

MOTORCADE TO BRECKENRIDGE ON FRIDAY

All County Work Projects Start Friday

ANNOUNCEMENT IS MADE FROM RELIEF OFFICE

Projects In Several Towns In County To Be Resumed This Week.

All work projects in the county were scheduled to begin Friday morning, H. E. Driscoll, county administrator, announced Thursday.

The county administrator went to Austin Tuesday. He has received information that the funds will arrive in the county by the 15th. With what funds on hand and the information of the coming money work can be started satisfactorily on the date mentioned, Driscoll stated.

Though the force which will begin work Friday is not the same as it was when the program was in full swing, it will be near 25 percent of the regular number.

Projects which will start: Mattress factory at Eastland; sewing rooms over the county; improvement of Welch field at Eastland; Gorman street improvement; sanitation program; improvement of the zoo and park at Cisco; cattle project; repairing of high school and grade schools at Gorman; the Cisco road project; Desdemona water tower project.

Importance of furnishing applications to the county relief board as stated by the county administrator was as follows: "We wish to stress the importance of the Eastland county relief board being furnished with application for new work projects throughout the county as it is vitally necessary to the welfare of the entire county."

The formation was scheduled to be shot between 2,585-2,597 feet. The inner casing was set at 2,561 feet.

Production of the well before the shot was planned was one and one-half barrels.

Her remains were laid to rest in the Evergreen cemetery between her two former husbands, Dr. J. M. Nick and Branch Isbell, both of whom preceded her in death.

Campaign Started To Replace Fatal Rain Making Plane

WAXAHACHIE, Tex.—Though contributions have been coming in rather slowly thus far, effort is still being put forth in behalf of a voluntary fund for the replacement of the large Stinson cabin type airplane which crashed and burned here August 31, claiming the life of James A. Boze, who conceived the idea of making rain by the use of aerial explosives.

The state of California this far leads the states in contributions and letters of commendation of the movement to raise funds to replace the ship.

Pilot Lou Foote, who saved the lives of all in the ship—four in number—from sudden death by skillfully landing the burning plane after one of Boze's rain-making bombs exploded prematurely and fired the ship, has become somewhat of a local hero here and this section hopes that he will not have to stand the entire loss of the plane.

The Citizens National Bank of Waxahachie has agreed to receive and hold all funds, toward the \$5,000 needed to replace the ship.

The City of Dallas, the pilot's home town, has made several small contributions to the fund thus far.

Boze died of burns 48 hours after the accident.

T. P. Cuts Rates To Dallas Fair

The Texas & Pacific Railway is offering a special week-end fare of one-cent a mile each way for the State Fair at Dallas, which, according to Frank Jensen, general passenger agent, "is one of the lowest State Fair rates we have ever put on."

"This very low rate," Mr. Jensen said, "should be particularly attractive this year because of the race meet being held along with the fair. This is the first time race have been held at the State Fair in more than 20 years."

Such a low fare should also appeal to people who can attend the fair only on the week-end or who can spare only a day or so at the fair. Week-end fair tickets are good in chair cars and coaches on all trains arriving in Dallas Saturdays or up to 3:30 p. m. Sundays during the fair. Return limit to leave Dallas before midnight Sunday. Tickets are on sale at all Texas & Pacific stations in Texas.

The Texas & Pacific is also offering extremely low rates to the State Fair every day.

NOTICE OF BANKRUPT'S PETITION FOR DISCHARGE

In the District Court of the United States for the Northern District of Texas. In the matter of Neil Martin Day, Bankrupt. No. 1680 In Bankruptcy Office of Referee

Ablene, Texas, Oct. 8, 1934 Notice is hereby given that Neil Martin Day of the County of Eastland, and district aforesaid, did, on the 15th day of September 1934, file in the Clerk's office of said Court, at Abilene, a petition setting up that he has been heretofore duly adjudged a bankrupt under the act of Congress approved July 1, 1898; that he has duly surrendered all his property and rights of property, and has fully complied with all the requirements of said acts and of the orders of the Court touching his bankruptcy, and praying for a full discharge from all debts provable against his estate in bankruptcy, save such debts as are excepted by law from such discharge.

On considering the above mentioned petition, it is ordered that any creditor who has proved his claim, and other parties in interest, if they desire to oppose the discharge prayed for in said petition, shall, on or before the 10th day of November 1934, file with the Referee or the Ablene Division of said district, a notice in writing of such opposition to a discharge in the above entitled cause.

D. M. OLDHAM, Jr., Referee in Bankruptcy.

Nerviest Thief Is Found In Texas

EDINBURG, Tex. — Found: South Texas' nerviest thief. An automobile thief, either very very, nerry or very, very dumb, stole a 1934 model sedan of popular make from the streets of Edinburg. This thief would not have received nearly as much attention except for the fact that the sedan, newly new, was the property of Sheriff Tom Gill of Hidalgo county.

County, state and federal officers, to say nothing of dozens of precinct and city officers in half a dozen South Texas counties, are on the lookout for the car. It carried a trunk on the rear and its number was 567-444.

JOAN BLONDELL AND GLENDA FARRELL IN FUNNIEST FILM HIT Joan Blondell and Glenda Farrell, the pair of charming bombshells who caused explosions of laughter in "Havana Widows," and other pictures, again are teamed as a couple of chiseling, gold digging manicurists in the Warner Bros. picture, "The Kansas City Princess, which comes to the Lyric theatre on Sunday.

Supporting this comedy pair are such famous comedians as Hugh Herbert, Robert Armstrong, Os-good Perkins, Hobart Cavanaugh and Gordon Westcott, which places "The Kansas City Princess" high in the ranks of riotous fun makers.

The story is by Sy Bartlett and Manuel Seff, and has more mad mixups and merry love triangles crowded into the plot than are found in half a dozen books.

The fun starts when Miss Blondell flirts with the wrong baby while her own sweetheart is out of the city, the man proving the smarter of the two and getting away with the girl's flashy engagement ring as well as a little loving.

Knowing her gangster lover, Dynamite, and realizing her inability to explain the loss of her ring, she and her pal, Miss Farrell, beat it for New York on a convention train as two "out-door scout girls." They fall in with two small town aldermen, somewhat worse, or better, for drink, and are persuaded to join them in a trip to gay Paree. But Dynamite is wise and has followed, bent on getting revenge and his big sparkler.

On the boat the girls meet a millionaire playboy and in Paris they bust right into the aldermen's wives and the philanthropist wife of the millionaire and her lover, and the fur flies in a regular storm of laughter.

Robert Armstrong has the role of Dynamite, Hugh Herbert is the dumb, but droll millionaire, with Hobart Cavanaugh and T. Roy Barnes as the two small town aldermen. Gordon Westcott is the love thief who steals not only the hearts of the ladies but their jewels as well, while Osgood Perkins plays the role of a double-crossing French detective.

BOWL HAD WOUND STRIPES NEW ORLEANS.—A punch bowl which bore its own "wound stripes" was exhibited by officers of the U.S.S. Indianapolis during the war vessel's recent visit to New Orleans. A Spanish shell which tore through the wardrobe of the old U.S.S. Indiana in the war of 1898, struck the punch bowl. Fragments of the shell were welded onto the bowl in the form of handles, in memory of the incident.

And that's What YOU would Say, After Making the "Liquid Test" Described Here

If, by making one little change, you could relieve a condition of sluggishness within 24 hours, and feel about 100% better—would you do it?

David Wadsworth did. You can do the same. All that is necessary is to get your bowels in the right condition. But you can't do that by doing them violence.

Doctors and hospitals use liquid laxatives. They've seen the damage sometimes done by highly concentrated drugs in the form of pills or tablets! They know that a properly made liquid laxative containing senna (a natural laxative) does not do this harm. And they use a liquid laxative to relieve the bowels, because the dose can be easily regulated.

To Relieve Bowels Constipated or sluggish bowels can never be corrected with violent purges. They can be safely relieved with Dr. Caldwell's Syrup Pepsin without forming the laxative habit.

Dr. Caldwell's Syrup Pepsin is an approved liquid laxative made from fine herbs, pure pepsin, senna and cascara. It is most agreeable to take. The comfortable bowel movement from Syrup Pepsin is a joyful relief

from the violent action of mineral drugs! If you are a victim of "sluggish bowels"; an occasional sufferer from constipation, here's the safe, prompt and safe relief until restores your regularity. Liquid laxative.

Start tonight with Syrup Pepsin. If necessary to repeat the dose, less each day, until the bowels move regularly and then without any help at all. If there is an occasional relapse, Syrup Pepsin will restore your regularity, as it did the first time you took it. Ask any druggist for a bottle. Dr. Caldwell's Syrup Pepsin makes the "liquid test."

BEHIND THE SCENES IN WASHINGTON WITH RODNEY DUTCHER

During the absence on vacation of Rodney Dutcher, the daily Washington column will be written by Willis Thornton.

WASHINGTON — The Home Owners' Loan Corporation has run into that "dead center" position which is the fate of government agencies that move into fields hitherto sacred to private business.

On one hand there is always one crowd of people demanding government efficiency and economy—"businesslike management" of the government undertaking.

On the other are the people who want government leniency, concessions, and who say "if the government acts just like a private business man, why should it function in the field at all?"

HOLC charges for investigating mortgage applications are causing the friction today. Disappointed applicants say they are being charged up to \$30 to find out they can't get loans.

That is, they applied. An examination of their credits was made. Title to the property was examined. There was a formal appraisal. Then the loan was refused.

Now the HOLC is asking for the cost of those services, even though the applicant got no loan.

Morton Valley PTA Met October 5th

STAFF

We are having some fine weather now. A cool breeze is blowing from the north today and we are enjoying this pleasant weather after having such a hot summer.

Mr. and Mrs. Spencer Hazard were business visitors in Eastland last Monday.

Rev. Ephraim Conway of Ranger, pastor of the Staff Methodist church, filled his regular appointment last Sunday morning. Rev. Conway delivered a fine sermon to a large congregation.

Frank Williamson was a business visitor in Eastland last Saturday afternoon.

Mrs. Spence Hazard motored to Ranger last Saturday afternoon.

Mr. and Mrs. Frank Williamson entertained the Staff Sunday school in their beautiful home on last Saturday evening. A large crowd was present. The little tots present were furnished with fishing poles, lines and hooks, to fish from a tent made in wigwam style, where someone placed on each fishing hook a small sack of popcorn or home-made candy. The children were very much delighted in this. They also played many games. Mrs. Williamson made a fine Sunday school talk and Rev. Ephraim Conway led in prayer. Refreshments consisting of delicious pies and hot chocolate and home-made candies were served to all present. Everyone present had an enjoyable time.

Rev. H. D. Blair will conduct a revival at the Staff Baptist church beginning on next Sunday morning and continue through the following week. There will only be services at night. The public is invited to attend these services.

THE CHRISTIAN AND HIS BIBLE

Acts 8:26-39

Philip was a Christian Jew who had been exiled by persecution and traveled afoot over the country preaching Jesus.

Philip, a spirit filled man, obeyed at once, when the angel told him to follow the road through this desert.

As Philip traveled along no doubt with his eyes alert for any chance discovery, he perceived a man of great authority under Candace, queen of the Ethiopians, who was over all her treasure, who had come to Jerusalem to worship.

This great man was returning home in his chariot, no doubt accompanied by his driver. This chariot was a crude affair with the body open at the back and resting on the axle without springs.

And the Spirit said unto Philip, Go near and join thyself to this chariot. What a wonderful light broke into the mind and heart of Philip.

Philip was very happy when he baptized this man, who went on his way rejoicing. Philip continued his labors through the cities of the coastal plains to Palestine, winning many converts.

Christians are seeking the full and perfect left of freedom in Christ Jesus. Philip can be taken as a worthy example. He had studied the Word until it was real unto him and a joy to be fact-led.

Is reading the Bible a necessity in your life or is it a dutiful event? If we would live in fellowship with Christ we must know him in his holiness, follow him in his earthly career of suffering, teaching and also his glorious triumph.

Blessed are they which do hunger and thirst after righteousness for they shall be filled (Matthew 5:6).

To such Christians the Bible an-

swers all such needs and hungers. Mother earth supplies all manner of food needful to make a healthful body. So does the Bible supply all needs to the spiritual body in Christ Jesus.

In the beginning was the Word, and the Word was with God, and the Word was God (John 1:1).

History, romance, poetry, drama and all manner of writing is found between the covers of this Book of Books. There is found a passage to help every mood of the human heart.

Oh, how I love thy law! It is my meditation all the day (Psalm 119:97).

Singing Convention To Meet at Mangum Saturday, Sunday

Announcement has been made that the Eastland County Singing convention would hold a big, two-day singing at Mangum on Saturday and Sunday of this week, to which the public is cordially invited.

Several noted singers, including Mr. Huffstetter of the Hartford Music company of Little Rock, Ark., and Mr. Stamps of the Stamps-Baxter Music company, have promised to be present.

The singing will start Saturday night and will be continued on Sunday. A big dinner will be served on the grounds at noon Sunday and all who attend are invited to bring along a lunch and remain all day.

Special songs will be sung from time to time throughout the meeting and an enjoyable time for all singers and all lovers of vocal music is promised.

Home made Crystallized Fruit For Fruit Cakes

Mrs. Carl Irby, farm food sup-
ply cooperator of the North Star
home demonstration club suggests
making your crystallized fruit for
cakes and start now to have ready
for the holidays. The following
recipe has been used by Mrs. Irby
and other club members and she
recommends this:

Remove peel in quarters, cut
in long narrow strips, place in
sauce pan of cold water, boil twen-
ty minutes, drain, repeat twice.
This removes all bitterness. After
the third boiling and draining
place peel and equal weight of
sugar in clean sauce pan with
cold water to cover. Let it come
to a boil and cook until syrup
threads from the spoon. Drain
rins in granulated sugar and lay
criss-cross on plate. Remaining
syrup is used in crystallizing pulp
of citrus fruits. This method may
be used for orange, lemon, grape
fruit and tangerine peels.

Transplant Roses in Fall

Mrs. L. J. Hazelwood, yard
demonstrator for the Carbon home
demonstration club advises trans-
planting roses in the fall in this
section. The summer is so hot and
dry the roses do not get started
enough to withstand the weather
conditions. The fall planting gives
the plants a growth that takes
them through the hot dry sum-
mer. The roses will have to have
more protection from the winter
cold, but this can be taken care
of. A good method is to dig in the
previously prepared soil a hole at
least eighteen inches wide and
deep, and in that hole spread out
the roots of the new rose in their
natural position. Very good soil,
but with no fresh manure (drys
the roots and causes the leaves to
burn or turn yellow) should be
used, pack the soil well around
the roots. After the plant is in
this manner the ground should be
soaked thoroughly. The plants
should be pruned to give the roots
a chance to get a good growth and
not have to furnish all the plant
material to the branches. This
will make it easier to take care of
through the winter.

Protect Roses From Disease

Protect roses and prevent dis-
ease, advises Mrs. R. D. Vander-
ford, yard demonstrator for the
Reich home demonstration club.
Since the organisms causing the
disease can live through the win-
ter in the dead parts of the plants
and the leaves collected under-
neath the plant, all this should
be cut out and cleaned from the
bush and burned. From time to
time during the year dust roses
with the following:

One part of arsenate of lead
and nine parts of finely ground
dusting sulphur. The arsenate of
lead controls the leaf chewing
insects, prevents the lumping of
the sulphur and increases the ad-
hesive qualities of the mixture.
It is inexpensive, easily applied
and does not discolor the foliage
to any great extent. Nicotine mix-
tures should be used to rid the
plants of the sucking insects. Keep
these insecticides on hand and be
ready to stop the trouble when
it starts and save the plants.

CITRUS—Preserve for Home Use

Mrs. Louis Pitcock, food dem-
onstrator of the Ranger Co-Work-
ers home demonstration club using
the citron grown on the farm for
the crystallized fruit in her fruit
cakes for the holidays. She gives
the method for preparing same.
The citron grows all over the
county and in case the women do
not have the fruit peels to crys-
tallize they may be interested in
trying this:

Cut the citron in quarters, scoop
out the pulp, peel. Soak in lime
water twelve hours (1 cup lime
to one gallon of water). Rinse,
hoil in clear water until tender.
Drain thoroughly and weigh. Use
as much sugar as you have in
weight of the citron. Make syrup,
using one cup to three cups sugar,
stir until dissolved. Add citron and
boil until syrup is entirely con-
sumed. Remove pieces, press into
shape of a scoop and let dry in
sun. Pack into jars.

Goat Buying Will Be Started Soon Over the County

AUSTIN, Oct. 9.—The federal
government today set out to ab-
sorb 400,000 head of goats on
Texas farms and ranches, the third
program of livestock purchases in
this state. Texas quota is 18,000
head per week. Female Angora
goats one year old or over will be
bought at a flat rate of \$1.45 a
head.

Counties in which goats are to
be bought include Eastland, Nolan
and Palo Pinto.

COTTON PRICES STEADY WITH COOPERATION

EXPLAINED AT FOUR COUNTY MEET TODAY

Farmers From Four Counties At Eastland Hear Farm Authorities From College Station.

Fairly steady prices for cotton
at a decent level every year are in
prospect if the South continues to
cooperate with the Agricultural
Adjustment Administration to
build a long-time farm program, it
was explained to a representative
group of farmers and farm women
at Eastland from four counties
Tuesday by W. H. Darrow, South-
western regional contact rep-
resentative of the AAA, College
Station. Counties represented
were Eastland, Callahan, Erath
and Palo Pinto.

In a 29-0 vote of approval of
the AAA cotton program, farm
leaders decided to hold a series of
community education meetings
this fall and winter to acquaint
farm families with the facts in the
agricultural situation. How to or-
ganize community agricultural as-
sociations for carrying out such a
program and for performing other
needed community work was ex-
plained by R. H. Bush, extension
organization specialist, Texas A.
& M. College.

Present at the meeting were 30
farmers, mostly cotton commit-
tee members, the county home dem-
onstration council, and 25 farmers, farm
women and home demonstration
agents from three other counties.
The meeting was called by County
Agent J. C. Patterson with Home
Demonstration Agent Ruth Ram-
sey.

The county agricultural asso-
ciation was organized with E. F.
Alton of Pleasant Hill, chairman,
Nat Bailey of Ranger, vice-chair-
man, and Mrs. Elizabeth McCracken
of Romney, secretary.

W. R. Usery of Carbon was
elected chairman of the Farm
Demonstration Committee which
was organized at the meet and J.
E. Everhard of Rising Star was
elected vice-chairman. Hubbard
Gilbert of Carbon was elected
secretary.

Delegates from Eastland coun-
ty to attend a meeting of the
state agricultural association in
Dallas, Dec. 3-6, were also elected
at the meet. E. F. Alton of
Pleasant Hill, W. R. Usery of
Carbon and Mrs. Elizabeth Mc-
Cracken were the delegates elect-
ed.

In the discussion on cotton it,
was brought out that the AAA pro-
gram is not losing our foreign
markets; that continued pro-
duction control will enable the South
to maintain ample cotton pro-
duction at fair prices; that AAA of-
fers the opportunity to build
Southern farming on sound lines.

Foreign countries have steadily
increased their share in world cot-
ton production for more than 40
years regardless of big American
crops, it was pointed out. To re-
turn to big crops in the South will
afford no more protection against
foreign competition in the future
than it has in the past. There is
reason to believe that foreign in-
creases will be smaller in the fu-
ture because of very definite limi-
tations to expansion in the five
chief competing countries. Brazil
offers the most serious threat, but
huge investments will be required
to clear land and import farmers
if cotton expansion is to go very
far in that country. It will take
very high cotton prices for a long
period of years to provoke very
great competition in that country.
Cotton acreage declined this year
in India, Egypt, and Russia; in
China there was a small increase
but food shortage and poor trans-
portation will likely limit large
future increases; and future in-
creases in Russia, which are limi-
ted, will probably be absorbed by
greater consumption in that coun-
try. As long as the South has
normal cotton crops reasonably priced
there seems to be no occasion for
alarm.

American cotton acreage can
easily jump from 28 million acres
this year to 50 million acres next
year or in the future years. Un-
less brakes are applied the South
will continue to be periodically
depressed to the detriment of
farming and business. By pro-
duction control farmers can co-
operate to do together what they
have never been able to do as in-
dividuals. The cotton processing
tax enables the AAA to help farm-
ers adjust their production. This
tax on consumers, it was pointed
out, is financing the benefit pay-
ments. The AAA programs are
not adding to the public debt. The
processing taxes make up to the

Relief Canning For Winter Foods Shows Big Totals

COLLEGE STATION.—“Har-
vest Home” in the blackland sec-
tion of Texas is going to be notable
this fall in spite of the great 1934
drouth according to a preliminary
survey of the canning activities of
that section made by Miss Jennie
Camp, district home demonstration
agent. Fifteen counties in the dis-
trict had 31 community relief can-
ning plants, equipped with 317
pressure cookers and retorts and
177 tin can sealers, being operated
by relief agencies with relief labor
under the supervision of county
home demonstration agents on
Sept. 1, Miss Camp stated.

By the middle of September the
total output of these 31 centers
had reached a total of 870,891
containers. All of the products that
went into those cans came from
the farms of the district, Miss
Camp said. The canning was
done on a toll basis, the Texas re-
lief commission furnishing cans,
equipment, and labor; the owner
furnishing the products; the toll
going into relief commissaries for
the needy, and home pantry
shelves receiving the balance.

For example in Montague coun-
ty the work is being carried on in
five centers using 14 pressure
cookers and retorts and 10 tin can
sealers. On Oct. 1 there had been
canned 117,404 containers of
meat, fruits and vegetables in
these five plants. Of these 63,929
containers were returned to the
pantry shelves of the owners of
the products and 53,175 went into
the warehouse of the county relief
administration.

In this district there are also
federal meat canning plants at
Fort Worth and Dallas. These
plants had put up 4,679,207 cans
of meat in the period between
July and Oct. 1.

tle Miss Parker for state repre-
sentative from the 37th district. Mrs.
Tourtelotte will run as a repub-
lican, Miss Parker as a democrat.

National Corn-Hog Referendum Set

COLLEGE STATION.—As the
corn-hog work for 1934 draws to
a close, plans are being put in mo-
tion for a nation-wide referendum
of contract signers on whether
they want an adjustment program
dealing with corn and hogs in
1935, according to E. M. Regen-
brecht, extension swine husband-
man. Whether they favor a one-
contract-per-farm adjustment pro-
gram dealing with grains and live-
stock to become effective in 1936
will also be submitted to the vote,
Regenbrecht said. The referendum
is scheduled for the first two
weeks in October.

In any program for 1935 devel-
oped as a result of the referendum
the percentage of adjustment from
the 1932-33 corn-hog base pro-
duction will not be greater than that
required in the 1934 program and
may be less. The reason, as ex-
plained by A. G. Black, chief of
the agricultural adjustment ad-
ministration’s corn-hog section, is
that it may be desirable to in-
crease hog production moderately
during the next several years and
also that farmers in the drouth
areas will want to rebuild reserves
of feed. The drouth has reduced
feed supplies below normal and
this is bringing substantial reduc-
tions of livestock numbers.

If producers vote favorable on
a control program for 1935, ad-
justment administration officials
will confer further with represen-
tatives of producers in developing
the details of a suitable contract
and will offer this contract to pro-
ducers for a sign-up sometime
before the end of this year.

Any contract developed for 1935
will be available to all eligible
producers whether or not they
signed a contract in 1934. Any
program dealing with both corn
and hogs in 1935 would follow the
general outline of the 1934 pro-
gram but benefit payments would
probably be somewhat larger for
corn and materially less for hogs
than under the program this year,
adjustment officials say.

Session Is Not Warranted Says Senator Collie

Senator W. B. Collie of Eastland, senator from the 24th district, Saturday released the following relative to the talk of special session:

"To the People of the 24th Senatorial District:

"I have received some communications from over the state asking me to advise the governor to call another session of the legislature for the purpose of considering among other things, these subjects: The appropriation of \$5,000,000 for the centennial; remission of penalty and interest on delinquent taxes; additional relief funds; Colorado river authority, and the Brazos river projects.

"I am always glad to have expressions of the people on any proposed legislation and shall indeed appreciate a hearing from them concerning the new session, as well as their views particularly on the subjects in this event a session is called.

"The messages I have received have not been sufficient to warrant me to request another session. Personally, I have a pre-education against it, because all of these subjects were considered at the last session and the result is well known. I know of no change in sentiment among the members favorable to the bills that were defeated, and the chance of favorable action is not sufficient to warrant the expense incident to a session.

"The most important proposal at this time is the remission of penalties and interest on delinquent taxes, and other relief measures. But these were defeated after many hours of debate. I was quite active in sponsoring the remission bill. Having been appointed on the conference committee to consider the bill, it was upon my motion that the bill was reported favorably and the report was signed by three members of the house and three of the senate. Objection was made to a section which eliminated the optional feature which had applied to cities and other local political subdivisions. In the consideration of the bill in the committee there was not one speaker who admitted that the cities would grant the remission if it were left optional with them. For this reason I opposed leaving it optional with them. Believing the taxpayers should have some relief and not penalized in these distressing times, I wanted the provisions of the bill to apply to all delinquent real estate taxpayers, many of whom have taxes encumbering their property so heavily there remains only small equities to themselves. Something must be done to permit these people to work out their debts and reclaim their property.

"Many thousands of people had made application to the Home Owners Loan corporation and the Federal Farm Loan corporation for loans to save their property from threatened foreclosure. The applications were filed before July 1, when these penalties and interest charges were applied. Now, these loans are seriously jeopardized because these governmental agencies invariably reduce, rather than increase, the amount applied for and they require that all taxes be paid.

"It ought to be known that the only persons to speak in opposition to the bill in our committee were city attorneys and collectors and others drawing salaries from public source. Those in need of relief were, of course, unable to be heard because of the expense in coming to Austin; whereas, it might be presumed that the officials were allowed their expenses out of public money. No one came from this district but letters, telegrams and calls were sent me in opposition to the bill. These came from officials of cities and towns.

"As state senator, I felt that in view of the government being compelled to take care of the destitute and needy on relief rolls, many thousands of whom enjoy the privileges of government and share none of its burdens it is unjust to penalize the taxpayer who is bearing the burden and sharing less in the privileges of government. Many thousands who own real estate are equally as burdened as those who do not own it; and should we add a penalty upon him at this time because of his inability to pay his tax bill in full?

"I again solicit the expressions of the people upon all of these subjects. The governor has requested me to transmit these views to her. COLONY

Special Correspondent

"The Womanless Wedding," a play given in the school auditorium recently at Colony, was well enjoyed by those attending. The citizens and teachers of Colony wish to thank the Ranger Times for helping to advertise this play. We also express our thanks for the entertainment furnished by the Ranger people.

Mrs. W. L. Carey, who passed away on Sept 21, was the mother of Miss Audrey Carey, who teaches in the Colony school.

The freshman class at Colony, under the direction of Miss Gertrude Griffith, enjoyed a weiner roast Friday night, Oct. 4. Those attending were Misses Gertrude Griffith, Nelle Waters, Oneda Bowen, Frances Harrell, Johnnie Harrell, Marjorie Herman, Ovada Anderson, Joyce Alderson, Etherage Williamson, Dorothy Bowen, Helen White, Loretta Thompson, Doris Hooks, Alene Lain, Vera Harris, Melba Hawkins; and G. D. Smith, Warford Mosley, William O'Shields, Woodrow Weeks, Woodrow Williamson, Otis Anderson, Irvin Ivy, Fred Mosley, Connie Davis, Wesley Poyner, Willie D. Payne, Leroy Smith, Harold Hasen, and Mr. and Mrs. Hooks.

The basketball boys and girls of Colony played Morton Valley on Oct. 5.

The Colony Parent-Teacher association met Friday, Oct. 5, at the schoolhouse in a very interesting meeting. A program was given by the students in the first four grades, directed by Miss Ericc and Miss Waters. The state vice president, Mrs. C. E. Maddocks, gave a very interesting address and gave points to help in the organization of a standard P. T. A., which can be of service to the community.

Eastland-Breckenridge And Brownwood-Cisco Games Open Oil Belt Season This Week-End

After Friday fanfare and ballyhoo of Oil Belt teams will fade and fans will have an inkling as to the real Oil Belt top-notchers. In the season's first championship encounters, Eastland will journey to Breckenridge and Brownwood will invade Cisco this week. Eastland's game has been called for 3:30 p. m., Friday.

Eastland has defeated San Angelo, yet lost to Stephenville while three of Breckenridge's victims have been Class A aggregations.

Naturally some contend Eastland is the underdog while those more familiar with Oil Belt sports recognize in the plucky group of Coach S. J. Petty, a team that has potent possibilities to unveil many a surprise.

The Brownwood Lions, having failed to score in three games, are not scaring Cisco, it is said, although it would not take many points to beat any total the Lobos yet have been able to accumulate.

Abilene and Ranger will carry their campaigns against outside teams. The Eagles will entertain Wichita Falls at Abilene while Ranger goes to San Angelo.

The Eagles and Bulldogs showed more class than the rest of the field last week. Ranger again failed to come through with a victory, but scored 19 points against Central, Fort Worth's strong eleven. Central in previous games had beaten Waco 27 to 0, and Mineral Wells, 28 to 6.

Abilene won its third straight shutout win, over the San Angelo Bobcats, who waited late in the second period to allow two touchdowns.

Relief Work Is at Near Stand Still

Sewing rooms last week filled with a buried atmosphere and the hum of swing machines were Saturday quiet in all rooms in the county, and relief projects in the county were shut down due to the cut in Eastland county's money allotment for October.

At the Eastland county general relief office Saturday, an administrative official said that the whole relief work in the county was cut to the bone with no projects going and only relief disbursements were being made to those on the direct relief rolls, and those very few.

The mattress factory started last Monday at Eastland was shut-down in the latter part of last week.

Case workers, the officials said, were going over their books and investigating each and every client so that those unworthy or relief would be removed.

Since the federal government has recently allotted money to Texas, the official said, the office expected word of some nature in the early future.

A new York man says the country is fed up on relief. He must think of that part of the country that isn't fed on relief.

Oil Refiners Will Pay Men In Silver

KILGORE, Tex. — Oil refiners here propose to advertise with dollars—silver ones. Refinery workers will be paid off each week in silver dollars during the next three months. The plan means that approximately \$30,000 a week in silver dollars will be thrown into trade channels.

Oil refiners believe there will result favorable attention from the entire state and southwest to the huge industry here.

Meat Shortage Is Averted In Nation

LAS CRUCES, N. M.—A serious meat shortage has been averted for the United States by the drought relief cattle program, by reduction of starving herds of the Southwest, according to Dr. H. L. Kent, president of New Mexico A. & M. College.

"When we first started the buying campaign, we found that we had to kill about one-third of all the cattle purchased," Dr. Kent stated. "If these cattle had been allowed to stay on the range and gradually starve to death, losses would have been much more serious."

"If the other two-thirds still fit for human consumption had been left on the range, my estimate is that by Sept. 1, we would have lost 50 per cent of all the range cattle in the State.

"At least the total cattle population would have been so reduced and the calf crops of the next two years so diminished that there would have been a serious meat shortage in America," Dr. Kent asserted.

Government Buys 53 Sheep In the County Last Week

All of the sheep listed in Eastland county by owners for government buying, 53, were purchased last week under the direction of Tom J. Finley, government assessor of Fort Worth.

DROUTH IN TEXAS WAS NOT AS BAD AS IT WAS PAINTED BY SOME PEOPLE

DALLAS, Oct. 8.—It was pretty bad, all right, but the drouth in Texas was not quite the calamity it was painted, an exhaustive survey by the Texas Daily Press league indicates.

The rainfall maps and charts showing estimates of crop conditions placed Texas in the "drouth area," but, as one economist pointed out, "business maps don't coincide with rainfall maps."

With most of the state's crops harvested and the proceeds thereby from in circulation or in the bank, and with ranches cleared of surplus diseased cattle, conditions appear not nearly so bad as calamity howlers predicted, according to the league's review.

Oil was one factor that kept Texas business on the upgrade despite the effects of drouth, the press league's bulletin disclosed.

So far as oil was concerned "there was no crop failure."

Texas received more than twice as much for oil produced in the first six months of 1934 as during the same period of 1933, the survey showed. For the first half of last year the state produced 185,025,583 barrels of oil sold for \$78,592,987. For the same period this year the oil income was \$197,709,900, although only a little more petroleum was produced—188,506,757 barrels.

"Here is an increase for 1934 of \$117,116,913," the press league bulletin pointed out. "Of this amount, \$24,463,737—or \$136,642 daily, 30 days a month for every month since Jan. 1—has been going into the hands of royalty owners alone, covering their owners' one-eighth, with the money being spread over the entire state."

Farmers of the state, directly affected by the drouth, aren't in such bad shape, either, the league's statistics show.

Value of the state's five major crops—cotton, wheat, corn, oats, and grain sorghums—is more than \$202,000,000 greater than for 1932 and more than \$140,000,000 greater than for 1931.

The league produced a cheerful chorus of other figures to indicate the state's business trend.

Texas retail stores reported average dollar sales increased 13.4 per cent in July, 1934, over July, 1933. Aggregate sales for the first seven months of this year were 26 per cent greater than for the same period in 1933.

Net revenue for Texas railroads in the first six months of 1934 was 74.5 per cent above net revenue for the same period last year.

Commercial failures in July were 59 per cent fewer than for the same month a year ago.

Texas farmers received an average of 3111 in federal payments, or one-sixth as much as their average receipts, from all crops in 1933.

So why the calamity howling?

The press league blames it on an exaggerated idea of harm done by the drouth which in turn resulted from the scramble for state and federal relief funds.

Instead of counting their blessings, the various communities tabulated their ailments in order to impress relief agencies and thus get a bigger share of relief funds than they would otherwise receive.

Even cattlemen, admittedly the greatest drouth sufferers, are not as bad off as vivid tales of starving cattle, dying on the ranges or being slaughtered by government agents, would indicate, the league concludes.

The survey quoted from the magazine "Farm and Ranch" to show that much of the slaughtering was primarily to eradicate tuberculosis and Bang's disease. It was a health measure carried out with funds appropriated long before the drouth, the magazine stated.

That so many Texas counties went on the federal "emergency drouth relief" lists, according to the magazine, "is evidence that

Allred to Name Many Appointees

Incoming Gov. James V. Allred will have the appointment, at the beginning of his administration, of several of the heads of state departments, and during the first few months of his term the selection of about 200 state officials and members of boards and commission.

His appointments will be doubly significant as to the overlapping three and nine-member boards, in that generally the new appointees will decide the balance of power between the former appointees of the Ferguson administration and of prior governors.

In case of the state board of education the law provides Gov. Ferguson shall name the three appointees on Jan. 1. Two years ago, through the Ferguson influence, two of Gov. Ross S. Sterling's final nominees were rejected, so that should the senate not retaliate on Mrs. Ferguson she will have named a majority of this board before she goes out of office.

Chief department heads Allred as governor will have to make at the beginning of his term, or early in the term, will be successors to these present officials:

W. W. Heath of Navasota, secretary of state.

Henry Hutchings of Fort Worth, adjutant general.

C. H. Poe of Houston, labor commissioner, effective Feb. 1.

Henry P. Edwards of Dallas, tax commissioner.

H. Y. Overstreet of Fort Worth, water compact commissioner.

W. E. Leonard of an Antonio, state service officer.

A. M. Vance of Beaumont, state reclamation engineer, July 1.

IE. C. Brand of Sweetwater, state banking commissioner, Sept. 1.

Guy B. Simpson of Corpus Christi, state auditor, Sept. 12.

Guy L. Waggoner, Fort Worth, chairman of the racing commission unless the racing law is repealed, as advocated by the democratic convention.

Term of Claude D. Teer, chairman of the board of control, will expire Jan. 1, 1936.

Some of the major board members to be named by Allred will include the successors of:

W. R. Ely, Abilene, chairman of the highway commission.

A. H. Dunlap, Barstow, board of water engineers.

Joseph Wearden, Coliad; Frank L. Tiller, Rosenberg, and E. H. Astin, Bryan, prison commission.

Fred S. Rogers of Bonham, board of pardons and paroles.

Mrs. Espa Stanford, industrial accident board.

W. S. Pope, board of insurance commissioners.

Dr. R. A. Erickson, San Antonio; Dr. J. B. Brady, El Paso; Dr. J. M. Frazier, Belton; Dr. Joe S. Wooten, Austin, state board of health.

D. E. Colp, San Antonio, chairman, and E. L. Beauchamp, Paris, state parks board.

A. E. Wood, Austin, chairman, and Murrell L. Buckner, Dallas, game commission.

Leo Callan, San Antonio; Ed Steger, Bonham; W. M. Glenn, Lufkin, livestock sanitary commission.

Members of the board of education whose terms expire Jan. 1 are:

Mrs. Noyes D. Smith, Austin, vice chairman; F. L. Henderson, Bryan, and Nat M. Washer, San Antonio, chairman.

Educational board members

whose terms expire with the beginning of the new administration are:

Dr. Edward S. Randall, Galveston; Charles I. Francis, Wichita Falls, and Chairman Beauford Jester, Corsicana, University of Texas as regents.

F. M. Law, chairman, Houston; Byrd E. White, Lancaster; Walter Lacy, Waco, A. & M. college directors.

John A. Hulen, Fort Worth; R. A. Stuart, Fort Worth; John W. Carpenter, Dallas, Texas Tech directors.

H. L. Kokernot, Alpine; J. E. Josey, Houston; A. B. Mayhew, Uvalde, regents of state teacher colleges.

Mrs. W. E. Spell, Waco; Mrs. Lee Joseph, Austin; Mrs. H. F. Ring, Houston, C. I. A. board.

Mrs. W. L. Stone, Victoria; Lamar Gill, Raymondville; Robert Lee Bobbitt, Laredo, College of Arts and Industrial, Kingsville, board.

In addition to these administrative boards, the incoming governor will name more than 100 members of boards of examiners, boards to supervise several parks, and scores of pilot commissioners and branch pilots for the ports of Texas.

Changes will be made in four elective state offices. Mr. Allred will be inaugurated governor and Sen. Walter F. Woodul lieutenant governor Jan. 15. William McCraw will succeed Allred as attorney general about Jan. 1, and Judge John H. Sharp will be sworn in as associate justice of supreme court, succeeding Judge T. B. Greenwood, on or about Jan. 1.

Over 100 Attend Tri-County Meet Held at Eastland

Over 100 attended the one day tri-county J. O. O. F.-Rebekah meet at Eastland Thursday, it was announced Friday. Delegates were from Baird, Ranger, Haskell, Cisco, Pioneer and Gorman.

Net revenue for Texas railroads in the first six months of 1934 was 74.5 per cent above net revenue for the same period last year.

Commercial failures in July were 59 per cent fewer than for the same month a year ago.

Texas farmers received an average of 3111 in federal payments, or one-sixth as much as their average receipts, from all crops in 1933.

So why the calamity howling?

The press league blames it on an exaggerated idea of harm done by the drouth which in turn resulted from the scramble for state and federal relief funds.

Instead of counting their blessings, the various communities tabulated their ailments in order to impress relief agencies and thus get a bigger share of relief funds than they would otherwise receive.

Even cattlemen, admittedly the greatest drouth sufferers, are not as bad off as vivid tales of starving cattle, dying on the ranges or being slaughtered by government agents, would indicate, the league concludes.

The survey quoted from the magazine "Farm and Ranch" to show that much of the slaughtering was primarily to eradicate tuberculosis and Bang's disease. It was a health measure carried out with funds appropriated long before the drouth, the magazine stated.

That so many Texas counties went on the federal "emergency drouth relief" lists, according to the magazine, "is evidence that

Alert farmers sensed the opportunity to cull their herds of unprofitable animals.

"In no sense can 'drouth relief' be interpreted to mean suffering and want."

"The cattlemen are accustomed to playing long shots," the league comments. "In the dryer areas the cattleman has never 'hit' more than once in three years."

For this reason the drouth in many instances was a disguised blessing. It brought with it federal payments that helped the ranchman to sustain his loss whereas in other years he had to bear it alone.

Drouth also brought higher prices for farm products in its wake, so that in a large measure reduced production was offset by higher returns for what crops were salvaged.

Readjustment of Interest In Texas Seen In Centennial

SEMINARY HILL, Tex.—A general readjustment, re-adaptation and recovery of all the interests of Texas is envisioned by Dr. L. R. Scarborough, President of the Southwestern Baptist Theological Seminary here as the anticipated direct result of the proposed observance of Texas' Centennial by San Antonio, Houston, Coliad, Brenham, Nacogdoches, Huntsville, Dallas and kindred cities, if such celebrations are staged upon a scale commensurate with their recognized importance.

Regarding the significance of the Centennial, Dr. Scarborough said: "My judgment is that it will revive interest in Texas on the part of its own citizens in the history, the resources, all the business, social, religious and industrial interests of our State, and it will advertise Texas far and wide and will call attention of the world to our great State. I think the fondest imagination could not bound the outer limits of the significance of this celebration."

"I think this Centennial will touch every nook and corner of the State and send a thrill of loyalty and enthusiasm out every way. I think everything in our State will be revalued and that the Centennial will help to effect not only a review but a readjustment and re-adaptation and recovery to all our interests. If it is put over on a big scale, in a generous broad-visioned way and upon the lines of the right spirit, it will be one of the greatest things in the history of the State."

"Texas has resources; they need to be advertised and developed. New wealth and a revived leadership need to be brought into our State and I think this Centennial will help along these and many other lines."

League Banquet For Cisco District In Breckenridge Friday

The league banquet for the Cisco district of the Methodist church will be held in Breckenridge Friday night at 8 o'clock, Mrs. J. E. Hickman of Eastland has announced.

The date being Oct. 12, Columbus Day, the theme of the program will be "Discovery." In that the banquet parallels that of the Eastland-Breckenridge game, it is thought many Eastland league members will be able to attend the affair.
