## Donald Kinnaird Eastland Mayor; Police Changes

Donald L. Kinnaird was elected chairman of the Eastland City Commission at the meeting held at the city hall Monday night and thereby automatically became mayor of Eastland. At this meeting Kinnaird and J. M. Sherrill, new members, and T. M. Johnson, re-elected, took the oath of office and immediately took over their duties of assisting in the direction of the affairs of the city for the coming year. Kinnaird and Sherrill replaced the outgoing commissioners, Alex Clark and M. L. Keasler, while Neal A. Moore and Frank Castleberry are the Lovers.

One of the first acts of the re-organized commission was to elect Guy Parker as City Manager, who replaces W. C. Marlow. Mr. Marlow has been manager for three years and has rendered efficient service in that position. Mr. Parker stated Tuesday morning that he was not an applicant for the position and did not know that he was being considered for the place until late Monday. However, he accepted and was busy engaged in the office Tuesday morning getting lined up for carrying on the city's affairs.

The office of Chief of Police was abolished and Lee Reid, who has served in this position, ably and well for the past three years, brought his tenure of office to a close Tuesday. B. F. Pryor and Jno. D. Seale were appointed as night watchmen, replacing J. M. Nunn, who has held this position for the past few months. W. L. Mead is doing night service in the employment of a number of business men for the protection of their individual property. Mr. Parker stated that no day policeman would be put on unless the need for one arises.

Manager Parker also said that no other changes in the official line-up was contemplated at this time; therefore, J. F. Little will continue in the position of City Secretary, Artie Liles in charge of the water department, A. W. Hennessee as chief of the fire department, with Richard Jones as his assistant.

## Mass Meet Here Urges Retention Of School Fund

The Eastland county school board trustees and independent school board trustees held a mass meeting called by Eastland county Chairman Ussery, at 2 p. m., in the 88th district courtroom. The meeting attended by 200 interested citizens, armed with facts and figures for the discussion of school problems, determined to get before the legislature the critical condition of schools which patrons are facing this next year.

The statement was emphasized that the present crisis is not met, schools cannot operate next year longer than four months.

The schools have had difficulty in operating on this year's per capita of \$16 and it will be impossible to do so next year on \$8.50 per capita, the rate set by the legislature, it was brought out at the meeting.

The following petition for increase of allowance was voted to be circulated for signatures.

"To the Honorable Members of the 43rd Legislature:

"We, the patrons, as friends of public education in Eastland county, respectfully petition you as individual members of the legislature, and as a committee of the whole, to make adequate provision for the support of our public schools for the coming two years.

"This cannot be done, unless we have at least \$17.50 per capita. You and you only can do it. You find money for other things and you can find it for the public schools.

"Let it be by means of some tax, other than a tax on property, such as we have in the present ad valorem tax. The small landowners and the common people have carried this burden too long. Before this session of legislature comes to an end, we want to know that you have met the needs of the children of Texas by providing funds for the proper support of our public school institutions."

Every citizen in Eastland county is asked to sign this petition quickly as it must be in the hands of the legislature next Monday, as there is a tax measure coming up at that time, and it is imperative that the legislature have this petition before them.

There was some earnest work going on among the 200 Eastland county citizens. Talks were made by Ussery, Holloway and Flewelling of Ranger, by the chairman of the rural board of education, R. N. Cluck of Cisco, and several stirring talks by members of the rural school boards of education.

## Austin Lobbyists Must Register

AUSTIN, April 12.—Lobbyists were ordered by the Texas House of Representatives today to register with its chief clerk, giving a statement of employment and the legislation in which their employer is interested.

The resolution also requires heads of state departments and state employes to register. It forbids them to appear on the floor of the house to interview members.

Rep. Cecil Lotief of Cross Plains and others introduced the resolution. Lotief is author of a natural gas tax bill and of proposed utility legislation.

A humorous amendment providing that each of the lobbyists furnish legislators three meals a day and a fourth meal at midnight for Lotief, was adopted. As discussion became more serious it was ordered reconsidered and withdrawn.

The house killed the proposal for a constitutional amendment to do away with the poll tax as a prerequisite to voting.

## Eastland County Apples Grow Well

If you want to profitably grow apples in Eastland county, plant the Golden Delicious variety, says V. E. Jobe, Eastland county farmer and ranchman, residing on the Connellee ranch near Eastland.

Mr. Jobe this week was exhibiting some specimens of the Golden Delicious apples grown by his brother, Dallas Jobe, Jr., near Gorman.

Dallas Jobe, three years ago planted an orchard of Golden Delicious apples and last season all of them produced a good crop of apples. The Golden Delicious is not only the best apple for this section but is the only apple that is never killed by frost and the trees bear younger than any other apple, Mr. Jobe says.

The Golden Delicious is also an ideal apple for most every purpose, Mr. Jobe says. Mr. Jobe is putting out an orchard of the Golden Delicious on the Connellee ranch.

## Flatwood Womans Club Met April 6

The Woman's Home Demonstration Club met in the home of Mrs. J. C. Jordan, April 6th, with 15 members present. Miss Ramey was present and talked to us about waging war on rats, and seems to think people outside of the community would be glad to help.

Then she gave a very interesting talk on bedrooms, stressing the selection of bed linens and using your own home grown wool for blankets. Other subjects were also discussed. It seems that interest in our club is the best it has been in some time. Next meeting will be on April 20, with Mrs. J. H. Pittman.

## Alex House Dies At Aline, Okla.

Word has been received in Eastland of the death of Alex House near Aline, Oklahoma, on April 7th. The report stated that he was found dead in his car which was standing on the highway with the motor running. Monoxide gas poisoning was believed to have been the cause of his death.

Alex House was reared in Eastland the son of G. H. House and wife. For many years he had resided in Oklahoma City traveling for a flour mill. He was a brother of Mrs. Myrtle Drake, who lives a few miles south of Eastland. He was married.

## Alameda 4-H Club Elects Officers

J. C. Patterson and Miss Ruth Ramey met with the 4H club of Alameda recently. The house was called to order by Mr. Patterson, who handed out the cards for the club members to fill in with their names and names of their projects. After the cards were filled out he collected them. The club then elected their club officers as follows:

Yell leaders, Ellen Tucker and Dickie Lewis; Reporter, Mildred Love.

The president then appointed five of the club members to serve on a committee to provide programs and plans to raise money for the club.

The girls discussed making of beds and the boys discussed their projects in their group meetings.

Mr. Patterson and Miss Ramey met with the Alameda club again last Tuesday, April 4. The house was called to order by the president. The secretary called the roll and read the minutes. Mr. Patterson then lectured on rats; namely, their cost, how to get rid of them and what kinds of poisons to use. The club then adjourned to group meetings. The girls discussed hooked and braided rugs, made of silk, wool or cotton. They also discussed cutting beds and cuttings. Following the club meeting, Mr. Patterson gave a poultry culling demonstration at the farm of J. C. Lockhart.

## SPANISH BAYONET

Morris Shelton reports that a Spanish bayonet which grows at his home is now in full bloom, the blossoms being cream color and unusually large. This plant is a native of this section of the country, but is said to bloom only occasionally.

## Sheriff Foster's Hand Is Injured By a Prisoner

In an altercation with a prisoner, who had just been brought in to the jail, Sheriff Virge Foster received a very painful injury to his hand Tuesday afternoon. The trouble occurred when the prisoner attempted to destroy a jar of whiskey that had been brought in as evidence and, in the effort to prevent the destruction, the small bones at the base of the little finger of Mr. Foster's right hand were broken.

The sheriff, accompanied by Deputy Steele Hill, had gone out to the Ole Mill Sandwich Shop on West Commerce street and had taken into custody Hubert Weatherby and the jar of liquor. Before leaving the shop Weatherby attempted to get hold of the jar to destroy it, but was prevented from doing so by Hill, according to reports.

He was taken to the office of the jail and Steele Hill placed the jar on top of the desk and sat down at the desk to register the prisoner. Weatherby took a key from his pocket and, telling Mr. Foster he wanted him to give it to his son, extended it toward the sheriff, but struck Mr. Foster on the chest and made a grab for the whiskey instead of giving him the key. It is said that in the melee which followed with the prisoner, Sheriff Foster, Deputy Hill and Jailer E. P. Kilborn taking part, Mr. Foster received the injury to his hand, the prisoner got a bruise on his forehead and the jar containing the whiskey was broken.

A charge of vagrancy has been filed against Weatherby with Justice of the Peace, Milton Newman, since the destruction of the evidence made it doubtful if a charge of possessing liquor could be sustained.

## Present Shipment Red Cross Flour To Be The Last

Dr. H. B. Tanner, secretary of the Chamber of Commerce, received a letter Thursday from J. E. Spencer of Cisco, chairman of relief work in Eastland county, stating that another car of Red Cross flour was on the tracks at Cisco and that Eastland's apportionment would be 500 sacks of 24 1-2 pounds each.

Mr. Spencer advises that the St. Louis office has sent out the information that this will be the last car load of flour for this county. He suggests that the less needy be dropped from the list as quickly as possible and the supply be conserved for the use of the older people, sick people and the widowed families.

## Eastland County Roads Bring Trade One Survey Shows

AUSTIN, April 12.—Eastland county's state highways bring \$396,000 a year in extra business to the county in the form of tourist trade, the Texas Good Roads association has estimated from a survey of the state's last official traffic census.

This business, the survey points out, does not include "natural" trade from local cars or those of adjoining counties, which obviously would increase with improved roads.

State checkers, from four days' actual count, found the average daily traffic to be: 1,100 motor vehicles on highway 1; 600 on highway 67, and 500 on highway 23.

Motor traffic in Texas is divided, the experts have found, in almost equal classes. Roughly, half are local cars or from adjoining counties. The other half are from beyond the state, or from Texas points at least two counties distant. The latter are genuine tourists.

"On this basis, some 1,100 outside cars cross Eastland county each day," the association's survey said, "scattering their good American dollars among the restaurants, hotels, tourist camps, hot dog stands, garages, filling stations and stores along the important highways.

"If they spend as little as \$1 per vehicle within the borders of the county, then Eastland county's trunk roads mean \$33,000 a month in added business, or \$396,000 a year exclusive of their convenience and saving to her own 34,000 people, who operate some 8,000 cars themselves."

The survey, conducted by the association for every county in Texas, was designed to show im-

## Dan Collie Made Senate Mascot

AUSTIN, April 12.—By Senate resolution, Dan Collie, three-year old son of Senator Collie, was made a special page to his father April 5th, the birthday of Senator Collie, the youngest member of the Senate. Dan was further designated as "Regular Mascot of the Senate." The resolution was sent up by Senator Pace of Tyler and Senator Beck of DeKalb, and came as a complete surprise to the Senator from Eastland. Mrs. Collie, Dan and Kathleen, age 6, had been given advance information of the plan and were present for the occasion. After the resolution was read and adopted unanimously, young Dan was escorted to the platform and presented by Lieutenant Governor Witt. He responded by waving a flag presented him by Senators, amid applause from the floor and gallery.

## Gibson Resigns As Maverick Coach

Joe A. Gibson, who has been coach of the Eastland Mavericks for the past several years, has turned in his resignation to the school board, to be effective with the end of the present term. In resigning the coach expressed his appreciation for the efforts of the citizens to promote better and cleaner athletics in the school.

In the years Gibson has coached the Eastland Mavericks he has made a good record in a district where competition is keener, probably, than in any other section of the state and, with small squads and lack of material, has kept the Eastland team in the running, despite handicaps.

He has not announced his plans for the future.

His letter of resignation, which was tendered Friday night, read: "Under the prevailing conditions in Eastland I feel it best for all concerned that I not be an applicant for the coaching position here next year, so I hereby tender my resignation. I shall leave here with the best of feeling toward everyone. I have enjoyed my work here very much and hope that I, in some measure, have fulfilled the position as coach and teacher as it should have been.

"I appreciate the efforts of the citizens of Eastland in their attempts to help promote better and cleaner athletics in our school. It is useless for me to say that I have always stood for good sportsmanship and clean athletics in school above everything else, always telling the boys to put their work first and athletics next.

"I want the people here to know that I have a deep feeling of interest in every boy in Eastland. I am glad that I have had the opportunity of knowing them as I have. My greatest desire is to see them grow into citizens who can take the places of those who are now trying to make Eastland a better place to live.

"In passing let me say that Mrs. Gibson and myself will always cherish the memories of our friends here, and we wish for them one and all the greatest measure of success and happiness."

## SCHOLASTIC CENSUS

H. A. Collins has finished the work of taking the scholastic census for the Eastland Independent School District and announces that the total for this year is 1102. This gives the district six more scholastics than were enumerated last year. The number there was 1096.

Importance of roads to each community, and thus arouse public opinion against any further diversion of gas tax money, which would cripple the highway program.

## Jury Returns a Verdict of Guilt

A jury in the 88th District Court, last Saturday found Mrs. Birdie Merritt guilty of aggravated assault and fixed her punishment at a fine of \$25 and the court costs, amounting to approximately \$400. Mrs. Merritt was charged with assault with intent to murder, but, to the minds of the jurymen, the evidence adduced in the case only warranted a conviction on aggravated assault.

The indictment grew out of an alleged shooting which occurred at Ranger several months ago. Tom Merritt and his wife, Birdie Merritt, had separated and secured a divorce. Merritt had married again and he and his second wife, Mrs. Nettie Merritt, had gone to the home of Mrs. Birdie Merritt, at Ranger to see his daughter, who was sick making the trip in a truck. Merritt left his wife and small step-daughter in the truck and went into the house.

Evidence in the case, indicated that while he was away two shots were fired at the truck, one of them striking Mrs. Nettie Merritt in the lower right arm. Mrs. Birdie Merritt was charged with the shooting.

Allen D. Dabney, attorney for the defendant, stated that the case would be appealed.

POSTPONE MEET The Lions club of Eastland felt that their trip to Breckenridge to attend the 2-E district meeting held from Sunday afternoon to Monday night, should take the place of their regular luncheon on Tuesday, and called this meeting off.

## Senator Collie Leads Economy Fight In Senate

By Gerald M. Porter AUSTIN, April 13.—The Senate today began consideration of the educational appropriations for the biennium September 1st 1933 to September 1st, 1935, inclusive. The plan which the Senate has adopted in regard to the educational appropriations is to make lump sum appropriations to the various educational institutions of the state, making a considerable reduction in the amount for the present biennium. The House has followed the usual custom of itemizing its appropriations for each school. The difference in methods of making appropriations will in all probability necessitate a free conference committee between the two bodies to settle the matter.

The Senate has now completed discussion on the other three divisions of the appropriations. The appropriations for the judiciary, with 33 and 1-3 percent reduction, have already been signed by the Governor. The appropriation bill for the eleemosynary institutions with a 31 percent cut, has gone into the hands of the free conference committee. The departmental appropriations, completed last week with drastic cuts, have likewise gone to free conference committee.

The fight on the floor of the Senate for economy has been led by Senator Collie of Bogata, and Senator Poage of Waco. Senator Collie submit amendments to departmental appropriations totaling more than \$150,000.00 for the biennium. About one-third of this amount was accepted by majority vote of the Senate. Collie strongly objected to many items, directing his remarks to lump sum appropriations where it could not be determined what salary reductions were being made. He favored itemizing all appropriation bills and voted against the bills when passed because he said they did not carry sufficient reductions in many instances.

Each club representative, in a brief report of work accomplished, exhibited maps of the local communities, showing the number of families in these locales, with each club family represented by green blocks, and non-club families by white ones.

The maps are a part of the contest conducted in the club and then brought to the council, which has for one of its goals, for 1933 the intent to reach 90 per cent of the rural families. These surveys have been made to show the number in each community.

Announcements made for the council brought a dairy product show, to be held in Albany, Saturday, April 15, and a one short day course held in Denton, annually at College of Industrial Arts.

COACH JOE A. GIBSON RESIGNS

It was with regret that many people of Eastland read the resignation of Joe A. Gibson as athletic coach and teacher in the Eastland High School. Mr. Gibson has held this position for five years and during the time won the respect of his patrons and the love of the boys and girls who came under his direction. He will be with the school for the remainder of the term. The following statement made by Mr. Gibson in his resignation, reveals the purpose he has had during the time he has worked here: "It is useless for me to say that I have always stood for good sportsmanship and clean athletics in school above everything else, always telling the boys to put their work first and athletics next." The majority of the patrons have recognized this atti-

tude on the part of Mr. Gibson and commend him for it. A significant fact in this respect is, that during Mr. Gibson's services here, no serious charge of non-eligibility nor infraction of regulations has ever been brought against the Eastland school. It is true that Mr. Gibson has not always put out winning teams. However, extenuating circumstances are to be considered. In the Oil Belt District Eastland meets the hardest competition to be found in the State, and to combat these heavy teams Eastland has used and developed material on hand without offering undue inducement to bring other material into the school. When all is considered Eastland's record in the athletic realm is not bad. The reputation for clean sportsmanship, won and maintained by Mr. Gibson and his teams, is a victory.

Red Squill Is Effective For Rat Poisoning

That rats may be successfully eradicated has been demonstrated by many Eastland county farmers working in conjunction with the County Agent. One rat will eat \$2.00 worth of food per year and this does not include the enormous amount of food and feed he will waste. Red squill is the poison recommended by the government since it is an effective poison and will not poison anything but rats and mice. It is used at the rate of one ounce of red squill to one pound of bait. An effective bait is rabbit meat, finely chopped or ground. Successful and permanent rat control demands community-wide cooperation as they will quickly spread to a farm that has eradicated them by moving in from adjoining farms. The county agent will gladly aid any community interested in a general rat eradication campaign, and will provide government poison at cost.

AUSTIN, April 11. — State School Supt. L. A. Woods today announced distribution of \$2 per pupil to public schools of Texas. Today's disbursement was the fourth and makes a total of \$7 per capita allotted thus far this fiscal year.

Good Health Depends On Mineral Balance

Lee's Mineral Compound With Vitamins Builds Bodily Strength and Vigor by Supplying Needed Minerals and Vitamins

In the light of recent scientific discoveries, leading Physicians and Health authorities agree that the human race could be practically free from most ailments, and could live to a ripe old age if the system could be regularly supplied with a sufficient quantity of the essential Minerals and Vitamins.

DEFICIENCY OF MINERALS

The process of refining modern foods; bleaching of flour, rice, sugar, etc.; together with improper cooking takes out of our foods the very things that God intended we should have.

ACIDITY DESTROYS HEALTH

As the Mineral content of the body is lowered, slowly but surely the acid content of the system is increased until it finally reaches the point where the organs of assimilation and elimination cannot perform their natural functions. Our powers of resistance are lowered. Disease germs creep into the blood. The system becomes clogged with impurities. Various aches and pains appear, and before we realize what is taking place, we are on the very verge of a physical breakdown.

MAKE THIS 10 DAY TEST Convince Yourself!

Stop dosing yourself with "patent medicines," harsh purgatives, oils and cathartics for just 10 days. Go to your nearest Drugist and secure a bottle of LEE'S MINERAL COMPOUND. Take it regularly, and watch the results. You'll be amazed at the feeling of renewed strength and vigor that soon appears. No narcotics or alcohol to "boost you up" but a natural method of restoring health and energy.

In What Kind of Town Do You Want To Make Your Home

(Copyright 1933 by Associated Advertisers, Inc.)

All of us, whether we realize it or not, are looking for opportunity. Not merely the opportunity to make some money (although our financial well-being figures largely in our plans at all times) but the opportunity to improve our condition and the condition of those who are near and dear to us.

Which is to say, we want to live in a community where we not only can make a living and lay up something for a rainy day or for old age, but where we also can have the proper environment, agreeable associates for ourselves and our families, where we can live in harmony, and where we can give our children the right start in life.

Building a town isn't the abstract proposition many of us regard it. Its not solely the business of the Chamber of Commerce, or of any civic organization, or of one or two individuals who become known as "prominent citizens." Leadership we must have, of course, whether it be that of one or more individuals or one or more associations or groups of people. But, as a matter of fact, community progress, in the last analysis, is almost entirely a matter of individual concern.

The town in which you live is just as good as you, yourself, strive to make it. No better.

Cooperation there must be, of course, else scattered individual effort will defeat its own purpose. But the point we wish to make is that building your town and making it a better place in which to live isn't a question of "Let George do it!" You, yourself, are as vitally interested as "George." And the town that has enough people who realize that fact is a town which shows steady improvement year by year.

Those kind of people are bound up in the welfare of the place in which they live because they realize their own welfare is a part and parcel of it. They believe in their home town. They are alive to the necessity of better schools and better churches, to public improvements, to increased facilities for recreation and enjoyment of life, as well as to greater opportunities for their own financial advancement.

They are the people who support civic enterprises and forget

WHY WE SHOULD TRADE IN EASTLAND

By FAY TUGGER

The most important obligation of a citizen to his community is loyalty. A man is considered a poor citizen if he doesn't support his home and do his part to keep

Don't be misled by alluring advertisements of "price reduction" and "bargains." You may actually buy something a little cheaper away from home. But you are taking money out of circulation in your own town, you are reducing wages, you are making it harder for all your neighbors to pay their debts and support the community in which you live and in which you should be more interested than any other town in the country.

If you have the good of this town at heart, buy from local merchants. Support the industries that are here. Keep your money at home and at work to make a better town.

That's community building that will get results. The standard, morals, and ideals

on the highest basis. We can help do this in many ways, but the most necessary of these would be to spend your money at home. Our merchants and business men are the backbone of our community and we can't expect them to bear the whole burden on their own shoulders. Another important reason why we should trade at home is the fact that money spent elsewhere will more than likely never return to our community.

Trading at home is an advantage as well as an obligation. If we trade at home it will help those around us that we know, instead of someone in another town who means nothing to us. Most people say they had rather do things when they can exert their energy and see practically no change. By trading in our own town we can see the improvements as well as profit by them. We know that every part of a community is, more or less, dependent upon others. If fire help others, they will, in return help us. The last, but not in any way least to consider is: Is it saving to trade elsewhere? After paying the expenses of the conveyance we often find it much cheaper to trade at home.

Eastland Spread Itself for Easter

Every person living in Eastland and its trade territory that didn't visit the shops this week certainly missed the one opportunity of a lifetime to buy their entire Easter outfit, right here in Eastland. All the ladies, mens, in fact for every member of the family shops have a complete stock of the most fascinating and quality merchandise ever offered before. They simply got the spirit and with a full feeling that Eastland folks really would buy in Eastland if the kind of merchandise they wanted was here, the stores just went to the markets and bought.

It is hoped that in the final analysis of the Easter trade that the merchants will go far ahead of several years back in sales. This will demonstrate that all of Eastland has gotten the trade at home spirit which is "badly needed at this time."

The merchant's business and professional interests of Eastland are sold, lock stock and barrel on their home town. They pitch in every time they have a chance to do this and that that will benefit all of Eastland and surrounding communities.

There are just two days left before Easter. Buy everything you need right here. When Sunday morning comes, go to church. Go to an Eastland church. Eastland churches are backed by Eastland people. Every one of them have planned inspirational services that will make you proud you live in Eastland and at the same time thank heaven that you were privileged to live and enjoy another Easter day.

Talk Eastland, eat Eastland, wear Eastland—do business in Eastland. You will feel so much better when you say "I got it in Eastland."

EDDIE CANTOR REACHES HEIGHTS IN NEW FILM, "KID FROM SPAIN"

"The Kid from Spain." Eddie Cantor's third and best starring vehicle for Samuel Goldwyn, comes to the Lyric theatre on Monday and presents the pop-eyed comedian in what he sincerely believes is his greatest offering to the cause of amusement.

"Whoopie," but, successful as those were, Eddie believes he has more than topped them with "The Kid from Spain."

In other words, this is Eddie's annual screen song and dance comedy. It is the story of a button-eyed lad, who, getting kicked out of school with his roommate for suspicious goings-on in a girls' dormitory, gets involved in a bank robbery and escapes to Mexico disguised as a prominent

bullfighter, there accepting the acclaim due to the man he is impersonating until forced to go into a real bullfight.

Nonsense and song make up most of the picture and make of it a gay, romantic fable of love, shot through with dark, smiling eyes and matadors.

He made tests for several weeks in the selection of his heroine, and he made other tests for other weeks in the choice of 76 beauties to serve as a background. The same meticulousness was exercised in the selection of the principal players, the result being one of the best casts in months.

There are three distinct divisions in that cast. Lyda Roberti, electric Broadway comedienne, plays opposite Cantor and serves as a remarkable butt for him, as well as singing three songs with him. Ruth Hall and Robert Young are the romantic leads and there are all sorts of villains, including John Miljan, Harrol Naish, Noah Beery and Stanley Fields. In fact, there's a fourth division too, this being occupied entirely by Sidney Franklin, World famed bullfighter.

For the bullfighting sequences Mr. Goldwyn went to great pains to make the arena an authentic one. Bulls were imported from Mexico and a hundred experts of one kind or another put the arena into operation. And the result is one of the most beautiful and, at the same time, the most authentic bullfight scenes ever brought to the screen.

Busby Berkeley staged the dances and production numbers and Leo McCarey directed. Alfred Newman was the musical director and Richard Day designed the scenic effects. Gregg Toland was the cameraman.

with her third-year group of primary children from the Methodist Sunday school. The class met at the home of Mrs. Johnson and from there went to the woods for a nature study and an Easter egg hunt. At 4:30 they gathered at the railroad station and had the greatest thrill when they were taken for a ride on the train to Mangum and back to Eastland. Members of the group were: Billy Charles Johnson, Lyndle Lynch, Laura Lee Herring, Daphne Ann Bloodworth, Patsy Ruth Eubanks, Nanette Tanner, Barbara Shelton, Virgil Seaberry, Bruce Pipkin, Billy Hoffman, Winston Boles. Others enjoying the outing were Mrs. Lynch, Bobby Lynch, Junior Fry, Annette and Sue Bender, Junior Arnold of Wichita Falls, and Jack Johnson.

The spacious rooms echoed with the sound of dancing feet to music of the radio.

Bridge tables were arranged for other guests, and at close of a charming evening refreshments were served of iced fruited punch, and chocolate cake to Miss Florence Perkins, Eleanor Ruth Ferguson, Fayette Campbell, Carolyn Cox, Mary Frances Street, Betty Perkins; Parker Brown, Clyde Chaney, Raymond Pipkin, Roger Arnold, Wesley Lane, Raymond Lovett, Jack Shaw, and Horace Horton.

SCALE RUNNERS CLUB PRESENTS PROGRAM

Eastland is proud of her junior music clubs and the work of the Scale runners club evidenced in their program of Tuesday afternoon showed the careful preparation made for the entertaining of the club by young Marjorie Murphy, at the home of her parents.

The session was called to order by the president, Catherine Carter, and usual routine business transacted. Musical terms were roll call responses. Mary Lou Crossley as treasurer reported the state federation dues paid.

The program proper opened with piano solos by Helen Lucas and Patsy Sparks. An article on technique was read by Johnnie Mae Murphy. Piano solos, Frankie Mae Pierce, Johnnie Lou Hart, Maxine O'Neal, and Wilma Dean Pierce. Reading, Joelle Coffman. Piano solo, Loraine Stahr; piano duet, Ann Harrell and Marjorie Harper; piano solo, Catherine Carter; piano, "March Militaire" (Schubert), Marjorie Murphy.

The biography of Schubert was interestingly given by Catherine Carter, who concluded topic with a round-table discussion held by the speaker.

The critic's report was presented by Johnnie Mae Murphy. The musical game, had favor for most successful answers, an Easter novelty of a cunning card drawn by a chicken, and awarded in the game.

Dainty refreshments of sandwiches, potato flakes, pickles, cake and iced tea, served with Easter appointments in napkins, and plate favors of candy rabbits, were served at close of afternoon by the young hostess assisted by her mother, to those mentioned and other guests, Betty Joe Newman and Norma Mayes, a guest of the afternoon; Mrs. A. F. Taylor, director, and Mrs. Murphy.

The program was one of the best the club has presented and numbers were played from memory.

Not a single day has the wind been high enough to be called a real sandstorm, of course the wind has blown and the sand has moved some but not like it usually does in March. But we are living in hopes.

### Final Analysis That Grade A Milk Is Safe

Taking everything in consideration from all points of reason and demands of the government before they put the stamp of approval upon any dairy that they are entitled to use the term, "Grade A Milk," in the three previous articles as featured in the Chronicle, one can readily see how much more actual expense the respective dairies must go to to have the privilege of being a real first-class sanitary dairy.

The average public knows of course that regular inspections must be made and a final stamp of approval given each dairy. However the foregoing information was given as an insight of how far the government goes to maintain its standards.

Another deciding factor of protection is that all employees and owners of dairies must have a regular health examination once each year and in many instances once each six months, and a certificate issued by the physician making the examination.

Bacteria forms in milk quicker than any other food known. Therefore it entails all the possible haste and care in preparing it for the consumer. Keeping the milk at an even temperature is an absolute necessity for full protection. Registered grade A dairies are fully equipped to maintain the government standard.

As the summer months come on it is even more important to have your milk delivered by dairies that conform strictly to the rules of Grade A Milk requirements.

In the near future, the dairies cooperating with the Chronicle in giving this information will carry on another series of articles dealing with many features necessary during the hot summer months.

Any of the dairies registered as Grade A Dairies will be glad at all times to give any information necessary or asked and will appreciate a visit to their dairy plants at any time by the citizenship who care to find out where Grade A Milk is delivered from.

Mr. and Mrs. M. O. Hazard and son, Maurice, were dinner guests of the Berry Elliott family of Olden last Sunday.

### Exhibits Midget Automobile

Miracles will never cease and Eastland citizens had their eyes open in wonder at the little midget automobile driving all over the city streets Tuesday. The midget automobile is touring the West Texas country advertising the worth-while products of the Universal Mills, Fort Worth manufacturers of Gold Chain flour and Red Chain feeds. Bob Singleton, builder of the car was

the driver and Bob was smiling at two achievements; the fact that he was advertising something good and that he was doing it in his own little make-up. The car is a specially built four-cylinder motor. The whole works is conglomerated together from parts picked up "here and there." Bob wouldn't name the price of this famous 1933 model. It runs 55 to 60 miles an hour and acts

like a Rolls-Royce. The fact that the Universal Speedster carries only one passenger—and that's usually Bob—it signifies "no riders please" (which makes the girls a little peeved).

The car in addition to Lonking through the streets was also on display at Castleberry's Grocery and Feed Store at 204 North Seaman, who are sole distributors in Eastland for these famous flours and feeds.

Mr. and Mrs. Bill McFadden of Olden were visitors in the home of Mr. and Mrs. Allen Crosby on Tuesday.

The committee on the relief work which has been done at Staff during the past few months, are to be commended on the way they supervised the work. The cemetery is looking very nice now, some passersby never knew before that there was a cemetery there, and the grounds around both of the churches are looking good now. Also the grounds around Triump and Union schools have been much improved.

market inasmuch as at this season used stocks normally increase, Mr. Klingler pointed out.

He stated that every month this year Chevrolet dealers sold more cars at retail than in the corresponding months of 1932.

### What Is

## ATHLETE'S FOOT

Over 30 Million Americans Now Have It—  
Is This Dreaded Disease Becoming a Plague?

Athlete's Foot is a fungus germ (Trichophyton) which appears on the feet in the form of a little yellow blister, causing severe irritation and itching—especially between the toes. This disease is very contagious and is spreading with alarming rapidity among all classes of people.

The failure to successfully treat Athlete's Foot in the past has been due largely to the fact that these germs hibernate in the pores of the shoes. Salves and liquids applied only to the feet DO NOT PENETRATE THE PORES OF THE SHOES.

Medical Science has recently developed an amazing treatment known as Meritt Foot Powder, which laboratory and clinical tests have proved will positively kill these germs and restore feet so infected to a normal, healthy condition. It is simply sifted on the feet and into the shoes.

Meritt Foot Powder quickly eliminates excessive perspiration and itching of the toes. It heals irritation and is unsurpassed for chafing and as a deodorant. Why suffer another day when this last working treatment is positively guaranteed to overcome these distressing conditions or your money refunded?
