Guard Child's Eyes During "Eyestrain" Season

By Jean Prentice

Three-fourths of all a young child's learning, say scientists, comes through the eyes. Prevention of eyestrain is particularly important during these early years.

STUDENTS, six or six years of age, need good lighting for better sight, better grades, and for work of that "tired feeling" and "drowsy" kind.

And just as children need the proper size of chair and table for the comfort of their bodies when they study, so they need proper lighting for the comfort and protection of their eyes.

These facts are pointed out at this "eyestrain" season of the year by lighting scientists who have carefully studied light in its relation to sight.

No longer does the alert mother or father take it for granted that any kind of light is safe for home work. Research in the country's lighting laboratories has shown us differently.

Poor Light Causes Eye Defects. Impaired eyesight is found in one out of five school children, two out of five college students and three out of five persons over forty. And we know that poor lighting has been a contributing cause to this regrettable condition.

By actual test it has been proved that home work is easier for children when studies under improved lighting, and that better grades result.

"All right," says mother. "I'll improve the lighting. But how?"

First, have your lighting measured. It's being done these days as a matter of fact, as you call upon the thermometer for your child when she gets sick. Light is measured with a little instrument called a light meter. The meter may be carried about in your hand. A moving needle points on the dial to the amount of light you have (in a measurement called "footcandle"). Your lighting company can easily do the measuring for you.

In many homes only five footcandles of light are found at the child's study table. Yet nature gives us at least 50 in the shade of a tree. Your child should have a minimum of ten for most textbooks.

Quality of Light Important. But quantity of light has little value without quality. This means an even amount of general illumination throughout the room in addition to light from a study lamp. The eyes are thus not constantly forced to "change gears" as they look from light to dark.

Quality of light also means a good lamp. Ideal ones for your child are those approved by the Illuminating Engineering Society, a nationally known group of lighting men and eyesight specialists. The lamps are made in a variety of designs by a number of manufacturers. Their proper height, wide shade and inner translucent bowl generously distribute the light both up and down and over a wide area. The light is smooth and soft, and harmful glare is avoided.

And then watch your boy or girl study under one of these lamps! Or try it yourself.

Archers' court a complete report on home demonstration club work in the county.

The Midland county council received the report of the cook book committee that 1,000 copies would be in the hands of the sales committee immediately.

ARCHER CITY.—At a cost of 50 cents for cleaning and pressing, Mrs. Wallace Bedford of Archer county has made an attractive tailored sport suit from a man's discarded suit, according to Miss Georgia Mae Evans, home demonstration agent.

"I didn't even take the lapels off. I just ripped up the sides of the coat and removed the sleeves," Mrs. Bedford said. "After fitting the coat, I cut the sleeves to fit and replaced them. The skirt was made from the trousers by using the cuff end at the waistline and sloping the sides gradually."

CANTON.—"It is worth \$50 to me to have running water in and drainage out of my kitchen," says Mrs. Bob Gregory, kitchen co-ordinator of the New Hope home demonstration club in Van Zandt county.

In her kitchen improvement work, Mrs. Gregory also added a sink and a new stove, papered the kitchen, refinished the woodwork and gave the linoleum a new coat of paint.

"I now have a clean attractive workshop. Since I spend a large part of my time in the kitchen, I am enjoying working in an attractive one," she told Miss Beulah Blackwell, home demonstration agent.

LUBBOCK.—A 7x10x12 cellar dug under the kitchen will provide an adequate storage for a winter supply of food for T. A. McClure and sons of Lubbock county, according to Miss Norfleet Grimes, home demonstration agent. Herebefore the food has been stacked on the floor in the corner of the dining room, destroying food values and causing hours of extra work.

The kitchen floor made the ceiling of the cellar. The walls were ceiled with heavy boards, and the cellar was calcimined throughout.

BONHAM.—"It pays to market home-grown feed through livestock when prices are fair," Jess A. Smith of Fannin county told V. J. Young, county agricultural agent, recently. Smith has just completed a demonstration on 21 head of beef calves that gave him a net profit of \$317.00.

Smith purchased the 21 head of Hereford calves on November 30, 1935, at a cost of \$330.62. At that time they had a total weight of 5,250 pounds. The calves were fed hay and cake for 80 days. The next 120 days the calves were put on small grain and native pasture with the cake continued. Then they were fed hulls, meal and ground maize heads for 50 days. They were finished for a period of 50 days on ground corn and cottonseed meal.

The calves were sold on September 25. Their total weight was 13,505 pounds, representing a gain of 8,252 pounds over a period of 300 days. They sold for \$1,612.72, which left a profit of \$317.00.

MARLIN.—A yield of 44 bushels of corn per acre from a one-acre corn demonstration has been reported to W. L. Ross, Falls county agricultural agent, by Howard Haug, 4-H club boy. Howard sold the corn for 80 cents per bushel, making a total of \$35.20 return on the acre.

Howard used yellow dent seed corn, selected from the barn from corn grown on the farm in 1935. After careful selecting and shelling the seed was treated to insure a better stand. The corn was grown on black land that had been terraced and was given good deep plowing in the fall, followed by clean level cultivation after the corn was up.

Liners Pause at Sea to Shatter Horatio Alger Tale

By United Press
YOKOHAMA, Japan — A lifeboat bobbed about on the choppy waters 500 miles off the coast of Japan. In the boat sat a 16-year-old Japanese boy, foiled in his efforts to reach America by the stowaway route.

Young Yoshiwa Ito got as far as the third grade in school when his parents died. He attached himself to a man who set him up as a shiner of shoes in the streets. He made 18 cents a day at it. The man deserted the lad, whereupon Yoshiwa continued to shine shoes and listen to stories of how fortunes are made in America.

After saving about a dollar, which he invested in a shirt, trousers and two days' supply of bread, Yoshiwa slipped aboard the passenger liner President Jackson before it sailed for the United States and hid in the steerage quarters.

He was discovered the next day by a member of the crew. The ship was already at sea, but it was due to pass the President Grant, en route to Yokohama from San Francisco, the next day.

When the Jackson and the Grant met they stood by while a lifeboat transferred Yoshiwa to the Japan-bound ship.

TRIBESMEN LIKE THEIR PHILCO, TOO!

These Maori tribesmen were caught by a photographer as they sat in front of their home in distant New Zealand, listening with rapt attention to the marvels of a radio program as brought to them by their all-wave Philco set. There are more than 40,000 Maoris living in New Zealand today, many of whom, like other primitive peoples, are making increased use of radio to bring them in close contact with the more advanced sections of the globe.

Short wave radio is a two-way institution, and radio programs from the home of the Maoris and other far corners of the world are also greeted with intense interest by American listeners. The arm-chair traveler with a properly constructed and installed all-wave set can tune in on the Fiji Islands, the heart of Africa, or the metropolitan centers of Europe, Australia and South America; and can gain, from such listening a fuller understanding of the customs and languages of all lands, as well as the various forms of entertainment by different peoples.

Dealer Will Install Philco De Luxe for Home Demonstration

Without charge or obligation the Philco dealer in your community will install a 116x DeLuxe for a suitable demonstration period right in your home. There, in the comfort of your living room, put this finest of radios to any test your imagination may suggest.

Thrill to programs from London... Berlin... Paris and other foreign cities. Keep in touch with the onward sweep of world events through the news bulletins... broadcast in English, from European capitals. Such clarity... such volume... such surprising regularity of reception from overseas is possible only with a Philco 116x DeLuxe with its built-in all-wave aerial system.

When you listen to a favorite American program, the 116x DeLuxe quickly reveals the meaning of Super High Fidelity reception. You hear the overtones which give natural, lifelike quality to the human voice. Each instrument in an orchestra is readily identifiable... as clearly distinguishable from all other instruments as if you were right in the concert hall.

A Shoe-Fitting Resolution Made By Josephs' Clerks

A fitting resolution has been adopted by each of the shoe fitters at Josephs', which is as follows: "Believing it the duty of every shoe man to sincerely serve the customer's interest, I hereby pledge myself to increasing study of the art of fitting feet. I promise to keep alive in my heart the ideal of dispensing true comfort. May I never slip to the level of simply selling shoes."

I promise to keep alive in my heart the ideal of dispensing true comfort. May I never slip to the level of simply selling shoes."

possibility rest the disposition, the business success, perhaps the health and very life of those who sit before me at the fitting stool. "I promise to keep uppermost in my mind the best love of my calling, which teaches that a short fit is the source of most ills, that feet and shoes are heir to, I would be worthy of the customer's trust, I would protect him from the lurking evils in 'The same size as before.' To his end I pledge my ceaseless effort to compensate for growth, for increased weight, and the elongation of the foot that comes from a busy day. I will not forget the Army last minimum of one such elongation clearance between tip and toe nor overlook the fact that dress last require more as they range from broad to narrow toes.

"Realizing that the customer's knowledge is usually confined to the elementary factors of size and width — and that he can know little of last differences for accommodating various types of feet, I will always help him or her to appreciate the reasons when a change in size or width seems necessary. I will explain the importance of proper measurement from heel to ball, of seeing that the large toe joint coincides exactly with the sharp turn of the sole just forward from the inner arch, a position on which every other conformation of the shoe depends.

"Realizing that seven feet out of every ten have some form of foot trouble, I will be able to intelligently diagnose and suggest the proper appliance necessary to correct the trouble and give comfort to my customers to the best of my ability.

"If in any of my fittings, I should err, if my skill should prove too meager and my stock of sizes too few — I pray that my error be on the long side. It is better that the toes have too much freedom than that they be confined in the perspiration discomfort of a too short shoe."

"May I unflinchingly remember that a finely made shoe is meant to be the home of happy toes — that on my judgment and my res-

ponces details for the great nationwide contest. It costs nothing to enter, there's nothing to buy. For complete information and blanks you are to visit the Ranger Furniture Exchange, the home of RCA in your community.

The dealer will gladly demonstrate these popular radios, which lays a perfect foundation for your winning one of the prizes. Contest plans are quite entertaining and be among the many who are taking advantage of entering.

MOVE GAME
SAN ANGELO, Oct. 13.—Cisco, loser in its first three starts, and San Angelo, one of the three undefeated teams in the Oil Belt, will play here Friday night. Transfer of the game was at the instance of Cisco.

Young lads who used to run away from home have to be careful in this trailer era, that the opposite doesn't occur.

The Wisconsin man who sleeps through winters is postponing this year's hibernation to Nov. 1. Unless, of course, he happens to hear an election speech.

A new way TO TRY ON SHOES—THAT ONLY FOOT SAVER WOULD DARE SUGGEST!

Make This *Amazing Test*

Walk around in unlaced FOOT SAVER ties, notice how they cling to your heel without slipping up and down. Spread your toes far apart, wiggle them, bend them... your FOOT SAVERS are also comfortable. These grand shoes have finally solved the problem of loose heels and tight toes because they're made—over an exclusive Shortback Last—to the proportions of your foot. Much smarter and they keep their good looks longer! And you'll love the restful support of their patented metatarsal construction.

Subscription Rate \$1.00 Per Year, Payable in Advance

Obituaries, cards of thanks, notices of lodge meetings, etc., are charged for at the regular advertising rates, which will be furnished upon application.

Politicians Are Taking Things Too Seriously

When the history of these times gets written, some cloistered scholar is going to have a terrible time figuring out why the politicians of this fair land got so much more frightened about the state of the nation than the plain people did.

We have heard enough calamity howling this summer to dress up the fall of Rome. A visitor from Mars, assuming that he was misguided enough to spend his time listening to the more frenzied campaign orators, would have supposed that Washington already lay in ruins, would have bones of Abraham Lincoln had been flung into the Sangamon river, and that the nationalization of women was going to be arranged just as soon as the registration cards could be made out.

Currently, for instance, we have Father Coughlin announcing solemnly that "1940 is the last general election we'll ever have unless the evils of modern capitalism are immediately eliminated."

Come, come now, father; isn't that taking in quite a lot of territory? The evils of capitalism are numerous and we've put up with them for quite a long time; must we really, to preserve our democracy, get rid of every last one of them in the next four years? Are things quite as bad as all that?

Suppose we don't get them all eliminated; what is going to happen to our general elections? How are we going to lose them? You must mean that someone is going to establish a dictatorship over us, don't you? Okay. Now listen, father:

This America for which you are so blithely predicting a dictatorship is a big country and it's awfully tough. There are a lot of rowdy people in it who don't like being pushed around. They're the people who shove autos through store windows at big conventions, and heave pop-bottles at umpires at ball games, and toss chairs into rings at wrestling matches, and step on the toes of traffic cops.

They're the people who turn trucks upside down during "farm holiday" demonstrations, and take ball bats and sawed-off billiard cues out to the picket lines in strikes.

They're the people who turned out by the million to throw the Wilson administration out of office in 1920 and the Hoover administration out of office in 1932. They're the people who have a derisive "Oh, yeah?" for fakery and stuffed shirts.

The man who is going to establish a dictatorship over them had better come early and be prepared to stay late, because he is going to have his hands about as completely full as any human being in all history.

Times have been bad and we have a great many hard problems to solve. But things never have been and never will be quite so bad as some of our self-appointed saviors are trying to make out.

New York scientists have developed a transparent model of a human being—a lot of trouble when there are so many persons anyone can see through.

The life of the party in midwest heat areas this summer was the man who could spin yarns so thrilling they made the blood run cold.

NIGHT and DAY

you're safe on CONCRETE

At night you appreciate concrete all the more because its light gray surface helps you see down the road. Light is spread without "glossy" reflection. Pavement edges are clearly defined.

Concrete meets the ideal for a pavement as defined by the International Illumination Congress of 1928. This is important to you because surveys show that the rate of death per accident is 45 per cent higher during darkness.

Concrete, smooth but non-skid, insures a quick, certain stop even in the rain. Blow-outs, spring breakage, steering gear failures, accidents of all kinds are less apt to happen on concrete.

Yet concrete is not only safe—it is more comfortable—it saves in driving costs—it costs less for upkeep—and cost of construction is less than that of any other pavement of equal load-carrying capacity.

PORTLAND CEMENT ASSOCIATION

1301 Norwood Bldg. Austin, Texas

A national organization of engineers and scientists, working in laboratories to help to improve and extend the uses of concrete.

Agent Expecting NYA Help For Terrace Program

Beginning November 1st, two crews of N. Y. A. youths will be put to work in Eastland county running terrace and contour lines, and doing other conservation work, according to the county agent. A full-time supervisor who works out of the county agent's office will have supervision over the work. All work done will follow rules and instructions recognized by the extension service as being sound.

Types of conservation work that can be done under the N. Y. A. project are terrace or contour line running and pasture demonstration work such as clearing, deadening timber, listing, contouring, fertilizing, sodding, reseeding, removing cactus and fencing modified grazing areas. Making and laying of sub-irrigation garden tile also will be done.

N. Y. A. workers will not build terraces, only running the lines. Pasture work will be done on a limited scale where land owners wish to improve a reasonable area and are willing to furnish everything except the labor.

A former automobile firm executive is running a New Jersey luncheon. In ordering a sandwich there, you must specify relish or other accessories.

HELPS PREVENT MANY COLDS

Especially designed aid for nose and upper throat, where most colds start.

Still Coughing?

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Cromolium. Serious trouble may be brewing and you cannot afford to take a chance with anything less than Cromolium, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membranes as the germ-laden phlegm is loosened and expelled. Even if other remedies have failed, don't be discouraged, your druggist is authorized to guarantee Cromolium and to refund your money if you are not satisfied with results from the very first bottle. Get Cromolium right now. (Adv.)

Farmers Are Urged To Sign Up For Terracing Work

Farmers and farm owners of Eastland county who are interested in terracing or running their rows on water level between now and spring are urged by the county agent to get their applications into the county agent's office at Eastland as soon as possible. An application card requesting lines for terraces or contours (water levels) can be secured from the office upon request.

The county agent reports that he has on hand applications for terrace lines on 1200 acres on 25 farms. Lines have already been run on 200 acres on 7 farms and the work is being done as rapidly as possible.

DO THIS when you wake up with a Headache

ENJOY RELIEF BEFORE YOU'VE FINISHED DRESSING

Bayer Tablets Dissolve Almost Instantly. In 2 seconds by simply dropping a genuine BAYER Aspirin tablet into a glass of water. By the time it hits the bottom of the glass it is dissolving. What happens in this glass happens in your stomach.

When you wake up with a headache, do this: Take two quick-acting, quick-dissolving BAYER ASPIRIN tablets with a little water.

By the time you've finished dressing, nine chances in ten, you'll feel relief coming.

Genuine Bayer Aspirin provides this quick relief because it is rated among the quickest methods for relief science has yet discovered.

Try it this way. But ask for it by its full name, BAYER ASPIRIN; not by the name "aspirin" alone.

15c FOR A DOZEN. 2 FULL 25c DOZEN. Virtually 1c a tablet. LOOK FOR THE BAYER CROSS

Those who are unable to build terraces this season can run their rows on water levels at no extra expense and reduce water and wind erosion greatly. Contouring or water leveling the rows is no substitute for terracing but serves as a temporary aid until terraces can be built.

County agent Cook and assistant county agent Barnhart have run terrace lines the last two weeks on the farms of K. F. Kirk and C. F. Poyner of Colony, D. W. Boone of Bullock, Idus S. Ech-

ols of Staff. F. M. Williams of Eastland, Abraham P. Key of Reagan, and C. C. McFadden of Do-

On Tuesday, October 20th, pasture terrace lines will be run on the farm of Bruce Ebberhart at Rising Star.

Strawn Coal Mine Hoisting Much Coal

The coal business at Strawn is better now than it has been at any time since 1928, according to reports received here about the mining activities of the Strawn Coal Company.

The company has just added 18 miners to the payroll, making the payroll larger than it has been in

a number of years, it has been stated. The company is now supplying coal to several railroads in addition to furnishing coal to several West Texas counties for heating school buildings.

The company is reported to be hoisting coal regularly, with no coal being mined than at any time in the past eight years.

Now that trailer homes are here, the bumpy country roads should come in handy for cocktail mixing.

Presenting a Thrilling New Love Team Lady Astor Back in U. S. for Visit

Robert Taylor and Joan Crawford in "The Gorgeous Hussy" Glamorous Joan Crawford and filmdom's most talked-about new leading man, Robert Taylor, form the thrilling romantic team of "The Gorgeous Hussy," showing Sunday on the Arcadia screen. Their love scenes will be something you'll remember for days to come!

Back-in America from England for the first time in four years, Lady Nancy Astor, famed for her fighting record in Parliament and her sparkling wit, is shown as she prepared for a game of golf in Tryon, N. C. Lady Astor, daughter of the Virginia Langhorns, declared she found conditions far better than on her trip to her native land.

Record Coast Travel Keeps Fares Low On Western Railroads

CHICAGO—Following a 30 per cent increase in rail travel this year to and from the Pacific coast, the Trans-Continental Passenger Association took action today, insuring for the 1937 summer season the same low fares that maintained in 1936.

in 1933 when with a sharp cut in the basic rate, sleeping car surcharge was eliminated. The wisdom of this decision has been successfully proved in 1934, 1935, and 1936, with ascending passenger patronage. The western lines will carry this year considerably more than twice as many people as they did in 1933.

Official announcement of this decision was made by Hugh W. Siddall, chairman of the Trans-Continental and Western Passenger Association.

"At the start of this month unprecedented extension of excursion fares for winter travel to and from the Pacific coast were put in effect. For instance, for the first time in history first class tickets on a basis of 2 cents a mile with a 30 day limit as to return in either direction, could be purchased up to May 14th of next year. Attractive inducements in the matter of extensions of time on other types of rail travel were also offered.

The dates for use of these tickets in either direction apply from May 18th to October 15th, with return privilege to October 31st, 1937.

"The decision of the passenger officials for the 1937 summer season is in accord with the now established policy to provide the public with the most luxurious rail

Dog Population of Fort Worth Grows Despite Death Toll

FORT WORTH—Thousands of dogs, probably 25,000, die annually in Fort Worth, but a high birth rate keeps the population on a constant increase. City dog catchers kill more than 6,000 wandering canines each year. They pick up another 4,000 that die in various parts of the city. Hundreds of deaths are never reported.

Despite this heavy toll, Dr. H. V. Cardone, city veterinarian, said Mother Nature gives Fort Worth all the dogs it needs—and more. Litters of puppies range in number from three to ten. Large dogs usually give birth to six to ten puppies, small ones three to six.

Handy Thing About Black-Draught So Many Folks Like

When it comes to the proper size dose of a laxative medicine, different persons and different ages naturally need different doses. Proper size doses thoroughly do the work expected without harsh purging. Black-Draught laxative is prepared in a dry powder so the size of the dose easily can be adjusted to the needs of the person taking it. Not too much, but just enough thoroughly to relieve constipation. Black-Draught is credited with leaving the digestive tract more able to continue elimination, regularly, every day. Be sure to try it!

Sold in 25-cent packages.

 - Cornbread sticks—Mrs. Walter Henderson.

MARY HAD A LITTLE GOAT

This time it's a goat instead of a lamb, and it didn't follow her to school. But it came all the way from Turkey to show American children and others interested just what mohair looks like in its original state. Mary and her brother seem on quite friendly terms with the fellow, but he's stuffed, you see, and quite harmless. Used now as an educational exhibit, the goat was first presented to Montgomery Ward in recognition of the fact that the company sold more mohair in one year than any other of the world's retailers. Furniture upholstered with this silklike but tough material may be seen at the Ward store, where it is being featured during Ward Week.

- Yeast bread—Mrs. W. F. Val.
- Biscuit—Mrs. Everitt Harris, Mrs. Lee Wetherby, Mrs. O. A. Wolf.
- Sponge cake—Mrs. Tom Bowers, Mrs. Ross Cox.
- Layer cake—Mrs. Homer Smith, Mrs. Oscar Montgomery.
- Found cake—Mrs. Everitt Harris.

HUMBLE 997 MOTOR OIL

That quality of a motor oil which makes it a fine oil for one man is a minor consideration for another. Humble 997 Motor Oil is a universal favorite; it gives every user everything he asks for in a motor oil, with a little added. It is a superlatively fine oil that stands alone. It costs a few cents more than ordinary oils, but it gives you value plus for that slight extra cost. Try Humble 997 Motor Oil—you'll use it regularly.

Humble 997 Motor Oil is made from the heart (a very small percentage) of specially selected crude stocks by a special patented process. It is, moreover, a 100 per cent paraffin oil. Like all Humble products, it's continuously improved. Available in bulk or refinery sealed cans as you prefer.

HUMBLE OIL & REFINING CO. A TEXAS INSTITUTION MANNED BY TEXANS

- Potato cake—Vera McBeth.
- Coco malt cake—Mrs. Burl Heath.
- Devil's food cake—Miss Bobbie West.
- Pineapple pie—Mrs. Sue Samerford.
- Caramel pie—Mrs. Tom Bowers.
- Decorated cake—Mrs. Walter Vaughn.

Couple Is Easily Most Active at 70

By United Press
FORT WORTH — Mr. and Mrs. W. G. Dehn of Fort Worth could qualify in any contest for most active humans at 70 years of age. Their favorite recreation is "dancing at night spots until the

wee hours," both admit. Dehn, 73, a retired railroad worker, takes long walks for exercise, reads without glasses, eats what he likes and gave up chewing tobacco because it was his worst "vice."

The couple have been married 53 years and made fishing trips from Canada to the Gulf of Mexico. He began working for the Texas and Pacific railway in Houston in 1877. Since then he has worked in Fort Worth, Marshall, Texarkana, Sherman and Denison. Dehn mixes a neat mint julep, and his wife, 70, does all her own housework. During the world war she fed pies and cakes to hundreds of homesick soldiers bivouaced at Camp Bowie here.

A famed dancer says she wears clothes 20 years younger than her age. The family pride goes to the other extreme.

2,100 Acre Ranch Bought for \$30,000

CISCO, Oct. 15.—Purchase of the Qualls estate's 2,100-acre ranch and about 175 head of cattle by G. P. Mitcham, was consummated a short while ago, it was revealed today.

The consideration involved was upwards of \$30,000, cash. The purchase brings the Mitcham ranch holdings here to 5,000 acres. The original ranch was purchased in 1911, to which 900 acres was added a few years ago. On that tract there are about 200 head of cattle. G. P. Mitcham, Jr., who lives on the first ranch, will have charge of both. The new property lies in the Pueblo community, six miles west of the old.

Typically Texan is the story of the growth of the Texas ports

In 1836, the whole long Texas coastline was practically unknown to shipping. Now, wherever seamen gather, the ports of Texas are richly praised. The story of the building of the Texas ports is a story of far-sighted men, of projects broadly conceived and faithfully executed; a story of determination and the will to win; in short, a story typically Texan!

AS THE PORTS of Texas receive the praise of mariners, so Humble products are recommended by Texas motorists. Texans know that the Humble sign stands for this fundamental Humble policy: Humble motor fuels and Humble motor oils must be the best you can buy.

So Humble motor fuels and Humble motor oils are continuously improved; slight day-to-day improvements keep them always up to date—always a little ahead of the rest.

Try Humble Motor Fuels and Humble Motor Oils; test them the sure way—in your car. Stop today at a Humble Service Station or at a Humble dealer's; fill your tank with a Humble motor fuel, drain and refill with a Humble motor oil.

1836 TEXAS 1936

At the Centennial Exposition, Dallas-Humble's Hall of Texas History

You are cordially invited to visit the Humble Exhibit at the Central Centennial Exposition in Dallas. Striking dioramas recreate dramatic moments and vivid episodes from Texas History. See the battle of the Alamo, the capture of Santa Anna, the prisoners of the Mier Expedition drawing the black beans, the battle of Sabine Pass, Colonel Goodnight treating with Comanche Quanah Parker. Then see and listen to the story told by the rocks of Texas, and how Texas oil is drawn from many thousands of feet under the ground. On your way to and from Dallas—stop for service where you see the Humble sign.
