Bids Are Taken On Widening Highway Romney to Cisco

AUSTIN, May 28.—Bids were taken by the state highway commission today on the Fort Worth "Stockyards viaduct," at 28th street, North Fort Worth. A 40foot roadway with an additional sidewalk is to be provided. The viaduct will consist of a series of girder spans and beam spans on a concrete abultment and piers. Two hundred days will be allowed

Bids also were received today for a Southern Pacific railway underpass for highway 72 at Schu-

CHEVROLET

A group of additional new models for the 1934 Chevrolet line -four full-size cars -100% Chevrolet in quality and reliability

Right at the peak of Chevrolet popularity-with nationwide demand sending production to new all-time "highs"-Chevrolet dealers are displaying an additional group of four new models. These cars are identical in quality with all 1934 Chevrolets. And the prices have been set at such incredibly low figures that you can now buy a Chevrolet for \$490! "A Chevrolet for \$490!" That's the world's lowest price for a six-cylinder car. The lowest price, also, for a car of this size, wheelbase and power! And a figure that sounds even more impressive after you find out what it buys: A great big, full-size, long-wheelbase car, 169 inches from bumper to bumper. A cushion-balanced SIX of surprising smoothness, power, snap and dash. The most economical full-size car that money can buy-a record-breaker for gas and oil mileage, as well as long, dependable service. And every closed model has a Body by Fisher. Nobody interested in motor cars can afford to let another day slip by, without seeing this "Chevrolet for \$490." CHEVROLET MOTOR COMPANY, DETROIT, MICH.

AND UP ND UP List price of Standard Six Sport Roadster at lint, Mich., \$490.00. With bumpers, spare tire and tire ock, the list price is \$18.00 additional. Prices subject to thange without notice. Compare Chevrolet's low delivered prices and easy G. M. A. C. terms. A General Motors Value.

Acturers of the appliances.

The contest opens June 1 and Blackburn et al. vs. The State of Preparing to abandon their Leading the list is the grand closes June 30 and is open to all Texas ex rel., Pate Echols et al., drouth ridden wheat fields and plant them in corn, producers found themselves bound by the federal plans whose bounties they fields in cereal grains. This application of the federal

rule has placed many of the pro ducers in a precarious predica-ment. Unable to produce a wheat of any proportions, they can plant their abandoned fields only in forage and sorghum crops for feeding cattle.

While making the farm situa-tion more difficult in this light, severe spring drouth appeare likely to bring a solution to the problem of disposition of the milns of bushels of corn upon which federal loans have been negotiated. In Nebraska alone, more than

50,000.000 bushels of corn until w weeks ago appeared likely t become the property of the gov piration of the loan limit. With routh conditions making corr lanting difficult and preventing ermination of the seed in the ground, prospects appeared good for booming prices for the cereal late summer. Such a situation would send the quotations for the the 45-cent price upon which the loans were made and enable bor rowing producers to take the

CHOOSE THE TIRE CHAMPIONS BUY

Firestone

Tires have been on the winning cars in the gruelling Indianapolis 500-Mile Race FOR 15 CONSECUTIVE YEARS

VERY winner in the 500-Mile Indianapolis Race - the most gruelling tire test in the world - drove to victory on Firestone High Speed Tires. What a tribute to the Extra Strength, Extra Safety, and Blowout Protection of Firestone Tires!

Race drivers know tire construction. They know that heat generated by friction inside the cotton cords that make up the body of the tire, is the greatest enemy of tire life. These men will not risk their lives and chance of victory on any but Firestone Tires, because they know the high stretch cords in every Firestone Tire are protected from friction and heat by the Firestone patented process of Gum-Dipping.

Gum-Dipping is the exclusive Firestone Process which soaks the high stretch cords in liquid rubber and saturates and coats the millions of fibers inside the cords, counteracting destructive friction and heat. Gum-Dipping provides greater adhesion not only between the plies that compose the body of the tire, but between the Gum-Dipped cord body and the tread.

Just as automobile manufacturers have used the Indianapolis Speedway - the greatest testing laboratory in the world - for the development of greater power and speed in automobiles, so have Firestone chemists and engineers kept pace with these improvements by building stronger, safer tires to meet these exacting demands. If your tires are thin and smooth - drive in today and equip your car with new Firestone High Speed Tires for 1934, with deeper, thicker, flatter, and wider non-skid tread, mere and tougher rubber, more traction, giving you more than 50% longer non-skid mileage.

Remember, the racing speeds of yesterday are becoming the road speeds of today, and in Firestone High Speed Tires there is Greater Strength — Greater Safety — and Greater Blowout Protection than in any tire made.

THE ADHESION TEST

Tire clings to the high stretch Gum-Dipped cords. This greater adhesion and strength is made possible by the Firestone patented process of Gum-Dipping.

Note how the rubber in an ordinary tire pulls away from the cords that have not been soaked and insulated with rubber. This causes friction and heat within the cords, resulting in

COME IN AND MAKE THIS TEST FOR YOURSELF

THE NEW Firestone AIR BALLOON FOR 1934

The new Firestone Air Balloon for 1934 embodies all the improvements in the new Firestone High Speed Tire. The lower air pressure provides maximum traction and riding comfort. Gum-Dipping safety-locks the cords, providing 30 to 40% greater deflection and blowout protection.

Get 1935 low-swung style by equipping your car today with these new tires and wheels in colors to match your

New Discovery Is Featured By Camels In New Campaign

The R. J. Reynolds Tobacco ompany has just released an intensive new nation-wide campaign newspaper advertising Camel cigarettes. As revealed in the first advertisement appearing in this newspaper this week, the ew campaign embodies important facts for smokers which throw a new light upon our past knowledge of cigarettes.

A basic scientific discovery has been made in a famous New York research laboratory concerning Camel cigarettes and their "enerizing effect"-which means that he flow of normal, natural energy restored. Thus, an almost imediate relief from fatigue is acmplished by smoking a Camel.

During the day one's "energy curve" varies a great deal—fre-quently drops below normal. That's when fatigue and irritability put in their appearance. The "ener-gizing" effect of Camels has long been recognized by Camel smokers, but even science hasn't been able to explain it until now.

Summing up with a popular slogan, each advertisement carries the reminder that you can "Get a Life With a Camel"—at any time, as often as you like—because the finer 'more expensive tobaccos' used in the manufacture of Camel cigarettes never interfere with healthy nerves.

The first advertisement in this new and impressive series pro-claims in large size display type, "NEWS! Science Reveals Important New Facts for Smokers!" accompanied by a chart showing the variable energy curve which people experience during the day. The illustration depicts an attractively gowned girl. all ready for a party but "Too Tired for Fun," followed by the caption "And Then She Smoked a Camel," and a picture showing her refreshed and ready for the gaiety and fun of a social evening.

Present plans call for frequent licast Agent for Reservations appearance of this striking new campaign, which embodies interesting and informative news from the field of science.

John Hunter Yates returned home to his wife. Mrs. Yates rated high in social circles. There was to be a huge dinner that night for—ohperhaps, seventy-five peeple. Mrs. Yates explained this to her husband. She told him of this when the youth of John Yates became a light. Pful! How about that coffee—or do I need a requisition?" "Pardon me." Yates set the tray on the bench and started to pour the coffee.

As he poured, the girl began to read through a sheaf of papers—the role for the evening's play. Her lips moved, intoning the lips moved, intoning the lips when the sum of the same and the matter and the seventh and the matter and the coffee. John Hunter Yates returned home to his wife. Mrs. Yates rated high in social circles. There was to be a huge dinner that night for—ohperhaps, seventy-five pecple. Mrs. Yates explained this to her husband. She told him of this when the youth of John Yates became apparent, when the suppressed enthusiasm for life boiled over in one gushing torrent of words, when John Hunter Yates wanted to live in a tourist camp—and travel that way!

John Yates' varied-hued bubble burst when Elinor Yates turned to bim and said, "John Yates turned to bubble burst when Elinor Yates turned to bubble surst when Elinor Yates turned to your said through a sheaf of papers—her role for the evening's play. Her lips moved, intoning the times "Say, look—are you busy?" "Busy? No—no—in fact, I've practically decided to retire." "Well," said Miss Blossom Bailey. of the Players' Guild, "stay up a while and give me a hand with this script." "Cue me. You read the lines marked "Walter.' Begin with the rap on the door."

There was a knock on the door."

There was a knock on the door."

There was a knock on the door."

simply can't do things like that."

"No," he answered heavily, "I—I guess not—"

There was a knock on the door,"
There was a knock on the door,"
The butler entered at Mrs. Yates' command.

"The stage people are here. Madame."

"I'll see them right away," said Mrs. Yates.

"Stage people?" queried Yates.

"Stage people?" queried Yates.

"What's that—something new?"
Mrs. Yates became midlidy excited.

"We're having a real play tonight—at midnight. I got the whole company from the Players' Guild to come over." She walked to the door. "Tve got to take care of them."

Some time later the many guests were seated around the Yates table—one seat was empty—that of John Hunter Yates.

Mrs. Yates turned to the butler.

Mrs. Yates turned to the butler.

Hunter Yates.
Mrs. Yates turned to the butler. Her voice was low.

"He excused himself half an hour ago. Madame. He said he had a headache."
"Please find Mr. Yates and tell him I want him."
"Yes, Madame."

After a hurried search, the butler found Yates stretched out on a stone bench in the garden. Yates was staring up into the moonstruck sky, his eyes dreamily tracing the

POPULAR MECHANICS

720 od in PRIZES for the best letter on

"Why I like a Modern Gas Kitchen"

Your gas company and a number of leading appliance manufacturers offer 50 handsome prizes for the best letter on "Why I Like a Modern Gas Kitchen." You don't have to buy a thing to win one of these prizes, which have been donated for the purpose by manufacturers. All you need to do is to consider the advantages of the modern gas range, gas refrigerator and water heater, then write down in your own words the reasons why you like a modern gas kitchen. Possibly the convenience of gas appliances, or their efficiency, or economy, or all three of these qualities appeal to you.

You do not need actual experience with all the equipment of an upto-date gas kitchen to enter this contest. What counts most are your own ideas of the chief advantages of modern gas appliances and what they can do for a home. There are fifty prizes! You can win one! Try it! Begin your letter today.

NOTICE

TO ALL DEPOSITORS AND CREDITORS OF THE TEXAS STATE BANK

Temporary headquarters have been opened in the building on southwest corner of the square formerly occupied by the Beatty Drug Store for information regarding dividends and organization of a new bank for Eastland.

All depositors and creditors, as well as others who would be interested in the organization of a new bank are urged to come at their earliest convenience for full details and explanation of the plan.

J. A. BEARD. P. L. PARKER, JESS WILLIAMS,

Depositors' Committee

GRAND PRIZE: The three absolutely essential appliances of the modern kitchen -an automatic gas range, an Electrolux gas refrigerator and an automatic gas

SECOND PRIZE: An Electrolux Gas Refrigerator.

THIRD PRIZE: A modern gas range.

FOURTH PRIZE: A modern gas range. FIFTH PRIZE: A modern gas range.

SIXTH PRIZE: A modern automatic gas

water beater. SEVENTH PRIZE: A modern automatic gas water beater.

EIGHTH PRIZE: A modern automatic

NINTH PRIZE: A modern automatic gas TENTH PRIZE: A 10-radiant room

ALSO 40 small room beaters as additional prizes for letters that receive bonorable mention.

The Rules

(Contest Opens June 1, 1934. Closes June 30, 1934)

- All gas customers, and Stargas customers, and members of their families served by any company in the Lone Star Gas System in Texas are eligible to compete for these valuable prizes, except employes and members of their families
- Write legibly on one side of the paper only.
- 3 Write your name and address plainly at the bottom of your letter.
- 4 Mail your letter to Gas Contest Judges, 301 South Harwood, Dallas, Texas, or bring it to the office of your gas company.
- 5 All entries received become the property of the Lone Star Gas System for their use and will not be

The home economics representatives of three leading Texas colleges will act as judges.
