The number two cans of meat should all be processed seventypounds five minutes at fifteen pressure unless the altitude is above 2,000 feet. If it is, correct for altitude by adding one pound pressure for each two thousand feet above sea level. Process the hot cans immediately after sealing. If they must stand a short time, put them where they will remain as hot as in an open retort or steamer. Soup stock processed at fifty minutes with any adjustments necessary for altitude

Recipes

Hamburger is made from the ortions which are not desirable or stew or roast. Grind with 5-8 inch plate, which will give pieces about the size of pinto or navy beans. Meat ground in this manner may be used later for making chili or meat loaf. To precook add the ground meat slowly to boiling broth and let simmer slowly until color changes from blood red to the cooked stage. This sears the product and prevents excessive shrinkage. Fill cans with drained meat (using wooden mallet or potato masher to pack) and add enough broth to cover. Add one and one half teaspoons salt and pepper mixture (4 parts salt and 1 part pepper) pr into the broth, exhaust and seal. Net. weight is twenty ounces or more, gross weight twenty four ounces including label. See "Processing" for time. Cool immediately in cold water.

Stew comes from portions not large enough for roasts and from trimmings from roast and cuts. Cut meat in cubes about one inch in diameter. Heat thoroughly in soup broth, fill cans with drained meat, add broth to cover, and one teaspoon salt and pepper mixture (4 parts salt 1 part peper). Process as above and cool immediate-

Roasts, put one or more pieces of raw meat in each can. Stack without sealing in retort basket so that no can is directly on top of

IT WILL PAY

The Texas Centennial Commission

has said that it contemplates a self-liquidating celebration. It has given positive assurance to the people of Texas that it will not involve any increased taxation. The Centennial is the biggest job proposed for Texans since wresting its liberty from foreign despotism. Texans in all the past have liked big jobs. The Commission is relying upon that old Texas spirit as enunciated by Col. Travis, "Victory or Death," to make sentiment unanimous for celebration of its historic birthday in 1936. Every Texan now is challenged. For a century of trial and triumph every Texan has stood in solid phalanx. Every challenge has been accepted. No greater work was ever presented a Texan, native-born or adopted, than that presented by the plan for the Texas Centennial.

Motor Boating Warning Issued

WASHINGTON.—Motor boats cruising in bathing areas are as dangerous as automobiles driven in parks and playgrounds, H. F. En-lows, director of First Aid and Life Saving Service, American Red

Cross, believes. High speed of small motor boats and the difficulty swimmers and bathers experience in getting out of their way combine to make motor boating in congested bathing

areas extremely hazardous, the Red Cross official said, Enlows pointed out an increase in the number of accidents this season directly traceable to motor boats. Twice, he said, accidents resulted in death. He blamed the boat's propeller for most of the
