EMPLOYMENT INSURANCE IS BEING URGED

WASHINGTON, April 25.—President Roosevelt has thrown his support behind the drive for unemployment insurance legislation in session of congress, it was learned today.

Representative David Lewis, Democrat, Maryland, co-author of the unemployment insurance bill, said the president in a personal letter to him "asked that I do all my power to get action this session."

Liens Will Be Made On Any Crop Financed By Others

Crops which are being wholly financed from other sources will be included in first liens taken on crops as security for Federal emergency crop loans, according to a statement by the Production Credit Division of the Farm Credit Administration.

Thus, it will not be necessary for a borrower who in growing a crop which is being wholly financed by other parties to obtain a lien on that crop; and crops to be financed later on with funds from other source will not be included in the first lien taken to secure the emergency crop loan.

A first lien will be required, however, on the crops partially or wholly financed by the emergency loan proceeds.

Campaign Starts Against Mail Fraud Cases Over Texas

FORT WORTH.—Mail fraud promoters, especially of the oil and mining vintage, have been out on the spot in North and West Texas in a federal campaign to clear the area of such grafters.

With Fort Worth as their chief headquarters, promoters have secured the public out of more than \$100,000,000 in this area in the last 14 years, according to federal investigators and U. S. District Attorney Clyde O. Eastus.

Postal inspectors who gather evidence against promoters suspected of fraudulent operations, estimate that cases docketed with the last year have represented a loss to investors of more than \$100,000,000 in fake oil and mining schemes.

A staff of five government attorneys are now concentrating on the prosecution of mail fraud defendants already docketed on the federal court calendar here. A special prosecutor, Walter Barrow, United States assistant attorney general, has been sent here to aid in cleaning up the cases.

Cabinet Closeups DANIEL C. ROPER Secretary of Commerce

By WILLIS THORNTON NEA Service Staff Correspondent WASHINGTON.—Nearly 40 years of continuous public service in many jobs culminated in appointment as secretary of commerce of Daniel C. Roper. He was elected to the South Carolina house of representatives in 1892, and has held public office or position almost ever since.

He must supervise the large Bureau of Foreign and Domestic Commerce, the Bureau of Standards, and the Bureau of the Census, Fisheries, Mines, Navigation and Steamboat Inspection, Coast and Geodetic Survey, Aeronautics Branch (licensing and inspection of planes and airways).

Maintaining the Lighthouse Service and the Patent Office are big jobs in themselves.

Then the regular cabinet assignments to the Council of National Defense, Smithsonian Institution, Executive Council and National Emergency Council have added to them.

Only this past year the functions of the United States Shipping Board were transferred to Roper's department.

With this goes the U. S. Shipping Board Merchant Fleet Corporation, a sort of "receiver" for the war-time Shipping Board.

Roper is a stern-appearing, large man of 67, formerly active in the Methodist Church, South, and its educational institution, American University, in the capital.

Sheriff Virge Foster, Wednesday morning, descended upon the residence of a Ranger man and seized 10 dozen bottles of beer and beer making equipment.

The resident of the house had the night previous been jailed in the Ranger city jail because of intoxication charges.

Charges will be filed against the man for possession of beer in a justice of the peace court provided case.

PROTRAIT IN BEADS HARRISVILLE, N. H.—A portrait of President Roosevelt, made entirely of beads, has been completed by George E. Duncklee. It took 27,000 beads to make the 10 by 12 portrait.

CRIME SLUMPS IN UTAH SALT LAKE CITY, Utah.—Crime decreased 10 per cent in Utah during the fiscal year ending April 1, records of the public safety commission revealed.

Labor Commissioner Works Long Hours AUSTIN, Tex.—Charles Poe, state labor and boxing commissioner, is not a stickler about the hours he works. He opened his office at 8:30 p. m. last Saturday night to take advantage of the night telephone rate in a conference with the president of the national boxing association. Poe also worked Sunday trying to force Barney Ross to go through with his contract for a fight with Tony Herrera at Fort Worth April 20.

TALKS FREELY OF HIS CAREER AS DESPERADO

DALLAS, April 26.—Obviously considering himself a hero, Raymond Hamilton talked freely of his escapades today in face of an announcement that they would seek the death penalty for Texas' second ranking desperado.

The 20-year-old outlaw was not a cringing, frightened boy, as he looked out from his cell on the heavily armed guard, determined to bar any possible attempt at escape.

It was a "field day" for the almost beardless youth who was captured yesterday after the robbery of the First National Bank of Lewisville. He was the most popular occupant of the jail.

There were newsreel cameramen, newspaper photographers, reporters and officers, all bidding for his favor. And he reveled in the attention.

Under the bright camera lights he posed like a veteran trooper. When asked to smile he dispelled all thought of his fate and flashed a grin that encompassed his face.

"Well, they've got me now; but I can take it," he said.

Freely he discussed many of the crimes for which he received a 263-year sentence, the longest in the state's history. District Attorney Robert Hurt announced today he would ask a Dallas county grand jury to indict Hamilton under the habitual criminal statutes and would demand a death penalty.

Hurt said he was positive of obtaining a death sentence.

Hamilton's capture climaxed one of the greatest manhunts in the southwest. The arrest followed a wild 40-mile chase over muddy roads after the bank at Lewisville had been robbed.

The chase ended at Howe, where Hamilton found a highway blocked by heavily armed possemen. He surrendered without resistance as did T. R. Brooks, 21, Wichita Falls.

Hamilton will be charged with the robbery Feb. 27 of a bank at Lancaster of \$4,138, Dallas officials said. Clyde Barrow and Bonnie Parker also are sought for the robbery.

It was over division of loot from this robbery that Hamilton and Barrow quarreled and terminated their partnership, Hamilton told officers. Barrow insisted on giving Bonnie an equal share. Hamilton objected and withdrew from the partnership.

Hamilton admitted he robbed a national guard armory at Ranger and obtained a machine gun which he later used in several robberies, including the Grand Prairie hold-up.

"In that job," he said, "two old heads helped me. I won't say who they were, but my brother Floyd was not one of them."

Raymond emphatically denied that Clyde Barrow and Bonnie Parker engineered his break from the Eastham prison farm last January.

Growers of Mohair And Wool Decline Spring Clip Offer

Wool and mohair growers of this section, who were scheduled to sell their spring clip at Ranger Thursday, declined the offers made by the buyers and decided to wait two or three weeks for better offers.

Only two buyers were on hand and the best offers made on the 11,000 pounds in storage was 32 cents per pound. The growers, after learning of the prices offered, decided not to make a sale at this time, but to await further developments and to try to get better prices for their clip.

A telephone call to Ranger last week from the head of one of the largest wool and mohair marketing associations in the country, advised that the local growers be careful about selling too quickly at the first opportunity, stating that they could get better than prices now being offered if they did not sell too quickly. It was partly on the strength of this information that the local growers declined the offers made by the two buyers in Ranger Thursday.

Laws Passed By Solons Are Published

AUSTIN.—Laws passed by the Texas legislature are being published, after all. An appropriation for their publication was not made and it was feared no official copies would be available. Then it was found there was enough left of the contingent fund for the session to have the acts printed. They will be ready for issuance shortly.

Farm Families Off Relief Rolls to Be Given New Aid

AUSTIN.—Many farm families in Texas were cut off from various Federal Emergency Relief rolls on April 1, but a new program will be put into immediate effect for aid of a different and more business like kind, it was announced today by Director Marie Dresden of the Texas Relief commission.

New relief for most families will be directed mainly toward helping them to become self-sustaining. Families not suited to farm projects may be continued on work projects, or, where no other course is open, will be given direct relief.

During the government's program relating to reduction of certain crops in Texas, many tenant farmers became displaced only to find themselves on the relief rolls of the state.

Director Dresden is of the opinion that many landowners who let tenants go, due to inability to care for them, would be now willing to have those same tenants, or an equal number of them, live on their farms under the jurisdiction of the Texas Relief commission's rural rehabilitation division.

It has been pointed out that widespread misunderstanding of acreage reduction contracts has led to the release of many tenant-farmers. Officials of the administration believe that when brought to the attention of land-owners, these misunderstandings will be cleared up and thousands of tenant-farmers will be given a few acres around their dwellings, upon which to raise those things necessary to self-sustenance.

The rural rehabilitation program will be open to families that have made arrangements for crop production and also to those who are being allowed by their landlord to live on land removed from crop production, as well as to families not now living on farms, but whose life experience has been agricultural.

The procedure will be directed to provide the family with such essential necessities of operating a farm as may not now be available to them. Food and clothing will also be supplied until the family's own efforts meet these needs.

Large-scale shifting of families from town to town, or from one part of the farming territory to another, is not contemplated. The first job, said Director Dresden, is to care for destitute families where they are.

To help the rehabilitation family make repayment of indebtedness to the relief agency, "work relief" will be initiated. These projects must be undertaken in such places, and to such an extent, as will meet the needs of the families to be rehabilitated. That is, the number of families to be aided and the time and manner in which they should be employed, for their own best interests, will be the fundamental consideration in determining the location and character of the projects.

State and local rehabilitation committees will be named to assist in putting the program into effect and it is expected that volunteer committees in each community will be chief factors. The county agricultural agent and home agents will be asked to advise in setting up practical plans of farm procedure for each family and supervision will be provided to see that the plans are effectively carried out.

Women will be expected to take an important part in planning and directing this progressive program. While the prime objective is to assure that destitute families are enabled to provide themselves with food and clothing, this is considered only the foundation upon which to build higher standards of rural life in all lines. Both individual and community interests will be fostered. Work projects, said Miss Dresden, may be directed toward beautifying the community, on the ground that the greatest poverty in many of the smaller towns is their poverty of beauty.

Director Dresden pointed out broad plans and studies are being made by Federal Emergency Relief Administration officials at Washington with this in view.

PIPE EXPLODED

MALTA, Mont.—Next time Bill Palmer of Content will be more careful when he smokes his pipe. Palmer was startled when his newly-stuffed hod exploded as he lit it. Investigation showed him he had inadvertently stuffed a .22 caliber bullet in with his tobacco. He was uninjured.

Eastland County Relief Set-Up Is Model For Others

Eastland was host Wednesday to county relief administrators and their co-workers from the counties of Jones, Shackelford, Taylor, Callahan, and administrators' representatives from Palo Pinto and Parker counties. Miss Florence Mercer, state case worker and Miss Violet Farr, state case supervisor, were also present.

The purpose of the meeting was to hold round table discussions regarding relief work and to bring up any problems that confront the different counties in their work to be answered and solved.

These meetings will be held at various county seats every two weeks and H. E. Driscoll, county administrator of Eastland county, will preside at all meetings. Hunter George was appointed as chairman of the program committee for the occasions. There were 111 present at the Eastland meeting.

Judge Earl Conner, Eastland county relief chairman, gave the welcoming address. County Judge Clyde Garrett was also present. The meeting started at 10:30 a. m. and was in session until 4:30 p. m. Many important questions were brought up during the session and interesting talks regarding the work were made by Misses Mercer and Farr. The Eastland County relief set-up was pointed out as a model for all other counties to pattern after.

The next meeting will be held at Albany in Shackelford county, May 9.

Hon. Cecil Lotief Is Candidate For State Legislature

Hon. Cecil Lotief, florial representative in the state legislature from Callahan and Eastland counties, and whose home is in Callahan county at Cross Plains, was in Eastland Wednesday looking after business matters and meeting as many of his constituents as possible. He is a candidate for reelection.

Mr. Lotief is a business man—just a plain business man—who made a splendid record for himself in the last legislature, and this fact will be a big factor in returning him to the legislature. In fact he will have no opposition—at least no serious opposition—for reelection.

Mr. Lotief demonstrated in the sessions of the recent legislature that you could always tell just where he stood and how he was going to vote on any measure. His frankness in telling those who ask just where he stood; his firm stand on his convictions; and his fairness and earnestness of purpose won for him the admiration of even those who opposed him.

Famous Killers Are Usually Small Men

FORT WORTH.—Like the famous Billy the Kid, Clyde Barrow, fugitive killer, is but a "half pint" in physical stature.

But still like Billy the Kid, it is a half-pint of dynamite, ready to explode at any minute, law enforcement officers agree.

The physical measurements of modern Texas' peerless desperado read more like those of a high school sophomore. Barrow is slightly less than five feet six inches tall and weighs only 121 pounds.

He is so small, in fact, that he barely stands above the head of his diminutive gun-packing, cigar-smoking moll, Bonnie Parker, the modern Belle Starr of Texas.

Like Billy the Kid, New Mexico's famous outlaw who was killed when only 21 years old, with a record for one murder for each of his years of life—a total of 21, Barrow is young. He is only 24. In some of his pictures he appears almost beardless.

His eyes are hazel with a glint of steel. His hair is dark blond, almost reddish. In some of his pictures he had a clean cut, even good-looking face. Other pictures taken under less favorable circumstances have a coarser finish.

Barrow has one distinctive identification mark—an anchor and shield bearing the inscription "USN" tattooed on his right forearm.

BABYLONIAN BRICK IS UNEARTHED

WASHINGTON.—A 50-pound brick, which 2,500 years ago helped support the walls of Babylon, has been obtained by Rev. Milton Bennett Lambdin, archeologist. It is believed to be the only relic of its kind in America.

Interest On Farm Indebtedness Is Being Curtailed

WASHINGTON.—Federal Land Bank and Land Bank Commissioner's farm mortgage loans in Texas have refinanced farmers' indebtedness upon which annual interest charges formerly ran from 5 per cent to 9 per cent in most cases, it was shown in an analysis by the Farm Credit Administration of more than half the loans closed from June 1, 1933, through March 31, 1934.

The highest rate farmers now pay on the mortgages into which these debts have been refinanced is 5 per cent and on a large proportion it is only 4 1-2 per cent. The savings resulting from reduced interest charges applies, of course, not merely to one year but to the life of the loan.

The analysis dealt only with interest rates paid on first and second mortgages, and upon short-term commercial bank loans. It did not deal with other classes of debt or many other untraceable items bearing upon the cost to farmers of carrying their debts, such as loan and renewal fees. The total of loans closed from June of last year through March of this year in Texas was about \$67,400,000.

While the bulk of the loans carried rates from 5 per cent to 9 per cent, in a number of localities and in the cases of a number of loans, interest rates of 10 per cent, and in a few instances above 10 per cent, were paid by farmers on their debts.

The average rate paid by farmers on mortgage debts refinanced with land bank loans in Texas was 6.3 per cent, while the average paid on short-term, commercial bank loans was 8 per cent. Corresponding figures for mortgage and short-term debts refinanced with Commissioner's loans were, respectively, 6.9 per cent and 8.8 per cent.

The average charge on all the indebtedness refinanced with land bank loans was 6.4 per cent. Against this rate farmers pay on their land bank loans 4 1-2 per cent interest until July 1, 1938, after which the rate becomes 5 per cent. Borrowers who obtained their loans directly from Federal land banks instead of through national farm loan associations pay a rate of 1-2 of 1 per cent higher.

The average interest rate on all debts of farmers refinanced with Commissioner's loans was 7.1 per cent, against which the farmers now pay a rate of 5 per cent.

Wild Dogs Are a Threat to Cattle In the Panhandle

FORT WORTH.—Bands of wild dogs have become a serious menace to cattle on Texas Panhandle ranches, replacing the bygone threats from rustlers and wolves.

According to reports reaching cattle circles here, blood-thirsty packs of dogs which sweep down on herds at night are causing great losses to cattle raisers to the extent that concerted drives by ranchers are being made to thwart the menace.

All strange dogs, whether tame or wild, are being killed when they appear on a ranch, according to reports, and many chases have been carried out to slay the marauders.

In one raid by wild dogs in the Claude vicinity, according to a rancher there, five registered heifers were killed on one ranch. Fortunately the owner happened along and shot down five of the pack before further destruction was carried out.

Only within recent months have the dogs started killing cattle, ranchers say. Dogs have killed sheep for a long time, they say, but the attacks on cattle seem to be of recent origin.

Police dogs, ranchers claim, are the worst killers. But police dogs are seldom found in the wild state, they point out, maintaining that many of the killers must be owned by city and town people that make their sallies from their masters' domains under the cover of darkness.

Cattlemen believe the pack leaders, almost invariably police dogs, may live a double life, being peaceful, law-abiding canines during the day-time, staying in their urban kennels, but stealing out at night to lead their companions on the murderous forays.

Cabinet Closeups FRANCES PERKINS Secretary of Labor

By WILLIS THORNTON NEA Service Staff Correspondent

WASHINGTON.—First woman cabinet member, Frances Perkins is another to bring very definite experience and qualifications to her post. For nearly 20 years she has been a worker in the field of social and labor problems.

Fewer extra duties have come to her in the course of the New Deal than to some cabinet members, yet she has several important duties in addition to the regular department work.

She is a member of the Federal Board for Vocational Education, Federal Employment Stabilization Board, Public Works Emergency Housing Corporation, and Federal Emergency Administration of Public Works, all rather closely related, you will note, to the welfare of labor.

But she is also member of the Council of National Defense, Smithsonian Institution, National Emergency Council and Executive Council. The department still operates the U. S. Conciliation Service, though this has been largely overshadowed by the National Labor Board.

She has revitalized the Bureau of Labor Statistics, and the Immigration and Naturalization Service was given its present form in this department just prior to her taking office.

The Children's Bureau and the Women's Bureau, both charged with furthering the welfare of those respective classes of people as such, are under her eye.

And the United States Employment Service, also formed just prior to Miss Perkins' term of office, is being enlarged and improved under her direction.

Capability shines through the gracious manner of this cabinet officer at every turn. Cordial and kindly, she is determined and usually gets what she wants.

In private life she is Mrs. Paul Wilson and mother of a daughter, but she handles her present job strictly on her own. She dresses quietly, is "all business," and one of the hardest workers in the capital.

Given Life Term In Missouri Prison

RANGER, Texas, April 26.—Chief of Police Jim Ingram was today in receipt of a letter from the sheriff of Jefferson county, Missouri, stating that Walter Hoffman, who was held in Ranger for several days for Missouri officers, had begun serving a life sentence.

Hoffman was arrested in Ranger and was held for Jefferson County, Missouri, on charges of killing Miss Sofia Bates, 70, at Lohman, Mo., on Feb. 5, 1934. He was arrested in Ranger a few days later and was turned over to the Missouri officers on Feb. 15. He signed a statement while in Ranger confessing the slaying.

According to the letter Hoffman entered a plea of guilty on March 19 and on March 24 began serving his term in the Missouri penitentiary.

SEN. SHEPPARD IS SPONSORING THE MEASURE

WASHINGTON, April 25.—Credit relief to the average salary or wage earner was the object today of an effort at the capitol to round out the recovery drive by helping the "little fellow" as well as the nation's basic industries.

Contending that the government thus far has aided only special classes of the population—banks, farmers, railroads and industrial enterprise—supporters of a bill for establishment of a federal credit union system argue that the time has come to help ordinary people of small school.

The credit union bill is on the senate calendar, having received a favorable report from the banking committee. It will make credit available at reasonable interest rates.

Senator Morris Sheppard, supporter of the bill, said he expected favorable action on it when the senate takes up its calendar today. Senator Sheppard has made a canvass and believes the bill has a good chance to pass.

Code Authority For Contractors Is Working Out Plans

The divisional code authority for general contractors, under the NRA, have taken the first steps in code enforcement for their industry by requiring registration of all construction work. All such work must be registered with the divisional code authority whether the work is undertaken by a general contractor, or by corporation or individual not in the contracting business, but doing construction work by day labor.

Advice has just been received from Washington, appointing Harry B. Friedman of Fort Worth, as the agent to obtain such registration of construction work undertaken on and after March 19, 1934. Every job of construction, or repairs of any character undertaken, costing \$2,000 or more is required, under the code, to be registered with the divisional code authority, for whom Friedman will furnish necessary blank forms and information.

Tentatively, the state of Texas has been divided into seven groups, consisting of the following territories, that of Amarillo, El Paso, Beaumont, Fort Worth, Dallas, San Antonio, and Houston.

The Fort Worth territory to be served through Mr. Friedman's office will consist of the following counties, comprising the north central section of the state: Archer, Baylor, Bell, Bosque, Brown, Callahan, Clay, Coleman, Comanche, Cooke, Coryell, Denton, Eastland, Erath, Falls, Hamilton, Hill, Hood, Jack, Johnson, Lampasas, McCulloch, McIntosh, Mills, Montague, Palo Pinto, Parker, San Saba, Shackelford, Stephens, Somervell, Tarrant, Throckmorton, Wichita, Wilbarger, Wise and Young.

All general contractors and builders of various character and owners, whether corporation or individuals doing their own work in these counties, whether the job costs \$2,000 or more, are required to report to Mr. Friedman's office in the Sinclair building in Fort Worth, and obtain registration blanks and other information in order to comply with the code of fair competition for the construction industry.

Prehistoric Bones Of Redmen Found

ATHENS, Pa.—How long the American Indian has roamed this continent may be learned by archeologists spading among the bones of prehistoric tribesmen here.

Important discoveries, extending the period of Indian occupancy back 4,000 years already have been claimed by Donald A. Cadzow, Pennsylvania state archeologist.

The discoveries on Spanish Hill near here tell graphic tales of life in the American wilderness long before the birth of Christ. Cadzow has reconstructed a picture of tribal doings from the relics.

PIONEER EDITOR DEAD BAKER, Ore.—I. B. Bowen Sr., 85, pioneer Oregon editor, died here from injuries suffered when struck by an automobile. Bowen began work in the newspaper trade in 1875 in Portland. He retired in 1928 after serving 41 years as editor of the old Morning Democrat here.

Crop Reduction Contracts Should Be Read Carefully

Crop reduction contracts should be carefully read by producers who have executed contracts. Each signer should have a copy of the contract according to County Agent J. C. Patterson. In the rush of preparing the data for the contracts many producers have failed to observe the regulations governing the performance of the producer. It has already come to the attention of the county control committees that individuals are violating the conditions of their contracts unknowingly or based on hearsay from someone who is misinformed as to the contractual requirements.

In executing a corn-hog reduction contract producers must have listed on contract description and location of all other farms owned, operated or controlled by all parties to the contract and are bound to not increase the corn acreage on any other farm not covered by contract above the 1932-1933 average acreage produced on that farm. Producer is bound to have no interest whatsoever in any hogs not located on the farm covered by his contract, and further agrees to pay to the government \$20 per head for every hog he produces above his contracted allotment. Naturally it is not expected that producer will receive pay for reducing on one farm and be permitted to increase production on another.

Producer in executing a contract is bound to not increase production of "basic commodities" (wheat, corn, cotton, hogs and dairy products, for this area) above the annual average for the past two years. He agrees to not increase on this farm in 1934 the total acres cultivated above 1932 or 1933 whichever is higher. He agrees to not plant on the contracted acres any crop for harvest, which includes grazing, excepting that he is urged to plant permanent pasture and soil building crops. He agrees to not purchase more hogs than the average purchased in 1932 and 1933.

Weekly Sunday School Lesson Christ's Standard of Greatness

Text: Matt. 20:1-34
The International Uniform Sunday School Lesson for April 29.
BY WM. E. GILROY, D. D.,
Editor of Advance

THERE were incidents in the life of Jesus that brought out the full contrast of his teachings and the values that he set upon life, as against the worldly motives and ideals of power and success that for the most part influence men in worldly conduct.

There were two disciples, James and John, who had a very ambitious mother. She appears in the New Testament record as the "mother of Zebedee's children." Zebedee, apparently, was only incidental in that family life.

The mother was the strong determining influence, and she had inculcated in these two sons the intense passion to be foremost that she herself had for them.

Jesus perceived this quality in the two brothers, and he playfully nicknamed them "Boanerges," which means the sons of thunder.

Once he rebuked their fiery spirit when they urged him to call down fire from heaven and consume some villages who had treated their Master disrespectfully.

Few People Know Why San Jacinto Was So Named

AUSTIN.—Surprisingly few persons at the state capitol know why April 21 is San Jacinto Day. Asked, they reply it is the anniversary of the battle of San Jacinto. Pressed further, they say the battle was so named because of the proximity of the San Jacinto river. But when asked how the river received that name, they are stumped.

Volumes in the historical section of the state library show that it was named for Saint Hyacinth, Spanish for hyacinth is Jacinto.

Dominican friars from San Augustine named it. Pushing along the Texas coast in 1751, they found the Trinity river free for their craft, but another stream whose waters enter into Galveston bay resisted their efforts. They found it blocked with water hyacinths. They named it for another missionary, Saint Hyacinth, or in the Spanish, San Jacinto.

Celebration of the anniversary of the battle on April 21 and its declaration as a state holiday has caused popular supposition that April 21 is really San Jacinto Day. Religiously the feast of Saint Hyacinth or San Jacinto is Aug. 18.

Saint Hyacinth was one of the early dominicans. He received his habit from St. Dominic personally soon after the founding of the order.

The San Jacinto river continued a hyacinth blocked stream for many years. As late as 1907 congress made an appropriation to clear the bulbous plants from the stream as they impeded navigation.

SAN ANGELO.—Recognizing agriculture as the basic industry of West Texas, a special group conference dedicated to agricultural problems has been organized to be held during the West Texas Chamber of Commerce convention in an Angelo, May 14-16.

Clifford E. Jones, Spur, chairman of the regional chamber's commission on protection and expansion, will be chairman of the conference, and H. P. Davis, Pecos, secretary.

Acceptances have already been received from the following speakers: O. B. Martin, College Station, and director in the A. A. A. in Texas; Guinn Williams, San Angelo, president of the Texas Production Credit association; A. H. Leidigh, dean of the school of agriculture, Texas Technological College, Lubbock.

Martin will discuss the problems of the AAA in West Texas. Guinn Williams will discuss the work of the PCA, and its organization in West Texas. Dean Leidigh will discuss the soil conservation, and land utilization problems resulting from the crop acreage reduction programs of the government.

Floyd Hamilton Is Charged In Break At Prison Farm

CROCKETT, April 24.—Floyd Hamilton was charged here today with assisting in the escape of his notorious brother, Raymond Hamilton, and four other prisoners from the Eastham farm near here last Jan. 16.

The charges cite him as an accomplice in the slaying of Guard Major Crawford, killed in the gun battle, purportedly lead from the outside by Clyde Barrow and with abetting the escape of five prisoners.

Floyd Hamilton was charged specifically with planting the guns used by the convicts during the break.

He will go to trial in Dallas Monday in connection with the \$1,500 robbery of the Grand Prairie State Bank on March 19.

Ready For Asphalt On Breck Project

All concrete base work on the Walker street project in Breckenridge is completed, according to information received from the office of the state highway resident engineer in Eastland, and contractors will start Wednesday of next week laying the asphalt surface.

The project, it is estimated, will be completed by May 15. Supervision of the work is being made by the resident engineer, who at frequent intervals goes to Breckenridge and inspects the projects.

MONHEGAN, Me.—Earl Field made an unusual shipment recently when he sent a gallon of water from the Atlantic ocean to Prof. Oliver P. Watts of the University of Wisconsin. Watts, a summer resident here, wanted the sea water for experimental purposes.

The New Deal is as old as history, says Col. Theodore Roosevelt. Did history begin with the inauguration of President Roosevelt?

They Taste Better!

Luckies are all-ways kind to your throat

WHEREVER the finest tobaccos grow—in our own Southland, in Turkey, in Greece—all over the world, we gather the very Cream of the tobacco Crops for Lucky Strike. And that means only the clean center leaves. The center leaves are the mildest leaves—they taste better and farmers are paid higher prices for them. These clean center leaves are the only ones used in making Luckies. Then "It's toasted"—for throat protection. And every Lucky is fully packed with these choice tobaccos—made round and firm, free from loose ends—that's why Luckies "keep in condition"—why you'll find that Luckies do not dry out—an important point to every smoker. Naturally, Luckies are always in all-ways kind to your throat.

Ray of Freer, Texas, arrived Sunday and is visiting her parents, Mr. and Mrs. Wallace, and many friends who are delighted to see her again. Monday afternoon a very enjoyable meeting of the Methodist Missionary society was held at the parsonage with Mrs. Z. L. Howell hostess. The devotional was conducted by Rev. Z. L. Howell after which Mrs. W. E. Barron who is secretary of the Gaco district missionary society gave the Central Texas conference missionary

society held in Fort Worth last week. At this meeting Mrs. Barron and two other district secretaries were surprised by being made life members. A life membership is secured by the payment of \$25 and this amount was given by each of the three districts as a token of appreciation of the faithful secretaries. After Mrs. Barron's report a short business session was held for the election of a president to take the place of Mrs. W. R. McGowan, who had moved to Eastland. Mrs. I. N. Williams was elected. A social hour was then enjoyed with Miss Lois Howell leading the games and contests the last one being a contest on Texas with Rev. Howell using a blackboard for the answers to be written in. A vote was taken as to the animal that should be selected as the state animal and the Texas Longhorn received the most votes with the horned frog second. Delicious ice cream and two kinds of cake were then served to the following members: Mmes. Charles Lee, Claud Lee, W. E. Barron, W. C. Bedford, Roy Ashburn, S. E. Snodgrass, G. S. Bruce, I. N. Williams, A. C. Robert, Z. L. Howell, and Miss Lois Howell. Guests were Rev. Howell and Mmes W. H. Davis, C. C. Rhodes, Mattie Henry, John Arnold and C. H. Genoway. Miss Lillie Buchan spent the week-end at Hico with her mother's sister. Mr. and Mrs. Gifford Acree visited her parents at Ranger Sunday. SISTER MARY'S KITCHEN

BY SISTER MARY NEA, Staff Writer WITH the baker supplying consistently perfect breads and rolls, comparatively few women attempt to make yeast products. However, quick breads and rolls always are popular and are easily accomplished in the home kitchen. During early spring when unseasonably warm days and rains put appetites, fruit breads or rolls from the oven will be found uncommonly inviting when served with cottage cheese for luncheon. These rolls can be made so quickly and easily and give such a large return for the effort that they are worth keeping in mind for emergencies.

Quick Fruit Rolls

Two cups flour, 4 teaspoons baking powder, 1-2 teaspoon salt, 2 teaspoons sugar, 4 tablespoons shortening, 1 egg, 1-2 cup milk, 2 tablespoons softened butter, marmalade or jelly or a fruit "but-ter." 1-2 cup broken nut meats. Mix and sift flour, baking powder, salt and sugar. Work in shortening with pastry blender. Beat egg until light and cut into fat mixture, adding milk to make soft dough. Turn onto a floured rolling board and knead outside edges into center with four motions. Then roll lightly into a sheet about one-half inch thick. Spread with softened butter. Cover with a layer of marmalade or whatever is chosen and sprinkle with chopped nuts. Roll up like jelly roll and cut across in slices

Tomorrow's Menu BREAKFAST: Stewed rhubarb, cereal, cream, bread-crumbs, pancakes, maple syrup, milk, coffee. LUNCHEON: Cream of tomato soup, croquettes, cottage cheese, quick fruit rolls, grape juice. DINNER: Cabbage rolls, rice timbales, spinach, mince pie, milk, coffee.

Date and Orange Bread

One cup stoned and chopped dates, 1-2 cup candied orange peel, 1-4 cup candied lemon peel, 1 egg, 1 cup white flour, 1-2 cups graham flour, 1 teaspoon salt, 3 tablespoons butter, 1-4 cup sugar, 5 teaspoons baking powder, 1 cup milk. Beat egg until light with sugar and butter which has been softened but not melted. Add milk and mix well. Add graham flour to dates and candied peels which have been finely chopped. Combine with first mixture. Mix well and turn into an oiled and floured bread pan. Let stand 20 minutes and bake one hour in a moderate (350 degrees F.) oven.

Hectic Days Sleepless Nights

IF YOU are nervous today, you probably will not sleep well tonight. If you don't sleep well tonight, you will probably be nervous tomorrow. Don't allow yourself to become nervous. Take Dr. Miles Nervine. It will relax your tense nerves and let you get a good night's sleep. Irritability, Restlessness, Sleeplessness, often lead to Nervous Headache, Nervous Indigestion, Hysteria—sometimes to a nervous breakdown and organic trouble. Some of the people, whose letters are printed below, were as nervous as you are—possibly more so—yet they have found relief. Three years ago I was so nervous I could not bear to go out in company and could not sleep nights. A friend recommended Dr. Miles Nervine. I now enjoy myself thoroughly and sleep every night. Miss Juliette Currier, New Market, N. H. I have used Dr. Miles Nervine in liquid form and find it the best medicine for the nerves I have ever used. Christine Lanier, Middleton, Tennessee Whenever I have over-indulged and feel restless I take one of two Nervine Tablets just before I retire. In the morning when I awake I feel like a new person and can go about my work as usual. Dr. Miles Nervine Tablets quiet my nerves, brace you up and are the simplest, most convenient tablets to take I have ever found. Miss Grace Redmann, St. James, Minn. Before using your Nervine I was very nervous and irritable. Since I have started to take it I feel so much better that my family notice the difference. I still take it from time to time and the good result is wonderful. J. H. Redding, 1027 18th Ave., Rock Island, Ill. Dr. Redding His family appreciate his improved disposition.

Eastland Cars to Join Big Motorcade

The Eastland Chamber of Commerce is making plans for several cars to join the Broadway of America motorcade to Dallas which will arrive in Eastland at 2:35 p. m., May 7.

The motorcade to Dallas is sponsored to increase the attendance at the Broadway of American convention to be held in Dallas May 8 and 9.

Broadway America Motorcade to be In County May 7

The Broadway of America motorcade, en route to the annual convention, which is to begin at Dallas May 8, will reach Eastland county Monday afternoon, it was announced in an itinerary sent out from El Paso today.

The motorcade will arrive at Cisco at 2:10 p. m., remaining until 2:20; will arrive in Eastland at 2:35 for a 10-minute stop and will arrive in Ranger at 3 o'clock, remaining until 3:10.

The motorcade is to leave El Paso at 7:30 on the morning of May 6, making 10-minute stops at every town along the route. It will arrive at Dallas at 7:30 p. m., May 7, in time for the opening of the annual convention at the Baker hotel, which begins on the morning of May 8.

Plans to Make Gold from Sand

T. C. Mitchell and wife of Marfa, Texas, were visitors this week in the home of Mrs. Mattie Matthews of Eastland, sister of Mrs. Mitchell. Accompanying Mr. Mitchell were two men, who, with Mr. Mitchell, are interested in the experiment of extracting gold from sand.

One of the party has a plant in Kansas where experiments are being made to extract metals from various kinds of sand. Recently an experiment made there was successful in extracting \$1.50 worth of gold from a medium-sized shovelful of red sand, Mr. Matthews says.

These gentlemen say, according to Mrs. Matthews, that almost any kind of sand contains more or less mineral substance and that much of it is rather rich in iron, copper and gold.

One of the experimenters is a former government employe and has spent a lifetime in this kind of work.

WILL MOVE OFFICE

Earl Bender, manager for Earl Bender & Co., Inc., abstractors, announces that his company expects to move their offices within the next few days from the Conner building, where they have been located for the past 10 years, to the upstairs suite of offices in the Bender building, about the center of the block on the south side of the square.

Workmen are now engaged in remodeling and renovating the offices.

Parallel Parking Is Compulsory In Certain Areas

By virtue of a city and state order, automobile owners now must park their cars parallel on highway 61 between Seaman and Rosswood streets and streets from Lamar to Daugherty.

Workmen Friday were employed on the above mentioned streets marking lines which designate space wherein cars must be parked.

Blanton Wires Anent Federal Building Here

Mayor D. L. Kinnaid is in receipt of a telegram from Congressman Thomas L. Blanton in Washington anent the allocation of a federal building in Eastland to house the Eastland post office, in which Mr. Blanton expresses regret that information recently sent him from Eastland by Kinnaid did not reach him sooner, since the number of post office allocations were passed upon a few days ago but prior to the time the information regarding the Eastland site was received in Washington.

Congressman Blanton stated in the telegram to Kinnaid that it was doubtful if additional allocations would be passed upon before another 60 days, but that he would bend every effort to get the allocation made for Eastland at the very earliest moment possible.

Officers Catch Men Pushing Car Into Lake Leon

Acting on a tip, members of the sheriff's department, at 1:00 a. m. Monday morning, nabbed Owen Sellers, convict out of the state penitentiary on furlough, as he and two other men finished pushing the frame of a car, from which parts had been removed, into Lake Leon.

Sellers' stay in the state penitentiary was because of conviction in Brown and Eastland counties. He had only been out on furlough one month when alleged he committed the transgression.

Charges of theft have been filed against him in the Justice of Peace court at Eastland. He is being held at the county jail.

Old Law Firm Being Dissolved by Mutual Consent

Effective May 1 the partnership law firm of Conner & McRae, composed of Earl Conner, Sr., and John D. McRae, will be dissolved by mutual consent. Judge Conner will move back to the offices in the Conner building on the south side of the square which he occupied for many years prior to forming the partnership with McRae, and where he will practice with his son, Earl Conner, Jr., under the firm name of Conner & Conner. The Conner's are pioneer residents of Eastland.

Judge McRae, who came to Eastland about 15 years ago from Anahachee, will retain the present offices of the firm in the Exchange National Bank building where he will form a partnership with his nephew Hamilton McRae, practicing under the firm name of McRae & McRae.

Mr. McRae has been secretary of the firm for the past 15 years. He has not announced his plans for the future.

The law firm of Conner & McRae was organized in 1919 and has since that time been recognized as one of the leading law firms in the state. The firm has enjoyed a large lucrative practice

CHEVROLET When you pay the price of a Knee-Action car, you naturally want *genuine* Knee-Action and all that goes with it. You want the new gliding ride at its best. You want the huskiest, sturdiest front-end you can buy. And, of course, you want shock-proof steering. You pay for them all—but you get them all, in the low-price field, only from Chevrolet. The reason is simple. Fully-enclosed Knee-Action wheels are costly to build—so costly that only Chevrolet, world's largest builder of cars, can afford to make the necessary huge investment in new machinery—and still keep prices among the lowest of the low. Only Chevrolet has the resources and the assured volume of sales that permit this extra production cost. Chevrolet does it because Chevrolet believes that, to **KEEP ON SELLING THE MOST CARS, YOU MUST KEEP ON BUILDING THE BEST.**

LIMIT DROP TO TEN MILLION BALES

WASHINGTON, April 21.—President Roosevelt signed the Cotton Control Bill today, which embarks the nation on an experiment in compulsory limitation.

The act restricts this year's crop to 10,000,000 bales by a tax of 50 per cent on cotton in excess of quotas as set by the agricultural adjustment administration. Exemptions will be issued to cover within quota limits.

Senator Bankhead and Representative Bankhead, were present when Roosevelt signed the bill. The president presented the pen to the Bankhead brothers, who charged that the Bankhead plan involves "regimentation" and is a step toward nationalization.

"It is an arbitrary padlock on the growth of an individual to grow as he chooses," they said. The supporters replied the cotton demanded such legislation thought had been given by the compulsory provision of other commodities, and will be in force only if the growers choose to consent.

A primary court test is expected. Henry of Agriculture Henry supported the measure after questionnaires distributed by the AAA demonstrated that the cotton belt is not certain the production realize what they are.

There is a multiplicity of suits which might arise," he said.

There also is a fear of the high of the tax exemption certificate foster a "tendency to an emphasis on the production of cotton."

Plans For Senior Class Play Are Going Forward

Land Revealing Many Mysteries To Two Americans

PHILADELPHIA.—The mysterious land of Svanetia, buried deep in the heart of the Caucasus mountains, has been explored by two Americans.

Svanetia is a country the size of New Jersey, with several thousand inhabitants who call themselves Svans. It is one of the most inaccessible and little known lands of the world.

Julien Bryan, Philadelphia, and Tom Cobb, New York newspaperman, managed to get several reels of motion picture film showing life among the Svans. From Sham Shovi, a tiny health resort in Southern Russia, they traveled west down the Rion river to its source. As far as Gebi they traveled by horse and cart, but beyond Gebi was a land inaccessible except by foot, and then only during three months of the year.

Sheer valley walls and wide ice fields were traveled before the expedition reached the land of the Svans.

Here they found primitive people separated from each other by ice and granite ramps. So complete was the separation that neighbors a few miles apart were alien in dialect, dress and customs.

The villages consisted of stone houses built in the twelfth century. Each had a tower to protect the owner from enemies. Either whitewashed or weathered to a rich brown, the houses hung to the sides of banked cliffs. The capital of Svanetia is Mestia, distinguished from the other villages only by possessing a few more houses.

The Soviet influence has penetrated even to Mestia, the explorers reported.

Soviet Bishops On A Visit To Rome

VATICAN CITY, Rome.—The Pontifical Commission for Russia has just received two refugee Russian prelates who have spent several years in Bolshevik prisons. These two heroes of the faith are Monsignor Theophile Matulanis, auxiliary bishop of Leningrad, and Monsignor Julian Groski, Apostolic Administrator of Cis-baikalian Siberia.

The Pope received the two bishops in a lengthy private audience, and was particularly interested in their adventurous story.

The two bishops, after spending some years in Soviet prisons, were eventually exchanged for some Lithuanian prisoners, and so were allowed to regain their freedom.

They made their report to the Pontifical Commission after their visit to the Pope. The Pontifical Commission, formed by the present Pope to keep alive the spark of Christianity in paganized Russia, continues its secret work despite alleged persecution inflicted on its members by the Bolsheviks. Bishops and priests continue to be consecrated and ordained, and every attempt is maintained to keep a kind of skeleton hierarchy alive.

It is understood in the Vatican that the reports of the escaped Russian bishops go to show that religion has ceased to exist in Russia, especially in the cities except as a memory. Yet the members of the Pontifical Commission say they are not discouraged.

Crosses Delaware 2,000 Times Before He Receives Notice

NEW YORK.—George Washington crossed the Delaware once, making it the most publicized trip, along with Paul Revere's ride, in history.

Now comes H. P. Little, United Air Lines' pilot, who just made his 2,000th flight over the Delaware, on the New York-Cleveland route, with a claim of recognition.

Travelers on the three-mile-a-minute planes flown over the New York-Cleveland air route fly over the Delaware near Easton, Pa., where the river divides Pennsylvania and New Jersey.

Little, who has 6,500 hours flying experience, began his aerial career 15 years ago. He was one of the first pilots on the Detroit-Cleveland and Cleveland-New York routes.

Bittle Renamed Superintendent Eastland Schools

Re-election of P. B. Bittle as superintendent of Eastland public schools, W. P. Palm as principal of the high school, K. B. Tanner as president of the school board, and Curtis Hertig as secretary of the board was made at the called meeting of that body Monday night at the high school.

The newly elected members of the board, W. K. Hyer and J. Frank Sparks, were sworn in at this meeting.

The election of teachers will be taken up by the board at their next meeting, May 7.

"Heaven," Subject of Dr. C. Q. Smith

A large crowd heard Dr. C. Q. Smith at the Methodist church Sunday morning. His subject was "Heaven." He discussed among other things, "Where Is Heaven? Who Is Going There? How Far Is Heaven? and Shall We Know Each Other There?"

The desire for future life is deep seated in the human heart. Jesus tells us that he goes to prepare a place for us.

In heaven we shall be satisfied. It is not so far off but that we can hear God's voice. It is peopled by those who love God and keep His commandments. In hell dwells Lazarus so we believe we shall know our friends and loved ones in heaven.

At the evening service Rev. Rosemond Stanford preaches on "The Peril of Neglect." "How shall we escape if we neglect so great salvation?"

If we neglect the rules of health we suffer. If we neglect exercise we become weak and flabby. If we neglect our education we will be ignorant. If we neglect the church and religious instruction we will lose our way.

A man does not have to commit murder, to steal, lie, or some other outstanding crime to be lost. He can simply neglect his soul and salvation and be lost.

Lions Clubs to Meet At Mineral Wells In District Meeting

MINERAL WELLS.—The sixteenth annual state convention of the five district Lions clubs of Texas will be held here on June 4 and 5, it was decided here at a meeting of the five district governors and the state secretary. More than 800 Lions are expected to attend the two-day session.

Dr. W. J. Danforth of Fort Worth, governor of district 2-E, announced that his district would meet here June 3. He urged all Lions in his district to attend the meeting and to remain here for the state convention.

Local arrangements are in charge of a committee headed by George D. Barber, manager of the Mineral Wells Chamber of Commerce and a member of the Lions club.

Sterling Gets His Third Oil Strike In Past 16 Months

HOUSTON, April 24.—Former Governor Sterling admittedly broke when he left the governor's mansion 16 months ago, announced his third new oil sand discovery within a year here today.

A new deep well in his Hogg Brothers farm No. 2 well gave the old West Columbia field at Brazoria county, hopes for a new boom today. The 700 barrel well was brought in at 5,200 feet, 2,200 feet lower than the old sand which made the field the third largest in the state.

Sterling organized his corporation early last year in an effort to recoup his fortune, allegedly lost while he was governor.

Garden and Yard Hints From Club Women of County

Get Rid of Cut Worms

Mrs. Henry Collins, farm food supply demonstrator of the Olden home demonstration club, gives the following information on garden hints. Mrs. Collins finds these are good to use every season. "Get rid of cut worms by using the following: 2 pounds dry bran, 2 ounces white arsenic or Paris green and 1 pint molasses. Mix thoroughly and add enough water to make the bran particles hold together. Apply in the late evening along the rows, placing a pile about the size of a 25 cent piece. "Using this poison bran has helped make a higher yield in my tomato and cabbage crops. When using this poison be sure the chickens are fastened out of the garden or they may get the worms."

Another remedy I find worth while and is not expensive is to dissolve 1 pound of soap in two or three gallons of water and spray the plants every ten days. This will not kill the bugs, but will keep them off the plants.

Remedy for Tomato Bugs and Lice
Lice have bothered my garden plants for all these years and now I have a remedy for ridding such plants as nasturtians, turnips, cucumbers, cantaloupes and watermelons of them. I spray the plants thoroughly with nicotrol, using one and one-half teaspoonful of this solution to one gallon of water. Spray the plants every five to seven days to insure keeping down these pests. Lice are sucking insects and the poison (as arsenic) will not kill them, because they do not get that when only sucking the juices from the leaves and stems.

You can get rid of the tomato bugs by dusting the plants with one part of lead arsenate to four parts of lime or spray with one and a half teaspoons of lead arsenate to one gallon of water.

Mrs. B. F. Dempsey, farm food supply demonstrator of Bullock home demonstration club, has found these remedies helpful in her garden.

A few cents spent for bug dope may save a hundred dollars worth of vegetables. Don't delay spraying, as insects which work day and night can cause serious damage in a very short time.

Cucumbers
Large cucumbers for sour pickles and small cucumbers for sweet pickles should be grown in all gardens. Mrs. J. W. Parrish, farm food supply cooperater of the Ranger co-workers club finds that the Davis Perfect or the Stay Green cucumbers are good for the large ones. The Chicago Pickling variety for the small ones.

Pickles cured in brine make better pickles and this method will take the bitterness out of the cucumbers if there is any there.

The best cantaloupes for home use, plant Perfect or Hale's Best. These varieties have thick, tender sweet flesh with small seed cavities that make them very desirable.

Adequate Storage Space
Mrs. D. M. Jacobs, clothing demonstrator of the North Star demonstration club says: "All families should have plenty of storage space for the clothing and this is possible with very little cost if one will look around and use the material on hand. I have a closet made of an old wardrobe. This wardrobe was not wide enough and to remedy this the back was taken out, a one by twelve plank put in between the wall and the wardrobe which makes it very satisfactory. The wardrobe is on the floor and with scrap lumber the top is built to the ceiling, making storage space for quilts and boxes or anything of the kind. Shelves are built in the end for the flat garments or hats and a rod across for hanging garments. Shoes are to be taken care of on a shoe rack or nail nailed into the wall and the shoes hung over them. The inside of the closet is to be papered, the paper was donated by Mr. Wilcox, one of the cooperating Rising Star merchants. The cost of the adequate storage space in this case is practically nothing. A complete report will be given at the council meeting as to the cost of the closet."

TO CONSTRUCT FLORAL CLOCK FOR CEMETERY

DOCTOR BRINGS DOG TO LIFE AFTER 11 DAYS

BERKLEY, Calif., April 24.—A small black and white dog, partially revived from apparent death by a young experimenter, today held the key to discoveries which may solve science's ageless search for a means of restoring life.

Success of the experiment by Dr. Robert Cornish, 28-year-old University of California graduate, depended upon the return to full consciousness of Lazarus IV, the fox terrier he restored to partial consciousness after asphyxiation 11 days ago.

Locked in a barn-like laboratory, he watched patiently and hopefully as the dog fought its way back to a normal state. The pale faced young scientist rejoiced as breathing resumed, the heart began beating and vision returned. The dog responded to ordinary reflexes, sought feebly to brush a fly off its body and accepted food.

PERFECT 48 YEAR RECORD

BOSTON.—For 48 consecutive years, Miss Mary E. Elliot, 81, of Somerville, has not missed a day at the Boston headquarters of the Woman's Relief corps, where she is department secretary.

A D. A. R. member from Hartford, Conn., says we should deport aliens, arguing probably that steam shovels can do the ditch digging now.

Many Violating Codes Are Ignorant Of Their Provisions

HOUSTON, April 23.—The National Recovery Administration has established offices in every State, staffed them with specialists in the various phases of codes (as Labor, Trade Practice), so that in addition to the organizations of industry itself, such as Local Code Authorities, there may be available to interested parties a governmental agency to care for the general public's interest in code compliance. In Texas there are two such offices, Houston and Dallas. These offices cannot know of a violation unless a complaint is filed with them. To attain the success which you expect of NRA, it will be necessary for these offices to receive the cooperation of the preponderant majority of persons in Texas. Whether you are an employer, employee or a layman, you should, if you know the facts concerning a violation report those facts or file a complaint with one of these offices. The object in receiving these complaints of violations is that the violator may be acquainted with the provisions of his code and proceed to adjust the violations and comply in the future.

In many cases it is found the violator is ignorant of the fact that he is not complying with the particular code regulating his trade or industry. In most of such cases, a speedy adjustment is had and the objects of the Code are attained at once. Violations which are willful, and therefore impossible to adjust, are forwarded to the enforcement branches of the Federal Government. It is important to bear in mind

that in no cases are the names of the person making the complaint made known except with their express permission. All of the officers and employes handling these complaints have taken the oath of the Federal Government; of the hundreds of complaints handled so far, the name of no complainant has yet been disclosed except in a few isolated cases where permission was given to do so by the person filing the complaint. This fact you should make known as widely and as rapidly as possible.

An increasing number of complaints are being received. This is interpreted as a wholesome indication that the public is decidedly in favor of strict compliance with the codes governing trade and industry. Complete indifference to the functioning of these codes in your area would certainly not indicate strict compliance in your city or community. The filing of a complaint is a reminder that you favor code compliance, and that you favor enforcement if necessary.

Chamber of Commerce officials, Trade Association secretaries and members, Compliance Board officers and newspapers can lend their cooperation and active assistance toward the program of recovery by reporting to us any cases of non-compliance with the provisions of the various codes under which business is conducted. Blank forms to use in filing complaints may be obtained from your local post office.

BORROWED MONEY TO STRETCH HAT

GLOUCESTER, Mass.—A fellow borrowed a hat from Carl Cameron, restaurateur. Later the same chap borrowed 25 cents from Cameron. When the hat came back it was disclosed that the borrower had used the 25 cents to stretch the hat to fit him.

Henry Ford

PIONEERING A SERVICE TO FORD OWNERS

ENGINES AND OTHER UNITS RECONDITIONED AT THE FORD FACTORY

HENRY FORD believes that the engine overhaul should be a factory job. For in the Ford factory are the men and the machines which produced the engine originally. Engine overhaul should have the same advantage of our precision equipment and methods which engine manufacture had. That is our proposal to you.

PRICES FOR EXCHANGE OF FACTORY - RECONDITIONED UNITS	
Engine (V-8)	\$49.50*
Engine (4-cyl. A and B)	46.50*
Distributor	1.90
Carburetor	1.85
Shock Absorber	2.00
Fuel Pump	1.65
Clutch Disc Assembly	2.75
Clutch Pressure Plate	3.80
Brake Shoe (each)	.55

* Includes installation. Slightly higher west of the Rockies.

When the time comes for the engine to be overhauled — that will be normally after 40,000 or 50,000 miles — the Ford owner simply gets from the local Ford dealer an engine that has been completely reconditioned in the Ford Motor Company plant at Dearborn, Michigan. The cost is far below the usual cost of overhauling — and there is a great saving in time, as your car is tied up for only a few hours instead of days. Besides that, the price is not guesswork — it is a fixed, known price.

This reconditioning service is further extended to such units as the distributor, carburetor and brake shoe assembly. Worn or obsolete parts are replaced with new ones. Every reconditioned unit installed by the Authorized Ford Dealer has passed the closest factory inspection. In every detail it is ready for thousands of miles of trouble-free service.

Ask any Ford dealer about this new money-saving service for owners of Models A and B and eight-cylinder Ford cars and trucks. This is an exclusive Ford service. It is one of the important reasons why you should own a Ford V-8 — the only V-8 under \$2500 — the car which hundreds of thousands of owners say is the most economical Ford car ever built.

TUNE IN — FORD DEALERS' RADIO PROGRAM. FRED WARING and HIS PENNSYLVANIANS. Glorious music. Every Sunday night at 8:30, and every Thursday night at 9:30 (E. S. T.). Columbia Broadcasting System. And in the meantime — "Watch The Fords Go By."

Ohio Circus Folk On Annual Exodus

CANTON, O.—Annual migration of Canton's winter circus colony is beginning. For years, Canton has been known as the home of more circus folk than any other town of its size in the United States. For many decades, it has contributed both performers and executives to the outdoor show profession. The Flying Harolds and Flying Concellos, headline acts with

Ringling Bros. and Barnum & Bailey circus, completed three weeks' training here. Others here for training and wintering, now leaving or recently departed include: Sterling Drukenbrod, sideshow executive, of Hagenbeck-Wallace; Charles Seigrist, "daddy" of the Seigrist troupe of aerialists, now in his 70's; Charlotte Shive, ladder performer; S. F. Trudelle, who will be responsible for 30 head of ponies, dogs, monkeys and bears in a new circus; Howard Peters, owner of freak wild animals; and Buck Maughman.

A WORD TO THE WEARY

Are you sick and discouraged and so weary of it all? . . . Would you like to just relax in a place that has a friendly, restful atmosphere coupled with all the conveniences—an ultra-modern hotel? . . . We have reserved a light, airy, comfortable room especially for you at just the place you've been looking for.

CRAZY WATER HOTEL

Just take a few weeks or even a few days off from the old grind, and see what a completely new person you'll feel like when you leave here.

The mineral baths under courteous, efficient masseurs are refreshing, rebuilding. . . . Drinking all the Crazy Mineral Water you can, at the noted Crazy Bar, or served to you in your room, will give you back your old pep and "go" . . . And the meals! If you haven't had much of an appetite for a long time, the food here, planned and prepared especially to whet lazy appetites, will surely tempt you . . . What first attracts the attention of our guests is the comfort of the big, beautiful lobby and the drinking pavilion.

CRAZY WATER HOTEL

located in the heart of a beautiful, scenic country, can be reached from all sides by paved highways and by train. You can get all this luxurious comfort for as low as \$20.00 a week. Write for further details.

AGAIN IN DEMAND... THE WORLD OVER

In the last eight months, more and more requests for BUDWEISER have been received from every civilized country in the world. . . . In the fourteen years that American beers were off the market, these foreign countries still had their own good beer. Yet, after fourteen years, they again single out BUDWEISER among American brews, because it has an unforgettable personality—identified with the fine art of living the world over. . . . The biggest-selling bottled beer in history and the demand for BUDWEISER quality built the world's largest brewery.

League Is Urging More Public Works

GENEVA.—The international labor office has issued an appeal to governments to institute construction of public works in order to alleviate the unemployment crisis. In a resolution recently adopted by its governing body, the text of which has been mailed to all member governments, the labor office stated "The persistence of the unemployment crisis is increasingly affecting the workers throughout the world." The resolution also appeals "to all governments to institute schemes without delay or to continue without interruption the execution on their own territory, national or colonial, of schemes of public works calculated to give a fresh impetus to economic activity and to reduce the number of unemployed." At the same time the governing body expressed the hope that the committee created by the London economic and monetary conference to study the question of public works and other means of alleviating unemployment "may be convened as early as possible." In its communication to the different governments the labor office further stated that it is at the present time preparing for submission to the next session of the international labor conference in June a report on public works which are in progress or are contemplated in the various countries.

The way tobacco is cut has a lot to do with the way Chesterfield burns and tastes. There are many different ways of cutting tobacco. A long time ago, it used to be cut on what was known as a Pease Cutter, but this darkened the tobacco, and it was not uniform. The cutters today are the most improved, modern, up-to-the-minute type. They cut uniformly, and cut in long shreds. The tobacco in Chesterfield is cut right—you can judge for yourself how Chesterfields burn and how they taste. Everything that science knows is used to make Chesterfield the cigarette that's milder . . . the cigarette that tastes better. Chesterfield the cigarette that's MILDER the cigarette that TASTES BETTER

April 28, all day, at Simmons University in Abilene.

Mrs. S. C. Walker brought a fine lesson from Job, a prologue to the Book, and dealing with the Lord's compact made with Satan, who declared there was no such thing as disinterested goodness, that even Job did not serve God for nothing, and if Job were placed in unhappy circumstances he would renounce allegiance to Jehovah. God gave Satan permission, and Job remained loyal to God through all his troubles.

The hostess served refreshments of fruited punch and cake to Mmes. Joe Neal, Ida Harris, F. V. Sterling, J. B. Overton, Hannah Williams, Cecil Hibbert, M. L. Lindsey and Clyde L. Garrett.

Mrs. A. L. Green entertained Circle 4 and presided in the absence of their chairman, Mrs. L. G. Rogers and brought the devotional from Matthew 10, theme, "Sacrifice."

Mrs. E. R. Weatherford taught the lesson from Christ's Ambassador." The members were invited to meet at the church next Monday at the appointed hour with the other circles. Personal service report showing splendid work was submitted by Mrs. L. V. Simmonds.

The hostess served refreshments of starberry shortcake with whipped cream topping, to Mmes. B. D. Cheatham, R. E. Kilborn, W. L. Mead, L. V. Simmonds, B. F. Pryor and E. R. Weatherford.

Bible Class
Church of Christ
The Ladies' Bible class of the Church of Christ studied a fine lesson on "Justification by Faith" taught by Mrs. Loretta Herring, at their Monday afternoon meeting held in the church, and opened with song service led by Mrs. Elmer Hurley, and prayer by Mrs. J. R. Boggus.

Mrs. Boggus was appointed to prepare a talk on Better Homes, to be presented at the meeting next Monday afternoon, to be held in the home of Mrs. Claude Crossley, with Mrs. Gerald Crossley as co-hostess.

Prayer by Mrs. Otho Barton, dismissed meeting. Those present, Mmes. R. B. Reagan, Ellen Hays, P. H. Davis, J. R. Boggus, H. B. Lawrence, Otho Barton, Gerald Crossley, L. R. Ballard, Guy Skidmore, N. Recital Is Presented
At Staff Thursday
The Staff Baptist church was artistically decorated in ferns and spring flowers Thursday evening, April 19, when Miss Oleta Moseley presented her expression class.

The recital opened with a song by Frances Hazard and Jack Crawley. Iris Crawley then read "The Kod." "In Old Nantucket" was sung by Billie Burl Garrett and Iris Crawley. Beulah Fay White gave a reading, followed by a playlet in which Iris Crawley and Frances Hazard took part. Billie Clyde Moseley read a witty piece next.

A musical reading and an encore by Frances Hazard was followed by two clever readings by Jack Crawley. "Pussy-Cat and Bow-Wow" was given by Iris Crawley and Billie Burl Garrett.

Following a delightful reading given by Cora Lou Gregg, Warford and Fred Moseley presented a dialogue which caused many laughs. Clarice and Cora Lou Gregg beautifully sang a song, then Billie Burl Garrett read "A Boy's Mother." A song by the class was followed by "Gimlet and Corkscrew," and an encore read by Miss Moseley, which ended the delightful program.

S. W. BOBO OF RANGER DIES AT AGE OF 73

S. W. Bobo, pioneer citizen of Eastland county, died at his home in Ranger Friday afternoon at 2 o'clock after a long illness. Funeral services were conducted at his home Sunday afternoon at 2:30 with interment in Evergreen cemetery following the services.

The decedent was born in Pasadena county, Mississippi, Feb. 26, 1862, and came to Texas in 1873. He settled first in Wise county, later moving to Stephens county in 1891. He moved to Ranger in 1901 and had been a resident of the city since that date.

He was first associated with the Walker Bros. Hardware company, later buying the store, which was run under the name of Bobo Hardware company. He retired in 1925, though the business was continued by Charles Bobo.

He became associated with the Baptist church in early manhood and was married to Miss Zelton Watson. They celebrated their fifty-first wedding anniversary last December.

He is survived by his widow and six children, Charles A. Bobo of Ranger, E. H. Bobo of Ranger, M. H. Bobo of Lacasa, Mrs. Susan Hunt of Ranger, Mrs. Park Weaver of Fort Worth, and Mrs. Howard Cole of Pasadena, Calif.; two brothers, Zack Bobo of Rhode, Texas, and Dr. Charles Bobo of Norman, Okla., and one sister, Mrs. Charles Poe of Fort Worth. All will likely be present at the funeral except Dr. Charles Bobo, who is past 82 years of age. He is survived by four grandchildren.

During his more than 30 years as a resident and merchant of Ranger he had become one of the best known and most beloved of the pioneer citizens of this section of the country and leaves a host of friends to mourn his passing.
