LAID TO REST

BRUSSELS, Feb. 22 .- A special meeting of the chamber of deputies, called to approve the address which Leopold III will make when he takes the oath as king tomorrow, was thrown into an uproad today when the communist deputy, LaHaut, insinuated that the death of King Albert was not accidental.

The president of the chamber ordered him to cease his remarks, but he advanced threateningly toward the socialist benches. He was headed off by ushers. He apparently was trying to hint the socialists had plotted the king's death.

BRUSSELS, Feb. 22-Belgium, deepest sorrow, paid final tribute today to its hero king.

At the sharp notes of a bugle, there started from the royal palace the funeral procession for Albert I. The body, on a flag-draped gun cassion, was taken to the cathedral for the funeral service

House Bill 128 And Senate Bill 29 Are Opposed

HOLDERS AND BENEFICIARIES OF THE MUTUAL LIFE INSURANCE ASSOCIATION HOME OFFICE Breckenridge, Texas. CAN ANSWER THIS QUESTION!

THOUSANDS OF POLICY

MUTUAL INSURANCE THE OLDEST KNOWN FORM OF PROTECTION

AND THE LEAST EXPENSIVE -affords that feeling of security that comes with the knowledge that your loved ones will be provided for when you are gone

MUTUAL INSURANCE—the one plan that rode the depression without a "MORATORIUM" OR RESTRICTION.

There is a difference, however, between a mutual and a tock insurance company in the disposition of the unused portion of the premiums.

In stock companies this unused portion of premiums is called profits and is paid or credited to stockholders. IN THE MUTUAL LIFE INSURANCE ASSOCIATION OF BRECKENRIDGE that portion is returned plus the face value of the policy at its maturity.

It is therefore expedient at this time, when reconstruction is the watchword and when SAVINGS are of paramount importance to bring to the attention of Breckenridge people and the surrounding country the fact that there is in their midst the Mutual Life Insurance Association operating in Breckenridge, Texas, which is reliable to the core—which has paid all losses promptly and which is chartered and under the supervision of the state insurance department and can furnish you as good protection as you can buy at A far less than other forms of insurance.

YOUR attention is directed to our \$250.00 Policies for children that can be carried on that boy or girl of yours from one to five years of age at the small cost of 81/2 cents per week.

boy or girl at only 15 cents a week. These Policies can be converted to \$1,000.00

CHEVROLET ANNOUNCES a revolutionary new line of low-priced trucks.

Bigger, huskier models feature an entirely new engine, giving increased power on less fuel than ever!

THE 1934 line of Chevrolet trucks-truck-built I for truck service all the way through-feature the Blue-Flame engine-a great new development that will be welcomed by every truck buyer in America. Here are the remarkable facts: The new Chevrolet trucks are even bigger than last year's

models-bigger in bodies, with stronger, heavier frames, huskier transmissions and rear axles, and larger brakes. They will deliver more power. They will haul bigger loads than ever. Yet, thanks to the new Blue-Flame engine, operating costs are actually lower than before-and that means the lowest

in the hauling field. The net result of all these naprovements is a line of trucks like no others on the market-the first to offer such a combination of big capacity, great power and unequalled economy. CHEVROLET MOTOR CO., DETROIT, MICHIGAN

Always the Finest Tobacco

...one reason why Luckies taste better, smoother

In Turkey too, only the finest tobaccos are selected for Lucky Strike-the mildest leaves, the most delicate, the most aromatic. Lucky Strike is the world's largest user of fine Turkish tobaccos. Then these tender, delicate Turkish leaves are blended with choice tobaccos from our own Southland-to make your Lucky Strike a cigarette that is fully packed-so round, so firmfree from loose ends. That's why Luckies taste better, smoother. "It's toasted"for throat protection-for finer taste.

"Yau keen this door holted and don't." Parrish tried to hide his alarm.
"You keep this door bolted and don't fret. It's probably not as bad as it sounds."

Meanwhile, in the jungles, Allen was perfectly safe. A jaguar had attacked Shorty, and his cries brought Allen to the rescue. But, it was too late. The man confessed that he had been sent into the jungles by Taggart to kill the lad.

Alone in her hut, Joan prepared to go to bed, and as she disrobed, she felt a presence and looking up beheld Frenchy in the room. "Get out," she ordered, picking up better the gun failed to go off.

"Before trying to shoot one of these, Mamemoiselle, it is always advisable to release the lock."

"Looks like Taggart and Frenchy at the roin was found in the rain, they passed terrible boa constrictors and once to twice barely a jaguar. Then Taggart tripped and fell in a stream. Frenchy to open his knife, but not quick enough, for Taggart was quick on the draw and shot him in the heart exclaiming contemptuously, "Dirty double."

The was just a trick to get me out of the way. Good thing I met you on the trail. I might be walking yet."

If the jaguars didn't get you," Allen continued.

"Thank heaven nothing happened to Joan," said Parrish.

"Looks like Taggart and Frenchy session in the classroom at 4:15 acted as chauffer. NOTICE!

SCHOOL PATRONS EASTLAND Thursday, March the 1st, the taking of Eastland Scholastic Census will

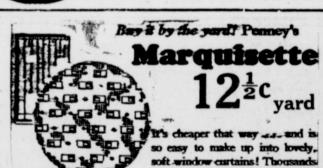

Again I have been selected to supervise the taking of School Census for Eastland for 1934 and for the best interest of you, the city and school. Your co-operation is solicited. Last year you gave me your courteous support which was appreciated by the school faculty, the board and myself. We all worked together then, so let's do so again and

keep our school in good condition. It is just as much your interest to see that your school-age child has been enumerated as it is the one taking the census. This work will continue through March and will likely be conducted along the same lines adopted last year, viz. Close checking between School Faculty and Enumerator that no child in school-age be overlooked. Ages 6 to 18 years as of September 1st, 1934, to be listed. The children coming 6 are the ones most likely to be overlooked by the parent. Those born on September 2nd, 1916, to and on September 1st, 1928, are to be listed.

Assuring you of my courteous treatment and asking yours in return, Yours truly

H. A. COLLINS, Census Enumerator.

Why doesn't everybody buy the new Pontiac?"

The other day an owner said to us-"Wby doesn't everybody buy the new Pontiac?"

This owner had simply learned what we have known since we built this car,

-that if everybody were completely familiar with the advantages of owning the new Pontiac, almost everybody would

Suppose, briefly, that everybody knew-

-that Pontiac is really a big car, with a wheelbase of 117 inches, and a Fisher body that is most generously roomy-

-that Pontiac has a big, smooth, powerful straight eight engine-really the equal in every way, of the very finest power plants -

-that Pontiac has "Knee-Action" wheels as developed by General Motors-

-that Pontiac has big, smooth, powerful Bendix mechanical brakes -

-that Pontiac is really almost as economical, both to buy and to operate, as any car you can name -

-that not more than three or four stock cars in America can pass a Pontiac on the road-

-and, finally, that Pontiac is one of the two most beautiful cars in the world-

Yes-if everybody actually knew these things-we believe that just about everybody would want a new Pontiac.

If we're right-you want a Pontiac-for you've read the facts here, for yourself. Then come in. We will be delighted to prove to you the full truth of every single statement made in this message.

WHAT'S BEHIND UR TELEPHONE

The men and women who furnish telephone service here could not do their job so well, if it were not for this unseen army of workers behind them

Dkilled workmen at the fathes and furnaces of Western Electric Company, turn raw materials from the far corners of the world into the 100,000 delicate parts and appliances needed for the telephone serand sell them to the 24 operating companies of the Bell System at a cost below what they would have to pay in the competitive market.

our thousand workers in Bell Telephone Laboratories, the research organization of the telephone service, search constantly for scientific short-cuts and inventions that will give better service at a low cost. They are the reason you now may talk across continents and seas, that most telephone wires are underground, that a single long distance line may carry four simultaneous conversations.

Staff experts of American Telephone and Telegraph Company, the parent organization of the Bell group, develop economical operating methods for the system, furnish advice on accounting and other matters. and through the financing facilities of the parent company obtain the funds needed for extensions of telephone plant at substantial savings to the operating companies.

THIS specialized group of organizations exists for one purpose only...to give you good telephone service at a fair cost.

Back of this fundamental policy is our belief, based on business judgment, that in an organization planned, like the telephone service, for the long pull, what is best for the telephone user becomes in the end the policy that will bring us the sounder, more certain success.

Whose Fault?

The Boy or Girl Who Refuses to Eat

"What have I ever done to deserve a child who refuses to eat, and is just skin and bones?" The mother who asks that question might be surprised to learn that she alone is to blame. She knows a lack of appetite is the sign of a clogged system, but does the wrong thing to remedy the condition. A violent cathartic that upsets the stomach pulls down a child like a spell of sickness. It often forms the laxative habit. A more sensible way of regulating children is explained in the column to the right:

It's a lucky girl whose mother knows how to regulate her children's bowels without some strong, eviltasting cathartic that upsets the system and ruins their appetite! Whenever sluggishness coats the little tongue, makes the whites of the eyes a bilious yellow, or a child is headachy and fretful, just try pure California Syrup of Figs. The senna in this fruity laxative is so agreeable to take, so natural in action! Get real California Syrup of Figs at any drug store. The bottle should say 'California'. It's a lucky girl whose mother knows

SOUTHWESTERN GREY/HOUND

OLDSMOBILE OFFERS BIGGER, MORE BEAUTIFUL EIGHT.....AT LAST YEAR'S LOW PRICE...\$845!

OLDSMOBILE WILL SOON INVADE THE LOW-PRICE FIELD WITH NEW ALL-FEATURE SIX ... \$640!

YOU EXPECT some improvements in any new car : :: But-double your expectations! You'll still fall 'way short of the wealth of beauty and improvements with which General Motors has endowed the 1934 air-stream Oldsmobiles.

Knee-Action Wheels! Each front wheel, cushioned on its own flexible coil spring, moves up and down like a knee-"walks" over bumps and holes without jarring the car or the passengers. Center-Control Steering banishes shimmy and shake. The slightest finger touch holds the car to its course. A built-in Ride Stabilizer prevents sway and roll on curves. There is a steadiness

and a clinging-to-the-road almost unbelievable. Stopping? The new self-energizing Super-Hydraulic Brakes do it quicker, surer, safer. These new brakes are a tremendous

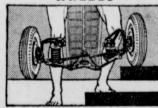

advancement over the conventional type of hydraulic brake.

More room? It's there. Quietness? It's there. Oldsmobile's Syncro-Mesh Transmission is quiet in ALL speeds; body and engine are cradled in rubber to absorb vibration.

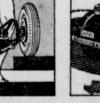

Power? 90 horsepower in the new Straight Eight . . . 84 in the new low-price Six. The priceless year-round comfort of Fisher No Draft Ventilation. Precision-built throughout-with all the ruggedness, performance and economy for which Oldsmobile is famous.

Come in. Whether you plan to buy a new car or not, give yourself the pleasure of looking at, sitting in, driving a 1934 Style

Sixes priced \$640 and up, Eights \$845 and up, f. o. b. Lansing. Spare tire with lock, metal tire cover, bumpers front and rear, and rear spring covers built in all cars at extra list price. KNEE-ACTION WHEELS

Alejo Quintanilla, Mexican youth Clark is of frontier fame and has

The Fifth Cavalry, commonly devices. The radio section of headquarters troop are equipped with radio packs that can be placed on horses and enable the troopers to send and receive messages while ounted and traveling.

It is the common belief among some people that the U.S. army is composed of men of low type, worthless or bad character, but it occurs to the writer that such not the case. I have found the Fifth Cavalry to be made up of men from almost every walk of life, and by far the greatest majority are men of high ideals and of excellent moral attitude. The soldiers of Fort Clark are as a rule more courteous than the civilian on the streets and at public

courage, loyalty and respect. Of course there are certain excep-tions, but a thief, thug or a man who has no respect or ambition is undesirable to the officers and are almost soon or later "shanghaied"

from the service. It is not the desire of the writer to paint the army as a bed of roses, because such is not the case. It ice in the present U.S. cavalry is
