## \$5,000 Offered Eastland Church

Eastland Methodist church has received an offer from the holders of notes against the church to give dollar for dollar with the congregation on the condition that all operating expenses for this year including benevolences and interest to date be paid.

This will require the congregation to raise \$4,500 by Nov. 5. After the \$4,500 has been raised by the church and matched by the loan company, then the loan company will credit an additional \$500 dollars on interest now due. Thus, for \$4,500 the church can pay off \$9,500 obligation. This will start the church into the new year with a clean sheet, according to the president of the board of stewards of the church, Ed Willman.

The proposal has come to the church through the presiding elder of this district, Dr. C. Q. Smith, who will be in charge of the campaign to raise the needed amount to obtain the \$500 donation. Dr. Smith is acting for the pastor, Rev. Sam G. Thompson, who is temporarily away because of illness.

## Breck Buckaroos Meet Mavericks Here Saturday

Eastland will meet the Breckenridge Buckaroos on Maverick field here at 3:00 o'clock Saturday afternoon for the first conference contest of the season. This promises to be an exciting game as the two teams are about equally matched according to the dopesters of the district. The Mavericks have been a stumbling block for the Buckaroos, frequently defeating them when all the dope was set the other way.

So far this season the Buckaroos have won from Comanche and lost to Mineral Wells and Highland Park of Dallas, while Eastland has won from Dublin and lost to Decatur Baptist College and Gorman. Each team is nursing wounds of defeat from last week's playing and will have blood in their eyes Saturday afternoon. It will be a real game.

Coach Petty and his assistant, Brothers, have been giving their charges some very intensive training this week. Several of the boys have injuries that may handicap them some, but all except Rayley will probably be able to get in the game Saturday. Simmons' side injury is still bothering him but will probably be able to do some effective work.

A pep rally was held at the high school auditorium Thursday morning which put the Mavericks on their mettle and they are now rearing to go. Sam Butler, coaches Petty and Brothers, together with several students, addressed the assembly and succeeded in arousing the fighting spirit of the football toters.

Another pep rally will be held on the square Friday night which will put the fans in the same attitude for a fight as the Mavericks. The pep squad, accompanied by the band, will be in their usual position Saturday afternoon, giving their best to encourage the fighting Mavericks.

Coach Petty announces that the probable starting lineup for Saturday afternoon will be as follows: Taylor, left end; Chick, right end; Gary, left tackle; Laney, right tackle; Kollett, left guard; Frost, right guard; Allison or Cook, center; Garrison, quarter; Mays, left half; Maxey, right half and Tulley fullback.

### Music Club Opens New Season

The Music club of Eastland opened their 1933-34 season with a beautiful luncheon, Friday noon, hosted by members of the year book committee, Mrs. A. H. Johnson, Mrs. D. L. Kinnaird, Mrs. H. O. Satterwhite and Mrs. Grady Pipkin, who received the guests informally as they entered the community clubhouse, beautifully decorated in great sprays of white flowering plants and ferns, the club colors white and green.

Several tables appointed for 3 covers each, centered in smilax, and lillies, had for place cards the handsome new year book, the beautiful work of the Eastland Telegram.

A novel theme for the program was carried out in a telephone station, with lines attached to each table, and Mrs. E. C. Satterwhite, president of the club, presiding at the head table or switchboard as chief operator, with the hostesses at either side in control of the long distance telephone booths.

A delicious two course menu was served by maids in black costumes, with white aprons.

Invocation was offered by Mrs. Fred L. Drago, and the year books were presented in a charming talk by Mrs. Art H. Johnson, chairman.

Points brought out were that each program hostess will have privilege of adding extra numbers and speakers, to her program; that music is the universal language of nations with America the center, surrounded by all countries, and our president, the voice or mirror of our club.

Wishing the members a successful year of harmony, the speaker introduced a past president, Mrs. Grady Pipkin, who gave a telephone talk, communicating with the president.

Mrs. H. O. Satterwhite phoned the operator of the plans of the year book, and Mrs. D. L. Kinnaird, telephoned her appreciation of the club talent.

The chief operator, Mrs. E. C. Satterwhite, answered with a list of musical and talent possibilities for the new season.

Mrs. Perkins, sixth district president, T. F. W. C. was introduced, and presented a noted visitor, Miss Caroline Legg of the Children's Bureau of Washington.

In response, Miss Legg stated, the bureau was organized in 1912 by Theodore Roosevelt, with several divisions with a director for each.

Her mission was to see what the depression has done to children in this, the fifth state she has visited on this mission.

Mrs. E. C. Satterwhite greeted the club and the new members, Mrs. Houle and Mrs. Stewart, in an unusually beautiful address, opened with the quotation of the club motto, which was brought to this club by Mrs. W. K. Jackson, from the Music club of Pauls Valley, Okla., which she helped to organize and also organized the Eastland club.

Mrs. Satterwhite said each member was just one small instrument in the great orchestra of life, and must play her part in harmony.

### Man and Woman Are Held on Cow Theft Charges

Two cows that had been stolen near Tuscola were located in a pasture near Carbon Sunday by Deputy Sheriff Loss Woods. The man living on the place stated that one of the cows was placed there by two men some 30 days ago and that the other one was left there last week. The owner of one of the cows, definitely identified her and said the other one belonged to his neighbor living near Tuscola.

As a result of finding the cows one man has been placed in the Eastland county jail, a woman is being held in custody of officers at Abilene and a second man, who is said to be implicated in the stealing is being sought by officers.

If Postmaster Farley has any love for a good republican he might hand the man the job of postmaster at Little America.

## FOOTBALL IN THE OILBELT

By J. C. ALLISON

The old dope bucket went sailing in the air twice last week. How it did miss the football outlook for this district! It will take this week end games to get the dope sorted out again, if it is ever done this season.

In the first place Gorman heisted the old bucket Friday afternoon by defeating Eastland by a score of 12 to 7. No one except the Gorman squad had such a thought before hand, but it was done and done in splendid football style. There is no reason except that with Garrison, Simmons and Railey out of the Eastland lineup, Gorman had the better team. However, it is understood that several strong outside players were assisting the Gorman school squad.

This was all right, since the Mavericks wanted a good stiff practice game and got it.

Then Saturday afternoon the Eagles flew over to San Angelo and gave the old bucket another terrific wallop by defeating the Bobcats by a score of 20 to 14. The dope was all set for a score of about that denomination but with the heavy end for the Bobcat's portion. San Angelo had a good alibi but refused to take protection under it. The guiding genius of the team, the quarterback, was on the side lines, unable to function.

And what the respective coaches have to say about this incident is astounding. Read their statements and ponder. Mayhew for the Eagles: "The Eagles could not have won had Herb Reid, star quarterback for the Bobcats, been in the game for four quarters and in the best of health." Blondy Cross of the San Angelo Standard: "It does not matter that Herb Reid, quarterback and spark plug of the San Angelo team, was kept on the sideline through more than three quarters of the game because of illness."

It is all right for those that are directly concerned to use this kind of sentiment, but the dopsters will take another view of it and use the alibi to save his dope. It is evident that had the quarterback been in the game the result would have been different just as the result would have been different between Gorman and Eastland had Simmons and Garrison been in there doing their best.

In the other games of the district the results were about as predicted. The Bulldogs lost to Central High of Fort Worth to the tune of 6 to 0; Highland Park of Dallas swamped the Buckaroos under a 26 to 7 score; Brownwood eased out a victory against Granbury with a score of 13 to 0 and the Lobos went down before the McMurry Freshmen, 19 to 14.

The battle royal for district honors opens this week with Eastland meeting Breckenridge here Saturday afternoon. The dope places these two teams about on a parity, though the local fans stoutly maintain that Eastland will win. Each team has one win and two losses to its credit so far this season. However, the Mavericks have twice beaten this same Buckaroo squad when both were cups.

Cisco goes to Brownwood Friday and, although both teams lost to San Angelo by the same score,

## Men's Bible Class Third Anniversary

The Men's 9:49 Bible class of the Methodist church observed their third anniversary in a very fine program, presented Sunday morning in the Methodist church at 9:49 o'clock, and attended by the Martha Dorcas, Susan Steele, and Booster Bible classes, who were formally introduced at the proper time.

The session was opened by President O. L. Duckett, with the hymn, an emblem, "Onward Christian Soldiers," and "Blest Be the Tie That Binds," with Mrs. T. J. Haley as pianist, and accompanist for Wilda Drago and Drago violin octet, Mrs. Olga Vaughn, Miss Margaret Hart, Miss Evelyn Long, Miss Heffley, Miss Clara June Kimble, and Wilda Drago, director.

The program chairman, Carl Springer, then assumed the chair, and introduced visiting classes and noted guests.

Following his introductory remarks, secretary of the class, A. L. Agate, was called upon, and gave the history of the class, which started with 121 charter members, and organized from the former Bible class of the Methodist church when 22 men met at the home of Judge J. E. Hickman, Sept. 30, 1930, and organized the 9:49 Bible class.

At this point the 9:49 quartet, composed of A. E. Herring, Frank Pierce, B. M. Collie and John W. Turner, sang "When You Know Jesus, Too," and the second number, "Annie Laurie," with Drago octet accompaniment.

Judge N. N. Rosenquest gave an eloquent address on the good the class had accomplished, and of its membership.

Mr. Springer presented Miss Drago, and told of her conducting the first musical programs for the first six months of the class life.

Miss Drago and octet presented the musical number, "Believe Me If All Those Endearing Young Charms," followed by "In Central Park," the numbers preceded by a violin solo, by Nora Faye Heffley, "The Old Refrain."

Judge Hickman presented the subject of his anniversary address, which he stated there was not sufficient time to give, but which he would use as his subject at the 9:49 class meeting next Sunday morning.

BOUGHT WHISKY BLIND  
MISSOULA, Mont.—An anonymous woman purchaser and a supporter of the Volstead Act made a profitable buy, to her, surprising buy at a Missoula auction sale. She obtained a trunk for \$7.50. On opening it, she found 48 pints of pre-war whiskey, valued at \$100 or more by experts.

Cisco is picked for the winner in this contest. Abilene will have rough sailing against Lubbock Friday at Abilene and will probably lose, while at the same time the Bulldogs will be taking the Mineral Wells Mountaineers into camp at Ranger.

Ironing isn't an easy task by any means, but a new iron, with an automatic heat control regulator, makes ironing as easy as possible. A new automatic iron does away with the worries that the iron may be too hot, or that it cools off too quickly in ironing heavy materials. This iron is a worth-while investment for the woman who irons.

M. S. Sellers, Chairman The records of accidents, deaths, losses by fire, and other rural hazards indicate that the farm areas of America have greater need for definite training and knowledge in safety measures than perhaps any other section of the country.

The Boy Scout program has included every major subject of agriculture in the series of merit badge studies. One of the most important ones, and a popular one, is the one called "Safety."

We recommend that all scouts living on farms get and make a careful study of the merit badge pamphlet. We consider in the rural Boy Scout program that health, safety, and first aid are three of the most important subjects, and we are urging all rural scouts and their leaders to make special preparation along this line.

In no phase of scouting is the "Be Prepared" slogan more needed.

The merit badge pamphlet on safety, health and first aid may be purchased through your local council office or directly from the supply service of Boy Scouts of America, 2 Park Avenue, New York City, at 20 cents per copy.

You may also secure free of cost some splendid bulletins and publications on these subjects from your state college of agriculture extension service, and from the division of publications, U. S. Department of Agriculture. Be sure to write for this help in becoming a scout leader if safety in your home community.

Good Turns Every scout troop should be on its toes at this time getting ready for "good turns" during Thanksgiving and the holiday season. Following is some suggested "good turns": Baskets to the needy, collecting clothes, furnishing wood for fuel for the needy, cooperating with Sunday schools, churches and other organizations in rendering aid, carrying messages, etc., to the needy, have a troop broken toy repair shop, collect broken toys and toys that may be in homes where children have outgrown them, securing Christmas trees for the sponsoring institutions, helping in numerous other ways that will suggest themselves when you call a troop meeting to discuss same.

Forgotten Money Held By Banks

HOUSTON.—Despite three years of depression, Houston banks contain thousands of dollars belonging to hundreds of persons who apparently have forgotten the money.

What's more startling, the banks are quite anxious for the owners to claim the treasure, which amounts to about \$50,000.

Money that lies forgotten in the vaults is a nuisance to the banker. The essence of his business is order, and it does not seem orderly—or natural, at any rate—for these dollars to be knocking about loose in the world with nobody to look after them.

Every bank in the city is a repository for a certain number of these orphan dollars—"dormant accounts" they are called—and the older the bank, the more it will have on hand.

In some cases the owners have taken no visible interest in their money for more than 50 years, and this is little less of a puzzle to the banker than it is to the men outside.

Accounts are declared dormant in most banks if no deposits or withdrawals are made for 12 months. Most bankers say the average citizen's faulty arithmetic causes most dormant accounts.

"Paul in Antioch," Acts 11: 19-30; 12:25

Antioch, the metropolis of Syria, situated at the northeast corner of the Mediterranean Sea, was the third largest city in the Roman Empire with a population of 500,000 people.

Overlooking this great and wicked city was Mount Silpinus, hewn into one vast statue of Charon, the infernal ferryman.

Daphne morals derived its name from the infamous grove of Daphne, five miles out of the city with its shrines to gods, crowded with theaters, baths, taverns and dancing saloons.

In this great and wicked city, renowned in Christian history as the scene of a notable forward step in Christianity, came some Greek speaking Jews.

The Christians at Jerusalem were disturbed at the rumor of these converted Greeks and sent Barnabas to investigate the matter.

Barnabas did a great work in this city and felt the need of help. He did not stop to think that Saul or Paul would do a greater work than he was doing.

The mocking Antiochenes were unwitting prophets of the Lord when they jestingly gave the disciples the name Christian.

"Christian enshrines the supreme glory of the gospel, and proclaims the universality of its grace."

Rumors came to these disciples that the Christians in Jerusalem were suffering from famine.

Saul, seeing the plenty that was in the rich plains of Antioch, remembered that before his conversion he had plunged many people into dire poverty by his persecutions.

When they returned to Antioch, they were accompanied by John Mark, a nephew of Barnabas.

So, in the year A. D. 46, we see Christians working with power when they live and work with Christ. The office of the church is established in a great way, teaching, preaching and helping people to carry their burdens.

Church Society Day Reports of Meetings

A rare, cool October day, made "church society day" something to think about and brought out a fairly good average attendance, at the various church meetings.

The Ladies Aid society of the Christian church was opened by their president, Mrs. J. R. Gilbreath, with the hymn, ensemble, "Just When I Need Him Most," and prayer by Mrs. M. L. Smitham.

The society decided upon having a bake sale Saturday, Oct. 21, place to be announced later.

The next meeting will be held in one week at 3 p. m., in the church. The treasurer presented the report of last year's work, which proved most satisfactory.

"Morning Glory" For Dynamic Miss Hepburn

Katharine Hepburn, Douglas Fairbanks, Jr., and Adolphe Menjou!

Every name a box-office magnet, and in RKO-Radio Pictures' "Morning Glory" they are all united in a swift moving film which tells a story that parallels in many respects Miss Hepburn's own real life experience in fighting her way to stage fame.

A star who swept comet-like to screen heights in one film, the dynamic Miss Hepburn has captured the popular imagination as no other favorite in the history of the cinema. She's the toast of the hour, the talk of the towns, and one of the real mysteries of the screen.

Not content with providing a star like that with two such top notch luminaries as Fairbanks, Jr. and Menjou as cast running mates, RKO-Radio has scored the master coup of presenting them in a powerful drama which will attract added interest because of its resemblance to Miss Hepburn's life.

The role of the spectacular Hepburn girl plays is that of an unknown novice in the art of acting who goes to New York and makes Broadway yield her acclaim. There are bitter disappointments, heart-breaking reverses, and periods of heroic struggle before her final dazzling triumph.

Fairbanks has the highly sympathetic role of a young assistant to a theatrical producer, who believes in and loves, the courageous girl. Menjou is seen as his suave and polished chief.

The screen story is based upon a play by Zoe Akins.

Clever Theme In "Rafter Romance"

Hollywood offers a sprightly and original comedy with brilliant theme, it is being said of "Rafter Romance," the RKO-Radio Picture coming to the Lyric Theatre with Ginger Rogers and Norman Foster romantically teamed, with George Sidney, Robert Benchley and Laura Hope Crews also featured.

This latest Hollywood contribution to the pleasure of nations is a Greenwich Village tale of an ambitious young girl who through poverty is forced to share an attic with a struggling young artist. The boy and girl never meet in the attic, as the boy is a night watchman and occupies the room during the day while she is at work. Week after week they share the place, and without ever seeing each other there. Foster believes Ginger is a goggle-eyed old maid, while she pictures him as a rouse and holy terror.

While all this animosity rages, the pair meet outside the attic and fall in love. As the outside love grows hotter, the attic hatred bursts into a volcanic climax.

"Rafter Romance" was directed by William Seiter from an adaptation and screenplay of John Wells' novel by H. W. Hanemann, Glenn Tryon and Sam Mintz. Miss Rogers and Foster portray the couple, with George Sidney as the highly humorous landlord; Bob Benchley as a company executive; and Laura Hope Crews as an impetuous rich spinster in the more prominent roles.

# GORMAN WINS FROM MAVS BY 12-7 SCORE

The Gorman boys outclassed the Mavericks and carried away the heavy end of a 13 to 7 score in the game played here Friday afternoon. Sweeping around Eastland ends almost as will the visitors chalked up gain after gain through out the game. The absence of Garrison, Simmons and Ralley from the playing was very noticeable to the Eastland fans.

The Mavericks were in scoring position three different times during the contest and lost their opportunity on fumbles. It appeared that Coach Petty was using this game to try out all of the men on his squad; and, if so, he made the find of at least one, as Dick Mays showed the promise of becoming a very fine backfield man.

Eastland's lone marker came in the last two minutes of play. Gorman got off a bad punt that went out of bounds on her own 32 yard line. Tully hit right tackle for no gain. Gorman was penalized five yards for being off-side. Tully made good a five-yard pass and immediately shot another one for 10 yards. On the next play he passed over the line to Taylor. Taylor also took a pass for the extra point.

The Mavericks' first chance to score came on the first play after Eastland had kicked off to Gorman. The visitor's attempted punt on the first down was blocked and recovered by Eastland on Gorman's 10 yard line. Two line bucks lost ground for the home boys and a fumble on the third down lost them the ball.

Eastland's second opportunity came in the third quarter, when an opponent's fumble was recovered by a Maverick on Gorman's 49 yard line and Tully opened up a single hand drive that carried the ball to the goal line. He hit the line for three yards; his pass to Taylor netted 10 more; a drive off left tackle gained 9; a similar drive at right tackle was no gain; another at the same point added 8, a line plunge got one more; a five yard off-side penalty against Gorman put the ball on the three yard line and Tully hit left tackle for the remaining distance but fumbled as he crossed the line and the ball rolled out of bounds in the end zone and his drive failed.

Following the Maverick touchdown, Tully kicked to Rider on the Gorman 20 yard line and he raced to Eastland's 48 yard marker before being brought down with such force that he fumbled and Eastland recovered. Tully shot a 32-yard pass. On the next play he rifled one to Maxey on the goal line. For an instant it looked as if the game was won but Maxey failed to rold the ball. And so went the Maverick's last chance.

Gorman took off on the first touchdown drive late in the second quarter. Tully punted to the visitor's 30 yard line and Rider ran the ball back to Eastland's 40 yard mark. A pass and three line bucks advanced to within five yards of the goal and Rider raced around left end for the counter.

The visitor's second touchdown was made late in the fourth quarter after Tully had punted out of bounds on Gorman's 16 yard line. Taking off at this point they drove steadily down the field, using straight football until they crossed the goal. Hamrick booted against the goal post on his try for the extra point.

The starting lineup for the visitors was Townley and P. Sims, ends; Browning and Rodgers, tackles; Morris and G. Sims, guards; Whitlock, center; Hamrick, quarter; M. Morris and Rider, half-backs and Gray, fullback; while Taylor and Maxwell, ends; Gary and Chick, tackles; Frost and Kellett guards; Cook center; Sikes, quarter; Mays and Simmons, half-backs and Tully, fullback, started for Eastland.

The stars for the Gorman team were Hamrick, Gray, Rider and Whitlock and Tully, Taylor and Mays were the outstanding players for the Mavericks.

## District Banquet

ports to date, which will in turn be given at the annual conference, convening in Corsicana on Nov. 8.

Preceding the banquet, Wilda Dragoo and her violin group, Misses Clara June Kimble, Joe Earl Utz, and Margaret Hart, presented a program of music that was very pleasing.

The reports submitted at the request of the presiding elder, showed the enthusiastic determination of all to meet all local obligations. All pastors of the district were present excepting two, absent on account of illness.

In this connection, a telephone call was put in to enquire into the condition of Rev. Sam G. Thompson, who is very ill at a sanitarium in Temple, and the answer came that the patient's condition was slightly improved. A motion was made to wire a message to Rev. Thompson, by those attending the banquet.

President J. W. Hunt of McMurry college was introduced as the speaker of the hour, in lieu of Dr. C. C. Seleckman of Dallas, who sent his regrets late Sunday evening.

President Hunt was preceded by Prof. Dodson of McMurry, professor of education, who made a few pleasing remarks, prefacing the introduction of the speaker.

B. E. McGlamery, district lay leader, was the closing speaker, bringing an appeal to the laymen of the district for co-operation with their pastors in rounding out the year's work.

High lights brought out by Rev. Hunt in his address, a witty, facile and thoughtful message, was the spirit of his entire talk, dealing with the pioneer Methodist preacher in West Texas, his trials and tribulations, yet ever with the central thought uppermost, "May God give us faith to take our places not as men, but as Christian men, remembering that God, and one man, is a majority anywhere," the keynote of his address.

At the close Dr. Hunt offered a special prayer for Rev. Sam G. Thompson.

Women stewards of the church, who were present, included Mmes. Neil A. Moore, Joe C. Stephen, Ed F. Willman, Iola Mitchell, and a guest, Mrs. W. W. Kelly. Each delegation presented a report of how their church was situated on the conference budget. The fiscal year closes in November.

## Liberty Bonds—

(Continued from page 1)

bear the same rate of interest as the bonds they now hold, until Oct. 15, 1934, and a rate of 3 3/4 per cent thereafter. At the same time cash subscribers are offered an investment at a price which will yield a return in line with current yields on similar government obligations.

The offering should prove attractive both to present holders of fourth 4 1/4 per cent Liberty bonds and to individuals and corporations with funds to invest.

The present bond issue will provide the treasury with about \$500,000,000 of cash funds to meet current needs. The primary importance of the operation lies, however, in the fact that it constitutes the commencement of the refunding of more than six and a quarter billions of bonds which, unless previously called, would mature in 1938 when \$900,000,000 of treasury notes also mature. The exchange of the new bonds for a substantial portion of the outstanding 4 1/4 per cent Liberty bonds will not only affect a material reduction in the annual interest charge on the public debt, but will improve the structure of the debt by reducing the volume of near term maturities. This financing is an important and constructive step in the government's program and an essential contribution to the sound process of recovery.

While there continues to be a disparity between the usually low level of short term open market rates and the level of rates on funds for long term investment, improvement has been apparent in the market for long term government obligations. The present offering of treasury bonds and the conditions which warrant it mark progress toward a greater availability of funds for long term uses.

The subscription books for this offering will open on Oct. 16 and may be closed at any time without notice. Full information regarding partial redemption of fourth Liberty loan 4 1/4 bonds and the offering of new bonds may be obtained from the officers of banks and trust companies, from any federal reserve bank or branch or from the treasury department.

MUTUAL INSURANCE—the one plan that rode the depression without a "MORATORIUM" OR RESTRICTION.

There is a difference, however, between a mutual and a stock insurance company in the disposition of the unused portion of the premiums.

In stock companies this unused portion of premiums is called profits and is paid or credited to stock-holders. IN THE MUTUAL LIFE INSURANCE ASSOCIATION OF BRECKENRIDGE that portion is returned plus the face value of the policy at its maturity.

It is therefore expedient at this time, when reconstruction is the watchword and when SAVINGS are of paramount importance to bring to the attention of Breckenridge people and the surrounding country the fact that there is in their midst the Mutual Life Insurance Association operating in Breckenridge, Texas, which is reliable to the core—which has paid all losses promptly and which is chartered by and under the supervision of the state insurance department and can furnish you as good protection as you can buy at far less cost than other forms of insurance.

YOUR special attention is directed to our 250 dollar policies for children that can be carried on that boy or girl of yours from one to five years of age at the small cost of 8 1-2c per week.

You can carry a 500 dollar policy on that same boy or girl at only 15c per week.

These policies can be converted to \$1,000 policies at no extra cost.

OUR 1,000 dollar policies and 2,000 dollar policies can be carried at approximately 50 per cent less than other forms of insurance.

## Texas Cotton Crop Condition Above Ten Year Average

AUSTIN, Oct. 11.—The Texas cotton crop is estimated at 4,190,000 bales 500-pound gross weight from information furnished by crop correspondents on Oct. 1, 1933. This production compares with 4,500,000 bales produced in 1932, 5,319,000 bales in 1931, and 4,037,000 bales in 1930. The estimated yield this year is 178 pounds per acre which compares with a yield of 162 pounds in 1932, 173 pounds in 1931, and 120 pounds in 1930. The acres remaining for harvest are estimated at 11,290,000 acres which compares with 13,334,000 acres in 1931, 14,754,000 acres in 1931, and 16,138,000 acres in 1930. The acreage to be harvested this year takes into consideration the acres removed from cultivation as reported by the agricultural adjustment administration and the abandonment since July 1 on the area not under contract. There has been much improvement in the Texas crop since a month ago; the condition is now rated at 70 per cent of normal, which is the highest condition figure on record at this time of the year. The estimated yield of 178 pounds is the largest since 1914 when 183 pounds per acre were produced. The 10-year average (1922-1932) is 136 pounds. From present prospects, all sections of the state show promise of a larger yield per acre than last year; with the exception of a few scattered communities. However, the final output of cotton will depend upon whether the various influences affecting the crop during the remainder of the season are more or less favorable than usual.

### Goat Man, "Goat" of Many Jest Riding Crest of New Prosperity

SAN ANGELO.—Last year the favorite joke in West Texas concerned the man who was given a bunch of goats and who demanded that his benefactor cut out the inferior individuals. Everybody laughed at the goat business, they got as low as 50 cents and even 25 cents a head. That the goatmen, all amiable fellows, kept the pictures of their herds on the walls of their homes, if the ringing of the telephone by their creditors asking that they pay the interest did not shake the photos off.

Thousands of goats were sold as meat to cotton pickers, many men proclaimed proudly that they owned none.

But in the last few weeks there was a changed sentiment in the business. Some men, such as O. L. McNeely of Rockspring, Adolph Steiler of Comfort, L. J. Wardlaw of Laguna, Smith-Woodward of Pecos county and Sabinal, began to buy up these cheap animals and move them to their ranches through a lane of laughter. Reports coming from Boston said there was a scarcity of mohair, new auctions were running up and down the road upholstered in mohair, the newlyweds were buying furniture—more mohair was needed and today the United States finds itself unable to produce the quantity it uses. In Boston there has been a lot of mohair resold at a profit.

The effect of the rising mohair price is to change the entire business complexion of about 12 counties in the San Angelo area of West Texas and to increase the collateral of the goat country by at least \$7,000,000.

Some of this country with its heavy liveoak brush, its jaguilla, its other shrubs it fit for goats and goats only and before they came to the southwest about 60 years ago, there was little use made of some section of these counties. They have other businesses, they raise sheep and cattle but a large area of their land is adapted chiefly to the raising of mohair.

These counties: Edwards, Val Verde, Kerr, Bandera, Uvalde, Menard, Pecos, Sutton, Real, Kinney, Terrell today see their land increased in value and the value of their collateral enhanced by a great deal. Monroe Kirkland of Senora, warehouse executive and ranchman, said that goats ought to be worth \$3.50 to \$4 now. A few months ago a committee from the Hill Country Bankers' Association, consisting of Frank Montague, Fred Earwood and E. B. Prescott, asked for a raising of loan values

on goats. Most of the agencies were taking goats as extra collateral but they would no more lend money to them than they would listen to a bootlegger preach.

They were almost laughed at. It is their time to laugh today. They pointed out that average prices of mohair over a decade or so was about 49 cents a pound, well Radio once touched 549, they said and look where it is today. But Radio was not mohair. A total of 3,421,000 goats were shorn in Texas in 1932, as against 3,600,000 in 1931 and 3,518,000 in 1930. Since there have been heavy losses among the flocks. One estimate last spring placed the number of goats in Texas at 2,800,000, an estimate that seems correct as the fall clip is placed at 7,000,000 pounds, the goats averaging about 2 1/2 pounds. The new prices for mohair have added at least \$7,000,000 to the collateral value of these animals.

The records of the Wool Growers Central Storage Company show the prices received for mohair since 1917, with kid and grown hair reported separately from 1917 to 1922.

**Pretty Boy Floyd Is Again Sought**

MUSKOGEE, Okla., Oct. 12.—Charles (Pretty Boy) Floyd, southwestern desperado, whose boast is that he is tougher than the notorious Harvey Bailey, today was hunted with two more crimes laid to the long list with which he is credited.

Officers in eastern Oklahoma sought him in the rugged hill country. He was thought to be one of four men thought to have robbed the Haskell bank of about \$200. He was also believed to have been one of the two machine gunners who robbed a man near Saskawa.

W. M. Glenn of Lufkin and Leo Callan, San Antonio, other members of the state livestock sanitary commission from which Dr. E. F. Jarrel resigned, were both before the investigating committee today.

Both testified they considered the report of job selling to be "largely rumors" and had no specific complaints made to them.

### WAR CLOUDS ARE SEEN IN THE FAREAST

WASHINGTON, Oct. 12.—War clouds in the Far East today drew the anxious attention of American officials.

Russia again is challenging alleged Japanese encroachment on Russian interests and citizens in Manchuria. Hot words are being spoken in both Tokio and Moscow. War appears possible.

Observers here believe Russia would prefer to avert war, but apparently is determined to check Japanese advances.

Japan is far superior to Russia at sea, but the Russians claim a much larger army than that of Japan.

University of Iowa professor cures men of stuttering by having them play ping-pong. But he fails to say how he cures them of ping-pong.

"In addition there will be a local option election to again determine whether we shall have beer legally sold here in Eastland county, or whether we shall continue to spend over a thousand dollars per day with the merchants of Stephens and Shackelford counties, as we are now doing.

"I am told by our hotel men and filling station proprietors that since Stephens and Shackelford counties have gone for beer, that 75 per cent of the through traffic over the Bankhead highway now goes by Breckenridge and Albany, over the north loop, while the attorney general rules that anyone may go to those counties and legally bring back to their homes in this county all the beer they desire.

"It is rumored that larger beer may be bought and sold illegally in Eastland county right now, but Eastland county loses all the revenues which her schools so badly need.

"It's a low estimate to say that we are losing \$1,500 a day to Stephens and Shackelford counties for beer and an account of beer.

"I believe that if every voter will pay his or her poll tax for 1933, the county will go wet in February or March by over 1,000 votes.

"We have October, November, December and January to pay our poll tax and qualify as citizens. Contrary to rumor, the tax is \$1.75, the same as always.

"I urge all liberal minded people, who place the welfare of their county above the narrow bigotry of the fanatic, will pay their poll tax before the last day of January and join us in our fight for the new deal."

### Report Shows Wheat Production Is Down

WASHINGTON, Oct. 10.—Estimation of the nation's wheat production for 1933 was estimated today at 514,816,000 bushels compared with 726,000,000 bushels last year.

Miss Luetta Chrolen of San Saba is the guest of friends in Ranger.

The Blue Ridge mountains of Virginia may brighten up a bit, now that the state has gone wet.

REAL RATTLESNAKE HOLLOW GONZALES, Texas.—A real "Rattlesnake Hollow," outstripping the one of Wild West fame, has been found near here. This one contained at least 32 large rattlers and an uncounted number of little ones. A squirrel hunter found the hollow under a large pecan tree. The tree, valued at several hundred dollars, was set afire by its owner, Will Rutledge, to rout the snakes.

### LARGE SUMS REPORTED PAID FOR POSITIONS

AUSTIN, Oct. 12.—Legislative investigators today continued calling fresh witnesses as they pondered amazing tales of wholesale job selling and fund collecting, narrated to them in their hearing.

Stories of \$3,000 envelopes, night payments of \$500 on a highway, estimated deliveries by one man totaling \$20,000, rangers sent to break up violence threatened by dissatisfied job purchasers and discharge of a man who would not put up \$50 trip expenses were unfolded by witnesses under oath.

Promises were exacted from witnesses that they will repeat the tales to local grand juries. Specific indication that grand jury investigation is expected at Dallas and at Hillsbor was given.

W. M. Glenn of Lufkin and Leo Callan, San Antonio, other members of the state livestock sanitary commission from which Dr. E. F. Jarrel resigned, were both before the investigating committee today.

Both testified they considered the report of job selling to be "largely rumors" and had no specific complaints made to them.

### "KHAKI SHIRTS" ARMED MARCH IS FRUSTRATED

PHILADELPHIA, Oct. 12.—Plans of the Khaki Shirts of America to stage an armed march on Washington with the intention of making President Roosevelt, "dictator of America," were frustrated by police raids today.

As a result Art Smith, national commander of the organization, was reported a deserter from his army after he fled, and 24 of his followers were in jail.

Forty guns, ammunition, knives and swords and other weapons were confiscated in police raids a few hours before the scheduled march. Detectives said the plan was to move concertedly against the Philadelphia Electric company plant, smash the generators and darken the city. Under cover of darkness shock troops planned to scour the poorer sections of the city, shooting communists and recruiting hundreds of men for the Washington march.

Beer War Rages In Houston Area

HOUSTON.—Under the calm surface of legalized beer in Houston a bitter battle is being fought by distributors.

The spirit of co-operation that ruled over the trade for a short time has been given the gate in a large way, say those who know.

A code of fair practices entered into by 27 leading distributors shortly after beer was legalized Sept. 15 has gone into the discard and the byword now is "every man for himself."

As a result of the tense situation state officials charged with the collection of taxes have expressed fear of a new species of bootlegger whose object will be to cheat the state out of its due.

First skirmishes in the distributors' battle have already been fought. In less than a week the prices of various brands of beer here have been hammered down from an average of \$2.65 to as little as \$1.40 a case, and from \$10.75 to \$9.25 a half keg.

Distributors are absorbing the losses, and are bitter about it. Officials of the state comptroller's department, whose duty it is to collect beer taxes, are watching the situation with interest.

### Cruiser Patrols Texas Waters to Preserve Fish Life

HOUSTON, Oct. 11.—If a trim white cruiser with the Lone Star flag of Texas at the mast is seen anywhere in eastern Galveston Bay, that is likely to be Capt. L. C. Shaw, marine patrol for the Texas fish, game and oyster commission, busy on his job.

Life to Captain Shaw is one long cruise. His domain covers some 200 square miles of water. More than 100 creeks, bayous, lagoons and small bays skirting the shore of the bay afford ideal hiding places for persons who violate the state laws.

Shaw is the lone patrol in this vast area.

Shaw must watch for sport fishermen catching undersize fish, those who use artificial bait without a license, those who violate the trapping and hunting laws, commercial fishermen who violate the anti-seining law, and for many others breaking the hundreds of rules.

Just catching the violators isn't enough, however. Shaw must get convictions, and this necessitates his frequent appearances in the courts of Harris, Galveston and Chambers counties.

Assuming that Captain Shaw cruises 25 hours each week and averages eight miles an hour, he covers some 10,400 miles of territory each year. The state boat is out all hours, in fair weather or foul. When in port, the patrol boat docks at Seabrook, near Houston.

TROPICAL GARDEN

BOSTON.—Henry Schumacher, of Rosindale, has a tropical garden in his yard. It includes fig, orange, and camphor trees, pineapple, datura and other exotic tropical plants.

MADE THREE HOLES-IN-ONE

PORTLAND, Ore.—William Cooney claims some sort of record for making holes-in-one. He registered his third "ace" here recently while playing in a championship golf match with a fellow public utility employe. Despite his "one" on that hole, Cooney ended the match in a tie with his opponent.

GOLD FISH TAKE OVER SINK

COOLIDGE, Kan.—The well-known Coolidge sink near here now is inhabited by goldfish. The sink, now 250 feet across and nearly a perfect circle, with dry dirt walls nearly perpendicular, has hundreds of the little fish swimming in its fresh, light green water. No one knows how the fish came there.

PEAR CROP CUT

PORTLAND, Ore.—Only a partial crop of Bosses, said to be the first eating pear grown in the United States, will be harvested by northern fruit growers this year. The harvest will be 25 per cent smaller this year because of an over-supply. The agreement affects the Medford and Hood River districts in Oregon and Yakima and Wenatchee regions of Washington.

SPARE NECKTIED DEER

CORVALLIS, Mont.—Hunters in the region east of Corvallis are asked not to shoot a deer wearing a red necktie this year. The animal is a pet belonging to a ranch family. To protect it the necktie was attached to the deer's throat.
