

\$50,000 ASKED IN LIBEL SUIT AGAINST STORE

Complaining that an article in a magazine which Bowen Drug Stores sold libeled the memory of his daughter, A. R. Lawson of Ranger filed suit in 91st district court asking judgment of \$25,000 for alleged actual damages and \$25,000 exemplary damages.

The petition named Anna R. Bowen and D. R. Gayle as operators of the Bowen Drug Stores in Waco, Sweetwater and Lubbock, where allegedly August, 1936, Official Detective Story magazines were sold with a story concerning his daughter, Louise Lawson.

Lawson stated in the petition his daughter was murdered Feb. 28, 1924, in New York City, where she went to study music, and the murderer has not been apprehended.

Lawson's petition alleged the magazine story libeled his daughter's character. He said his daughter had been a member of the Columbus Street Baptist Church choir in Waco and had studied music in the musical department of Baylor University in Waco.

The petition was filed by Tom M. Hamilton and J. A. Kibler of Waco.

ENROLLMENT IN SCHOOL HIKED AT DESDEMONA

100 pupils were added to the Desdemona school by the recent contracts with Lowell and Robinson Springs schools.

A contract transferring the scholastics out of Robinson Springs in Comanche county has been made for two years and another with Lowell, four and one-half miles in Erath county for one year.

Robinson Springs transferred 104 students and Lowell 44.

The transfer of the students of the schools increases the staff of the local school from 11 to 15 teachers.

For the first time commercial courses have been added to the study of the high school here.

To Reorganize K. of P. Lodges

Efforts to reorganize Knights of Pythias lodges at Rising Star and Reed will be made soon, Herbert Cisco, Eastland, district deputy for the Grand Lodge of Texas, stated Wednesday.

Reed stated \$500 in lodge equipment will revert back to the grand lodge if the organization at Cisco is not reorganized in six months.

The Cisco lodge, Reed stated, disbanded about six months ago and many members transferred their membership to the 'phantom' home lodge at Weatherford.

Corn Seed Loans Will Be Made By The Federal Govt.

By United Press

WASHINGTON, Sept. 16.—A \$10,000,000 corn loan program, which for the first time provides seed corn loans to assure farmers in drought areas of adequate feed for next spring, was announced today by Secretary of Agriculture Henry A. Wallace.

The program provides two types of loans on farm-stored feed corn. A loan of 75c a bushel on field-selected corn which meets requirements is provided for the first time. A loan of 55 cents on good quality stored corn which can be sorted for seed at a later date is also provided.

Eight Brick Houses Stolen, Says Owner

By United Press

MONTREAL—William Budge, Raikie, wealthy houseowner, reported to police that thieves stole eight of his houses in Rosemount, a suburb of Montreal.

Raikie said the flats were unoccupied for several months, and the thieves apparently demolished and carted them away brick by brick.

Reduce Term For Man Convicted In Eastland County

Governor James V. Allred has announced a 90-day reduction of sentence for Danny Leach, convicted and sentenced to 15 years in the penitentiary from Eastland county upon a charge of murdering R. C. Hill April 2, 1930.

Leach, serving a 40-year sentence because of the Eastland county conviction and others in Tom Green and Newton counties, conducted himself in an exemplary manner in a prison break on July 19, 1936, which resulted in the death of a guard, Felix Smith. The governor said Leach could have escaped with others but chose to remain with a squad of 19 and offer aid to a remaining guard.

Public Schools Are Teaching Driving

By United Press

HARRISBURG, Pa.—Rapid progress has been made in development of courses of study for automobile drivers and pedestrians in Pennsylvania's public schools.

Specific highway safety courses were only recently introduced into secondary schools following requests for this type of education, Public Instruction Superintendent Lester K. Ade said.

The Department of Public Instruction is one of 35 state departments of education providing instruction on safe automobile driving practices.

Youth's adventurous spirit, ever increasing volume of automobile casualties and increasing centralization of population spurred establishment of courses to meet these conditions, Ade said.

Federal Land Bank Makes 118 Loans In Eastland County

In Eastland County, 118 loans were closed in the amount of \$175,450 by the Federal Land Bank and the Land Bank Commissioner, from May 1, 1933, through June 30, 1936, according to information received by H. P. Drought, National Emergency Council state director for Texas.

Of the loans closed in this county, 21 for \$52,800 were made by the Federal Land Bank and .97, totaling \$122,650, by the Land Bank Commissioner.

Through the agency of the Farm Credit Administration in Texas \$196,139,976 has been loaned during the same period. These loans included 18,363 of Federal Land Bank loans for \$89,429,400; 31,213 Land Bank Commissioner loans in the amount of \$58,151,000; 27,593 Production Credit associations totaling \$27,780,358; 123,286 emergency crop loans amounting to \$13,808,994, and 42,834 drought relief loans for \$6,970,224.

In addition to refinancing loans through the Farm Credit Administration, the farmers in Texas were benefited also by a reduction of mortgage principal which amounted to \$6,288,500. Further savings resulting from lowered interest rates are estimated at \$3,550,000 annually.

In the period May 1, 1933, through June 30, 1936, 756,674 mortgage loans, totaling \$2,056,156,826 were made and \$1,391,373,603 was advanced in loans to cooperatives while \$318,878,072 was loaned to cooperatives by the agencies of the Farm Credit Administration in the United States.

RING FOUND AFTER 20 YEARS
DORSET, Eng.—Mrs. G. A. Golding, of Wimborne, lost her wedding ring 20 years ago while picking peas. The other day her husband was plowing the garden when he saw something glittering in the soil. It was the missing ring.

Purdue Griddler Dead of Burns

Heading the 1936 list of fatalities among football players is the name of Carl E. Dahlbeck, of Purdue University, who died of burns suffered in a shower room explosion after a gridiron practice session. Five other Purdue players were seriously injured. Dahlbeck, veteran guard, is from Lyndonville, Vt.

Funeral Is Held For Ranger Woman

Funeral services for Mrs. Viola Arrandale, 22, who died in a Ranger hospital Monday night at 9 o'clock, were conducted from the First Baptist church of Ranger Tuesday afternoon at 2 o'clock. The services were conducted by Rev. K. C. Edmonds of Ranger, assisted by Rev. G. W. Thomas, pastor of the First Baptist Church of Ranger and Rev. W. H. Rucker, pastor of the First Baptist Church of Strawn.

Interment was in the Colony cemetery following the services, with Killingsworth, Cox in charge. The decedent is survived by her husband, Jimmie Arrandale, one small child, four brothers, Roby, Carl and J. D. Eakin of Ranger and Allen Eakin of Oregon; four sisters, Mrs. Padgett of Tyler, Mrs. Budelia Merritt of Ranger, Mrs. McCurdy of Jay, Okla., and Miss Hazel Eakin of Ranger, and her father, Alex Eakin of Ranger.

Shooting Marks Are Announced

C. J. Rhodes, of Eastland, secretary of the Oil Belt Gun Club, announced Monday the following shoot scores at the Sunday shoot: Samuel Butler—73 x 75. John Turner—72 x 75. Page Knight—71 x 75. Wm. Pardee—70 x 75. K. B. Tanner—75 x 75. Jim Horton—50 x 50. Mrs. Jim Horton—48 x 50. A. H. Rhodes—48 x 50. C. R. Dye—23 x 25. F. D. Wright—24 x 25. C. J. Rhodes—20 x 25. V. T. Seaberry—21 x 25. Gene Rhoads—22 x 25. Jim Connelley—21 x 25. J. L. Barnett—23 x 25.

Colony P.-T. A. Has Business Meeting

Colony P. T. A. had its opening meeting Sept. 11. Mrs. Cozoe, vice president, presided over the meeting, which proved a very busy one, since important plans are being made for the coming year.

The following officers have been appointed to serve for the coming year: Mrs. B. R. Alderson, president; Mrs. Cozoe, vice president; Mrs. O. Shields, secretary; Mrs. F. D. Ford, treasurer.

Veteran Carrier Of Mail Resigns

An advertisement announcing a contract will be posted for a mail messenger has been let in the Eastland postoffice.

T. K. Maynard, who has carried the mail to and from the passenger station for 20 years, has resigned.

FRIDAY TO BE RANGER NIGHT AT THE FAIR

Friday night is to be Ranger night at the Eastland County Fair, which opens on Wednesday of this week, and as is usual Ranger will furnish entertainment for the occasion. Each Friday night has been designated as Ranger night since the fairs were first started and each year Ranger furnishes the program on that occasion.

J. N. Crawford, director of the Ranger Band, has formed an orchestra of about 25 pieces, which is to furnish the music for Ranger night, and the final touches to its musical program will be completed before time for its appearance in Eastland, it was announced today.

Practice sessions for the orchestra will be held on Tuesday, Wednesday and Thursday nights of this week.

In addition to the orchestra Dorothy Henry and Margaret Watt will present tap dance specialties and tentative arrangements have been made to have a girls tripping as the other feature on the program.

A large crowd of Ranger people is expected to be in Eastland Friday night to be present at the fair and to hear the program sponsored by the city.

Dorothy Oil Well Is Completed For Oil and Gas Pay

One completion and location were bright spots last week in the Eastland county oil picture. In contrast, however, was the abandonment of another.

After an acidization and cleaning, Dorothy Oil Company No. 1, Holcomb Heirs, three miles east of Eastland, was completed for 26 barrels of oil and 1,640,000 cubic feet of gas. Original production of the well was reported at 20 barrels of oil and 1,250,000 cubic feet of gas. The well, in which pay was reached between 1,485 and 1,508 feet, is located in section 1, block 4, H. & T. C. Survey.

Offsetting the Dorothy Oil Company well, States Oil Corporation staked location for No. 1 Holcomb heirs 150 feet north and 330 feet west of the southeast corner of the northwest quarter, section 1, block 4, H. & T. C. Survey.

After deeping from 3,520 feet, Texas & Pacific company's No. 17 Copeland was abandoned at 3,750 feet. Brought in about 15 years ago for some oil production, the T. & P.'s well is located in the J. P. Rohms survey about five miles north of Ranger.

Colony P.-T. A. Has Business Meeting

Colony P. T. A. had its opening meeting Sept. 11. Mrs. Cozoe, vice president, presided over the meeting, which proved a very busy one, since important plans are being made for the coming year.

The following officers have been appointed to serve for the coming year: Mrs. B. R. Alderson, president; Mrs. Cozoe, vice president; Mrs. O. Shields, secretary; Mrs. F. D. Ford, treasurer.

Judgment Rendered For Ranger Bank

Judgment of \$239.43 has been rendered by county court for Commercial State Bank in a suit against J. T. Brewer.

The court ordered property under mortgage securing a loan be sold by the sheriff to satisfy the judgment.

Davenport Sets Cases In October

The following cases have been assigned for trial by George L. Davenport, judge of 91st district court:

Oct. 7—West Texas Construction company vs. Stubblefield Estate; West Texas Construction company vs. R. L. Rust; and West Texas Construction company vs. J. A. Beard.

Oct. 12—O. D. Dillingham and others vs. Lone Star Gas company, and the X-Ray Gas company vs. Lone Star Gas company, and O. J. Urban vs. Lone Star Gas company.

Oct. 19—Roy Hole and Hershel Boles vs. Lone Star Gasoline company (separate cases).

SECOND McBEE TRIAL IS SET NOVEMBER 2ND

The trial of Mrs. Raymond Henry, 30, on a charge of slaying her former husband, H. L. McFee, 42-year-old highway worker, was set Saturday by 88th district court for Monday, Nov. 2.

Raymond Henry, 25, husband of Mrs. Henry, was assessed a 50-year sentence April 5 on his conviction of slaying McFee. Defense attorneys have indicated they will appeal.

Lynn Smith, 29, is accused as an accessory in the case. The state charged Henry with slaying McFee at Rising Star May 1, 1933, and that the body was buried, exhumed three weeks later and hung from a tree to give the appearance of suicide.

The skeleton was found on the O. C. Broughton farm near Rising Star one year later by two boys.

A fourth defendant, Jack Smith, 40, brother of Lynn Smith, committed suicide in jail by slashing his throat in the county jail in Eastland.

Pioneer Resident Of Strawn Buried Tuesday Morning

Funeral services were conducted from St. John's Catholic Church of Strawn Tuesday morning at 9 o'clock for Albert Talik, 65, of Strawn, who died at his home in Strawn Friday morning at 4 o'clock. The services were conducted by Father Paul Niedziela, with interment in Mt. Marion cemetery, with Strawn Merchandise Company in charge.

The decedent was born in Wankavia, Poland, March 30, 1871, and received his education in Poland. Later he entered the coal mines of Poland. He was married to Miss Marie Golec, Feb. 17, 1894 and came to America in 1903, settling at Houston the same year. Later he moved to Fort Worth where he lived for a year and then moved to Palo Pinto county in 1905. He worked at the Mt. Marion coal mine until 1921. From 1909 until 1919 he lived on what is now known as the Bar B Ranch, southwest of Strawn. In the summer of 1910 he moved to Strawn, where he lived until the time of his death.

Nine children were born, of which seven are living, one son, Charles, and one daughter, Anna, having preceded him in death.

Surviving relatives are his widow, Mrs. Marie Talik, Strawn; four sons, Albert, Edward, William, Joseph, Detroit, Michigan; Stanley, Carlsbad, N. M.; and Jim Talik, Detroit; and three daughters, Mrs. Frances Supina, Carlsbad, N. M.; Miss Alice Talik, El Paso, and Mrs. Rose Ostholm, Detroit, and eight grandchildren.

Full bearers were Joe Lovera, Albert Yell, Walter Wojcik, Anthony Simerowski, Tibert Wojcik and Mickey Supina.

As Mighty Colorado Bowed to Man

President Roosevelt's finger, pressing a button in Washington, loosed the torrents of water seen pouring from the outlets below Boulder Dam at the rate of 3,600,000 cubic feet a second. Visible in this remarkable aerial view are the 12 dam outlets, six on the Nevada side and six on the Arizona side. Constructed at a cost of \$168,000,000, Boulder Dam, man's most ambitious effort to harness nature, will supply power and water to 30,000,000 acres. This photo was made from a Richfield Oil Company plane.

Mineral Wells Man Named Credit Head

H. C. Davis of Eastland, president of the Texas Retail Credit Bureau, District No. 2, was succeeded by W. S. Genaro, Mineral Wells bureau manager, at the joint fall conference with members of the Associated Retail Credit Men also of District No. 2, Sunday at Sweetwater.

Mrs. L. A. Kubanks of Big Spring was named vice president of the bureau and Mrs. Winerick of San Angelo secretary and treasurer. San Angelo was awarded the February meeting of the bureau.

Former officers of the credit bureau besides Davis were L. A. Kubanks, Big Spring, vice president, and Mrs. R. E. Robertson, Breckenridge, secretary. About 70 attended.

Radio Is Invented To Aid Miners

LONDON—A small portable radio set may save the lives of many miners in the future mine disasters.

The set is the invention of L. W. and C. E. Hermes, father and son. No technical knowledge is required to operate the transmitter, which weighs only 15 pounds and may be situated at various points along the workings to permit trapped workers to speak to rescuers above.

The inventors have completed successful tests from a remote part of a mine 2,200 feet below ground.

Montreal Jobs Gain But Not for Girls

MONTREAL—The return of "better times" is reducing, instead of increasing, employment among girls here, the Big Sister Association reports.

Semi-annual statistics of the association show that in the first six months of 1936 the association found jobs for 104 girls, compared with 156 in the same period of 1935.

The association attributes the decline to the fact that housewives, with their income increased, are able to employ experienced servants at the highest wages demanded.

Olden WMU Elects Officers for Year

Officers for the WMU of the Olden Baptist church were elected at a meeting held at the church on Monday afternoon, when the following were elected for the coming year:

Mrs. J. A. Supulver, president; Mrs. C. B. Croft, vice president; Mrs. J. P. Crawford, secretary-treasurer; Bible study, Miss Viola Almon; personal service, Mrs. Katy Baker; mission study, Mrs. K. C. Edmonds; benevolence, Mrs. Jack Korke; publicity, Mrs. I. L. Blackman; pianist, Mrs. C. A. Howell; stewardship, Mrs. J. W. Lee; historian, Mrs. E. A. Howell and Mrs. J. A. Supulver; young people's leader, Miss Nannie Almon; periodicals, Mrs. James Ward; song leader, Mrs. J. L. Kuhn.

Those present were Mrs. J. A. Supulver, Mrs. C. B. Croft, Mrs. J. P. Crawford, Mrs. K. C. Edmonds, Mrs. Jack Korke, Mrs. J. W. Lee, Mrs. C. A. Howell, Mrs. R. E. Lester, Mrs. J. A. Choate and Mrs. J. L. Blackman.

The aim of the WMU is to try to make the organization the best possible, first to serve God, second to serve the church, and third to serve their fellowman for the joy one gets out of Christian service.

All ladies of the church have been invited to join and all ladies of Olden have been invited to meet with the WMU each Monday afternoon at the church at 2 o'clock.

Oil Belt Teams to Play This Week

All oil belt teams will have played their first practice games this week-end, with the exception of San Angelo, Abilene and Ranger, who play their first games Sept. 25th.

Sweetwater was the first team to get away on its 1936 start when they defeated the strong Roseco team last week by a score of 29 to 6.

This week-end will see the Brownwood Lions, rated as contenders for the district crown, in action against Comanche Thursday night; Mineral Wells at Eastland Friday afternoon; Cisco at Electric Friday; Big Spring at Wink and Breckenridge at Paschall, Pt. Worth.

GARRETT ASKS DROUTH AID FOR COUNT

A conference on the county drouth need with C. B. Braun, representative of the Agricultural Department Drought Committee, Washington, who is in Texas was sought Thursday by County Judge Clyde L. Garrett.

Judge Garrett, acting for commissioners court who have designated of the county on a committee's emergency list, said would attempt to contact Braun and urge him to confer with county officials. Judge Garrett stated that if Braun is unable to come to Eastland a committee will see him at Fort Worth, where Secretary Connally advised him he could be contacted.

Judge Garrett left Wednesday the rain did not dispel the need of relief sought recently in a report from County Agent Cook State Drought Director Jack Shotton at College Station. "The damage has already occurred," remained Judge Garrett.

U. S. Senator Connally sent the following wire to Garrett: "C. B. Braun, representative drought committee, is now in Texas. Stop have conferred with him and H. P. Drought, Texas WI administrator and returned my assistance on prompt extension drought relief Stop Braun leave San Antonio today and visit North Texas Stop if you have additional information to give him suggest you contact him through WF at Fort Worth this week or re settlement Office Amarillo next week Stop be assured of continued efforts to obtain adequate relief for your section."

TOM CONNALLY, United States Senator

Woman Given Term After She Pleads Guilt to Forger

Ethel Scott pleaded guilty to two charges of forgery in 88th district court and received a sentence of two years in each case. The sentences were made concurrent, commencing July 8.

One indictment against the woman alleged forgery of county jailer E. P. Kiborn's name, and the other indictment charged forgery of Eastland Justice of Peace Milton Newman's name. Bot checks were for \$12.50.

Jones county officers took the woman to Anson after the conviction, to face another charge of officials stated.

Beer Vote Called For Sept. 29 In Precinct No. 1

An election to determine whether beverages up to 14 per cent alcohol content may be sold in justice precinct No. 8 has been called for Sept. 29 by commissioners' court. Voting places in the precinct are Alameda and Desdemona.

The election was called in response to a petition signed by voters of the precinct.

Garrett to Talk At Denton Meet

County Judge Clyde L. Garrett has accepted an invitation to address members of the North Texas County Judges' and Commissioners' Association at Denton Saturday, Sept. 26.

Judge Garrett stated he has to cancel plans to speak before the South Texas County Judges' and Commissioners' Association at Bay City Friday and Saturday Sept. 18 and 19. County business interfered with his plans to address the South Texas group.

Monday of this week Judge Garrett addressed members of the First Methodist church brotherhood at Mineral Wells.

Garrett is president of the state association of county judges and commissioners.

Funeral of Aged Woman Conducted

Rev. Robert E. Bowden, pastor of the Church of God at Eastland conducted the funeral of Mrs. W. C. Thomas, 95, at Rimpson cemetery near Grandview Sunday.

RESETTLEMENT AID IN COUNTY SAVES THE FARMERS

Guion Gregg, State Farm Debt Adjustment Supervisor, here today, reports that 19 farms have been saved from foreclosures during the Government's Resettlement Administration program in Eastland County since Sept. 1, 1935. The properties were saved by either refinancing or extensions of farm debts.

Farm debts in the state have been reduced \$1,020,487 during the year by the Administration. The agency has arranged for payment of \$179,233 in taxes, involving 597,252 acres of land. The Farm-debt adjustment program was instituted at the request of President Roosevelt in October, 1933. It was formed to bring the distressed farm debtors and their creditors together to discuss their mutual problems and arrive at adjustments which would prevent wholesale foreclosure of farm homes, and to aid in agricultural rehabilitation. It arose out of a crisis in agricultural credit which had been aggravated by weather and crop conditions. Thousands of farmers found themselves hopelessly unable to meet their obligations, and the number of farm foreclosures was mounting rapidly.

The purpose of the Resettlement Administration is to aid the distressed farmers in adjusting their problems, whether on their personal property or on their land holdings. The service of the department is offered free of charge to the farmers. A committee of civic-minded citizens for each county in the United States serves as a board to investigate cases which are referred to the Administration.

The Eastland County committee acted upon 26 cases which were presented for consideration. The local committee is composed of F. S. Boland, Scranton; Milton Newman, Eastland; and Dick Weekes, Ranger. Rural rehabilitation Supervisor, Mr. George I. Lane, and the District F. D. A. Supervisor, Mr. Guion Gregg, are in charge of the Resettlement Administration work in Eastland County.

The program was originally sponsored by the Farm Credit Association, but since Sept. 1, 1935, it has been under the supervision of the Resettlement Administration. President Roosevelt allotted \$2,000,000 to provide salaries and necessary expenses of the full-time personnel, but at the end of the 10-month period ending June 30, 1936, only \$1,000,000 of this amount had been spent. The total cost of farm-debt adjustment activities from Sept. 1, 1935, to June 30, 1936, amounted to approximately one per cent of the amount of indebtedness involved in cases adjusted over the same period.

Mr. Gregg says that due to protracted dry weather which has greatly curtailed the money-crop in the county, or completely destroyed it, many farmers will find it impossible to meet their interest, much less their principal obligations this fall, and he suggests that such farmers begin in time to negotiate with their creditors for the necessary extensions of time. He further suggests that they call upon our local Farm Debt Adjustment Committee to assist them in the adjustments of their debts with their creditors, and with the procuring of such extensions of time as are reasonable and fair to both parties under the circumstances.

Garrett is president of the state association of county judges and commissioners.

Texas Democratic Leaders Endorse Roosevelt-Garner

AUSTIN—Five Texas Democratic leaders today, aroused to fighting pitch over national politics, issued public statements in behalf of Roosevelt and Garner, the five being W. B. Arnold, San Antonio, President of the State Federation of Labor; Senator Morris Sheppard, Texarkana; E. O. Thompson, Chairman of the State Railroad Commission; James E. Ferguson, former Governor; and Albert Sidney Burleson, Postmaster General when Woodrow Wilson was President.

The Arnold statement declared that in Texas 95 per cent of organized labor will vote for Roosevelt and 90 per cent over the United States. "To my mind," Arnold wrote Roy Miller, campaign director, "this year the workers of Texas will prove their loyalty by voting for the President who has been more than loyal to them. Franklin D. Roosevelt has shown his friendship and sympathy for workers on many occasions since he began his administration."

Senator Sheppard in his statement asserted that return of Roosevelt to the White House is necessary to safeguard the interests of the American people. "I urge that all Democrats contribute as liberally as their means will permit to the campaign fund," Sheppard wrote.

Thompson said that the oil industry of Texas and all other oil producing states owe it to Roosevelt and Garner to support them because the industry had been stabilized under their administration and because they had preserved states rights.

Ferguson pointed out that the Roosevelt administration had given Texas \$1,000,000,000 in various forms and that to show gratitude there should be no hesitancy in making contributions as low as \$1 for the campaign.

Burleson, a national leader of some years ago, asserted that the Roosevelt administration had saved billions of dollars for the people instead of wasting money, also pointing out that thousands of banks had failed under Hoover, while only a handful failed to open while Roosevelt was President.

Another thing: Literary Digest this week proved that Miller is too conservative in political prophecy. In a New York conference he said Texas will go for Roosevelt six to one, but Digest poll shows this state is heading into the Roosevelt column eight to one, 185 votes for Landon; 930 for Roosevelt.

Arkansas May Throw Surprise In 1936 Grid Contests

FAYETTEVILLE, Ark.—Southwest Conference football fortunes of the University of Arkansas for 1936 will depend on a "lanky and rugged" squad—practically every member of which has worked on state highways or in oil fields the past summer, preparing themselves for a gruelling season.

Meyer Speaker at Hodges Meeting

Fun and seriousness were mixed Wednesday night at the Breckenridge Lions club's annual Wes Hodges banquet in the Y. M. C. A. building.

"Dutch" Meyer of T. C. U. reviewed prospects in the southwest.

L. Q. "Dutch" Meyer, T. C. U.

proved to be one of Arkansas' most effective gridiron weapons last season probably will be used again this year. The Razorbacks also should have a fast running attack. The backfield averages only 166 pounds.

Coach Thomsen will depend on four juniors—a quarterback and three ends—to carry on his aerial bombardment. Jack Robbins, of Stephens, Ark., a 170-pound back, will do the passing, with James Benten, Ray Hamilton and Bill Hunter on the receiving end.

Of the 14 returning lettermen, nine are on the "forward wall." Despite this, however, Coach Thomsen faces a weakness in the line. He has only two lettermen for the tackles, Captain Cliff Van Sickle and Raymond Spillers, 193-pound senior. Other men being trained for tackle are Bob Stout, 200-pound sophomore, Lunday Corbett, 225-pound sophomore, and Fred McKnight, 212-pound sophomore.

For the center position, Thomsen is grooming two lettermen, John Donaldson and Kenneth Lunday, and two sophomores, Henry Jagusch and Lloyd Woodell. All four are in the 180 to 185 pound class.

Nine fighting youngsters are putting up a stiff battle for the guard posts, with the three lettermen, George Gilmore, Percy Sanders and Savoy Seamster, holding a slight edge.

The Razorbacks face a "tough" season this year, according to Coach Thomsen. From the opening game through the long season which closes Dec. 5, Arkansas will play some of the strongest teams in the nation.

On Oct. 16, the squad will journey to Washington, D. C., to play George Washington University in one of Arkansas' two intersectional games. It will be the first time in the school's history that a Razorback team has gone further east than Memphis, Tenn., according to Boyd Cybert, business manager of athletics.

Arkansas' other intersectional encounter will be with Louisiana State University at Shreveport, on October 24.

Many observers have expressed the belief that Coach Fred Thomsen's team will be the "surprise package" of the conference. Last year, Arkansas finished fifth.

Thomsen said a squad of powerful veteran promising sophomores will be in excellent condition and ready to go on the field. Fourteen lettermen will attempt to win additional laurels this year.

The brilliant aerial attack that

Texas Cotton Crop Is Estimated at 3,036,000 Bales

A 1936 cotton crop of 3,036,000 bales of 500 pounds gross weight is forecast for Texas by the United States Department of Agriculture based upon conditions as of Sept. 1. This represents a decrease of 814,000 bales or 21 per cent below the forecast made on August 1.

The present forecast of production compares with 2,956,000 bales produced in 1935, 2,401,000 bales in 1934, and in average production for the 5-year period (1928-1932) of 4,580,000 bales. The condition of the crop is reported at 52 per cent of normal compared with 61 per cent a year ago and 55 per cent the 10-year average. A condition of 52 per cent on September 1 indicates a yield of 123 pounds per acre compared with 133 pounds in 1935, and a 10-year average of 139 pounds.

The abandonment is estimated at 3.6 per cent of the planted acreage, which leaves 11,838,000 acres for harvest. The forecast of yield and production is based upon the present condition of the crop; however, the final output of cotton will depend upon whether the various influences affecting the season are more or less favorable than usual.

The decline in indicated production of the Texas crop since August 1 is due primarily to drought conditions coupled with excessively hot weather over most of the state during August. Bolls are small and are opening prematurely. The condition of the crop as reported on September 1 is materially below that reported a month ago in all districts, and is below the average reported on September 1 for all districts excepting 4, 5, 6 and 7.

University Exhibits Form a Problem

AUSTIN—University of Texas officials here are wondering what to do with the exhibits of the University Centennial exhibition after December 1.

In selecting the site for the exposition, Gregory Gymnasium was found to be the only place large enough to house the exhibits. The large auditorium of the gymnasium was converted into an exhibit hall. It was necessary to close the gymnasium to athletic competitions, but assurance was given that the exposition would move out Dec. 1. Basketball, which is played in the gymnasium auditorium, will be in full swing then.

A drive for a permanent University Memorial Museum has been successful, with state and federal funds amounting to \$525,000 allocated to the project. Contracts for the permanent museum structure have been let, with work to start in about two weeks. It will take approximately 217 working days.

With assurance of a permanent home for the exhibits, officials of the exposition and departments of the university cooperated in constructing permanent exhibits. Cases, which are later to go to the university museum, were bought and moved into the gymnasium.

Now, with completion of the permanent structure at least one year away, university officials have two alternatives. They must either continue their occupation of the gymnasium, keeping the show open, or move the whole thing into storage to await completion of their new home.

Regents at the university said they had not considered a course of action at this time, but indicated that the people would be considered at an early date.

Assumes Secret Service Post

Frank J. Wilson, ace internal revenue agent, shown above in a recent portrait, became acting assistant chief of the Secret Service charges that Secret Service agents "spied" on activities of the "G" men. Wilson succeeded Joseph E. Murphy, former assistant chief, demoted for his part in the alleged "spying," but since recalled to aid Wilson.

Siberia Yielding New and Rare Ore

MOSCOW — Discovery of new coal and oil fields, reported frequently by Soviet geologists, has been augmented by location of a number of rare mineral deposits. In eastern Siberia, near Shakh-toma, new deposits of tungsten and molybdenum were discovered. Quicksilver deposits were found in the Kosh-Agach region in western Siberia and in the Orenburg province in the southern Urals tungsten deposits have been located in two different places.

Lead ore with a 25 per cent content of lead was found in the Leninabad region of the Tadzhik republic, and the boring of an artesian well in the Ukraine near Irgen disclosed a vein of nickel 15 meters in thickness.

Texas Girls Declared Naturally Beautiful

FORT WORTH, Tex.—Southwestern girls naturally have the complexion that New York girls have to get out of powder boxes, in the opinion of John Murray Anderson, noted dance director.

"Southwestern girls have what our 42nd Street hofers get out of powder boxes," he said. "The healthy sun tan with just a few freckles—ah, Texas girls are really beautiful."

Anderson should know. About half the show and chorus girls in his latest production are from Texas. The rest from New York.

THE BEST SHOES FOR 4 OUT OF 5 MEN

FLORSHEIM SHOES with Flarewedge

Physicians say that 4 out of 5 men have "outflare" feet—normal feet that need more room on the outside of the shoe... so Florsheim developed the Flarewedge last. This type of shoe provides that extra room, and ends such foot discomforts as running over, instep corns, pinched and crowded toes.

DESDEMONA

Mrs. C. A. Waters and baby daughter of Moran, were guests of Mrs. J. E. Dossick and daughter, Mrs. Style McEntire, from Wednesday until Saturday. Mrs. Waters was formerly Miss Viola Lucy and attended our High School several years ago while making her home here with her grandmother, Mrs. Harkness.

Mr. and Mrs. L. N. Williams returned Sunday evening from St. Louis where Mrs. Williams had been visiting her parents at Palestine, Ill., for three weeks. Besides her parents, she visited other relatives, including Mr. Williams' father.

Mr. and Mrs. A. F. Wilbite and children who live near Odessa arrived Wednesday for a visit with their parents, Mr. and Mrs. S. T. Wilbite and Mrs. J. R. Buchan.

Mr. and Mrs. Odas Goforth visited her parents, Mr. and Mrs. Westmoreland, at Gorman on Sunday and Monday.

Mr. and Mrs. M. O. Sloan of Stephenville were here Monday on business, and also visiting friends. While Mr. Sloan was seeing his candy customers, Mrs. Sloan visited with Mrs. Betty Vestal, whom she had not seen for four years, while Mrs. Vestal was in California.

Mr. and Mrs. E. H. Everett of Odessa, came down Friday night and visited Mr. and Mrs. Bailey Stark and their baby daughter, Mrs. C. H. Everett, who had been here several weeks with her daughter, Mrs. Stark, went home with them.

Mr. and Mrs. R. D. Wright moved to Jake Hamon Saturday and he began teaching there Monday.

afternoon for the regular monthly Bible study. Mrs. C. O. Bragg was leader for the lesson and gave helpful comments on the 27th Psalm. Three kinds of courage, physical, mental and spiritual were discussed, the members giving their views on the subject and the leading giving also the comment from the study book, "Heart Throbs from the Psalms." Those present were: Miss Mollie O'Rear; Misses Charles Lee, C. O. Bragg, Preston Sparks, W. H. Whitworth, W. C. Bedford, S. E. Snodgrass and visitors, Miss Vella Whitworth and little Charles Bragg. Some of the members took "Betty Brides" to sell.

Mr. and Mrs. Odas Goforth were the recipients of a shower of gifts from their many friends at Gorman. Mrs. George Blackwell was hostess for the party given in honor of this newly married couple. In the list of gifts were such useful things as a beautiful bed spread, pair of blankets, several sheets, pillow slips, a pink glass water set, plates, and many other beautiful and useful gifts.

W. B. May, accompanied by S. T. Sikes, drove over to De Leon Monday afternoon.

Mr. and Mrs. O. C. Sloan of Stephenville were here Monday on business, and also visiting friends. While Mr. Sloan was seeing his candy customers, Mrs. Sloan visited with Mrs. Betty Vestal, whom she had not seen for four years, while Mrs. Vestal was in California.

Mr. and Mrs. E. H. Everett of Odessa, came down Friday night and visited Mr. and Mrs. Bailey Stark and their baby daughter, Mrs. C. H. Everett, who had been here several weeks with her daughter, Mrs. Stark, went home with them.

Mr. and Mrs. R. D. Wright moved to Jake Hamon Saturday and he began teaching there Monday.

STRAWN NEWS

Mrs. J. W. Mingus and Mrs. W. S. Pedigo are visiting in Dallas this week.

Miss Sallie Aguirre has left for Palo Pinto, where she will teach school this year.

Miss Mona Andrews, who is on the faculty of the Pythian home in Weatherford, visited her parents and friends in Strawn over the week-end.

Mrs. Jess Hodgkins was called to the bedside of her father in Terrell last week.

Mrs. W. C. Brooks left Tuesday for Abilene, where Mr. Brooks has been employed.

Mrs. Ida Maples returned home Monday after a week's stay in Fort Worth.

Miss Kathleen Maxwell has left for Eastland to accept a teaching position.

Mr. and Mrs. Joe Dalton are visiting their daughter, Mrs. Shelton Gerhard, in Longview.

Several of the younger set of Strawn have left or will be leaving soon for college. The group includes Misses Aileen Maxwell and Mary Beth Thomas, C.I.A., Denton; Ted Wickens and Miss Claudia in Mae Anderson, McMurry, Abilene; John Dean and Lillian Mae Milling, Texas Tech, Lubbock; Miss Georgia Stephen, Hockaday, Dallas; Misses Jean Hanyan and Margaret Utley, Tarleton, Stephenville; and Miss Florence Wagner, Texas University, Austin.

Eno and Louis Vintenne have left for Victoria, where both will accept positions.

BEHIND THE SCENES IN WASHINGTON

WITH RODNEY DUTCHER

BY RODNEY DUTCHER
NEA Service Staff Correspondent

PORTLAND, Me.—If the nation goes as Maine goes this year, it's going to be just too bad for the New Deal.

Most Democrats seem to expect defeat in the election of Sept. 14 when the state chooses a U. S. senator, a governor, and three representatives. But they are fighting desperately to avert a massacre.

A huge Republican victory would be exactly what the G. O. P. could use to wave before that large group of voters—and campaign contributors—who always want to be with the winner.

"As Maine goes, so goes the nation!" is a slogan rather than a truism. Maine has always gone Republican in presidential years except in the Roosevelt-Taft split in 1912.

Although Democrats have won the presidency five times since the Civil War, only one of those times had they won the preceding September election in Maine and that was in 1932, when Roosevelt lost the state to Hoover in the following November just the same.

Republican campaign artillery sent to the state or about to arrive includes Col. Frank Knox, ex-Senator Edge of New Jersey, Congressman Hollister of Ohio, Theodore Roosevelt, Jr., and Charles P. Taft.

Democratic orators for Maine include Governors Earle of Pennsylvania, Curley of Massachusetts, and McComb of Indiana, and Senator Wagner of New York, to say nothing of Roosevelt's visit.

Republican U. S. Senator Wallace White is opposing Gov. Louis J. Brann, and Secretary of State Louis O. Barrows opposes Democratic National Committeeman Harold F. Dubord for the governorship. Democratic Con-

gressman Simon Hamlin is running against James C. Oliver in the First congressional district; Democrat Ernest L. McLean against Republican Clyde H. Smith in the Second district; and Republican Congressman Ralph Brewster against Wallace H. Mabee in the Third district.

Favored to win are White, Barrows, Brewster, and Oliver, with a lone Democrat, McLean, being conceded a good chance.

A Brann-Dubord victory, even by a small margin, would set most neutral political writers to predicting a national Roosevelt landslide in November.

Two years ago Brann, aided by the "wet" issue, was re-elected governor over a weak, aged opponent. He has since lost the support of several Republican newspapers, and ERA scandals have done him no good.

Brann treats the New Deal as a liability to his candidacy. But many Republicans say they'd rather have a Republican anti-New Dealer in Washington than a Democrat. On the other hand, New Dealers suspect Brann as a "power trust" friend and reactionary.

ON the other side of the picture, business is improving rapidly in Maine and potatoes are up from 20 or 25 cents to \$2 a bushel. Most factory and relief workers will vote Democratic, as against a heavy Republican rural vote.

Dubord, energetic and popular, has been campaigning all summer, praising the New Deal. He came within 1200 votes of beating Senator Frederick Hale in 1934. Barrows, a small town druggist long active in Republican politics, is not a spectacular campaigner or a statesman, but he is also popular. His chief campaign issues are federal expenditures, the national debt, and failure of Maine to benefit much from AAA.

A WANT AD IN THIS PAPER WILL BRING QUICK RESULTS!

STRAY HORSES ATTACK CARS
FOND DU LAC, Wis.—Three stray horses apparently sought to dispute automobile usurpation of the equine right to the highway here recently when in a few minutes they caused damage of four machines and injury of a passenger. One of the animals, knocked down by a car, dented the side of a passing machine with its kicks.

Texas Ranchers Ask Fence For Border

LA PRYOR, Tex.—A high wire fence along the Texas-Mexican border to supplement the Rio Grande as a dividing line will be sought by the Border Stock Raisers' Protective Association, Directors, meeting here, passed resolutions urging that the state legislature authorize such a barrier.

The fence, the resolution said, would "hinder smuggling, retard aliens entering the United States unlawfully and prevent movement of livestock into the country with infectious or contagious animal diseases."

Increased tariff rate on imported canned beef was favored.

Sale Scheduled of King's Own Cattle

CALGARY, Alta.—Canadian and American cattlemen will have an opportunity to improve their herds this fall with pedigreed shorthorn cattle from King Edward VIII's "E. P." ranch at Pekisko, Alta.

Prof. W. L. Carlyle, manager of the royal ranch, has announced increased tariff rate on imported canned beef was favored.

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief
Major ailments relieve aching backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. Most people pass about 2 pints a day of about 2 quarts of waste.

that because of a comparative shortage of feed, 40 head of the 160 registered Scottish shorthorns raised on the ranch, would be disposed of at public auction at Downsview, Ont., on Oct. 26.

Included in the offerings will be several head of pure bred yearling heifers and bulls, a number of imported cows with calf at foot, and he show herd of 14 head which captured many prizes this summer at fairs in Western Canada.

Divorce Colony In Dude Ranch Area Is Visioned

BEULAH, Wyo.—The dude ranch area around Sand Creek, famous fishing stream in the western edge of the Black Hills, may become a second Reno, if the plans of the Walpole Land Co., Inc., materialize.

Since Wyoming has a divorce law requiring only 60 days residence, it has become popular as a divorce center.

Mrs. Grace Vanderbilt Davis and Mrs. Sylvia Conway Robertson, both of New York, recently won divorces after spending two months on dude ranches.

The plan of the land company is to erect a hotel, casino and numerous modern cottages, on Sand Creek, not far from the famous Moe Annenberg estate, Sundance, Wyo., a county seat town, is only a short distance away. There, it is said, divorces will be obtained and fanfare.

Canada Will Control Cost of Music Soon

OTTAWA, Ont.—The price of music in Canada will be controlled by government decree shortly. Under the new system, a scale of prices which orchestras, choral bodies, dramatic clubs or individuals will pay for the right to perform works controlled by the Performing Rights or similar societies will be fixed by the Dominion government.

SALT LAKE CITY—John E. Fehr, who for 34 years has been dropping pins on the rostrum to demonstrate the famed acoustics of the Mormon Tabernacle, has celebrated his 78th birthday. A pin dropped can be heard throughout the vast domed hall which seats 5,000 persons.

Love Wins Out for Joan, Dick

Joan Blondell

Dick Powell

A long-tortured Hollywood romance reached its climax as Joan Blondell, upper photo, and Dick Powell, lower photo, featured seven stars, filed notice of intention to marry, in the Los Angeles marriage license bureau. Studio tasks and technicalities of Miss Blondell's divorce decree from Cameraman George Barnes have delayed the wedding Hollywood has been expecting for months. Powell also has been married before.

STORM NEARS EAST COAST OF CAROLINA

By United Press
WILMINGTON, N. C., Sept. 17.—Coast guard crews evacuated hundreds of persons from danger spots today as a tremendous hurricane roared up the Atlantic, perilously close to coastal cities.

Weather observers were uncertain, at noon, whether the terrific storm, described as one of the most extensive on record, would strike the mainland or turn off into the open sea.

Hurricane warnings were displayed north of Wilmington, to Monroe, N. C. The coast guard mobilized an emergency force of more than 4,000 for duty.

FLOODS ROAR DOWN STREAMS IN SOUTHWEST

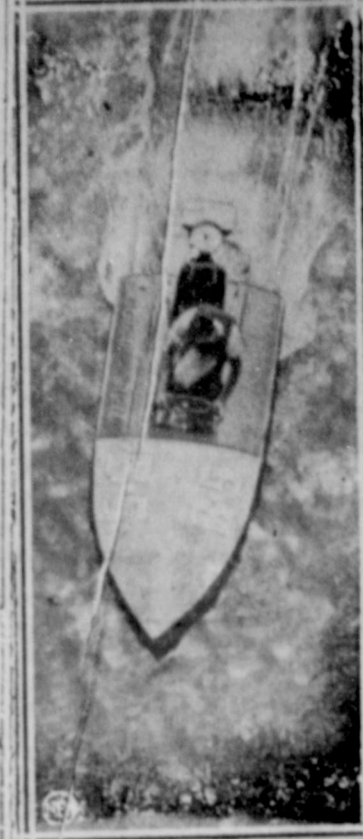

By United Press
Floodwaters of the north and south forks of the Concho river isolated San Angelo from all communication today. The South Concho flooded the city power plant shortly after noon, shutting off all service. Highways and railroads already were blocked by high water.

Floods roared down South Texas rivers Thursday, damaging highways and bridges and forcing lowland residents to flee from their homes.

Highways and railroad traffic was practically at a standstill in the southwest portion of the state as the Concho and tributary streams poured their floodwaters toward the Gulf.

Waters swirled through the streets of Menard and Sonora. Rain at Kerrville had amounted to 14 inches since Sunday.

WATER BULLET

Skimming the wave crests like a flat stone "skipped" by a small boy, Clinton Ferguson, of Waban, Mass., is seen here in his Class C Bombshell IV rolling up the even thousand points that won the Lipton Trophy Race in the Eastern outboard hydroplane regatta on Philadelphia's Schuylkill River.

His is the ninth name to be engraved on these huge \$6000 perpetual challenge cups donated by the late Sir Thomas Lipton.

The Colorado river was rising slowly at Austin. The general rainfall over the state, which preceded a cold wave, soaked the Panhandle also. Precipitation varying from one to two inches was reported at Memphis, Tampa and Estolles.

Rainfall figures included Dallas 6.24, Dublin, 6.24, raining; Graham 4.82, San Angelo 4.54, raining; Dallas, 1.39, Bridgeport, 1.6, Childress 1.5, raining; Haskell 1.78, Luling 1.54, Quanah 1.66, Taylor 1.18, and El Paso .61.

All government weather stations in the state, except Palestine, reported rain within the past 24 hours.

The north fork of the Concho river was rising rapidly above San Angelo and the South Concho had regained the flood level. San Angelo's municipal water and electric light plant still were well above the high water and all main utility lines still were in service.

PASTOR TELLS OF ATTACK BY ARMED TRIO

By United Press
CAMERON, Tex., Sept. 17.—Rev. John McRae, Baptist minister, was in a hospital here today after being attacked by three men and left on a railway track where a railroad motorcar last night amputated his left arm.

McRae said he was driving near Hicks, Lee County, enroute from Rockdale, when three men in another car forced him into a ditch. The three surrounded his car. One used a knife and cut McRae on the arm and over the right eye. He became unconscious when struck over the eye.

When he recovered McRae was on the Southern Pacific railway track in the path of a motorcar. McRae told the district attorney he did not know any reason for the attack. He believed it was due to mistaken identity.

McRae is pastor of several country churches.

Quarrel Admitted By Atlantic Fliers

By United Press
MUSGRAVE HARBOR, Sept. 17.—Details of a quarrel between Harry Richman and Dick Merrill over the dumping of gasoline during a storm over the Atlantic, were obtained today as mechanics labored to repair their trans-Atlantic plane for its trip to New York.

Richman, owner of the \$95,000 monoplane, confirmed that he dumped the gasoline over the protest of Merrill, a veteran transport pilot.

Merrill was reported to have said that neither engine trouble nor a storm caused the dumping of the gas, but that dumping it caused trouble that nearly ended the flight in a plunge into the sea.

Race Driver Killed When Car Overturns

FOET WORTH, Sept. 17.—James Aker, 39, Fort Worth, former automobile race driver, was killed 15 miles west of here today on the Fort Worth-Weatherford highway when the car he was driving skidded and overturned.

GYPSUM IN ABUNDANCE

By United Press
WHITE SANDS NATIONAL MONUMENT, N. M.—Enough gypsum to supply the United States' needs for 1,000 years is contained in deposits bordering on the White Sands National Monument, in addition to \$200,000,000 worth within a federal geological survey revealed.

Letuce Pickers Riot In California

By United Press
SALINAS, Calif., Sept. 17.—Sheriff Abbott declared a "state of emergency" today and drafted all able-bodied citizens between 18 and 45 to combat rioting lettuce pickers trying to hold up shipments of Salinas county's \$7,000,000 lettuce crop.

Abbott ordered the draft after the governor refused requests for a proclamation of martial law. Despite the draft gunfire sounded throughout the area. Albert Blue of Texas, a strikebreaker, was injured when a gas bullet struck him in the head.

Pawnee Bill's Wife Killed at Celebration Of Golden Wedding

By United Press
PAWNEE, Okla., Sept. 17.—The golden wedding anniversary celebration of Major Gordon (Pawnee Bill) Lillie and his wife ended today with the death of Mrs. Lillie. Mrs. Lillie succumbed to injuries suffered in an automobile crash while the couple was returning from its wedding celebration in New Mexico.

REBELS SCORE VICTORY NEAR OVIEDO TODAY

By United Press
Rebels, besieged in Oviedo on the northwest coast, scored an important victory today when they broke through the loyalist columns around the city.

The troops from Oviedo surprised the government forces inflicting heavy losses, but the loyalists rallied and started to force the rebels back into the city. The Madrid government staking its life on its chance of turning back the rebel drive in the Talavera region, southwest of Madrid, issued a call for 10,000 volunteers. Every available man under arms in Madrid was mobilized for duty at the front.

The loyalists have temporarily blocked the rebel advance east of Talavera, but the rebels were expected to renew their drive vigorously.

The main activity centered in the Talavera-Toledo region. One of the most shocking stories of the war may develop at Toledo if threats are carried out to blow up the Alcazar with dynamite. After weeks of siege more than 1,200 rebel men, women and children are in the ancient fortress refusing to surrender.

Pete Traxler Given A Life Sentence

By United Press
PAMPA, Sept. 17.—Pete Traxler, 25, Oklahoma ex-convict, pleaded guilty in district court here today to charges of robbery with firearms and was sentenced to life in prison at the state penitentiary.

Sisters, Shipwreck Victims, Saved

A federal investigation which may lead to criminal charges has been started as a result of the collision of the excursion steamer Romance and the S. S. New York, off Boston Harbor in darkness and darkness fog. Jean Lauritano (left), 7, and Madeline Lauritano, 2, of Jackson Heights, N. Y., were among the 212 passengers rescued before the Romance, rammed amidships, sank. Jean is shown still wearing the S. S. Romance life preserver. Her mother said she hoped the experience would be a "lesson in cooperation." Twelve persons were injured in the collision.

EASTLAND CO. NEWS

ON TEXAS FARMS

PEARSALL—Fertilized land produced eleven and one-half bushels of peanuts and one-third more peanut than unfertilized land on the farm of W. R. Dulose of Frio county, according to N. H. Hunt, county agricultural agent. Dulose fertilized 26 acres of land and left eight acres unfertilized. The land was the same type, the peanuts were planted at the same time, and both plots were cultivated in the same manner. Dulose reported that the fertilized land matured the nuts much more uniformly. The cost of the fertilizer was \$1.50 per acre, while the additional income was \$13.50 per acre.

CANTON—E. D. Boyd of the Jackson community in Van Zandt county believes the soil conservation program is a real benefit to him, according to V. O. Teddie, county agricultural agent. Besides the grant of \$112.80 which Boyd will receive for 12 acres planted to peas, he has gathered 10,000 pounds of peas which will supplement the feed for livestock on his farm.

JACKSBORO—Twenty-three acres of land which was terraced in 1935 and seeded to wheat produced almost twice as much as 22 acres of unterraced land seeded to wheat on the farm of C. C. Henderson of Jack county, according to Paul B. Jones, county agricultural agent.

The 22 acres of unterraced land had an average yield of seven bushels per acre, while wheat on the 23 acres of terraced land made an average of 12 bushels to the acre. The terrace lines were run on the level and were built by the county grader at an approximate cost of 75 cents per acre.

WELLINGTON—"My terraced land yielded about 60 pounds per acre more cotton than the land not terraced," recently stated John M. Morgan of the Prairie View community in Collingsworth county.

Morgan, with the help of the county agricultural agent, John H. Stovall, ran terrace and contour lines on his farm last spring at a cost of approximately \$1 per acre. Violet spent only 55 cents in building and in refinishing the closet.

PAMPA—Mason Davis of the Laketon community in Gray county recently walked into the office of Ralph E. Thomas, county agricultural agent, with two stools of wheat.

One stool had 26 stalks 30 inches high, while the other had only 13 stalks 20 inches high. Stalks on the first stool were twice as large as in the second one. Davis explained that these were

average stools from the same field planted at the same time, the only difference being that the larger stool came from ground that was contour listed, while the second one was from land with straight rows.

CANYON—G. R. Gwyn, farmer in Randall county, again showed that sowing wheat on the contour pays, according to B. A. Zorns, assistant county agricultural agent.

Gwyn contoured half of an 80-acre field. On the 40 acres contoured the average yield per acre was 17 bushels, while that not contoured had a yield of only six bushels.

SAN ANGELO—"Curing or brining cucumbers properly is the first essential in having good pickles," says Lucille Ramsey, 4-H club garden demonstrator in Tom Green county.

Lucille has eight gallons in brine at present and is planning to brine the entire yield of her 40 foot row of cucumbers, according to Miss Dyora Crowder, home demonstration agent. The cucumbers will be left in brine for at least eight weeks, then they will be removed, salt soaked out, and they will be made into various kinds of pickles.

MARLIN—The problem of a surplus of small peaches was solved by Mrs. Alfred Russell, a home demonstration club member of Falls county, who dried nine gallons for future use, according to Mrs. Ina Mae Thannisch, home demonstration agent.

After her home orchard had supplied her family and four others with all the fruit needed, Mrs. Russell took the smaller fruit, split the peaches in half and placed them face upward to dry.

The Russell orchard was grown from seedlings and then budded to good stock.

FORT WORTH—From an old cow shed, Violet Selman, wardrobe demonstrator for the Rendon 4-H club in Tarrant county, found the material to make a clothes closet for her bedroom.

Since the boards were quite rough and ugly, Violet papered the closet inside and out. She took some iron rods to the blacksmith shop and had them cut the length of the closet. She used one rod for hanging dresses and the other for a shoe rod.

VEGA—Floyd Mitchell of Woldorado in Oldham county reports that he harvested 1,600 bushels of wheat from 60 acres of land last month, according to E. T. Alexander, Jr., county agricultural agent.

"This is as large as any yield that has been reported in Oldham county for this year, as ninety per cent of the wheat failed entirely while the remaining acres produced only light yields because of drought," Alexander reported. Mitchell attributes this yield to the fact that the land was worked continuously on a contour last year and was drilled the same way last fall so as to conserve all moisture that has fallen in the last 12 months.

In addition, two short terraces were built where a small draw enters his field and these terraces have tended to spread the water from the draw all over the field.

ANGLETON—Pasture land mowed for the first time in 1935 and cleared of small brush has more than tripled its carrying capacity on the E. H. Carr farm near Angleton in Brazoria county, according to J. H. Sandlin, county agricultural agent.

In March, 1935, Carr had to double the number of head of stock in the pasture in order to get the

While the nation's corn crop was forecast as the smallest in 50 years, it looked like a beautiful harvest at Pomona, Calif., where these pretty girls gathered specimens of a record-breaking yield to decorate the throne of the Queen of Agriculture at the Los Angeles county fair. Left to right: Jerry Clark, Joan Bigler, Eloise Sheets, and Delores Barnes.

grasses and clover grazed down satisfactorily, and again in May another group of cows was moved in on the pasture. Now the total number of stock carried in the pasture is more than three times as many as had been carried in previous years.

EDINBURG—"Ventilating my old pantry and adding two shelves makes the storage space more serviceable," says Mrs. M. A. Shields of the Lone Star home demonstration club in Hidalgo county.

The ventilation was added to the old pantry by cutting an opening in the floor one and one-half by two and one-half feet and in the ceiling one foot by one foot. The openings were screened to prevent insects from entering. The shelves were made of two-inch strips with three-fourths of an inch between so the air could pass through.

Mrs. Shields' pantry holds 744 pounds of food at present valued at \$111.98. She assisted 20 non-club

members during the past year, according to Miss Mattie Wilroy, Hidalgo county home demonstration agent.

GEORGE WEST—From her flock of 200 white leghorn hens, Mrs. John Dunn of Live Oak county made \$180.10 during a six months' period according to Miss Linda Sears, county home demonstration agent. This is an increase of \$64.94 over the profit she made during the same six months of the previous year.

During the first six months' period, the hens produced 959 dozen eggs and during the second period they produced 1634 dozen, showing an increase of 675 dozen.

She attributes the increase to the fact that she has built a new poultry house, thus giving more room for her flock, and that she has increased the size of her poultry yard, thus giving the hens more green food for the entire year.

CONROE—"Cleo Callaway of the Willis 4-H club in Montgomery county has found it pays to grow vegetables at home," says Miss Lela Mae Fortenberry, home demonstration agent.

One bushel of certified Irish potatoes costing \$3.28 planted on one-half acre brought \$32. Fifty pounds of onions were grown for home use. Garden seed and plants costing \$3 furnished vegetables to fill 160 containers which are valued at \$30.

DICKENS—From seed sowed in February, Mrs. J. J. Griffin of Dickens county has nearly a solid turf of Bermuda grass on her lawn according to Miss Clara Pratt, home demonstration agent. The grass has been mowed regularly and that has helped it to spread.

The lawn was plowed and leveled before the grass seed was sowed. As another part of her yard improvement, Mrs. Griffin planted native shrubs and trees, and these are growing nicely.

MASON—"In order to make my new linoleum wear better, I have built up the surface with several coats of wax," says Mrs. Henry Kettner, kitchen demonstrator for the Crossville home demonstration club in Mason county.

"Old linoleum can be made to look like new by applying two coats of floor enamel in the same manner as for new linoleum," she added.

HEREFORD—Ted Rohrbach, a wheat farmer in Deaf Smith county, harvested 2,400 bushels of wheat on 300 acres of a dry land farm, according to C. E. Marcum, county agricultural agent.

Rohrbach states that strip cropping, border planting, and contour farming made this harvest possible. Rohrbach planted alternate strips of grain sorghum with wheat and along the borders of the field he planted grain sorghum as a protection against dirt that would blow from the neighboring field. He states that his land has in reality been enriched rather than eroded during the last 12 months.

NEW BRAUNFELS—After using his trench silo for four consecutive years, Herman Mittendorf, farmer from the Watson community in Comal county, is of the opinion that the trench silo is the best thing a farmer can have, according to a report of George B. Ehlinger, county agricultural agent.

Mittendorf constructed the first trench silo in Comal county four years ago after an inspection of one at the Luling Foundation farm.

This Comal county farmer finds that silage is valuable not only for

his cattle but for his horses and mules. He uses some cottonseed meal in addition to the silage in feeding his work stock.

Police Enrolling At a University

EVANSTON, Ill.—Police will go to school at Northwestern University this fall. A new course offered by the traffic safety institute opens in October.

All the atmosphere of university work will attend this traffic study, with from five to ten fellowships available for officers ranking highest in local and regional examinations. Further atmosphere is lent by the fact that Evanston, home of the university, is termed "America's Safest City."

The scientific crime detection laboratory will be available for the students with emphasis on traffic accidents. Officers winning fellowships will participate in setting up accident prevention bureaus in one or more cities.

According to the Police Chiefs News Letter, increased attention is being paid traffic problems. A course at the University of Alabama this summer graduates 79 police officers, who represented every Southern state but two. A course sponsored by the Harvard Bureau for Street Traffic Research and the International Association of Chiefs of Police had an advanced enrollment of more than 75 officers.

Leader of a Russian eclipse expedition said, sourly, "We went 10,000 miles to see a rainstorm." If he took pictures of it, a mid-west tour might be profitable.

Acamedy Sends An Explorer Out After Grizzlies

PHILADELPHIA—Major Nicholas Biddle, big-game hunter, explorer, and World War officer, is off on another expedition with gun and camera for a sortie against Rocky Mountain grizzly bear.

Biddle, president of the Pennsylvania State Game Commission, left here by airplane for Pitchfork, Wyo., scene of an earlier expedition, to bring back the bears for a display to be placed in the North American Hall of the Academy of Natural Sciences.

He will establish his headquarters on the ranch of Charles Belden, where in 1934 the game commissioner acquired the academy's habitat group of prong-horn antelope.

The academy is extremely eager to get the grizzly habitat group for their collection as the bear was named by George Ord, a former president of the academy. Biddle has engaged in numerous hunts for birds and animals to be added to the collections of the academy. He has visited Honduras, Alaska, Haiti and British Columbia. On his expedition to Honduras, Biddle narrowly escaped death when his canoe overturned, drowning his guide.

Nearly 5,000,000 postcards and stamped envelopes are sold in America each year. Of these, 2,000,000 serve as pocket linings in coats of forgetful husbands.

Tourist Camps In Cities Are Used by Residents of Cities

By United Press
FORT WORTH, Tex. — Fort Worth follows its sister city, Dallas, in booming tourist camp business with local patronage, checked up by a local newspaper revealed. Sociology students at Southern Methodist University in Dallas found that three-quarters of the business in that city's tourist camps came from local couples. Fort Worth goes Dallas one better, local investigators found.

Nine out of ten patrons of tourist camps live in this city. Reporters visited all regular tourist camps in Fort Worth. In several instances, they were denied cabins for the night but were able to obtain rooms for one or two hours. No registers were offered the inquiring "tourists" to sign and no questions were asked. Managers reported a booming business from the increasing local patronage. Couples are willing to pay the price of a full night's lodging for use of a cabin for a few hours and the cabin could be used several times in a single night.

The camps had blocks of cabins segregated for local trade and real tourists. But in all of them, short-stay patrons were welcomed while legitimate travelers often were denied.

College of Mines Building Program Nears Completion

EL PASO — A \$175,000 building program is nearing completion at the College of Mines and Metallurgy here, a branch of the University of Texas. Included in the construction project are dormitories for men and women, a museum and an engineering building. The dormitories will be ready for occupancy with the opening of the fall semester at the College of Mines on Sept. 16.

Modern in every detail, the dormitories are the first to be erected on the College of Mines campus. Reservations for rooms have come from as far as Brooklyn, N. Y., Red Lake Falls, Minn., and Point Loma, Calif. The College of Mines Centennial Museum will house a collection of minerals and ores, fossils, and will include the College's valuable paleontological and zoological collections.

British Service Men To Speak Japanese

LONG BEACH — More British of the army, navy, air force police must learn Japanese, authorities here have decided.

In the past these services have depended upon Japanese subjects to act as interpreters, and on the fact that a large number of Japanese speak English fluently.

Although more than 4,000 Japanese are living in Singapore, and a special department of the political police is responsible for their good conduct, there is only one police officer in the city who speaks Japanese. A staff of Japanese interpreters is also employed.

Nebraska Gasoline Tax Increase Has Cut Down Revenue

LINCOLN, Neb. — Further evidence of the depressing effect of excessive sales tax rates upon state revenues and general business is found in Nebraska, where an increase of the state's gasoline tax rate to 5 cents per gallon has been accompanied by a decline in motor vehicle registrations and a decided drop in gasoline consumption. Both registrations and consumption in neighboring states have shown substantial increases, according to a report recently made by Nebraska Petroleum Marketers, Inc.

Nebraska was shown in the report to have had 433 less motor registrations in 1935 than in 1934, while six neighboring states showed a total increase of 108,225 vehicles. The largest increases were in Iowa, which has a 3 cent gasoline tax; Missouri, which has a 2 cent tax; and Kansas, which has a 3 cent tax. Colorado, South Dakota and Wyoming, also with lower tax rates, also showed increases.

As regards gasoline consumption, the report shows that in the first five months of 1936 neighboring states experienced a gain of more than 36,000,000 gallons, while Nebraska's increase was only 94,000 gallons. Iowa's gain in consumption was reported as 10,060,000 gallons, Kansas showed a gain of 14,000,000 gallons, and Missouri 17,000,000. It is estimated that the monthly volume of business of Nebraska service stations would have been increased 2 1/2 gallons per month had the tax not prevented the state from experiencing the same rate of increases as states with lower levies.

Club In London Is Organized By Boy Explorers

LONDON — More than 100 boy pioneers, who have braved perils and privations in wild, distant lands, have formed a club here to perpetuate memories and develop life-long friendships.

They are members of the Public Schools Exploring Society which, in the last three years, has sent expeditions into Lapland, Finland, and unsurveyed regions of Newfoundland. In their club, in Overland House, London, will be found scientists and explorers of the future.

The inspiration has come from Surgeon-Commander G. Murray Levick, who accompanied the late Captain Scott's Antarctic expedition and founded the exploring society. This summer the commander leads 120 boys, including six boys from working-class homes, on the society's fourth adventure to the Arctic areas of Lapland.

"At least another hundred members will be added to the club when we return," he said. "Many travel miles to meet each other. The club will be an ideal place to perpetuate these bonds."

Farm Milk Income Shows Big Increase

American Farmers' cash income from milk during July increased \$16,000,000 over July, 1935, according to the Milk Industry Foundation.

This 14.1 per cent rise in July over the same month a year ago brings the 1936 total farm income from milk to \$812,000,000 for the seven months' period, topping the 1935 seven months' period by \$44,000,000.

Part of the unusually large July increase was due to farmers receiving substantially larger unit prices for their milk as a result of the drought. The higher prices have helped farmers offset higher feed costs, resulting from the drought. Since feed prices are expected to remain quite high for the remainder of the year and until the pasture season early in 1937, dairy farm milk income should continue to show increases, the statement said.

July figures made a new high since 1930. The seventh month's total for 1936 is \$192,000,000 greater than the same period for 1932, a striking example of the rise in farm cash from milk since depression lows, the Foundation statement declares.

CURRENT KILLS "HOPPERS"
GILLETTE, Wyo. W. J. C. Tabben is one farmer who knows a way to combat the grasshopper menace. Lubken rigged an electrical apparatus on his binder which electrocutes the grasshoppers.

Students Find 100 Skeletons In Hill

CUMBERLAND, Wis. — Students of five universities seeking historical data have unearthed an Indian mound near here containing 100 human skeletons, bones of a horse, arrowheads, spears and pottery.

The excavation was directed by W. C. McKern, of the Milwaukee public museum, and Dr. Ralph Linton, University of Wisconsin professor of anthropology.

Position of the bones, found in 36 different places, led the expedition to believe they are of Sioux Indians, who were known to pile the bones of their dead in groups. The mound in which they were found was 25 feet long and 12 feet high.

The students in the expedition were from the Universities of Wisconsin, Michigan, South Carolina and Miami, and Ripon College.

South Texas Judges To Meet Sept. 18th

BAY CITY, Tex. — South Texas judges and commissioners will hold their annual convention here Sept. 18-19, with Gov. James V. Allred and other state notables scheduled to speak before delegates from 66 counties.

Arrangements and the program were announced by E. O. Taulbee of Bay City. He said county Judge Robert Wolf of Nueces county, president of the South Texas organization, would preside at the first meeting.

Speakers for the opening session include Congressman-nominee Clyde Garrett, Eastland, president of the state organization; Dr. John W. Brown, state health officer; Miss Olga Burish, of the state health department.

Major E. A. Wood, director of the state planning board; Julian Montgomery, Texas PWA director; State Comptroller G. H. Sheppard; Assistant Attorney General Scott Gaines; Chairman Charles Clark of the state board of water engineers, and H. P. Bunker of the Federal board of reclamation engineers.

Attorney General William McCraw will speak at a banquet in Palacios on the evening of Sept. 18. Governor Allred will speak on the following morning here.

Final speakers include Harry Hines, state highway commission chairman; R. E. Biggs, district WPA director and former president of the state judges and commissioners association; and H. P. Drought, state WPA director.

Soviet Extols Virtue Of Soap, Cosmetics

MOSCOW — Stimulated by the success of the Soviet food industry in popularizing new products by advertising, the State Perfumery Trust will push its products, particularly soap, by similar methods.

Whereas the food industry used newspaper advertising largely to acquaint the Soviet consumer with the merits of catsup and canned corn, previously unknown here, and sold out its supply, the perfumery trust will use radio, billboards, stage and screen.

Excerpts from a children's play in which the hero, a dirty boy, washes not only himself but a giraffe and cow, will be staged at the Gorky Park of Culture and Rest to popularize soap. Another skit will show an unsuccessful boxer return to the ring to gain a knockout after refreshing himself with eau de cologne.

A film short will show a frocked boy with the girl of his heart by using a facial cream. A poster designed for display in rural districts features a short verse in which a girl says to her sweetheart, "Darling, don't give me ribbons, better buy me some soap and good tooth powder."

A traveling circus will perform scenes showing the merits of soap and tooth powder backed by a series of hygienic slogans and posters.

BIG SHOES FOR TIRED DOGS

Too big for any human feet, these shoes, size 24, provide a comfortable resting place for tired puppies all the same. Although they have been taken over as temporary quarters by Bing and Betsy, two cocker pups, the shoes were manufactured for a special Montgomery Ward window display as a symbol of the fact that Wards are the world's largest retailers of work shoes. The shoes weigh 4 1/2 pounds and are built to regular specifications.

1936 Version: "Any Gas Today, Lady?"

"Any gas today, lady?" largely has replaced the interrogation of the ice man, particularly in sections beyond the city gas mains. An affirmative reply results in the attaching of a new cylinder of gas—"bottled gas," it is called in the suburbs, on farms, and at resorts, which has come into popularity as fuel for kitchen stoves.

Sales of such liquefied gases, which are of petroleum origin, reached 76,555,000 gallons in 1935, a gain of 36.2 per cent over 1934, and a contribution to the 326 per cent increase in the consumption of liquefied petroleum gases during the six-year period, 1930-1935. Some 21,380,000 gallons, or nearly 28 per cent, were used for domestic purposes, chiefly for cooking. About 10 per cent, or 7,581,000 gallons, was mixed with manufactured gas to increase the

heat value, while 62 per cent, or 47,894,000 gallons, found industrial uses, particularly in manufacturing operations where accurate heat control is essential.

Most of the liquefied petroleum gas consumed in 1935 was propane, with butane a close second, propane-butane mixtures third, and the rest pentane. Propane is the "bottled gas" used for domestic heating. Butane was consumed largely in such industrial processes as annealing, brazing, carburizing, metal cutting, pre-heating, etc. Many chemical products also are manufactured from the gases.

Handy Thing About Black-Draught So Many Folks Like

When it comes to the proper size dose of a laxative medicine, different persons and different ages naturally need different doses. Proper size doses thoroughly do the work expected without harsh purging.

Black-Draught laxative is prepared in a dry powder so the size of the dose easily can be adjusted to the needs of the person taking it. Not too much, but just enough thoroughly to relieve constipation.

Black-Draught is credited with leaving the digestive tract more able to continue elimination, regularly, every day. Be sure to try it!

Sold in 25-cent packages.

CUSTER LETTER PRIZED
OWOSSO, Mich. — Yellowed with age, but the prize possession of Capt. L.W. Todd of this city, is a letter to Col. Ebenezer Gould, Owosso Civil War hero, from Gen. George H. Custer, when they were officers in the Union forces. The letter is dated Oct. 4, 1863, and expresses regret because of his (Custer's) inability to visit the Gould home because of war duties.

Chickens — Chickens
STAR - Sulphurous-Compound given in drinking water will restore lost vitality and egg production caused by the hot weather and moulting. Also keep them free of germs, worms and blood-sucking insects that sap their vitality and cause disease. Cost very little and money back if not satisfied.

CAN ENJOY MAYTAG HELPFULNESS

For twenty-two years, farm homes have enjoyed the convenience of Maytag washings. Maytag was the first self-powered washer for homes without electricity.

But there are other reasons why Maytag is the preferred farm washer. It is square, cast-aluminum tub in rooming, and more convenient—the Gyration water action washes faster, cleaner, more gently. The Roller Water Remover has an enclosed, self-reversing drain, investing in the Maytag, its reasonable cost and easy payment plan.

Free demonstrations in city or country.

Prison Is Different — When You're Inside

It isn't likely that very many judges will follow the advice of Judge Michael Angelo Musmanno of Pittsburgh and do a brief stretch in prison to learn what it is like to be on the receiving end of a sentence.

Judge Musmanno got the quaint notion that a man whose job it is to send other men to prison ought to know a little something about prison life. So he had himself put through the hopper recently at Pennsylvania's Western Penitentiary.

He came out, after three days as a convict, announcing that the prison had taught him more than Harvard had, and urging all judges to go and do likewise.

"It is extraordinary," he says, "that this has not been done before. It is like talking about combating an epidemic without seeing some of the victims to determine the type of epidemic that is to be treated."

A judge's part in the "war against crime" is a rather peculiar one, when you stop to think about it. He comes into each case cold, so to speak; himself the very incarnation of respectability and uprightness. He is forever being confronted with people who have very little of either quality, and is compelled to say what should be done with them.

On the surface, his job may be simple enough—to put these people where they won't do any more harm. A safe-cracker behind the bars is not going to do any more safe-cracking until his sentence expires; for the time being, at least, society is protected and the problem is solved.

But it isn't quite so simple as that. The safe-cracker will come out again, some day — and then what? Will prison have persuaded him to give up his chosen calling, or will it have made him a more confirmed and talented safe-cracker than he was before?

Will the net result of his sentence be a decline or an increase in society's danger from the safe-cracker as a class?

Judge Musmanno seems to think that the man on the bench ought to have some of the answers to those questions before he pronounces sentence. If he could only get into the other man's skin briefly; if he could gain some sort of understanding of the tormented and twisted complex of emotions and ideas that go to make up the criminal—wouldn't he, then, be able to serve society better as a judge?

Administration of justice isn't the simple, open-and-shut thing we like to think it is. Making the punishment fit the crime is an old and very inefficient way of protecting society against lawlessness.

Making it fit the criminal instead, recognizing that the sorry stream which flows through our courts is made up of individual human beings, each with his own dark problems, his own reasons for doing the things he does—might not this be a far more efficient way of defending ourselves?

Judge Musmanno's experiment is a step in the right direction, a recognition that a court must be something more than a mill which feeds crooks in at one end and grinds convicts out at the other. The process needs to be humanized; it needs understanding and sympathy.

A good person to carve the turkey at family dinners is the golfer who always gets a big slice on his drives.

Java coffee planters notice they get more coffee after a volcanic eruption. It takes something similar to get the same result in some restaurants.

The Chicago woman who hit her husband on the head with a violin apparently was not fiddling.

A new pistol for G-men is said to have an 830-pound punch. Maybe we were a little premature with the phrase, "Big shot."

TWO KILLED IN ACCIDENT NEAR CADDO

BRECKENRIDGE, Tex., Sept. 15. — Richard Leaman, 41, Hamilton business man, and I. E. Moonney, church caretaker, were injured fatally today when their automobile skidded on a wet highway and crashed into a bridge railing 25 miles east of Breckenridge.

The two men were enroute to Dallas on a business trip.

Two children of James Speed, riding in the car, escaped with slight injuries.

Leaman was dead when he reached a hospital and Moonney died shortly afterwards.

Safety Department To Give Exhibition Upon Accidents

AUSTIN—Officials of the State Department of Public Safety, in connection with their extensive safety lane campaign throughout Texas, are soon to begin a series of exhibitions of the mishaps that may occur due to reckless or careless driving.

In the campaign to promote careful driving, the officers will demonstrate each point with one or more automobiles. The street will be roped off and each accident will be carried through, in slow motion, until the actual point of contact.

Every traffic problem will be presented and worked out for Texas drivers, officials said. They will be shown the wrong and right way to drive on every occasion. It is not the purpose of the campaign to show the spectators actual wrecks, officials said. They only intend to carry it up to the point of a serious wreck and stop — after they have illustrated the point.

W. B. Crossley's Car Found at Meridian

Word was received today by Jim Ingram, chief of police of Ranger, that a car stolen from W. B. Crossley, formerly of Ranger and now of Boscoe, had been located at Meridian. The car was stolen at Sweetwater two weeks ago.

According to the sheriff the car was found at Meridian by officers, who telephoned the Comanche sheriff after a grocery ticket issued by a Comanche store was found in the car.

Chief Ingram notified the sheriff that the owner lived in Boscoe and was told that the car would be taken to Comanche and held for the owner.

SISTER MARY'S KITCHEN

By NEA Service
EVERY cook in the country has her own ideas about making cole slaw. This recipe for "Florida Slaw" has a tang that is rather unusual and it is so good that it is recommended for evenings when you have guests for dinner.

Florida Slaw for Six
Four cups cabbage shredded fine, 1-2 green pepper, minced, 1-4 cup sweet pickles, minced, 1 tablespoon prepared mustard, black pepper to taste, 1-4 cup vinegar, 1-2 cup cream, 1 tablespoon sugar, 1-2 teaspoon salt.

Mix the shredded cabbage with the green pepper and pickles. Then combine the remaining ingredients and pour over the cabbage.

Toss the slaw thoroughly. Chill. Serve plain or with the edges of the bowl lined with lettuce or watercress.

The secret of the flavor of this slaw is the proper use of vinegar and mustard.

Do you always serve wax beans hot with butter? You have a treat in store for you if you prepare them cold, as a salad or relish.

This recipe is called Wax Bean Vinaigrette and you can use fresh or canned wax beans.

Wax Bean Vinaigrette for Six
Two and one-half cups cooked wax beans, 1 tablespoon chopped green pepper, 3 tablespoons chopped red pickle, 3 tablespoons chopped

Tomorrow's Menu

BREAKFAST: Orange and grapefruit juice, fried corn meal mush with maple syrup, coffee.

LUNCHEON: Clear tomato soup, seafood salad on lettuce, rolls, apple tapioca pudding, tea, milk.

DINNER: Melon cocktail, breaded veal cutlets, parsley potatoes, creamed carrots and celery, Florida slaw, cheese, crackers, coffee.

parsley, 1 tablespoon chopped onion, 3 tablespoons vinegar, 1 1-2 teaspoon salt, 1 teaspoon sugar, dash of black pepper, dash of paprika, 8 tablespoons oil.

Make a sauce of all the ingredients except the beans.

If you use canned beans, drain the liquid from the can.

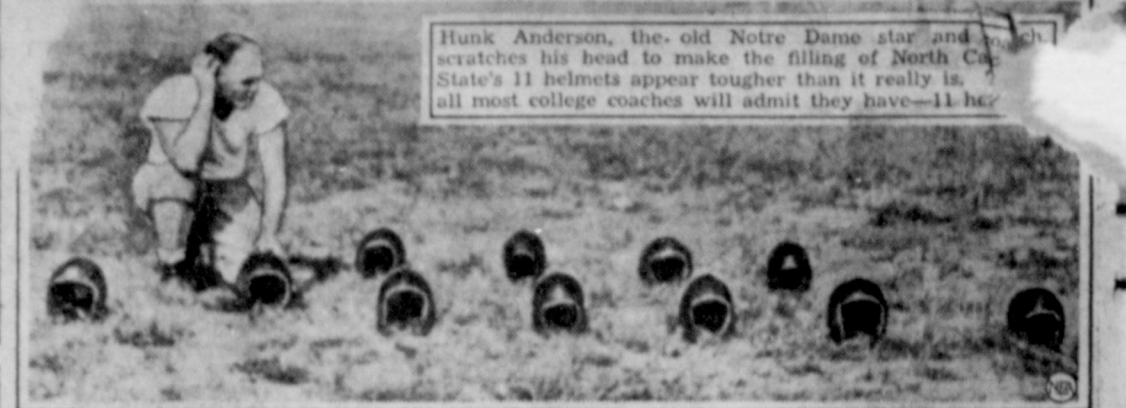

Chill the beans with the sauce poured over them, mix well.

If you like garlic flavor, rub the bowl in which you chill the beans with the cut side of a piece of garlic.

This dish may be served two ways, either as a salad with or without lettuce or as a piquant relish with meats.

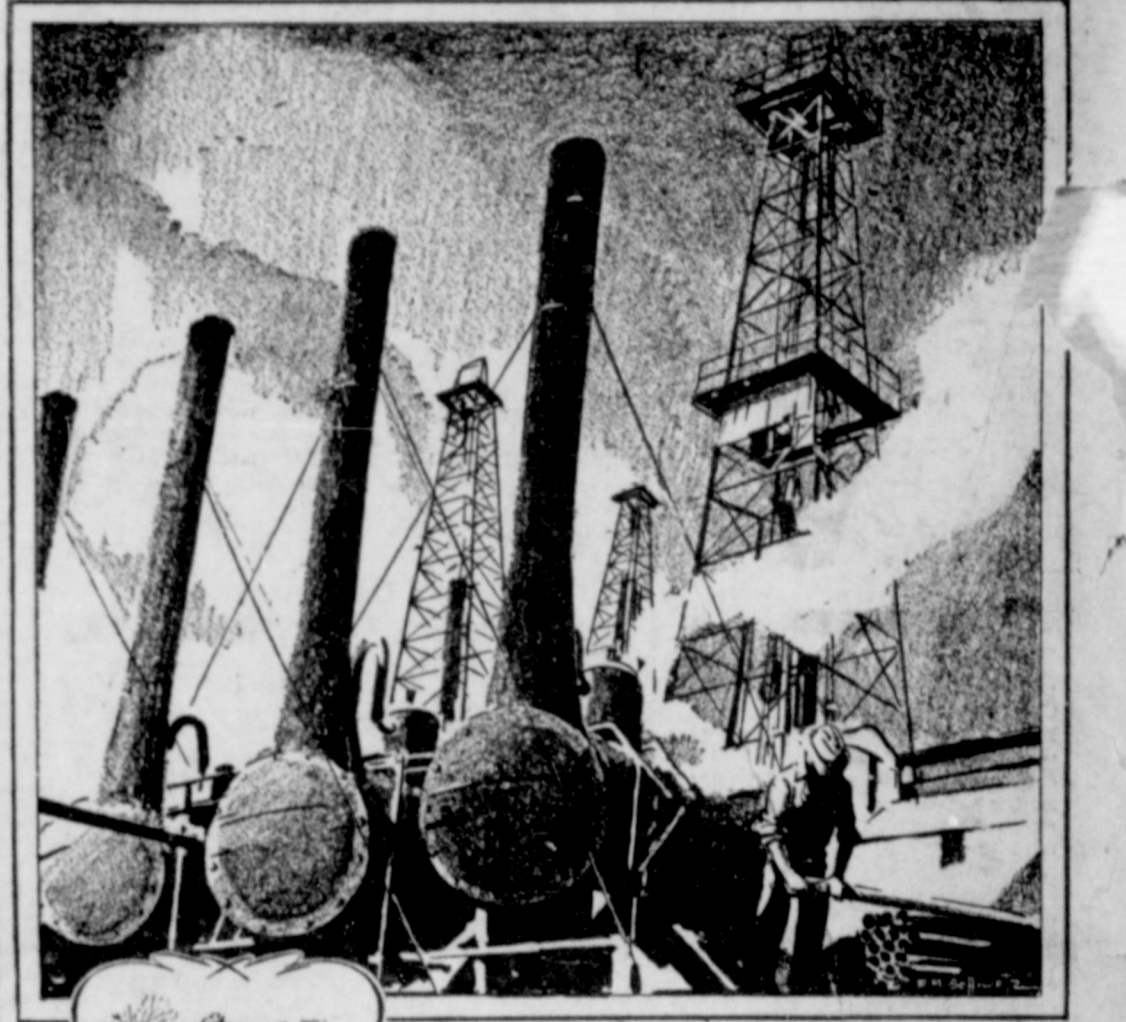

And by the way, this vinaigrette sauce is excellent on many cold vegetables, such as canned or fresh asparagus in season, or string beans.

PROBLEM IN PIGSKIN HABERDASHERY

Hunk Anderson, the old Notre Dame star and coach, scratches his head to make the filling of North Carolina State's 11 helmets appear tougher than it really is. All most college coaches will admit they have—11 helmets.

From Texas oil fields—Humble motor fuels and motor oils

When Texas was young, crude oil was produced with dippers from the surface of springs and from water wells gone wrong. It was used as a medicine—for man or beast!—and locally as a poor sort of lubricant. Today, Texas produces more oil than any other state in the Union—(approximately four hundred million barrels annually)—and ranks first in proven oil reserves.

NO INDUSTRY STANDS ALONE, and the vast oil industry of Texas is no exception to that rule. Its expansion has been fostered by the widening use of the automobile, which has created an ever widening market for the products of Texas oil fields and Texas refineries. On the other hand, the development of the automobile has been dependent on the development of motor fuels and lubricants, so that the two industries are interdependent, each on the other.

The Humble Company recognizes this fact and it stands behind Humble's policy of continuous improvement, a policy rigidly adhered to. As new automotive needs appear, Humble technicians discover new ways to satisfy them. Behind the Humble trademark stands an army of over 11,000 Texans seeking day by day to improve the motor fuels and the motor oils sold under the Humble sign . . . We ask you to try Humble motor fuels and Humble motor oils, to test them the only sure way—in your car. We know they'll please you, because we know—continuous improvement keeps Humble ahead.

1836 TEXAS 1936

At the Centennial Exposition, Dallas—Humble's Hall of Texas History

You are cordially invited to visit the Humble Exhibit at the Central Centennial Exposition in Dallas. Striking dioramas recreate dramatic moments and vivid episodes from Texas History. See the battle of the Alamo, the capture of Santa Anna, the prisoners of the Mier Expedition drawing the black beans, the battle of Sabine Pass, Colonel Goodnight treating with Comanche Quanah Parker. Then see and listen to the story told by the rocks of Texas, and how Texas oil is drawn from many thousands of feet under the ground. On your way to and from Dallas—stop for service where you see the Humble sign.

© 1936, HUMBLE O. & R. CO.

HUMBLE 997 MOTOR OIL

For more performance per quart of oil, use Humble 997 Motor Oil in your car. It costs a trifle more than ordinary oils, but you get more out of it. Stop at a Humble Service Station or at a Humble dealer's today; drain your crankcase and refill with Humble 997 Motor Oil. Try it, compare it—you'll agree, continuous improvement keeps Humble ahead.

Humble 997 Motor Oil is made from the heart (a very small percentage) of specially selected crude stocks by a special patented process. It is, moreover, a 100 per cent paraffin oil. Like all Humble products, it is continuously improved. Available in bulk or refinery sealed cans as you prefer.

A. & M. Prospects For Grid Season Unusually Good

By United Press COLLEGE STATION — Texas A. & M. College will make its bid for the 1936 Southwest Conference football championship and possibly national prominence this fall with a squad of 57 husky linemen and fleet-footed backfield performers—more powerful than at any time within recent years. Coach Homer Norton and his aides are counting on their wealth of experienced veterans, 16 of them lettermen, and a handful of capable sophomores to pull the Aggies from the mire to the conference championship heights denied the Cadets since 1927. Agground and in the air the Aggies expect to be more powerful offensively than last year. Jim Shockey, ace passer, will lead the Cadets' aerial maneuvers and Dick Todd, one of the most talked of sophomores ever to enter conference competition, will be the Cadets' "No. 1" ground threat. With a line virtually the same as in 1935, but more experienced, and the backfield more adept at anti-aerial plays, Norton hopes his team also will be stronger defensively. Eight of the Aggies' nine 1935 backfield lettermen will return. The ninth, Freddy Wright, broke a leg this summer. Of the veterans, Shockey and Todd seem most certain of regular berths. Shockey, whose home is in Gilmer, developed into an exceptionally good passer in mid-season last year and will exercise his ability again this season in addition to some punting, Norton said. Todd, who set a scoring record for Crowell high school with 318 points his senior year in 1934, is seen by many Aggie fans as a "New Moses" and is expected to be the backfield "sparkplug" the Cadets have needed for some years. The line will need only one replacement to present a solid front. Taylor Wilkins, end, graduated last year, but a 219-pound sophomore, Rankin Britt of Ranger, stands ready to will the gap. Johnny Morrow, 185-pounder from Wortham, is the outstanding candidate for the other wing post. Four lettermen tackles, each weighing more than 200 pounds, will be available. The quartet includes Martin Lindsey, Dallas; Selmer Kirby, Amarillo; John Whitfield, Rouse; and Roy Young, Fort Arthur.

JUBILANT YANKS ARE IN

Happy grins spread over the faces of the New York Yankees after they had defeated the Cleveland Indians, 11-3, in the first game of a double-header, Sept. 8, to clinch the American League pennant. Here are some of the conquering heroes in the clubhouse after the game. Manager Joe McCarthy is at left. So inspired were the Yanks after the first victory that they went out and copped the second game, 12-9.

lettermen guards, graduated last year, but Joe Routt, Chapel Hill, and Walt Ghythian, Taylor, both of whom also were lettermen, are ready to take their places. Charley DeWard, Jr., of Brenham, letterman for the last two years, and Zed Coston, Dallas sophomore, are figured for the center post. Joe Woodsonford, 195-pound player from Richmond, also is due for some action. The Aggies' schedule shows them partly behind the 8-ball. Four of their six conference games will be played on "foreign soil." Two of their strongest conference foes, Arkansas and Texas Christian, however, will come to Kyle Field. The Aggie 1936 schedule: Sept. 26—San Houston at College Station. Oct. 3—Hardin-Simmons at Wichita Falls. Oct. 10—Rice at Houston. Oct. 17—Texas Christian at College Station. Oct. 24—Baylor at Waco. Oct. 31—Arkansas at College Station. Nov. 7—Southern Methodist at Dallas. Nov. 11—San Francisco at San Francisco, Calif. Nov. 21—Centenary at Shreveport. Nov. 26—Texas at Austin. Dec. 5—Manhattan at Tyler. LAKE KEEPS SECRET CEDAR CITY, Utah—The mystery lake of Central Utah is Duck Lake, that lies at an elevation of 11,000 feet in the mountains above here. Although it has no visible outlet, it contains clear, fresh water and abounds in eastern and minnow trout.

Hardin-Simmons Has 43 Candidates For 1936 Squad

ABILENE—Forty-three veteran Cowboys galloped into Hardin-Simmons stadium this week to prepare for the Sept. 18 battle with Daniel Baker that will open the Cowboys' tough schedule of ten 1936 gridiron battles. Twenty-six of the varsity squad that reported to Coach Frank Kimbrough for pre-school workouts are lettermen. Only two regulars were lost to the Cowboys over the summer months, one through graduation and another because of injuries. The forty-three and an additional fifty hopeful freshmen are being put through two workouts thrown in to round out the day. The 1936 schedule that opens with Daniel Baker at Abilene the night of Sept. 18 slates the Cowboys to meet Baylor Bears at Waco the night of Sept. 26, Texas Aggies at Wichita Falls, Oct. 3; Oklahoma Baptist University, the night of Oct. 10 at Abilene; Creighton University, of Omaha, Neb., Oct. 24; Kansas Wesleyan, night of Nov. 7 at Abilene; Howard Payne, Nov. 14, Abilene; Morningstar College, Sioux City, Iowa, Abilene, Nov. 27; and Fresno State College, Fresno, Calif., at Abilene, Dec. 5. Cowboys returning this week show a promising backfield with eleven of the twenty-six letterman bulwarks of Hardin-Simmons offense that netted the Cowboys six decisive victories in 1935. Pete Tyler, co-captain and 180-pounder from Clyde, is among Kimbrough's most dependable backs, supported by Cherry, 190-pound junior from Shamrock; Boutwell, 180, Electra; Hendricks, 176, Breckenridge contribution to the backfield; White, 175, Ardmore; McKinney, fast 160-pound Wichita Falls junior; Howell, 145-pound speed demon from Snyder to play his last year in 1936; Russell, 175, Dallas; and Luther Raley, 160, Hamlin. Coach Kimbrough has the choice of three veterans for quarter post, Mahuron, 160-pound junior from Amarillo; Si Addington, 170, from Fort Worth, and Don Emery, 160-pound senior from Temple, two-year letterman and ace passer. The forward wall will include co-captain Murphy, 200-pound Brady tackle; Radosovich, 205,

tackle, Clayton, N. M.; Beck, 190, Eastland; Yeary, 180, John Tarleton transfer; Reeves, 177-pound Wichita Falls boy; and Swint, 180, from Paducah. The veteran squad is rounded out with Jaramagin, 185, Graham; Hall, 185, Hamlin; Hatchell, 170, Oklahoma City; Redden, 172, Floydada; and Green, 190, Temple, at center position. YOU NEED THESE life-saving advantages OF CONCRETE From your own experience you know that concrete is the safest road. Its even surface makes driving easier, reduces nervous strain and results in better car control. Its gritty texture improves traction and braking, resists skidding, wet or dry. Because of its flat "crown" drivers don't tend to ride the center of the road—passing is safer. Concrete makes night driving safer. Its light-grey surface reflects more light, helps you see better. Illuminates and defines the edges and you stay on the road. Highway officials are striving to reduce traffic accidents. Urge them to pave with concrete and secure for your community the safest as well as most economical pavement money can buy. You can benefit by your active interest as many others have done.
