about 84,000 acres of wheat up and coming, and unless hail and severe weather intervenes, all of this acreage will be harvested, believes Prentice Mills, county ASC office manager. The county allotment this year was 109,000 acres.

The price of wheat is dropping as the market anticipates a big crop over all the Great Plains and, in fact, almost all the country. USDA predictions are that the crop will be 36 percent larger than last year's crop and 13 percent larger than normal.

The government support program is expected to be the "price" of much of the 1958 crop with this case. In Parmer County, the wheat support price (still unofficial) will be \$1.77 per bushel.

This is the gross support price, and storage and service charges will result in a net to the farmer of about \$1.66 if he does not claim the grain from the loan before it expires.

Last year the support price was \$1.99 (gross) in Parmer County.

Production of nickel-containing stainless steels in the United States occasioned by reduced defense requirements, was less in 1957 than the all-time high record established in 1956. However, the nickel-containing types accounted for a greater percentage of the total stainless steel output during the year than for any year since 1948.

It's cotton planting time on the High Plains again, and Glenn and T. O. Lesly are just like hundreds of others who have been "gettin' with it" this past week. Here they work as a team, seeding eight rows at a time.

The seed boxes must be frequently filled when planting cotton. Here T. O. dumps in a fresh supply of delinted seed. Most farmers have raised planting rates in anticipation of lower germination this spring.

Rushing Planting Of Area Cotton

Parmer County area farmers are rushing to get their cotton seed into the ground this week as fair weather prevails and, almost suddenly, the days have turned downright warm for this time of year.

In the southern part of the county, where a slight difference in climate plus lighter soils usually starts the season off earlier for the cotton grower, a few stands could be noted by the middle of the week.

An early stand—a really good one—is the pride and joy of every Plains cotton farmer. Without that good early stand he figures he is waging an uphill battle all year long to produce the maximum amount his land and his labor is capable of producing.

So, the few farmers who had evenly-spaced shoots a-shinin' in the rows were wearing big smiles this week.

Most others, though, were atop their tractors or in the fields near at hand to see that the planting was done just so. It's one of the most important phases of cotton production, especially in this latitude where the chance for error caused by a "tight" growing season is not very tolerant.

Parmer County farmers have a cotton allotment of 47,298 acres this year, nearly all of which will be planted. The soil bank program has made very little difference.

THE PARMER FARMER

by W. H. Graham Jr.

Today finds the producer of beef in a position much improved from the one he has been found in between now and about 1952. There have been some ups and downs, but mostly, cowmen haven't been getting their fair share until just pretty recently.

Beef production is one of the few really bright spots in agriculture at the moment. Just how long this will last is uncertain, of course. If anybody really knew, he could make some money.

But prices are good now, and demand is continuing strong as Americans, even though a "recession" is supposed to be gripping the country, continue to ask for red meat at the market.

How is it that the cattle industry has managed to come up in good shape at a time when many other segments of agriculture are gravely concerned about short-term prospects?

There are a number of reasons for this, and some are wholly beyond the reach of both producers and the USDA. Neither the cowman nor the government had anything to do with the drought just now ending, which reduced cattle populations, especially in our own

Southwest, and brought supply more nearly in line with demand.

It is notable that the cattle industry is the biggest part of agriculture still outside the realm of government control, though we are quick to recognize that the government does play a hand in beef production and marketing.

Although producers were sustained with the much-abused drought relief feed program through the lean years and the USDA from time to time made government purchases of beef in the market place to bolster sagging prices, the cattle business has righted itself without production quotas or a support price on live cattle.

Essentially, then, today's good condition of the industry is a tribute to the members themselves, who have ridden out another streak of "hard times" to find things better and their business still their own.

The nation's producers of beef have been among the first to recognize and take advantage of market development and product promotion. They have engaged in an "eat more beef" campaign that has been sustained for several years and is now showing results.

If they pursue the present course, they may expect to continue to see consumption of their product increase, as a result not only of the natural growth of this country and broadening of the market because of an increase in population, but per capita-wise as well, because they are educating Americans to eating more meat.

Just what the producers of wheat, feed grain and cotton want in the way of a farm program for the long pull is a moot question. It is argued that land farmers—the producers of the so-called "basic" commodities—are too many in number and that they are too unwieldy a group to work together for themselves to control production and market their commodities effectively.

That may be perfectly true for all we know. But the cattle industry, whose empire extends to every corner of the country, is pretty big itself, and it seems to be able to average things out surprisingly well.

Agriculture is a business, in addition to being a way of life. The sooner more people come to realize this, the better for the farmer. Science and technology are changing farming just as surely as they revolutionized manufacturing and brought about the industrial revolution.

An offshoot of the new era coming for the nation's growers of feed, food and fiber is what the agricultural economists call "vertical integration." This is a scary term, but it isn't nearly as frightening as it might seem at first. It's a lot easier to think of

4-H Teams Place Third in District

County boys 4-H teams entered in the district contest at Canyon Saturday placed third in their divisions and will be alternates in state competition later this year.

The teams are Richard Chitwood and James Brown, farm and home safety; and Cooper Young and Calvin Mason, soil and water conservation. All the boys are members of the Lazbuddie club.

Other county members participating in the contests included Barbara Rea, Bovina, dairy food; and Virginia Rea, Bovina, and Judy Billingsley, Farwell, electric.

The young people were accompanied to Canyon by Miss Jimmie Lou Wainscott, county home demonstration agent; Joe Jones, county agricultural agent, and Mesdames Dee Chitwood, Dee Brown, and J. B. Young of Lazbuddie, Mrs. Gene Rea of Bovina, and Mrs. Leon Billingsley of Farwell.

NEWS

"The Place Where Most People Trade" Friona, Texas Wednesday, May 7, 1958

The Bill Sheehans left last Thursday for about three weeks of travel, work, and vacation. Their first stop will be Dallas where Mrs. Sheehans' folks live. There they will trade Jack and John for Mrs. Sheehans' nieces, who will travel with them in the little Renault. From Dallas the Sheehans will go to Virginia, where Bill will work and study for two weeks at an officer's training school.

This school will have men from all three of the armed forces studying integration of the navy, army, and air force in case of an atomic attack. Mary and the girls will go sight-seeing in Virginia and round about until Bill's school is over then they all plan to spend a week in New York City. Then they plan to trek back to Dallas, pick up the boys, and return to Friona.

See us for special prices on genuine IH points, blades, sweeps, shovels, disks, bearings, plow shares, bolts, sections, knives, spools, washers, and mower sections.

We know, or anyway we've heard about an overweight playboy who is unhappy about losing 105 pounds—she was a beautiful blonde.

The world's finest hay baler is for sale at the Parmer County Implement Company. Balers were one of the first machines made by Silas McCormick and International Harvester is justly proud of the IH baler. Let us show you one soon.

If you haven't seen the big white lilac bushes at the Goodwine home, you should drive by this week. These huge bushes are almost covered with blossoms. These lilac bushes are almost trees and are more than forty years old. They don't bloom too often, but when they do they are lovely.

A gardening friend says this will work. Boil ten or twelve corn cobs in a heavy syrup with brown sugar. Hang in your fruit trees and the bad bugs will sting the corn cobs and leave the fruit alone.

From Cedric Adams—For the potted plant that has everything there's a new product called Mike-Fer, which is odorless and comes packaged in a toothpaste tube. It costs \$1 and the label says it is made of only the highest quality mink manure.

Have you killed all the Johnson grass on your farm? Better get that job done soon. We have plenty of sodium chlorate—the best Johnson grass killer on the market.

The Joe Fallwells will soon have a new double garage and work room at their home in the west part of town. Joe is a floorman—that is he installs floor coverings, rugs, linoleums, or tile. He also installs tile on walls as well as on floors.

Oldsmobile is the leader in its price range. There are many reasons of course but you will be interested in performance. Let us show you one of these beautiful Oldsmobiles.

Bindweed Control Continues In 1958

The noxious weed eradication committee sponsored by the Parmer County Farm Bureau is continuing operations again this year under the direction of Chairman Raymond Schueler, Rhea; and Vernon Symcox, Farwell, secretary.

Members include A. G. Schlabs, Blacky A. R. McCutchan, Bovina, Joe Jesko, Lazbuddie; and R. D. Dale, Farwell. Excellent cooperation has been received from County Agent Joe Jones, Prentice Mills and the county ASC committee, the Soil Conservation Service and the county vocational agriculture departments, the committee reports.

The work of the committee has been primarily in the eradication of field bindweed. They are working on the control of all other noxious weeds as the committee realizes the increased trouble that will come as farmers increase and intensify irrigation practices.

Other programs include working out eradication programs for the county, state, and railroad rights-of-way, educational programs in the schools, and regular attendance at the Bushland experiment station field day on weed control.

Cooperation with the commissioners court has been very good, the committee reports. In 1957 the commissioners court made available sodium chlorate to farmers to treat bindweed on the county right-of-way adjacent their farms. The chemical is free to the farmer if he will also treat the bindweed on his own farm. He must pay for the sterilant used on his own land. This program will be continued in 1958.

Cooperation with the State Highway Department has been good, also. In 1957 a group of farmers surveyed the highway rights-of-way in the county and marked each plot of bindweed. The Highway Department immediately went to work treating all bindweed plots that were on the road way. This is done at no cost to the farmers.

Four years of conferences with the Santa Fe Railway were climaxed in 1957 with the awarding of a contract to Doherty Weed Killers of Plainview to eradicate 2.65 acres of bindweed on the Amarillo branch of the Santa Fe. At a conference in Amarillo on April 24, 1958, a representative of the Santa Fe system told Ray-

mond Schueler they plan to eradicate all bindweed on their rights-of-way in Parmer County before moving into another area.

The railroad requires, however, that the farmer or businessman next to their right-of-way must also clean up the bindweed on his property before they will cooperate.

This leaves the largest area in the county for bindweed infestation on individual farm lands. In a survey taken in 1957 through the cooperation of the county ASC committee, it was found that a minimum of 242 farms have bindweed infestations. This was not a complete survey as the survey was voluntary and less than 50 percent of the farmers cooperated. These infested farms range from a few sprigs scattered over the place to 80 percent coverage on a 1/2-section farm.

Since bindweed spreads 1/3 each year the best time to control it was yesterday but today is the next best time. In 1955 Parmer County farmers purchased and applied sodium chlorate to approximately 400 acres of field bindweed. The 1957 survey shows however there is still a tremendous acreage in the county.

The county ASC committee has agreed to continue paying approximately one half the cost of a soil sterilant where it is used on field bindweed at the recommended rates and time. They emphasize, however, that payments can be made only for application to bindweed plots. Johnson grass or blueweed is not eligible.

Methods of control vary for types of infestations. For the small isolated plot a soil sterilant is the best method of control. Sodium chlorate at the rate of five pounds per square rod is the recommended application. If possible the treated spots should be flooded with irrigation water. This will greatly increase the rate of kill. For the large area infestations where it is impossible to use soil sterilant, the best control method is a five-year program of fallow, wheat, fallow.

The ground must be clean cultivated every 11 to 14 days during the growing season for this program to be successful. It must be emphasized that bindweed is a perennial plant

and haphazard cultivation will not do the job. It must also be emphasized that cultivation during a summer crop will only spread bindweed. Bindweed can be spread either by the seed or roots.

If you are considering a cultivation control program and have not had any previous experience along this line, it is recommended that farmers talk to some of the professional agricultural workers or a farmer who has had experience in this line of control. Suitable cultivation equipment and proper plowing times are the key to the success of this program.

Two bulletins on the control of noxious weeds are available in County Agent Joe Jones' office. Any member of the weed committee or any of the professional agricultural workers in the county will help work out a program of weed control for the farm. Any person who does not know how to identify bindweed can call on any of the above persons for assistance.

end and the inside of the bottom was padded with foam rubber. The tray could be used for packets of seed, small tools, and other items useful in gardening. The foam rubber padding will protect the knees from becoming scratched and bruised.

Anyone who can use a hammer and saw could easily build such a gadget.

Don't you enjoy serving whole strawberries and cherries in preserves? Our grandmothers spent long periods of time making these delicacies, but it is not necessary for us to follow their methods. For quick and easy strawberry or sour cherry preserves, try the following recipe:

5 cups fruit (About 2 1/2 lbs. ripe sour cherries, pitted, or 1 1/2 quarts ripe strawberries)
5 1/2 cups sugar
1 box powdered fruit pectin
Water (3/4 cup for cherries, 1 cup for strawberries)
Measure 5 cups fruit (firmly packed without crushing) into a large saucepan. Add sugar. Bring to a boil, stirring carefully. Remove from heat. Mix powdered fruit pectin and water in small saucepan and boil hard one minute, stirring constantly. Add to hot fruit and mix well. Skim off foam. Stir and skim by turns for ten minutes to prevent floating. Ladle into glasses and cover at once with paraffin.

Don't overlook using your deep fat fryers for preparing fried pies. A standard recipe for any kind of fried pies has been sent to us by one of our readers and we are passing it on:

FRIED PIES
1 cup buttermilk
1/2 teaspoon soda
1 teaspoon salt

We need some help. Will someone who has an issue of the Parents Magazine in which the Mrs. America recipes were printed please come to our rescue? For the past two weeks much time has been spent in an effort to locate our copy which contains a Happy Homemaker column. So far we have failed to find it.

If someone will be kind enough to lend us a copy, we will make every effort to keep up with it and return it to its owner after we have finished with it.

Mother's Day is just around the corner and some of us have not bought gifts for our mothers yet. Sometimes it is difficult for us to find something to buy that is different. In one of our newest magazines we ran across an item that would make an ideal gift for any mother who works in her yard.

The name of this particular gadget has escaped our memory, but it was a simply constructed combination holder for small items and knee protector. The main part of it was box like with one side left open. Handles were mounted on each

1 teaspoon baking powder
1 tablespoon shortening
Enough flour to make stiff dough
Cooked fruit
Mix and sift dry ingredients together. Cut in shortening and buttermilk to make stiff dough. Roll thin and cut in circle the size of saucers. Spread half of circle with mashed, stewed and seasoned fruit. Fold over other half of dough and crimp around the edges with a fork. Fry in hot shortening until golden brown on both sides. Serve warm.

Our appreciation goes to everyone who writes us letters, cards, or sends in recipes. We are grateful to each of you for your consideration. Maybe some of our readers fail to sign their names to communications because they do not want us to print the names.

We would appreciate it very much if any one of you who care to write would do so, and if you don't wish to have your name in the paper, just let us know and we will be glad to comply with your wishes. However, we'd surely like to know who you are.

Laboratory and field tests conducted by workers of the Texas Agricultural Experiment Station indicate that Terraclor, when properly applied, will give effective control of Southern Blight in peanuts. Details on the tests may be obtained by writing the Agricultural Information Office, College Station, Texas, and asking for Progress Report 2014.

The new "Market-Matic" system installed by the Port City Stockards Company of Houston is a direct result of a recent survey conducted by the Texas Agricultural Experiment Station.

gents or mild soaps are marked on the package—"wash lovingly lingerie, protect your hands in dishwasher, for baby things, etc."

For washing satisfaction, check your water carefully, keep special laundry problems in mind and choose the soap or syndet accordingly.

Even the most reckless driver is not entirely useless, according to the Texas Safety Association, because he can always be pointed out as a horrible example.

Fred Elliott, extension cotton specialist, emphasizes the importance of getting a good stand with the first cotton planting. High quality cotton planting seed, he says, may not be available for excessive replantings. Germination will be reduced, he adds, if the seed are planted in soil which has not reached the proper temperature of 70 degrees F. at a 3-inch depth for 3 successive mornings at 7 a. m.

If you are interested in any of the articles contact me and ask for Kitchen Storage Devices You Can Make, MP 209. It will give you some good ideas.

If you're annoyed at tattle-tale gray clothes and a ring in the bathtub, better check the soap you use, according to extension home management specialists.

Whatever you choose—either soap or syndet (synthetic detergent)—should be right for your water supply.

In hard water, soap mixes with the minerals in the water to form a scum. It's hard to rinse this out, so your clothes take on a gray look. However, if you have natural soft water or soften both the hot wash water and the rinse water, soap will do as good a cleaning job as a syndet.

In hard water, syndets do a better cleaning job than soap. They soften the water so that no curd is formed.

Choose the soap or syndet made for the washing job you plan to do. For heavy-duty wash jobs special ingredients added to soaps and syndets give greater cleaning power. Most packages for heavy-duty wash are marked with "all-purpose," "family wash," or "wash everything."

Jobs for the light-duty detergent.

IT FIGURES
Three-year-old Sue was helping her daddy at his work bench in the basement. Finally he tired of her incessant chatter and questions and he asked her to be quiet for a little while.

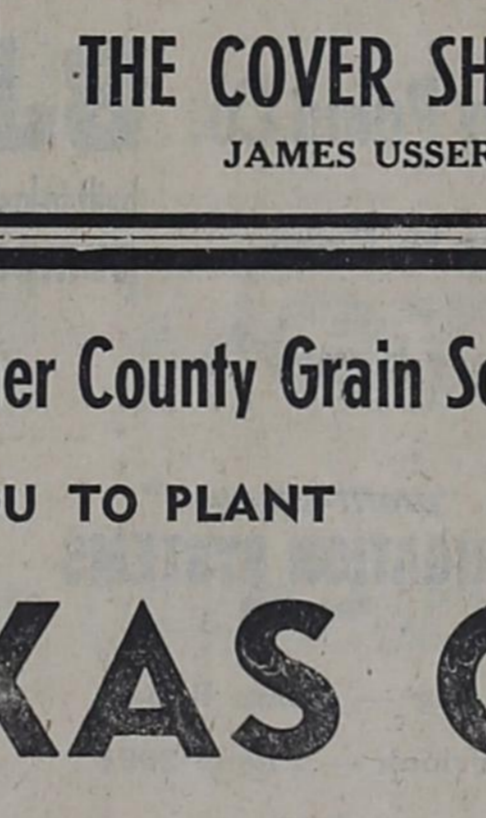

"I don't have to be quiet," Sue stated importantly. "After all, I'm a woman."

—Santa Fe Magazine

By short wave, all air and shipping ports will have advance warning of epidemics in distant countries. Through careful checking of passengers arriving from infested areas, thousands of people will avoid contagious diseases, a United Nations agency reports. This very method materially controlled the Asian flu outbreak.

PARMER COUNTY IMPLEMENT COMPANY
FRIONA

H. D. AGENT'S CORNER

Jimmie Lou Wainscott

On Wednesday, April 20, the Parmer County HD kitchen leaders met in my office for a training meeting on kitchen cabinets.

Storage of all equipment and supplies where you need it, easy to reach, get rid of all things you don't use, store together things you use together, place utensils, dishes, and food supplies so that moving one to get to another is not necessary and other pointers were discussed.

The leaders went to my apartment to see the kitchen storage devices that I have in my cabinet. These devices include half and one-quarter width shelves and step shelves placed in the cabinet to conserve space and fit articles that I have to store. For instance, I have service for 12 of china stored in the space of two regular shelves. Knife racks and spice shelves were also shown.

If you are interested in any of the articles contact me and ask for Kitchen Storage Devices You Can Make, MP 209. It will give you some good ideas.

If you're annoyed at tattle-tale gray clothes and a ring in the bathtub, better check the soap you use, according to extension home management specialists.

Whatever you choose—either soap or syndet (synthetic detergent)—should be right for your water supply.

In hard water, soap mixes with the minerals in the water to form a scum. It's hard to rinse this out, so your clothes take on a gray look. However, if you have natural soft water or soften both the hot wash water and the rinse water, soap will do as good a cleaning job as a syndet.

In hard water, syndets do a better cleaning job than soap. They soften the water so that no curd is formed.

Choose the soap or syndet made for the washing job you plan to do. For heavy-duty wash jobs special ingredients added to soaps and syndets give greater cleaning power. Most packages for heavy-duty wash are marked with "all-purpose," "family wash," or "wash everything."

IT WILL PAY YOU TO PLANT

IT'S THE PRODUCTION THAT COUNTS

TEXAS CERTIFIED SEED

You Get a Lot to Like When You Plant TEXAS CERTIFIED SEED

Texas Certified Seeds are available that were produced here in Parmer County last year. Since they were harvested they have been tested by actual growing, and their germination and purity is certified.

You have plenty of reason for wanting to have the top producing seed planted on your farm. The best reason is that of a farmer who has planted Texas Certified Seed. "It is the production that counts."

The following varieties of Texas Hybrid Certified Seed are Available:

660	TEST
650	GROWN
620	IN
610	MEXICO

Both Nitrogen, Phosphate Needed In Sandier Land

Experimental plots for wheat on the Beryle Nix farm near Lariat offer promise that a combination fertilizer application of both nitrogen and phosphate is the best way to increase yields on sandier lands. This is the second year that tests, arranged in cooperation with the Amarillo Experiment Station, have been run of such land. On the Nix farm, 194 plots 10x50 feet each have been treated with 13 different fertilizer applications. The results of this fertilizer is apparent to even the casual or inexperienced observer.

This sandier type soil probably accounts for about one-third of the total farmland in Parmer County.

NEWS FROM THE FARM BUREAU

By RAYMOND EULER

Do you think the people who do the work producing the equipment and supplies you use in farming should be allowed to demand and get higher pay for their work when it is known that that increase in pay will be charged to you in purchases you make? If you don't think the above is right, it won't hurt to write your congressman and representative and let them know how you feel. It appears that there are some legislators who will agree with you and it is possible that this uncontrolled monopoly may be weakened, if not broken.

County Agent Joe Jones, who has arranged for two field trips to see the tests, says farmers and fertilizer dealers have been impressed with the difference that varied fertilizing makes. The plots will be carefully harvested by special machinery and the grain weighed before results will be considered conclusive, but there's plenty that meets the eye already.

Close definitions of what's best for the individual farmer should await this harvest, but the trend appears to be headed in this direction:

1. Irrigation alone on sandier soils will probably not raise yields sufficiently to justify expenses.
 2. Nitrogen-type fertilizer, the most common kind in use today, will increase the yield.
 3. But nitrogen alone cannot produce a yield as great as nitrogen and phosphate in combination.
- Most observers agree that the formulas 120-40-0 and 120-80-0 look the most promising at the test site.
- These steps were taken on the Nix farm: the land was broke, listed fertilizer was applied in bands, and the wheat was watered up. It was Temarq.

Farm Bureau officials urge Congress to place labor unions under the same anti-trust provisions under which their employers must operate. So there can be no misunderstanding about it, we make this statement: Farm Bureau asked the president to veto the "freeze" resolution on the farm program, and when he had done so, stated that he acted with "courage and good sense." In opposing the price "freeze," Farm Bureau made it clear that it favors price supports where appropriate as an aid to orderly marketing and as a protection to farmers during periods of change and adjustment.

J. Harrel West, Texas Farm Bureau President, speaking to Service Representatives in Waco last week, said that he was

This is irrigated wheat on the Beryle Nix farm where tests on fertilizer applications are being run on sandy soil. In the top picture, 80 pounds of nitrogen only was applied. That is one of the most common rates and types of fertilizer being used today. In the lower picture, 80 pounds of nitrogen and 40 pounds of phosphate were applied, which made a considerable difference in the appearance of the crop. "Model" for these shots was County Agent Joe Jones. The wheat's height can be noted by where it strikes him and where it strikes the fertilizer markers, which were the same distance from the ground in both cases.

Political Announcements

The following political announcements are made subject to action of the Democratic Primary of 1958:

For State Senator, 30th Senatorial District:
 ANDY ROGERS (re-election)
 KARL L. LOVELADY

SOIL CONSERVATION DISTRICT NEWS

Now that planting time is here, farmers should keep in mind ways that they can keep their farm land productive. One practice that is a step in the right direction is interplanting cowpeas with grain sorghum. This is a summer legume crop which will add nitrogen to the soil when inoculated, thus making the nitrogen available for the next year's crop. It will also increase the water intake and the water holding capacity of the soil.

Cowpeas can be interplanted with grain sorghum with a special attachment for this purpose. They should be planted at the rate of 4-8 pounds per acre, at a depth of 1.5-2.5 inches. Attention should be given to the variety planted as some varieties such as Brabham tend to cling and climb the stalks. Brabham should be used in feeds planted for silage.

An interesting fact was called to our attention about the effect organic matter has on soil temperature. Two temperature checks were made side by side. One was on land which had cotton burrs applied, the other without. The soil temperature where burrs and anhydrous ammonia were applied was 8 degrees higher. We also know that in soils with high organic matter there is an insulating effect in the summer and soils are cooler, thus have less evaporation.

Organic matter also improved the infiltration rate of the soil. Conserve your organic matter.

strongly in favor of working with commodity organizations and other farmer organizations where possible. He said that he thought it could strengthen Farm Bureau, and maybe strengthen the other groups, too, to which he surely had no objection. The main objective is to get farmers more closely united in their principal objective, to gain opportunity for a good net income from the production and marketing of their commodities.

Do you talk with the Farm Bureau director in your community about your farm problems so that he can present them at regular directors' meetings? If not, why don't you just attend one of them yourself, the first Monday night

of each month in the office in Friona? At 88 a Tennessee farmer has journeyed to Knoxville, forty-one miles away, for the first time in his life. It must be the gypsy in him.—San Francisco Chronicle.

CORRECTION NOTICE
STATE OF TEXAS
COUNTY OF FARMER
CITY OF BOVINA

NOTICE TO THE OWNERS OF PROPERTY ABUTTING UPON THE HEREBELOW MENTIONED PORTIONS OF STREETS, HIGHWAYS, AVENUES AND/OR ALLEYS AND TO ALL OTHERS AFFECTED:

The Governing Body of the City of Bovina, Texas, has heretofore ordered that the following portions of streets, highways, avenues and/or alleys in said City be improved by raising, grading and paving or permanently repairing or repaving the same and/or by constructing curbs and/or gutters where there are no existing curbs and gutters; and by widening said streets or avenues or portions thereof, where necessary, and by constructing necessary and proper appurtenances and incidental to such improvements, including drains and culverts; said paving to consist of the construction of an adequate triple penetration asphalt on a 6" compacted caliche flex-

ible base; said curb and gutter, where constructed or reconstructed, to be concrete curb and/or gutter.

All of the foregoing to be installed where necessary on streets, highways, avenues and/or alleys, designated below:

It is hereby found and determined that the cost of improvements on such portions of said streets, avenues, highways and/or alleys with the amount or amounts per front foot proposed to be assessed for such improvements against the abutting property and the owners thereof, on the portions of said streets, avenues, highways and/or alleys are as follows, to-wit:

In all units set out below, streets are 60 feet and 40 feet in width. Said units are designated Unit No. 41 and Unit No. 42. For each unit so enumerated the total estimated cost is set out. The estimated amount per front foot to be assessed against the abutting property and the owners thereof, for property owner curb, gutter and pavement of the type hereinabove specified is \$6.60 per front foot for 60 foot width, \$4.92 for 40 foot width.

Said Units described as follows:

Unit No. 41, 60 foot width, back to back of curb, North Street, north side from a point 310 feet easterly from easterly side of Lot 1, Block 116, OT, thence 380 feet easterly to the westerly side of Lot 28, Block 1, Mansfield Addition, through Lot 14, of said Block 1, and the South side of said North Street from the westerly side of Block 1, OT, easterly along said southerly right of way of said North Street, or State Road No. 23, easterly 422 feet; from the easterly side of East Street to the end of the 60 foot section, or Unit No. 41.

Unit No. 42 of North Street or Highway 23, westerly side, 40 foot width back to back of curb, from a point inside and on the westerly side of Lot 11, Block 1, Mansfield Addition, northwesterly approximately 75 feet, to the southerly ROW, Santa Fe Railroad. Thence across 300 foot ROW and up the easterly side of Lot 8, CC & S Industrial Lots, to U. S. Highway No. 60; Easterly side of said Unit No. 42, from a point on the southerly side and the easterly side of Lot 11, Block 1, Mansfield Addition, northwesterly approximately 156 feet to the southerly ROW, Santa Fe Railroad, thence across said ROW 300 feet, thence along the westerly side of Lot 10, CC & S Industrial Lots to U. S. Highway No. 60.

An arrangement for the making and construction of such

Cub Scouts Have Big Night Recently

A guest speaker, the presentation of awards and the giving out of Bobcat badges all were features of a meeting of Pack 40 of the local Cub Scouts. The meeting was in the American Legion Hall Tuesday evening, April 22, with Cubmaster, Robert E. Wilson, in charge.

Kenneth Maxwell, Texas State Highway Patrolman for this area, was guest speaker for the evening. Although he spoke on a number of things, the main theme of his talk was driver and bicycle safety. He discussed proper ways of driving and safe methods of bicycle riding in traffic. The talk, reports Wilson, is a part of required study for Cub Scouts. Talks on traffic safety are required for all scouts and an award for the study will be received by the local pack.

Maxwell also showed the group the gun he wears and gave a short talk about the safe use of firearms. He also answered a number of questions submitted by the boys.

Also a guest for the evening was John Blomshield of Clovis, executive director of scout work in the Clovis area. He presented neckerchief slides to the boys who sold ten or more tickets to the recent exposition in Clovis. The two top salesmen were Randy Jones, who sold 23 tickets; and Roy Crawford Jr., who sold 20. These boys received the slides

improvements have been made and entered into by the said City of Bovina, Texas, and rolls or statements showing the proposed amounts to be assessed against abutting property and owners thereof have been filed with the City, such rolls or statements showing other matters and things and have been approved and the City Commission of said City has fixed a time and place for hearing to the owners of property abutting upon said portions of streets, highways and/or alleys, and to all other affected, at which hearing the amounts to be assessed against the respective parcels of abutting land and the owners thereof, for improvements in the units upon which the particular property abuts, the regularity of the proceedings with reference to such improvements, the apportionment of the cost of such improvements, and other matters will therein be determined; and after such hearings, assessments will by ordinance be made and levied, and such hearing will be had and held by and before the City Commission of the City of Bovina, Texas, in regular Commission meeting room in the City Hall of Bovina, Texas, on the 16th day of May, 1958, at 7:30 o'clock P. M. The rolls or statements showing the proposed amounts of such assessments are on file in the office of the City Secretary and copies thereof are in the said Secretary's office and are open to inspection of any interested parties at any time, and of all said matters all such owners of property, as well as any and all others in any wise affected or interested, will hereby take due notice.

By order of the City Commission of the City of Bovina, Texas, this 5th day of May, 1958.

No notice other than that hereinabove provided for shall be necessary, but publication of such notice shall be due and sufficient notice to any and all persons, firms, corporations and other parties. BY ORDER OF CITY COMMISSION OF THE CITY OF BOVINA, TEXAS:

This will certify that the above and foregoing notice is published pursuant to a resolution unanimously passed on by the City Commission of the City of Bovina, Texas, on the 5th day of May, 1958.

To certify which, witness my hand and seal of office this 5th day of May, 1958. W. Henry Minter, City Clerk (SEAL) 46-11c

and also were presented with a special gift of appreciation by Cubmaster Wilson. Other boys who sold their allotted amount of tickets were Lane Guber, Ricky Kunselman, Mack Grissom, Larry Mitchell, Billy White, David Garrett, Timmie Rhodes, James Lee Calaway and Kregg Wilson.

Cubmaster Wilson reports that the total local ticket sales came to \$96. Half of this will be returned to the local pack to be put in its treasury for future use. The rest will go to the area council.

Wilson would like to express appreciation for the cooperation of the citizens of Bovina and the surrounding area in the ticket sales.

Blomshield also presented the members of Den Three with their Bobcat badges and their scout identification cards. To earn these the boys who began scout work in March, had to know their Cub Scout promise and other pieces of memory work. Receiving badges at the ceremony were Carl Odom, Stephen Blake, Eddie Corn, Lynn Murphy, Mickey Don Elison and Allan Dale Carson. Two other boys who were unable to attend will receive their badges in the near future.

Wilson reports that tentative plans are for the local pack to "slow down" during the summer months; that meetings will be more infrequent, and most of them will be either socials, or field trips, accompanied by their parents.

The meeting was closed by Blomshield, who led the boys and a number of parents and friends attending, in a series of games. After the meeting was a planning session with the den mothers of the newly-organized Den IV, Mrs. Leon Grissom and Mrs. Dean McCallum. The meeting was for the purpose of setting up a tentative schedule of study and work for the boys of this den.

About 75 boys and parents were present for the regular, monthly pack meeting.

Church of Christ Has Song Fest

The home of the Church of Christ minister and his family, Mr. and Mrs. Alfred White and children, was the site of a social Friday evening. Members of the church gathered in the White home for an evening of singing and visiting. Mrs. White was assisted by several other ladies in the serving of refreshments of cake, cookies, pie, coffee and punch.

Among those attending were Mr. and Mrs. Bud Crump and family, Mr. and Mrs. Lloyd Killough, Mr. and Mrs. Thomas Rhodes and daughter, Mr. and Mrs. Sammie Sudderth and daughter, Mr. and Mrs. Joe Pinner and daughters, Mr. and Mrs. James Boardman and Mr. and Mrs. Howard Ellison and sons.

Others were Mr. and Mrs. Billy Marshall and family, Mr. and Mrs. Elvin Johnston and family, Mr. and Mrs. Don Stark and Sherry, and Mrs. Robert Calaway and James Lee.

Attend Clinic In Tulia

Several local women attended a clinic for leaders of young people's groups of the Baptist Church Tuesday in the Tulia Baptist Church. A series of conferences, designed for leaders of different age groups, were conducted throughout the day.

Local women attending were Mrs. Dwayne Carter, local Junior Girl's Auxiliary counselor; Mrs. Leslie McCain, Young Woman's Auxiliary counselor; Mrs. Arnold Hromas, Intermediate Girl's Auxiliary counselor; Mrs. Ovid Lawlis, G. A. director and Mrs. J. D. Kirkpatrick and Mrs. Eddie Ray Hutto, counselors for the Sunbeams. Mrs. P. A. Adams of Bovina, associational WMU president, presided over the meeting and attended the youth conferences.

Banquet Planned For Friday

The Junior Class of Bovina High School will honor members of the Senior Class with a banquet Friday evening, at 8 p.m., in the band hall. The banquet, the annual Junior-Senior affair, will be formal and will feature a guest speaker.

Featured speaker for the evening will be Eid Weis from Jordan. Weis is a former student, attending West Texas State College in Canyon.

Sponsors of the Junior Class are Mrs. Geraldine Whelan and Charles Don Smith.

Quilting Club Meets Thursday

The home of Mrs. T. P. Griffith was the site of the regular monthly meeting of the Bovina Quilting Club last Thursday. The members met in the morning and spent the day cutting and piecing a quilt which will be donated to the 1958 March of Dimes money-raising campaign. A covered dish luncheon was served at noon.

Attending the all day meeting were Mrs. J. R. Caldwell, Mrs. Will Parker, Mrs. Lloyd Killough, Mrs. John Purvis, Mrs. Levi Johnson, Mrs. Tom Rhodes, Mrs. E. H. Moody, Miss Sue Moody and Mrs. D. H. Harrell.

Two guests, Mrs. Harrell's daughter who is visiting here, and Mrs. Reagan Looney, were also present.

The next meeting will be Thursday, June 5, in the home of Mrs. Levi Johnson. It will be an all day meeting, also.

Sorority Has Coffee Saturday

Parker County members of the Delta Xi Chapter of Delta Kappa Gamma were hostesses to a coffee Saturday morning in the Homemaking Cottage of Bovina High School.

Hostesses were Miss Grace Paul and Mrs. Leola Williams

of Bovina, Mrs. Marye Whitely, Farwell, and Mrs. Carmaleet Truitt and Miss Tacy Smith of Friona. Other members and guests were teachers from Dimmitt and Hereford. About 35 were present.

The theme of the program was "Guiding Hands," featuring a symposium titled, "Useful Helps for Beginning Teachers," with Mrs. O. K. Howe of Dimmitt as moderator. Also on the program was the installation of new officers for the coming year. Mrs. Frank Truitt of Friona and former resident and teacher in Bovina, was installed first vice-president.

TO FUNERAL

Mr. and Mrs. G. A. Whitesides attended funeral services in Clovis Monday afternoon for J. J. Flynn, Flynn, 72, was a friend of Mrs. Whitesides' family. He died Friday afternoon of a heart condition. Funeral services were in Steed's Funeral Home and interment was in the Portales cemetery.

Ketch-all Korner
By Sally Whitesides

Flash—Puddy is said to be on the road to recovery. Puddy is the cat which underwent surgery a couple of weeks ago at the hands of Letha Turner, Puddy's owner, and Evelyn Crawford. The vet did the work, but to hear the two local women tell it, there was a discussion of who was in worse shape after it was over, Letha, Evelyn, or Puddy.

For another cat in town, there is a serious discussion going on as to its chances of keeping any one of its nine lives. Seems the cat has been raiding Bill's little chicken house, and with dire results. Nice cat, though, it only takes one a day. But when you start out with only ten chicks and the seventh day passes, the flock is down to doggone near nothing.

Bovina's paving program looks mighty nice to almost everyone in town, but it has brought out the "green-eyed" monster for many of us, whose streets aren't in the present plans. Not only do the streets have a chance looking better, but the Whitesideses can't help but think of all the water that has, in the past, soaked up on streets west of here. After the paving is complete, that water will come barreling it down towards the lake, via our only rutted route to town, which is in bad enough condition as it is.

An aunt of mine from Olton sent a recipe for a pound cake to me. Haven't tried it yet, but knowing Aunt Pauline's kitchen artistry, feel that it is safe to pass it on to you, un-

WILL DRESS chickens, any day, any time. Contact Stacy Queen, telephone AD 8-2962. 46-1tc

FOR SALE—390' of used, steel picket lawn fencing; 42 inches high. Excellent condition and in rolls. 50 cents a foot. Can be seen at 803 Ave. C., or call Otho Hammonds, AD 8-2251 or AD 8-2551. 46-11c

tested.

POUND CAKE
One pound butter (or oleo), one pound powdered sugar, one pound flour (measured in the powdered sugar box,) and six eggs.
Cream butter and sugar, and add flour and unbeaten eggs alternately. Beat thoroughly between every addition. Add a little flavoring and bake slowly in a loaf pan. Sounds simple. Probably will be good, but it will have to go a long way before it beats Lady Gaines' pound cake. Troy shared a slice with us the other day; it was still warm and very delicious.

WANTED—Lawns to cut. Can furnish mower or use yours. See Donny B. Young or E. H. Young, corner of Ave. C. and Third Street. 45-3tp

JEWELRY REPAIRED. ALL WORK GUARANTEED. REASONABLE PRICES. GREAT WESTERN CO. BOVINA, TEXAS 22-11c

50 MONTH Road and Field Hazard GUARANTEE PLUS LIFETIME GUARANTEE
on the all-new **DEEP CLEAT rear tractor tire.**

● MASSIVE CLEATS are 23% deeper — giving positive traction
● NEW FLARED SHOULDERS grip ground firmly
● OPEN CENTER TREAD gives maximum self cleaning
● GUM LINING guards against chemical action from liquid weighting
● 50 MONTHS ROAD and FIELD HAZARD GUARANTEE plus Lifetime Guarantee on workmanship and materials!
FRONT TRACTOR TIRE
High center-rib gives safe, easy steering action! Double side-ribs hold onto furrow walls, resist slippage.
IMPLEMENT TIRE
Saves time and fuel — lets all free-rolling wheels roll easily! Deep-grooved running ribs fight slippage. Thick tread gives long service.
FARM SERVICE TUBES
Built extra strong! Rubber specially compounded for tractor and implement use. Resists chemical action when liquid weighted. Rear tractor tube has 2-piece valve for easy liquid weighting.
