VOLUME 47

(Established November, 1887)

EASTLAND, TEXAS, FRIDAY, SEPTEMBER 27, 1935

NUMBER 47

LIQUOR PLACED IN CALENDAR

Sept. 24.—Sen. Clint ... bill that would bar ... from ...

... to give the bill a spec- ... 20 to 8.

... the bill an open saloon is ... declared to be any ... liquor is sold to ... on the premises or ... there to.

... to raise salaries of ele- ... from three to ... Harley Morrison said ... receive less than ... It was referred to ... committee.

... to set the Small bill ... its ultimate passage by ... Opponents hoped to ... greatly before it is sent ...

... proposal was to make the ... district by prohibiting sale ... that engaged in any ...

sort of business. This would bar drug stores, cafes or hotels from selling gin by the drink.

The Small bill leaves the method of handling liquor, whether by state stores or private license stores, to be settled.

Data on the two systems was filed today by state auditor Orville Carpenter, without making any recommendation. He cited figures on revenues of other states operating on the various systems.

New York Banker Falls to His Death from Houston Hotel

HOUSTON, Sept. 24.—James MacIvaine, 45, second vice president of the Chase National Bank of New York, fell to his death from the tenth floor of his hotel last night.

Justice Tom Maes returned a verdict of suicide after finding a note in the man's room. Officers said the note to his wife indicated he intended killing himself.

His body struck an automobile and fell to the pavement in full view of a theatre crowd. He died in 15 minutes.

Hotel attendants said he had acted strangely as he entered an elevator. He told the operator, "I think I am losing my mind."

Edgar L. Marston Dies In New York

Word was received here today of the death of Edgar L. Marston, for 35 years president of the Texas Pacific Coal & Oil Company. His death occurred today.

Marston was president of the Texas Pacific Coal & Oil company at the time the Ranger field was brought in.

Details of his death were vague, but a message was received by Tess McHarg of Ranger, from a brother in New York telling of his nephew's death.

Marston, who was also builder of the Marston building in Ranger, will be buried in St. Louis.

Ginning Taxes Are Placed In Escrow

TYLER, Texas, Sept. 24.—Attorneys for cotton ginners attacking constitutionality of the Bankhead cotton control act made arrangements to bring the case to trial in 10 days.

After charges by the ginners that the government was attempting to coerce them to drop the suit, Federal Judge Randolph Bryant ordered ginning tax money collected by the plaintiffs placed in escrow pending final decision in the case.

Mrs. Margaret Jane Rust, Native Texan Is Buried Tuesday

Funeral services for Mrs. Margaret Jane Rust, 83, who died Monday at her farm two miles southwest of Eastland, were held Tuesday afternoon from Colony cemetery. Rev. Rosemond Stanford, pastor of the First Methodist church of Eastland officiated. Mrs. Rust was buried in a grave adjoining her late husband.

Mrs. Rust died from old age, relatives stated. She was a native Texan, born in Dallas county, Feb. 17, 1852. Moving to near Ranger in 1906 with her husband, J. C., to whom she was married in Dallas on Dec. 14, 1871, they later moved to Weatherford where they lived for seven years.

She had been making her home near Eastland since 1927. Six children survive and are: S. V. Rust, Fort Worth; J. M. Rust, Hawley; R. L. Rust, J. W. Rust, G. W. Rust, all of Eastland; and a daughter, Mrs. Bettie Craver of Ranger. Thirty-seven grandchildren and 25 great-grandchildren, and two great great grandchildren also survive.

Mrs. Rust had been a member of the Methodist church for over 65 years.

Pall bearers were J. A. Beard, E. E. Wood, S. C. Hunt, G. T. Parack, T. M. Johnson, Fred Evans, all of Eastland.

Hammer Undertaking Company of Eastland was in charge.

Security Release Of County Funds Okehed by Court

Application of the Commercial State Bank of Ranger has been granted by commissioner's court for release of \$22,000 U. S. treasury bills pledged to secure county funds, according to an order on file in county clerk's office Tuesday.

The bills are described in trust receipt No. 11006, dated April 17, 1935, issued by First National Bank, Dallas. The trustee has been directed and authorized to release the securities.

Tropical Storms to Strike Caribbean

JACKSONVILLE, Fla., Sept. 24.—Shipping in the Caribbean sea was cautioned today against two tropical storms near the West Indies, according to a report by the weather bureau.

Eastland County In District For New Farm Agents

Eastland county, located in district 7 of the extension service, will have new district farm and home demonstration agents, beginning October 1.

Reason of the new agents is formation of three additional extension service districts in Texas, making a total of 12.

T. B. Wood will be succeeded in this area by C. E. Bowles, now farm agent in Houston county, while Miss Kate Adele Hill is to be replaced by Miss Maurine Hearn, home industries specialist. Wood goes to district 9 in East

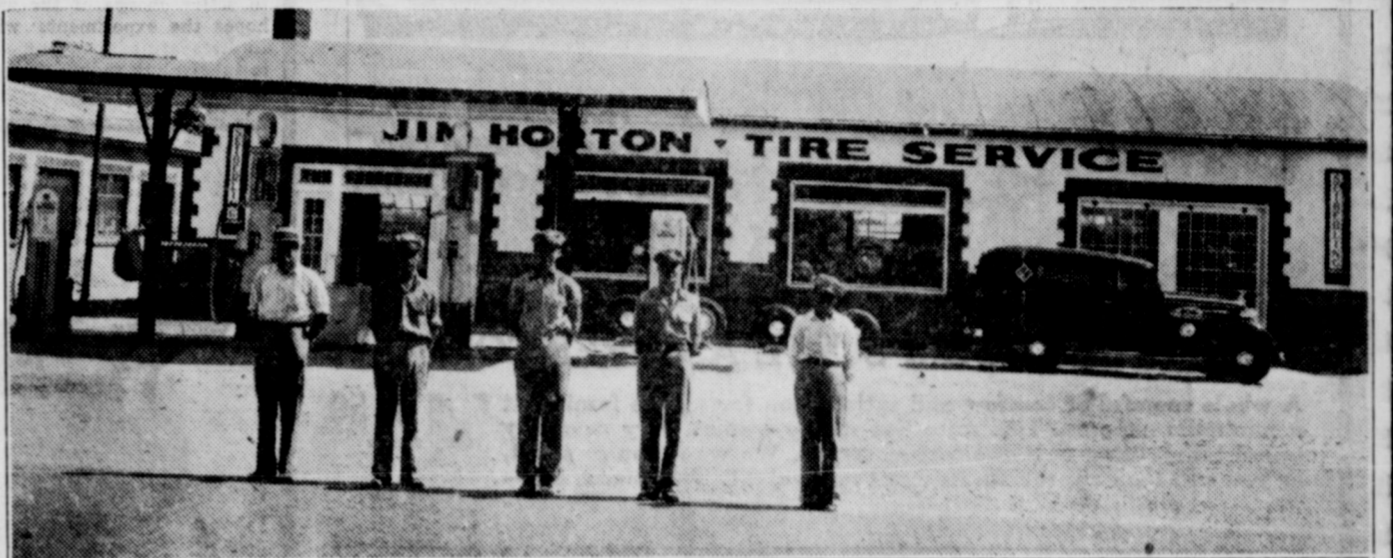

Texas and Miss Hill takes district 6, the San Angelo area.

Under the revision district 7 is to be composed of 19 counties, whereas the territory now covered by Wood and Miss Hill comprises more than 40 counties. Counties in the new district are Jones, Shackelford, Stephens, Palo Pinto, Taylor, Callahan, Eastland, Erath, Comanche, Brown, Coleman, Run-

nels Mills, San Saba, McCulloch, Mason, Llano, Gillespie and Blanco.

Those baby bonds should sell well provided they don't live up to their name and keep people awake nights.

The end of the Ethiopian rain apparently may mean the end of Haile Selassie's.

Health Rays Sought By Splitting Atom

By United-Press
ROCHESTER, N. Y.—A "battle of atoms," out of which may come a practical method of manufacturing artificial "radium," will be conducted next spring by a group of University of Rochester scientists.

Scene of the atomic bombardments will be the vacuum chambers of a giant magnetic accelerator, or cyclotron, capable of generating 4,000,000 volts of electric energy. The machine, second largest device of its kind in the world, is being installed in a building on the university campus.

Lee A. Du Bridge, professor of physics at the university, will be in active charge of the work. He hopes the experiments will lead to discovery of a ray-emitting material rivaling radium in the treatment of human ills.

Race Track in Vacuum

Explaining operation of the machine, Dr. Du Bridge, said:

"Within the vacuum chamber atoms charged either of ordinary hydrogen or of recently discovered heavy hydrogen will be whirled about in ever widening circles in the strong magnetic field, keeping step with the high frequency oscillations. During each traversal of this vacuum race track the charged particles will acquire about 40,000 volts of energy.

"After 100 laps they will reach the outside of the chamber with an energy of 4,000,000 volts. They are then traveling with such enormous speed that when used as projectile they are able to penetrate into the very heart of any atoms which they strike. This causes a disruption of the atoms and formation of new ones."

By studying the nature and energy of the flying fragments from these atomic explosions, scientists believe much can be learned of how atoms are put together.

Atoms Give Off Rays
"In some experiments," Du

Bridge said, "the newly formed atoms are of a kind never found in nature. They are unstable and in the course of a few hours spontaneously disintegrate. In this process they give off beta and gamma rays similar to the rays emitting from radium.

"It is this short 'life time' of these atoms which is of importance in medical experiment. Ordinary radium continues to emit its rays for thousands of years. Physicians dare not inject it into bodily tissues since it acts as a dangerous poison. Artificial radium, made from ordinary salt, loses its activity in a few hours, and is then harmless.

The physicist added that as yet the manufactured "radium" has not been used for medical experiments, and that many years of painstaking research must come before such materials can be used in human treatments.

The Boy Scout won't have their jamboree in Washington, but they will be sure of having their health at home.

A Penny Trader Scorns Relief Aid

By United-Press
CHICAGO.—Birger Swerin, once on relief, has become a rugged individualist fighting against the collectivist influences of his neighborhood, a relief shelter.

Swerin isn't a large scale capitalist. At best his business could be called a notion counter. Located on a vacant lot next to an Illinois Emergency Relief Commission shelter, his counter with all its stock is worth only a few dollars.

Built of old boxes, it holds shoe strings, soap, razor blades, smoking tobacco and a few other articles. His customers are the 475 inmates of the shelter and his principal competition is the shelter's cooperative canteen.

Swerin charges that the canteen management is boycotting him.

The canteen manager that Swerin is one among the men who rid of him.

But Swerin has relief by his earnings. "The men like me," he explained, "credit, the accounts 17 to 46 cents a week the government would me back on relief, to run me out."

One thing he does with that he makes dice games that free by alley on pay day under the head of vice—something he shelter can't give.

J. E. Malmstrom, of the shelter, admits to get rid of Swerin's counter.

"I'd like to have the neighborhood dissension. Why men credit. That petition for the case."

Meanwhile the penny trade continues.

You're Ready for Your New Fall Clothes! You Want to Know What the New Styles Are! We're Giving You Some of the Answers in These—

WELCOME

TO THE EASTLAND COUNTY

FAIR

**TWO MORE
BIG DAYS!**

FRIDAY, SATURDAY

Eastland has a lot to be thankful for these pleasant days. Once more our city is proud host to those upon whom her prosperity depends; once more she welcomes all the West Texas region to **THE FAIR!**

All day long the Fair Grounds are a pattern of gay changing color. The spectacle is one that makes children dream of the great mysterious world they have never seen. And it carries grown-ups back to the magic land of Make-Believe that is childhood's illusion. At night life whirls gayly along the music-filled Midway.

Soft-eyed, satin-coated, beef cattle enjoy their brief day of triumph before they grace the tables of the world. Fruits of the field, the orchard, the shop and the loom dazzle the visitor's eye. Clear-eyed, straight-limbed boys and girls from the farms vigorously attest the sturdiness of their American upbringing.

Fair Week is in many ways the happiest time of the year. The swiftness with which it comes and goes makes it all the more worthwhile enjoying. Don't miss it this year. Earn, beg, borrow or steal the time and money to see it—but be sure to come to The Fair!

HARPER ANNOUNCES FAIR SHOWING OF NEW FALL RADIOS

One of the latest Atwater-Kent console model radios to be shown in a four-day exhibition by Harper Music and Battery Company.

Announcement of showing of latest radios during the county fair in the building east of the Texas Electric Company was made today by George Harper of Harper Music & Battery Company.

Models to be shown are manufactured by General Electric, Grunow, Atwater Kent, Philco, Kadette and R. C. A.

Prospective purchasers of radios this year will be amazed at the perfection and attractiveness of

models, according to Mr. Harper.

Programs from foreign countries are heard in the same clarity as those originating in the United States, makers of the radios assert.

Also to be shown in the four-day radio exhibition are General Electric refrigerators.

The depression has thrown more than 7500 American chemists out of work. And repeal, a million or so amateurs.

Gather Specimens For Texas Museum

DALLAS. — The State Game, Fish and Oyster commission will aid in gathering specimens for the Texas Museum of Natural History to be built by the city, W. J. Tucker, executive secretary, announced.

Tucker made the announcement after conferring with J. B. Figgens, Denver, director of the Colorado Museum of Natural History. Tucker said that game wardens and others in the department knew where to obtain specimen of wild animal life in Texas.

He mentioned the existence of a few big horned mountain sheep in the West Texas mountains, and the desirability of having at least one specimen of this rare animal in the museum.

Canada Is Ready To Offer Trade Favors to U. S.

OTTAWA, Ont.—The Canadian government is ready to offer the United States its intermediate tariff and possibly most favored nation treatment in return for a more favorable access of Canadian natural products to the United States market, it is learned.

The Canadian offer is the latest development in the long negotiations between the two countries for a reciprocal trade pact, and is now virtually the basis of the negotiations.

The obstacles which are preventing the two governments from reaching an agreement, it is said, are all on the United States' side.

Canada would like to obtain access to the American market for such natural products as cattle, lumber, fish and dairy produce, but American producers in the same line are resisting the threat of competition from Canada.

What the Canadian government is prepared to grant does not encounter the same degree of objection here, although some industries are inclined to view the proposals unfavorably. The intermediate tariff is more favorable than the general tariff, but the difference is not so marked as it once was. Under the present government, it has been narrowed. Many items, for instance, upon which the British preferential tariff would be 25 per cent, have 33 per cent as the intermediate and 40 per cent as the general tariff.

It is understood in view of this that American negotiators want favored nation treatment, which would mean tariff treatment as

good as any other country receives and better than the intermediate duty on more than 200 different commodities. Both sides have volumes of data regarding the imports and exports of the commodities mentioned and the tariff rating.

In their present state, the negotiations are indefinite. At Washington recently the representatives of the two governments met and had initial exchanges indicating in a general way what they were prepared to do. Where differences arose they were noted and the two parties are now giving consideration to the question of bridging these difficulties by further concessions.

This involves consultation with the government. It is expected that the Canadian negotiators, who returned home several weeks ago, will return to Washington, and definite developments are expected shortly.

are at-
Americans. The
advantages

of the Medoc are added attrac-
tions.
Properties of 10 acres, produc-
ing at least a bare living for the
owner, can be bought from \$5,000
and up, at the current rate of ex-
change, including a comfortable
house. The latter could be mod-
ernized for another \$1,000.
The real bargains, are to be
found among the noted chateaux
of famous wines, a few of which
are for sale at prices ranging from
\$25,000 to \$100,000. Some of
these chateaux are surrounded by
magnificent parks of many acres
as well as the vineyards. The
houses have modern comforts and
for years have been the country
homes of the aristocracy of Bor-
deaux which enjoys country life
resembling that of England.
The location on the Medoc
peninsula with the wide Garonne
River on the north and the ocean to
the south is ideal. Biarritz is
only a few hours drive to the
south and Paris a day's run, all
over uncrowded roads through
beautiful country.
Living conditions in Medoc are
famous. The oysters, fish and
shell-fish are highly appreciated.
The lamb and mutton raised on

the salt marshes is considered by
epicures the best in the world.
French fruits and vegetables are
in the markets the year around.
Ships bring in the best from
America, Africa and other coun-
tries.
The climate is mild without be-
ing hot in summer. There is a
softness about the air, even in
winter, which contributes to the
god nature of the population.

Letting of Highway Contracts Expected

By United Press
AUSTIN, Sept. 24.—Earl let-
ting of 11 federal aid highway
projects estimated at \$570,000 was
promised by highway officials to-
day.
Projects include a Texas & Pa-
cific railway overpass on Highway
No. 1, 18 miles north of Big
Spring.
An explorer's wife puts two
weeks in bed recuperating from a
four-mile walk during one of her
husband's expeditions. A shopping
expedition would have reversed the
situation.

Second Phase of WPA Program Is Started In Texas

SAN ANTONIO.—With several
thousand men engaged in swinging
picks and shovels on dozens of
projects in Texas, state Works
Progress Administration officials
today had plunged well into the
second phase of the program in-
tended to eradicate relief rolls in
Texas.
Workers on the Lake Trammell
flood damage repair project near
Sweetwater Friday became first
former relief clients to receive pay-
checks from Works Progress Ad-
ministration. On that day also,
600 laborers began to earn their
pay on four projects in the Hous-
ton PWA district.
First on the list of WPA pro-
jects to secure federal approval,
flood damage repair jobs are al-
ready under way in several sec-
tions of Texas. All of the \$300,-
000 federal allocation for that

type of work has been allotted to
Texas districts, State Project Di-
rector E. A. Baugh reported.

In addition to this lump grant,
Texas has received federal allotment
of \$1,534,208 in local pro-
jects, many of which have already
been started or will start soon
throughout the state.

As first authorizations to begin
work were being mailed out to the
districts whose projects were
given early federal approval, state
officials had completed final de-
tails on the handling of labor prob-
lems.

State officials adopted the 140-
hour month as standard working
time on projects, H. P. Drought,
state administrator, announced
early last week.

Explaining that some deviations
from this policy would be neces-
sary due to such variable factors
as location of the projects or the
availability of equipment, Drought
declared that the 140-hour month
will be maintained as closely as
possible. Due to the nature of can-
ning plant and sewing room activi-
ties, women will generally work
138 hours per month, Mrs. M. K.

Taylor, state women's work con-
sultant, declared. In order to real-
ize the full benefits of these pro-
jects, it will be necessary in some
instances to work two shifts per
day, Mrs. Taylor said. Women em-
ployees on other types of projects
are expected to work the regular
140-hour month.

Iowa Schools to Try Football Teams of Six

By United Press
CRESTON, Ia.—To solve the
small school's perpetual problem
of obtaining enough football ma-
terial, five Iowa high schools of
small enrollment have formed a
conference and agreed to develop
teams of six rather than 11 play-
ers.
Towns in the unique league are
Cumberland, Massena, Prescott,
Fontanelle and Richland.
The "midget team" plan for
small schools was worked out in
Nebraska last year on an experi-

Stephen F. Austin Relics to Be Shown

By United Press
DALLAS.—Priceless relics of
early day Texas, pertaining to Ste-
phen F. Austin, father of Texas,
owned by his relatives, will prob-
ably be on display at the Centen-
nial exposition here.
Some of Austin's books, a chest
of drawers, and a bed in which he
slept are in the possession of rela-
tives living near Brazoria, accord-
ing to W. H. Kittrell, Jr., assistant
to the managing director of the
Centennial Exposition.
J. Perry Bryan, a grand grand-
son of Moses Austin, father of
Stephen F. Austin, bears a mark-
ed resemblance to the great Tex-
an, according to Kittrell. Bryan is
a grand nephew of Austin, who
died a bachelor.

Valuable Bull Died One Week Too Soon

By United Press
WHARTON, Texas.—For sever-
al years a persistent cattle buyer
sought to purchase a registered
bull from Dr. L. B. Outlar.
The physician promised last
year that he would sell the animal,
valued at more than \$500, within
the 12-month.
At the expiration of the period
a few days ago, the cattleman re-
minded Dr. Outlar of his promise.
"I'm sorry you didn't call a fort-
night ago," the doctor said. "The
bull died last week."

CAMERA SNAPS 6 PRESIDENTS

Only Texas Indians Have White Chief

LIVINGSTON, Texas. — The only Indian tribe in Texas, the peaceful Alabamas, has a white chief. Nekko Si, or Little Chief, known to his business associates here as Clem Fain Jr., became director of the tribe at Indian Village following the death of Big Chief Sun-Kee, 75, on Sept. 2. Fain has been a friend and advisor of the Alabamas for many years and was so loved that he was given the title of Nekko Si.

Affairs of the tribe, which drifted from the land east of the Mississippi a century ago, greatly interested Fain. Sun-Kee became chief of the tribe 25 years ago upon the death of his predecessor, Chief John Scott. Fain became his friend and advised him upon many matters. When adversity struck the very foundation of the band of 250 Indians in 1928, Fain advised Chief Sun-Kee, then 68, to organize the tribe formally and present a plea to the government for aid. The tribal braves, numbering 49, formally elected Sun-Kee, then called Charley Thompson, as chief. Immediately Chief Sun-Kee left for Washington where he was

granted an audience with Calvin Coolidge, then president. The chief asked for aid and obtained it. Before the trip to Washington, Chief Sun-Kee was grieved deeply over the poverty-stricken condition of the tribe. His band found it a soul-killing task to eke out a bare living from the sandy loam near Indian Village, their home. The Indians were backward and had no funds to buy modern farming equipment, but now, thanks to the courage of Chief Sun-Kee and the advice of Nekko Si, they have a new outlook on life. Farms yield good crops from sandy soil, and the Indian Village has new homes, a hospital and new church and school buildings. The Alabamas no longer have to move to more fertile lands as did their forefathers. When the original band moved into Texas, it settled near Peach Tree Village in Tyler county. The Texas war for independence forced them to move, but they were friendly to Gen. Sam Houston, and were rewarded in 1854 by the land grant upon which they now live.

Dewey Jones spent the weekend with his parents in Breckenridge. Joseph M. Perkins returned home Saturday from a ten days business trip through Mississippi and Louisiana. R. R. Walker of Fort Worth was a business visitor here Monday. Bert Finley was a visit in Fort Worth and Dallas over the weekend. Mr. and Mrs. Bud Sweeney of Mineral Wells were Eastland visitors Monday. C. I. Hiatt of Olden was an Eastland visitor Tuesday. Mr. and Mrs. Roy Allen are on a vacation in West Virginia.

General MacArthur Urges Purchase of 800 Planes Yearly

WASHINGTON, Sept. 23. — With air threats mounting abroad, Chief of Staff Douglas MacArthur today propounded a five year program for further modernization and development of the army. The program was his parting legacy as he prepared to retire as chief of staff to go to the Philippines to direct national defense there. The plan was contained in MacArthur's annual report for the fiscal year ending last July. He calls for purchase of 800 new army airplanes annually; equipment of every army rifleman with semi-automatic weapons; improvement of artillery, and further accumulation of munitions reserves.

Famous Actor Is Dead After Half Century On Stage

KANSAS CITY, Mo., Sept. 23. De Wolf Hopper, for years an actor, died in St. Luke's hospital here today. Hopper had been in failing health for sometime and was taken to the hospital last night. He had suffered with his heart and had been advised to take a long rest. Last night he went to the hospital and when the doctor saw him before midnight he was sitting in bed reading a newspaper. Hopper was 77 years old last March. He was on the stage more than half a half century and rated as a leading comedian of his time.

American Legion Convention Opens

ST. LOUIS, Mo., Sept. 23.—The seventh annual convention of the American Legion got off to a colorful opening today with presentation of a citation to Mme. Schumann-Heink "for loyal and distinguished service" to the Legion. National Commander Frank Belgrano, Jr., San Francisco, made the presentation after she had sung the Star Spangled Banner as the convention stood at salute. In a brief response the singer said, "I have given the last few years of my life to serve the Legion. In service to the Legion I serve America." Opening of the convention was delayed half an hour by the reluctance of many delegates to put in an appearance after a night of celebrating.

GOES "MOVIE MAD"
MELBOURNE, Australia.—Australia, in proportion to its population, has more cinemas than any other country. There are 1,286 for 6,630,000 people, or one for 5,287 persons. The United States has one for every 10,400, and the United Kingdom one for every 9,333.

Ohio education survey committee accuses colleges of making the educational process a "painless" one. So being spiked in a scrimmage is painless!

BRITAIN MASSES MIGHTY ARMADA IN MEDITERRANEAN

Tremendous power of the fleets which Britain is massing in the Mediterranean sea at Gibraltar, Malta, and Suez is graphically shown in this picture, of warships at anchor in Gibraltar harbor during previous maneuvers held by the combined Atlantic and Mediterranean fleets. Ready also for one of the greatest sea battles in history if war comes, the Italian navy is massed on both sides of the peninsula between the Adriatic and Tyrrhenian seas. From home waters all the way to the waters of far-off China, British warships were ordered under forced draft to the zone of danger as the war threat grew more menacing.

Chicago Mapping A River Harbor

CHICAGO.—A \$4,000,000 transfer harbor, designed to permit shipping on the Chicago River even when draw bridges no longer are operating, is planned under the direction of Hugh E. Young, engineer for the Chicago planning commission.

The harbor, planned for ship-to-barge and barge-to-ship transfers, will be located at the mouth of the river in Lake Michigan, with docks on either side of a lock to be constructed by the sanitary district.

The sanitary district has set aside \$3,000,000 for the lock from the \$58,000,000 assigned by the PWA to the district to save the city from pestilence when the United States Supreme Court mandate shutting down the flow of water in the river goes into force late in 1938.

"The main objective," A. A. Sprague, chairman of the commission, said, "is to save what commerce is using the river when the sanitary district builds its lock and when the bridges are no longer open."

The harbor will permit transfers from a lake or ocean craft to smaller vessels which can nego-

gate the river without the bridges being open, he said.

"A lock at the mouth of the river to control the flow is a minor consideration from the city's viewpoint," he said. "Fixed bridges are the main object."

The city is attempting to avoid lowering the river's level, Sprague said, because of the many industries which draw water from it. Most of them would have to build an entire new pumping system, he said.

USED CARS AT THEIR BEST AND PRICES ARE SO LOW YOU FEEL LIKE TAKING ADVANTAGE OF US! BUT DON'T LET THAT WORRY YOU, WE'VE GOT TOO MANY AND WANT TO SELL THEM BAD ENOUGH TO MAKE YOU REAL BARGAINS! EVERY ONE OF THEM ARE GOOD ONES! COME AND SEE!

guard. Three rangers are assigned to the mansion guard, remaining on duty eight hours each. The mansion guard is for the protection of governors' families. Governor Moody, returning at night from one of his trips, slipped into the mansion without disturbing the guard. Dog Days Cause Family Troubles Judge Believes. BORGER.—That dog days cause many family troubles was a theory adhered to rigidly by Judge M. Farmer, of the City Police court, during the hot days of July and August. "Now that cooler weather has come, people should feel better," Judge Farmer said. "During the hot weather we recognized that many people felt bad and made allowances. "But now that cooler weather is here, we feel that the weather no longer is an excuse for family squabbling. Couples who are hailed into court for airing their troubles in public will have to face the consequences in the future." City officers agree that in the majority of cases in which either the husband or wife calls the police to referee a quarrel, the affair ends with both the husband and wife jumping on the officer. Accordingly, they have learned to travel in pairs. Woman Assembles 325 Glass Goblets. PAWTUCKET, R. I.—Mrs. Edward Bowen has, perhaps, the largest early American all-white glass goblet collection in the East—325 specimens, none of which is duplicated. After six years' search, the collection includes goblets from various parts of New England, New York, New Jersey and Pennsylvania. Mrs. Bowen's oldest one, believed more than 100 years old, is known as the Block and Thumb design. Her rarest goblet is Cohn, commemorating the landing of Columbus.

Rogers, Cobb Match Wits in River Romance

RIVALS ON RIVER STEAMBOATS BRING MERRIMENT OFTEN

"Steamboat Round the Bend" Gives Noted Actor Chance To Re- enact Early Life.

It took the lure of the Mississippi River—and a chance to match wits and wiles with his old friend Will Rogers—to coax Irvin S. Cobb, noted American humorist and author, into his first feature length film.

Cobb, who recently made a statement that he would withdraw from the screen, no was a featured role in Will Rogers' new picture, "Steamboat Round the Bend," which comes Tuesday to the Connellee Theatre.

Outside of the fact that the film offers Cobb an opportunity to play with his life-long friend, Will Rogers, it also affords him a chance to re-enact the scenes of his childhood days.

Cobb's family for more than one hundred years owned and operated stern wheelers up and down the Mississippi and Ohio rivers. When he was told that the picture was all about steamboating he just couldn't resist the temptation.

Cobb explains that he was the first of his family in three generations to forsake the river for another line of endeavor. It was his father's intention to take him in with a boat of his own, but he was bitten by the newspaper bug and gave up the river for the city-room.

In "Steamboat Round the Bend" Cobb and Rogers battle it out in the funniest, fastest and most exciting steamboat race ever filmed.

Rogers as the captain and owner of "The Claremore Queen" enters the race to save a man's life. The exciting race, with its humorous angles, combines with the pleasing romance that is closely interwoven throughout the story and makes for grand entertainment.

In support of Rogers and Cobb, the cast boasts such stellar performers as Anne Shirley, Eugene Pallette, John McGuire, Berton Churchill and Stepin Fetchit.

JOE E. BROWN IN "BRIGHT LIGHTS" AT CONNELLEE

Joe E. Brown, the funnel-mouthed comedian, comes to the Connellee Theatre Sunday in what is heralded as his most uproarious comedy romance.

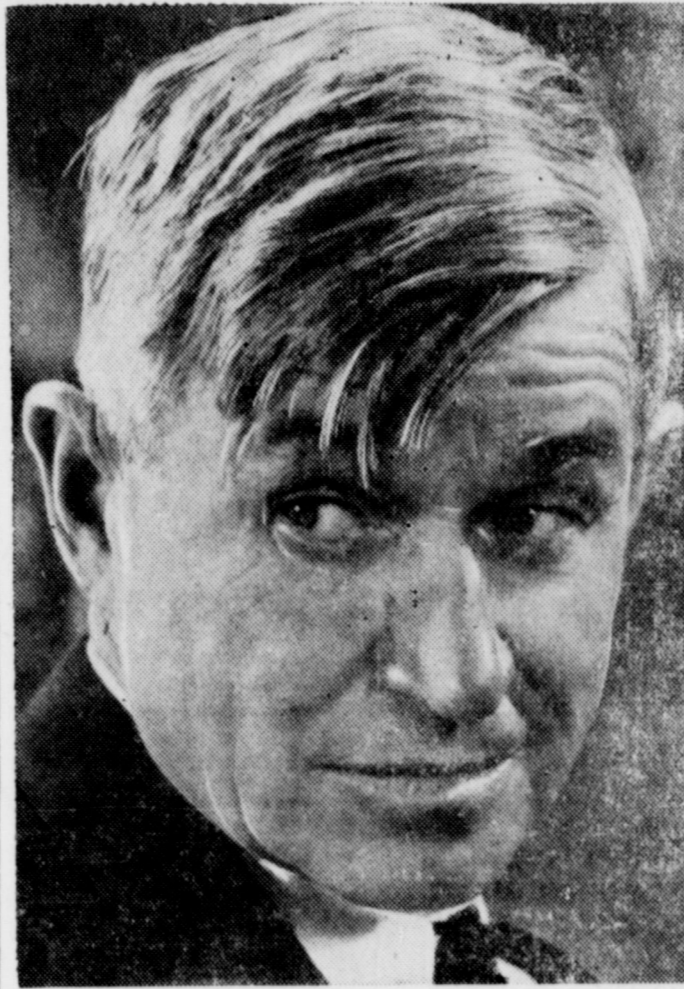

In addition to Joe's laugh-provoking stunts, there are four lively songs for the picture is one of back stage life and the singing comes in naturally.

Joe E., himself, sings and dances and does acrobatic stunts with the famous Maxellos.

Scores of pretty chorus and dancing girls appear in the theatrical sequences but "Bright Lights" is neither a musical or a farce, but a stirring romantic comedy.

The story is by Lois Leeson and concerns Joe E.'s quick jump from a burlesque comedy troupe to a big Broadway actor, playing with a madcap heiress, Patricia Ellis, out for adventure. His wife and partner in the burlesque show, Ann Dvorak, is out of it and goes back to small time.

Star of "Steamboat Round the Bend"

With a supporting cast that includes Irvin S. Cobb, Anne Shirley and Stepin Fetchit, Will Rogers comes to the screen in a romance of old Mississippi, "Steamboat Round the Bend," showing Tuesday and Wednesday at the Connellee Theatre.

Joe's head swells which causes many complications which lead to a unique and amazing climax.

Brown himself started his theatrical life as a comedian in a burlesque show, and the burlesque sequences are made the more natural by the use of an entire troupe which was playing in Los Angeles when "Bright Lights" was being filmed.

The cast includes William Gargan, Joseph Cawthorn, Henry

O'Neill, Arthur Treacher, Gordon Westcott, Joseph Crehan and William Demarest.

GEORGE BRENT AND BETTE DAVIS COME TO CONNELLEE TODAY

Bette Davis and George Brent, again paired as screen lovers in the new Cosmopolitan production, "Special Agent," a Warner Bros. picture, will open at the Connellee Theatre today.

The picture is said to reveal the inner workings of the U. S. Treasury Department, showing an entirely new angle of the Government's activities in wiping out the nation's public enemies.

The story is crammed with tense dramatic situations in which secret service operatives face death in order to run down criminals and get evidence to convict them. Thrilling adventure and daring exploits follow every step of the secret operatives in their battle with the "killers."

Brent, in the role of a newspaper reporter on a New York daily, also allied with the Government as an undercover man, is trying to get evidence against the crooks and at the same time prevent the murder of Miss Davis, his sweetheart, who unwittingly has taken a job as the personal secretary to the head of the band.

The polished, but ruthless killer is played by Ricardo Cortez.

Others in the cast include Jack LaRue, Henry O'Neill, Robert Strange, Joseph Crehan, J. Carroll Nash and Robert Barrat.

The picture was directed by William Keighley from the screen play by Laird Doyle and Abem Finkel, based on the story idea by Martin Mooney.

Dudley Nichols and Lamar Trotti who wrote the screen play of Will Rogers' "Judge Priest" have collaborated again on another picture of the Southernland romance for Fox Film's humorist star. It is "Steamboat Round the Bend," at the Connellee Theatre Tuesday.

Mickey Celebrates Seventh Birthday

A nation-wide celebration is being held in all theatres throughout the country this week for Mickey Mouse, who on Sept. 28, 7 years ago, made his debut on the talking screen. In these past seven years through the genius of his creator, Walt Disney, and the many technical improvements made in the photography and sound recording of animated cartoon, Mickey Mouse has become one of the favorite screen stars, especially among the younger theatre patrons.

In celebration of this event every theatre in the United States is presenting on its program this week a Mickey Mouse cartoon. In keeping with this event, the Connellee will show, Friday and Saturday, "Pluto's Judgment Day," one of the latest Mickey Mouse cartoons.

Mr. Disney is to be congratulated for bringing to the talking screen this most popular animated cartoon, as while these cartoons always furnish many laughs for the kiddies they also teach a moral lesson more effectively than would be possible by any other medium.

John McGuire who plays the leading romantic role opposite Anne Shirley in Will Rogers' "Steamboat Round the Bend," at the Connellee Theatre Tuesday, is a recent graduate of Santa Clara University. He made his first featured film appearance in "Bachelor of Arts."

Irvin S. Cobb, noted author appearing with Will Rogers in the Fox Film, "Steamboat Round the Bend," at the Connellee Theatre Tuesday, can't understand this talk of players losing weight while working. Cobb has put on 22 pounds from the day he started on the picture. He claims it's because of the laughs he gets.

BROWN PRIZES UNIFORM OF JEROME DIZZY DEAN

One of the most prized objects in the large collection of sporting trophies and mementos owned by Joe E. Brown, First National star, is the baseball uniform worn by Dizzy Dean last year when the St. Louis Cardinals won the World Series pennant.

Joe E. Brown is appearing in "Bright Lights" at the Connellee Theatre Sunday.

The romance and color of life on the Mississippi in the 1880's are brought to the screen in Will Rogers' new Fox picture, "Steamboat Round the Bend," at the Connellee Theatre Tuesday. The humorist plays a steamboat captain and the film's laughs are derived from his rivalry with Irvin S. Cobb, noted American author, who makes his feature film debut.

Anne Shirley, who plays the leading feminine role in Will Rogers' "Steamboat Round the Bend," at the Connellee Theatre Tuesday, has tried both the stage and screen in her 13 years as a child performer. Miss Shirley says she likes the

screen better. She has no fun to keep re-

Eugene Pallette, character role in "Steamboat Round the Bend," is a popular lead actor of girth unsuited to roles, however, as character portrayals no regrets; he makes now.

NEW ORLEANS, Sept. 21. — Congressman Cleveland Dear, anti-Long leader of the eighth congressional district, announced for governor tonight as Gov. O. K. Allen appeared to have widened the split in the Long machine.

Sen. DeBerry Finds Four Hard Puzzles

AUSTIN.—Senator Tom DeBerry, Bogata, Red River county, who prides himself on looking after the welfare of the "Splivins boys," has decided that the current special session of the Texas legislature will be a success if it solves four puzzles. They are:

FUNDS MADE AVAILABLE FOR PWA AND WPA

WASHINGTON, Sept. 23. — President Roosevelt today made available for WPA and PWA projects \$700,000,000 of the \$4,880,000,000 works fund.

The original division of the \$4,000,000,000 provided \$900,000,000 should be used for loans and grants for states, cities, counties, and other government units.

PWA administrators will get only \$325,000,000. In addition PWA will have \$100,000,000 for housing.

Figures disclosed Hopkins has allotted \$725,000,000 or more than half the money at his disposal in WPA state programs.

PWA projects have received over \$125,000,000. PWA administrator Harold Ickes expects to submit a list of several thousand projects totalling \$200,000,000 to the President tonight for approval after a final checkup conference with state PWA officials.

Farm Program Is Active, County Head Announces

The Federal Resettlement Administration program is still active, George L. Lane, county supervisor, stated Thursday:

Said Lane: "The resettlement program is still effective for the benefit of grocermen who have been kind enough to extend to rehabilitation clients short time credit.

"The resettlement program has been handicapped by becoming federalized, that is being made a unit of the Agricultural Adjustment Administration government program. "There has been some delay in getting clients money for payment of September grocery bills, but in a very short time these clients who continue in the resettlement program and with a few exceptions will be permitted to continue as clients and will enjoy the extensive benefits under this program in the way of being furnished such grocery needs as well as seed, and such cases of new clients, feed. Other clients who have been affiliated for the year we can report all very well heeled for feed."

Carbon Baptist Church to Observe Fiftieth Anniversary for Three Days

The Carbon Baptist church announces that beginning on Friday night, Sept. 27, the church will observe the 50th anniversary of its founding. A three-day festival which will run through Sunday, Sept. 29, will be held. All former pastors and members of the church are invited back. Rev. E. L. Springer, former pastor will preach on Friday night, according to announcement of Pastor A. A. Davis. Former pastors will appear on the program during this fifth Sunday meeting. Rev. P. D. O'Brien of Colorado City, former pastor of Carbon church, will preach Sunday at 11 a. m. Dr. Hal Buckner of Buckner Orphan's Home of Dallas and Dr. F. M. McConnell, editor of Baptist Standard, also of Dallas, have been invited to attend this meeting and appear on the program.

An all-day affair Sunday, featuring preaching by old time pastors, gospel singing, fellowship,

dinner on the ground, and barbecue. The public is cordially invited.

Visit to Camp Billy Gibbons
The Scouts of Troop No. 16, Brownwood, have evidently not had all of the summer camping that they want, since they have reported that they will leave with their scoutmaster, C. L. Pouncey, immediately after school Friday for Camp Billy Gibbons to return to Brownwood Saturday night. We

hope they will have a good and profitable experience. To other troops in the council, we will say that it is permissible for any scoutmaster to take his troop to Camp Billy Gibbons at any time.

Mayor Makes Talk
Mayor A. J. Morgan of Breckenridge made a very interesting illustrative talk at their recent Court of Honor that was presided over by Russell B. Jones, scout commissioner. Scout H. L. Gunlock received his Eagle Badge, which was pinned on by his mother. A number of other Scouts were up for awards.

Scout Rallies
The Central District will hold its rally and field day meet Saturday, Oct. 12, in Brownwood. Towns to be represented are: Blanket, Bangs, Rising Star, Zephyr, and Brownwood. The north section will hold their Scout rally Saturday night, Oct. 5, in Breckenridge. Scouts from Parks, Ranger, Colony, Eastland, Olden, Cisco, Carbon, Gorman and Breckenridge will take part in this meet.

Troop No. 6 Holds Novel Hike
Scoutmaster Bill Jessop reports that his troop conducted a "fox and hound hike." The "fox" was given distance ahead of the other members of the troop, or hounds. He left trail signs for the "hounds" to follow. The chase finally ended when the "fox" was chased to his lair. To the surprise of the "hounds" the "fox" had a fire burning and plenty of weiners in waiting. We suggest that other troops write us concerning any unusual or novel experience that would be of general interest to the Scouts of the Council.

mainly to permit the county commissioners' court to receive application with the state supervisor in each district to approve applications submitted to the county commissioners' and finally submitted for final approval to the state board which is composed of three members who receive \$10 a day while they are in session, who shall not sit more than 15 days in one month or 120 days in one year, except the first year, was the more economical way of handling it efficiently.

The board shall invest in a state administrator complete power of administration whose main duty is to keep in motion the administration of this pension law.

To assure speedy action from the state affairs committee in getting this legislation on the floor of the house, we did not burden the bill with a great number of taxes, but will send the bill to the committee as a tax bill carrying only very small taxes on domino halls as a rider so that it will be possible to amend the bill on the floor of the house with additional revenue raising riders so as to assure sufficient sum to carry out its purposes.

The major feature of the bill is to my mind this fact that warrants will be drawn on the general fund rather than a special fund to be created. In this way applicants will be assured their money instead of in the event there was a special fund and it was depleted, they would not have to pay one-third or more of their pension money to loan sharks to cash their warrants as has been in many other pension cases.

Though the bill does not measure up in all respects to what I had originally in mind, I say that it will be a good bill, a safe bill and the administrative machinery will be able to work accurately, justly and efficiently.

I want to thank you for your kindness in the past and assure you that I appreciate all favors that you have extended me on numerous occasions when I have imposed upon your good nature. With best wishes, I am,
Sincerely your friend,
GEO. A. DAVISSON Jr.

STRAWN

Mr. and Mrs. Ross Parmley and Mrs. Maggie Young of Fort Worth and Mrs. R. M. Ellis and daughter, Norma Kate of Coleman, were the week-end guests of Mr. and Mrs. C. D. Parmley. Mrs. Young accompanied Mrs. Ellis to Coleman for a visit before going to Iowa, where she will spend the winter.

Pete Bennett of San Benito, Calif., came in Sunday to be at the bedside of his mother, Mrs. Lloyd Stewart, who is seriously ill at her home here.

Miss Georgia Lucille Stephens left Tuesday for Dallas, where she will enter Miss Hockaday School.

Miss Mary Beth Thomas left last Thursday for Denton, where she will attend C. I. A. this fall.

Mr. and Mrs. Bean Robinson left Friday for Topeka, Kan., where they will spend the next few months. Misses Dorothy and Virginia Robinson accompanied them as far as Oklahoma City, then continued the trip by bus to Salome, Ark., where they will attend John Brown College.

Mr. and Mrs. Charles Watson and young son, Billy Bob, are in Austin this week, where Mr. Watson is transacting business.

Relatives and friends were grieved to hear of the death of little Betty Grace Johnson Saturday. Mr. and Mrs. Johnson had made their home here until recent years. Those attending the funeral were Mrs. J. D. Brothers, Mrs. Hattie Johnson, Mr. and Mrs. E. Trotter, Mr. and Mrs. John Brothers, Mr. and Mrs. F. L. Walker, Mmes. Roy Whitaker, E. A. White, H. A. Crawford, Walter Beaver, Ross Pollard, Morris Frazier and E. T. Noland.

Mr. and Mrs. M. C. Anderson of Caddo were Strawn visitors Saturday.

Mrs. Lane Ready and young son, Gene Wendall, of Ranger, and Miss Jane Ratliff spent the week-end in Albany.

Miss Mary Anderson visited in Weatherford over the week-end.

Mr. Vaughn and L. Browning visited F. E. Ferrell Friday.

Mrs. Eunice Minter and daughter and her mother, Mrs. E. Thompson, spent Friday with Mrs. F. E. Ferrell.

Monroe Ainsworth visited Lavoice Hale Tuesday.

H. H. Hale and Lavoice Hale are doing some work in Ranger this week.

Mr. and Mrs. F. E. Ferrell and son visited Mr. and Mrs. Elmer Daffern Sunday.

Mrs. Vanel Daffern and son, Mr. and Mrs. Billie Daffern, were Sipe Springs visitors Saturday night and Sunday.

W. L. Bullard and family of Fort Worth spent Saturday night and Sunday with his sister, Mrs. Elmer Daffern.

Mr. and Mrs. John Bishop of Eastland were here Tuesday.

G. W. Harper and son were Ranger visitors Saturday.

H. D. Browning visited J. H. Ainsworth Friday.

Mrs. J. A. Kerns of Slaton has been visiting her father, E. R. Underwood, for some time. Over the week-end they had as visitors in the Underwood home Mr. and Mrs. Clarence Stephens and Mr. and Mrs. H. F. Ray and family of Slaton, L. A. Kerns of Hearne and Mr. and Mrs. Ed Williams of Eastland. Mrs. Kerns returned with her son to Hearne for a protracted visit.

Rev. J. L. Willis and wife and little Floyd, their son, and O. Carr of Rule spent Tuesday and Tuesday night in the home of L. B. Cozart and family.

Mr. and Mrs. O. M. Pilgrim and Mr. and Mrs. L. Z. Melton spent Saturday night with Mr. and Mrs. G. W. Wilson of the Leon community.

Mr. and Mrs. Harry Deal visited Mr. and Mrs. J. L. Brown Tuesday.

Mr. and Mrs. Shelley Tucker and little son and Mrs. J. J. Tucker and daughter, Ellen Tucker, visited in the home of Mr. and Mrs. Harry Deal Wednesday night.

Clinton Pilgrim, son of G. C. Pilgrim, sang over the radio from Dublin and is expected to sing again this coming Saturday.

Mr. and Mrs. Shirley Brown and little son visited Mr. and Mrs. Roy Watson of Salem Tuesday.

Mrs. L. B. Cozart visited in the home of Harry Deal Saturday.

Misses Noma, Eunice and Edith Weeks and Mrs. J. H. Wheat visited Mr. and Mrs. Harry Deal Saturday.

attended the conference of the presidents of the 12 banks comprising the intermediate credit system—a part of the Farm Credit Administration.

Nearly \$26,000,000 is now in the hands of farmers and ranchers as a result of the Houston Federal Intermediate Credit Banks rediscounting their notes for local lending institutions such as credit associations, corporations and banks.

"The bank at Houston, serving only the State of Texas," he said, "ranks high in the list of the 12 credit banks from the standpoint of volume of loans and discounts outstanding."

"The federal intermediate credit banks function primarily as banks of discount, thus supplying funds to local institutions to lend," said Mr. Brennan. "These banks obtain their loanable funds through the sale of debentures which are backed by endorsed notes and securities of local lending institutions, such as production credit associations, and the entire assets of the 12 banks. The debentures have sold on such favorable interest terms that the federal intermediate credit banks have loaned money to the local institutions at such low rates that they, in turn, have been able to lend it to farmers and ranchers at 5 per cent per year and still have 3 per cent with which to pay expenses, absorb losses and provide reserves. The great bulk of the business done by the federal intermediate credit banks is in discounting farmers' and ranchers' notes for the 561 Farm-Credit supervised production credit associations which have been set up throughout the United States within the last two years. There are 38 of these associations in Texas and from the first of this year up to Sept. 1 they made 8,668 loans for \$7,671,251. These associations are now lending about twice as much per month as a year ago."

Mr. Brennan stated that the federal intermediate credit banks are unique in that their entire capital is owned by the federal government but they get their funds to loan from the large investment markets by the sale of their debentures which are tax free and meet a keen demand. Bankers and investors in Texas are investors in these securities and consider them prime short-term paper.

It is the policy to hold one meeting each year in a bank district to familiarize the presidents with the operations of the institution of that district. Earlier in the week they met for three days in New Orleans with the officials of the bank of that city.

Super Liners Are Urged For the U.S.

HONOLULU. — Fate of the American merchant marine rests with the people, high Matson Line officials believe.

If the United States would match the speed, service and auxiliary sea protection furnished their respective nations by such super liners as the Normandie, Bremen and Rex, the voters must demand added appropriations from Congress to build up the merchant marine, William P. Roth, president of the Matson Navigation Company, declared.

Roth insisted American shipbuilders could never meet the competition in Atlantic commerce of the heavily subsidized British, French, Italian and German lines unless Congress does two things:

1. Increases appropriations for the merchant marine.

2. Steers clear of inflation.

"If Congress votes inflation there will be no American shipbuilding," Roth said. "No capitalist can chart a long range program of shipbuilding until he sees definitely what Congress is going to do."

John E. Ryan, Matson's general passenger traffic manager, stressed the advantage of a strong merchant marine as an aid to the Navy in time of emergencies.

"Americans have never lost a war," he said, "so they fail to realize the vital necessity of maintaining a merchant marine as an auxiliary maritime defense unit. On the other hand other sea powers have learned their lesson in defeat and have built up strong merchant fleets not only to bid for the world's commerce but as a wartime precaution."
