EASTLAND GAS RATE IS GREATLY REDUCED

CISCO'S GAS RATE NOT CUT BY COMMISSION

AUSTIN, June 27 .- Cisco residents will continue to pay a gas rate of 75 cents a thousand cubic feet with 10 per cent discount for payment of bills in 10 days, under an order issued today by the state ilroad commission.

The rate has been in dispute oce Oct. 26, 1931. At that time to 50 cents. Community

settled and distressed condition of our country and of this particular municipality, the commission finds no reason why a rate which prior to and since acquisition of the property by the Community Natural Gas company has

Gasoline Tax May Cause Diverting of Highway Funds ly \$12,000 per year.

AUSTIN, Tex.-Highway ficials are wondering what in federal road appropriations. Federal requirements prohibit diversion of any state road tax to other purposes. The gasoline tax is levied as an occupation tax, and as such part of it goes to support of schools. The constitution gives schools a share in all occupation taxes. By changing the gasoline tax to an excise tax, the constitutional provision can be dodged.

NEW RATES TO BE EFFECTIVE

Annual Saving To Citizens Put At Approximately \$12.000.

The Community Natural Gas company, a subsidary of the Lone Star Gas company, which serves Eastland with natural gas, has granted the city a greatly reduced rate for domestic gas. The new rate is to become effective at the next reading, which will be the

July bill.

Mayor Donald L. Kinnaird feels,
he states, that the citizens of Eastland should be satisfied with the new rate, which is the same as that at Cisco but higher than the rate enjoyed at Ranger. The Ranger rate is 60 cents. The Community Natural Gas company, however, does not serve Ranger.

This new rate must be approved by the Railroad Commission before going into effect.

In 1931 the Eastland city com mission passed an ordinance reducing the domestic rate for gas in the city from 75 cents to 50 cents. The gas company opposed this rate as confiscatory and by a federal injunction prevented city from enforcing the ordinance.

The gas company then applied after a hearing before the commission that body granted the in crease and since that time Eastland gas users have paid for their gas on this price basis.

Any rate charged by the gas

The new rate schedule nounced is as follows: 75c per 1000 for the first 30,-000 cubic feet.

50c per 1000 for nay amount in excess of 30,000 feet. The minimum charge under the

new rate is \$1 as compared with discount where the bill is paid on or before the 15th of the current

This reduction in gas rates, a cording to Mayor Kinnaird, will result in an annual saving to Eastland citizens of approximate-

Five-Acre Gardens May Be Available For City Dwellers

By United Press FORT WORTH .- A tidy threeroom house, a five-acre garden plot with a cow and chickens—all these are moving closer for desti-tute families of Dallas and Tar-

rant counties. Sponsors of Dalworthington Gardens, Inc., have announced they will look over revised plans for the subsistence homestead project, which the federal government plans to locate on a 1,500acre tract three miles southeast of Arlington

The colony experiment was de-layed early in the year when directors found plans for the 500 homes too elaborate. Architects were called upon to revise them within the limit of funds.

The federal government has alloted \$500,000 for the project. The cost of a five-acre plot equipped with a cow and 100 chickens will be \$2,000. Each family will repay the government at a rate of

about \$12 a month. More than 2,200 applications have been received from prospec-tive colonists. If the experiment is successful other colonies will be established elsewhere in the state.

\$83,000,000.00 working for a Greater Texas

I IFE INSURANCE FUNDS are reservoirs of thrift which feed the streams of progress. The funds of Texas legal reserve life insurance companies play an important part in the progress of Texas, through financing community development projects and home ownership.

At the close of 1933 these companies had \$83,000,000.00 working for a greater Texas . . . invested in loans on farms and city property, in state, county and municipal bonds, in home office buildings and real estate.

This \$83,000,000.00 is money in motion, constantly increasing, and parts of it constantly being paid back and reinvested. Every Texan shares the benefits of these investments. Not only are needed improvements made possible, but the money is put into circulation . . . spent for raw materials and labor.

In 1933 these companies put into circulation an additional \$30,000,000.00 . . . in payrolls, taxes, purchases and payments to policyholders and beneficiaries.

When you show a preference for insurance in a Texas legal reserve life company you join hands with these companies and their 1,200,000 other policyholders in making Texas a better state in which to live and make a living.

Firestone

HIGH SPEED TIRE

Every Conceivable Force **WORKED TO TEAR THESE TIRES TO PIECES**

NOT ONE CORD LOOSENED! NOT ONE TREAD SEPARATED! Not one Blowout!

As thirty-three speed demons careened and slid around the steep banked curves of the hot brick track, tires shrieked and smoked ... break-neck speeds, 150 miles and more down the straightaway -tremendous centrifugal force tugging to rip the tread from the body of the tire. In fact, every conceivable force worked to tear the tire to pieces, but not one cord loosened - not one tread separated—and not a single blowout. What amazing proof of Tire Strength—Safety—Quality and Dependability!

Every one of the thirty-three drivers at the Indianapolis 500-mile sweepstakes chose and bought Firestone High Speed Tires. The fact that not one of the 132 tires failed is your greatest guarantee of the Extra Safety-Strength—and Dependability built into Firestone Tires.

The New Firestone High Speed Tire for 1934 is Safety-Protected on the outside by a wider tread of for Life Against All Defects flatter contour, deeper non-skid, for 12 Months Against All giving you more than 50% longer non-skid mileage *Guaranteed for 6 months when used in commercial service.

GUARANTEE for Unequaled Performance

Records Road Hazards

eight additional pounds of pure rubber absorbed by every 100 pounds of cords. This additional rubber surrounds every cotton fiber inside every cord in every ply. This is accomplished by the Firestone patented process of Gum-Dipping, which soaks the cords in liquid rubber, counteracting damaging frictional heat, the greatest enemy of tire life.

Greatest Guarantee of All

Get the protection of the Firestone Triple Guarantee—for unequaled performance records—for life against all defects—for twelve months against all road hazards.

Call on the nearest Firestone Service Dealer or Service Store today and ip your car with the new Firestone High Speed Tires for 1934 REMEMBER, you will save money at present prices, because crude rubber has advanced 442% and cotton 190%—and tire prices cannot remain at present low levels.

NEED ENERGY?

Here's the latest word from Science on increasing Vim and Energy ... quickly!

Today we call attention again to important facts which were presented to smokers in a recent item in this paper.

Perhaps you overlooked it. We repeat: You can release new vigor, when tired, by

This comes from the "energizing effect" in

Camels as recently confirmed and described by a famous New York scientific laboratory. Everyone gets fatigued...cross...down in the dumps...when his energy is used up. But the way to turn on more energy has now been pointed out, by actual Camel smokers who tell of their own experiences. And by up-to-date research made in the laboratories of science. And so -"get a lift with a Camel!" Any time you want to enjoy yourself or restore yourself. Steady smoking need not concern Camel smokers, since the finer, MORE EX-PENSIVE TOBACCOS in Camels never get on

CAMELS **Costlier Tobaccos** never get on your Nerves

Camels are made from finer, MORE EXPENSIVE TOBACCOS -Turkish and Domestic - than any other popular brand.

Get a LIFT with a Camel!"

THE END

HAD "RAT" TROUBLE

VANCOUVER, Wash .- County Clerk Oral Cain had "rat trouble" in her automobile motor. Her car they changed color can change goldfish at way, maybe the half-starved rat imprisoned under the hood.

In ner automobile motor, the case of the period octors and after a second visit to a garage mechanic discovered a list what congress did during its recent session, and then blame it all on the president.

The senate has appropriated \$10,000 for a committee to study wild life. From Broadway to Holly

Moves to Stop Juggling of Bonds

Board of Education has moved to stop Texas school districts from Man's Shoulders juggling" their bonded debts.

Atterney General James V. Allred was asked to prepare blank forms on which the true status of interest, sinking fund accounts, tax income and levy, and a record Manuel Quintana. of taxable values, may be recorded for each school district.

The data, sworn to by district tana's shoulders. officials, will be required of every school district asking the state board to buy its bonds.

It has been reported that many school districts have levied neces-

nent, the State Board of Educa- tles of "home-brew." tion has required a strict accounting of interest and sinking fund on only that part of bond issues held by the state school fund. Many districts have defaulted on the portions of bond issues held

One Dallas securities company, which has distributed over \$100 .-000,000 in Texas municipal obligations during the past 20 years, observed that "a number of communities are now seeking to wilfully repudiate their obligations, demanding without justification that principal, as well as interest, should be reduced."

"They have purposely with-held payment of interest coupons and maturing principal where funds were available for payment, in an effort to drive the market for their obligations down.

"A number of comfunities have purposely increased their general operating expenses to a point where the full available taxing power is used for this purpose, leaving nothing for debt service.

"The property owners located in the repudiating districts are, therefore, being subjected to the maximum legal tax levies and the public officials are lavishly spending the full proceeds of collections without making any payments to its creditors," the manager of the securities company said.

The Board of Education is making an effort to preserve the credit of Texas securities on the bond market.

It now has a cash balance of \$1,476,000 to invest in short term

U. S. Treasury certificates because refund bond offerings of Consumption of \$941,000 have failed. Treasury certificates will be preferred unless more desirable Texas securities can be found.

"Too much moratorium legisla-AUSTIN, Tex. — The State tion," has been blamed for the alleged efforts of many school districts to avoid nonest debts.
