

HOLC Loans For County Are Nearly Quarter of Million

Residents of Eastland county received a total of \$205,596 from the Home Owners' Loan Corporation during the three-year period of refinancing operations which terminated June 13, 1936, according to the final figures furnished H. P. Drought, state director for the National Emergency Council. This sum represented 127 individual loans.

A total of 44,361 distressed home owners in Texas were extended aid in the sum of \$105,298,774. Of this money it is estimated that \$6,343,000 went toward the payment of taxes and assessments, the estimated average of tax and assessment payments per loan in Texas being \$143.

According to the 1930 United States Census reports there were 374,785 owned non-farm homes in Texas. The Home Owners' Loan Corporation refinanced mortgages on 11.8 per cent of all money involved went for the refinancing of distressed homes by means of long-term replacement mortgages which are to be amortized fully over the term of the loan in small monthly payments.

The total number of loans made in all states, Puerto Rico, Hawaii and Alaska was 1,021,817, involving the sum of \$3,092,870,784, making the average loan \$3,027.

More than 98 per cent of all money involved went for the refinancing of distressed homes by means of long-term replacement mortgages which are to be amortized fully over the term of the loan in small monthly payments. The balance of the money advanced went for the restoration and conditioning of properties.

It is estimated that \$228,453,000 of the Home Owners' Loan Corporation advances went to the tax offices of the nation, with the national average tax payment per loan being \$224.

Father of Eastland Man is Buried

Roy L. Allen of 601 South East Street, returned home Sunday from Hinton, West Virginia, called by the illness of his aged father of 76 years who died two days after Mr. Allen's arrival.

J. W. Allen had suffered from a complication of troubles and passed away last Sunday following a brief illness. The funeral services were held Tuesday. The decedent left a widow, three sons and four daughters.

Mr. Allen was met in Fort Worth by his wife, Sunday morning, upon his return from West Virginia.

Strenuous Cure Is Used to Combat Bite of a Spider

McALLEN, Tex.—L. A. Tipps, McAllen farmer, came forward this week with a strenuous but apparently effective method of combating the poison of the deadly "black widow" spider.

Tipps told newspapermen he was bitten while in an outhouse at his farm. He captured the spider when he noticed the sting, then called his physician, to whom he gives full credit for his recovery.

He said he used several applications of epsom salts, as hot as he could bear, on the affected parts, then drank a pint of whisky. This was followed by a dose of paregoric and use of two boxes of aspirin during the day.

Tipps said the hot salts drew the poison from the wound, the whisky stimulated him and increased his resistance, the paregoric served to neutralize the effect of the spider's poison in his blood and the aspirin quieted his nerves.

Eastland Firemen Answer Two Calls

Calls to the J. C. Penney company store on West Main street and Jim Atchley residence at 213 South Connelley street were answered Saturday afternoon and early Sunday morning by the Eastland Fire department.

Employees of the Penney store stated defective wiring caused the blaze there which was negligible. Atchley stated the fire at his home started in the ceiling. The house was not badly damaged.

JAIL GAMBLING ENDED

SALT LAKE CITY.—The city fumigator has broken up gambling in the city jail. He killed all the cockroaches, which inmates were training and betting on.

Now Shots Ring from Belfry

The belfry of a church on the hard-tought road to Zaragoza, where Spanish loyalists have been attempting to oust rebels, serves as a snipers' nest for three loyalist militiamen' harassing fire on insurgent troops.

Bad Car Lights Lead Ills When Safety Lane Held

Two hundred and thirty-seven motorists' lights were found defective Friday when a safety lane was conducted by the Department of Public Safety at Eastland. One thousand, one hundred and four automobiles passed through the lane established on North Lamar Street, and 364 of the number had defective equipment.

One hundred and fifty-five automobile owners reported to the officers later Friday and got a "clean bill of health" for their vehicles. Other motorists are to report to Eastland Police Chief W. J. Peters as soon as possible.

Of the automobiles tested, the following had defective equipment: brakes, 161; mufflers, 8; lights, 237; horns, 64; steering gears, 12; windshield visibility, 72. Captain Hamm of the Abilene district office was in charge and was assisted by patrolmen Myers, Posey, Guynes, Thomas and Moran, all of the Abilene office, and Patrolmen Bradford and Howell of the Wichita Falls district.

The Department of Public Safety patrolmen were assisted by Chief Peters and Officers Reeves and Sparr.

Ross Elected from 107th District By 338 Vote Majority

On the basis of complete returns from Callahan county and all but two boxes—Tudor and Dothan—reported in Eastland county, T. L. (Tip) Ross was assured of election to the state legislature from the 107th electoral district, including Eastland and Callahan counties.

The vote of the two counties was as follows: Lotief carried Eastland county, polling 3638 votes, not counting the two missing boxes, while in Callahan county he polled an even 800 votes, his total in the two counties being 4439.

Ross polled 3350 votes in Eastland county, while in Callahan he received a total of 1527 votes, giving him a total of 4877 votes in the two counties, of 338 votes more than his opponent.

Ranger Teacher Is Given Her Degree

DENTON.—Miss Cora Marie Kohn, daughter of Alex Kohn of Ranger, received the bachelor of arts degree in education from Texas State College for Women, (CIA) at the twentieth annual summer commencement exercises held August 22. Miss Kohn is a teacher in the Ranger school system.

The exercises brought to an official close the 1936 session during which time over 400 bachelor degrees were conferred.

Higher Tax Rate Vote Is Called In Cross Roads

Acting on a petition of over 30 citizens of Cross Roads who complained that transfer of students and money to other districts projects the prospect of a five-month school term. County Judge Clyde L. Garrett Tuesday called an election for Sept. 26 on a proposal to raise the ad valorem tax rate on personal and real property from 50 cents to \$1 on the \$100 valuation.

Ralph Hise was named presiding judge for the election.

Petitioners for the increased rate of taxation were L. A. Eudy, Mrs. M. L. Eudy, Tom Young, Everett Young, J. Young, Mrs. Tom Young, Joe Young, B. D. McGraw, W. E. Walton, W. M. Choate, Mrs. Nellie Ashcraft, C. D. Ervin, J. B. Bishop, S. A. Berry, Chester Parrish, Mrs. J. D. Christian, W. W. Lufkin, A. Stiffler, L. H. Stroud, R. L. Hise, M. R. L. Hise, Garrett Hise, Leo Hise, Jim Young, Ada James, Nannie Smith, Mrs. Viola Stroud, Morris Ames, D. C. Boney, Houston Smith, L. James, A. J. James, Herman Stroud, J. C. Rose, Mrs. J. C. Rose and Mason James.

Funeral Is Held For Miss Stone

Funeral services for Miss Virginia Stone, 36, who died Sunday in El Paso after a long illness, were held Monday afternoon from the First Baptist church at Eastland. Interment was in the Eastland cemetery.

Miss Stone was a stenographer for Scott, Brelsford, McCarty and Brelsford from 1927 until a year-and-a-half ago when she was forced to rest because of her health. Last year she resumed work in Eastland, but again was forced to retire to an El Paso hospital, at which friends said she had remained until her death.

Survivors include her father, M. T. Stone, of near Ranger; a brother, Leroy Stone, Eastland; and a sister, Mrs. F. E. Springer, Bowie. Another brother lives in East Texas, friends reported.

Pall bearers were Milburn McCarty, County Judge Clyde L. Garrett, Judge O. C. Funderbark, Senator Wilbourne B. Collier, W. H. McDonald and R. L. Jones, all of Eastland. Manner Undertaking company, Eastland, was in charge.

Expense Reported By Collie, Lotief

Expenses of \$70 since his last report were listed Tuesday by T. M. Collie, candidate for county clerk.

Cecil Lotief, candidate for representative of the 107th district, reported expenses of \$297.21 during the campaign.

Defeat of Blanton Causes Discussion In Washington, District of Columbia

(From Abilene Morning News) WASHINGTON.—The defeat of Representative Tom Blanton of Abilene, Tex., for re-election attracted as much attention in the capital today as if a new mayor had been chosen.

Although the District of Columbia's three commissioners were not available for comment, other leaders quickly expressed their opinions, some of gratification and others of regret.

As chairman of the House appropriations sub-committee which directs the District of Columbia's financial affairs, Blanton frequently had incurred the displeasure of capital officials, first through efforts to reduce the District's allocations and more recently through his successful sponsorship of a section in an appropriation bill forbidding the teaching of communism in schools here.

Washington newspapers displayed stories of his defeat on their front pages yesterday, just as they had "played" the lead of his opponent, Clyde Garrett of Eastland in the first primary several weeks earlier.

"I am delighted," said Henry Gilligan, member of the board of education. "It is a good break for Washington."

Capt. F. M. Dent, of the Annona Citizens' Association, said, "Blanton was bound to be a dictator where the District was concerned," and added "he was a menace to the city's welfare."

On the other hand, James G. Yaden, former president of another citizens' association, said: "Tom and I are good friends."

Sued by Husband as Fake Countess

Eight volumes of family tree to the contrary, Lawrence P. Maron of East Orange, N. J., oil fortune heir, charges that the title of beautiful, blonde Countess Adrienne Pantaleoni (above) is a fake and asks annulment of her marriage. The Countess says her title has been handed down by 800 years of ancestors.

Texas Is Staging Big Treasure Hunt

AUSTIN.—The greatest treasure hunt in the history of Texas is underway. From the Gulf to the Red River and from Louisiana to New Mexico the search is going on.

Back of this unique treasure hunt is the Mineral Resources committee, a unit of the Texas Planning Board, which is seeking the location and character of every mineral deposit in the state.

Preliminary work discloses the fact that Texas is exceedingly rich in valuable minerals. Mineralogists in the employ of the committee have located and classified most of these minerals but in Eastland county there are deposits of sandstone which haven't been fully located.

Residents of Eastland county can render a great service to the state by joining this treasure hunt and sending full information on these deposits of sandstone to Chas. W. Walker, the Texas Planning Board, Austin, Texas.

Eastland Boy Merits Oklahoma Honor Roll

Dan Lee Childress of Eastland earned the spring semester of Oklahoma A. & M. College and was placed on the dean's honor roll for distinguished students, according to an announcement received Wednesday from Stillwater, Okla.

Report Is Made On Southwest Banks

WASHINGTON.—During 1935 there were in operation in the 4 West South-Central States 1,829 banks, of which 1,825 employed a total of 16,151 persons, with an aggregate pay roll during the year of more than \$25,200,000, it was revealed today by Director William L. Austin, Bureau of the Census, in the fifth report of the new Census of Business series on banking institutions.

The 1,825 banks include 260 in Arkansas, 204 in Louisiana, 418 in Oklahoma, and 943 in Texas. Four state banks (one in Arkansas and three in Texas) from which reports were not obtained are not included.

Banks covered by this report include Federal Reserve banks, National and State commercial banks, savings banks, trust companies, private banks, industrial and Morris Plan banks, and Joint Stock Land banks. More specialized financial institutions such as building and loan associations, Federal Savings and Loan associations and investment banking institutions, are not included.

Branch Bank Systems Separate statistics are presented for unit and branch bank systems. For census purposes, a branch bank is regarded as one of the banking offices of an organization operating one or more banks or agencies in addition to the parent bank or main office; the number reported includes the main offices as well as the branch banks themselves. A unit bank is an organization with but one banking office, which may be independently owned or may be a part of a group of banks operating under holding company ownership. Federal Reserve branches and agencies are considered as unit banks.

CITY DOG SALES TAXED OAKLAND, Cal.—The State Board of Equalization has notified the city of Oakland it must pay the regular sales tax on every impounded dog it has sold the past year. The city has replied that it is not officially in the dog business, the sales tax does not apply.

CCC Enrollments To Be Accepted

There still be an enrollment for young men to attend the CCC camps during the first two weeks of October, in order to fill camps to their normal capacity for the winter.

Young men between the ages of 17 and 29 will be eligible, providing members of their family are now receiving relief in some form or other. However, only one boy who is physically fit for hard labor and who has been out of camp by honorable discharge for at least one year will be accepted from each family.

It will be necessary to furnish figures to the Government before September 15 showing the actual number available in each county, and those boys desiring to go are asked to call immediately on either their county welfare case worker or the Texas Relief Commission case worker in their respective counties. Those who have already made application and not been called are asked to call and advise the case workers if they still desire to go. Both white and colored persons will be listed at this time.

Young men who are members of Rural Resettlement families are eligible if they are not worked on the farm and meet other requirements. Those who wish to re-enlist are requested to bring their discharge papers with them, so that dates may be correct and no delay occasioned by any omissions. A certificate should be brought from a doctor showing that, after examination, the applicant is found free from all diseases which are contagious, and able to do manual labor without danger of injury to himself.

Even though one or more members of a family are working on a WPA project, and there is a boy available to enroll, he will be accepted.

Garrett Receives Congratulations On His Victory

Congratulations on the congressional victory which he attributes to his friends still arrived Tuesday by telegraph, telephone and mail at the office of County Judge Clyde L. Garrett.

Latest tabulations of the race gave Judge Garrett 33,419 votes against Thomas L. Blanton's 18,454. Judge Garrett left Tuesday morning for Austin on county business.

Byrd's Niece Does Bit of Exploring

That's the key to Davy Jones' locker that Marie Washington, niece of Rear Admiral Richard E. Byrd, is putting on for a stroll on the ocean floor at Bermuda to gaze at the submarine beauties.

County Allowable Of Oil Is Hiked

Although orders issued Tuesday by the Railroad Commission show a district reduction of 2,158 barrels daily in comparison to the Aug. 15 allowable, Eastland county's was increased 75 barrels daily.

The West Central Texas district allowable Aug. 15 was 58,802 barrels and for September was 54,744 barrels.

By counties the allowable is as follows: Brown, 1,761, 255 decrease; Callahan, 1,766, 37 increase; Coleman, 1,136, 1 increase; Eastland, 2,858, 75 increase; Fisher, 4,297, 275 decrease; Irwin, 54, 14 decrease; Jones, 4,694, 219 decrease; Reagan (Big Lake), 7,800, 200 decrease; Runnels, 202, 43 decrease; Shackelford, 7,699, 373 increase; Stephens, 4,703, 23 increase; Throckmorton, 447, 35 increase; Upton, (McCamey), 8,000, 200 decrease; South Half Young, 4,713, 434 increase; Webb Ray, 150, 23 decrease; Jack (South Half) 2,650, 572 increase.

Comptroller Asked By County Group To Cancel Bonds

Members of the county commissioners court this week passed an order requesting the state comptroller to re-cancel nine road refunding bonds issued in connection with the financing of \$156,000 of road bonds which matured Feb. 1, 1934.

The road refunding bonds, dated Feb. 1, 1934, were in the sum of \$106,000. The bonds were numbered 201 to 212, inclusive.

Candidates File Campaign Reports

T. S. (Tip) Ross has filed a report with the county clerk that he spent \$274.10 in his campaign for the nomination of 107th district state representative.

Hugh Carlton, candidate for constable of the justice of peace precinct No. 1, in Eastland, reported his total expense at \$34.

McDonald Will Move to Austin

W. H. McDonald of Eastland, nominated for the commissionership of the state land office in the first primary, and family plan to make residence in Austin, Tuesday, Sept. 1.

While in Austin Wednesday McDonald stated he will seek revision of the Sabine River oil contract. He estimated this may mean the increase of \$700 daily to the school fund receipts.

McDonald, who is a member of the Mineral Development Board, said he believed the higher royalty would be possible after re-instatement of an original contract.

COMPLAINT IS LODGED AFTER FIRE PROBED

Arson in connection with a fire at his residence Sunday morning was charged against James Atchley, Eastland livestock trader and former cafe operator, in Justice court Thursday morning by James Byrde of Austin, assistant fire marshal.

Eastland Fire Chief A. W. Hennessee, who conducted the investigation with Byrde, stated blankets saturated in kerosene were found in Atchley's kitchen pantry after firemen extinguished the blaze.

The fire occurred about 4 a. m. Sunday at Atchley's frame residence at 213 South Seaman St. Damage was not regarded great.

Chief Hennessee stated he was informed Atchley carried \$1,600 insurance on the house, \$1,000 on contents and \$100 on a garage.

Atchley, about 50, told newspapermen Sunday morning that he believed the fire started in the ceiling and that he was on his way home when the fire alarm rang. He stated his family was out of town.

A grand jury which will likely investigate the charge, according to the sheriff's office, is to be formed from the following: S. D. Nelson, Pioneer; S. H. Childress, Rising Star; W. E. Trimble, Eastland; T. G. Gray, Gorman; W. A. Sutton, Gorman; Frank Yarger, Cisco; L. D. Wilson, Cisco; W. C. McDaniels, Cisco; Herman Enshing, Desdemona; Ed Townsend, Nimrod; W. C. Crane, Odessa; A. Angus, Odessa; Hal Hunter, Neff; F. E. Langston, Ranger; R. L. Jones, Eastland, and Wayne White, Gorman.

Attends Grocers' Meeting In Dallas

Grady Pipkin of Eastland, operator of the Piggy Wiggy store here with his brother, Jess, of Breckenridge, has been attending the state convention of Piggy Wiggy operators at Dallas. The meeting opened Saturday and concludes today.

Pioneer of Ross Company Dies

FORT WORTH, Aug. 27.—John Ellison Gillespie, 92, survivor of Captain Sul Ross' Texas Ranger company that rescued Cynthia Ann Parker, was dead today.

Gillespie died at his home here Wednesday night after a two-week illness, due mostly to complications of advanced age.

Newspaper Gets Another 'Farley' Hoax Wire Denial

ABILENE, Aug. 27.—Conflicting information to the Reporter-News last night left the "Farley Telegram" mystery unsolved.

The mystery originated with denial by James A. Farley, Democratic national committee chairman, that he sent a telegram from Washington to the Reporter-News last Friday night, which bore the name "Hon. James A. Farley" as sender and voiced the hope Representative Thomas L. Blanton would be re-nominated in Saturday's run-off primary.

Saturday in New York, James A. Farley denied sending the message.

The Washington superintendent of the Western Union Telegraph company yesterday afternoon wired J. W. Wooters, Abilene manager, as follows:

"See your wire respecting telegram Aug. 21 addressed to Reporter-News Publishing company, Abilene, Texas, signed Hon. James A. Farley. The telegram in question should have been signed James I. Farley, the error having been made over the telephone when it was being recorded."

James I. Farley is the member of the house of representatives from the fourth Indiana district.

Last night in Fort Worth, Ind., James I. Farley denied having had anything to do with the telegram.

Western Union's report of the telegram on its investigation of the message came from T. E. Sibley, superintendent in the national capital city.

Opposing chiefs in Spanish civil war are using the air in the press release for poison gas along the front lines.

"Their Yesterdays" Is Book Written By Post Commander

"Their Yesterdays" is the title of a book which is being written by B. H. Peacock of Ranger, covering in a biographical manner, the history and experiences of members of Carl Barnes Post of the American Legion. Mr. Peacock stated that, as Centennial Commander of the American Legion Post of Ranger, it was his desire to make a permanent and lasting contribution to the organization which he served. The decision was made, and some several months ago the work was started. The several biographies which have been carried in the Sunday editions of The Times will be trans-

scribed into the book upon completion. According to Commander Peacock, "Their Yesterdays" is practically half completed, and it will require several months for completion, since the stories are being written during his odd moments. Since this book is intended as a civic project, and as a contribution by the writer no sales will be solicited, and only a limited number of volumes will be printed in the first and only edition. The American Legion committee which is sponsoring the distribution, advises that copies will be available for the veterans and their families and friends, which may be had only by advance orders which will be closed on October 1, 1936. The price of the book, to those who desire one or more copies, will be \$2.50 per copy, which is the exact cost of producing. It is stated that it will be bound in a very neat and attractive cover, and ac-

ording to good authority, would easily sell, due to the limited number, for several times its price. The Ranger Times is cooperating in every way with Mr. Peacock and the local Legion Post in this worthwhile project. The reader will notice that double column type is being set for the stories that are carried in the Sunday editions. This is done purposely in order that reproductions for the book may be made without additional cost. All of the printing and cut reproductions are being done by the Times Publishing Company, and arrangements have tentatively been made with a firm of book binders in Fort Worth to do the binding. The experiences and recollections of many of the men of our community who saw service during the World War will soon begin to dim with the passing of the years, and it is quite commendable that someone within our midst with the ability and inclination should take upon himself this worthwhile task. There is no doubt but that in years to come, the children and grandchildren of these veterans will prize most highly the colorful record of their World War history as recorded in the book, "Their Yesterdays."

Mother and One Living Sextuplet

Mother of sextuplets, only one of whom lived, Mrs. Adeline Speichinger, 36, Mendon, Mo., farm woman, is shown here with her surviving baby, Marjorie Louise, who weighed 10 pounds at birth. Mrs. Speichinger already had five boys and four girls, the oldest 15. Less than two weeks after the multiple birth, Mrs. Speichinger had resumed her household duties.

Ft. Sam Houston To Celebrate Its 60th Anniversary

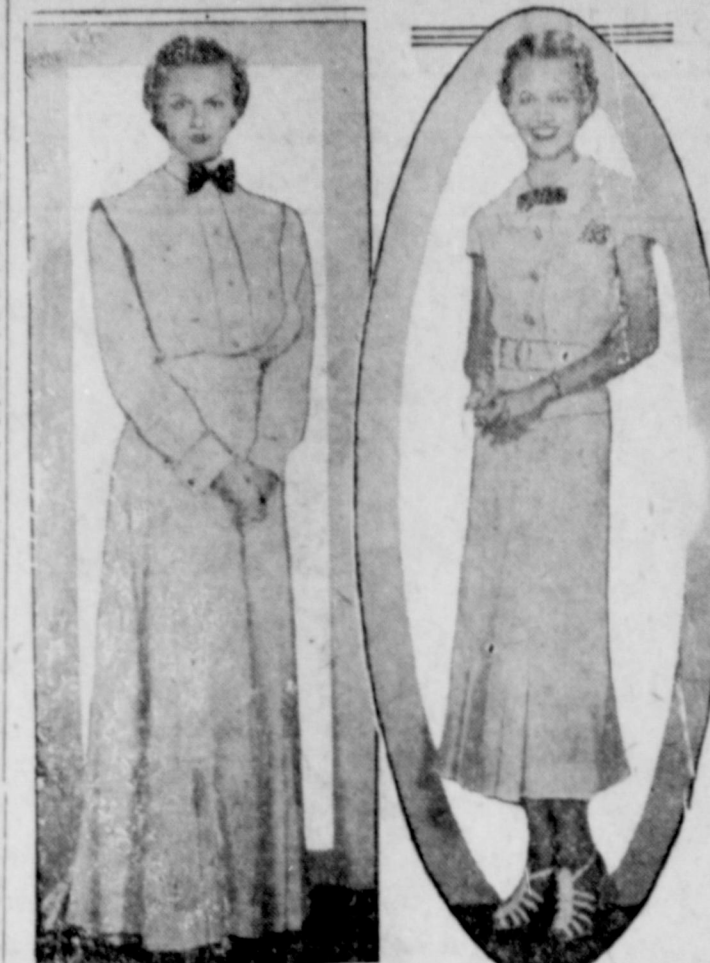

By United Press
SAN ANTONIO — Fort Sam Houston, chief southwestern army post, will celebrate its 60th anniversary this month. At the same time Texas will be celebrating the Centennial of independence achieved under leadership of the man for whom the "fort" was named. Only the portcullis, watchtower and stone walls of the quadrangle erected in August, 1876, have any likeness to a "fort." Spreading beyond this nucleus are acres of parade and drill ground, miles of paved and shaded highways along which stand modern hospitals, elaborate officers' homes, and permanent barracks-buildings for more than a war-time division.

Biggest single addition to the little fort that was planned by Secretary of War W. W. Belknap has been the area of Camp Travis, upon which were erected the cantonments of the 90th division of the World War.

Infantry, artillery and cavalry posts adjoining the original fort previously had enlarged it. Contiguous to the Fort Sam Houston of today is Randolph Field, popularly known as the "West Point of the Air." Kelly and Brooks fields, where World War aviators were schooled, have also been retained by the War Department with permanent buildings replacing the hurriedly-built structures of war days.

Camp Bullis, used for artillery practice in war-time, is a terminus for practice marches into the hilly country about Fort Sam Houston. Fort Sam Houston was located as a central station from which to supply border and frontier forts. Chief attraction of the area now, for army purposes, is the practically uninterrupted flying weather for air training.

Which Did Mother Wear?

Uniform styles at Texas State College for Women (CIA) have changed with the prevailing fashion, and the demure miss of 1916 bears little resemblance to the trim young modern of today. Miss Joy Hawley of Depton models the uniform worn by her mother two decades ago, and the uniform she will wear this fall.

Latin America Stages a Tourist Drive Over World

By United Press
WASHINGTON — The great cities of South America, with a quick perception of the possibilities of air transport, have set out to tell the entire world of the many tourist attractions on the southern continent. This fact is apparent after a 16,000-mile air tour by the correspondent.

Rio, B. A. (as the Argentine capital is affectionately known to travelers), Santiago, Lima, Bogota and a host of other cities have supplemented their civic and natural attractions with a new appeal to air passengers.

Piano-tops in hotel lobbies are laden with literature of airlines; the American "Panair" on the east coast and "Panafira" on the west coast blazon the speedy passage to and from the United States; Santiago boasts that its airmail service to Europe is faster than the present trans-Atlantic mail service from New York, and roulette casinos, pre-Incan ruins, Andean hunting trips lend themselves to the tourist lure.

Ocean Service Awaited
All South America awaits establishment of regular airplane travel across the North Atlantic; for the west coast it will mean travel via New York to Europe at a speed never dreamed in history; for the east coast it means a great Atlantic triangle with Rio at the southern apex, easily accessible to the large cities of Argentina, Uruguay and Chile as well as Brazil.

In the new rivalry for tourists, South America offers to give as well as take. A stream of travel by air is rapidly developing through Miami, Fla., and Mexican frontier points to mid-western and Pacific coast cities of the United States, which in days of steamer travel exclusively had to take their turn after New York, California and the Pacific northwest and Hawaii are part of the new tourist picture for South American travelers.

Rio de Janeiro, which considers her scenic preeminence beyond debate, has a mosaic of bay, boulevard and needled mountain peak to greet the arriving traveler. Just as the famous "sugar-loaf" was once a sentinel for globe-trotters arriving by sea, so now the great stone figure of Christ on the sky-piercing mountain Corcovado is the landmark for the air tourist. Montevideo, in Uruguay, has modernized its century-old attractions as a tourist center; it has good climate in all seasons, and fine bathing.

Buenos Aires Progresses
Buenos Aires, commercial capital of the southern world, takes time off from its hurrying round of business to exhibit an amazing civic evolution. Men are tearing down houses and stores to broaden streets, while the rush and richness of Avenida de Mayo and newer business streets startle the traveler uninitiated in the modern spirit of Argentina.

Mendoza, in the Andean hills, offering all the comforts of modern resorts, and in addition there is good hunting for wild duck, partridge or huanaeo in the countryside. Santiago, Chile, an almost Californian city near the snow-rimmed Andes, forgot "hard times" in the last seven years to transform itself into a modern and beautiful city. Lima, Peru, has mingled its Incan ruins, its Spanish splendor, and its 20th century nationalism to produce a modern city of strange contrasts and unusual appeal.

And then there is Guayaquil, with its equatorial setting of shaded walks, traveler's palms, straw-hat vendors, spacious tiled hotel rooms, and the swift Guayas river bearing ships to the open Pacific, is impressing.

'Covering Far East' Is Story Written By Newspaper Writer

By United Press
NEW YORK — Miles W. Vaughn, former Dallas resident, and long a foreign correspondent for the United Press, has written a personal history, "Covering the Far East," which will be brought out next month by Covici-Friede, New York. Vaughn, now night news manager for the United Press in New York, was graduated from the University of Kansas in 1915 and worked middle west newspapers before joining the United Press as a reporter in Chicago. He was bureau manager in St. Louis, Kansas City and Dallas; an assistant foreign editor in New York; manager for Brazil, roving correspondent in South America, assistant general manager for South America, and general manager for the Far East with headquarters in Tokyo.

Vaughn spent nine years in the Far East and his experiences as a correspondent covering such big news as the Chinese Kuomintang Revolution; the Enthronement of Emperor Hirohito of Japan, the

CITY'S FINE REVENUE UGE

LOS ANGELES. — Crime does not pay for the criminal — but mild ones like misdemeanors, getting drunk, traffic violations, etc., contribute largely to the city's income. The entire receipts from fines, forfeitures of bonds and other court sources for the 1935-1936 fiscal period was \$1,899,638.25.

Japanese wars in Manchuria, Jehol and along the Great Wall and the Shanghai War of 1932; furnish much of the material for his autobiography.

Texas Farm Debt Slightly Smaller

WASHINGTON. — A smaller number of American farms are under mortgage today than before the depression, and in Texas the total farm mortgage debt is slightly smaller, according to figures released today by the Farm Credit Administration. Although the Farm Credit Administration has loaned over \$148,200,000 on farm mortgages in Texas since May, 1933, approximately 96 per cent of the money was used to refinance old debts so that very little new indebtedness was incurred.

The farm mortgage debt in the State which increased from \$172,240,000 in 1916 to \$543,950,000 in 1930, dropped to \$538,810,000 on January 1, 1935. Figures for the earlier years are from the United States Department of Agriculture, while the 1935 figure is an estimate from the Farm Credit Administration.

On January 1, 1936, some 2,300,000 farms in the United States or 34 per cent of the total number, were under mortgage, compared to 36 per cent in 1928.

Compared with previous periods, the recent farm mortgage debt trend is not unusual, the statement from the Farm Credit Administration points out. During periods of high income, the farm mortgage debt in the United States increases; and tends to contract in periods of depression. The increase in sales in times of higher income, and higher prices for farm land, tends to increase the farm mortgage debt because new purchasers frequently give a mortgage for part of the purchase price. The shrinkage in the mortgage debt during the depression was due partly to foreclosures and partly to repayments, and some scaling down of debts by creditors. The amount of debts scaled down in connection with farm debt refinancing under the Farm Credit Administration was approximately \$200,000,000 in the country as a whole, and \$6,289,000 in Texas.

Lower interest payments have also helped to improve the mortgaged farmer's position. In the country as a whole, the percentage of gross farm income required to pay interest on mortgage debt increased from 4.6 per cent in 1929 to 9.6 per cent in 1932, but by 1935 it dropped to 4.5 per cent, the lowest level in ten years.

Texas farmers have benefited additionally by the recent trend toward lower interest rates. Those refinanced by the Farm Credit Administration had been paying interest rates averaging 7.0 per cent a year. These farmers are now paying 4 to 5 per cent with a temporary reduction to 3 1/2 per cent for interest payable during the year ending June 30, 1937, on Federal land bank loans made through national farm loan associations.

Texas farmers saved over \$3,350,000 a year on interest by refinancing debts with the Farm Credit Administration, and a substantial additional saving result from the temporary interest reduction provided by Congress on Federal land bank loans.

Prince Otto has waited so long to become ruler of Austria he is beginning to think he is only a Per-Hapsburg.

Bombing Wave Hits St. Louis

By United Press
ST. LOUIS. — A dozen bombings have shattered the quiet of St. Louis nights this year.

The bombings started on March 9, when a homemade bomb caused a thousand-dollar blast at a laundry. As yet, indictments have been returned in only one case, wherein the bomber admitted he set off the explosion and blamed an innocent man in the hope of obtaining a reward.

Sergt. Emmett Morrison, head of the police bombing squad, admits his men have their troubles. He said some of them work as much as 16 hours a day on the problem, but that they are handicapped in getting enough evidence to bring the guilty parties to trial.

"A bombing differs from other crimes in the fact that rarely, if ever, is there any evidence left around the scene," he said. "Only in one case did we discover any clues. At that time, in a laundry bombing case, we found a few bits of the paper in which dynamite was wrapped."

Hesitation of victims to cooperate with police and the ease with which criminals obtain explosives are two factors blamed for explosions.

In some cases, he said, victims have been notified that their property was to be bombed but have not notified police. In other cases, they have refused to aid the bomb squad even after the crimes because they were afraid of being bombed again.

Police officials emphasize the ease with which explosives can be bought. It is possible to buy a stick of dynamite for 15 cents at any hardware store, they say, and anyone can buy shotgun shells with which many bombs are made.

In construction of a bomb with shotgun shells, the bomber empties the black powder from the

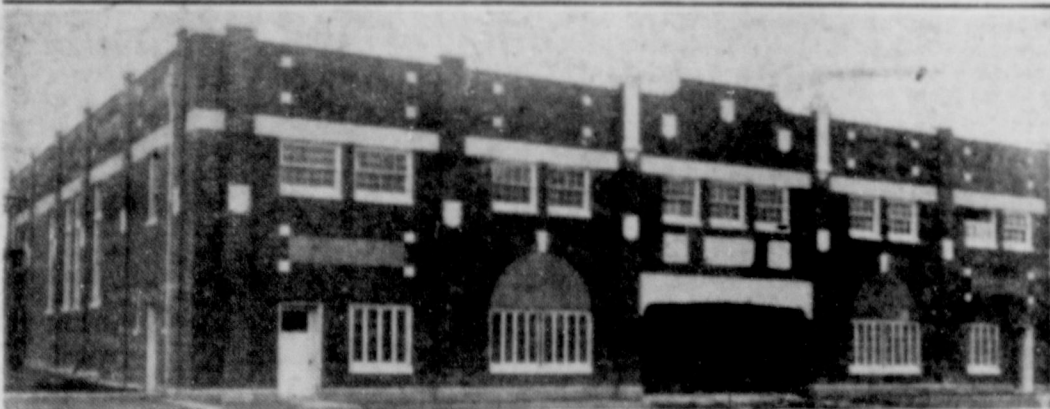

Fishing Intrigues Finance Wizard

This intent angler is accustomed to talking in big figures, so he should be able to tell a tall story about the one that got away—so-o-o long! Intensely concentrating on his task, Bichi Babu, Japan's minister of finance, wearing a straw hat, is seen as he enjoys his favorite sport at his summer home near Misaki, scoring intricate tackle.

shell into a piece of pipe or any hollow metal cylinder. Or, if he wishes, the bomber may buy the black powder in bulk and use it as he desires.

In the first blast of the year, the bomb was made of a dozen shotgun shells stuffed into the hollow handle of a pan. Crude as it was, it caused damage estimated at \$1,000.

NEW RECREATION BUILDING

RANGER JUNIOR COLLEGE

Opens For Eleventh Annual Session

MONDAY, SEPTEMBER 7th.

All work recognized and approved by the State Department of Education and fully accredited with every senior college and university in the South.

Every instructor is university trained and each department head holds a graduate degree.

Courses will be offered giving preparation for all special fields.

It affords the best business and commercial training to be had between Fort Worth and Abilene — Far superior to the average training and prepares for the business administration degree.

Teachers certificates are awarded upon the completion of the required work. Special courses being offered teachers are: Drawing, Art Appreciation, Writing, Public School Music, Physical Education, Curriculum Construction, and Nature Study.

Enjoy two years of university training near your home at one-fourth the cost of going elsewhere.

World's Greatest Housekeeper Does Not Keep House

CHICAGO—The Pullman Company, operators of sleeping cars on the railroads of America, annually "sleep on the average of one-fifth of the population of the United States, it was revealed today in a letter received by Harry G. Taylor, Chairman of the Western Association of Railway Executives.

Mr. Taylor was formerly a weekly newspaper editor publishing for ten years the Nonpareil at Central City, Nebraska.

And with this huge overnight sleeping population to care for the company has become one of the greatest housekeepers in the world, despite the fact that it does not keep house!

The company has nearly four million towels on hand at all times. There are over two million sheets, one and three-quarter million pillow cases, five hundred thousand blankets, a similar number of pillows, 250,000 mattresses, and the porter who tends these things has over one hundred fifty thousand white jackets on hand for his own dress.

In all, the linen stock kept on hand by the "world's largest housekeeper" totals close to nine million pieces!

After digesting this figure of nine million pieces of linen always on hand, add to that the figure 2,000,000, which is the annual number of replacements made to keep this huge stock intact.

This stock must be so distributed that each of the five thousand odd Pullman cars in service has the quantity it requires. And as the five thousand cars travel some 3,000,000 miles a day, allowances must be made for picking up this linen stock on the fly from over 100 railway supply depots located throughout the country.

Each car carries 400 towels in its lockers, 250 sheets, 200 pillow slips, 56 blankets and eight porter's coats. Simple multiplication will show the size of the washings.

The same operation will show why the Pullman Company is believed to be the world's largest housekeeper, and with reduced rail-Pullman travel costs in effect since the first of June, creating increased rail traffic throughout the country, the job becomes greater every day.

OLIVE BRANCHES

believed to be the world's largest housekeeper, and with reduced rail-Pullman travel costs in effect since the first of June, creating increased rail traffic throughout the country, the job becomes greater every day.

LOTTERY AIDED SCHOOL
CHESHIRE, Conn.—The Episcopal Academy of Cheshire, long defunct, was financed by a state-authorized lottery, according to data uncovered by the Cheshire Historical Society recently.

1,547 Carloads of Food Shipped to Drought States

WASHINGTON—The Department of Agriculture Drought Committee announced today that the Agricultural Adjustment Administration has shipped or ordered shipped 1,547 carloads of food and feed for relief distribution in 19 drought-stricken States since early June.

In most instances, the commodities were obtained from growers and distributors by the Commodities Purchase Section of the AAA. Distribution is being made to State relief agencies by the Federal Surplus Commodities Corporation.

Of the shipments, 1,171 carloads, or 54,645,000 pounds, are foodstuffs for human consumption, and 376 carloads, or 15,040,000 pounds, consist of mill feed for livestock. The mill feed is a by-product from the milling of flour for relief use from wheat purchased by the Government in the Pacific Northwest States.

Considerable quantities of the foodstuffs would have been shipped to the drought States under the regular distribution program of the Federal Surplus Commodities which provides for shipments of supplies for relief use in all States. Additional shipments of food and feed, however, have been made available to States where drought conditions are most severe. Large quantities will be distributed to needy farm families.

The 19 drought States to which these food and feed shipments have been made are Arkansas, Colorado, Georgia, Iowa, Kansas, Kentucky, Minnesota, Missouri, Montana, Nebraska, North Carolina, North Dakota, Oklahoma, South Carolina, South Dakota, Tennessee, Texas, Virginia, and Wyoming. Shipments to three additional States now in the official territory—Illinois, West Virginia, and Wisconsin—have not been increased because of drought, as emergency drought areas in these States were first designated only within the past 10 days.

The kinds and quantities of commodities shipped to the different States depend largely upon the number of families eligible for relief and the supplies of particular commodities already on hand within the States.

The following kinds and quantities of products have been made available to the States as a group: Flour, 32,905,800 pounds; dry skim milk, 440,550 pounds; dried peas, 1,320,000 pounds; prunes, 1,320,000 pounds; dried beans, 620,000 pounds; canned beef, 4,200,000 pounds; fresh peas, 2,360,000 pounds; fresh pears, 7,757,500 pounds; dried prunes, 900,000 pounds; fresh vegetables, 472,000 pounds; dried peaches, 2,390,000 pounds; mill feed, 15,040,000 pounds.

STRAWN NEWS

Mrs. J. B. Lee and family of Austin are visiting relatives and friends here this week.

Mrs. J. V. O'Keefe of McAllen is visiting relatives in Strawn and Ranger.

Mrs. Russell Brown and children of Abilene are the guests of Mr. and Mrs. M. L. Gard.

Mrs. E. M. Ellis and daughter, Norma Kato, are spending the week with Mr. and Mrs. C. D. Parmelee.

Mr. and Mrs. Ben Brown of Grandview have returned to their home after visiting Mr. and Mrs. Charles Unkurt.

Mr. and Mrs. Ashton Durkee of Big Spring were the week-end visitors of Mr. and Mrs. Lon Shaw and Mr. and Mrs. Charles Unkurt. Miss Lillian Brown of Ft. Worth spent the week-end in Strawn with friends.

Miss Evelyn King of Nocona has been the house guest of Miss Dorothy Stuart for the past week.

Mrs. George Barton and children, Beachy and Laverne, visited Mr. and Mrs. John Milling while enroute to Stephenville and Dallas.

Mrs. V. W. Jones and daughter, Colleen, were Ranger shoppers Tuesday.

Miss Dorothy Stuart left Tuesday for Nocona where she will visit friends.

Misses Crystal Harwood of Austin and Anita McHarg of Ranger were in Strawn Saturday renewing acquaintances with the large crowd of young people at the Ex-Students Homecoming.

Allan Smith left Tuesday for New Mexico, where he will attend New Mexico A. and M.

Miss Kathleen Tucker of Sweetwater is visiting here with her family and friends.

Mr. and Mrs. Port Stages and children, Port Jr., and Mary Margaret, visited friends in Strawn last week and attended the Ex-Students Homecoming.

Billy Casteel left Monday for Ft. Worth, where he will attend Brantley-Draughon Business College.

Misses Louise and Janice Anderson of Albany visited friends in Strawn over the week-end.

Mrs. G. F. Ratliff and daughter, Dorothy Jean of Albany, spent the week-end with Mrs. Myrtle Ratliff.

Miss Mona Andrew has returned home after attending summer school in Denton at N. T. S. T. C.

Miss Sallie Aguirre returned home Friday from Ft. Worth, where she has been attending school at T. W. C. She received her B. A. degree in the summer graduation ceremonies.

Mrs. Ruth Ravey and Mr. and Mrs. Kenneth Davidson of Ft. Worth spent the week-end with relatives in Strawn.

Mrs. M. C. Anderson of Caddo is visiting her mother, Mrs. John Guest.

Miss Edith Fletcher of Dallas was in Strawn Saturday renewing old acquaintances at the Ex-Students Homecoming.

Mrs. Allen Disharoon was a Stephenville visitor Monday.

Mrs. Leiba McClain is visiting Mrs. Sallie Guest while enroute to her home in Tyler from California.

Committee Canvasses Returns of Primary

No changes in previously announced results developed from the Eastland County Democratic Executive Committee's canvass of the second primary votes Thursday afternoon. The committee met at Eastland.

Canadian Enjoys a 200-Year-Old Pipe

EDMONTON, Alta. — George Bryant smokes a pipe that is more than 200 years old.

The pipe once belonged to his wife's great-grandfather. Bryant declares "it still smokes very good."

Barney Oldfield Has Wish Granted

By United Press

FORT WORTH — Barney Oldfield, noted old-time race driver and official "greeter" at the Fort Worth Frontier Centennial, has had one wish fulfilled since coming to Texas.—He's No. "711."

Oldfield was asked by State Highway Patrol Chief L. G. Phares what number driver's license he wanted. Phares offered the cigar-chewing motorist his choice in recognition of his work in the interest of safety.

"No. 711," replied Oldfield. Oldfield incidentally told Texas friends that the inevitable has happened. An Oklahoma officer signed him to the side of the road.

when he supposedly was driving too fast. "Who do you think you are crowding the officer," Barney Oldfield, was the reply. And proved it.

Ship Officer Burned In Strange Blast

By United Press

LONDON — Harry Hay, second engineer of the Fleet-wood transport of Gelsina, was blinded by an explosion caused by the heat of his own body.

He was opening a keg of carbide when the carbide shot up, covering him from the waist up. Fermentation on his body caused the explosion to generate gas, and this, it is believed, came into contact with a lighted cigarette and exploded.

PUBLIC SERVICE

Sale

Watch Our Windows For Added Specials

DESDEMONA

Robert Abel attended the Fort Worth and Dallas Centennials. Dr. J. M. Wright of DeLeon was here Thursday afternoon on business.

Miss Edith Creighton and her mother, of Strawn, were guests of Mrs. George Patterson on Tuesday of last week. They were sorry to find Mrs. Patterson unable to be up on account of an injured knee, as the result of catching her foot in a wire when going through a fence near the home of Mrs. Eula Jones. Miss Creighton has been our successful primary teacher for the past two years, and has roomed and boarded at the home of Mrs. Patterson. She will return at the opening of school.

On Sunday Mr. and Mrs. H. H. Williams entertained a number of guests with a chicken dinner. Among those present were Mr. and Mrs. T. I. Long of Plainview, parents of Mrs. Williams; J. C. Long and Mrs. Donald Brown of Plainview, a brother and niece of Mrs.

Williams; Jake and Zeph Christian and families of School Hill.

Mr. and Mrs. Charles Skipping were in German Saturday.

Mrs. W. H. Powers and son, Jack, spent Sunday in Rising Star.

Earl Abernathy was a business visitor in Eastland Monday.

Born—On Sunday, Aug. 23, 1936, to Mr. and Mrs. John Hilliard, a baby boy.

We are glad to report that Mrs. Odwin White is recovering nicely from a serious operation. She was brought home from the hospital Monday.

Ed Patty and family of Lubbock visited Mrs. S. E. Snodgrass and her daughter and son-in-law, Mr. and Mrs. J. E. Heater on Sunday. They were on their way to the Centennial.

Rev. Mrs. Earl Alexander left Thursday for Lindsey, Oklahoma, to visit her mother.

On Monday afternoon, Aug. 24, members of the Methodist Missionary Society and a number of other friends met at the Canyon in the C. H. Genoway pasture, where they had a picnic and a surprise birthday party for Mrs. S. E. Snodgrass, one of the most faithful mem-

bers of the society and a pioneer settler of Desdemona. The younger ones of the group enjoyed climbing the high bluff of the canyon and riding the "trolley." The "Happy Birthday" song was sung and the shower of handkerchiefs and other gifts were presented to Mrs. Snodgrass. Those present were: Mmes. Charles Lee, C. O. Bragg, W. H. Whitworth, Preston Sparks, Tom Nabers, Ed Parks, Travis Hilliard, W. C. Bedford, C. H. Genoway, Whit Richards, S. E. Snodgrass, J. E. Heater and little Charles Bragg, and Misses: Mollie O'Rear, Emma Genoway, Agatha Genoway, Valla Whitworth, Billie Richards and Ruth Crenshaw.

Mrs. G. S. Bruce left on Tuesday of last week for a visit with her daughters at Gladewater and Beaumont, and to the Centennial.

Mr. and Mrs. Charlie Emdee left several days ago for their home at Kilgore after a visit here with his mother, Mrs. Mollie Emdee, and with their many friends who were delighted to see them again.

The sympathy of the community is being extended to Rev. E. M. Daily on account of the death of his brother, who lived near Hills-

Cool Interlude For Stars Of Hot Weather Program

Hot weather has no terror for Clara, Lu 'n' Em and Ted Flo Rito, stars of the "Frigidaire Frolic" who are telling housewives of the desirabilities of safe food protection. A cold gauge, an instrument registering the safe and danger zones of home refrigeration, told the quartet the Frigidaire was "PLENTY COLD" and the desserts okeh for consumption so they pitched in. Nearly 20,000 Frigidaire dealers and salesmen here and in other communities throughout the nation are distributing free cold gauges to users of all types of refrigeration in order to determine the degree of safety each provides.

On account of lack of space last week we did not mention all who attended the Home-Coming and cannot give all the names now as many did not register. The following are some of the ones whose names we failed to give—

From Ranger: Mr. and Mrs. Charles Ashcraft, Mrs. Joe Farmer, Mrs. R. T. Cayce, G. D. Barton, and Mr. R. L. Yardley and Mr. R. A. Jones.

From Eastland: Mrs. Hazel Roper.

From Stephenville: Mr. and Mrs. Robert Farmer, Mrs. M. F. Mathis and daughter, Mrs. Lou Dyson, Mrs. C. R. Cloninger.

From Fort Worth: Mrs. V. G. Locke, Mrs. Myra Carruth.

From Govee: Mrs. Ethel Moorman, Mr. and Mrs. Ira Lovins, Mrs. W. L. Moore.

From Gorman: Mrs. C. T. Moorman, Lee Duprey.

From Alexandria, La.: Steve Duprey.

From Rule: A. D. Lewis and family.

From Rotan: Mr. and Mrs. A. B. Cayce.

From De Leon: Mrs. M. V. Simmons, Mrs. E. E. Dabney.

From Dallas: Murray Foote, Mrs. Diamond Dabney.

From Kilgore: Elda Jean Clock.

From Big Spring: A. O. Treadway.

From Strawn: Mrs. W. C. Brooks.

From Lorenzo: Miss Della Moore, Mrs. G. T. O'Rear.

From Dublin: J. T. Robinson.

From Texon: Zella Pool.

From Victor: Mrs. J. B. Smith.

From New Mexico: Mrs. D. C. Uphaw.

From Weinert: Ed Howard.

From Lingleville: C. H. Williams.

From Ryan, Okla.: T. A. Peety.

From O'Donnell: Mrs. W. E. Singleton.

From San Antonio: Robert Foote.

From Graham: Mr. and Mrs. W. B. Werinegar and Rosa Lee Weninger.

Mrs. Horace Morrison had as her guests the past week, Mrs. Eunice Brassiere and baby, Paul, of McCamey, who left Wednesday and Mrs. Kathryn Barcus of Gorman, who came Thursday.

Miss Norma Lois Morrison went to Frankell Saturday to visit her aunt, Mrs. Langford.

Rev. W. D. Huswell spent Saturday with friends at De Leon.

Mrs. L. N. Williams left Saturday by train for Robinson, Ill., to visit her parents.

Mrs. Willie David and children of Tulsa, Okla., came Saturday to visit her sister, Mrs. Roy Ashburn.

Blake Morrison, who lives a few miles north of town, is suffering from pneumonia, thought to have been caused by getting overheated.

On Tuesday night of last week at the Methodist parsonage in Gorman, with Rev. A. W. Franklin officiating, Miss Letta Troy Huddleston became the bride of Garnett Courtney. These popular young people have lived between Desdemona and Gorman, but the bride is counted a Desdemona girl as she graduated at our High School and is one of the congregation of the Church of Christ. Their host of friends are extending congratulations and good wishes.

The Baptist revival being conducted at the Tabernacle by Rev. W. D. Boswell of Waco, and the pastor-Rev. R. N. Balderee, continues to increase in attendance and interest and much good is being accomplished.

Miss Joe Ceille Crenshaw left Monday for a visit with friends at Galveston.

dinner guest of Mrs. M. O. Hazard last Sunday.

Mr. and Mrs. Frank Williamson and sons, F. C., Jr., and Terrell, and Miss Daisy Williamson of Hico were seeing the Centennial last Sunday.

Mr. and Mrs. Spencer Hazard were in Eastland last Saturday.

Buster Hazard and family of Abilene were visiting with relatives in the community last Sunday.

Rev. Ross Respass and family were dinner guests of Mr. and Mrs. Walter Duncan Sunday.

Boyd Hazard and family were callers in the home of his parents, Mr. and Mrs. M. O. Hazard last Sunday afternoon.

Mr. and Mrs. John Blackwell attended church at Cheaney last Sunday.

License Bureau For Auto Drivers Functions Nicely

AUSTIN — The Drivers' License Bureau, newest branch of the State Department of Public Safety, is functioning smoothly, Chief L. G. Phares of the highway patrol announced here.

Since operations were begun on Feb. 14, the bureau has filed approximately three million drivers and chauffeurs licenses. Two files are kept. County clerks who issue the licenses make three copies. One is given to the driver, and two are sent to the bureau to be billed by county and by number.

Of greater service, and a boon to the men who must supervise highway traffic in a state as large as Texas, is the accident map and file kept by the bureau, Chief Phares said. On this map is indicated the exact spot on a Texas highway where an accident has occurred. The color of the dots indicating the accident indicates whether it was fatal or non-fatal.

The map serves two purposes, Chief Phares said. It indicates the trouble or danger spots on the highways, and allows shifting of men from one danger spot to others. If there are too many red dots—the color employed to indicate death—on a certain road, more patrolmen can be ordered to that area to supervise traffic.

In conjunction with the map is a cross filing system of accident reports. In these cabinets is the name of every person who has participated in an accident reported to the bureau—and more than 800 are being reported each month. Each report is also classified as to county.

To eliminate guesswork, each accident report as to county is marked with the exact time at which it occurred. This, Chief Phares explained, determines the hours certain highways are dangerous spots. Action is then taken to provide competent traffic supervision when and where it is needed.

At present the bureau provides employment for about 32 persons, who are busy tabulating accidents, preparing charts, and making the highways of Texas safe for the motorist, Chief Phares said.

You Can't Advertise Today and Quit Tomorrow

You're Not Talking to a Mass Meeting . . . You're Talking to a Parade . . . !

BRUCE BARTON

Ceaseless hammering on the same spot helps win prize fights . . . it is the essence of advertising success. Not until enough individuals in the same neighborhood have been sufficiently saturated with a certain slogan, say, to cause them to react on one another does advertising become a social phenomenon.

The modern business man realizes that his best customers wear out at a rate of nearly 3 per cent a year. Advertising-made prospects disappear far faster. Casual impressions, however favorable, dry like dew in the heat of competition.

"Cumulative" effects of advertising come not from one advertisement paving the way for another. This is negligible, to say the least. Cumulative effect, on the contrary, comes from salvaging as customers half-finished prospects.

Each advertiser is in much the same plight. If he quits successful, he loses money. If he quits unsuccessful, he tosses away an equity in public recognition far more valuable than the money: So many thousand partly manufactured customers. The second group are spending as little money as they can and still keep their names before the public. They believe themselves wise spenders because they spend so very cautiously—or perhaps reluctantly is a better word . . . THE BALD TRUTH IS THAT THESE RELUCTANT SPENDERS ARE, AS A CLASS, THE REAL OVER-SPENDERS IN ADVERTISING!

EASTLAND CO. NEWS

Lone Star to Go Into Championship Playoff On Monday

Lone Star Gasoline won the third and deciding game of the second half playoff from Robinson Grocery Wednesday night by a score of 7 to 4 to go into the city championship series with Lone Star Gas, winner of the first half championship.

The championship series will begin Monday night, the two teams playing a three-game schedule with the winner of two out of three games being declared the city champion for 1936 and being presented with a loving cup. The presentation of the cup will follow the series.

A big crowd turned out to see the deciding game of the series Wednesday night, and were not disappointed.

Robinson scored in the first half of the first inning when Greer scored after getting on base on a fielder's choice and scoring on Blackwell's hit.

Lone Star scored twice in the first when Pace walked. Russell flew out to left field and Foy and Tully got hits, Pace and Foy scoring.

In the third Robinson took the lead again when Nichols singled, as did Whitefield. Bob Reese fanned and Greer was thrown out at

first. Whitefield and Nichols scored to end the rally.

Again in the fourth Lone Star took the lead by scoring two more runs on a hit by Tully and an error by Blackwell that let Tully score from second and Littlefield go to second to score on Alexander's single. Robinson came within one run of tying the score in the fifth when Belknap, Cox and Nichols connected for hits after one was out, but Cox was thrown out at the plate after Foy interfered with the runner as he came into the home stretch, slowing him up enough to allow the putout.

Lone Star scored two more in the fifth when Blackwell dropped Foy's fly to give him a lift, and Landers hit a home run, both plays coming after two were out and giving Lone Star a three-run lead. They accounted for one more in the sixth, after one was out, on hits by Yonker Hill and Robinson, and the inning.

In the second game of the evening Strawn Merchandise had little trouble in defeating the Elks club by a score of 13 to 1, with Boyd doing some excellent pitching despite an arm that was sore from three straight nights of pitching that it bothered him throughout the game. After he got a comfortable lead he was relieved by Yisentine, who finished the game without getting into any trouble.

Strawn connected for 16 hits to score their 13 runs and played good ball in the field with the exception of two errors, neither of which were costly.

The box score:

Robinson	AB	H	R	E
Whitefield 2b	4	1	1	0
R. Reese 1b	4	0	0	1
Greer 3b	4	0	1	0
Blackwell cf	4	1	0	2
Mace lf	4	1	0	0
T. Reese c	3	2	0	0
Robinson p	3	0	0	0
Belknap cf	3	1	1	0
Cox ss	3	2	1	0
Nichols rf	3	2	1	0
Totals	35	10	4	3

Lone Star	AB	H	R	E
Pace cf	3	0	1	0
Russell lf	3	0	0	0
Foy 3b	3	1	2	0
Landers ss	3	1	2	0
Tully p	3	1	1	0
Yonker 2b	3	1	1	0
Alexander 1b	3	1	0	0
Hill cf	3	1	0	0
Robinson rf	3	1	0	0
Totals	30	7	8	3

Department Store Jewelry Registered a 6.7 per cent raise in dollar volume for the second quarter, and a 3.6 gain for the first half-year; electric household appliances recorded a 6.2 per cent increase for the quarter and a 5.6 per cent gain for the first half-year, and furs gained 2.3 per cent for the second quarter and 9.9 for the first six months, compared with the corresponding periods of 1935. Considering the 23.1 per cent increase shown in fur sales for 1935 over 1934, any modest further gains in sales of this luxury item must be considered encouraging, the report points out.

Broad gains in sales of all kinds of sportswear, both to men and to women, have accompanied the increased sales of luggage and sporting goods. At the present pace, when the year 1936 is closed, the American public will be found to have bought more freely of sporting goods, sportswear and luggage, and to have traveled more extensively for pleasure than in many years, the report concludes.

Arrangements Are Made for Ranger Day at Ft. Worth

Hal Hunter, Coke Martin, J. E. Meroney and R. V. Galloway spent yesterday in Ft. Worth arranging the details for Ranger Day, Sept. 9, at the Frontier Centennial.

The day's program will consist of concerts by the American Legion Tickville band on the Sunset Trail, a 15-minute broadcast by the Ranger High School band and a short talk over the radio regarding Ranger.

All committees are working to get the biggest delegation from Ranger to visit Fort Worth on Ranger day that has attended the Frontier Centennial from a town this size.

For the information of those who have not attended the Frontier Centennial, they will see many large attractions for their general admission price, including the Sun-Trail, old time street, with a general store, a blacksmith shop, the Silver Dollar dance hall, Pig-gott's Place, an old-time bar which features two good singers; Captain Blake's high dive from a 90-foot ladder while on fire; Comanche and Sioux war dance; the Navajo Village with native Indians weaving rugs and baskets; Blackie Simmons Blue Shirts, and many others.

The old buildings along the Sunset Trail contain various collections of branding irons, pistols and guns, Western paintings, old photographs and legal instruments, Indian costumes.

The Will Rogers Memorial room is featured in the West Texas Chamber of Commerce building and contains many of Rogers' personal belongings and various collections by him of saddles, brands, lariats, pictures, heads of animals, all of which were his actual belongings. An average of 1,400 people daily have visited this room since the Frontier Centennial started.

Also in the West Texas Chamber of Commerce building will be seen the exhibits from the various towns, including Ranger, and a moving picture taken at Ranger, featuring street scenes, industries, etc.

The Pioneer Palace, old-time Western bar room is also another attraction which features a burlesque show while the patrons of this unique place enjoy their lunches or drinks at the tables. These shows start at 7, 9, and 11 o'clock.

These are some of the free attractions, and in addition there are the main show features of the Frontier Centennial.

urday afternoon to see a doctor. Mrs. R. E. Kenney and twins are visiting in Mingus.

Brother Holcomb of Ft. Worth will preach at the Baptist church the 5th Sunday of this month. Every body is invited.

Mrs. Annie Walker has had another sick spell. We are all hoping she is better.

The ladies of Mingus gave Mrs. Charley Mitchell a pounding on Tuesday at Mr. and Mrs. Giat's. Those present were: Mrs. C. Speegle, Merle Speegle; Mr. and Mrs. John Kerns, Frances Whitworth, Mrs. E. O. Sheffield, Mildred Sheffield, Mrs. J. C. Mitchell, Mrs. Lee Mitchell and two daughters, Mr. and Mrs. Hubert Mitchell and family, all of Ranger, Mrs. C. R. Bearden, Mrs. Loe Dwyer, Mrs. Maye Minyard, Mrs. Standiford, Mrs. H. E. Calhoun, Mrs. Cantrell, Mrs. O. G. Custard, Mrs. A. C. Harman, Mrs. Awa Henderson, Mrs. C. W. Raglin, Mr. and Mrs. Tommie Choate, Mr. W. F. Barbery, Mrs. R. E. Kenney of Fort Worth. All enjoyed being together. A few sent presents, who were not present. Cake and ice cream was served.

Lack of Mules and Horses in Nation Also Hits Texas

Neglect to breed mares between 1925 and 1933 has left the United States with an excess of horses and mules over 10 years and not enough between 3 and 10 years of age. As a result, there will be a national shortage of about 175,000 horses and 325,000 mules when the 1937 work season opens up, according to information County Agricultural Agent Cook has just received from Wayne Dinsmore, Secretary of the Horse and Mule Association of America.

"Wanted—Stud Horses and Jackasses" is the name of the new leaflet (No. 225) which gives complete information about the horses and mules in every state. Extra copies may be obtained free, from County Agent Cook. It is an interesting little leaflet, full of worth-while information for every farmer.

Dinsmore's figures show that Texas will have to import about 8,500 work horses and approximately 47,900 work mules, from other states, for replacements alone before the 1937 work season starts; that is, colts raised in Texas in 1934 will fall short that number of equalling losses by death in 1936. This means that over \$9,200,000 in cash will have to be paid out by Texas farmers, for work animals, many of which they might easily have raised.

Breeding is increasing, and it is estimated there will be about one million horse and mule colts foaled and raised this year, but death losses in 1936 will be around 1,200,000; so there will be much need for more good sties for some years to come.

Farmers who are interested may obtain a copy of this leaflet (No. 225) by leaving a request for it with the County Agricultural Agent.

Cactus Is Making New Industry for Farmers of Texas

DALLAS, Tex.—A new industry is being developed in Texas from a plant which ranchmen have spent much time and thousands of dollars to destroy—the cactus.

While this industry is yet in its infancy, careful examination of articles produced from cactus stalks shows them to be of great toughness, strength and adaptability that the future of the business seems assured.

Horace Akin, University of Texas graduate in philosophy, has experimented with the Texas cactus for years and now is using it as a raw material for the manufacture of canes, gavels, handbags, fans, vases and other articles. Every product is made directly from the stalks and leaves—or joints—of the cactus. The patent application for the process is pending.

Botanists over the State predict cactus manufactured products are destined to become a major industry in Texas.

"Texas needs a new crop besides cotton," Dr. G. W. Goldsmith, professor of botany at the University of Texas, said while examining products of the plant. "It seems to me that here is such a crop—one which should prove of great benefit to the people of the cactus region."

Dr. F. C. Tharp, another professor of botany at the University, also was impressed.

"This seems to point the way to a new and valuable industry for Texas, one which will be of great value to ranchmen of the State," he said.

Two articles most extensively manufactured from the cactus are walking canes and fans.

The canes—one of which was given to President Roosevelt—are made from the long stalks and have proved to be of unusual strength. Since the stick is a hollow, perforated tube, the canes also are light in weight.

The fans are fashioned so as to retain the shape of the cactus leaves. Before reaching the market suitable dyes of assorted color combinations are added with cellophane lining.

The famous Texas Centennial gavel, fashioned by Akin and Peter Mansbendel, an Austin wood carver, was used by Senator Joe Robinson to bring the Democratic National Convention to order for the nomination of Vice-President John Nance Garner by Gov. James V. Allred of Texas.

The gavel has a handle of cactus, with a head of walnut. On the gavel is the following inscription: "Presented to the Democratic National Convention by the Texas Delegation in fitting memory of the Texas Centennial, 1836-1936."

Texas cactus producing areas are the southern, western and central portions of the State. Although a number of species are involved, these are divided roughly into two types—the flat-jointed opuntias, commonly known as the prickly pear, and the cholla.

Foreign Imports At Record High

WASHINGTON—America, the Washington Post reports, is about to break a 43-year record by buying more goods from foreign countries than it sells to them.

Not since 1893, the Post says, has the United States had an "unfavorable trade balance." In the first six months of this year, how-

By United Press

ALBANY, N. Y.—Albany barbers believe they have something to brag about.

Members of the Albany Barbers' Association have taken some speed tests to see how they compared with the times reported by the Wisconsin Journeymen Barbers' Association. Their principal discovery was that it takes almost three minutes longer to get a haircut in Milwaukee than it does in Albany.

The Albany barbers are faster by almost two minutes for a shave, Joseph C. Papa, president of the association, reported. He contrasted Albany's time of 15.4 minutes with Wisconsin's 17.2 minutes. The shave also requires less time in Albany—7.5 minutes, as compared with 10.9 in Wisconsin.

But the shampoo is different. Wisconsin barbers report 16.7

minutes, while in Albany it requires 17 minutes flat.

Comparison of the times led to a discussion of Papa's philosophy on modern barbering. Papa suggests that customers should relax in the barber's chair.

"The barber," Papa said, "shouldn't talk to the customer except when necessary. Nor should he discuss such complicated questions as the political situation at home and abroad, or the pennant race in the big leagues.

"Neither should the barber make any suggestion of treatments except those which he feels the customer needs. It is his work to serve the patrons, and their needs alone."

ever, American purchases exceeded American sales. That was the first time that had happened since 1926.

A Commerce Department compilation showed that already this year the United States has imported 63 per cent more wheat than it did in the comparable period in 1935.

Attention was called to this trend, the Post says, by George N. Peek, former federal trade adviser and first chief of the AAA. The Post quotes Peek as saying in his new book, "Why Quit Our Own?":

"For the year 1935 our country

became dependent upon foreign food imports to an extent unparalleled in our history. Since we curtailed production, our imports of agricultural products increased by \$248,000,000, while our imports of non-agricultural products increased \$155,000,000. We are no longer feeding and clothing ourselves."

ESCALON, Cal.—When Robert Ballance decided to visit his boyhood home in Australia, he had no thought of encountering the oddest coincidence of his life. On the ship he met his brother, whom he had not seen in 27 years.

HAPPY RELIEF FROM PAINFUL BACKACHE

Caused by Tired Kidneys

Many of those gnawing, nagging, painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way.

The kidneys are one of Nature's chief ways of taking acids and wastes out of the blood. A healthy person should pass about 3 pints a day and so get rid of more than 3 pounds of waste matter.

If the 15 miles of kidney tubes and filters don't work well, waste stays in the body and may become poisonous. It may start making backaches, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Don't let it lay you up.

Ask your druggist for Doan's Pills—used successfully by millions for over 40 years. They give happy relief and will help to flush out the 15 miles of kidney tubes. Get Doan's Pills.

WANTED MAY-FEVER VICTIMS TO TRY A REMARKABLE NEW MAY-FEVER TREATMENT

Sporting Goods And Luggage Sales Show An Increase

MINNEAPOLIS—After slackening their improvement pace in the first three months of 1936, sales of "prosperity goods" spurted spectacularly in the second quarter, led by two outright luxury lines—sporting goods and luggage. Gains for the second quarter raised figures for the first half-year well above those of the corresponding period of 1935, in all seven key lines of goods covered in the current "prosperity buying" survey.

Sales of sporting goods in the 236 department stores reporting in the survey were 32.3 per cent greater for the second quarter, and 24 per cent greater for the first six months than in the corresponding periods of a year ago.

Luggage sales, reflecting tremendously increased tourist travel, were a close second in the margin of improvement shown, with a gain of 30.9 per cent for the second quarter compared with a year ago, pushing dollar volume for the first half-year 22 per cent ahead of the corresponding half of last year.

A sound tone was given the increased public spending for necessities by the further notable gains registered in home furniture sales, amounting to 26.4 per cent for the second quarter compared with a year ago, together with a 21.1 per cent expansion for the first half-year over 1935.

Fulfilling optimistic indications noted in the insurance companies' first quarter survey, sales of pianos have recorded their best six months in fifteen years. Department store sales of pianos and musical instruments were 12.7 per

CCC Youths Defy 134 Degree Heat In Death Valley

WASHINGTON—Although the temperature in Death Valley, sometimes reaches 134 degrees, one CCC company is working there on the National Monument.

Despite the great heat during the day, the youths often are compelled to sleep under blankets at night.

The camp in operation there this summer is located in the Wildrose Canyon and has as one of its projects the construction of Telescope Peak. From this point the highest and lowest points in the United States can be seen—Mount Whitney in Sequoia National Park, and Bad Water in Death Valley.

WAR THREATS IN EUROPE ARE LESSENER

The civil war in Spain increased in violence today while at the same time the threat of war in Europe diminished and there was every prospect that the Spanish outbreak would be confined to Spain and Morocco.

Britain, France, Germany, Italy and Russia were close to agreement on non-intervention and an embargo on arms and munitions to Spain. Germany's action in increasing her standing army to a probable 1,000,000 by raising the term of conscript service was regarded as a gesture toward Russia

rather than a result of the Spanish war.

HENDAYE—While rebel planes bombed the beautiful corner of Spain adjoining this portion of the French frontier today, loyalists began rounding up families suspected of rebel sentiments. They were joined by 1,500 men already held as hostages.

Authorities prevented the mass slaughter of the 1,500 hostages during the night by dispatching heavy guards to the jails and promising that for every person killed in a rebel bombardment five hostages would be executed publicly.

GIBRALTAR—The British destroyer *Cyrus* arrested three Spanish trawlers last night when they were found without lights in British waters. Brought to Gibraltar the trawlers were found to be carrying war materials destined for the loyalist army.

HENDAYE—Most of the ambassadors accredited to Spain, who have taken refuge here, met today to draft a plan for the protection of hostages and other civilian prisoners in Irun and San Sebastian, whose lives are in jeopardy.

MOSCOW—Gregory Vinoviev and Leo Kamenev, two leaders of the October, 1917, mobs that established the Red Soviet government and 14 other plotters against the government have been executed by firing squads, it was announced today.

Thrift Plans In Wider Use Than They Were In 1929

WASHINGTON—The depression had no marked effect upon the participation of employees in thrift plans in business concerns, according to a survey recently completed by the National Industrial Conference Board.

The results of that survey, presented in a report entitled, "Savings Plans and Credit Unions in Industry," indicate that a slightly higher proportion of employees are contributing regularly under thrift plans than in 1927, when a previous survey was made by the board. The participating employees are also saving as much each week. In 1927, 29.6 per cent of participating employees set aside from \$1 to \$1.99 each week and 30.3 per cent saved from \$2. to \$2.99. In 1936 these proportions were 29.7 per cent and 30.5 per cent, respectively.

The depression did, however, result in the discontinuance of certain types of thrift plans. Savings plans operated by companies in cooperation with banking institutions were affected by bank failures and by the unwillingness of banks to continue carrying unprofitable small accounts.

Safety Council, Chicago, today told the bench and bar of the nation that legislation and court procedure were "at present the two weakest links in the whole chain of traffic accident prevention endeavor."

Williams, whose office directs the annual National Traffic Safety contest which this year enlisted 983 cities and 41 states in a drive to reduce street and highway traffic accidents, spoke before the insurance section of the American Bar Association convention.

"The handling of traffic cases in court," Williams said, "is a subject which we laymen approach with profound ignorance of legal technique, yet with an earnest conviction that 'something is rotten in Denmark.'"

"We know that strict enforcement of traffic laws generally can be counted upon to produce quick results. But progress will not continue unless enforcement is based upon careful traffic engineering studies and backed by a definite program of public education. In fact, we know that no one remedy—better engineering, better laws and enforcement, or the most elaborate educational system—will produce lasting results. The prevention program must be balanced with proper emphasis placed on each of these three phases. Such a

program, continued year after year, unquestionably can reduce the traffic death rate at least 50 per cent.

"Some of the most vital parts of this whole safety program are in the hands of the bench and bar, but still it must be admitted that legislation and court procedure are at present the weakest links in the chain. Undoubtedly, this is because the law is essentially conservative. Engineers and educators can try new ideas more readily than can law-makers and judges. If that be the explanation, it is also a commentary on the ad-

aptability of legal machinery to current problems. For one thing, it seems clear to us (traffic safety organizations) that all traffic cases in a community should be concentrated in one, or if necessary, more than one, court. The judge should feel secure in long tenure of office. Many cities are now doing this, but many are not."

Williams argued that uniform traffic laws and ordinances are needed in all states and cities and termed it "strange" that traffic safety campaigns had been waged "almost entirely by laymen."

Smallest Rose Is Placed On Exhibit

DALLAS, Tex.—The smallest red rose in the world—so tiny that a thimble will fit over its bloom and a coffee pot over the full grown plant—was exhibited for the first time in the Southwest at the American Association of Nurserymen's convention at Dallas.

The rose was patented the Tom Thumb and is owned by Robert Pyle, West Grove, Pa.

"The Tom Thumb," he said, "will grow where any good garden vegetable will thrive. It can be used for bordering, in rock gardens and is charming in children's gardens."

"The plant is adaptable for those who live in apartments, for one bush can be planted in a small flower pot successfully, provided it is given sufficient sunlight."

Wild Beasts Snared Easily, Hunter Says

ST. LOUIS—Capturing a wild animal is not so difficult, according to Christoph Schulz, veteran East African hunter, who delivered a consignment of animals to the local zoo.

But animals are hard to keep and deliver after capture, Schulz says. In support of this he pointed out that a giraffe, delivered here, was separated from a herd and roped from a horse in about five minutes.

After the capture, however, it was necessary to move the animal 300 miles overland from East Africa, place it on a ship for a voyage of 37 days to Boston, after which the beast still faced a 15-day quarantine.

And despite the long journey, the animals must be delivered in good health or they will not be accepted.

TO THE VOTERS OF Ranger and Eastland County.

I am grateful to you for the splendid support you gave me in my race for Representative, and my friends for their efforts in my behalf. Also I take this opportunity to express my appreciation for the new friendships and acquaintances that has been my privilege to acquire, and to thank my fellow candidates and opponents for the many courtesies shown me throughout the campaign. For those who saw fit to oppose me in this race I have the kindest feelings and hope that the future will bring us all closer together in our efforts to serve this great Government in which we live.

Yours very respectfully,

T. S. (Tip) ROSS.

of this paper, will be gladly corrected upon being brought to the attention of the publisher.

Obituaries, cards of thanks, notices of lodge meetings, etc., are charged for at the regular advertising rates, which will be furnished upon application.

Next Term Will Be No Party For President

No matter who wins the coming election, a lonely and frequently very tired man is going to be occupying the White House during the next four years.

For the country is in the midst of a period of considerable stress, and the focal point of this stress will rest squarely in the middle of the executive mansion.

He will be forced to decide whether the United States is going to swing to the right or to the left during the next four years. Whoever the winner is, the pressure on him will be tremendous.

He will have to direct the foreign policy of the most powerful nation in the world at a time when—unless all observers are mistaken—the world will be in greater danger of stumbling into war at any time since 1918.

He will be faced with the titanic task of erecting defenses against the drought and erosion that have become so dangerous to our future as an agricultural nation.

He will be held responsible, rightly or wrongly, for the maintenance of American prosperity in a world which is following selfish and blind nationalistic policies that lead away from prosperity.

It is the same way with unemployment. Here, again, the president should not be held wholly responsible, or even chiefly responsible, for the growth or diminution of that terrible problem.

Most important of all, he will have to furnish the people of America with a moral and emotional rallying point. The people are tired and confused, and they have been that way for years.

One of these days they may do some very distressing things if that conviction and that leadership are not given them. It is going to be up to the president to meet that demand.

It is hard to think of any man on earth on whom more will depend than the President of the United States in the next four years.

The campaign is beginning to speed up, and hard things will be said about both candidates for the next couple of months. Before we get too emotional, we might stop to give the winner, whoever he is—Roosevelt or Landon—our deepest sympathy.

A western farmer was caught in the rain without an umbrella, and was he mad with glee.

Sport Glances. By Grayson

THERE has been no let up on the vast amount of money which the New England public has been wagering on the races. The daily average handle for 83 days at Suffolk Downs was \$400,000.

ELEANOR HOLM JARRETT drank herself out of the Olympic Games. Joe Church, the boxer, poached himself out. Irving Pease, Toronto middleweight, was sent home because he ate himself out of his class.

vinced that games are won in the afternoon and cut out morning practice. . . . Frank Demaree of the Cubs is likened to Riggs Stephenson. . . . Never spectacular, but consistently dependable both in the outfield and at the plate, especially in clinches.

NATIONAL LEAGUE pitchers generally are supposed to be superior to their American League brethren. . . . Yet figures show that those of the junior circuit have turned in nearly 100 more complete contests.

How They Voted In Eastland County

Table with 12 columns representing candidates and 20 rows representing precincts. Includes candidates like R. R. Combs, Morris, Agri. Com. McDonald, Terrill, Congressmen Blanton, Garrett, St. Representatives Lotief, Ross, County Judge Cooper, Adamson, County Clerk Galloway, Collier, Sheriff Woods, Hill.

Roosevelt Has Been Good Friend Of Texas Farmers

AUSTIN, Texas. — President Roosevelt assuredly has been a "good neighbor" to Texas farmers and ranchers, for his administration supplied to them during their direst needs the stupendous sum of \$323,227,304, of which \$136,019,144 was under the Agricultural Adjustment Act and \$187,208,160 under the Farm Credit Act.

spread among all groups, keeping under way in this state than a Tex-up purchasing power and markets. as woman, Mrs. Clara Driscoll Sevier, Corpus Christi, opened her purse and put down \$10,000 for the Roosevelt-Garner crusade.

Miller, who served as campaign manager for Roosevelt in this State four years ago, and who is now performing similar service, has this to say: "It is inconceivable how any man or woman in Texas could vote against Roosevelt in view of the untold benefits he brought to us, for this was help in which every one shared.

under way in this state than a Tex-up purchasing power and markets. as woman, Mrs. Clara Driscoll Sevier, Corpus Christi, opened her purse and put down \$10,000 for the Roosevelt-Garner crusade.

She is National Committeewoman from Texas. When the State Democratic convention was held recently in San Antonio other candidates for this post withdrew when it became known she was willing to serve again.

district units, whose officials cooperate with state headquarters, and they, in turn, with National headquarters. All contributions will be acknowledged and listed with National headquarters.

States in the north and east are watching Texas' activity closely for it is known to the entire campaign organization that Texas' prestige at Washington is at stake for Texas leaders in Washington are more at the helm of affairs than those from any other state.

Besides giving more than \$300,000,000 to Texas farmers and ranchers the Roosevelt Administration saved hundreds, yes thousands of Texas homes, for the survey shows that the Home Owners Loan Corporation put to work \$103,068,735 in this state, along with nearly \$5,000,000 for Resettlement, and \$19,000,000 sent here by the Federal Housing Administration.

The Reconstruction Finance Corporation sent here \$69,383,000 for all manner of business; Public Works Administration \$112,724,000, which supplied many thousands of jobs. Other items were: Commodity Credit Corporation, \$45,481,000; Civil Works Administration, \$31,695,000; Bureau of Public Roads, \$67,158,000; Emergency Conservation Work, \$38,578,000.

Roosevelt is the Centennial President, as Alford is the Centennial Governor, and showing his great

LOSS WOODS Thanks Voters

It is my desire to make you a good sheriff and I earnestly ask the cooperation of all in helping me to render a service that will be helpful and satisfactory to everyone.

Sincerely, LOSS WOODS

interest in Texas, its people and history, the President visited the Alamo in San Antonio, the San Jacinto battlefield near Houston and the expositions in Fort Worth and Dallas. Roosevelt has been Texas' best friend.

Preventable Deaths Take Almost Third Of The States' Toll

AUSTIN — Scythe swings of death are charted graphically by the Texas Planning Board in a document on public health in the state.

Almost a third of all mortality in the state is from preventable maladies, the report said, adding: "More than 17,500 persons in Texas lost their lives unnecessarily during 1934."

As in other states to which many persons come seeking health tuberculosis caused most deaths, its toll was 4,302 in 1933. Texas was 14th state in deaths per thousand from infectious and parasitic diseases but 41st among the

states in percentage of deaths from all causes. Commercially, the planning board estimated that the preventable deaths cost more than \$3,000,000 a year for funerals alone, computing the average funeral cost at \$200.

The survey indicated that Texas is fourth among states in percentage of diphtheria deaths. No geographical reason exists for such a condition, the board reported, blaming the situation upon inadequate local public health facilities. Small pox gives the state its worst rating in comparison with other parts of the United States.

CHAFED SKIN Don't suffer needlessly! Apply soothing Resinol Ointment to quickly relieve the fiery torment and restore comfort to the tender, reddened skin. Resinol

To My Successor "Rip" I hope that the man who won my place Will do more than I ever could do; I hope he will run a superior race And be further along when he's through. I hope he has friendship wherever he goes, With a cordial good will and esteem. I hope he will never acquire any foes And will realize every fond dream. I hope that the folks who are kindly to me Will continue their kindness to him; I hope that his cup of contentment will be Ever perfect and filled to the brim. I hope he will reach every coveted goal And the cherished success he may crave. I hope it will truly be well with his soul When he comes to the brink of the grave. TURNER COLLIE.

GARRETT'S FRIENDS NOT AWED Congress Race Climax Seven Elections AT VICTORY OVER T. L. BLANTON

Friends of Clyde L. Garrett to bookkeeping and insurance weren't surprised Saturday night at his apparent victory over Representative Thomas L. Blanton, veteran of many campaigns and 17th district congressional representative known nationally for his fieryness.

Garrett's friends have pointed all along to the fact that the Eastland county judge had been in seven campaigns and had each time come out on top.

Garrett was born 50 years ago in a log-cabin that still stands near Gorman in Eastland county. His father, W. V. Garrett, a Confederate soldier wounded in a battle during the Civil War, was a county commissioner and justice of the peace for 25 years.

One of Clyde Garrett's first jobs was as a railroad section hand. He attended Hankins Training College at Gorman and later taught school. After teaching school he went in-

father of five children, ranging in age from 22 to 4. He is a member of the Baptist church, Masons, Knights of Pythias and the Lions club.

Friends of Judge Garrett say that the county judge's democracy is reflected in the fact that he has never been known to be too busy to see anyone.

Recently a newspaperman sought Garrett and after waiting his turn in a long line, inquired: "Judge, what kind of a meeting are you having today?"

The judge modestly replied: "There's no meeting. It's just the usual number of citizens who come to see me on personal and county business every day."

Tips Are Given On Preparing for A Fall Garden

COLLEGE STATION — "Fall gardening is a waste of time and effort unless the soil is thoroughly prepared," J. F. Rosborough, extension horticulturist, said recently.

"Most gardeners go wrong in turning under a growth of weeds and dried up spring vegetables. Cutting the weeds and throwing them over the fence before plowing is the first step toward a successful garden," he added. "Turned-under weeds heat and dry out the soil above and prevent thorough cultivation."

In most barn lots as this time of the year there is a layer of tramped manure that has dried out, losing the acids that burn plants. After the garden has been plowed, spread a coating of one to three inches of this 'summer manure' over the surface, then rebreak the ground or disc and harrow it until it is well mixed into the soil. This 'spongy' material will greatly increase the water-holding capacity of the soil and prevent it from packing. When fall rains come, the garden soil handled in this way will be ready for planting.

"It is often hard to get the fall crop of potatoes to come up even when there is enough moisture. Potatoes from the spring crop should have at least six weeks of 'rest' between harvest and planting time before they can be expected to sprout. To encourage sprouting, there are two methods of treating seed potatoes that may be used. One is to cover the potatoes with damp straw, after placing in a shady location, and when sprouting begins, plant. The other is to treat seed potatoes with a

solution of 1 pint of ethylene chlorhydrin to 4 gallons of water. This quantity of solution will treat 5 bushels of potatoes.

"In treating the potatoes with this chemical, cut the seed in the usual way about eight hours before planting. Even where small potatoes are being used, cut them on one side. Dip the seed pieces in the solution and then place into a barrel or tight box and cover for eight hours. Remove the barrel and plant immediately."

Highways In 36 States To Be Given Survey This Year

Rural highway surveys or road planning programs are now in progress or soon will begin, in 26 states, according to latest information received by the American Petroleum Industries Committee.

These road studies are being undertaken to supply the necessary information to place future highway improvements on a sound and business-like basis.

Systematic highway planning has been advocated by the Committee for several years as an important method of reducing highway taxes, since such studies enable construction programs to be carried out with a maximum of

economy and saving to tax-payers.

The U. S. Bureau of Public Roads has pointed out that, in the past attention has been centered chiefly on improving main highways, whereas, more attention in the future must be devoted to improving secondary and feeder roads as well as conditions at points where the main highways pour their traffic into cities.

In each state where road surveys are being undertaken, federal highway officials are guiding the work. Each survey consists of three parts, namely, a highway condition survey, a highway traffic survey and a highway finance study.

The highway condition survey consists of a complete road inventory of every mile of passable roadway existing in the state, showing the mileage, types, width of right of way, character of grades, slight distances, curvatures, grade crossings, sidewalks, and other forms, kinds and character of thoroughfares.

It also includes the plotting of regular bus routes, truck routes, aviation landing fields, railroads, navigable waterways, bridges over major streams (free and toll), ferries, and information on the location of dwellings, stores, factories, churches, schools, mines, oil fields.

The traffic survey shows the character and extent of traffic on the various roads of the state, accumulated through various types of counts and checks. The information obtained from these counts together with that obtained through the highway condition survey will indicate the road improvements needed, thereby enabling highway officials to gauge more accurately the revenues necessary.

The financial and use surveys cover the costs, expenditures and revenues of the highways of the state. This includes a study of gasoline taxes, registration fees, carrier special taxes, and diversions, the yield of the various taxes, who pays them and the share paid by rural and urban residents respectively. It will also include all other state and local revenues available for road purposes.

Hubam Clover Is A Good Erosion Control Crop

GARLAND, Texas — Approximately 4,000 pounds of Hubam clover seed have been harvested and threshed on 12.5 acres of land on five farms in the Duck Creek soil conservation service project area. The clover was planted in February in strips and on steep eroded areas for erosion control.

Hubam, unlike the biennial white sweet clover, is an annual and produces a seed crop each year while the biennial variety does not seed until the second year after planting. The clover has a tap root system with numerous lateral roots, making it an excellent crop for erosion control when planted in broadcast on the contour.

As a soil building crop, Hubam should compare favorably with the biennial sweet clover. According to P. B. Dunkle of the Texas Agricultural Experiment Station at Denton, wheat rotated with sweet clover increased its yield 117 per cent over continuous cropping; oats 66 per cent; corn 18 per cent and cotton 22 per cent.

The Hubam crop may be cut early for hay, and a second cutting may be made later for seed, or an early cutting for hay with the second crop turned under for soil building purposes. Hubam seed production offers some possibilities as a paying enterprise for the black land of Texas.

E. L. Hargrove of the New Hope community reports that Hubam planted on eroded Johnson grass land made fair growth. The crop was cut after the Johnson grass headed, and fed to stock. Albert Corley of the Handley community stated that hay cut early in June made good forage and was readily consumed by the livestock. He expects to harvest considerable seed from his second crop and turn the stubble under. J. E. Sebastian is well pleased with Hubam clover planted on strips for erosion control. He plans to double his acreage next year, and states that planting Hubam in strips offers an excellent opportunity for making a complete crop rotation on the farm.

Included in the plans for the proposed building are a main portion, 55 by 113 feet, fire station 36 by 40 feet, office spaces, city hall and council chamber available for public use.

The city holds an option on a corner lot 150 by 220 feet that is being considered for the building site.

Farmers to Receive Million in Crop Loans

By United Press
AMARILLO — Farmers in the five-state region handled by the Resettlement Administration office at Amarillo will receive approximately \$1,000,000 in crop loans under their latest allotment.

Drought conditions in many localities will increase the demands for federal assistance funds. The Amarillo region includes the Texas Panhandle, Eastern New Mexico, Southeastern Colorado, and the Western portion of Kansas and Oklahoma.

CLUB DIES
NEW MILFORD, Conn. — The New Milford Monday club, a women's organization affiliated with the State Federation of Women's clubs, disbanded when no member could be found at the annual business meeting which was willing to assume the presidency. The club was founded in 1897 and had 88 members.

THANK YOU

My family and I are deeply grateful to the voters of Eastland County for the wonderful vote given me in last Saturday's election.

Such a vote of confidence could do nothing but inspire me to reciprocate by giving the people of this county the best that I am capable of in serving you as your next county clerk.

Gratefully yours,
R. V. (Rip) Galloway.

Increase In Tax On Gasoline Killed In Pennsylvania

Opposition on the part of motorists and of the public has resulted in defeat of a bill at the special session of the Pennsylvania legislature, just adjourned, which would have increased the state tax on gasoline from 4c to 5c a gallon, and would have given the Keystone state one of the heaviest gasoline levies in the East.

From the opening day of the special session, when the measure was introduced, increasing opposition developed to the plan for taking \$12,000,000 out of the pockets of the state's motorists to meet the general expenses of the state. As a result the bill died in the Ways and Means committee of the House, without being reported.

Under the sponsorship of the state's automobile clubs, petitions against increasing the tax on motor fuel were signed by thousands of voters and taxpayers and sent in to the state capital. It was pointed out that the increase would place a sales tax of 45 percent on an essential commodity. It was also charged that the proposal was designed to "soak the motorists" so that others could avoid their tax obligations.

The campaign of the motor clubs of Pennsylvania against an increase in the gasoline tax was one part of a larger program they have undertaken this year in an effort to combat all discriminatory motor vehicle taxes.

The legislature also declined to pass a bill introduced at this session, which would have placed a tax on fuel oil, when the Senate Finance committee refused to report it.

CRYING BEGINS

The honeymoon ends where the crying begins. Half the divorces are caused by people who fail to keep each other busy enough. We are kept busy enough these days because when you drive your car in for service we "diagnose" the "disease" and apply the proper "remedies." Our service makes repeaters and boosters.

ON TEXAS FARMS

Says the Missus to the Mister in anybody's country home this month — "What about the fall garden, Pa?"

That was a grand shower last week, and lucky it was the ground was already prepared. It didn't take much time, and wasn't much

trouble to put the turnip seed in. And this week they're up!

Or didn't you get a shower? Well, better luck next time.

Or wasn't the ground ready? O you say you couldn't spare the time from the cotton? Too bad!

There may be other showers. Better get ready to take advantage of them. Turnips and greens make grand eating—all full of vitamins, too, they say!

We didn't use to know about the vitamins, but we always knew that the families that had good health had good gardens. We may have thought they had good gardens because they were strong and had good health. Now it seems that they had good health because they had good gardens.

That's getting involved so let's say it's one of those circles. They had good—O, well, you know what I mean!

PERRYTON.—To irrigate her

garden, Mrs. Frank Martin of the Booker home demonstration club has put down 100 feet of tile, according to Marie Ludwick, Qehil-tree county home demonstration agent.

The tile, which is placed in rows three feet apart, is irrigating a garden of 13 varieties of vegetables. Her garden is made up of beans, radishes, beets, English and black-eyed peas, carrots, Swiss chard, lettuce, parsley, peppers, parsnips and turnips.

McKINNEY.—Sixty flour sacks were used in canvassing the room of Maxie Ann Drain, bedroom demonstrator of the Clear Lake 4-H club in Collin county, thus cutting the expense of her bedroom improvement.

WACO.—Doris Reuter, 4-H club girl of McLennan county, won \$3.50 in prize money last year and invested some of it in chickens, which are paying her a profit, according to Mary Inez Scott, assistant home demonstration agent.

With \$2, Doris purchased 25 White Leghorn chicks at eight cents each and spent 75 cents for

chick starter. She raised 21 of these, 10 of which were sold as fryers at an average of 40 cents each and 11 of which she kept for layers.

Her hens started laying at the age of five months and this 4-H club girl sold \$7 worth of eggs. With \$1.20 of the profit from the fryers, Doris bought 12 more chicks and paid out 45 cents for feed. Of these, she raised 11, eight pullets and three roosters, two of which she sold and one of which she kept for stock.

Doris' total expense was \$4.40. She made a net profit of \$7.60 and her hens are still laying.

SAN SABA.—When Sam Burk, orchard demonstrator of Northwest community in San Saba county, had budded 2,500 nursery peach trees for enlarging his orchard, the labor cost was only \$7.50, reported Ross H. Brison, county agricultural agent.

"More than 90 per cent of the buds are living, and it is estimated that there will be 2,000 trees suitable for planting. Thus, he should get \$200 worth of trees for a cash outlay of only \$7.50, as he is doing all the other work except the budding," stated Brison.

CENTERVILLE.—Russell Long, farmer in the Nineveh community in Leon county, recently came to the decision that more money can be made out of farming by raising feed and marketing it through livestock than by raising cotton.

J. B. Short, county agricultural agent, who is helping Long to re-arrange his farm, reports that this former cotton raiser intends to dig trench silos and fix feeding pens on the hill. He is arranging his fences so that all four of his pastures will be connected to put in at least 40 acres in permanent pastures, 50 acres in temporary pastures, and 60 acres in feed for the livestock.

"Long will alternate the temporary pasture and feed land from year to year," the county agricultural agent stated, "and he is going to raise both hogs and cattle by starting with a few good animals and gradually improving them to purebred stock."

circulated throughout the world. The campaign was launched the first of the year and will continue for the remaining five months of 1936.

Canada leads the list of foreign inquiries with approximately 2000 letters requesting information about the Centennial on file. England is second with several hundred. A collection of other foreign postmarks includes Philippine Islands, Brazil, Holland, Peru, Venezuela, Denmark, Italy, Costa Rica, Trinidad, Algeria, Uruguay, Portugal, San Salvador, Belgium, Poland, France, Bahamas, Newfoundland, Honduras, Bolivia, Czechoslovakia, Nigeria, Canal Zone, China, Chile, Spain, Ecuador, Cyprus, Mexico, Australia, New Zealand, Japan, Russia, Germany, Cuba, Egypt, Argentina, Dominican Republic, Norway, Colombia, South Africa, Switzerland, Ireland, Estonia, Scotland, Dutch West Indies.

the windows and pulling down the shades, to keep the heat out. It's all wrong, say the experts. The ideal setup is to open the windows both top and bottom and all the doors.

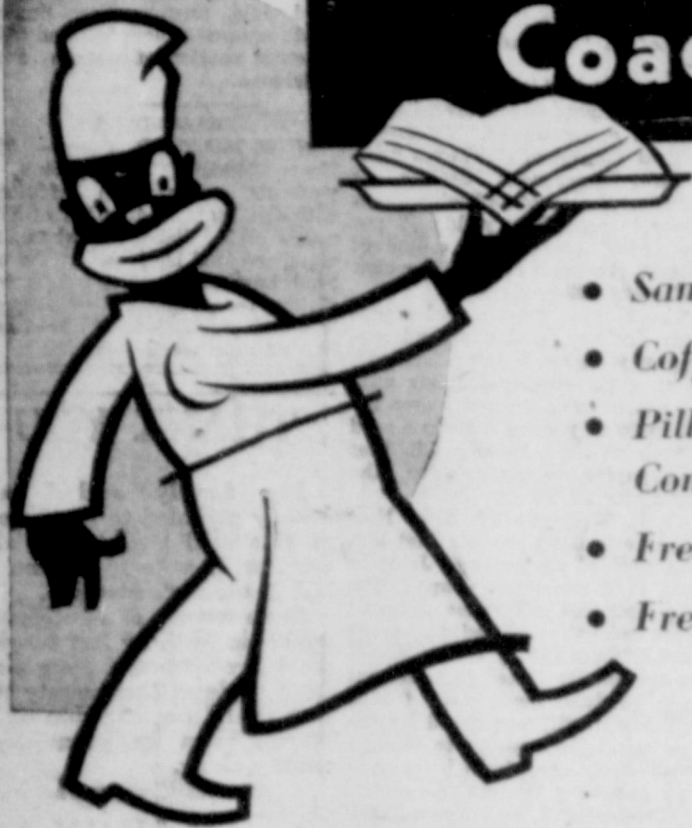

In regard to meals don't eat too many chilled or frozen foods, say the experts. They put a burden on the stomach muscles which makes a person feel hot than ever. At least one hot drink with each meal is recommended. In fact, army doctors in the tropics recommend hot corn bread, as nourishing and easily digested.

As for thirst, doctors recommend at least 16 glasses of water a day, with a dash of vinegar or lemon juice in it. The British in India find hot tea ideal for hot weather. The reason is that tea draws from the surface of the skin, where people are most conscious of the heat. Also they say, hot drinks, like hot baths, tend to cool rather than to heat. And they point to the hot, spiced foods popular in tropical countries.

At night, wet sheets hung at the head and foot of the bed help. It's the evaporation which does it. In clothes, linen is the coolest, light in color but not white.

BABY GETS TEETH EARLY
TAMPA, Fla.—Rebecca Wood has a full set of 20 baby teeth at the age of 20 months and holds the record for reported instances of early development of teeth. Rebecca's nearest competitor is believed to be a Boston child who had 16 teeth when 16 months old.

FEATURING in Air-Cooled Coaches

- Sandwiches 10c
- Coffee 5c
- Pillows With Our Compliments
- Free Soap and Towels
- Free Drinking Cups

Every through train is completely air-cooled . . . quiet and restful. Sleep peacefully on big snowy white pillows pretreated with our compliments. Refresh yourself with delicious sandwiches and hot coffee served at minimum cost. Travel by train and relax. And just think, it costs only 2c a mile. . . Round trip tickets are even cheaper.

Be sure to visit the Texas Centennial at Dallas . . . and Frontier Centennial at Fort Worth. . . Both going strong. . . Extremely attractive week-end rates.

A Texas and Pacific Ticket Costs No More, but Texas and Pacific Service Adds Much to the Pleasure of Your Trip.

FAST • COOL • COMFORTABLE

Kelley rolls 'em in 8 seconds flat with this "makin's" tobacco!

"I USED to think that rolling out a perfect cigarette in 20 or 30 seconds was pretty good," Tom Kelley says. "But shucks! It's easy when you use Prince Albert. Now I roll 'em in 8 seconds. And that big red economy tin gives me 70 swells, mild smokes." Men, P.A. is offered to you on a strict you-must-be-pleased basis. To wit: Roll yourself 30 swell cigarettes from Prince Albert. If you don't find them the finest, tastiest-rolling-own cigarettes you ever smoked, return the pocket tin with the rest of the tobacco in it to us at any time within a month from this date, and we will refund full purchase price, plus postage. (Signed) R. J. Reynolds Tobacco Company, Winston-Salem, North Carolina.

You can't beat P.A. for pipe smoking, either. No other tobacco is like it!

PRINCE ALBERT THE NATIONAL JOY SMOKE

Across the Rockies in a Ford V-8

MORE THAN 18 MILES PER GALLON ON TRIP OVER MOUNTAINS

Red Rock, Oklahoma
June 19, 1936

Doenges Motor Company
Tonkawa, Oklahoma

Gentlemen:

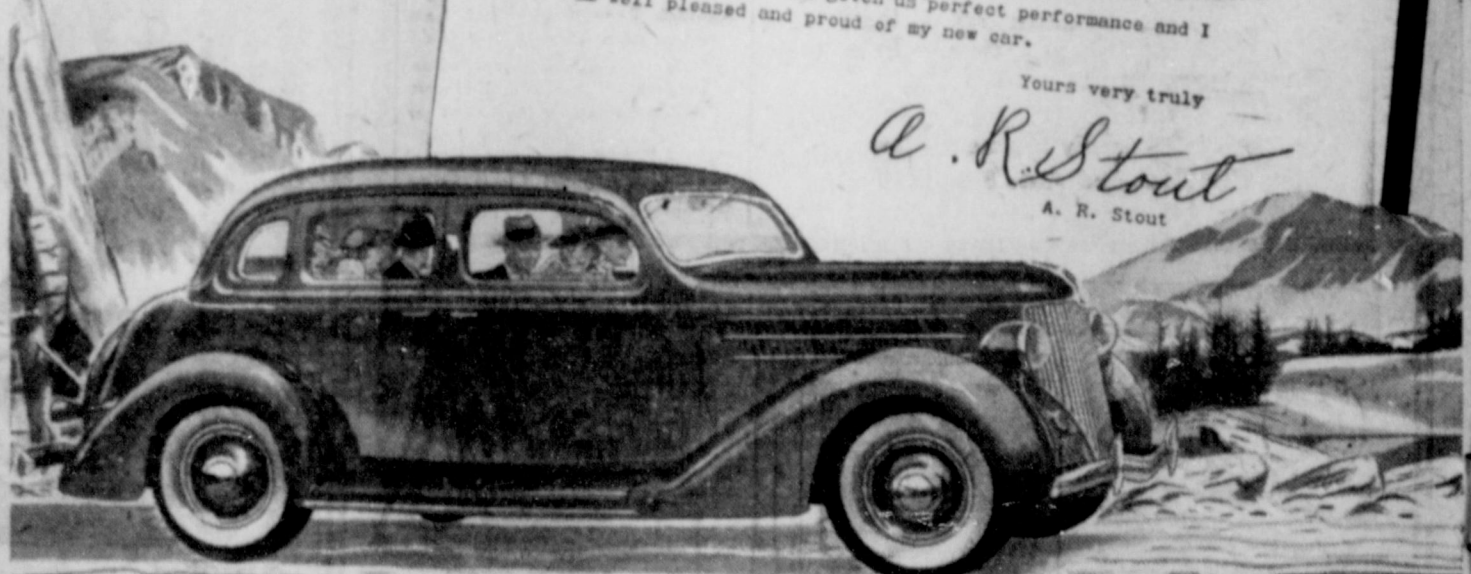

I have just returned from a two weeks' trip in which I covered more than 4800 miles and I am so well pleased with the performance and economy of my new Ford V-8 that I want to tell you about it.

Our car, a Fordor Sedan with Trunk, accommodated seven of us on this trip which took us through the mountains of Colorado, Wyoming and into Washington State. On the return trip there were nine of us and we came back through Salt Lake City and Denver.

On this trip we passed over six of the Rocky Mountain Passes and we marveled at the ease at which the car took these steep grades and the rare intervals at which we bought gasoline, for upon our return, by dividing the total miles traveled by the total number of gallons of gasoline bought, we found that we had averaged over 18 miles to the gallon for the entire trip which I think is unusually good considering the load we carried and the roads covered.

The car has given us perfect performance and I am well pleased and proud of my new car.

Yours very truly
A. R. Stout

If you want facts about the Ford V-8, talk to Ford owners. Their experience and enthusiasm mean more than anything we could say. ★ The letter above is typical. 4800 miles across the mountains with seven and nine passengers. More than 18 miles to the gallon of gasoline! ★ The brilliant performance of the Ford V-8, its abundant power and quick pick-up, are coupled with economy.

Prove Ford V-8 Economy Yourself

Your Ford dealer is prepared to show you on a non-stop run that the Ford V-8 will give 24 miles to the gallon at 20 MPH, 22 miles at 30 MPH and 20 miles at 40 MPH. Ask him to arrange a demonstration.

\$25 A MONTH, after usual down-payment, buys any model 1936 Ford V-8 car—from any Ford dealer—anywhere in the U. S. Ask your Ford dealer about the new Universal Credit Company 1/4% per month Finance Plans.

FORD V-8

GET GULFLUBE—It's "Stripped for action"!

A cheap, poorly refined motor oil is like an over-dressed wrestler. Such an oil is hampered by useless waste which should be removed by further refining. Such an oil, like the over-dressed wrestler, can't do a good job!

Most 25c oils, like this wrestler, are still somewhat hampered. Some of the useless waste has been removed, but not all of it. No refiner of 25c oils could afford to carry refining further than this until Gulf perfected the Multi-sol process.

GULFLUBE MOTOR OIL, like this wrestler, is stripped for action. Stripped of all useless waste by the Multi-sol process—the finest 25c oil in America—the only 25c oil equalling premium-priced oils! For better lubrication, cleaner motor, less oil consumption—get Gulflube—at the Sign of the Orange Disc.

THE PREMIUM-QUALITY MOTOR OIL FOR 25¢
