Certificate For **Cotton Reduction** Being Prepared

Certificates of performance for the 1934-1935 cotton acreage reduction contracts are being prepared by the cotton section of the agricultural adjustment administration and contracting producers will be required to execute this evidence of compliance during the summer, after cotton has been planted and before the second

rental payment is made. The certification of performance, it was announced by the cotton section, will consist of a de-termination, by the workers engaged in preparing such certificates, of compliance on the part of a contract signer with the terms of the contract and the administrative rulings relating to the contract.

In addition to the formal terms of the contract such as the correct- into buttered dish to mold. ness of the description of the farm covered, the acreage planted to finished within one day. The cotton in 1934, the acreage marked as rented acres, the average productivity of planted and rented acres and other sections of the contract, the certification of performance also will concern itself with the landlord-tenant relationships. An effort will be made by the

agricultural adjustment administration through the certification of performance to determine whether the express policy of preventing undue economic dislocation by dis placement of tenants or share croppers is being followed by contract signers.

Included in the matters that will be certified will be the following: The number of tenants of the farm in 1933 as compared with those in 1934 and the reasons for change, if any

The use of rented acres by tenants for the production of home supplies

Consideration of any complaints by landlords or tenants that the other party to the farm lease is using the government program for acreage adjustment to work a hardship on either party in violation of administrative rulings and public policy.

Tre cotton section of the agricultural adjustment administration til at least April 16. pointed out that full responsibility performance rests with the contracting producer and that government agents engaged in investigating compliance with the contract will check all facts. Any contract which can not be

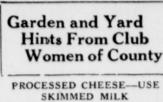

certified for performance is subject to cancellation under paragraph 9 of the contract.

Barefooted Boy Won County Track Meet

WEIMAR, Texas - Barefooted Howard Criswell, Sheridan schoolboy, won the Colorado county junior rural championship in a track meet here against youths in spiked shoes.

Howard's bare feet led the way in many events. He won two dash es, the broad jump and a leg of the 440-yard relay to accumulate 17 points and first honors.

His brother, who wore shoes as runner-up with 13 points.

ANTISEPTIC . MOUTH WASH & GARGLE

For the second time this year we ask you to check Humble products. We want you to test them thoroughly in practical, every day use and then tell us frankly - on a Humble Consumer Check Card - what your experience with Humble products has been. Humble's "Consumer Checks" are made four times a year in order that we may give you products which your experience tells you are satisfactory for your needs. We asked you to check Humble on January first; and we will ask you to do this again on July first and October first.
Humble products are continuously improved. Laboratory tests and scientific tests made in actual use tell us that Humble products are second to none. But we are not satisfied until you say "approved!" because we feel that we should be guided in the improvement of Humble products by the experience of the practical buyer, in whose service Humble products are manufactured and sold. • The second consumer check period will last ten days, April 1 to April 10. During this time, all Humble service stations will distribute Consumer Check Cards to Humble customers. We cannot too strongly urge you to fill out your card and drop it in the mail (no postage necessary). We are sincere in our effort to give you the right product at the right price with the right kind of service.

REFINING UMBLE OIL & COMPAN

The Humble Company stands squarely behind the President's Program for National Recovery. All Humble products are manufactured and sold in strict compliance letter and spirit - with the code of Fair Competition for the Petroleum Industry. We believe that this Code is fundamially sound; we believe that the public wants every industry to realize a fair and reasonable profit from its operations in order that Code schedules of wages and employment hours can be maintained, and we believe that the majority of thinking people will support with their patronage any organization which takes a firm stand for those governmental policies which have already proven their usefulness. Every Humble Service Station is one hundred per cent N. R. A.

Connally Fights To Save Rights Of Texas Women

WASHINGTON, April 2 .- Sen. Torn Connally (D), of Texas is prepared to continue the battle which he has been waging throughout his service in the senate to prevent wrecking of the Texas community property laws, when the revenue bill comes before the senate soon, he has announced. Treasury recommendations fo

the new bill included one that would have taken from residents of Texas and seven other com munity property law new stands it enables many Texans to effect substantial savings in income taxes by making separate income tax returns. Senator Connally appeared before the House Ways and Means committee in the hearings held last December, and opposed the provision. The bill was reported by the committee and passed the house without the objectionable provision, but efforts are being made to revive it.

The proposed change, accord-ing to Senator Connally, would unconstitutional, and he cites numerous supreme court decisions to support his position. He further declared the Texas law was enacted 75 years age long before a federal income tax was levied. and that the state has not passed any legislation in an attempt to evade tederal taxation.

"Texas is one of the ploncer states in the union which granted married women equal property rights with their husbands. Connally told the committee. "In other words, the earnings of the husband and the wife were treated as commonproperty under the theory of conjugal partnership, and half of that property becomes absolutely the property of the wife, and the other half becomes absolutely the property of the husband. Upon dissolution of the marriage relationship through divorce or death, of these two es tates, one goes to the husband and one to the wife, or in case death, one goes to the wife's heirs.

"it is not the function of congress to revise the laws of the states. For instance, states have different laws of inheritance. We levy estate taxes and yet this committee would not undertake to say that under the power to levy estate taxes it could change the laws of inheritance of a state.

"Under the laws of Texas, we recognize a woman equal to a man in property rights, and we also recognize her other property rights. Our state adopted that policy in the 40's, at a time when it a Republic, and it was a Republic before it became a state."

Senator Connally is a member of the powerful senate finance committee, which has been holding hearings on the revenue bill for the past several weeks.

De Luxe Fords Are Much In Demand

DEARBORN, Mich., April 2 .---Definite indications that the public worth the celluloid they're printed more freely and demanding "some thing just a little better" is seen in an analysis of sales of Ford cars during March, it was stated today at the head offices of the Ford Motor company.
This analysis showed that 60 per cent of all Ford cars ordered during type, only 40 per cent of the de luxe type, only 40 per cent.
The statement said. The ratio is in contrast to 1933 when the percentage of de luxe cars was only 44 per cent.
Since the first of the year the ratio of de luxe to standard cars has been rising steadily, according to the study of Ford factory orSince the first of the year the ratio of de luxe to standard cars has been rising steadily, according to the study of Ford factory orSince the first of the year the ratio of de luxe to standard cars has been rising steadily, according to the study of Ford factory orSince the first of the year the ratio of de luxe to standard cars has been rising steadily, according to the study of Ford factory orSince the first of the year the ratio of to factory orSince the study of Ford factory orSince the first of the year the ratio sing steadily, according to the study of Ford factory orSince the first of the year the ratio is has been rising steadily, according to the study of Ford factory orSince the first of the grant the ready to spring her? You, "Some Standard ty the study of Ford factory orSince the first of the grant the ready to spring her? You,"
Since the first of the grant the ready to spring her? You, "Some Standard ty the study of Ford factory orSince the first of the year the ratio sis has been rising steadi to the study of Ford factory or ders. In January the sale of de TRY A WANT AD-IT ALWAYS PAYS In February the percentage of de luxe cars had grown to 56 per cent. Orders in March call for 60 per cent, and advance requirements for April are 70 per cent de luxe types. Inasmuch as the list prices of the de luxe cars are \$40 higher than those of the standard types this encouraging symptom is taken to indicate that the public not only is spending in greater volume than last year, so far as new motor cars are concerned, but that it is also purchasing something beyond bare transportation requirements. The differential between the list of the Ford standard and de luxe types covers the additional equipment on the de luxe types, including safety glass not only in the windshield but also in all doors and windows, as well as dual horns, tail-lights and sun visors, and other de luxe fittings.

the Fiddle" will be presented. This is a romantic musical drama pro-Donald and Ramon Novarro, who are both widely known for their concert work in addition to their screen careers. The story concerns an idyllic and thoroughly modern love affair between two ambitious music students in ro-mantic Brussels. Appearing in support of the stars is a notable

cast including Frank Morgan, Charles Butterworth, Jean Hersholt and Vivienne Segal.

On Wednesday, April 11, the picture, "The Big Shakedown" will be shown. As the title imrlies this is a story of gangdom and their many "rackets." This picture is very entertaining and full of action. The cast is headed by Charles Farrell and Bette Davis as a new co-starring team. Others in the cast are Ricardo Cortez, Glenda Farrell and Allen Jenkins.

On Thursday and Friday, April 12 and 13, the attraction "All of Mo" will be presented. This is a ramatic romance of a highlybred society debutante from the silken luxury of Park Avenue who learns about life and love from two law crushed kids from the s'ums of "Hell's Kitchen." An exceptional array of stars com-pose the cast headed by Frederic March and Miriam Hopkins, who are supported by George Raft, He'en Mack and William Collier,

are supported by Georg Raft, Hel-a Mack and William Collier, Sr.

Sixty Unite With Methodist Church

The revival services closed last night at the Methodist church Sixty additions were reported, 38 of these by vows. The board of stewards will hold an important meeting at 7:30 tonight at the church.

The district conference meets at DeLeon April 19 and 20 and every effort will be made to have all the finances in full.

Sunday Rev. Rosemond Stanford will preach on "Thy Kingdom Come," at 11 a. m. At 7:45 the theme will be "A Warm Heart." Another group will be received into the church Sunday.

"Emulators" of "Hard" Baseball **To Meet Friday**

Those interested in playground ball are to meet Friday at 7:30 p. m., at the Chamber of Commerce Civic organizations and clubs

are contemplating the organization of a league in Eastland, which present indications are there will seven or eight teams Interest has been shown in this endeavor, chiefly because the nature of this type of ball play is one in which people who otherwise can-

not indulge in regular baseball find the playground type one of a mild nature.

Harvey and Pryor **To Take Office On April 16th**

O. E. Harvey and Ben Pryor met no opposition in the Eastland city election held Tuesday at which 114 votes were cast.

Pryor and Harvey were the only ones to appear on the ticket and no names were written on the bal-

The two newly elected city commissioners will occupy their new position at the next meeting of the city commissioners which will be April 16 unless an earlier date is set for the next session. No change in the city adminis-tration has been announced.

ST. FRANCIS XAVIER CHURCH

Sunday will be the First Sunday after Easter, and also called Low Sunday. The Epistle read is taken from the First Epistle of St. John V.4-10, the Gospel from St. John XX.19-31. In this gospel we are told that Christ rose from the dead and appeared to his Apostles and breathed on them and gave them power to forgive or retain sin; and he also convinc ed St. Thomas that he (Christ) rose from the dead. Mass will be at 8 a. m.

FOR SCHOOL TRUSTEES

According to C. A. Hertig, sec-retary of the Eastland school beard, W. K. Hyer and J. Frank Sparks have filed for places on the school board, election for which will be held Saturday, April 7, at the city hall,

CHEVROLET In a Chevrolet, you not only get the gliding ride at its best, you also get several other Knee-Action advantages not found in any other low-priced car! The reason: Chevrolet's Knee-Action is of a very special kind. The patents on it are held exclusively by General Motors. In this construction, the coil spring, which is the heart of the mechanism, is safely and solidly enclosed in a heavy steel housing to keep out dirt and flying stones. What's more, the design of this type is such that the steering mechanism is completely divorced from the spr action, the result being a new and welcome type of shock-proof steering.

Admittedly these "fully-enclosed" Knee-Action wheels are more expensive to produce than other types. But Chevrolet feels that the extra satisfaction thus assured for Chevrolet owners is well worth the extra manufacturing cost. And this same attitude is responsible for the presence of many other "fine-car" features in the new Chevrolet: the large, roomy Fisher body. The new Y-K frame. The cable-controlled brakes. In fact, everything about this automobile reflects Chevrolet's well-known policy: to build the most cars, by building the best cars of low price!

Brown Twins Are LYRIC MONDAY AND TUESDAY "Eveopeners" At A.C.C., Abilene

Elmer and Delmer Brown, former students of Eastland high school and Ranger Junior College,

who now attend Abilene Christian college, track and field exploits have made them the topic of fa-vorable comments of their athletic prowess. The Browns, last year, were among the ranking high point men of the Eastland county interscholastic meet.

At an invitational meet in Abi lene, Saturday, Delmer was high point man with a total of 18 points. He won the broad jumping contest, of which his distance was 23 feet, and ran the 220-yard dash in 20.5 seconds. His endeavor in the
