

The Spirit of Our Boys

Let's Make It Our Own!

MORALE will win the war. Morale---that spirit that makes men sing as they go, grin at pain, meet every duty cheerfully, and fight like heroes.

Whether it's driving a truck, tending the old goulash wagon, or fighting hand to hand in blood and mud, our boys meet it with American morale---the thing that will win the war.

No task too small, no sacrifice too great---that is the spirit of our boys---make it your own.

Sacrifice with a song in your heart, smile at discomfort, fight waste and extravagance as you would a Hun. Lend cheerfully.

Morale will win the war.

Mrs. Smith Recommends Chamberlain's Tablets.
 "I have had more or less stomach trouble for eight or ten years," writes Mrs. G. H. Smith, Brewerto, N. Y. "When suffering from attacks of indigestion and heaviness after eating, one or two of Chamberlain's Tablets have always relieved me. I have also found them a pleasant laxative." These tablets tone up the stomach and enable it to perform its function naturally. If you are troubled with indigestion give them a trial and you will stay well.

Chamberlain's Cough Remedy the
 Most Reliable.
 After many years' experience in
 the use of it and other cough medi-
 cines, here are many who prefer
 Chamberlain's to any other. Mrs.
 A. C. Kirstein, Greenville, Ill., writes:
 "Chamberlain's Cough Remedy has
 been used in my mother's home and
 mine for years, and we always found
 it a quick cure for colds and bron-
 chial troubles. We find it to be the
 most reliable cough medicine we have
 used."

**The Owners of
 "Swift & Company"
 (Now Over 22,000)**

Perhaps it has not occurred to you that you can participate in Swift & Company's profits,—and also share its risks,—by becoming a co-partner in the business? It is not a close corporation.

You can do this by buying Swift & Company shares, which are bought and sold on the Chicago and Boston stock exchanges.

There are now over 22,000 shareholders of Swift & Company, 3,500 of whom are employes of the Company. These 22,000 shareholders include 7,800 women.

Cash dividends have been paid regularly for thirty years. The rate at present is 8 per cent.

The capital stock is all of one kind, namely, common stock—there is no preferred stock, and this common stock represents actual values. There is no "water," nor have good will, trade marks, or patents been capitalized.

This statement is made solely for your information and not for the purpose of booming Swift & Company stock.

We welcome, however, live stock producers, retailers, and consumers as co-partners.

We particularly like to have for shareholders the people with whom we do business.

This leads to a better mutual understanding.

Year Book of interesting and instructive facts sent on request. Address Swift & Company, Union Stock Yards, Chicago, Illinois

Keep Yourself Fit

You can't afford to be laid up with sore, aching kidneys in these days of high prices. Some occupations bring kidney troubles; almost any work makes weak kidneys worse. If you feel tired all the time, and suffer with lame back, sharp pains, dizzy spells, headaches and disordered kidney action, use Doan's Kidney Pills. It may save an attack of rheumatism, droopy, or Bright's disease. Doan's have helped thousands back to health.

A Kansas Case

T. Hartz, Merchant St., Oawego, Kan., says: "I was in misery for five years with kidney ailments. I was laid up in bed for two months. The kidney secretions were scanty and painful in passage and I often had terrible headaches and dizzy spells. The pain over my left kidney was a constant. Doan's Kidney Pills restored me to good health, and I haven't had a sign of kidney complaint since."

JUDGE DECIDES STOMACH REMEDY A GREAT SUCCESS

Commissioner of Medication and Conciliation Board Trice EATONIC, the Wonderful Stomach Remedy, and Endorses It.

Judge William L. Chambers, who uses EATONIC as a remedy for loss of appetite and indigestion, is a Commissioner of the U. S. Board of Medication and Conciliation. It is natural for him to express himself in guarded language, yet there is no hesitation in his pronouncements regarding the value of EATONIC. Writing from Washington, D. C., to the Estonic Company, he says: "EATONIC promotes appetite and aids digestion. I have used it with beneficial results."

Office workers and others who sit much are martyrs to dyspepsia, belching, bad breath, heartburn, poor appetite, bloating, and impairment of general health. Are you, yourself, a sufferer? EATONIC will relieve you just as surely as it has benefited Judge Chambers and thousands of others.

Here's the secret: EATONIC drives the gas out of the body—and the blood goes with it. It is guaranteed to bring relief or you get your money back! Cost only a cent or two a day to use it. Get a box today from your druggist.

MADE MARCHING MEN SMILE

Appeal of Groups of Parisian Midnettes Got Desired Results From Passing British Soldiers.

The Paris Figaro recounts the following picturesque episode at a review recently, which admirably expressed the enthusiastic admiration of the Parisian crowd for the British soldiers. The latter marched past, stern and impassive. Groups of midnettes observed that the soldiers were not smiling. "Smile, please, smile," they cried in French. The men did not falter, but continued to march, grave and meditative, because they did not understand. "Cry 'Smile' to them," a linguist in the crowd suggested, whereupon the group of midnettes cried in English, "Smile, please, smile." And then the British smiled, to the great delight of the girls. L'Oeuvre writes: "We may say without hesitation, because we know we shall be understood by our incomparable Polius, that it was the British troops, and especially the Scotch, who produced the greatest impression."

Test of Temper. "Isn't it rather hard to be an optimist and a cynic at the same time?" "It takes patience and perseverance," said the substantialist. "I committed nearly ten years before I got so I could maintain my equanimity when other passengers read the headlines in my newspaper and then fell to arguing about what they had read."—Birmingham Age-Herald.

A girl who never had a proposal apt to be about nine-tenths curiosity. The man who wins never waits to follow the crowd.

HOME TOWN HELPS

COMMUNITY LIFE IS BEST

Under That System Every Citizen Has an Equal Interest in His Own Home Town.

Community life is the ideal life. People have more time to spend in and about their homes and as a result take greater interest in the development of their immediate neighborhood. They are more congenial and neighborly; they take greater pride in keeping their homes and yards in good condition; they are contented, more progressive and incidentally more prosperous; their children are raised and educated in the proper moral environment; they associate with good companions and grow up to be sound, healthy, clear-thinking men and women of the type that make the best citizens.

Much more could be said of the community proposition, but I believe I have said sufficient to prove beyond a doubt that the development of communities on a broad, systematic basis will have a tendency to increase the number of home lovers and home owners.

Real estate companies should avoid as much as possible the placing of a mere allotment on the market. It takes considerable time, trouble and money to work on the community plan, but the results achieved make the extra effort and expense well worth while.—Exchange.

PRETTY ORNAMENT ON PORCH

at the home of Paul Brochler, on West Adams street, Los Angeles. The rock is practically round, except that it is slightly flattened on the base to give it a firm setting. With an ordinary rock drill the inside of the stone was hollowed out so that a large flower pot would fit in exactly. A small drainage hole was drilled through to the bottom and a ground pine was planted in the flower pot.—Popular Science Monthly.

Don't Let Weeds Get Started.

If the garden is not neglected too long it can be rehabilitated again to some extent, but this means a long, hard job, which is not a pleasant thing in hot weather. On the other hand, if a little judicious work is done at frequent intervals the weeds and pests can be kept down—and so the garden kept up—without burdensome effort. Never let the weeds grow tall. Kill them with some kind of cultivating tool when they are little, or, still better, by stirring the ground from time to time before they appear at all; for you may be sure that if the ground is not stirred frequently they will appear. Do not let the pests get a start. It is safe to use the arsenical sprays on late cabbages, cauliflowers and tomatoes. No part of the late cabbages thus far grown will be eaten, and furthermore, they develop from the inside so that even if arsenic is used on them late, the edible portion is protected by the coarse outer leaves. Cauliflower may be so sprayed until the curd begins to form. Anything that is peeled may be sprayed. Tomatoes may either be peeled or washed and thus freed from any dangerous effects.

Fatal to Neglect Garden.

Neglect of the garden during the hot weather is fatal to a good crop, says W. E. Lommel of Purdue university, assistant county agent leader, in charge of garden work. More work in the garden is necessary now than at any other time of the year, if full value from earlier efforts is expected. Enthusiasm of the war gardeners must continue till frost. "Vegetables require moisture and food for their proper development, and the food is not available for plant use if water is not present in the soil," said Mr. Lommel. "A good supply of soil moisture in the garden, therefore, is of vital importance. In watering, soak the soil thoroughly, as frequent light sprinklings do more harm than good. Seeds which are planted during hot dry weather especially need artificial watering, as do the young plants."

Dark Gowns Embroidered in Gray

Black frocks embroidered in gray yarns and black embroidered in silver are among the foremost successes in the season's showings of new ideas. It is a sedate combination even when the embroidery is elaborate and in a bold pattern, and it proves to be as effective when very dark blue—called night blue—is used instead of black. The lovely gown shown in the picture above employs this deep blue in a dress that is rich enough for the opera and quiet enough for anything else. Customers are giving much attention to gowns of this type, for their task is to achieve designs that couple distinction with quiet colors.

In the gown pictured there is an underbodice and a skirt of night blue satin with a bodice of georgette draped to simulate a belted coat and waistcoat, over it. There is a soft girle of the georgette and, at the left side, an unexpected and pretty touch in two long ends each of narrow moire ribbon.

Much of the embroidery, which is an important feature on this season's dresses, is done in long stitches and easily worked. The effect is good and the work goes quickly, but the wide bands on the handsome gown pictured are not embroidered in this way. Many of the stitches are short and set close together. This pattern is striking and exactly suited to the yarn used for working it out. The dress is simple in design, and needs to be, since the things to be emphasized in it are the lovely color combination and the bold and rich embroidery.

A dress of this kind calls for a hat that will play up to it, and a broad-brimmed model, in velvet, or velvet and georgette, of the same dark blue, can hardly be too simply trimmed. Such a hat is shown in the picture and might be in black with as good results. The pumps are of black patent leather.

Satins Will Be Favored. Satins promise to be the greatest favorites among silks for fall.

Separate Skirts. Separate skirts have hems of contrasting material and color.

Novel Wraps and Coats

Only a few of the coats and wraps for fall and winter lay claim to novel designing. For one thing, designers restrict the amount of materials to be used to definite lengths that do not allow anything for merely decorative additions to these wraps, and for another—simplicity is the fashion; the public generally likes it.

One exception to the rule that allows a scant measure of goods for a coat appears in the handsome model shown at the right in the illustration above. This is a heavy, castor-colored garment of pom pom cloth, with a shawl collar and deep cuffs of otter. It is made with the approved double-breast, fastening to the left, near the waistline, with handsome buttons. These are square and match the coat in color, with rims in the dark shade of the fur. Four of them are set on each sleeve and one on each pocket. The coat is straight, but is drawn to the figure at the waistline by a soft girle of the cloth. The designer might have considered the coat complete if nothing more had been added to it; but there was the temptation to add the charm of the straight panel and the smart suggestion of a military cape all at one and the same time—and it was done. Therefore there is a long, narrow cape, banded with fur and finished with buttons, which puts

this extravagant and beautiful coat in a class where it has few rivals. For mild climates, or fall wear, there are some scarfs and capes suited to between-seasons that are often clever combinations of two accessories in one garment. The cape shown in the figure at the left of the picture combines with such ends that are finished with a handsome yarn fringe. Fringe is a much coveted decoration these days and these sash ends are further enriched by embroidered dragons that match it.

Julia Bottomley

Capes Are Stylish. Capes are very desirable and very stylish. But if a girl can have but one wrap outside of the regular raincoat, a warm wool coat is the best choice. Those for this season are, for the most part, belted, double breasted, having patch pockets, collars which can be rolled high and the coat reaches the edge of the dress at the bottom. Materials are much the same as they have been in the last two seasons; wool velours, duvety or other woolly surfaces. Bolivia is a beautiful material, but its wearing qualities are somewhat doubtful.
