

PROCEEDINGS 11TH COURT OF CIVIL APPEALS

The following proceedings were had in the Court of Civil Appeals, 11th supreme judicial district, as handed down Friday:

Affirmed: W. R. Webb, et al. vs. First Texas Chemical Manufacturing company, Dallas.

Reversed and Remanded: Fred Mercer vs. L. R. Campbell, Rockwall.

Motions Submitted: H. W. McSpadden vs. Stamford State Bank, appellee's motion to affirm on certificate; Herman Evans vs. Southern Methodist University, appellee's motion for rehearing; C. G. Hardwick, et ux, vs. Trinity Universal Insurance company, et al, appellee's motion for rehearing.

Motions Granted: H. W. McSpadden vs. Stamford State Bank, appellee's motion to affirm on certificate.

Cases Submitted: B. L. Northcutt vs. Magnolia Petroleum company, Eastland; Desdemona Gasoline company of Texas vs. Edgar Garrett, Eastland.

Cases to be Submitted Oct. 18: M. A. Baldwin vs. Motor Investment company, Stonewall; Arturo Solis vs. Mary Seaff Solis, Knox.

Bond Is Set In Two Boys' Cases

Bond of Edward Thomas and Jimmie Garner, charged with burglary and theft in connection with entrance of the barn of Briggs Owen Monday, has been set at \$1,000. Deputy Sheriff Steele Hill stated Wednesday.

Hill stated 560 pounds of wheat and five bushels of oats were stolen from Owen's barn, near Lem Switch, between Cisco and Eastland.

Shift In Present AAA Plans Being Given Much Study

WASHINGTON, Oct. 16.—The Roosevelt administration is considering a shift in the AAA to place all cooperating farmers under a single contract covering the tiling of their entire farms.

Such a shift, if decided upon, would not effect present production control contracts, but might be offered farmers after existing contracts and those to be announced soon, expire.

Influential AAA officials urge the broader and long-range proposals as necessary for soil conservation and to meet criticism of red tape.

Newsman's Rights Before High Court

AUSTIN, Oct. 16.—Five judges on the bench of the state's highest criminal court prepared today to hear two hours' argument on whether six newspapermen can be sent to jail for publishing court proceedings.

One took a newsman's holiday between sessions of the legislature to listen to his own case.

The question at issue was whether a district judge in conducting his court can prohibit illegally publication of testimony.

Colony Residents Entertain Guests

Mr. and Mrs. H. B. Groce, Colony community, and Mrs. L. D. Tankersley, Ranger, entertained Friday evening at the farmer's homes with a party honoring their respective daughters, Marie and Lavonia, on their birthdays.

The color scheme of pink and green was successfully carried out by the hostesses. Various entertaining games were played during the evening after the honorees were presented with many pretty gifts. Punch and cake was served to the following guests: Misses Berntha Tankersley, Beryl Brimsherry, Dorothy Lee Brimsherry, A. Selie Brimsherry, Helen Wines, Barbara Getta, Roberta Landtroop, and Maxine Landtroop; Master Dale Wheat, Fitch Wheat, Wayne Judy, Billy Houghton, Billy Getts and William Thomas Groce; Mr. and Mrs. H. B. Groce, Mr. and Mrs. H. B. Getts, Mrs. L. D. Tankersley, Mrs. Homer Landtroop, and the honorees.

Nine Main Points Figure in Outlook of Corn and Hogs

No less than nine major factors will have to be weighed by Eastland county farmers before they mark their ballots in the nationwide corn-hog referendum, Saturday, Oct. 26, according to E. F. Altom, president of the county corn-hog control association.

Not one of the nine points can be slighted, he said, in reaching a sound "Yes" or "No" decision on the referendum question: Do you favor a corn-hog adjustment program to follow the 1935 program which expires November 30, 1935?

First in the outlook is the country's small livestock population. Unprecedented drought which cut the corn crop and the harvest of other feed grains almost in half last year forced farmers to strip their herds and flocks down to the smallest number of grain-consuming animals on farms in 34 years. Furthermore, the country's livestock population will not have been rebuilt to any great extent by the beginning of 1936.

Second, although farmers have 15 per cent less livestock than they had during the five-year period 1928-1932, it is estimated that at the close of this year's harvest, they will have enough feed supplies for almost as many animals as the average during the five-year period. The grain supply per animal this winter is therefore expected to be larger than in any year since the World War, except 1926.

Third, if there is no adjustment program in 1936, farmers will be likely to harvest more than 100 million acres of corn. They harvested about 105 1-2 million acres in 1932 and 1933, and a recent government report indicates a 1935 harvest of nearly 94 million acres. Acreage this year was held down to 94 million only because corn-hog contract signers retired about 11 1-2 million acres. With average yields an uncontrolled acreage of corn next year would mean a production of more than 2 1-2 billion bushels. Since it is doubtful that the number of grain-consuming animals will be increased enough in 1936 to bring the grain supply per animal back to normal, the amount of feed per head would continue high during the 1936-37 feeding season.

Fourth, with a large supply of corn and too few animals to utilize it, the trend of prices of corn during the coming year is expected to be downward. With uncontrolled production next year, the farm price received for the 1936 crop may be expected to average much less than the price received for this year's harvest.

Fifth, it is possible for the hog population to increase rapidly during the next two or three years. Furthermore, farmers would be forced to resort to this means of utilizing their feed supplies if production were uncontrolled. With unlimited farrowings in 1936, a total pig crop 25 to 30 per cent larger than the 1935 crop may be expected. This would lead to a similar increase in 1937, causing 1937 farrowings to total from 50 to 70 per cent heavier than in 1935.

Sixth, in the past ruinously low prices have always resulted from unlimited increases in corn and hog production following periods in which livestock numbers and feed supplies have been out of balance. If no control program is adopted, low prices for hogs can be expected, beginning in 1937.

Seventh, it is likely that the gradual economic recovery which has been under way since 1933 will continue, but no improvement in the export demand for pork products can be expected. Since the war American exports of pork and pork products have declined gradually by the equivalent of 8 million head of live hogs.

Eighth, a considerable increase in hog production above the present drought-reduced level is desirable from the standpoint of both the farmer and the consumer. On the other hand, an unlimited increase in hogs is not to the

Polling Places For Corn-Hog Vote On October 26 Announced By Agent

Six polling places where Eastland County farmers can cast their votes in the nationwide corn-hog referendum on Saturday, October 26, have been set up in the county, were announced by C. Metz Heald, county agricultural agent, Saturday.

One question will be on the ballot: Are you in favor of a corn-hog adjustment program to follow the 1935 program which expires on November 30, 1935? All operators and owners, or their official representatives, of farms which produced corn or hogs in 1935 may vote whether they sign a 1936 or 1935 corn-hog contract or not. Each eligible person is entitled to one vote.

The schedule of the polling places, which will be open from 8.00 a. m. to 10:00 p. m., together with the corn-hog committees who will be in charge, is as follows:

Chamber of Commerce, Ranger; Dick Weeks.
Chamber of Commerce, Cisco; Roy O'Brien.
Higginbotham's Store, Rising Star, Willie Cooper.
Carbon Trading Co., Carbon; Ned Morris.
County Agent's Office, Eastland; Ray Norris.
Higginbotham's Store, Gorman; Wayne White.

County results of the referendum will be wired to state headquarters at College Station by Monday noon, and the state results will be sent to Washington by Tuesday.

Officials of the Agricultural Adjustment Administration point out that unless a sufficient number of farmers vote favorably, there will be no program. The administration must be assured that a sufficient number of farmers will participate to make a program operative and successful.

Relation of School, Home In Building of Character Told Body

Lewis Smith, principal of the Morton Valley school, addressed members of the Parent-Teacher's association at their first meeting of the current school year recently. Smith's subject was "Cooperation of the Home and School in Character Building." Need of more school ground equipment was stressed.

Blanton Returns To Abilene From Inspection Tour

ABILENE, Oct. 15.—Returning to his home in Abilene late yesterday after an absence of nearly a year, Congressman Thomas L. Blanton brought to his West Texas neighbors a message of optimism, along with observations from an inspection tour of the United States, Hawaii and the Panama Canal, as a member of the military affairs appropriations committee.

With his family, Congressman Blanton drove from Washington where they spent several days after terminating a voyage from Hawaii to New York by way of Panama.

In a statement, Blanton said in part:

"I find that the people everywhere are in a better state of mind, and I believe that our nation has made great strides toward recovering from the depression.

"As a member of the committee which appropriates for all military affairs, I have just finished a personal inspection in the United States, Hawaii and the Panama Canal of new construction projects proposed by the war department, and I can assure everyone that there shall be adequate preparedness or sane national defense that will prevent any successful invasion of our country.

With the valuable first hand information gathered on this trip, I believe that our committee will be able to eliminate many millions of waste each year from military appropriations.

"We must end, once and for ever, the demoralizing role. It is destroying initiative, self-reliance and self-respect, and is bankrupting the government. We must abolish unnecessary bureaus and commissions. We must stop wasteful spending, for inevitably there is a pay day. We must balance the budget and keep it balanced.

"We must preserve America for Americans. We must preserve American jobs for American workmen. We must stop all immigration from foreign countries for at least ten years. We must deport the millions of aliens who are now unlawfully in the United States, taking jobs away from the American jobless. We must outlaw communists.

"As a nation we must 'mind our own business' and absolutely keep out of all foreign squabbles and entanglements. We must not, under any circumstances, allow another war to be thrust upon us."

Relation of School, Home In Building of Character Told Body

Miss Inez Pickett's primary pupils gave program of songs and readings.

Next meeting will be held Thursday, October 24 at 3:45 p. m.

Attending were: Mr. and Mrs. Lewis Smith, Sam Jones, N. A. Smith, Mrs. Thad Henderson, Mrs. C. D. Jones, Mrs. W. E. Tankersley, Mrs. Bill Wheat, Mrs. Florine Davis, Miss Pickett, Mrs. S. L. Whatley, Mrs. Joe Moore, Mrs. Cecile Eubanks, Miss Moore, Miss Opal Hearn, Mrs. J. B. Rayfield, Mrs. Clint Jones, Miss Williams, Mrs. Judge Harbin, Mrs. Paul Harper, Mrs. Frank Hensley, Mrs. Wince Graham, Mrs. Mounts, Mrs. Tobie Morton, Mrs. Vick Harbin, Mrs. T. E. Castleberry, Mrs. H. Tankersley, Mrs. Hensley, Mrs. Jake Garrison, Mrs. Josie K. Nix, and Mrs. O. J. Tarver.

Colony P.T.A. Has Business Meeting

Mrs. Guy T. Smith, P.T.A. president, today called a special business meeting for Thursday, Oct. 17, 1935 at 2:45 p. m., at the Colony High school auditorium. All chairmen of committees and other committeemen are urged to be present. Plans for the yearbook are to be discussed and duties of the various committees will be reviewed.

Fort Worth Firm Files Drill Notice

Application of Mook-Texas Oil Company of Fort Worth to drill No. 12 E. A. Sibley, Block 6, William Van Norman survey, in Eastland county, was on filed in the railroad commission office at Eastland Tuesday. It is planned to drill to 3,300 feet unless gas or oil is found in paying quantities at a lesser depth.

The location is 400 feet south and 800 feet east of the north-west corner of the 51-acre block No. 6, E. A. Sibley farm, out of the William Van Norman survey, Eastland county.

interest of either.

Ninth, an adjustment program can allow for a healthy increase in hog numbers and at the same time keep corn acreage at a more desirable level.

Divorce Granted

Divorce to Nancy Barker from Paul Dean Barker was granted by 91st District Court Monday, Plaintiff's maiden name, Nancy Mathena, was restored. The court ordered the plaintiff recover court costs and \$50 attorney's fees from the defendant.

SCHEDULE WELL DRILLING NEAR EASTAND SOON

Application to drill five miles south of Eastland was filed at the railroad commission office in Eastland Saturday by Aaron C. Jen of Baltimore, Md.

The well will be the third to be drilled on the Mrs. L. E. Murrell farm, located in section 29, block 2, H. & T. C. Ry. survey.

It is planned to drill to 1,200 feet unless gas or oil is found in paying quantities at a lesser depth. The proposed location is 150 feet from the lease line and 800 feet from the nearest completed or applied for well on the same lease.

Lumber Dealers In Meeting at Ranger

A meeting of the Oil Belt Lumber Dealers association, district 23, met in Ranger Tuesday night, with representatives present from eight counties in the district. Members from Breckenridge, Albany, Moran, Cisco, Eastland, Ranger, Mineral Wells, Strawn, Stephenville, Dublin, DeLeon, Comanche, Gorman, Rising Star and other towns in the district attended the meeting.

The principal speaker of the evening was Col. Rufus J. Lackland, who gave many details in connection with the workings of the Federal Housing Act, which brought much information to the lumber dealers of the district.

He was followed by Phil Record, a director of the Federal Housing Administration in Texas, who also gave highlights on the housing act and how it benefitted retail lumber dealers of the state.

Col. Lackland, in his talk, pointed out the progress that had been made under the FHA and compared the financing plan with that developed by the automobile manufacturers back in 1906 when they could not sell automobiles because so few people could put up the \$3,000 necessary to purchase a car at that time.

Among those present were Frank Harrell, president of the Oil Belt Lumber Dealers association, and manager of the Rockwell Lumber company of Cisco; J. T. Berry, manager Burton-Lingo Lumber company, Cisco; Pete Cooles and Charles Sandler, of the Cisco Lumber and Supply company, Cisco; Lon Shaw, manager Burton-Lingo Lumber company, Strawn; F. E. Crowell, manager Pickering Lumber Sales company, Eastland; R. S. Balch, manager Burton-Lingo Lumber company, Ranger; W. T. Wilson, manager Pickering Lumber Sales company, Breckenridge; J. C. Ferguson, manager Rockwell Lumber company, Breckenridge; Calvin Brown, manager Pickering Lumber Sales company, Ranger; Mr. Roe, manager Clay Lumber & Building company, Desdemona, and Mr. Monday, manager of the Eastland County Lumber company, Eastland.

45 Students of County Losing \$270 Per Month

AUSTIN, Oct. 17.—In Eastland county there are 45 high school students losing \$270 per month through failure to make application for NYA aid allocations, Lyndon B. Johnson, state director, announced today.

"On Sept. 12, socially desirable part-time jobs paying \$6 per month were offered 8,547 high school students, who are members of families on relief rolls or members of rural resettlement families at a total monthly expenditure of \$51,282. Response to this offer has been retarded, and the National Youth Administration is desirous of filling the quota immediately in order to give those eligible for student aid the full sum of cash due them," he said.

Students between the ages of 16 and 25, who for lack of financial assistance are unable to attend school, should make application directly to the principal of their school, Johnson said. The principal then submits to the county superintendent a project application in affidavit form asking for his quota of jobs, together with students' applications properly executed. Applications should then be forwarded to the National Youth Administration, Littlefield Building, Austin, Texas.

Barnes Is Given Two Years In Assault Case

BRECKENRIDGE, Oct. 17.—The jury in the case of Cleve Barnes, Ranger, tried on the 90th district court on a charge of assault with intent to kill brought in a verdict of guilty and assessed his punishment at two years in the penitentiary.

Barnes was convicted here in the last term of criminal court on a charge of arson and was given four years in that case. The second trial occupied two days before Judge Carl Hamlin as the first case in the settings of this criminal week.

The conviction was in connection with the burning of a house near Lacasa in which peace officers at the scene of the fire engaged in a battle with Barnes and L. S. Lemley in which twenty shots, or more, were fired. Testimony in the case of Barnes showed that he fired one shot and that afterwards his gun was found to be jammed.

Notice of appeal has been given by the defendant in the first case. Lemley was wounded in the fight and his case was set for Monday but was passed because of the Barnes trial being in progress.

First Complaint Against Stock on Highway Is Filed

First complaint against an Eastland county cattle owner allowing stock to roam on, or to cross, a cardinal highway was believed to have been filed Friday in Justice of Peace Milton Newman's court at Eastland.

M. Seabourne, constable, filed a complaint against D. W. Williamson for "permitting cattle to run at large on highway."

Seabourne stated the cattle were on the Cisco highway west of Eastland.

Justice of Peace Newman said the case would be treated as a misdemeanor.

Senate bill No. 143, passed by the legislature this year, prohibited stock being allowed to roam on, or to cross, a cardinal highway, providing a penalty not to exceed \$200.

Brother of Former Ranger Woman Dies

Ill for about six weeks, Col. Morris Bushnell Gifford, brother of Mrs. William Clegg, formerly of Ranger, died in a Chicago hospital Saturday, according to word received here.

Colonel Gifford was a member of the Louisville and the Kentucky State Bar Associations, and practiced law in Louisville.

He is survived by his widow, Mrs. Marguerite Gifford, and his sister, Mrs. William Clegg. Funeral services were conducted from the family residence.

Twelve from County Enroll at T.S.C.W.

DENTON, Oct. 12.—Twelve Eastland County girls have enrolled in Texas State College for Women (CIA) for the fall semester of the 1935-36 session. Five of these girls, including Misses Jamesina Chance, Carolyn Cox, Joe Ults, Virginia Neil Little and Anna Lou Estes, are from Eastland.

Miss La Rue Usery is from Carbon; Misses Faye Clark and Catherine Collins, Cisco; Misses Mary Alice Youker, Mary Jane Dreinhofer and Myrtle Lucille Mills, Ranger.

Registration of over 2,200 students ranked the institution as the largest women's college in the world. Two hundred and four Texas counties are represented, 18 states and three foreign countries.

No Trace Found of "Samaritan" Motorist Robbers

No trace of two men who, posing as good samaritans of the road, robbed two motorists of \$35 while fixing a flat on the Carbon highway Sunday morning, had not found Tuesday.

The robbery was reported to officers as occurring three miles south of Carbon.

"Are you having some trouble?" was quoted as the statement of one of the robbers. A gun was shown and the money was taken from one of the motorists, officers stated.

The car the robbers were driving was reported as a 1934 Chevrolet sedan.

75 Days, \$75 Fine Given By a Jury

Pat Paterson of Cisco was found guilty of driving while intoxicated and his punishment set at a 75 fine and 75 days in jail by 87th district court jury Monday.

Jurors receiving the case Monday morning, and reporting at 8:30 p. m. were F. B. Altman, E. H. Jones, S. P. Boon, G. L. Bailey, W. A. Elliott, Frank Lovett, Johnnie Cox, Luther Stafford, G. F. Bennett, F. C. Williamson, W. M. Bagley and G. S. Cleveland.

Suspended Term Is Given Mexican

Roberto Gallardo of Ranger was under a two year suspended sentence Thursday, following his conviction on a charge of robbery in 88th district court.

Gallardo was charged with theft of a watch from Julio Garcia in Ranger Aug. 20.

66 NOMINATED TO THE HALL OF FAME; TEN ARE INVENTORS

By United Press
NEW YORK, Oct. 15.—The popular belief that American inventors of past generations always died poor is only half true, according to a study of those nominated for the 1935 election to the Hall of Fame of New York University.

Ballots will be counted and results announced in November.

Ten inventors are among the 66 famous Americans on this year's ballot. Five were well supported by their brain children in their final years. They are John Ericsson, Dr. Richard J. Gatling, Robert and Cyrus H. McCormick and Louis E. Waterman. The other

five, whose names are not so familiar today, were Walter Hunt, Charles Edgar Fritts, John Fitch, James Rumsey and Charles Goodyear.

If necessity was the mother of invention of the first practical fountain pen, then the life insurance business, through a high pressure salesman named Lewis E. Waterman, was its father.

In the early 1880's Waterman was selling life insurance in New York. Solicitors were plentiful and prospects were few, and young Waterman believed in selling quickly. Since applications had to be signed in ink he carried with

him an ordinary dip pen and a bottle of ink.

This plan worked smoothly for some time but there was constant danger of ink ruining his clothes or important papers. He therefore decided to try out a new but unreliable fountain pen, which had appeared on the market. The result was that it didn't work.

Thoroughly disgusted, Waterman set about to devise one that could be depended upon at all times. He succeeded. The patent was granted in 1884.

The financial success achieved by Waterman was not shared by

Goodyear. An accident finally led to his discovery of a process of vulcanizing rubber. Goodyear, after further trials and improvements obtained a patent, but he never realized enough on the invention to pay his debts. His liabilities amounted to \$200,000 at the time of his death.

Gatling, who invented the machine gun, worked 40 years improving his brain child. His idea, according to an early biography, was to the effect that if one man in war could do the work of a hundred, the necessity for larger armies no longer would exist.

Robert and Cyrus McCormick,

father and son, worked together to produce the power reaper, the principles of which are unchanged even in the modern binder.

John Ericsson, best known for his "cheese box on a raft," the iron-clad monitor of Civil War fame, was a Swede who was naturalized in 1848. He was the first to place the marine engine below the water line.

Fitch and Rumsey were rivals in developing the steamboat. Under rules of the election it is possible for both claimants to an invention to be named to the Hall of Fame.

Hunt was a master of diversification and his patents covered the

Oil Belt Shoot Scores Are Listed

Scores at the Oil Belt Gun Club's shoot held Sunday were announced Tuesday as follows:

RESTRICTS SALOONS
VERA CRUZ.—Sale of strong drink in bar-rooms of the port of Vera Cruz on Sundays and holidays has been prohibited by authorities. Beer is the strongest beverage which legally may be bought across the counters of the "Centinos" on such days.

WTCC Asks Secretary Wallace To Annual Bankhead Allotments In Draught Counties, Head Relates

BY RAY H. NICKOLS
President, West Texas Chamber of Commerce, in West Texas Today.

Seeks Cotton Farmer's Aid

Ray H. Nichols, president of the West Texas Chamber of Commerce, asks for his organization that Bankhead allotments in some counties be annulled.

Agriculture, and we hope we will get relief for our cotton farmers. The WTCC, in a letter signed by its president, is asking Secre-

tary Wallace to consider our situation and help us solve our fluctuating crop problem by annulling for the year 1935-1936 the Bankhead cotton allotments on West Texas counties in which there have been recurrent droughts, and by allowing the marketing of cotton produced in these counties without imposition of a tax.

The letter to the Secretary went forward on Friday, Sept. 27. Copies have been mailed to our affiliates—local directors and secretaries of local chambers of commerce—with the request and in the earnest hope that they will support us by writing similar letters to the secretary. We ask business men throughout the territory to join the West Texas Chamber of Commerce in this laudable and necessary undertaking to bring relief to our cotton producers and place them somewhere near a parity with cotton producers of other sections of the American belt. Experience has demonstrated rather tragically that the Bankhead bill's allotment feature is not only not applicable in West Texas, but is increasing rather than relieving the situation in this predominantly cotton-producing section.

Letter

Here is the letter to Secretary Wallace, and if you agree with its argument you are urged to ask to join us in this campaign to help our cotton growers:

Stamford, Texas,
Sept. 27, 1935.
Hon. Henry Wallace,
Secretary of Agriculture,

Washington, D. C.
Dear Sir:
We respectfully request herewith that the Bankhead cotton allotments on West Texas counties, in which there have been recurrent droughts, be annulled for the 1935-1936 year and that the cotton produced in these counties be marketed without imposition of a tax.

Although we approve and applaud the efforts of the government in granting to cotton farmers subsidies and protection commensurate with subsidies and protection granted industry, we, nevertheless, assert that the Bankhead bill, as far as West Texas is concerned, prohibits the producer from stabilizing his welfare, as is the declared policy of the Act. This is due to the fact that in West Texas there are recurrent droughts and that the producer of cotton plans his economic welfare on basis of selling all of his cotton in good years in order that he may have a surplus to carry him through the draught years.

Examination of the figures will show that West Texas has had seven years from 1917 to 1923 inclusive. These draught years have been 1917, 1918, 1921, 1922, 1929, 1930 and 1934. During these drought years, many counties have produced as little as 10 per cent of the present Bankhead cotton allotment of county. Examination of seven of the leading cotton counties of West Texas shows that Jones, Haskell, Taylor, Wilbarger, Hall, Lubbock and Runnels counties had seven years during the last 17 years in which much less cotton was produced, due to the draught, than the present Bankhead allotment. In fact, during the draught year of 1934, West Texas counties, having a Bankhead allotment of 1,000,000 bales, produced only 538,000 bales. In other words, West Texas produced in 1934 only 53 per cent of its Bankhead allotment, while the rest of the state produced 85 per cent of its allotment and presumably the old South produced in excess of the allotment.

The government, of course, laudably undertook pooling of excess cotton certificates and the selling of same for benefit of those having short production. The farmers in West Texas in 1934 received on an average from \$12 to \$15 per bale on their pooled excess certificates while farmers elsewhere got the benefit of selling their full allotment and perhaps \$25 per bale on their excess production.

The farmer of West Texas producing only one-half of his allotment and securing only one-half as much bale as those selling excess cotton, therefore, suffered a 50 per cent penalty. This procedure fell far short of stabilizing the difference between a drought and a good year in West Texas and left the cotton farmer in West Texas confronted with the necessity of extensively borrowing from federal and private agencies in order to stay on his farm and to have an opportunity to make a 1935 crop.

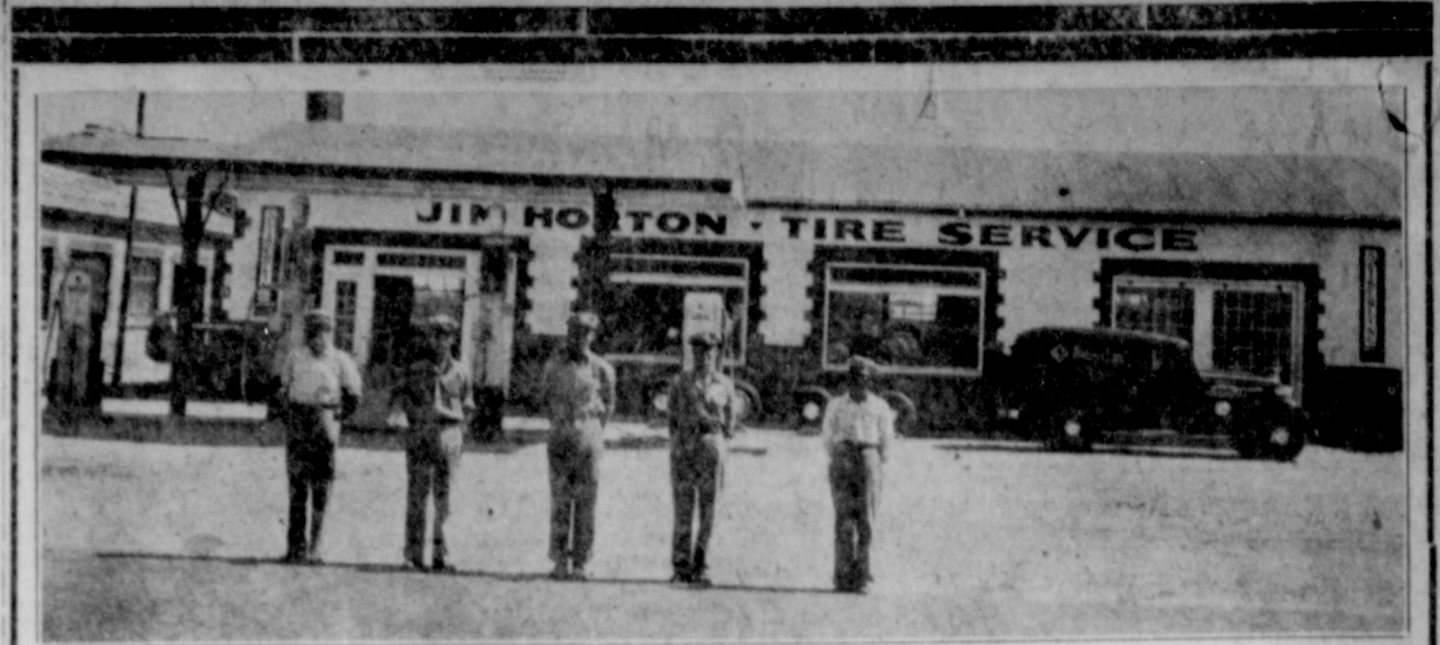

The Loan Bill

It is estimated that cotton producers in West Texas this year have borrowed close to ten million dollars from local banks in order to carry them over the drought year of 1934 and to make this year's crop. In addition, our cotton producers borrowed extensively from the Federal Seed and Feed Loan department of the agricultural department and other federal loan agencies. It is also understood that these farmers have secured credit from agricultural machine houses on this year's crop to the extent of around 12 million dollars. This condition in West Texas is normal as far as every drought year is concerned and West Texas has experienced during the seven drought years of the issuance of extensive credit to the cotton producer, which funds are paid back during the good years.

This year West Texas is having an excellent cotton production year. It is estimated that West Texas this year will produce from 300,000 to 400,000 bales of cotton more than the Bankhead allotment. Removal of the cotton tax will benefit the farmers of West Texas perhaps to the extent of \$10,000,000. This \$10,000,000 is needed by the cotton farmer of West Texas in order that he may pay his debts, establish his credit and create his normal surplus in order that he may prepare for another draught year which is recurrent in West Texas. This benefit will serve also to overcome the shortage suffered by the West Texas farmer last year. Without such a benefit the cotton producer of West Texas cannot be rehabilitated, will not be self-sustaining and will continue to be a government problem during the draught years.

We see no dire effects and consequences as far as the national set-up is concerned and we do not believe that the granting of this request will seriously affect the national picture. At present the government's estimate on the United States cotton production exceeds the Bankhead allotment only about 700,000 bales and in all probability when the ginning is complete the production and the allotment will approximately equate.

For reasons such as the above, we feel that the Bankhead bill is not applicable in West Texas. The bill attempts to "stabilize" by pro-

Beware Coughs from common colds That Hang On

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with anything less than Creomulsion, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membranes as the germ-laden phlegm is loosened and expelled. Even if other remedies have failed, don't be discouraged, your druggist is authorized to guarantee Creomulsion and to refund your money if you are not satisfied with results from the very first bottle. Get Creomulsion right now. (Adv.)

Funds for WPA Projects Okehed

Additional federal fund allotments for projects in this section were announced in a letter received from Congressman Thomas L. Blanton Tuesday.

Although the President has approved allotment of the federal funds, final approval of the project rests with H. P. Drought at San Antonio, state works progress administration head.

- Projects for which federal allotments have been approved were listed as follows:
- Ablene—\$12,393 to improve streets; \$14,584 to improve dam.
- Breckenridge—\$5,124 to improve streets; \$7,838 to construct park.
- Sweetwater—\$4,378 to construct road.
- Clyde—\$1,952 for community center program.
- Cross Plains—\$7,461 to improve highway.
- Oplis—\$9,992 to improve highway.

Eastland—\$8,740 for park improvement; \$10,658 to improve road.

Erath County—\$1,200 for county road improvement.

Alexander—\$3,344 to repair school building.

Dublin—\$8,753 to improve park.

Father of Ranger Man Passes Away

Funeral services for W. M. White, who died at the home of his son, 303 Rupert Street, Ranger, Wednesday morning at 1:45, were to be conducted at the Lowell cemetery Thursday afternoon at 2:30, with Rev. Jim Bays of Lingleville, conducting the services.

The decedent had made his home with his son, E. S. White, for the past three years. He is survived by seven children and one brother.

Breckenridge Boy Injured In Wreck

Roy Andrews, son of Mr. and Mrs. W. R. Andrews, Breckenridge, was seriously injured about 2:30 p. m. Tuesday when he was returning to Gorman, where he has been employed. The steering gear on his car locked, it was said, causing the car to hit a concrete culvert, turn around and crash into a ditch on the side of the road two or three miles north of Gorman.

His injuries included a fractured ankle, dislocated hip, broken leg between the knee and hip, pelvis injury and other cuts and bruises.

"Wasn't I good and glad to discover it!"
MRS. K. J. TOBIN, OF BEVERLY HILLS, ILL., WELCOMES
Calumet Baking Powder...
in a big, new 10¢ can!

"WHAT'S THE SENSE in taking chances with second-bests when you can get a good, big can of Calumet for a dime?" asks Mrs. Tobin.

"I've never had a baking failure with Calumet," Mrs. Tobin said. And judging by the expectant faces of Richard and Patricia, Mrs. Tobin is not the only member of her family who knows how delicious Calumet cakes always are!

A SIMPLE TWIST... and the Easy-Off Top lifts off. No delay, no spilling, no broken finger-nails!

WHY DOES CALUMET give such astonishing "baking back"? Why is Calumet different from other baking powders? Because Calumet combines two distinct leavening actions. A quick one for the rising level. A slower one for the oven... and Calumet's double-action is so perfectly balanced and controlled that it produces perfect leavening—every time.

All Calumet prices are lower! Calumet is now selling at the lowest prices in history... the regular price of the Full-Pound Can is now only 25¢! And look for the new, big 10¢ can—a lot of good baking for a dime, with Calumet, the Double-Acting Baking Powder. A product of General Foods.

Leaf tobacco being sold to highest bidder

United States Treasury Building

From 1900 up to 1934 the leaf tobacco used for cigarettes increased from
13,084,037 lbs. to
326,093,357 lbs.;
an increase of 2392%

It takes mild ripe tobacco to make a good cigarette.

During the year ending June 30, 1900, the Government collected from cigarette taxes \$3,969,191

For the year ending June 30, 1934, the same taxes were \$350,299,442
an increase of 8725%
—a lot of money.

Cigarettes give a lot of pleasure to a lot of people.

More cigarettes are smoked today because more people know about them—they are better advertised. But the main reason for the increase is that they are made better—made of better tobaccos; then again the tobaccos are blended—a blend of Domestic and Turkish tobaccos. Chesterfield is made of mild, ripe tobaccos. Everything that science knows about is used in making it a milder and better-tasting cigarette. We believe you will enjoy them.

Cleopatra Had Nothing on Her

Nearly 2000 years ago Queen Cleopatra of Egypt won the reputation as the most beautiful woman in the world. Today one of her countrywomen holds the title again—Miss Charlotte Wassas, 18, entered as "Miss Egypt" and selected for the title of "Miss Universe" in the beauty contest conducted at Brussels, Belgium.

Hooks, Frances Harreff, Eleventh Grade—Mary Belle Anderson. Tuesday afternoon Mrs. Audrey Poyner and Mrs. Murray Poyner entertained with an all-day quilting at the home of the latter. Two quilts were completed, and Mrs. Dee Anderson was presented with a large cake plate for quilting the most blocks. Mrs. Charley Sims came next, and was presented with a beautiful pair of silk hose. At 12 o'clock, dinner was enjoyed by the following: Mrs. Dee Anderson, Mrs. Tarrant, Mrs. Charley Sims, Mrs. Whitney, Mrs. Dawson, Mrs. Jane, and the hostesses, Mrs. Audrey Poyner and Mrs. Murray Poyner.

CHEANEY

Many farmers of this community were in the Cross Roads community Monday threshing peanuts.

The Eastland County Singing Convention was held this last Saturday night and Sunday. Everyone enjoyed the music and songs.

Mr. and Mrs. L. Browning visited in the home of Mr. and Mrs. R. L. Yardell Sunday afternoon. R. C. Weeks took Sunday dinner with Mrs. Maud Dean.

We are sorry to report that Uncle Sam Thomas was confined to his bed Sunday while his children and friends entertained him with a surprise birthday dinner. The children present were Arthur Thomas and daughter, Ima of Breckenridge; Berry Thomas and family of Cheaney; Leroy Thomas, his grandson, and family.

Mrs. Mulya Austin and children Mr. S. A. Thomas and grand-daughter, and a host of friends. Everyone enjoyed the day.

Mr. and Mrs. E. U. Elrod's children of Breckenridge visited them Sunday and attended the singing convention.

Garlen Elrod returned home Sunday after spending a week in Breckenridge.

Ross and Rex Elrod are picking cotton for Lynn Gentry. Leonard Ray and Eugene Browning visited A. D. Kitchen, Sunday.

Mr. and Mrs. R. M. Mason visited in the home of R. L. Yardell, Sunday.

ALAMEDA

We are having some more rain and the farmers in this community were hoping it wouldn't rain until they got their crops gathered.

We will have an all day singing at Alameda schoolhouse Sunday and we are expecting a large crowd. This will be the second all-day singing we have had this year.

Mr. and Mrs. J. C. Lockhart and family and Mr. and Mrs. Ellington and Leavelle and husband from Sweetwater visited his mother, Mrs. T. W. Lockhart and Mrs. Pearl Price and Mr. and Mrs. Harry Deal Sunday.

Mrs. Lillie Pilgrim and Mrs. Lois Melton and Miss Minnie Walton were in Ranger Wednesday.

Travis Cozart visited his brother, Aaron Cozart, Tuesday night. Mrs. J. T. Walton and Mrs. William Melton and Mrs. Richard Tucker visited Mrs. Buelah Melton Tuesday.

Mr. and Mrs. A. H. Boney and Mr. and Mrs. Tucker Goforth visited in the Harry Deal home Sunday.

Mrs. J. H. Wheat visited her sister, Mrs. Bessie Kirby at Olden Sunday.

Mrs. Aaron Cozart visited her mother, Mrs. J. M. Grice Sunday. Harry Deal is building a barn.

Mr. and Mrs. Joe Calvert visited Mr. and Mrs. J. T. Walton Sunday and all their children and grandchildren visited them.

A large crowd attended the convention Saturday night and Sunday and lots of good singing was enjoyed.

Mr. and Mrs. Boyd Wisdom and family and Mr. and Mrs. Jack Smyth of Abilene visited with Mr. and Mrs. Ernest Calvert Sunday and attended singing.

Mrs. Tarrent of Colony visited her daughter, Mrs. Cooksey, Sunday.

Mrs. Tom Scott of Ranger, Mrs. Ed Dean and Mrs. Ernest Calvert

visited Mrs. Joe Jones Thursday evening.

Miss S. V. Brown, music teacher in Alameda school, is doing nicely with her class and would be glad to have more pupils.

Mrs. Shelly Tucker visited Mrs. Olive Pilgrim Monday.

Mrs. Mattie Walton and daughter, Minnie, were in Ranger Friday.

Luther Dodd visited Harry Deal Sunday.

Mrs. Pearl Price and Mrs. J. M. Grice went to singing at Alameda Saturday night.

After their initial comeback performance, Cherry sisters agree audiences are nicer now than they used to be. And then, too, vegetables are higher.

STRAWN

Mr. and Mrs. Bill Craddock of McCarney are visiting Mr. and Mrs. H. J. Craddock.

Mrs. W. S. Pedigo returned Tuesday from Dallas where she has been visiting the past week.

Miss Leota Segars spent the week-end with her parents, Mr. and Mrs. R. M. Segars.

Mr. and Mrs. C. D. Farley have as their guests this week Mr. and Mrs. Watt Taylor of Houston, Wilbur and Frank Davis returned to Phoenix, Ariz., Tuesday

after a visit with their mother, Mrs. Hattie Davis.

Mr. and Mrs. Ode Goble have returned to their home in Texon after visiting with relatives and friends here. Mrs. C. R. Baxendale returned with them for a visit.

Mr. and Mrs. Oliver Thomas of Cisco spent Sunday with Mrs. J. T. Disharoon.

Peter Bennett, who was called here on account of the death of his mother, Mrs. Maude Stewart, has returned to Los Angeles, where he is employed.

Mrs. Guy Ott and daughters, Maxine and Maurine, Mrs. Jessie

Reports Progress Of Strike Parley

Hopeful for a quick settlement of the soft coal strike, Edward McGrady, assistant secretary of Labor and President Roosevelt's personal representative in labor disputes, is shown as he left the White House after reporting on progress of negotiations conducted at Washington, D. C.

Ivy and Mrs. J. H. Landers of Ranger visited Mrs. C. Mahan Sunday.

Eddie Custer has returned to Brady after visiting here a few days.

Miss Sallie Aguirre was home from T. W. C. for the week-end.

Miss Mona Andrews of Weatherford spent the week-end with her parents, Mr. and Mrs. George Andrews. She had as her guest Miss Sylvia Gaskin of Bryson.

Miss Kathleen Tucker of Sweetwater and Charles Russell Tucker of Cisco were here Sunday to attend the funeral of their aunt, Mrs. Mackie Bruce, who died in Odessa Sunday.

Miss Moreen Tucker left Monday for Fort Worth, where she has a position.

Mrs. Jodie Ottinger of Mingus was a Strawn visitor Saturday.

COLONY

Mr. and Mrs. G. T. Smith and son, Harold, visited relatives in Carbon Sunday.

Otis Anderson, son of Mr. and Mrs. Dee Anderson, was a visitor here this week-end.

The Colony Broncos were defeated Friday afternoon in a game with Moran by a score of 30 to 6. The boys really played an excellent game, especially during the last half, at which time Stuart and O'Shields were the outstanding players.

The Sunday evening singing was well attended this week. It is to be remembered that Mr. Danley is now president. All are invited to attend. Mr. and Mrs. Fisher of Ranger were visitors Sunday. Mr. Fisher favored the group with a solo, "Lonely."

Those on the honor roll for the first six weeks period are: First Grade—Kenneth Bowlin, Joe Don Ford. Second Grade—Frankie Dean Ford. Third Grade—Bonnie Jean Bowlin, Jimmie O'Shields. Fourth Grade—Marie Green, Roberta Landtroop, Lennie Mayhall, G. W. Moore. Fifth Grade—Georgia Mae Baggett. Seventh Grade—Edd Orph Goodison, Pearl Ridling. Ninth Grade—Doris

Baptist Meeting Gains Momentum

Sunday schools, Christian education, and Mexican missions were discussed as the third group of three distinct phases of Baptist state mission program, at the First Baptist Church last night.

Good Program Is Planned For Open House By Legion

"Turning Back the Pages of History" will be the subject of several of the veterans in reminiscences of some of the hectic days of 1917-18.

Here's One Woman Who Knew How To Reduce

Costs Next To Nothing To Lose 35 Pounds
If you have a will of your own and don't listen to gossipers who tell you there's no safe way to reduce—you can not only get rid of surplus fat but actually enjoy better health than you have for years.

Cooper School Melody Maids, featuring the Misses Alice Henry, Mildred Denton, Margaret Adkins and Adele Brimberry, A solo, "The Rose of No-Man's Land," will be rendered by little Miss Margaret Adkins, after which the audience will join in the refrain.

The Legion quartet is expected to be on hand for the occasion. Several "dark horse" numbers are expected to be presented by Felton Brashier, A. N. Larson and J. E. Meroney.

Austrian Cabinet Meets As Guards Begin a March

VIENNA, Oct. 17.—The cabinet met an urgent call today when rumors were circulated the lower Austrian home guard was marching against Vienna.

Mexico Reports Bandit Band Is Being Pursued

MEXICO CITY, Oct. 17.—General Luis Bohadilla, chief clerk of the war department said today there was no military trouble in the state of Sonora, where an uprising had been reported.

He's Still Afraid

Joe: "When I was a boy," said the Austin man, "I used to be scared when I came up to watch the legislature."

"What do you think of them now?" asked his companion. "Well, since I've grown up and know what they're doing, I'm more afraid than ever."

Former Resident Of Strawn Buried

Mrs. Melceen Edith Brown Bruce, 34, of Pecos, who died at Pecos Sunday, Oct. 13, was buried in Mt. Marion Cemetery, Strawn, after funeral services conducted by Rev. W. E. Anderson, pastor of the First Methodist Church of Strawn, Wednesday morning at 10 o'clock.

Three Of Ten Convicted In Riot Murder

AZTEC, N. M., Oct. 17.—Excitement ran high in this little mountain town today after a jury convicted three of 10 for the slaying of Sheriff M. R. Carmichael.

who was killed during a riot at Gallup, N. M., last April 14. The three were convicted of second degree murder. The other seven were acquitted but were held in jail pending a decision by the district attorney whether he would file charges against them for participating in the riot. Special officers were patrolling the streets today.

FISH EMIT DRUM NOISE
By United Press
WINNIPEG, Man.—A fish which makes a noise like a drum when it feeds was caught by W. G. Kreeby in Muckles creek, near Clandeboye. It had been identified as a "fresh water drum," or an aplodinotus grunniens.

JEWELRY and MUSIC

BEERY, POWELL, KEELER COME TO ARCADIA

"O'Shaughnessy's Boy" With Beery and Cooper "Shipmates Forever" Starring Dick Powell and Ruby Keeler Headlights of Week At Local Theatre

Two really outstanding pictures come to the screen of the local Arcadia Theatre this week when "O'Shaughnessy's Boy," starring that lovable team of Wallace Beery and Jackie Cooper, and "Shipmates Forever," with perhaps the screen's most popular sweethearts, Dick Powell and Ruby Keeler, come to town. "O'Shaughnessy's Boy" comes for a two-day run opening Saturday and moves out Monday to make room for the musical "Shipmates Forever." Beery and Cooper will be remembered by Ranger theatregoers for their unforgettable performance in "The Champ" and "Treasure Island." Dick Powell and Ruby Keeler became famous overnight after their first co-starring film, "42nd Street." They also turned in stellar work in "Flirtation Walk."

Spanky McFarland Too

A million youngsters would gladly trade places with Spanky McFarland. For Spanky attained the ambition of every boy—he joined the circus. It was a wide-eyed enthralled Spanky who appeared before the mammoth Big Top of the Metro-Goldwyn-Mayer lot as "O'Shaughnessy's Boy" went into production. Nothing was lacking. There were elephants, tigers, camels, peanuts, pink lemonade and popcorn. Spanky plays the part of "Stubby" or O'Shaughnessy's boy as a child.

Alexander Seen in Variety of Roles

There's plenty of variety in the movie-career of Ross Alexander, handsome young featured player in the Cosmopolitan film, "Shipmates Forever." Ross plays "Sparks," a radio fanatic in the production.

Recently, in "A Midsummer Night's Dream," he was the classical Demetrius. In "We're in the Money" he was a romantic young modern. In "Captain Blood" he'll be a retainer of that swash-buckler type.

FOUR KILLED OVER STATE IN CAR MISHAPS

Four persons were killed and numbers injured over the weekend in Texas automobile accidents.

W. F. Cobias, 52, of Houston, was killed Sunday when his car struck a utility pole.

Frank Burton, 77, sign painter, died Sunday in Fort Worth of injuries suffered Saturday night when struck by a car.

Harr Rogers, 67, of Denver, Colo., was injured fatally when a car driven by his brother, Foster, overturned near Dallas Sunday.

Mrs. Lena Johnson, 48, Dallas, died Monday from injuries suffered when she was crushed against a parked truck while on the running board of a car.

Violence Flares In Dock Strike

HOUSTON, Oct. 16.—Strike violence flared on the Houston waterfront today as four ships were loading out by independent longshoremen. The vessels were expected to sail in a few hours.

Two negroes were beaten and two other men, one white, who told police they were member of the strikers' association, were arrested.

Union picket lines were reported more active today but no disturbance was reported.

Wednesday and Thursday—"Dr. Socrates," a new thrilling drama, starring Paul Muni.

In the Columbia

Saturday—"Silent Valley," a western melodrama starring Tom Tyler.

Relief Rolls For State Show Slump As Work Starts

SAN ANTONIO.—Relief rolls in Texas slumped again this week as Works Progress Administration projects absorbed approximately 2,700 more former relief clients on work projects scattered through the 30 WPA districts.

With 52 projects under way in various parts of the state, WPA has removed 6,838 Texans from the dole, Dr. E. E. Hale, state director of labor management, announced today.

Works authorizations for 108 additional projects have been released by state officials and an estimated 6,000 more persons now subsisting on the dole are expected to be added to the active working list of WPA within a few days, Hale asserted. Practically all of the authorizations are accompanied by advice to start work at once, state WPA officials said.

In addition to the more than 6,000 former relief clients who are now engaged in work on WPA projects, there are 120 non-relief employees working in various capacities on WPA jobs.

WPA also has been instrumental in placing 7,310 former relief clients to work on non-WPA jobs, Hale's records reveal. Non-WPA jobs have also been provided for 1,251 non-relief employees, according to Hale. Included among those who have used men supplied through WPA facilities are such organizations as: CCC camps, PWA, bureau of internal revenue, United States treasury department, alcohol tax unit, rural resettlement administration, FERA, bureau of public roads, department of agriculture, veterans' camps, soil conservation, U. S. department of labor, and various army agencies.

Allotments aggregating \$3,868,650 for work to be started in Texas have been received from Washington and, in each instance, federal allotments have been speedily followed by work authorizations to the various Texas WPA districts, state officials declared.

District officials have declared themselves ready to handle projects as rapidly as federal allot-

SCANT ATTIRE IS BASIS OF AN AMENDMENT

AUSTIN, Oct. 14.—A charge that women "without enough clothes to wad a shotgun" are being employed at places selling liquor enlivened today's session of the legislature.

Senator Clay Cotton, Palestine, made the charge. He said he had not seen these scantily clad women but based his statement on information of one who had investigated.

He sought and secured an amendment to the house liquor license bill prohibiting employment of women at any place selling liquor other than a cafe or drug store. The wording excludes all who are not 21 years of age. Twenty-one senators voted for the amendment, three against.

Senator Will Martin of Hillsboro made the only opposition. "Times have changed," he said. "Twenty-one senators voted 'or the n't let women run elevators or vote. If we are going to sell liquor I would say let women sell it as well as men. Some people believe the main part of drinking is done by women."

English Miners In Fight Below Ground

LONDON, Oct. 16.—A free-for-all fist fight between union and non-union miners broke out today a mile below the surface in a mine.

Forty unionists were injured. When brought to the surface hundreds gathered at the shaft entrance and another battle seemed certain.

Reports received, Deputy Administrator Robert J. Smith reported, and all work authorizations which have been sent to districts in the state have resulted in rapid starting of projects.

District Division For City May Be Quite a Question

DALHART, Tex.—A legal decision on where a city's residence section stops and its business district begins may mean \$2,000 and a business for Frank P. Kilburn of Dalhart.

District Judge Reese Tatum has granted a temporary injunction against establishment of his funeral parlors at the corner of Sixth and Denrock on the grounds that they are a nuisance in a residence section. Only two funeral home injunction suits have been heard in Texas, both by Judge Tatum.

There are three plaintiffs in the Kilburn case. One has a house a few feet from the parlors on the south, while the second has a house next directly across the street north from the parlors. Kilburn maintains he is in a business district because a filling station is situated diagonally across the intersection; a Baptist church is directly across the street west, three filling stations and a big grocery store are a block south and the main business district starts less than a

block north of him.

Kilburn has posted a \$2,000 indemnifying bond pending outcome of his appeal to the Court of Civil Appeals at Amarillo.

The first funeral home injunction case in Texas was in Amarillo in 1926. J. H. Bishop and wife complained that Blackburn Bros. had converted a former dwelling house next door into funeral parlors, making the Bishop property less attractive as a home, reducing its value and laying the Bishop family liable to disturbing odors, disease and the "atmosphere of death" so that mental well-being was impaired and physical health endangered. Kilburn established his parlors by converting a dwelling house.

Judge Tatum was called to hear that case because Bishop was a brother of Henry S. Bishop, then district judge in Amarillo. The appeals court upheld Judge Tatum and the State Supreme Court dismissed the action, holding it had no jurisdiction in a temporary injunction.

Prisoner Is Shot Attempting Escape

MENARD, Ill., Oct. 12.—Rasil Panghart, a member of the notorious Touhy kidnap gang, was wounded and recaptured today when he participated in a daring break from the state prison.

Three others joined him in the attempt to crash the gate with an automobile. Of the four, Panghart and two others were recaptured and a fourth was believed surrounded by prison guards tonight.

100-Year Old Sermon Will Be Delivered

SANDWICH, N. H.—Louise White has a church sermon preached in the Methodist church here, Aug. 24, 1836, by Dr. Charles White.

Minister of the church at the time, the Rev. White requested that the sermon on temperance be read 100 years later. It will be read on Old Home Sunday next summer.

Britain May Use The French Harbors

PARIS, Oct. 16.—Great Britain will be satisfied with the use of French port facilities in event of conflict with Italy in the Mediterranean and will waive any promise of active French military or navy support, it was disclosed today. The British are pressing for definite assurances from Premier Laval in response to their renewed question on what France's attitude will be regarding use by the British of French harbors.

BOSTON.—James Hannon, 26, of Brockton, and William Powers, 28, of Valley Falls, R. I., were among the 209 persons who successfully passed the Massachusetts bar examination. Both were blind.

Two Fast And Rough Bouts On Elks Fight Card

Next Monday night, Oct. 21, at the Elks arena there will be two of the roughest and hardest fought wrestling bouts ever held in Ranger or anywhere else.

The main event will bring together two of the roughest boys who will resort to anything to win this match. Red Rodgers, well known to the wrestling fans, and when Red is in the roped ring you may expect anything to happen, and Tommy Kaiser, none other than Wild Cat Hood, also well known here. Hood has been winning many matches in Oklahoma and Missouri, and will give Red Rodgers all that he is looking for.

The semi-final is between two more rough artists. Blackie Blackburn, who is considered a leading contender for the middleweight crown will be here to take on the deaf and dumb wrestler, Dummy Nelson. Nelson has been going good and finishing off his men in a hurry. He doesn't know when to quit. The Elks' matchmaker is making every effort to get what the fans want, and if it is action, with plenty of exciting moments, you will get just what you are looking for in these two matches.

Centennial Director Formerly Assistant To Walter Cline

DALLAS, Tex.—Otto Herold, new chief executive of the Texas Centennial central exposition, formerly was assistant managing director under Walter D. Cline, who resigned recently.

The management committee, through W. A. Webb, its executive representative, explained that the position of managing director has been definitely set in stone. Through Herold, all department heads will receive their instructions.

The midjet village will cost about \$100,000 and will represent a city of 100 years from now. The contract specifies that at least fifty midjets will be present at the exposition at all times. This exhibit was shown at both A Century of Progress and the San Diego exposition.

Texas Freighter Is "Jonah" to One Seafaring Man

By ROY J. FORREST United Press Staff Correspondent HOUSTON.—Ever since Biblical times when Jonah had the misfortune to be swallowed by a big fish, sea faring men have called misfortunes at sea a "Jonah."

"Jonah's" are caused by numerous things. Sometimes they are the result of just plain hard luck. Sometimes a man on board carries a "curse" and is given the blame. Take the case of the good ship Dryden, an American freighter, as related by C. B. Parkhill, purser, who believes in "Jonahs" and who made two trips to the Orient with the vessel.

The Dryden began its first trip amidst a storm of bad luck. Parkhill blames a "Jonah." There was a storm, then an earthquake and finally engine trouble. "We were three days out of the Panama canal into the Pacific when a hurricane hit us," Parkhill said. "There was no warning. The hurricane must have developed near the ship. We were the first to discover it."

"The ship was battered for two days. The radio aerial was torn off early in the storm. I thought sure we were going down, but we didn't. We finally put in at San Pedro, Calif., for repairs."

After a long delay, the ship was repaired and again set out for Japan. But more bad luck. The storm had done more damage than the shipyard had suspected or found.

The Dryden was too far out to turn back, so Capt. F. Ustadi and the chief engineer ordered repairs made while the Dryden cruised. Then came more trouble, when, only two days out of Yokohama, the Dryden encountered a rolling sea.

"Suddenly, half a mile off our port bow," Parkhill said, "an island arose out of the sea. It was formed by the upheaval of an earthquake. That 'Jonah' failed to get us. We charted the position of the new island and sailed on."

After calling in various ports, the Dryden took on a full cargo of copra, dried coconut meat from which soap is made. Nearing Honolulu, the ship's engines broke down and the Dryden went into port for repairs. Twenty-seven days passed.

"From that cargo of copra," Parkhill said, "came millions of 'copra bugs.' These insects look like flying ants and sting just as bad."

"The bugs swarmed over Honolulu, Ann Harding, the movie actress, visiting the islands, complained and newspapers carried

SISTER MARY'S KITCHEN

BY MARY E. DAGUE

NEA Service Staff Writer

COOK? They'd get lots of fun out of preparing and serving simple meals even before they've reached their teens.

Sunday night supper is a fine occasion to start with. And here's a menu that's seasonal and appetizing and within a beginner's ability to prepare:

Spaghetti with mushrooms, pumpernickle, pineapple marshmallow charlotte, milk, tea.

Make the dessert Saturday morning and here is the recipe:

Pineapple Marshmallow Charlotte

One-half cup whipping cream, 1-2 cup cut marshmallows, 1-2 tablespoons granulated gelatin, 1-2 cup cold water, 1 cup crushed pineapple, 1-4 cup sugar, 1 tablespoon lemon juice, 1 dozen lady fingers.

Dip scissors in cold water when cutting marshmallows in small pieces. Whip cream until stiff. Use a rotary beater to whip the cream, which should be thoroughly chilled. Combine cream and prepared marshmallows. Soak gelatin in cold water for five minutes. Bring pineapple to the boiling point and add soaked gelatin. Remove at once from the fire and add sugar and lemon juice. Place the sauce pan containing this mixture in a larger pan of ice water and chill, stirring constantly. When it begins to thicken add the whipped cream and marshmallows, folding them into the gelatin mixture. Line paper cups with lady fingers which have been split, putting the split side in. Fill charlotte mixture lightly in the cups, cover with waxed paper and chill in the refrigerator until wanted to serve. The recipe makes four servings.

Spaghetti and Mushrooms

To make the spaghetti with mushrooms you will need one 8-ounce package of spaghetti, 2 tablespoons butter, 1 pound round steak ground, 1 medium sized onion, 1-2 pound mushrooms, 2 cups canned tomatoes, 1-4 teaspoon pepper, 1-2 teaspoons salt, 1-2 cup grated cheese.

Cook spaghetti in boiling salted water for twenty-five minutes, breaking it in pieces or cooking it whole as you prefer. Drain and put on a heat-proof platter. Pour over sauce, sprinkle with grated cheese and slide under the broiler long enough to melt the cheese.

To make the sauce: Melt butter, add onion cut in thin slices and cook slowly five minutes. Add chopped meat and cook twenty minutes, stirring to prevent sticking and burning. Add salt and pepper and tomatoes and cook fifteen minutes longer. Add 1-2 cup boiling water and mushrooms which have been cleaned and cut in thin slices. Cook twenty minutes longer, stirring occasionally.

Tomorrow's Menu

BREAKFAST: Grape, cereal, cream, baked omelet with tomatoes, crisp whole wheat toast, milk, coffee.

LUNCHEON: Cream of celery soup, croissants, head lettuce with French dressing, nut roll, sweet cider.

DINNER: Creamed salt fish with baked potatoes, buttered beets, fruit and nut salad, cheese cups, milk, coffee.

Canadian Wheat Rust Takes Toll

OTTAWA, Ont.—This year's epidemic of black stem rust, one of the worst ever experienced in Canada, will cost Western Canada farmers \$100,000,000, Dr. E. S. Archibald, director of experimental farms, estimates.

Dr. Archibald said that until a month ago 5,000,000,000 bushel crop of wheat, oats and barley was indicated. Now, because of rust, the estimate has dropped below the 400,000,000 bushel mark.

Dry Ice Causes Death of a Child

PORT ARTHUR, Tex.—A small piece of dry ice caused the death of Myrl Bradshaw, Jr., three. The child swallowed the condensed gas which has a temperature of 114 degrees below zero. The extreme cold caused congestion of the bronchial tubes.

ALBEMARLE, N. C.—When a farmer residing near here visited his chicken house and discovered someone had stolen 100 hens, he also found the thief had dropped a purse containing \$200.20.

Delphi Oracle Is Still Deep Riddle

DELPHI, Greece.—The riddle of the oracle here, which was known throughout the ancient world for its prophecies, remains unsolved, although excavations and research in the ancient city have gone on for more than 40 years.

According to the story of the origin of the oracle, its site was discovered by a goatherder, who found his herd crying and prancing wildly about a chasm from which issued a stream of intoxicating air. This cavern has disappeared in modern times, or else never existed.

Many archeologists today hold to the last theory, despite records left by the ancient geographer Strabo and the Greeks themselves. Some, on the other hand, believe it was filled in with debris after the temple connected with it was demolished, toward the end of the fourth century.

Another theory has it that the cavern was closed by an earthquake. Scores of travelers visiting Delphi to see the ruins continue to search for the chasm, basing their hopes on ancient writings about the procedures before the oracle gave its prophecies. According to these records, the priestess in charge did not prophesy until she had breathed the air of the chasm and become intoxicated by it. A priest then took down her words, later putting them into verse. Thus the message of the oracle was given out.

McCarthy pointed out the "deathless" advantages of the Panhandle and every man who joined the club pledged himself to be the last man to leave the Plains.

Old Loco's Last Man Club, it is called, the name coming from McCarthy's column name, Cactus, Sage and Loco. When rains last May showed that the three year drought was over membership was closed forever. Several hundred, most of them weather-beaten pioneers, had joined.

The first Last Man's Club was formed in Stillwater, Minn., by Civil War Veterans of the first Minnesota Volunteer Infantry, Captain Charles Lockwood, its last member for five years, succumbed Saturday at the age of 93.

Ten Commandments For Marriage Given

HOUSTON.—Tommy Burns, former world heavyweight boxing champion, has drawn up a list of "Ten Commandments" for matrimony. They are: Take your marriage as seriously as a champion takes his sport. No athlete makes a success without sacrificing good times, so-called. Neither does a matrimonial couple. Baseball, bridge-playing and marriage demand team work. The first few rounds frequently the easy in prize fighting and matrimony. It's staying power that counts. No champion ever got where he was without learning to "take it." Neither has a successful marriage. Break clean from the clinches and forget your grudges. Don't whine about your partner's shortcomings. Erase from your dictionary the word jealousy. Burn your candle at one end: marriage and championship demand physical fitness. Follow the trend of your courtship: keep your best front showing.

"King Constantine of Greece had 288 designs upon his body." A modern dictator would be interested in learning how he dealt with the traitors.

CHEVROLET SMALL FISH! The smaller a fish is, the more it strains the veracity of the fishermen who catch them. How's your carburetor functioning? We are equipped to go over it from intake to needle valve and give it a thorough overhauling. It will pay in increased gasoline mileage.

RANGER, TEXAS, FRIDAY, OCTOBER 18, 1935

NUMBER 20

HAUPTMANN GIVEN A 30 DAY REPRIEVE

TRENTON, N. J., Oct. 15.—The court of errors and appeals, highest court of the state, today granted Bruno Richard Hauptmann, condemned Lindbergh slayer, a 30-day stay to permit an appeal from his conviction to the U. S. supreme court.

The request of a stay was not opposed by Assistant States Attorney Joseph Lannigan, when it was presented by Egbert Rosenrants, one of Hauptmann's attorneys.

The court specified that if Hauptmann's counsel had not carried the case to the supreme court within 30 days it would be transferred back to Hunterdon county for fixing a new execution date.

In appealing to the state's high court, defense counsel alleged the defendant's rights under the 14th amendment had been violated in that he had been denied due process of law and full and proper protection of the court.

Head of Rugby Sees Crooning As Menace

LONDON.—A vigorous attack upon "crooners" has been launched by the Headmaster of Rugby, R. P. H. B. Lyon, who referred to "the rhymed doggerel which is chanted to the latest crooning melody."

"It is a queer world," he said, "when a sleek, silky-voiced lounge-lizard can perpetrate a few quatrains of noxious slush to the tawdry and temporary affections seeking satisfaction in June under the moon, or 'neath the summer sky of last July, and in December we shall remember, and be forthwith accepted by the toleration of the whole of a manly generation, while the great spirits of the entire world, building immortal verse out of their heart's stuff in poverty, in blindness, in despair, sing to

Girl Involved In Poison Case

Ruth Creighton (above), 15, became a central figure in investigation of the poison murder of Mrs. Ada Applegate of Baldwin, L. I., when her mother, Mrs. Mary Creighton admitted administering lethal poisons to the dead woman because she had "talked too much" about Ruth's relations with Mrs. Applegate's husband.

them in vain. "I am certain that much of the lasting distaste felt by the average adult for poetry is due to a forcing of the taste at the wrong time. In days of slipshod England and the spread of American slang and journalese, of rapid sensational slogans and screaming capital letters, there is no surer safeguard against the decay of taste than a mind well stored with beautiful utterance."

Boyce House Book Ready for Delivery

Post cards have been received here by purchasers of the book, "Were You In Ranger?", written by Boyce House, stating that copies of the book would be forwarded within the next two or three days.

The book covers many phases of the oil boom, with stories and incidents which should be of interest to everyone living in this part of the state. More than 200 copies of the book have already been sold in Eastland county.

Pastor Will Forgive Burglars Once More

QUANAH, Texas.—The Rev. Charles A. Chasteen, who offered to forgive and forget when burglars broke into his study in as many months, emptying the birthday offering container each time, is still willing to be generous if the thieves who took his key ring from his desk during a church service, will return the same.

The pastor of the First Christian church advertised to the burglars that he would read the Bible to them and pray for them if they would see him during the day. "That offer goes for the thieves, too," Rev. Mr. Chasteen said in announcing to his evening congregation that he intended running another ad, this one with a promise of a monetary reward and no questions asked.

Youth Is Subject Of Rotary Talk

W. T. Walton had charge of the Rotary Club program at noon Wednesday and presented Patrick Henry, secretary of the Y. M. C. A. movement in this district.

He spoke interestingly on the youth of today and their problems, touching on the National Youth Administration activities. C. E. May, Dr. P. M. Kaykendall and W. F. Creager were appointed on a committee to report next week on plans for a ladies night, to be held sometimes in the near future.

Visitors were B. A. Butler and J. A. Ponsler of Cisco.

Quarantine Should Not Be Necessary In Some Diseases

AUSTIN.—"Quarantine and isolation have long been practised to limit the spread of contagion. Theoretically, these measures should no longer be necessary for diphtheria and smallpox, two diseases which are absolutely preventable," said Dr. John W. Brown, State Health Officer. Practically, however, we still have smallpox with us and cases as well as deaths due to diphtheria, occur only too often. Control and preventative measures are being practiced against scarlet fever, measles, whooping cough. Nevertheless, until such measures find more universal application, isolation and quarantine must continue to be emphasized. These are, in a true sense, essential aids in the control of the disease.

The attitude of people toward observance of health regulations varies as greatly as does human nature itself. Most families, realizing the necessity for restrictive measures, cooperate readily. This attitude is exemplified by the mother who learned that her little girl had measles. She waited a while and then telephoned to the health office to ask that her home be placarded. Mothers in increasing numbers are asserting this sort of health consciousness.

There is, of course, the opposite attitude, that of evasion. Failure to report the presence of suspected communicable disease in the home is unfortunate. A chief purpose of isolation is to allow for the infected person to rid himself of the disease germ. In the case of scarlet fever, this period covers a number of weeks. If proper isolation is not observed and a child is allowed to return to school while still infectious, the danger to other susceptible children is obvious. To counteract such danger requires constant vigilance on the part of teacher, nurse, and physician or health officer.

Every College Is Benefiting By the Youth Movement

AUSTIN, Tex.—"Every college and university in the State of Texas is now benefiting from the student aid program of the National Youth Administration, with 5,035 young men and young women having been assigned part-time jobs at a total monthly expenditure of \$75,540," Lyndon B. Johnson, State Director, announced today.

Each job created and set up to receive funds pays the student an average of \$15 per month.

Final applications submitted from seven remaining educational institutions included Baylor University with an allotment of 233 jobs at an expenditure of \$3,845. Similarly, Texas Military college, Terrell, with 11 jobs approved, will receive \$165 monthly; Paul Quinn, Waco, 17, \$255; Texas College of Arts and Industries, Kingsville, 67, \$1,005; Westmoorland college, San Antonio, 33, \$495; Samuel Huston, Austin, 27, 405; Guadalupe college Seguin, 11, \$165.

"Of the 83 colleges and universities in Texas offered aid allocations, every institution has applied and been approved. A great aim of National Youth Administration in assisting students to attend college this year is achieved, for 5,035 students who otherwise could not have enrolled are now represented in every Texas educational institution, adding another year to their scholastic standing," Johnson said.

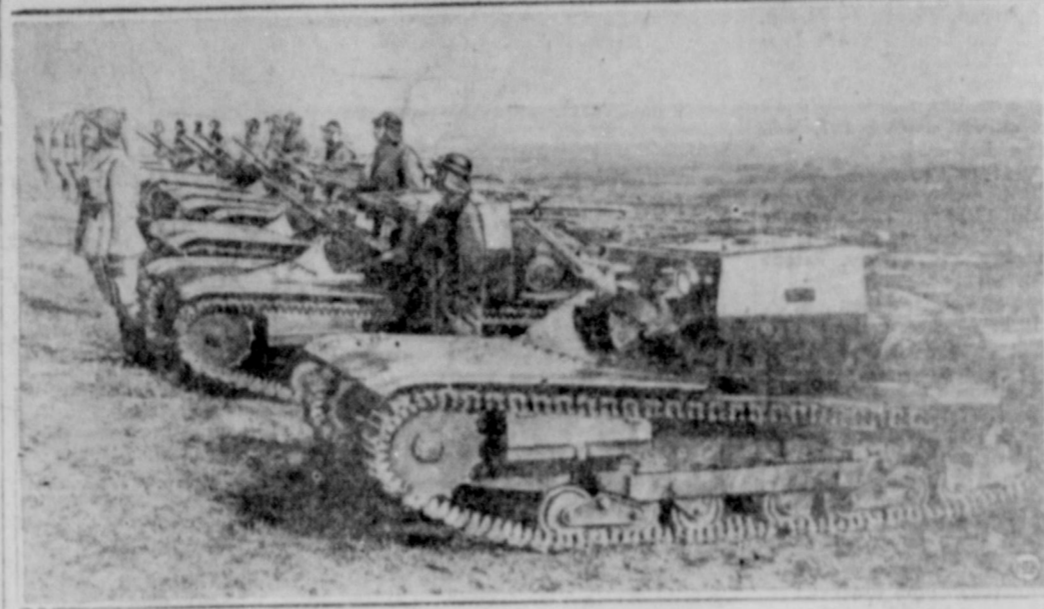

"Less than 30 days were required for the submission and official approval of all college aid applications. Texas colleges and universities are to be congratulated on the splendid cooperation manifested in handling student aid applications. Without the support of the College Presidents of Texas this vast undertaking of the National Youth Administration could not have achieved complete success," Johnson declared.

How Calotabs Help Nature To Throw Off a Bad Cold

Millions have found in Calotabs a most valuable aid in the treatment of colds. They take one or two tablets the first night and repeat the third or fifth night if needed.

How do Calotabs help Nature throw off a cold? First, Calotabs is one of the most thorough and dependable of all intestinal eliminants that cleanse the intestinal tract of the germ-laden mucus and toxins.

"BABY" TANKS SMASH AT ETHIOPIANS

A novelty in warfare, "baby" tanks like those pictured above have been rushed by Italy to the Ethiopian front, to help offset the disadvantage of rugged African terrain. Hundreds of these light tanks, shown with their occupants in recent maneuvers, will "scout" along roads and caravan trails through Ethiopia, observers say, moving so fast it will be difficult for the enemy to oppose them with any weapon.

Increased Interest Is Manifested In Baptist Meeting

Attendance upon the service at the First Baptist Church last night almost doubled that of Monday night. The second group of three distinct phases of Baptist work in Texas were ably discussed by speakers previously chosen.

Miss Katrina Moore, Hardin-Simmons University graduate, brought an exceedingly interesting and illuminating address on the Baptist Student Union, an organization in college and universities for the promotion of the religious life of Baptist students.

F. P. Brashier brought a helpful discussion of the denomination's hospital and orphanage work. Emphasis was placed upon the missionary element in these institutions.

A splendid discussion of mission work among more than 600,000 Europeans in Texas was brought by Mrs. W. L. Jackson.

Tonight's program will include addresses on Sunday schools, Christian education, and Mexican missions. Bruce Harris, Supt. W. T. Walton and Mrs. Frank Arrindale will be the speakers. A brief devotional service conducted by Miss Morris Mitchell will open the meeting at 7:30 p. m. The meeting will adjourn at 8:45.

Motorists Will Be Penalized If Gas Tax Is Increased

AUSTIN.—A million and a quarter Texas motorists will be penalized for the principal benefit of a relatively small group of bondholders if the proposed one cent per gallon increase in the state gasoline tax is approved by the legislature, Col. Ike Ashburn, executive manager of the Texas Good Roads association, declared here today.

The present state gas tax is 4 cents per gallon, of which one cent goes to the common school fund and another cent to refund the outstanding bonds of the various counties spent on construction of state highways.

The new proposal, House Bill 89 by Alsop, would raise the state tax to 5 cents per gallon, using the additional cent to refund all outstanding county securities for lateral and secondary roads as well.

Colonel Ashburn, whose organization is composed of 25,000 motorists in all sections of the state, said, "We do not think it right to redeem bonds, many of them heavily depreciated, for the profit of the bondholder and at the expense of the motoring public." He named a Dallas bond attorney who is in Austin actively sponsoring the bill.

"We further believe," Colonel Ashburn continued, "that to tax provident counties, which have not had the benefit of large road programs, to pay off the bonds of

counties which have voted large programs, is unsound and unfair."

Moreover, a higher tax does not assure greater revenue, he explained, pointing to Oklahoma, which suffered a 17 per cent decrease in revenue and a 12 per cent drop in auto registrations the year after its state gas tax was

raised from 4 to 5 cents. The Oklahoma legislature reduced the tax to 4 cents the following year.

In this era of Joe Louis and Mickey Cochrane, a super-intelligent Detroitier is one who recalls that Henry Ford has something to do with autos.

Question Loans For Municipal Gas Systems By PWA

HOUSTON, Oct. 12.—The federal government's power to grant loans for municipal gas systems, paralleling private systems, will be challenged in a federal court here Tuesday.

The city of Taft in San Patricio county and Julian Montgomery, state engineer and director of the PWA in Texas were named in an injunction applied for.

Federal Judge T. M. Kennerly ordered the defendant to appear in court to show cause why the injunctions should not be granted.

It was claimed Taft had had a gas system since 1928, and the city was recently allocated \$75,000 loan and a \$61,362 grant by the PWA for water and gas systems.

"Baboos seen drilling in Addis Ababa." Former doughboys are interested to learn that Ethiopians have top sergeants.

"BROADCAST" Announcement

Mr. S. P. Boon, of The Ranger Dry Cleaners, explains how they are enabled to do the best Dry Cleaning, Rug and Hat Work in this section of the country:

Our national association, with headquarters in Washington, D. C., operates a large commercial dry cleaning plant in connection with its national School and Research Laboratories.

In this commercial cleaning plant practical tests are made of new processes coming on the market if they appear to be an improvement over our best tested processes; and, as a member in good standing for nearly 15 years. We receive all improvements after these tests are made. So, you can see why it is that we do not have to try every new and exclusive process that comes on the market, like so many cleaners do; experimenting with your garments, and some times at your expense.

Remember, it's the Ranger Dry Cleaners, Ranger, Texas, where the best costs no more, and where your money is refunded if you are not pleased. We carry garment insurance.

It Is War, Not Italy, That Should Horrify

Perhaps the best thing the people of the United States could do in connection with the Ethiopian war would be to make a firm resolve not to let the tragic affair get a hold on their emotions.

It is starting off, like all wars, with an emotion-stirring episode calculated to make the folk on the sidelines roar.

Italian bombing planes circle over a town full of non-combatants. The air is filled with that most terrifying of all noises, the rising whine of airplane engines.

A thing like this is unspeakably horrible; horrible enough to make a man want to denounce civilization and all its works.

For this affair, this bombing of Aduwa, was not a piece of Italian heartlessness. It was simply, unmistakably, a piece of war.

It might help us, in gaining this understanding, to remember some of the things that our own soldiers have done under similar circumstances.

When we drove the Indians off of our western plains—a bit of imperialism, incidentally, almost exactly like that of the Italians in Ethiopia—we had no airplanes to drop bombs, but we had pretty fair substitutes.

Over and over again, our gallant soldiers surrounded Indian villages by dark and opened a bombardment with small arms and artillery at dawn, shooting down women and children in cold blood.

The thing is horrifying, to be sure; but it is war itself that should be the object of our horror.

To expect a nation to make war without committing crimes against humanity is as foolish as to expect a jungle tiger to support himself without killing anything.

There will be many repetitions of this Aduwa tragedy before this war is over. Let us understand them for what they are—not evidences of Italian wickedness, but bloody illustrations of the essential and inescapable hideousness of war.

Dictated Journalism

An American choral society gave a concert in Moscow recently. In their advance announcements of the event the Moscow newspapers declared that among the singers were Lawrence Tibbett, Richard Crooks, Richard Bonelli and several other famous artists, none of whom was within three thousand miles of the place.

This, naturally, made both visiting Americans and Muscovite patrons very sore; and the Soviet state trust responsible for publicity in the newspapers felt called on to rebuke the editors, declaring that they obviously did not possess "even rudimentary knowledge in their field" and blaming the mistake on their "abysmal ignorance."

The criticism, of course, was perfectly proper. But such mistakes are what you let yourself in for when you chain your newspapers to a rigid party dogma and make them the tools of a dictatorship.

Honor politician for his part in bringing gas to Detroit. Next thing, they'll be banqueting a crooner.

"Television to be delayed pending installation of a coaxial cable." Dora thought a coaxial cable was the kind America sends to debtor nations.

A non-partisan Indiana millionaire claims to have voted for candidates of both parties in the past. It's a good idea; but everyone can't get away with it.

A New York classified ad calls for an actor who can drive a truck. That's one way to get rid of the second-hand vegetables.

It may not be long before a person will need a writ from the supreme court before he can take something for his constitution.

The people are becoming "finger-print-conscious," says New York police executive. Especially women with children and new wallpaper.

If the government is interested, Lon Warneke or Schoolboy Rowe might furnish valuable pointers on controlling that old potato.

As the greatest achievement of federal spending, the dam points to a dam. Why one dam? Resultant tax...

Central West Texas Oil Field

Drilling Records Records transmitted to oil and gas division, Texas railroad commission, Austin, for week ending Oct. 5, 1935, as follows:

Application to Drill Ray T. Hoff, H. L. Taylor No. 1, sec. 39, Comal county school land, Eastland county, Depth 1,600 feet, Work begun, Oct. 7.

Application to Plug American Maricabo Oil Co. No. 18 P. J. Bush, work begun, Oct. 5. Well record, J. M. Windham et al. No. 1 J. R. Moore, completed at TD of 2,449 feet for five barrels of oil and 50,000 cu. ft. gas, 250 lb. rock pressure.

Release of Judgment Lien—A. Grist et al. to E. E. Harrelson et al., \$595.37, 10 per cent interest. Suits Filed in 88th District Court Commercial State Bank, Ranger, vs. G. A. Terrell, to collect note.

Mechanic's Lien—R. H. Murray and William H. Earle to Zero Hour Bomb Co., H. A. Jenkins, one type F duplex zero hour bomb; \$77.

Mrs. Dorothea A. Scribner et vir. vs. G. J. Moore et al., damages. Lucille Borchert vs. H. C. Borchert, divorce. Will Woods, Chevrolet master coach.

Forster & Mann, No. 1 Zellars, sec. 44 D&DA survey, Comanche county, plugging record, D&D at TD of 2,910 ft. BRECKENRIDGE.—About the first of next month it is expected that work will start on sinking the second well on the George DeLafosse ranch for pay from the deeper horizon found to exist in an earlier test.

SECOND TEST ON DELAFOSSE SLATED

Paul Pitzer said the deal with the Humble Oil company is expected to be consummated by that time, and that location for the well will be 1,800 feet north of the first well, which promised good production, but was ruined by a premature explosion.

Pitzer & West have over 5,000 acres blocked off there and are selling the Humble half interest. The first test encountered pay at around 4,300 feet and created no little interest here because it gave promise of pay in Stephens county from the Ellenburger lime, and promise that larger operations will follow in the search for the ordivician in other parts of the county.

It is known that major companies are interested in exploration for the deeper pay believed to be in Stephens county, in view of

that test and producing wells in neighboring counties, evidence of which is found in the Humble taking an interest in the Pitzer & West deal.

The well, located in the northwest corner of section 72, BBB&C survey, flowed by heads after drilling into saturation in sand at a total depth of 1,565 feet.

Several oil men have estimated its probable capacity as 100 to 200 barrels per day. The Barclay well has been flowing about 10 barrels of oil per day for the past 10 days.

Campbell & Pinnington No. 1 I. N. Jackson, new wildcat starting west of Clyde, was reported spudding at 125 feet.

Magnolia Petroleum company will plug No. 4 C. T. Terrell, D. W. Fandeen survey, one-half mile east of Deadman, according to an application filed this week in the railroad commission office at Eastland.

The well was begun July 18, 1919, and completed Aug. 20 of that year. Initial barrel production of 1,200 barrels of oil was obtained, the application stated when drilled to 2,696 feet.

Applies for Pipe Line Connections Palo Pinto Oil & Gas Corporation of Strawn has made application to the railroad commission office at Eastland to connect the Illinois Pipe Line Company and Lone Star Gas Company to their Strawn Oil Company lease, H. Bird survey, Palo Pinto county.

A well record of the Palo Pinto Oil & Gas Corporation's No. 13 Strawn Oil Company, filed in the commission office, showed initial production of 200,000 feet of gas and five barrels of oil at a total depth of 3,288 feet. One thousand gallons of acid was used at 3,250

Don't Guess But Know Whether the "Pain" Remedy You Use is SAFE? Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

THE person to ask whether the preparation you or your family are taking for the relief of headaches is SAFE to use regularly is your family doctor. Ask him, particularly about Genuine BAYER ASPIRIN.

He will tell you that before the discovery of Bayer Aspirin most "pain" remedies were advised against by physicians as bad for the stomach and, often, for the heart. Which is food for thought if you seek quick, safe relief.

Scientists rate Bayer Aspirin among the safest methods yet discovered for the relief of headaches and the pains of rheumatism, neuritis and neuralgia. And the experience of millions of users has proved it safe for the average person to use regularly. In your own interest remember this.

You can get Genuine Bayer Aspirin at any drug store — simply by asking for it by its full name, BAYER ASPIRIN. Make it a point to do this — and see that you get what you want.

Millions of pounds have been used by our government.
