Gifts for the Graduate That are Different

When our young people accomplish the task of finishing school, whether it be from college or high school it is quite a feat and they are to be commended for the thoroughness in completing the job.

You will want to give them something that will be commemorative of the deed well done and at the same time give them the things they will appreciate and that can be used—something practical.

In this store you will find just the thing they need and just the thing that will be both useful, practical and appreciated.

Most Practical for the Young Lady

Archer Hosiery

Flatter your tan with the lighter shades... accentuate it with the deeply burned colors. They're both smart and so grand with white shoes.

79c

Sunburn colors stand out on the fashion palette in sunbrowned burnside.

MAIN STREET Hassen Co., Inc. RANGER TEXAS

G.O.P. 'Platform's' Under Way

Political oratory soon will resound through Cleveland's Public Hall, but just now the huge auditorium echoes to the beat of hammers. These carpenters busy tear up planks preparatory to laying 30,000 square feet of new maple flooring for the Republican National Convention opening June 9. To complete the task swiftly, two shifts of carpenters, 50 to a shift, are employed. The scene above pictures the rear of the main arena of the huge hall, expected to seat 15,000 at the conclave. Preparation of the auditorium is a WPA project.

Many Farmers Are Ashamed of Going On Direct Relief

DALLAS.—Hundreds of letters are coming to the Resettlement Administration from farmers who have been put on their feet by rehabilitation loans, such as have been made this year to 27,000 Texas farm families. Most of these letters are here records of hardships suffered before the loan, and of achievement since the loan was received. But sometimes a borrower, more articulate than the others, digs out of his inmost soul the story of his shame at having to accept direct relief, and the making of his whole life now that he has been helped to independence.

Such a story is told in this letter. "We waited until we had about enough flour for a day or two. I know that there would have to be something done, oh how bad I hated to go an ask for something to eat. I got up their we had to get in line to be question about what we had an how much grocers on hand. I lined up their waiting for my turn I thought we was disgrace for every. As would study about getting relief tears would come to my eyes and face flush so red sum of the boys would laugh at me it made it harder to hold up my head than every. I got a bill of grocers and then a work card. An then went to work it didn't seem quit so had as getting grocers an clothes without working for them.

"I was thankful when the rehabilitation plan started an I could borrow money an I could get the relief. How glad I would say when inbody would say are you still on the relief I would proudly say no I can borrow money now."

Another borrower, who says, "I had rather work my life away than have my food and clothes doled out to me," tells the graphic story of "a few things I am trying this year that I wouldn't never have thought of before if the R. A. wasn't urging us to live at home." "The more abundant life" is an actuality for this man, who writes: "I wonder if anyone has gone through the woods and really wached for things that would help them, the beautiful flowers and shrubs you can easily transplant to your own yard. There's bees to capture and put in your own hives and grape vines to prune so they will bear better grapes. There's dyes in bark and buttons in small cedar limbs. There's wild berries and nuts. I never new what the woods could furnish for you till the home supervisor was telling me of how buckbrush could be used as a foundation planting. I have the west side of my house planted in them. Upon the east side I plan to set out wild plum and keep them trimmed so they will be even with the window sills. We are taking grass out of the garden and setting it out in our front yard so we can have a nice grassy lawn

in our out doors living room. We have two old willow chairs we made out of willows in the front yard and a machine table it is the frame of an old sewing machine we rave made into a table.

"My wife has made six new quilts and recovered three others. She plans to make a mattress and more quilts this fall. I have made a heating stove this last winter out of an old oil drum. I cut a hole for the stovepipe in one end and cut a door in the other the only cost was for hinges, bolts, and stove pipe. "I am reading all farm new and improvements out of the county library. It has some very good farm magazines and books. You can get all kinds of ideas from them. "I think the R. A. is the best kind of relief the government has put out. It has put more confidence in the ones that is sincere. We plan to improve the place as if it belongs to us. Of course we will have to move on but we hope it will be a long time yet."

Vegetable, Fruit Growers Included In Soil Program

COLEGE STATION. — "Texas fruit growers, truck farmers and other vegetable growers will be able to earn payments under the Soil Conservation program," A. L. Smith, state agent assigned to conservation work in Texas, announced.

Smith pointed out that land that has been in vegetable crops will be counted in acreage used in determining the soil-building allowance if planted to winter cover and green manure crops, provided that such crops are turned under as green manure. However, the crops must have been growing at least two months, before being turned under.

"This classification of acreage," Smith said, "will be used only for the purpose of determining soil-building allowances. The number of dollars for soil-building payments cannot exceed the number of acres in soil-conserving crops on the farm in 1936.

"In regard to fruit growers," Smith said, "land devoted to orchards, vineyards, small fruits and nut trees is included as crop land under the program."

If such land is clean cultivated, it is classified as neutral. If it was used in 1935 to produce an interplanted soil-depleting crop, the actual acreage so used is classified as soil-depleting. If it is interplanted with a soil-conserving crop the actual acreage is classified as soil-conserving.

The provisions governing rates of payments and qualifications are the same on the interplanted part of all land devoted to orchards, small fruits and nut trees as on other crop land.

Ed T. Cox in Race For Representative

Ed T. Cox of Eastland has authorized this paper to announce his candidacy for representative from the 106th district, which includes all of Eastland county.

The candidate has been a resident of the county for 50 years, was county clerk for four years, from 1900 to 1904, and was for six years chairman of the county executive committee. He was also a teacher in schools of the county for a number of years.

In making his announcement he stated that he would have a statement to make concerning his candidacy at a later date.

VANCOUVER ISLAND, B. C. — Basil Keys, British Columbia agriculturist, is creating a tropical paradise. Seeking to prove that his theory that bamboo trees can grow in Canada, Keys completely surrounded his home with half-score varieties of the tropical trees. The trees were flourishing.

SISTER MARY'S KITCHEN

BY MARY E. DAGUE
SEA SERVICE STAR WRITER

"THANK GOODNESS, the cult of salad-making is advancing; it was when people did dreadful things to the noble green, but no more."

To be quite perfect, salad greens should be thoroughly chilled and crisped and served without trace of water clinging to the surface. A watery salad is an abomination. Therefore allow plenty of time to take care of the business properly. The wire salad baskets make for quick work but if you tie the greens loosely in a big square of cheesecloth and swing vigorously you will accomplish the same result.

Place on Menu Varies
In some parts of the country hostesses like to serve the salad immediately following the soup course, in some, as a first course. In this case the salad acts as an appetizer and whets jaded appetites. Naturally, this type of salad must be piquant and not substantial. However, authorities on just how to do things seem to be agreed that the best place for the salad course is following the meat course in the dinner menu.

Hearty salads are welcome for Sunday night suppers and noon luncheons. The combination of meat and vegetables is excellent and the following salads are nourishing and economical examples of this type of salad.

Ham Salad
One and one-half cups diced cold boiled ham, 1 1/2 cups diced cold boiled potatoes, 1 cup diced celery, 1 hard cooked egg, mayonnaise. Combine ham, potatoes and celery, tossing lightly with a fork. Add mayonnaise to make moist and serve on crisp lettuce. Garnish with slices of hard cooked egg.

Potato Salad a la Russe
Two cups diced potatoes, 1-2 teaspoon grated onion, 1-2 cup diced pickled beets, 4 sardines, 4 hard cooked eggs, mayonnaise, lettuce.

Use small new potatoes. Scrub and boil in salted water until tender. Peel as soon as cool enough to handle. Cut into neat dice and chill. Remove skin and bones from sardines and separate into flakes. Cut eggs in slices. Combine materials lightly with mayonnaise and serve on crisp lettuce.

Some other good combinations for inexpensive salads are the following:
Tuna fish, celery, hard cooked eggs, mayonnaise and lettuce.
Salmon and peas combined with shredded lettuce and served on a bed of romaine with mayonnaise.

Boiled veal, diced carrots, celery and diced pineapple combined with mayonnaise and served on a bed of endive.
Equal parts of diced ham, shredded cabbage and pineapple combined with mayonnaise.

One judge and one mayor declared that the expense was too great. Four officials believed that work in 12 answers, projects being rated from 50 per cent to 90 per cent satisfactory in these instances.

could have been done better by entrusting entire supervision to the local subdivision.
"In a program of this magnitude," Drought concluded, "eighteen criticisms from a total of 402 reports represents an encouraging minimum of dissatisfaction."
Attention was called to several extracts from letters to the Works Progress administrator, which included the following:
From Rising Star, Eastland county: "Our city had been using ordinary sandy streets for more than 40 years. Now, every street in town throughout the residential section has been graded and caliche."

7,000-Mile Trip of Newlyweds Covers Jungle and Desert

By United Press
SYDNEY, N. S. W.—A 7,000-mile honeymoon caravan tour of Australia has ended—eight months after the bride and bridegroom set out.

The honeymooners were Mr. and Mrs. Francis Birtles, of Sydney, and in the course of their trip they traveled up the Australian east coast, across the north and down the center, through tropical jungles and sandy deserts.

Their caravan was fitted with a refrigerator, wireless, a sink with running water, water tanks and a portable bath. It was as heat and fly proof as it was possible to make it.

Eight months' supplies of groceries were taken by the couple when they started from Sydney. With rod and gun they kept themselves supplied with fish and meat.

The bride had to prepare most of her cosmetics herself. She invented a face cream which also proved useful for polishing the car which hauled the caravan.

Dixie Aid Seen For Soil Plan

MONTGOMERY, Ala.—Dixie cotton planters, from big plantation owners to Negro sharecroppers, almost unanimously backing the government's new "soil conservation" program to curtail cotton production, agricultural officials believe.

R. J. Goode, Alabama's commissioner of agriculture, estimates that more than 90 per cent of southeastern growers are co-operating. He said a comparison of notes with officials of Georgia, Mississippi Tennessee and North and South Carolina indicated about the same percentage of backing for the plan.

Biggest difficulty has been explaining the operation of the new program to the satisfaction of the farmers, Goode said. Alabama is successfully using the plan of holding mass meetings over the state, with extension service experts as speakers.

Supplanting the Bankhead cotton control act, the new program divides crops into three types: soil depletion, soil maintenance, and soil replenishing. Farmers are rewarded with a bonus for not planting soil depletion crops, which includes cotton.

Co-operation is voluntary. It was compulsory under the old program through high tax levies on excess cotton.

Goode predicts there may be a slight increase in production, depending on the weather and the boll weevil, but not enough to affect the market seriously from present indications.

Most of the planters of Alabama's "Black Belt" are co-operating, but are keeping a wary eye on other states, not quite willing to believe that everyone will come in on a voluntary basis.

As for the Negro comparisons of cotton control programs doesn't worry him.

SNAPPY SALUTES DEMANDED
TOLEDO.—Toledo's uniformed police officers' wife to receive a compulsory course in "military courtesy." Police chief Allen said most of his officers were saluting in the manner that "a tired man greets a poor relative."

Judges and Mayors Endorse State WPA Projects On Streets

SAN ANTONIO.—County judges and mayors of Texas overwhelmingly endorse a work program in preference to relief and idleness, according to a poll recently reported to State Works Progress Administrator H. P. Drought.

Answers from these local officials who have been closely in touch with our projects offers vast encouragement to Works Progress officials. Almost without exception, mayors and county judges from every section of Texas have emphatically declared that our policy of public works to care for the unemployed of this state is far superior to any system of doling out the necessities of life.

"The theme of work, not charity," runs through the entire list of answers to the questionnaire. A predominant majority of the answers indicate that workers on WPA projects are more content, their physical well-being improved, and their morale much higher than was that displayed by the same people when they were receiving direct relief.

Questionnaires to determine the attitude of sponsors toward the program were distributed by WPA officials. In addition to the question concerning the value of relief as opposed to the dole, city and county officials were requested to evaluate the type of work being done and were asked if additional work needed in their communities would justify an extension of the WPA program.

"Most gratifying to us is the wholehearted appreciation expressed for the hundreds of permanent, worthwhile projects operated in the state by WPA workers," said Drought. "Without qualification, 384 of the 402 replies indicated that sponsors are thoroughly satisfied with the type of work being accomplished under this program. Partial satisfaction was indicated

\$5,000 IN PRIZES!

Get this Historical Picture Free!

59 cash prizes every week for 9 weeks—JUST TWO MORE CHANCES!

WELL, SONNY—NOW AREN'T YOU SORRY YOU JOINED THE TEXAS RANGERS?

What would you say? Write your answer, in 25 words or less, on the coupon below or on a separate sheet of paper.

Hurry! Hurry! Only 2 More Chances to Win Big Cash Prizes!

DON'T delay! Get into this exciting, easy contest today! There are 59 cash prizes to shoot at! Just think of it . . . you may win \$100 by simply writing 25 words! So sit down right now and write your answer.

And don't forget this! You have just this week and next to win one of these big cash prizes! For there'll be only one more contest after this one. Watch next Friday's paper for next week's contest. But in the meanwhile, get busy on this week's contest. A few minutes easy work may bring you a check for \$100.

General Foods is sponsoring these contests to better acquaint you with two things . . . the stirring episodes of Texas history and the variety and tempting flavor of the six Post Cereals. We hope you'll win a prize . . . and we know you'll like the Post Cereals. Try them all. They're swell with fruit or berries!

THE ALL-STAR FAVORITE CEREALS OF THE LONE STAR STATE!

How you'll love Post's 40-Flake Bran Flakes—the original bran flakes . . . with the deliciously different, nut-like flavor! But more than that, extra daily, they help keep you fit! For they supply the bulk food many diets lack. And adequate bulk is necessary for keeping fit!

GRAPE-NUTS FLAKES—the famous food Grape-Nuts, in flake form.

POST TOASTIES—the better corn flakes—tasted double crisp.

GRAPE-NUTS—crisp and crunchy—with a rich, nut-like flavor all its own.

POST'S WHOLE BRAN—the most palatable form . . . before relieve constipation due to insufficient bulk.

MUSKIES—for breakfast—the new whole wheat flakes with a brand-new flavor.

C. W. POST A SON OF TEXAS, ORIGINATED POST CEREALS

- RULES**
- 1 Read what the Texas Ranger is saying in the picture at the left. Then decide what your answer would be.
 - 2 Write your answer in 25 words or less on a sheet of plain paper or in the proper space on the coupon below.
 - 3 Write your name and address on the paper or the coupon below.
 - 4 Attach your entry to one package top from any one of the six Post Cereals shown below and mail to Centennial Contest, P. O. Box No. 1616, Dallas, Texas.
 - 5 Prizes will be awarded for the answers which, in the opinion of the judges, best express the spirit of devotion, bravery and self-sacrifice that characterized the early Texas patriots. Literary skill or "fancy" writing will not count. Do not send any drawings or elaborately prepared entries.
 - 6 Judges in the Texas Centennial Contest are Mr. S. W. Paper, President of the Texas Daily Press League; Mr. C. C. Mass, General Manager, Houston Post; and Mr. Victor H. Schindler, President, Texas Geographic Society. All entries shall become the property of General Foods and may be used as it sees fit. All decisions of the judges will be final. In the event of ties, duplicate prizes will be awarded.
 - 7 Entries in this week's contest must be postmarked not later than midnight of May 29, 1936.
 - 8 No employee of General Foods, or member of his or her family may compete in these contests.

59 CASH PRIZES EVERY WEEK!

FIRST PRIZE . . . \$100.00
SECOND PRIZE . . . 75.00
THIRD PRIZE . . . 50.00

Ten Prizes of \$10.00 each
Forty-Six Prizes of \$5.00 each

FREE! To everyone who enters this Texas Centennial Contest! A monochrome reproduction of this picture of a skirmish between Texas Rangers and outlaws, drawn by Norman Price, 9 x 12 inches. Contains no advertising. Suitable for framing. There's a new picture each week for 9 weeks (list of others sent on request). If you want the picture shown above without entering the contest, send your name and address with one top from any family-size Post Cereal package.

Write your answer here on a sheet of paper—
in 25 words or less.

Centennial Contest, P. O. Box No. 1616, Dallas, Texas.

Truckers Meet and Formation of Local Organization

At a meeting of truckers held at the Gholson Hotel Wednesday night, plans for organization of a local chapter of the Texas Truckers Association were outlined. A. T. Castleberry, state organ-

izer, and E. L. Hearn, of Abilene, were present and outlined the plans for the state organization, which has been formed to promote the interest of truckers and to help secure trucking laws that will "enable the truckers to make a living," were brought out by speakers.

Approximately 40 interested in revision of the present trucking laws were present at the meeting. Hearn stated Thursday that the local chapter would be organized with officers elected at a meeting

CHATTING 29 RANGER STREETS ON WPA PROJECTS TO BE ENDED BY MONDAY SUPERVISOR STATES

W. A. Martin, project supervisor for the Works Progress Administration, and Fire Chief G. A. Murphy of Ranger, announced Thursday that the WPA project of chatting 29 Ranger streets would be completed after six hours of work was done on Monday, May 18.

In announcing the completion of the project, Martin said that he did not know, as yet, what the next Ranger project would be, but that there were two or three that might be approved, including the beautification and improvements on Hospital Hill, work on the Ranger airport and on the football stadium and field.

The work on the Ranger streets has been done in about three months, with a cost to the federal government of about \$10,000 and

a sponsor's credit of \$6,000, making the total cost of chatting more than eight miles of streets only \$16,000.

A total of more than 9,000 truck loads of chat, with a minimum of one and a half yards to the load, has been hauled and placed on the 29 streets that have been improved, with more than 14,000 cubic yards spread over 45,000 lineal feet of streets.

The maximum number of men used in completing the project was 77 and on Thursday morning a total of 54 men was being used in finishing up the work. All the labor used on the jobs was taken from the relief rolls, Martin stated.

About 500 yards of chat will be hauled between Thursday morning and the time the project is completed, Martin stated, bringing the total number of cubic yards hauled to slightly over 14,500. All the chat used was secured from the chat mound at Tiffin and was trucked in by relief labor.

The chatting project has taken many Ranger citizens "out of the mud" it was stated Thursday, as practically every street that was chatted was muddy during rainy weather.

Laugh This Off! Sheriff Drinks With Desperado

Sheriff James O'Reilly of Lucas county, Ohio, is having a big laugh here—at his own expense. The sheriff has revealed that he drank beer in Toledo with Harry Campbell, last of the Barker-Karpis gang suspects arrested, under the impression that Campbell was "Bob Miller." A picture of Campbell as "wanted" has been posted in the county jail for months. The sheriff says he won't resign.

Eyes of Nation on Texas System For Paroling Convicts

AUSTIN.—That the eyes of the nation are upon Texas' experiment with the voluntary parole board system inaugurated by Gov. James V. Allred, has been evidenced by newspaper comment to that effect. The Little Rock, Ark., Democrat recently said, after a lengthy discussion of the plan, "Perhaps Arkansas can learn something from Texas."

A Council Bluffs, Ia., paper reviewed at length the Texas Plan and compared it with the Iowa system of indeterminate sentence.

A Walla Walla, Wash., newspaper said: "A novel experiment in handling paroles for prison inmates is now in operation in Texas. Clearly, such a system ought to have some definite advantages if conducted in the manner related. Much of our difficulty with the parole system is that men released from institutions have to go entirely on their own, against a world which is hesitant to give a chance to anyone who has worn a number."

Inquiries have been received from public officials all over the Union requesting information as to the Texas plan, Governor Allred revealed.

There are at the present time some 160 volunteer County Parole Boards supervising paroled convicts in Texas, the governor further said. Complete organization of the State is expected at an early date.

Remembrance Book Lists 68,000 Veterans

VANCOUVER, B. C.—Following four years of work, James Purves, heraldic artist and illuminator virtually has completed the Book of Remembrance that will be placed in the memorial chambers of the Parliament Buildings at Ottawa. The book will contain the names of 68,000 Canadians who lost their lives in the war from Aug. 4, 1914 to April 30, 1922.

Fund Proposed To Aid Injured Boxers

LONDON.—A plan is being developed in the British boxing world to provide some form of pension scheme for fighters, especially those who grow "punch-drunk" from acting as chopping blocks.

An effort is being made to get the boxers, managers and promoters to co-operate in the plan, and it is believed that many of the 600 members of the boxers' union favor the idea.

A plan is envisaged whereby boxers would make small but compulsory contributions to an insurance fund, and special arrangements would be made for care at special rates.

CROW EATING INCREASES

TOLEDO.—Ohio crowd-enters have become so fond of their newly discovered delicacy that, at a recent American Legion banquet, no meat other than crow was offered by the menu.

MEMORIAL DAY OBSERVANCE IS BEING PLANNED

The Carl Barnes Post of the American Legion and the Sam McKinnon Camp of the Spanish-American War Veterans will hold memorial services at Ranger at 10:30 on the morning of May 30, and at Strawn at 3 o'clock in the afternoon.

The public has been cordially invited by the two veterans' organizations to attend both the services in the following resolution:

Whereas the President of the United States and the Governor of the State of Texas have by official proclamation set May 30 as memorial day. We the American Legion and Spanish American War Veterans ask the cooperation of all the citizens in the community of Ranger and Strawn to have the graves of deceased members of their families that are in the various grave yards clean and in presentable condition for memorial day.

The American Legion and the Veterans of the Spanish American War will hold memorial services at the Evergreen Cemetery at 10:30 a. m. and at the Strawn Cemetery at 3 p. m. The public is invited to participate in these services. All churches and fraternal organizations are especially invited.

All families and friends having veterans of the Civil, Spanish American, and World Wars are asked to please get in touch with the committee or the sexton of the cemetery so that all veterans graves can be located so that flags may be displayed on all their graves.

Interest In Texas Is World Wide

DALLAS.—Interest in the state of Texas and its Centennial year celebrations is world wide, according to requests for literature and information.

Several thousand inquiries are received each week as the result of the extensive advertising campaign carried on by the state organization.

Inquiries have been received from practically every foreign country.

The state department answers each inquiry with a varied assortment of printed matter, descriptive of the Lone Star State and its state-wide Centennial celebrations

Texas Charters on Decline for April

AUSTIN.—New charters granted Texas corporations during April declined sharply both in comparison with the preceding month and the like month last year, in the number of charters and their capitalization, according to the University of Texas Bureau of Business Research. The number of new charters totaled 138, against 173 in March and 166 in April last year, decreases of 20 per cent and 17 per cent respectively. Total capitalization, 1,304,000 was down 0 per cent from the preceding month and 37 per cent from the corresponding month last year.

The transportation group alone showed an increase in the number of new charters granted over the two comparable periods.

WINNERS IN THIRD CONTEST ANNOUNCED, STILL TIME TO COMPLETE FOR CASH PRIZES

Mrs. Bruce Curlee, 4709 1/2 Harrisburg boulevard, Houston, mother of one child and machinist's wife, is the \$100 first prize winner in the third of a series of Texas history contests sponsored by the makers of Post cereals. Another of the contest pictures appears in today's paper.

Mrs. Curlee's answer to the third contest question, dealing with the exploration of Texas by Coronado, was noted outstanding among thousands of entries from

"MUCH RELIEVED," SAYS LADY AFTER TAKING CARDUI

Although they may be very active and apparently in good health, many women, at certain times, will do well to take Cardui. It may relieve some of the nagging symptoms that are so annoying every month.

Mrs. F. T. Foster, of Greensburg, Ky., writes that she has "derived great benefit" from Cardui. "Before taking Cardui, I was weak and extremely nervous, and suffered from sleeplessness. This made me tired and worn in daytime. My back ached continually. Being an active woman, I did not want to continue in this condition. Having heard a great deal about Cardui, I found, after just a few bottles, I was much relieved. I continued taking Cardui and was so much helped that I am now well."

Of course, Dr. Cardui does not benefit YOU; consult a physician.

IDLE ASK CUT IN DOLE
By United Press
TECUMSEH, Ont.—Tecumseh's unemployed created some kind of a record recently when they appealed to the town council to cut their welfare allowance by 25 per cent. The request was made and granted when the jobless citizens learned the town was hard-pressed to support them.

IT PAYS TO LOOK WELL!

At Last MODERN REFRIGERATION FOR THE FARM AT ONLY A FEW CENTS A DAY

ELECTROLUX
the same Air-Cooled Refrigerator that is satisfactorily serving 350,000 city homes now operates on inexpensive **KEROSENE**

THIS refrigerator is not a makeshift. It's the same nationally advertised Electrolux that is serving thousands of city homes so satisfactorily. It's the famous air-cooled refrigerator that has won the endorsement and backing of the great gas industry.

In the city Electrolux operates on gas. In the country it uses inexpensive kerosene. A wickless glow-type heater replaces the tiny gas flame used in cities.

In every important respect this rural Electrolux has the identical cabinet—sturdy and gleaming white—that's found in the finest city apartments.

Electrolux offers the same money- and time-saving conveniences, gives full protection for foods... speeds the preparation of crisp salads and delicious desserts.

Electrolux has no moving parts. This means that it has nothing to wear and become noisy—nothing to need costly repairs. Electrolux uses no water.

It costs remarkably little to run... its five-gallon tank holds enough kerosene for more than a week, needing only occasional attention.

Former Pancho Villa Aides Recall A Sweet Tooth, Romantic Heart and Lust for Killing Chinese His Fortes

BY ROY J. FORREST,
United Press Staff Correspondent
HOUSTON.—Pancho Villa, Mexico's notorious revolutionist, had a sweet tooth, an unexplained lust for killing Chinese, and a romantic heart.

But to Capt. Aurelio Reynosa and Lieut. Gustavo R. Ypina, one-time members of Villa's army, he was to Mexico as Gen. Sam Houston was to Texas—a great liberator.

Reynosa and Ypina, friends since they joined Villa in 1914 at Agua Calientes, bear three scars each from bullet wounds—"medals" of past campaigns. Reynosa is now an ice man and Ypina a jeweler.

Memories of Mexico's Robin Hood have not been dimmed by the years since the revolution of 1914-1916 for Reynosa and Ypina, who believe Villa was one of their native country's greatest heroes.

"The Mexican people are just now beginning to appreciate what he did for them," Ypina said. "He was a great patriot. Some say he was just a bandit, but he was the only man in Mexico's history who disposed of two tyrants and then, with the power to become dictator, disbanded his armies and gave the government back to the people and retired to private life. How many Mexican leaders with his power would have done that?"

Ypina declared that Villa was not the dark, uncouth, illiterate killer that he had been pictured to Americans.

"Villa was over six feet tall and weighed about 220 pounds," he said. "His complexion was light. His mustache was red as fire and his hair a deep auburn. His physical strength was exceeded only by his skill with a gun."

"You've heard about it that he couldn't read or write. That's a lie. He could do both well. I know that, for I was with him almost constantly for two years while he received and gave orders."

The revolutionary chieftain gained his gory reputation, not through his own deeds, Reynosa and Ypina declared, but through his lieutenant, Fierro.

"Fierro was a killer—the worst I ever saw," Reynosa said. "He killed hundreds of people. Some of them were Villa's own men. I've seen him shoot men and women in cold blood. When he couldn't kill people, he went down to the stockyards and shot cattle."

Search For Ruins Near Rockwall Is Creating Interest

DALLAS.—Search for the ruins of an ancient civilization has begun in Rockwall, a little town 25 miles north of Dallas. Rockwall was named because an old wall was found where the city stands.

If the theory of R. P. Canup, Rockwall business man, is correct, an ancient buried city will be uncovered.

Undismayed by reports from a few geologists that the old wall is the work of nature, Canup stated he would continue his excavations until he finds the bottom of the wall—or the city.

Excavation of the wall has been under way for the past three months and has resulted in uncovering an eight-foot wall for a distance of 120 feet.

In the open cut along the wall, Canup found a large collection of fossils. Some were said to be bones of prehistoric animals.

"Many students of rock formation have told me that no natural formation could be as symmetrical or consistent in its direction around the town as this wall," Canup said. "Among the geologists who believe that the wall is man-made is Count Da Prorok, who visited Rockwall 10 years ago and declared that it is certainly the work of man."

"The fact that the wall turns and makes a square corner leads me to believe that it is man-made masonry," he said. "Nature does not, as a rule, build corners in this fashion."

"If this is a natural well, we have found a most unusual break in it. It looks very much as if the opening we have discovered is the top of a door or window."

"I am going to continue the excavations until the limits of the opening are determined at least sufficiently to decide the difference of opinion as to whether the wall is natural formation or the work of prehistoric man."

CO-EDS FROWN ON DRINKING
By United Press
PROVO, Utah.—A man needn't be good looking or a star athlete but he must have a high moral standard and abstain from drinking and smoking to be popular with co-eds of Brigham university, a poll reveals.

FAMILY LIVES ON 9c DAILY
SHAUNAVON, Sask.—Mayor James Cardno and his family lived on 9 cents a day for six weeks to prove to unemployed here that relief grants were sufficient. The mayor said the average meal cost him 3 cents.

YEW TREES AID IN ARCHERY
OROSVILLE, Calif.—The extensive growth in California of lemon and yew trees from the wood of which bows are made has resulted in a revival of archery. This city has organized its first archery club.

Central West Texas Oil Field

South Bend Well Drops After Flow

BRECKENRIDGE.—Reports from the oil section near South Bend received were that flush production in the Curtis-Bracken well at the northwest edge of the field had dropped so low that the hole will be deepened and acidized. The hole, once considered dry, was acidized and for a while flowed at the rate of 40 barrels per hour. It dropped to three barrels.

Pitzer & West are abandoning their Thornton No. 1 a short distance from the old South Bend depot, at 4,425 feet, but are drilling on the offset.

The two are at opposite extremes of the oil field. Workers are busy on four new holes being started in the river section of the field.

TRY THESE BABY—THEY STAY CRISP!

Kellogg's Wheat Krispies have something new in wheat cereal. Just enough rice is blended with whole wheat to add new flavor and new, wonderful crispness. They actually stay crunchy in milk or cream.

Your grocer has this wonderful cereal in large economical packages. Ask him for Kellogg's Wheat Krispies. Try them. Enjoy them often—breakfast, lunch, or for a late-night snack. Always fresh and ready to serve. Always delicious. Made by Kellogg in Battle Creek.

GRADUATING EXERCISES TO BE MAY 24-26

Graduating exercises for the Ranger High School and the Ranger Junior College will be held on Sunday, Monday and Tuesday evenings, May 24, 25 and 26, it was announced today by W. T. Walton, superintendent of the Ranger Public Schools, and president of the Ranger Junior College.

The baccalaureate sermon will be delivered at the Recreation building Sunday evening, May 24, according to the announcement. The preacher who will deliver the sermon has not been announced, but a good program is being worked out.

The graduating exercises for the high school graduating class will be held on Monday night, May 25 and the exercises for the junior college graduating class will be conducted on the evening of Tuesday, May 26.

Programs are now being worked

out for both events, with speakers of prominence over the state having been secured for each evening and other features of the program being arranged.

Gov. Allred Urged Pardon Power Be Vested In Board

AMARILLO, May 12.—Gov. James Allred told the convention of the West Texas Chamber of Commerce today that he would like to see the pardoning power taken out of the governor's hands. "Administration of this power by a state pardoning board would make for more uniform handling of convict cases. It would be fairer to the convict and to society. Moreover, it would enable the governor to turn his attention to other matters," he predicted.

He added his belief that "the changing ideas of changing governors should not be made a standard for the respectability of a criminal after he has paid his debt to society."

The executive predicted there would be a great influx of people into Texas for the Texas Centennial celebration, "more than repaying the state its Centennial appropriation as well as adding new citizens to the state."

Galveston Plans Interesting Group Of Summer Events

GALVESTON.—Galveston, resort city on "Pleasure Isle" and great gulf port, has developed a program which will make it a center of interest to Texans and their visitors during much of the Centennial year.

Five events are planned in June, July and August, following the opening Mardi Gras celebration held in February. They are the Centennial Splash week, June 6 to 14; the Oceaner festival, June 19 to 22; the Water Carnival week, July 19 to 26; the Centennial Beach carnival, August 3 to 9, and the Annual Auxiliary Cruiser races, August 8 to 9.

Funeral Held at Cisco for Woman Born at Carbon

STAMFORD, May 12.—Funeral services for Mrs. Lee Snyder, 42, of Lueders, was held Monday afternoon at the graveside in Mitchell cemetery at Cisco.

Mrs. Snyder died in the Stamford sanitarium Sunday morning. She has been ill for some time. Viola Maxwell was born July 7, 1894, in Carbon. She had lived in Cisco and in Albany, and had been a resident of Lueders for four months. Her husband is employed in the oil field near there.

Survivors are the husband and 11 children. They are: George Snyder of Albany; Chester, Virgil, R. B., Ed, Jack, Wesley, Billy, Gerald, Hazel, Betty Jo and Dorothy Snyder of Lueders. Other survivors are four brothers, Bert Maxwell, of Eunice, N. M.; Rufus and Andrew Maxwell of Cisco; G. E. Maxwell of Santa Anna; and one sister, Mrs. Williamay Herington, Cisco.

Motor Tester is To Be Installed By Anderson-Pruet

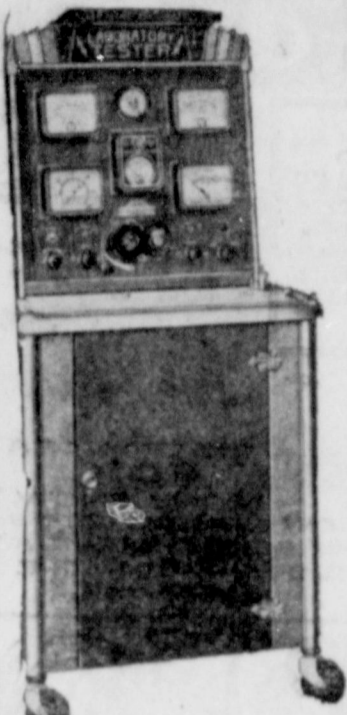

Anderson-Pruet has purchased a Sun Motor Tester, the very latest device for testing an automobile motor while it is running to tell just what adjustments should be made to make it operate perfectly.

A factory representative will be in Ranger Monday to install the machine and to give instructions on how it should be operated. Anderson-Pruet invites the public to drive in and see how the machine operates while the factory man is in town.

Many cars are being driven without the proper carburetor adjustment or the proper ignition timing, which lets the car operate without giving the best possible efficiency. After being tested on the Sun machine the mechanic can quickly tell just what adjustment is needed.

In explaining how well the machine worked it was pointed out that it was as though the motor was made of glass and one could see just what was happening inside, which enables the mechanic to make a more thorough check on the condition of a motor than ever before.

Tests Motors

The Sun Motor Tester, pictured above, is being installed by Anderson-Pruet in order that a careful and inexpensive check can be made of an automobile motor's performance.

Estimates Made On Winter Wheat

WASHINGTON, May 12.—Preliminary estimates today indicated that American farmers will get about \$270,000,000 from the 1935-36 winter wheat crop.

The estimates were based on the agricultural department crop reporting board forecast of a winter wheat crop of 463,708,000 bushels and on the current price of 84 1-2 cents for September wheat on the Chicago board of trade.

CATTLE CLUB CHARTERED

AUSTIN, May 12.—Chartered: Johnson County Jersey Cattle Club, Claburne; encouragement of agriculture and horticulture. Capital stock, none. Incorporators, C. B. Hughes, Willard Barnes, R. L. Anderson.

Boulder Current to Upset Timepieces

LOS ANGELES.—The city has ordered 200,000 sixty-cycle clocks to replace the present 50-cycle time keepers that will be outmoded as soon as the Boulder Dam electric system gets into operation.

Otherwise the old clocks with the new 60 cycle impulse would make the citizens speed up 20 per cent faster than previously.

Dr. D. T. Wier Opens Office in New Mexico

Friends of Dr. D. T. Wier will be pleased to learn that he has recently opened an office in Belen, N. M., where he will practice his profession of medicine. Dr. Wier is the son of Dr. A. K. Wier and

is well known in Ranger. Mrs. Wier is the former Miss Maxine Henderson of Olden. They have been in New Mexico about one year. Before entering private practice after turning over three times, United States government.

KING CITY, Calif. — Mrs. L.

D. Carson, aged 88, gave a birthday party to every resident of the county over that age. She managed to find eight qualified guests and cooked a dinner for them.

PLANT EATS HAMBURGER

SALT LAKE CITY.—A local restaurant manager feeds his two plants a monthly ration of raw hamburger, slightly seasoned with paprika. They are daintions, carnivorous plants which live on insects and meat.

"She's Better Today"

WHEN a loved one has been ill, what a joy these words bring to you! And to us, too. For not only is a friend recovering, but often we have helped in that recovery by rushing medicines and supplies to the sickroom, filling prescriptions for the doctor.

"Better today"! How glad we are that we had all the drugs needed, that they were fresh, and of the highest quality obtainable. The privilege of filling such prescriptions is sacred to us. So remember, when you need medicine, it's safe to have faith in us.

Painting of La Salle Presented to Texas

DALLAS.—A painting of the French explorer, La Salle, arriving in Texas will be presented to the State of Texas by the French government, officials of the Texas Centennial exposition have been advised by the French embassy in Washington.

The painting, which has been hanging in the Museum of Versailles, will be sent to Texas for permanent keeping in the Dallas Museum of Natural History at the exposition.

The painting, by Gudin, is called "The Landing of Cavalier de la Salle in Texas."

France, which once owned part of Texas, also is sending several other items for exhibit at the Exposition. They include a plaster cast medalion of La Salle from the Cathedral of Rouen and a colored reproduction of 10 old maps of Texas of the 17th century.

The shipment is due to arrive aboard the Normandie in New York, May 11.

Split Teeth of Dog Puzzle to Professor

SANTA ANA, Calif.—Split teeth in both the upper and lower jaws of a mongrel dog have puzzled southland professors following discovery by Paul Christ, student at the Santa Ana Junior College.

While cleaning the body of the dog for an experiment in his college zoology course, Christ found the split teeth and reported the finding to J. Russell Bruff, college science head. Professors at the University of Southern California and the University of California were consulted but no explanation of the curious teeth formations could be given.

Hereditarily was cited as the cause by Bruff, although he admitted it was the first case of its kind to come to his attention.

The dog's skeleton has been mounted for exhibition in the college laboratories.

GOOD NEWS

We are installing a new Scientific Motor Tester that reveals all motor operations!

By means of this marvelous new, scientific machine, YOU, yourself can virtually SEE THROUGH THE METAL WALLS OF YOUR OWN MOTOR. Every connection, every operation, or the slightest mis-adjustment anywhere in your motor is fully REVEALED. Now you can feel SURE that no unnecessary work will be done, no needed work overlooked and that each part functions exactly as it should.

DO YOUR KNOW...

That most cars are running with incorrect ignition or carburetor adjustments, uneven or weak compression, sticky valves, fouled spark-plugs, leaky gaskets, weak condensers, pitted ignition points, or some other easily corrected abnormality, all of which the Sun Motor Tester will disclose accurately and quickly.

We cordially invite you to come in and see our new Sun Motor Tester in operation. See how speedily and UNERRINGLY it "spots" any abnormality that... unknown to you... may be preventing you from enjoying the BEST performance of your car... or be costing you money every day in upkeep or operating costs.

A factory representative of the Sun Motor Testing Machine Company will be at our shop Monday afternoon and Tuesday.

Politics Can Destroy All Good of G-Men

It isn't exactly news, any more, that the Bureau of Investigation of the Department of Justice is one of the most efficient police organizations ever set up anywhere.

The G-Men, in short, have justified all the fine things that have been said about them, and have demonstrated that they are a national possession of great value in the war on crime.

But we might just as well recognize right now, before we begin indulging in the kind of hero-worship that will exalt this outfit into a superhuman creation that cannot err, that along with this power goes an equally weighty responsibility.

If this efficient bureau is to meet this responsibility, it must be kept forever divorced from politics.

That does not mean merely that congressional job-hunters must keep their noses out. It means that no federal administration must ever be permitted to use this organization for anything but the prevention of punishment of actual felons.

There must never be even the faintest suspicion that its activities are directed against any personal or political enemy of a president or a member of his cabinet or political party.

To understand why this is important you need do only one thing; imagine the late Huey Long in the White House, with the matchless organization of G-Men lying ready for his hand to pick it up and use it for his own ends.

Dwell on that picture briefly and you will see that an unscrupulous executive with dreams of a dictatorship could make of this Bureau of Investigation a terroristic instrument of repression which would make OGPU, Okhrana, and Gestapo look like something the Boy Scouts invented.

There is, fortunately, no need to lie awake nights, worrying about it. There has been not the slightest hint that the present administration would dream of trying to pervert the organization in such way. There is no reason to suppose that any of the presidential candidates now on the skyline would harbor such dreams.

All we need do is recognize that the machinery is there, and that a president who wanted to be dictator would find it infinitely useful.

once and for all that the continued usefulness of this splendid organization depends on its remaining permanently divorced from politics.

Political Announcements

The Eastland County News is authorized to announce the following candidates for office, subject to the Democratic Primary Election July 25, 1936:

Justice of Peace, Precinct No. 2: J. F. MITCHELL J. N. McPATTER (Re-election)

Constable, Ranger Precinct: L. J. "Slim" HARDIN

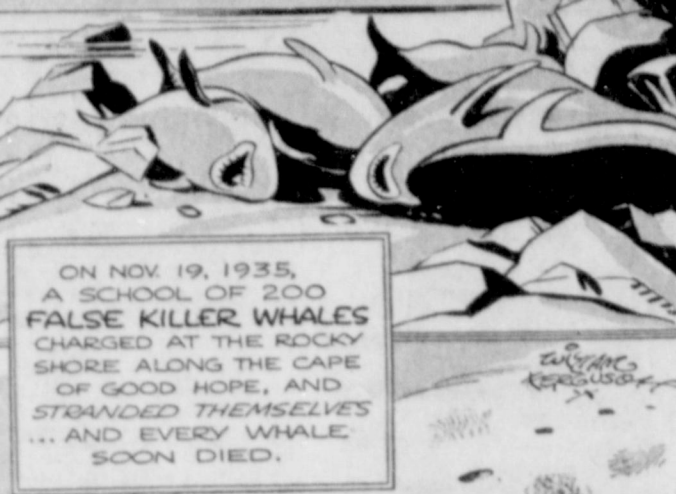

Padre Island Park Development May Open Wonderland

CORPUS CHRISTI — Plans for the development of Padre Island, which extends down the Texas gulf coast line from Corpus Christi to Brownsville, as a park form a Centennial year project which will give Texas one of the most unusual parks in the world.

THIS CURIOUS WORLD

By William Ferguson

WHALE SUICIDE?

ON NOV. 19, 1935, A SCHOOL OF 200 FALSE KILLER WHALES CHARGED AT THE ROCKY SHORE ALONG THE CAPE OF GOOD HOPE, AND STRANDED THEMSELVES ... AND EVERY WHALE SOON DIED.

THE TRAIL OF A FOX, IN THE SNOW, CAN BE RECOGNIZED BY THE BRUSH MARKS AT THE SIDE, MADE BY THE BUSHY TAIL!

INSECTS OUTGROW THEIR SKELETONS AND SHED THEM, FROM TIME TO TIME.

INSECTS have their skeletons on the outside of their bodies, and, since the skeleton is hard and inelastic, something must be done to accommodate the increase in size. This problem is solved by periodic molting of the outside skin, or skeleton. Mayflies molt 20 times or more before reaching maturity.

Plans for the development are far advanced and are being promoted through the interest and cooperation of the entire South Texas territory. It is proposed to construct causeways at each end of the island and to develop a scenic highway along its length which would allow the motorist to travel for approximately 150 miles along the surging surf of the Gulf of Mexico.

Padre Island, known as Santiago Island long ago and then as the Isla del Padre Balli, stretches down the coast of Texas from Corpus Christi bay to Point Isabel with the pounding surf of the Gulf of Mexico on one side and the more placid waters of Laguna de la Madre on the other. Long miles of shifting sand dunes and beach grass-covered hummocks which at one time heard only the rasping sound of the sea gulls and the roar of the surf and knew only wild life have seen the unfolding pageant of life as the Indians came to give way in time to the Spaniard, the Mexican, the cattleman, and the vacationist.

New Rules About Soil Conservation Received Saturday

Elmo V. Cook, county agent for Eastland county, has received word of several changes in the soil conservation program regulations that will be of interest to farmers of this county.

"A number have been asking if credit would be given on black-eyed peas," Cook stated Saturday, "and we have been informed that black-eyed peas will be considered as cow peas and the same credit given."

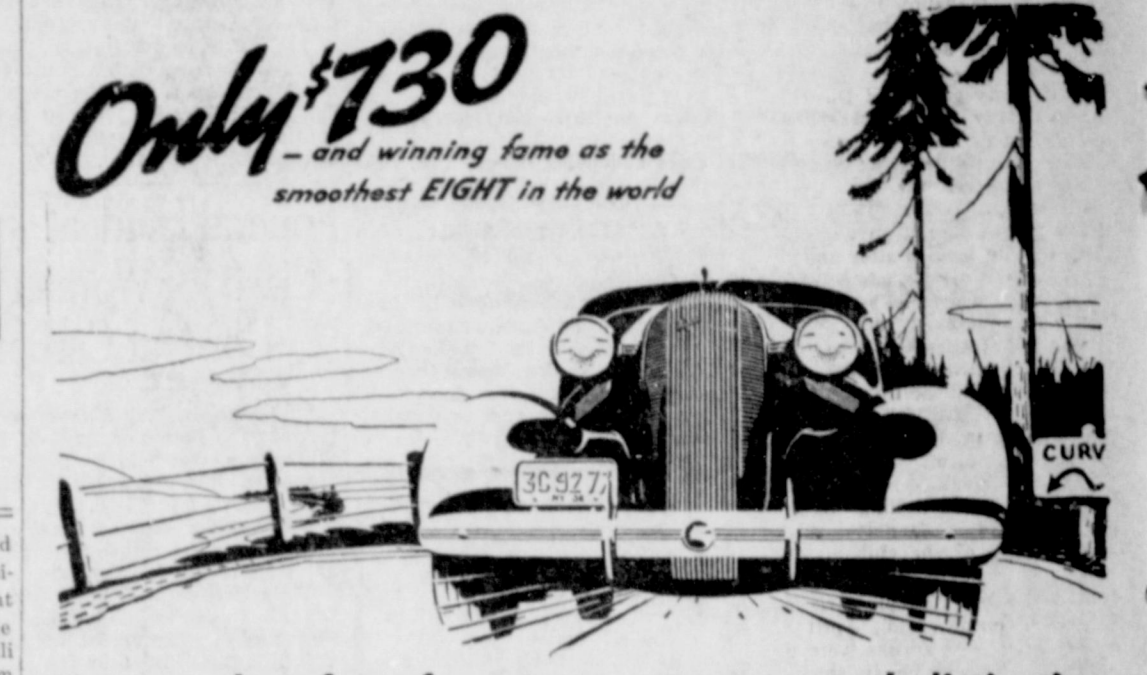

Another regulation that has been changed, Cook stated, is where the landlord has several tenants he can make one work sheet cover the entire farm, whereas a separate work sheet has been required for each tenant in the past.

Monday will be the last day on which farmers may sign up in the Ranger territory, Cook pointed out, while Friday, May 15, is the last day for any farmers to sign up. After the committee meet in Ranger on Monday to sign up farmers they will be in Cisco on Tuesday, Carbon on Wednesday, Gorman on Thursday and Rising Star and Eastland on Friday.

News From 4-H Clubs of County

The Scranton 4-H club girls met April 27, at the Scranton school. Aprons were handed in. Cora Faye Stewart, assistant home demonstration agent, gave a demonstration on how to score the aprons. Mary Edna King's apron was scored the best by the club girls. Miss Stewart gave a demonstration on how to alter a slip pattern. A slip pattern was left with the wardrobe demonstrator and the garden demonstrator for the girls to use.

The following club girls were present: Johnnie Pearl Leveridge, Mary Edna King, Anna Bell Barron, Mary Lee Black, Wilda Ruth Ledbetter, Marie Simpson, Alma Lee Pittman, Dorothy Ben Ray, Alma Frances Shrader, Mildred Scott, Geneva Evans, Mildred Boland, Melba Dean Thompson, Margaret Maxwell, Lois Killough, Teresa Beebe, Madalene Beebe, Helen Rayand and the club sponsor, Miss Elizabeth Jobe.

The Colony girls' 4-H club met Tuesday, May 4, at 8:45 at the Colony school. The girls scored the finished aprons. Imogene Stuard's apron was scored the best. Cornelia Faye Stewart, assistant home demonstration agent, gave a demonstration on how to alter and cut a slip out. Slip patterns were left with the wardrobe and garden demonstrators.

The following girls were present: Mildred Harrell, Minnie Wanda Morton, Opal Holliman, Clara Jane Harmon, Christene Akers, June Akers, Imogene Stuard, Jessie Morton, Norma Gene Hadley, Virginia Eubanks, Norma Ruth Crabb and Pearl Ridling. Lometa May and Ruth Jeanette Akers were visitors of the club.

The Romney 4-H club girls met at the Romney school, April 27, at 9 o'clock. The aprons were discussed. They will be finished by the next club meeting. The following club members were present: Georgia Mary Phar, Essie Lou Marsh, Edith Frye, Earlene Marsh and the club sponsor, Mary Alice Webb.

The Olden grammar 4-H club girls met Tuesday, May 5. The girls are working on their aprons and will have them finished by the next meeting day. Those present were: Violet Newell, Verda Jean Spurlen, Maxine James, Margaret Horn, Jean Marlow, Wanda Choate, Marcelle Kulen, Joyce Hendrix, Sara Crawford, Wanda Neale Sharrett, Ollie Marie Adams, Dorie Roberts, Jammie Crossley, Marain Crawford, Jennie Betty Weeks, Opal Britt, Fredie Burke and the club sponsor, Mrs. Scruggs.

The Kokomo 4-H club girls met at the Kokomo school, May 6. The club girls all had their aprons finished and they scored them. Lily Hagar's apron was scored best by the girls. Cornelia Faye Stewart, assistant home demonstration agent, altered and placed the slip pattern on Phyllis Jean Donaldson and Lilly Dell Hagers' material, showing the girls how to cut them out. The following club girls were present: Lily Dell Hagar, Verna Eaves, Virda Eaves, Louise Eaves, Billie Timmons, Jean Mangum, Neva Caudle, Mary Morris, and the club sponsor, Mrs. L. R. Higginbottom. Mrs. Eaves was a visitor of our club.—Reporter.

\$54,000,000 is Paid On Insurance In Effect Few Months

NEW YORK—During 1935 over 78,800 first year death claims for a total of \$54,400,000 were paid by American life insurance companies, according to a tabulation issued this week by the "Weekly Underwriter," insurance newspaper. These are only the claims paid on the lives of those who died while their life insurance policies were less than a year old.

This is an average of 260 claims totaling over \$180,000 for each business day on persons who had taken out new insurance during the previous 12 months. They were in good health at the time of examination or they would not have been insured, yet accidents and sudden illnesses took a toll of nearly 80,000 persons, involving insurance of over \$4 million dollars.

"This is even more significant when it is realized that one in each 25 persons who died last year owned a policy that was not yet a year old," says the "Weekly Underwriter."

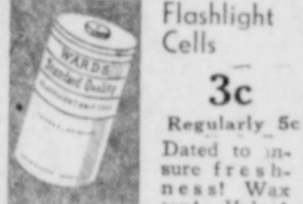

Closely linked with this fact is the report by the publication that one in each 35 persons who died last year had dropped a policy during the previous 12 months, representing millions of dollars lost to their families through dropping the insurance just a few months before death.

CITY'S DRIVERS ON GUARD SALT LAKE CITY, Utah.—Vacations without pay face city employees who are in wrecks with city automobiles, under a ruling made by Mayor E. B. Erwin. The schedule is: first wreck, one week suspension; second wreck, 30 days; third wreck, indefinite suspension.

Rabies Control Rules Are Given

AUSTIN.—Rabies is increasing in prevalence in many parts of Texas, although it may be controlled and even could be exterminated by intelligent measures, according to records of the State Health Department. Unfortunately has been the practice to wait to apply control measures until the disease is widespread.

The dog is the chief source of

rabies infection in man, but all warm blooded animals are susceptible. Contrary to a wide spread belief, rabies is not a warm weather disease. It occurs just as frequently in the cold months. The most logical procedure in the control of rabies would be to vaccinate all dogs. Where this is impossible the stray dog should immediately be impounded, for the stray dog is chiefly responsible for the spread of rabies.

Public health authorities are handicapped in their fight against the spread of rabies because rabies in humans occurs only infrequently. However, it must be remembered

that rabies is 100 per cent fatal once the disease has developed. Treatment is only preventive and must be taken in time.

Do not kill the dog that is behaving strangely or immediately after it has bitten some one. The animal should be captured and kept under observation for ten days to determine whether it has rabies or not. The confinement should be ample secure, for a dog in the frenzy of furious rabies requires a much stronger collar and chain or enclosure than a non-rabid dog.

When the rabies virus is put into the body by a biting dog the

virus travels slowly from the wound along the nerves until it reaches the brain and spinal cord. Thus if the bite is on the face the virus does not have far to travel to reach the brain. Consequently bites on the face are the most dangerous and immunization must be started at once.

It is possible to control rabies, but, owing to the large territory included in Texas, it will take extra efforts on the part of public health workers and the cooperation of the people of each town and county to carry on an educational program for this control.

Textile Industry Makes Good Gains

AUSTIN.—The cotton textile industry of Texas made substantial gains during March in comparison with the preceding month and the like month last year and the entire first quarter activity was well above the corresponding three months last.

Reports from 12 cotton mills give a total consumption during March at 3,438 bales, a gain of 8.4 per cent above the preceding month and 58 per cent above March, 1935. Consumption during the first quarter of 1936, 9,387 bales, was 41 per cent above the corresponding period last year.

Production of cloth was 7.1 per cent above the previous month, 30.5 per cent above March last year and 20.2 per cent over the first quarter last year.

Sales rose 13.95 per cent over February and 70.3 per cent over March last year. Sales for the first quarter of 1936 were 44.5 per cent over the like period last year. Unfilled orders on March 31 were up 3 per cent from the preceding month and 19.7 per cent above the corresponding date a year ago.

FRANKELL

Everyone is feeling fine after the nice rain which fell Thursday night and Friday morning.

Rosie Morris entertained with a dance Saturday night.

Hazel McCleskey, Dorothy and Minnie Roberson and Jessie B. Morris visited Tina and Demell Knight Sunday afternoon.

A few from this community went to the weiner roast at the Oakley canning kitchen Thursday night.

Several attended the party given in the home of Mr. and Mrs. Henry McCleskey Wednesday night.

Marvin Johnson, Edward Smith, Doyle Fincher, Gaylard Smith, George and J. D. Roberson were pleasant callers in this community Wednesday night.

A few of the younger set enjoyed a weiner roast at the railroad lake Saturday night.

Mr. and Mrs. E. J. Bundick and son, Bobby Joe, visited Joe Harrell Friday afternoon.

Tina Knight visited Jessie B. Morris Sunday morning.

A large crowd attended the cemetery working at the Mount Zion cemetery Saturday.

Bimp Polan spent part of the week-end with Mr. and Mrs. L. A. Sides and daughter, Effie Mae, at Rocky Point.

G. P. Morris visited F. A. Dean Sunday night.

J. L. Polan visited J. T. McCleskey Sunday.

Broken Spine Surgery Aided By New Cast

LONDON.—A remarkable feat of surgery will enable William Thornton, 20, a London scaffolder, whose spine was fractured in a road collision, to do light work soon.

He was taken to University College Hospital, where he was fitted with a padded plaster cast which keeps the spine rigid. But for this he would have had to lie perfectly still for six months until the fracture had set, and it would take another two months for him to recover his strength.

Thornton's broken spine will not be set for six months.

He found the easy way to roll 'em

THE NATIONAL PASTIME takes up a lot of Clarence Gehris' spare time. So does the National Joy Smoke—Prince Albert. Gehris bats a thousand when it comes to rollin' his own... turns 'em out in jig time, using P. A. As he says: "It's easy to shape up a fine fine cigarette with Prince Albert. It's 'crimp roll' for quick, easy rolling."

THIS SNAPSHOT of Mr. Gehris and his dog wouldn't have been complete without his favorite "makin's" too. "That's extra-special tobacco," he says. "Always tastes cool and flavorful." Take up your get-acquainted offer, men. P. A. is the pipe smoker's favorite too.

THIS OFFER SAYS: "P. A. MUST PLEASE YOU!"

Roll yourself 30 swell cigarettes from Prince Albert. If you don't find them the finest, tastiest roll-your-own cigarettes you ever smoked, return the pocket tin with the rest of the tobacco in it to us at any time within a month from this date, and we will refund full purchase price, plus postage. (Signed) R. J. Reynolds Tobacco Co. Winston-Salem, N. C.

PRINCE ALBERT

THE NATIONAL JOY SMOKE

NO MORE GUESSING how the wind blows. This is Clarence Gehris installing his new weather vane. That brings up another point that he likes about rolling P. A. "makin'" while working. "Prince Albert snuggles right down in the paper," he says, "doesn't spill or blow all over creation."

70

fine roll-your-own cigarettes in every 2-oz. tin of Prince Albert

THE BIG 2 OUNCE CRIMP CUT CIGARETTE TUBE

Valley-Wide Dairy, Poultry School Is Held At Mercedes

MERCEDES, Tex.—The first annual Valley-wide dairy and poultry school was conducted here under the sponsorship of the Mercedes Chamber of Commerce and County Agricultural Agent R. G. Burwell, with 2,000 to 3,000 farmers attending.

The school was arranged as a means of educating farmers of the Valley to possibilities of farm profits in dairying and poultry raising.

The school precedes the opening of the Cudahy Packing Company's \$20,000 dairy products plants in Mercedes by only a few days and is designed to better acquaint farmers with the better breeds of cattle and poultry and improved methods of raising and feeding the animals and fowls.

Attendants at the school will be welcomed by L. F. Boling, manager of the Mercedes Chamber of Commerce, and County Agent Burwell will explain the objects of the school.

A Million Miles WITHOUT AN ACCIDENT

Firestone HIGH SPEED TIRES

WILL STOP A CAR UP TO 25% QUICKER. GIVES GREATER BLOWOUT PROTECTION. GIVES 25% LONGER NON-SKID MILEAGE.

THE MASTERPIECE OF TIRE CONSTRUCTION

BUY ON PROOF OF PERFORMANCE

A MILLION miles on Firestone Tires without an accident. That is the record of Ab Jenkins, famous driver, who has driven on all kinds of roads and in all kinds of traffic in every state in the union. What a tribute to safe, dependable, tire equipment! Make this proof of performance your guide in choosing new tires to protect yourself and your family.

There are three important facts you should know about the tires you buy—

1. THE FACTS on TRACTION and NON-SKID SAFETY
A leading university in 2,350 tests has found that the new, scientifically designed tread on the Firestone High Speed Tire stops a car up to 25% quicker.

2. THE FACTS on BLOWOUT PROTECTION
Ab Jenkins used Firestone Gum-Dipped Tires when he drove his 5,000-pound car over the hot salt beds at Bonneville, Utah, in the record-breaking time of 127 miles per hour, covering 3,000 miles in 2 1/2 hours without a blowout or tire trouble of any kind.

3. THE FACTS on ECONOMY and NON-SKID MILEAGE
The largest transportation companies in the country, such as Greyhound, to whom safety and tire economy mean business efficiency, use Firestone Tires from Coast to Coast and from Canada to the Gulf. And our own test fleet records prove that the new Firestone High Speed Tire for 1936 gives you up to 25% longer non-skid mileage.

The Firestone High Speed Tire for 1936 proves by performance its superiority in all of these three qualifications. Make this proof of performance your yardstick of safety and value. Decide today to equip your car with new Firestone High Speed Tires for 1936—the safest driving equipment money can buy.

Gum-Dipping not only strengthens the cords but prevents heat inside the cords, where it insulates the tiny fibers against friction and protects Firestone High Speed Tires from blowouts.

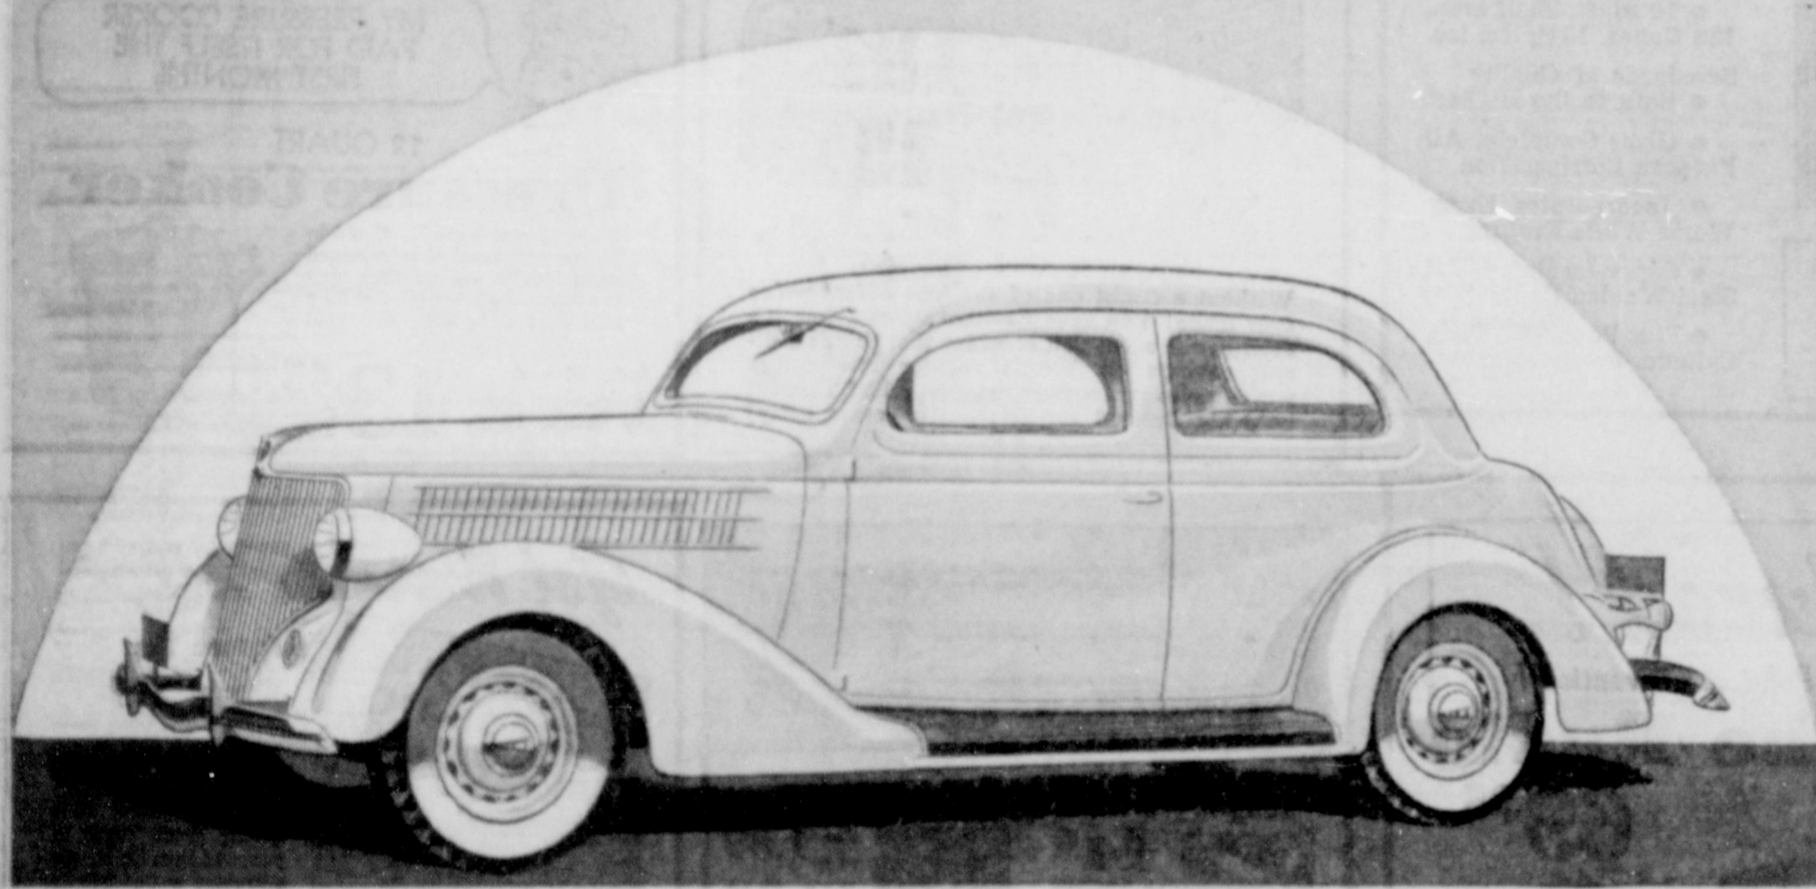

This heavy, broad, traction and non-skid tread is held to the cord body of the tire with Two Extra Layers of Gum-Dipped Cords, a patented construction, making the cord body and tread an inseparable unit.

Ford - FOR ECONOMY

MORE MILES PER GALLON IS GOOD...

MORE MILES PER DOLLAR IS BETTER

ENTHUSIASTIC sales talk often begins and ends with gasoline mileage. Some salesmen would like you to believe it is the whole story of automobile economy. But drivers ought to know better.

The big items of car economy are low first cost, low up-keep cost, and low depreciation. Savings here can make a great deal of difference in cost per mile.

Gasoline mileage is more of a talking point than an economy factor.

Here are the big items that make the Ford an economical car:

More value for every dollar you pay.

Lower cost for repairs and service.

Long life. Slow depreciation.

The up-keep cost of today's Ford V-8 is the lowest of any Ford ever built.

Quality means economy and the 1936 Ford V-8 gives you more real quality than any other low-price car. Made to closer precision limits

and of better materials, there is no waste anywhere. Many dollars are saved by Ford production methods and low-profit policy. Those savings are put back into the car.

You pay a thousand dollars more for any other car with the power and performance of a V-8 cylinder engine. No other low-price car gives you modern Center-Poise Riding, safe, sure, dependable mechanical brakes with 186 square inches of braking surface and Safety Glass all around at no extra cost.
