AS A TEXAN, WHAT WOULD YOU SAY?

\$5,000 IN PRIZES!
59 CASH PRIZES EVERY WEEK FOR 9 WEEKS!

THIS PICTURE shows Stephen Austin issuing a land grant title to a Texas colonist in 1822. Each man who was head of a family received 4,000 acres of land, but voluntarily adopted a life of great danger, privation and hardship. If you had been the young Texan, what answer would you have made to Austin? See the small sketch to the right.

YOUNG MAN, BEFORE I GIVE YOU THIS LAND TITLE, I WANT TO WARN YOU THAT OUR COLONISTS FACE A LIFE OF PERIL, TOIL AND HARDSHIP!

? (What would you say? Write your answer, in 25 words or less, on the coupon below or on a separate sheet of paper.)

Girls! Boys! Women! Men! Enter this great Texas Centennial Contest!

DON'T wait! Send in your entry today! Everyone has a chance to win a big cash prize! Loads of fun... and educational, too!

There will be four more contests... one contest each week for four weeks. Every week there will be awarded 59 cash prizes! Watch next Friday's paper for next week's contest. You will want to compete for the cash prizes in each of these contests!

General Foods is sponsoring these contests to promote a better knowledge of Texas history and to acquaint you with the wide variety and tempting flavor of the six popular Post Cereals. We hope you'll enjoy the contests—and win a prize—and we know you'll enjoy each one of these delicious Post Cereals. Try them for breakfast or lunch... and discover why they're the favorites in Texas homes.

THE ALL-STAR FAVORITE CEREALS OF THE LONE STAR STATE!

CONSTIPATION* MAY LOWER RESISTANCE TO GERMS

Can Be Corrected by Natural Laxative Food

Common constipation is due largely to insufficient "bulk" in meals. It is a condition that should never be treated casually.

Long neglected, it may contribute to a general run-down condition. Your body lacks the strength it needs to fight off infection.

Guard against common constipation. Make sure the meals you eat contain plenty of "bulk."

Within the body, the "bulk" in ALL-BRAN absorbs moisture, forms a soft mass, and gently cleanses the system.

Two tablespoons daily, with milk or cream, are usually sufficient. Stubborn cases may require ALL-BRAN often.

Serve ALL-BRAN in some form each day, either as a cereal, or cooked into muffins, breads, etc.

Guaranteed by the Kellogg Company. Sold by all grocers. Made by Kellogg in Battle Creek.

Agent for Large and Reliable Companies

Ranger Furniture Exchange Receives Car of Electrolux

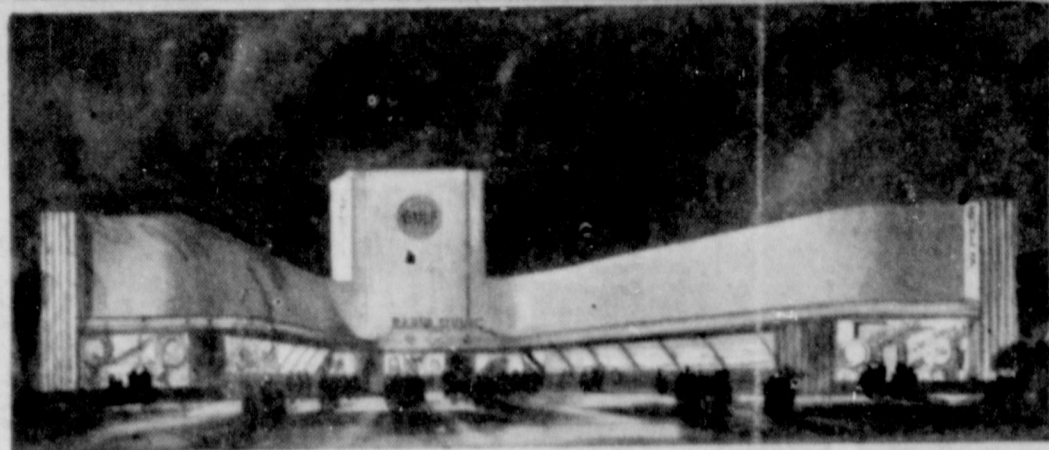

The Ranger Furniture Exchange owned by Colonel and F. P. Brasher, has just unloaded a car load of Electrolux refrigerators. This large shipment includes both the gas and kerosene boxes and sizes range from the four-foot box to the seven-foot size. There was a total of 44 machines in the lot, which is one of the largest refrigerator shipments received locally in some time.

The Ranger Furniture Exchange has the exclusive agency in Eastland county for the kerosene box and serves the county in its entirety with the exception of Ranger and a part of Cisco with the gas box.

Brasher stated he had distribution in Eastland, Cisco, Gorman and Carbon and as Ranger was the headquarters for the business was expecting to place dealers over the county.

In addition to the gas refrigerators

Radio Stars to Appear on Centennial Program

Nationally known radio stars will appear in these studios, now nearing completion on the grounds of the Texas Centennial Central Exposition at Dallas, this summer and fall.

Singers, comedians, operatic stars, famous orchestra leaders, stars known from one end of the country to the other, but stars who, up until now, have remained only "voices" to millions of Texans, will appear here in person and put on their air-shows free of charge in this big glass-front studio building.

The radio studios, which are being built by Gulf Oil Corporation, are located in almost the exact center of the exposition grounds. From the patio or court in front of the U-shaped building, visitors to the Centennial will be able to see their favorites in action. Inasmuch as both of the big studios, the monitor rooms, and the central control room are in full view through plate glass, the audience in the patio will not only be able to hear the program as it goes out over the air but see how it is produced, enacted and controlled.

The Gulf Radio Studios, with their equipment and the "singing tower" radio installations being provided by this company for the amusement and entertainment of Exposition visitors at twenty other points on the grounds, constitute the most elaborate installation of its kind ever set up. Through the installation it will be possible to have in production at one time twelve different programs, all of them under control from the central studios.

An organization of thirty or thirty-five men and women will be required to operate the system. It will include a program director, business the Brashers operate one of the largest furniture establishments in the county and sell the Crosley electric refrigerator and Crosley radio.

They also handle the Chambers retained heat gas range.

for radio, a program director for public address, production men, continuity writers, announcers and maintenance technicians. The studios will be staffed cooperatively by Gulf Oil Corporation and the Texas Centennial Exposition. Facilities of the studios will be used impartially by local radio stations, sectional chains and the national networks.

Programs to be presented through the studios include many commercially sponsored regular features of Texas radio stations and chains, sustaining programs originating from talent which will be drawn to the Exposition, and special broadcasts by Texas artists and entertainers, who will come to Dallas to participate in events to be staged there as a part of the Exposition.

STRAWN

Misses Margaret Allen Ulley and Leeta Segars, who attend John Tarleton College, spent the spring holidays here.

BILL PHILLIPS and His Casino Band at Trolley Tavern

Famous N. B. C. broadcasting and recording orchestra here next Tuesday night, April 28. Bill Phillips and his famous orchestra after a highly successful engagement at the Coconut Grove, the world's largest ballroom, Salt Lake City, Utah.

Will play to the dance lovers of Oil Belt next Tuesday at the Trolley Tavern.

Phillips and his Casino Band ranks tops in California orchestras. You have seen the Band in pictures, as "Flying Down to Rio," "Rio Rita," "Old Man Rhythm," "A Night in 'Valon," "Caliente," and many other famous pictures.

Don't fail to hear this modern Band, with their Lombardo style sax section, and one of the smoothest orchestras ever to play in this part of the country. A banner crowd is expected for the Phillips engagement.

by's sister, Mr. and Mrs. Travis Reese of the Cross Roads community last Sunday afternoon.

Mrs. Pearl Bourland has been suffering with the flu the past week. We are glad to report that she is improving.

F. C. Williamson, who is attending John Tarleton college at Stephenville, has been visiting with his parents, Mr. and Mrs. Frank Williamson the past week-end.

We have had a good rain which everyone enjoyed. The weather is rather cold at this writing.

Mrs. Pearl Bourland was a visitor in Eastland Monday afternoon.

Ed Moore and family, Buddy Eaves and family, and Mrs. Eaves were dinner guests of R. C. Eaves and family Sunday.

Allen Crosby and family visited Mr. Crosby's sister, Mrs. Sadie Reese of Cross Roads, Sunday afternoon.

Mrs. Pearl Bourland has been on the sick list but is reported better at this writing.

Mark Williamson and family visited Wayne White and family Sunday.

Florine Crosby spent Tuesday night with Dora Monroe.

Mrs. Dale Pape and children visited Mrs. Tom and Opie Lowry Monday afternoon.

F. C. Williamson visited his parents, Mr. and Mrs. F. C. Williamson, Sunday.

Mr. and Mrs. Bill McFadden of Electra spent the week-end with Mrs. McFadden's sister, Mrs. Allen Crosby, this last week.

Allen Crosby and family were visitors in Eastland Tuesday afternoon.

W. T. Duncan and Richard Eaves were visitors in Eastland Tuesday morning.

Mrs. Pig Garrett and small son, Dennis, visited Mrs. Ed Moore Friday afternoon.

There will be preaching every fourth Sunday. We have been having preaching every third Sunday but has been changed to the fourth Sunday. Everyone is invited to attend.

SOMETIMES a man's wife is a nag because she is married to a jackass. Sometimes you may wonder what becomes of all that oil you buy for your car. You may need a new set of piston rings. When did you have your valves ground and carbon removed last? This should be done every 7,000 miles at the most to give you the best engine performance.

"I SEE A BOWL OF WHEAT KRISPIES AND THEY STAY CRISP!"

Put Kellogg's Wheat Krispies in a bowl and add milk or cream. They actually hold on to their crunchiness—right down to the last flake.

That's what *blending* does. Kellogg has found a way to blend the crisp goodness of rice with the tasty nourishment of whole wheat. Try Wheat Krispies. Buy a large, economical package from your grocer. Enjoy them often. Made by Kellogg in Battle Creek.

BLENDED for CRISPNESS

"Black and white is particularly smart for spring." If the vogue will only last until platform-writing time.

Entomologist says worms are insensitive to red light. The statement will be confirmed by any traffic cop.

DESPERADO IS ARRESTED NEAR WICHITA FALLS

By United Press
 WICHITA FALLS, Texas, April 22.—Arthur Spencer, Oklahoma desperado, was arrested at Iowa Park after he abandoned a car in which he fled Wichita Falls last night after a gun battle with officers.

Pete Traxler, wanted at Pauls Valley, Okla., on charges of murder, was still at large today. He had participated in the gun battle and was believed to have fled the city with Spencer.

Spencer is wanted at Holdenville, Okla., on charges of shooting a deputy sheriff and city marshal.

He had abandoned the stolen automobile after running it in a ditch. He walked 15 miles and telephoned from a ranch house for a taxi.

The taxi driver notified officers at Electra, who made the arrest. Spencer offered no resistance.

Wichita Falls police searched for a third man, believed to be Arthur Van Newell, wanted in Arkansas for assault to murder. He was said to have been seen here with Spencer and Traxler.

George Raft, as tough ex-gangster, and Billie Burke, as social leader in "She Couldn't Take It," showing Saturday at the Arcadia Theatre.

Utility Interests Demand Note Be Brought to Court

WASHINGTON, April 22.—Private utility interests, fighting the new deal \$200,000,000 municipal power program, demanded today the government produce a secret note President Roosevelt wrote WPA Administrator Harold Ickes, cutting the power policy.

The message, written from Hyde Park, N. Y., and initialed "FDR" in pencil, became the central issue of the utilities district supreme court fight to have the government policy of using federal funds to finance public owned electric systems, declared unconstitutional.

The request that federal attorneys produce the note was a surprise move in the power companies' attempt to prove the government was using its power program to hammer down utility rates.

Gov. Allred Will Address The TCU Graduating Class

FORT WORTH.—Gov. James V. Allred will deliver the commencement address for the class of 1936 at Texas Christian University, according to announcement made here by President E. M. Waits.

Monday, June 1.
 Baccalaureate services will be held on the day preceding, Sunday, May 31, with the sermon by the Rev. F. M. Warren, pastor of the First Christian Church of Abilene.

There are 75 candidates for degrees in this year's class at T. C. U., according to an unofficial count by S. W. Hutton, registrar. Johnny Knowles, Houston, is president of the graduating class. Other officers are: Ben Bussey, Fort Worth, vice president; Miss Katherine Swiley, Longview, secretary-treasurer; and W. A. Tunstill, Fort Worth, business manager.

Farmer Is Sought For Double Murder

COLFAX, La., April 22.—Heavily armed officers trod cautiously through dense Louisiana timberlands today, seeking the man who shot and killed Sheriff W. L. Bugent and Deputy D. L. Brunson as they worked to enforce a cattle-dipping law.

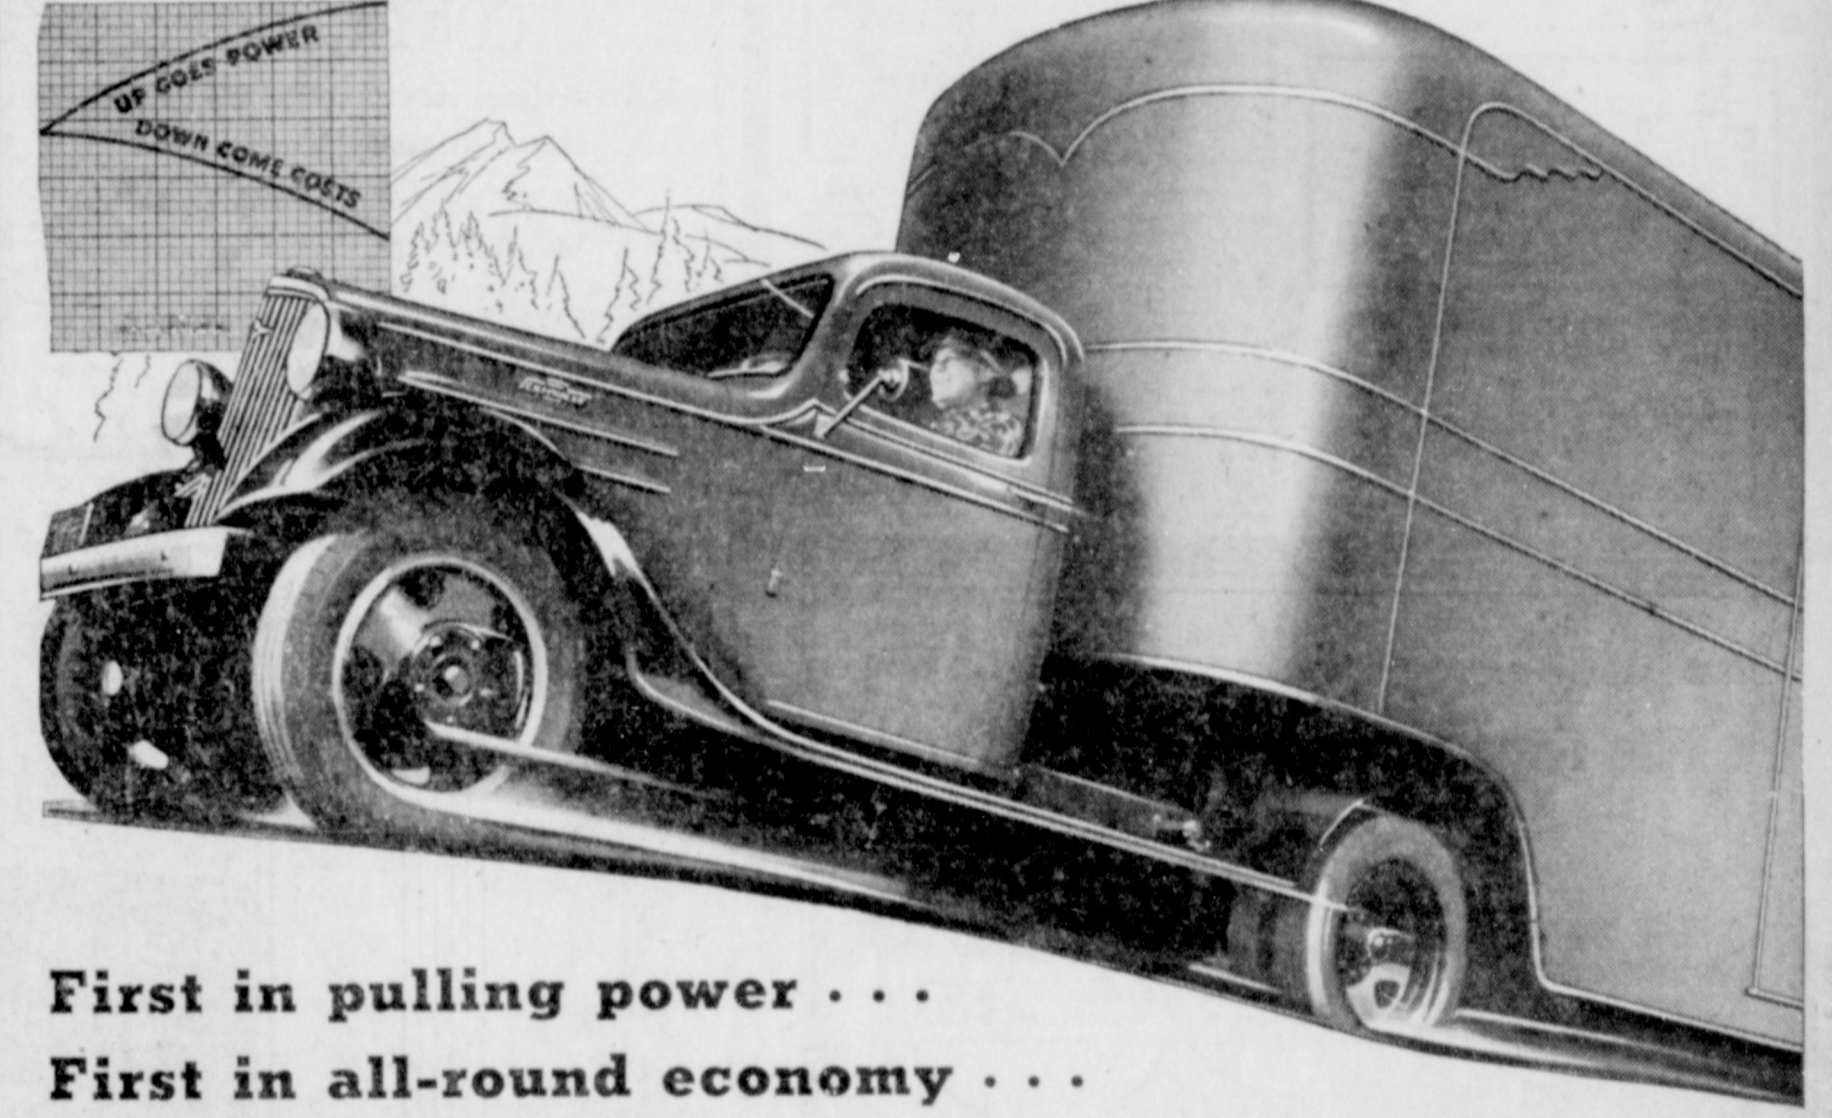

They sought Walter Johnson, 45-year-old bachelor farmer. Johnson's cattle were rounded up and dipped under court orders, despite his declaration he would not allow it. As the cattle were being loaded on a truck the men were fired upon. They pursued the sniper and their bodies were found half an hour later.

Intimidation of Press Is Seen In Control of Radio

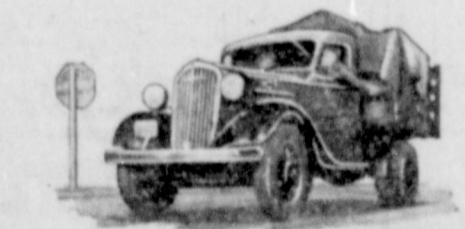

NEW YORK, April 22.—Federal control of telegraph and telephone companies as well as radio stations "has opened the door for the government to attempt to intimidate the press," the radio committee of the American Newspaper Publishers association reported today to the association's annual meeting.

H. Harris, Amos Carter of Fort Worth is a member.
 "Wire and radio communications are closely allied. Their operations now are subject to the same dictatorial powers assumed by the Federal Communications commission. Newspapers cannot function except through communications systems supervised by the same commission," the committee said.

GENERAL ELECTRIC REFRIGERATORS

Sealed-in-steel since 1927!

FORCED-FEED LUBRICATION and OIL COOLING

Exclusive General Electric Features that mean quieter operation, longer life and lower operating cost.

General Electric introduced the first sealed-in-steel refrigerator mechanism in 1927. For nearly a decade it has demonstrated its greater dependability and lower cost. Basically unchanged but constantly improved, the famous General Electric THRIFT-UNIT now gives "double the cold" and uses even less current than ever.

Other refrigerators are now following G-E's lead and are introducing sealed mechanisms. This makes it even more important than ever that you choose a G-E with low cost and dependability proved in nearly 2,000,000 homes.

Every minute of every day somebody buys a G-E Refrigerator—it costs less to own a G-E!

5 YEARS Performance Protection
 Originated by General Electric and backed by 50 years of electrical leadership

Sealed-in-steel G-E THRIFT-UNIT in both Monitor Top and Flatop models.
 Requires no attention, not even oiling. There are more sealed-in-steel G-E THRIFT-UNITS now in use than all other "sealed" refrigerator mechanisms combined.

PENSIONS MAY BE PAID BY FIRST OF JUNE

AUSTIN, April 22.—Needy old people today saw prospects of getting their first checks June 1. Under the act the payment must start July 1.

ernment will match whatever old age assistance the state gives. How much the initial pensions will be cannot be known until the 160,000 applications have been sifted and the May report is made on the income of the state liquor control board.

Three fourths of state revenue from liquor will go to an old age assistance fund. On April 15 that income amounted to \$2,401,000. It has been estimated that initial payments might be \$9 a month.

Houston Furniture Workers On Strike

HOUSTON, April 22.—Strike of 250 workers here today closed down one of the largest furniture manufacturing plants in the south.

The walkout resulted from demands of the furniture workers' union for a closed shop, shorter hours and pay increase in proposed renewal of a labor agreement with the Myers-Spalti Manufacturing company.

CHEMISTRY JOBS PLENTIFUL

CHICAGO.—It looks like chemistry is the course to study at college. According to a survey made by the chemistry department of Northwestern University, every student graduating with a Ph.D. or a M. A. degree in chemistry during the past three years has obtained a job.

COLONY

Those students on the honor roll for the past six weeks period are: First Grade—W. H. Bearden, Kenneth Bowlin, Joe Don Ford, Melvin Durden, Mary Kenneth Harris, and Lillie Je Kirk. Second Grade—Maxie Cunningham, Frankie Dean Ford, Luke Morton, Windell Smith, Vernell Caze, Marjorie Giles, Marjorie Pounds, and Dorothy Wymer. Third Grade—Bonnie Jean Bowlin, Barbara Getts, Jimmie O'Shields, and Buddy Loper. Fourth Grade—Marie Groce, Wanda Opal Harris, Roberta Landtroop, Lonnie Mayhall, and G. W. Moore.

Much interest has been registered by students, high school and grade, over the contest which will determine who shall go to the Centennial under the auspices of the school. Those students in each grade receiving the highest number of scholastic and extra-curricular points by the end of the year will be awarded a trip to the Centennial in Dallas. Those ahead in each grade are: First, Kenneth Bowlin; second, Frankie Dean Ford and Vernell Caze; third, Bonnie Jean Bowlin;

fourth, Lonnie Mayhall; fifth, Georgia Mae Baggett; sixth, Norma Crabb; seventh, Evelyn Harris. Winners of each grade for this contest will be announced in the Times issue of May 15. Otis Anderson of Ranger spent the past week-end with his parents, Mr. and Mrs. Dee Anderson. Mr. and Mrs. Cecil Townsend spent the week-end with relatives in Ciseo. Miss Wanda Harris, who has been suffering from a broken arm, is able to be in school again, and is on the road to recovery. Mrs. Charles Hathecock is able to be about again.

Dudley Williams of Brady was a guest in the home of Lee Harris during the past week. Miss Jourline Armstrong of Ciseo was a visitor in the school Monday. Howard Davis and wife of San Benito visited in the home of Mr. and Mrs. Bill Davis Tuesday. John Davis of Plainview was also a visitor in the community last week. Those characters in the play, "Aunt Jerushy on the Warpath," presented Thursday evening, are: Aunt Jerushy Fish, Mary Bell Anderson.

"Sis" Popkins, Ovada Mae Anderson. Reeno DeBeeno, Loretta Thompson. "Sufficiency" Fish, Clifton King. Elder Snuffles, Jack Stuard. Barker, Leroy Smith. Elsie Barker, Frances Harrell. Stelly Etta Snapper, Altha Mae Beardon. Uncle Hiram Fish, William O'Shields. Mrs. Lucille England and Mrs. R. B. Burns of Ranger were at the bedside of their father, Bill Davis, who is ill at his home. Citizens in the community will be reminded of the last meeting of the Parent-Teacher Association to be held in the auditorium on Thursday, April 23, at 7:30 p. m. The junior choral club will present "The Nifty Shoppe," an operetta in one act, on the evening of Wednesday, April 22.

Dr. Jackson of Ranger rendered his services to the cause of the P.-T. A. summer round-up Wednesday when he visited the community. Appreciation to Dr. Jackson is expressed by the P.-T. A.

Nature Is Aiding The AAA Again

WASHINGTON, April 23.—Nature, which aided the AAA materially in 1934 in eliminating huge farm surpluses by drought, today appeared to have returned

her role of assistant to the AAA. This was brought out by weather bureau reports of severe dryness in the southwest, where some areas so far are reported to have less than 10 per cent of the normal rainfall. Weather bureau reports showed Texas, southwestern Oklahoma, and eastern New Mexico hardest hit. This area has reported less than 10 per cent of normal rainfall, while Kansas, Missouri, eastern Colorado and southern Iowa also have been hard hit.

"Hair shirts of the monks in the Middle Ages were sometimes made with fine wire." Tak, tak, we must remember to don those woollies.

Refrigerator Uses Kerosene as Fuel

Superfex Oil Burning Refrigerator. Many of these oil burning refrigerators are in use in tropical countries as well as in rural homes in this country. The burners are lit only a short time each day, going out automatically after operating about two hours to create ample refrigeration to last 24 to 36 hours. Requiring no outside connection of any kind and having no moving parts to wear out or cause trouble, these refrigerators are being successfully used in all parts of the world, including remote sections of Africa, India, the Philippine Islands, Central America, and other tropical countries. An exclusive feature which is said to make these refrigerators effective even under the most severe conditions is the cooling system; that is, the condenser, which provides both water and air cooling. Water is used in the condenser tank in much the same way as it is used in automobile engines. The refrigerators freeze 40 or more ice cubes at a time, the quantity varying with the different models.

Not just 3 or 4 "talking points" ... but A Whole Car Full of High Priced Features

- Why pay more?** V-8 Engine... costs you \$1645 except in the Ford V-8.

SUPERFEX

THE "MIRACLE" REFRIGERATOR FOR RURAL HOMES

USES NO ELECTRICITY
...no running water
...has no moving parts
...makes cold from kerosene

Just touch a match to the burners once each day. That's all you have to do. Everything else is automatic. Your foods stay safely cold. You can freeze a plentiful supply of ice cubes—make unusual chilled salads and frozen desserts. And it's all done so quietly and at such little expense that you can scarcely believe your own eyes.

Burners in use about 2 hours to produce 24 hours or more of refrigeration

Superfex makes cold by burning kerosene and uses very little of it. The burners stay lighted for about two hours, then go out automatically. This makes all the cold you need for a whole day and night! Superfex, with its short burning time, brings you modern refrigeration in its most economical form.

8 years on the market
Though you may now be reading about Superfex for the first time, it has been on the market for more than eight years. And those that were bought at the very beginning are still operating as efficiently as they did when

new. But that's not at all surprising. Superfex has no moving parts. Not a single one! It's built to last a lifetime. And this year's models are greatly improved—they are still more efficient—still more convenient—still more beautiful. Their modern design and cream-white porcelain finish go perfectly with any kitchen decorative scheme. And the shelves are adjustable; you can move them about to accommodate even the largest turkey!

Telephone for free demonstration in your own home. Liberal purchase terms, if desired.

LEGIONNAIRES AND THE STORY OF THEIR WORLD WAR SERVICE

J. F. WARREN

"The biggest moment of my experiences in the Great World War happened one afternoon in April, 1919, long after the conflict was over," stated J. F. Warren of Olden, Texas, who was at that time a second lieutenant of Engineers with the 36th Division in France.

"I had heard long prior to that

time that my youngest brother, Dan, who was a member of the 142nd Infantry, had been killed in action. I happened to be standing on a street corner in the village of Tanniere waiting to catch a truck back to quarters. Shortly I was struck by a familiar looking soldier who came riding down the street toward me on a bicycle. And who should it be but my own brother whom we had all given up as dead." And needless to say that those two brothers had a little love feast all their own right there on a sidewalk in Tanniere.

IT'S DELICIOUS BECAUSE IT'S PURE!

A youthful urge to in some manner become connected with the engineering fraternity no doubt had a very material bearing on J. F. Warren to enlist, upon the outbreak of the war, in Company E, 111th Engineers of the 36th Division. The outfit was to contain six full fledged engineer companies, three from the State of Oklahoma, and three from Texas. It fell to Fred's lot to enroll at Ardmore, Okla., so on June 3, 1917 (less than two months after the outbreak of hostilities) he had donned the uniform and was soon on his way together with his buddies for an intensive training period at Camp Isowie in Fort Worth.

"One of the main training problems while we were in this camp," stated Warren, "was that of lay-

We're frank to admit that we couldn't make Banner Ice Cream any better, for all the ingredients are the purest and best money can buy! That's why it's the most delicious.

NOTICE

I have accepted a position as shoe shine boy and shoe dyer at the Electric Shoe Shop and I cordially invite my friends to bring your shoes to me to be dyed or shined.

THANK YOU

J. A. ALLEN

This picture of Sergeant Warren, together with four of his fellow sergeants of the 111th Engineers, was taken at Camp Bowie in Fort Worth shortly before the Regiment sailed for France in 1918. They are, left to right, Sergeants Otey, Hart, Warren, Tate and Hunter.

ing out an elaborate trench system for the benefit of the entire Division.

The function of the Engineers was to assist the combat troops in their advance or retreat, as the case may have been. This necessarily called for a thorough knowledge of map reading, surveying, and road and bridge building and repairing. Also when the occasion arose, it was the duty of the engineers to see to the complete destruction of certain roads, bridges and other equipment, in order to retard the advance of the enemy. When going into the lines, it became the function of the Engineers to design the trench system, locate positions for marching gun and artillery emplacements, and to otherwise assist the combat units in carrying out their mission.

And it was not long before Warren and his outfit had embarked on July 18, 1918, on the U. S. S. Antigon (Called "Alnt-I-Gone" by the boys) for Brest and points in France. "There is one little incident that will always stand out in my memory in connection with that otherwise quiet crossing of the Atlantic," stated Warren as he reminisced of those days gone by. "A certain sergeant, having a ticket that called for a stateroom on the ship immediately decided to afford himself the luxury of a trip in style. So he made himself at home in the first one he found, and upon returning too it shortly thereafter, found that he had occupied one belonging to a Master Engineer. Quietly and without ostentation, he repaired to another stateroom near by, and in like manner found that his pack had been pitched outside by some other than a second lieutenant. So not being outdone, he decided to repair to the bottom hatch down in the lower recesses of the ship, where for a certainty, he would not be outtricked."

"Should a submarine have appeared," quoted Warren, "I am most sure that our gunners could have done themselves proud. It seemed that they practiced on almost every floating board that we passed, which of course gave the boys plenty of scare on several occasions." But time passed on, so the 111th, together with members of Company E, landed at Brest, and went shortly into training near Bar-Sur-Aube. On the night of Sept. 11, after a long hard march through the mud and slush, Company E established its command post at Limey in the St. Mihiel sector. "We were awakened at 1:30 a. m. on the morning of the 12th," stated Warren, "by one of the most terrific bombardments that the world had ever known. It seemed as if every gun on the Western front had opened up on broadside. The terrible roar of the Allied offensive was deafening. And every little bit, the great noise of the battle was punctuated by reports from the big naval guns to the rear. The heavens themselves were lighted up as if by a magnificent electrical display. I'll never forget it."

And thus began that great push by the Allied soldiers, which has become known as the St. Mihiel drive, and in which Company E of the 111th Engineers had a most

active and unforgettable experience.

But on Sept. 28 the Argonne offensive had gotten under way. It became the mission of Company "E," together with "A" to support portion of the 77th and 42nd Divisions. "Our main job in this drive," according to Warren, "was the construction of the Bismarville road across 'No Man's Land,' and also the building of plank roads and bridges at Bricoules-sur-Bar."

"And did we hit the dirt," commented Warren, with a sort of twinkle in his eye. "I am sure that every man in the outfit became very efficient in the gentle art of developing Roman noses, so adept were we all at hitting the ground when we heard one of Fritz' shells coming outway."

One of the unforgettable experiences of Warren and his buddies during those trying days was that in connection with the long forced march under full pack prior to entering the Argonne. Resting by day, and marching under cover of darkness by night; mud and slush ankle deep; and other things that tried the metal of these veterans of the 111th Engineers fixed in their memory recollections that they will not soon forget. According to Warren, approximately 200 men of the outfit were lost to active and efficient service due to broken down arches caused by the exertions of the march.

In addition to being in the midst of several engagements during the St. Mihiel and Meuse Argonne drives, Sergeant Warren had the unusual experience of witnessing the battle of Grandpre from a hill side. "It was a sort of panoramic view of the entire battle," said Warren. "The 77th Division had driven the Germans out of Grandpre and on to the top of the hill. The whole hillside seemed to be lined with German machine gun nests and supported by their artillery. The Americans advanced up the hill, and although suffering heavy losses, finally took their objective. The hardest part of the picture was to see our own men mowed down by the German gunners as they advanced up the hillside. The next day, it fell to my lot to pass again this way, where still lay the bodies of scores of soldiers yet unburied, and silent reminders of the gruesome conflict of the day before."

Three paragraphs contained in a letter written by Colonel Hoffman, chief engineer of the First Army Corps to the chief engineer of the American Expeditionary Forces are explanatory of the very efficient manner in which Company E and others of the 111th Engineers performed their mission. They read as follows:

"The services rendered were of estimable value. Every call made upon the organization and upon the officers and men was met not only efficiently but enthusiastically regardless of adverse conditions of weather, fatigue from long marches, and day and night labor often required, and danger from enemy fire."

"It is not too much to say that one of the greatest factors contributing to the consistent success of the First Army Corps was the road and bridge work of its engineer troops, divisional and corps, assisted especially in the last offensive by large numbers of Army engineer troops."

"And all these, no organizations work ranks higher than that of the 111th Engineers. (Signed) G. M. HOFFMAN, Colonel, Engineers."

The faithful and efficient services rendered by Sergeant Warren was recognized when, on Nov. 8, he was detailed to attend the Engineer Officers' Training school at Langres, France. Some several weeks later he was graduated with honors and was commissioned as second lieutenant of engineers. He was then returned to his old outfit, Company E, with which he served until the regiment returned to the States.

On July 3, 1919, Lieutenant Warren, together with others of the 111th Engineer regiment, was honorably discharged from the army of the United States. He

thereupon left Camp Bowie, and upon rejoining his wife, to whom he became married on April 6, 1918 (the former Miss Lena Green of Jacksonville), came shortly to the then booming Ranger oil field. He entered the employ of the Magnolia Petroleum company on July 22 of that year, with which organization he is now associated at the district headquarters in Olden, Texas. In addition to being an active member in the Methodist church of Ranger and also the American Legion Post No. 69, Mr. Warren has contributed of himself to many of the worthy causes that have punctuated the splendid history of Eastland county since his abode in the community. Although having now reached the mature age of 45 years, Mr. Warren is still the same "Fred" by which his many friends and acquaintances are wont to know and greet him.

Passenger Car Registrations Up

AUSTIN, Tex.—New Passenger car registrations during March increased sharply over both the preceding month and the like month

last year, according to the University of Texas Bureau of Business Research.

Reports from twelve representative Texas counties show total sales of 5,373 cars, an increase of 34 per cent over February and 14 per cent over March, 1935. Sales for the first two months exceeded those of the corresponding period last year by 13.9 per cent.

It is again regarded as noteworthy that the gains over last year were confined to the intermediate and highest price brackets, the Bureau's report shows. Sales in the lowest price group showed a slight decline.

Historic Papers To Be At Gonzales

DAYTON, Tex.—A display of time-worn historical papers and documents, relics of early Texas will be taken to Gonzales for the Texas Centennial by Sidney A. Smith, Dayton printer.

Many of the old papers have been in the Smith family for several generations. Smith has a bill of sale made in favor of 26 slaves and drawn by R. W. Phillips of Adam county, Mississippi.

"TALK ABOUT EASY ROLLIN' AND SMOOTH SMOKIN',"

ED RITTER STARTS OUT—

IT WAS A GREAT DAY for Ed Ritter when he tried P.A. on the money-back offer. Listen to him: "Prince Albert is all a man could ask for in tobacco tastiness," he says. "Just naturally rolls easier and quicker and stays rolled." Millions of men agree with Ed. P.A.'s the favorite of pipe smokers too.

ED'S SON CLIFF, WITH HIS PONY "SPOT," IS ALL SET for a ride down to the postoffice. Ed's holding a "makin's" cigarette he just rolled. About Prince Albert he says: "I'm getting around 70 cigarettes out of every tin. That's a lot of mighty good smoking." No other tobacco is like Prince Albert. It's "crimp cut," mild and cool. Does not bite the tongue. Try P.A., "The National Joy Smoke," at our risk.

HERE'S THE OFFER THAT INTRODUCED MR. RITTER TO PRINCE ALBERT—IT'S YOUR TURN NOW!

Roll yourself 30 swell cigarettes from Prince Albert. If you don't find them the finest, tastiest roll-your-own cigarettes you ever smoked, return the pocket tin with the rest of the tobacco in it to us at any time within a month from this date, and we will refund full purchase price, plus postage.

PRINCE ALBERT

THE NATIONAL JOY SMOKE

70

fine roll-your-own cigarettes in every 2-ounce tin of Prince Albert

Flick your finger ...gears shift!

Shift with *both* hands on the wheel ... with the Electric Hand

COME in for a "Discovery Drive" in a Hudson or Terraplane with the Electric Hand. See what it means to shift gears at a finger flick ... smoothly and surely ... with *both* hands on the wheel and both eyes on the road.

Then let us show you FOUR MORE ways in which the Electric Hand makes driving almost magically simpler, easier and safer.

No Levers to Stumble Over

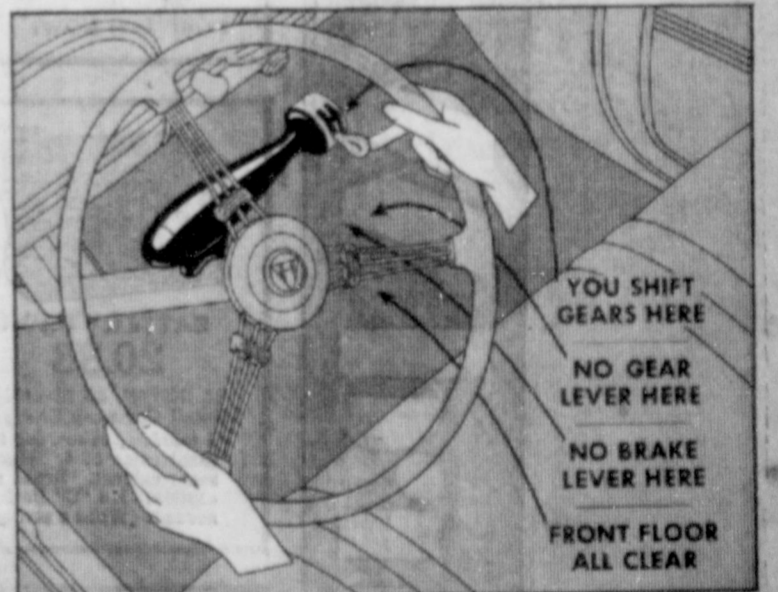

Now you can enjoy a front seat ride with no gear or brake lever in the way ... with the floor all clear. A front seat, at last, in which three can stretch in comfort. That's another Electric Hand advantage.

At the wheel of a 1936 Hudson or Terraplane, you'll soon find many other reasons why these cars are growing so fast in popularity.

You'll discover more power, and smoother power, than you find in cars priced hundreds of dollars higher. More room, too ... in the biggest cars ever priced so low. With the newest, most advanced style of the year and many new comfort and safety features found on no other 1936 cars.

Then let us show you what others have discovered about the amazing economy and long life of Hudsons and Terraplanes. The proof is waiting ... come and see.

L. J. "Slim" HARDIN

WHOOPING COUGH PARTY HELD
SANTA CRUZ, Cal.—Edward Slaven, afflicted with whooping cough on his sixth birthday, decided to invite all of the neighborhood children who also had whooping cough to a whooping cough party. The result was whoopee, for all.

CRIBBAGE LUCK HOLDS
MENOMINEE, Wis.—J. W. Packard is considered a perfect partner for a cribbage game. Several months ago he held a perfect hand consisting of three fives and a jack and a five to match the jack in the pile. More recently he dealt a similar hand to Jack Joyce.

At last reports, West Virginia's Holt was living up to his title, "Baby of the Senate," by keeping politicians awake nights.

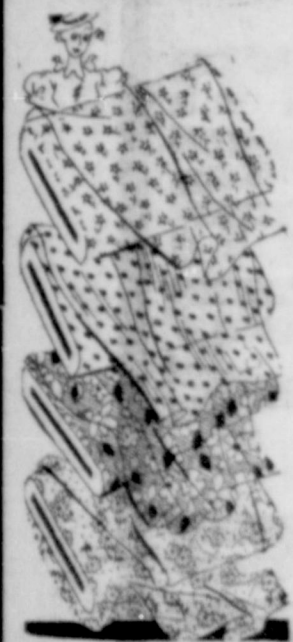

Oil Exhibition Is To Open on May 16th

By United Press
TULSA, Okla.—Electrification of the oil industry will be stressed at the ninth annual International Petroleum Exposition which will be held in Tulsa May 16 to 23. The exposition will be the largest meeting of any oil group during 1936. More than 500 oil firms have bought space for exhibits. Featured at the exposition will be displays of oil well drilling

equipment showing the recent trend toward electrification in many of the newly-developed oil fields. The Tulsa exposition is the only display of its kind in the world and is held once every two years. It attracts visitors from many foreign countries as well as oil men from all over the United States. The National Gasoline Association of America, the American Petroleum Institute, the Independent Petroleum Association of America, the National Stripper Well Association of America, and the Institute of Petroleum Technologists with headquarters in London, England, will hold conventions in Tulsa in connection with the exposition. Five new buildings have been built at the exposition grounds and nearly 200,000 cubic feet of exhibit space is provided. Total value of the exhibits, which will cover all phases of producing, refining and marketing oil and oil products, will aggregate more than \$10,000,000. "During the week of the exposition, we expect more than 100,000 persons to pass through the turnstiles," William Way, director of the exposition, said.

3 TONS per SQUARE INCH!

Do you know that some of the swiftly moving parts of your car engine are coated with an oil film less than one-thousandth of an inch thick? To protect, that film has got to be tough. Sinclair Opaline and Sinclair Pennsylvania Motor Oils each give a protective lubricating film that will withstand a pressure of more than 3 tons per square inch. This has been proved by tests on special Film-Breaking Machines in Sinclair's East Chicago Testing Laboratories. Look for the Sinclair dinosaur on the Temper-Proof cans in which Sinclair Opaline and Sinclair Pennsylvania are sold.

You need good digestion to face the nervous strain of modern living!

1935 WORLD SERIES HERO, Goose Goslin, says: "A big-league ball player has to watch his digestion. Smoking Camels while I'm eating makes food taste better and helps stimulate digestion afterwards."

Smoking Camels Assists Digestion and Promotes Well-Being

When people are tired, worried, or nervous, the flow of digestive fluids slows up. Science now recognizes that smoking Camels has a favorable influence in increasing the flow of these digestive fluids. Thus, there are sound, definite reasons why Camels add to the enjoyment of your meals. Camels are supremely mild—never get on the nerves or tire your taste. Enjoy Camels as much as you like... for their good cheer and "lift"... for their rare flavor! Camels set you right!

"I HAVE TO EAT in 30 minutes," says Harry Fisher, steel worker. "Smoking Camels helps my digestion, gives me a swell 'lift.' And they've got real flavor!"

FEEDS THOUSANDS daily. Miss Lenora Flinn, dietitian, says: "With me, it's always Camels! Smoking Camels stimulates digestion, causing increased flow of digestive fluids."

COSTLIER TOBACCOS
Camels are made from finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic—than any other popular brand.

THE TERRACED MARINE DINING ROOM of the Edgewater Beach Hotel, Chicago. Those who dine at leisure also appreciate Camels for their aid to digestion. "Good times and good times go together," says Fred (left), maître d'hôtel. "So many of our guests smoke Camels. They are immensely popular."

for Digestion's sake...smoke CAMELS
