

EXTENT OF NEW DEAL POLICY IS SPECULATED

By United Press
 President Roosevelt prepared for a fishing holiday today as the nation speculated on the extent to which he might accept Tuesday's political explosion as a mandate to adopt more liberal or radical policies.

Roosevelt is in command of the mightiest political army ever mobilized in this country. They invaded the polls, disregarding the advice of most of the nation's newspapers, ignoring the warning of Governor Landon, and refused to believe Mr. Roosevelt had failed to do as well as he could.

The President won 523 electoral votes, Landon 8. The President's plurality promises to exceed 100,000,000.

Tabulations by the United Press so far show Roosevelt 25,208,198, Landon 15,496,500, Lemke 568,660.

Democrats probably have increased their Senate strength from 70 to 74 votes, with a guarantee of control for several elections to come. In the House of Representatives the Administration will have a majority probably larger than the 200 rolled up in the election of 1934.

Monetary, relief, foreign affairs and other problems await immediate Presidential and Congressional attention.

Overshadowing these and other issues likely to arise in 1937 is the question raised by the New Deal that of proper division of authority and how the President intends to accelerate the pace of a "horse and buggy" supreme court.

There is speculation about cabinet changes.

But the issue most clearly drawn between the President and his opponents in his first term dealt with New Deal efforts to stretch the Constitution.

DALLAS, Nov. 5.—Returns to the Texas Election Bureau at 1 p. m. from 219 of 254 counties, 47 complete, show the following totals on Tuesday's general election:

President: Landon 58,067, Lemke 1,399, Roosevelt 432,426, and Thomas 492.

Baptist Association Workers' Meeting Is Held at Olden

The workers' conference of the Cisco Baptist association convened in Olden Tuesday in an all-day session with Mrs. Geo. W. Thomas of Ranger, retiring president, opening the formal procedure, with devotional by Mrs. H. D. Blair of Cisco.

A noon dinner was served by the Women's Missionary union of the Olden church, with 125 guests attending.

Thirteen towns in the Cisco association were represented on the program.

Mrs. W. J. Herrington of Eastland gave a talk on "Necessity for Accurate Records in the Kingdom Work," and Mrs. W. L. Jackson of Ranger, an article on "Stewardship of our Money."

Mrs. Thomas introduced the incoming officers, Mrs. J. R. Burnett of Cisco, president; Mrs. W. J. Herrington of Eastland, recording secretary; Mrs. W. L. Jackson of Ranger, corresponding secretary and treasurer.

The meeting was assumed by the new president, Mrs. Burnett of Cisco, who gave an address, "Except the Lord Build the House."

A gift of an erichid and green woolen blanket was presented the outgoing president by Mrs. W. Y. Pond of Breckenridge, on behalf of the association.

Unconscious Man Killed in Wreck

By United Press
HOUSTON, Tex.—F. H. Brown, 80, unconscious invalid, was being brought to a Houston hospital from his farm home near Willis when the automobile in which he lay collided with a freight truck. He was killed. His wife, 60, was hurt seriously and his son-in-law was bruised.

CROWDS GET GRID LESSONS

SPRINGFIELD, Ohio.—So that Betty Co-ed and Joe College will better understand plays they see on the Wittenberg College gridiron this fall, athletic director John R. Van Why is illustrating them just before game time. Two teams of freshmen trot onto the field 20 minutes before the kickoff and demonstrate spinners, laterals, reverses, etc.

Jazzing Up Her Career

"I can sing hot, too," was the deft of Mary Lewis, opera star, as she made her debut in a New York night club in her own interpretations of popular songs. Her audience agreed that she could indeed rival the torchiest of the torch singers.

Hickok Producing and Development company last week filed application with the Railroad Commission office at Eastland to drill north of Cisco a well on a farm adjacent to another on the Lone Star Gas company is now to drill a deep operation.

Hickok to Drill Deep Cisco Well in Active Area

The Hickok well will be No. 2 Charles Kleiner, section 83, block 4, H&TC Railway company survey, one mile north of Cisco. The company's application calls for drilling to 4,000 feet unless oil or gas in commercial production is found at a lesser depth.

The Kleiner No. 1 is reported as a 10-million-foot gas producer. The No. 3 Kleiner is a north offset to the gas producer.

Lone Star's new well is the No. 3 J. G. Boggs, 660 feet north of the No. 1. It is 910 feet from the east lines of the farm, section 83, block 4, H&TC survey. It will be drilled to 3,710 feet. The No. 3 Boggs 60 feet north of the No. 1 Boggs, which had initial production of 110 barrels from the Lake sand.

Magnolia Petroleum company last week filed a plugging application for its No. 1 N. B. Harris, one-half mile north of Olden. It was completed Oct. 20, 1936 in the slate at 3,454 feet. Gas and oil showings were found between 3,212 and 3,452 feet.

Ranger Jr. College Wins from Colony

Coach R. B. LaMance sent his Ranger Junior College basketball team against the Colony high school and to a 25 to 10 victory, the first win for the junior college this year.

With four of the regular players out of the game it looked as if the college team might drop its first basketball game of the season to the fast Colony quintet, but the team showed more skill than was expected and took the game by a wide margin.

Those from the junior college who took part in the game were Alvis Wood, J. Warford Moseley, J. T. Weaver, G. James Hart, G. James Hague, G. Scott Neill, G. while those unable to play, either because of sickness or because they had to work, were Otis Anderson, R. V. Robinson, Homer Weison and Clois Phillips.

Man Injured by Auto in Eastland

Brodie Wolly of the Mangum community was injured Tuesday at Eastland when he was hit by an automobile while walking in a street.

Wolly, the father of Mrs. Aubree McEltee of Eastland, received treatment for cuts and bruises at Payne hospital in Eastland.

SEA STRIKE IS STILL HALTING MUCH INDUSTRY

By United Press
HOUSTON, Texas, Nov. 5.—W. B. Follotte, Seaman strike leader, boarded a plane here today for New York City where he will represent his group in strike negotiations with shippers.

A police guard kept watch as the unofficial "sit down" strike of the rank and file of the international seamen's union began its sixth day.

The maritime situation elsewhere showed:
 Washington.—President Roosevelt returns to Washington tomorrow to be on hand during the critical industrial situation, indicating increased federal pressure to settle the strike.
 New York.—Sympathy strike turns into a life and death struggle between the seamen's union and insurgent membership who criticize a secret agreement concluded with ship owners.
 San Francisco.—The maritime strike dealt blows to western industry as peace moves fail. 80,000 are jobless and factories closed because of shipping stagnation.
 New Orleans.—Police intervene in the longshoremen's strike, rounding up strikers while the seamen's union put strike-breaking crews on ships.

TRAINMEN IS SHOT AT BAIRD BY CAFE COOK

By United Press
BAIRD, Nov. 4.—Fred Brackeen, 32, cafe cook, was held in jail today awaiting action by the Callahan county grand jury in connection with the fatal shooting of M. R. Jones, 54, Fort Worth railroad engineer.

Sheriff R. L. Edwards said Brackeen asserted he fired in self-defense yesterday when the two men met at the street entrance to the office of a Baird attorney. The sheriff said he found a pistol on the wounded engineer, but the weapon had not been fired. Jones died last night in a hospital.

Brackeen was charged with assault to murder before Jones died. Jones, Sheriff Edwards said, owned a house here in which Brackeen and his wife, estranged, lived for several months last spring.

Jones is survived by a wife and two children, in Fort Worth.

Negro Loves Dog So He Surrenders

By United Press
HOUSTON, Tex.—Arthur Lewis, 46, Negro, loves his dog enough to go to jail for him.

Officers, seeking to arrest the negro for creating a disturbance, were attacked by the dog when they entered Lewis' yard. The Negro was hiding in his home.

The dog bit Officer M. H. McCoy, who fired two shots at the irate animal, but missed. Lewis ran from the house.

"Don't do that," the Negro shouted. "I'll give up and go to jail peacefully." He was charged with being drunk.

Valley Will Seek New Water Treaty

WESLACO, Tex.—A total of \$245 has been raised to finance a trip to Washington by a Lower Rio Grande Valley committee seeking to further the interests of a proposed water division treaty between the United States and Mexico. The finance committee seeking to raise the necessary \$550 is composed of J. R. Adams, chairman, La Feria; Peter Neilson, San Juan, and Harry Ratliff, manager of the Weslaco Chamber of Commerce.

The committee is attempting to complete the fund campaign immediately and is enlisting the cooperation of Valley cities, water districts and other municipal divisions.

The Washington committee includes F. J. Robertson of the San Benito water district, C. L. Huff, manager of the Mercedes water district, and George Lochrie of Raymondville.

Rose Culture Grows Rapidly in Texas

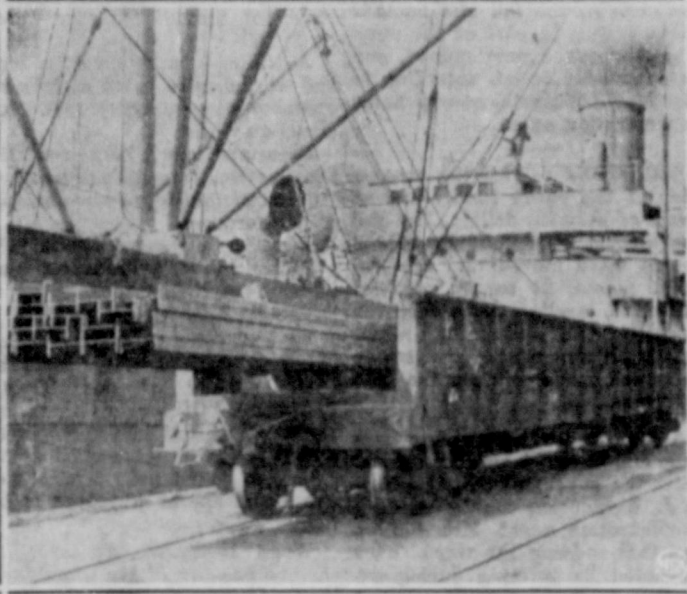

FORT WORTH.—Good soil and a long growing season give Texas the beginning of dominance of America's rose industry, according to Dr. J. Horace McFarland, Harrisburg, Pa., fancier.

McFarland, editor of the "American Rose Annual," was a principal speaker at the recent national convention of the American Rose Society.

"Between five and six million rose plants are grown in Texas now," McFarland said. "The state's long growing season could make it dominant in the rose industry."

The horticulturist advocated rose plants for every home in the state "to add cheer—and make your cities beautiful."

Striking Scenes of Idleness in Maritime Walkout

While the man power to get cargo aboard and put ships to sea idly loafed around the docks, Pacific coast shipping was at a standstill following the strike of 37,000 longshoremen and sailors. Pictured (below) are strikers sitting on the dock edge at San Pedro harbor while union officials try to iron out the dispute with ship owners; and (top) a half unloaded freight car beside one of the hundreds of tied-up ships.

Girl Tells About Enjoyment From New Clothes Closet

"I enjoy taking care of my clothes since I have a closet in my room," says Johnnie Nix, wardrobe co-operator of the Girls 4-H club at Morton Valley. "I had to share my mother's closet which was in her room. Our rooms were adjoining, and the closet was on the side between the two rooms. We moved one end of the closet nearer the center, and a door was put in my closet. This was possible because the original closet was very large. A door that we could use was found at home. Shelves were built at the ends and top for storage space. A rod for hanging clothes was placed high enough to keep the dresses from touching the shoe rack. All the wardrobe was painted. The total cost of my closet was about \$1.00, but I feel like it is worth much more than that to me."

"From my club work I have learned how to make a silk dress," says Verda Jean Spurlen, wardrobe demonstrator of the girls 4-H club at Olden. "I had such good luck with my club dress that I thought I could make a silk dress, using the same pattern. I bought three yards of navy blue crepe and one-half yard of blue dotted crepe for trimming.

"As the material ravelled I overcast the plain seams. The sleeves were made three-quarter length. By making my own clothes it will give my mother more time for other things.

"The total cost of my dress was \$1.65."

Boy is Held for Hit-and-Run Death

By United Press
HOUSTON, Texas, Nov. 5.—Officers arrested a 13-year-old boy here today in connection with the hit-and-run death of J. I. Chisholm, 76, Tuesday night. Detective who made the arrest said a broken radiator cap found at the accident scene led to the arrest.

L. & A. TRAINS ON SCHEDULE IN LOUISIANA

By United Press
NEW ORLEANS, Nov. 5.—Passenger trains of the L. & A. railroad completed their north and south runs across a heavily guarded right-of-way without incident today.

Strike sympathizers who have beset the line with attacks for six weeks, made no appearance. Tuesday night one man was killed and two wounded when bullets poured into an engine cab.

Today the trains passed Winnfield, where bullets fired yesterday killed a guard.

The railroad offered a \$5,000 reward for the conviction of the snipers who killed the guard. This supplemented a \$5,000 reward posted for snipers who fired on "the Hustler" two weeks ago, and \$2,500 for the vandals who pulled spikes from the right-of-way near Monroe last week.

Ranger 4-H Club Chosen As Best In Eastland County

The report of the Ranger 4-H club chosen by assistant County Agent Hugh F. Barnhart as most outstanding in Eastland County in the National 4-H Social Progress Contest is now being judged in the State Club Leader's office in competition with other winning counties of the state, and local people are eagerly awaiting the results.

The report, which was worked up by the club with the aid of its leader, Morris Jefferies, and others, lists its many activities in promoting better social, recreational and self-improvement opportunities.

The club which numbers ten members was one of ten competing in the county. It will receive a handsome history and year book and its leader a beautiful gold medal.

The county club winning state honors is automatically entered in a contest in the one of four sectional divisions of the United States to which it belongs, and the winner in this contest receives an all-expense trip for its members up to ten to the 15th National 4-H Club Congress to be held in Chicago starting the week of November 28.

The highest scoring of the four sectional winning clubs will be awarded a combination radio-phonograph and a library of 461 selected records valued at \$1,550, for use of its county extension organization.

Marlin Sneed, named most typical member in the winning club in this county, is a contestant for individual state honors. From all of the state champions in the U. S., one boy and one girl will be chosen, each to receive a \$600 college scholarship and a trip to New York with chaperons in June, 1937, where the awards will be made personally.

Most Texas Land Covered in Survey

By United Press
COLLEGE STATION.—Seventy per cent of all crop land in Texas is accounted for in the 243,000 work sheets covering about 355,000 of the 501,000 Texas farms and ranches. H. H. Williamson, director of the Texas Extension Service, reported in a summary of the soil conservation work of the Extension Service.

These figures represent approximately 25,000,000 acres of crop land in the state.

These work sheets include a statement of previous land use on the farms and ranches they cover as well as plans for shifting land out of soil erosive crops into soil conserving crops and practices. Tabulation of the work sheet figures indicates that at least 3,800,000 acres on Texas farms and ranches are now being devoted to soil rebuilding.

This is the first time in the history of Texas, Director Williamson said, that farmers and ranchmen have made such a full analysis of the land use practices prevailing in the state. As a result, many farmers and ranchmen are shifting to plans which definitely include soil building. The conservation program offers a chance to make the needed changes with aid from the government in recognition that soil loss is a natural problem.

Estimates made by workers in the agricultural program indicate that terracing, contouring, strip cropping and other such practices to prevent soil losses will be applied to about 3,000,000 acres of Texas crop land in 1936.

Figures taken from annual reports of the service from 1916, including 1935, show a total of 9,065,857 acres of Texas land terraced or contourered, Williamson said.

In addition, 1,703,740 acres of land have lately been contour listed in the wind erosion area of Northwest Texas. In this work the Extension Service had the cooperation of the Soil Conservation Service, the Resettlement Administration and other agencies, Williamson said.

November Cold Records Broken in State Tuesday

By United Press
 Winter set new records for November cold in Texas Wednesday as a chill blast advanced as far south as the Gulf of Mexico.

Galveston shivered with a temperature of 38, the lowest ever recorded there in November. San Antonio, also proud of its record as a winter resort, had a November minimum of 32.

The cold wave caused a sub-freezing reading of 24 at Amarillo, 26 at Abilene, Dallas 28.9, Palestine 28, Austin 32, Houston 32, Fort Arthur 34, Corpus Christi 38, Brownsville 42, Del Rio 36 and El Paso 30.

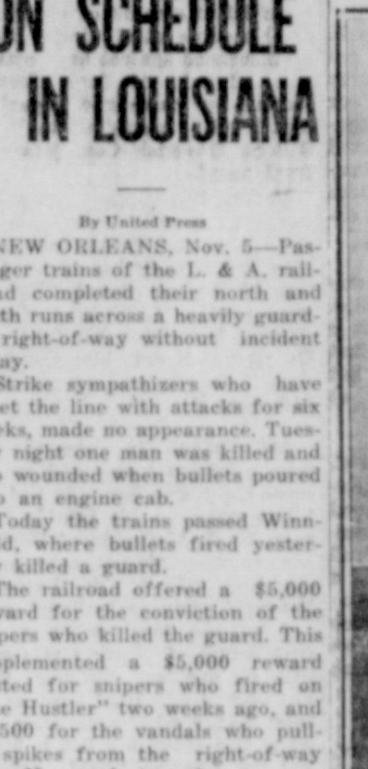

Demos Landslide County Balloting

Reports from nine Eastland county boxes Wednesday gave the Democratic party 3,231 votes to 447 for the Republicans.

The returns from the general election were from both Eastland and Ranger boxes, Cisco box No. 6, Alameda, Gorman, Okra and Kokomo.

It was impossible to tabulate votes since they were incomplete.

Prize Alsatian Is No Dumbell

Even a high wall couldn't prevent Simi de Gourdal, one of the blue-blooded dogs at the London Alsatian show, from bringing a hidden dumbbell to his master. With the dumbbell clutched firmly between his jaws, Simi clears the wall with room to spare.

REBELS ARE MET WITH FORCE AT MADRID GATES

By United Press
 Citizens of Madrid spurred to renewed tenacity by rebel armies at the city's gates, poured out to the outskirts of the capital in a desperate attack today.

The tattered loyalists blocked a terrific offensive on rebel positions.

The rebels, surprised by the intensity of the loyalist attack, returned the onslaught with machine guns and field pieces. They sent a fleet of bombers over the capital. One rebel bomber fell in flame after an air battle over the city.

To complete the picture of desolation, Madrid faced a hunger siege. There was urgent need of food for its people.

What the city faced no one could tell. The only alternative to possible mass slaughter by Moors and foreign legionnaires was to fly or face starvation.

The rebel radio at Burgos today broadcast that "General Francisco Franco may order the insurgent army to enter Madrid tomorrow."

The rebels also announced an aerial battle over Madrid in which seven government war planes were shot down.

LONDON.—"Great Britain has no desire to threaten nor any intention to attack the Italian interests in the Mediterranean," Captain Anthony Eden, foreign secretary, told the house of commons today.

Eden responded to a speech by Premier Mussolini last Sunday saying Rome was prepared to sponsor an "armed peace" if necessary. He accepted Mussolini's olive branch of peace, but warned Italy that for Britain the Mediterranean is a vital main route to her possessions.

Retired Farmer Dies in Eastland

Services for A. J. Dolberry, 79, retired farmer, who died Wednesday at his Eastland home after a long illness, will be held Thursday afternoon at 3 o'clock from the Flatwood cemetery.

Survivors include the widow and eleven children. The children are W. A. Dolberry of Eastland, Mrs. O. P. McDonald of Eastland, Mrs. C. A. Webb of Eastland, Mrs. M. A. Justice of Eastland, Jim Dolberry of Trent, Mrs. Ed Landry of Eastland, Robert Dolberry of Big Spring, Mrs. F. O. Reynolds of Eastland, Mrs. G. W. Daniels of Colorado, Mrs. W. H. Couch of Eastland and Mrs. J. E. Black of Eastland.

Hammer Undertaking Company of Eastland will be in charge of arrangements.

Testimony Taken On Equal Vacuum Order For Area

Testimony to determine an order on vacuum in the Pleasant Grove area north of Eastland was taken by the Railroad Commission in a hearing Wednesday at the Connellee hotel in Eastland.

The hearing was conducted by Layton Stansberry, chief supervisor of the Oil and Gas Division of the Railroad Commission. The hearing was asked by G. M. Harris and the Arab Gasoline Corporation of Eastland to determine a uniform order on the Pleasant Grove field.

Other companies represented were Magnolia, Texas, Texas and Pacific Coast and Oil and Lone Star Gas.

The decision of the commission will be announced later from Austin.

WITNESSES FOR STATE HEARD IN HENRY CASE

G. L. McBee of Mangum, 81, father of H. L. McBee, for whose death Mrs. Della Henry is being tried on a murder charge in Eighty-eighth District Court at Eastland, testified Thursday his former daughter-in-law had expressed an opinion "he was tied out to a tree suffering for water" shortly after his disappearance May 1, 1935.

The witness testified he was summoned to his son's home by Mrs. McBee after her husband's disappearance. He said Mrs. McBee had remarked to him she "knew he was dead."

The witness denied knowledge of any statement by Mrs. McBee that her husband might be in jail. "I don't remember it," the elder McBee told Defense Attorney J. Frank Sparks.

Earl McBee, now of Wink, who accompanied his father to his brother's home after the disappearance, said he observed strange movements of a door opening and closing while they talked with Mrs. McBee.

Earl testified Mrs. McBee told him an automobile came up to the home May 2 and one of its occupants said they saw her husband near Cisco. Mrs. McBee explained to him, the witness testified, that she knew he had enemies who lived near Cisco. The witness further testified his sister-in-law said that her husband left on the morning of May 1 and had been sick. She denied to him that she and her husband had any troubles.

The sheriff was notified after the visit of Earl and his father, it was testified.

Ben Graves of Rising Star testified he noticed a "scarecrow" in November and December of 1934 in the same vicinity in which McBee's skeleton was found.

W. H. Fore of near-Pioneer and Cross Plains, recalled overhearing Mrs. and Mrs. McBee quarreling when they lived near him in 1932. He said Mrs. Henry, the former Mrs. McBee, told him Wednesday of this week, "If it wasn't for my past life I'd make it alright."

A. D. Carroll, who in 1934 was a city marshal at Rising Star, stated a badge offered as evidence by the state corresponded with the one removed from clothing on the skeleton. He identified a coat which Mrs. McBee brought him while the skeleton was at the Rising Star undertaking parlor. He said the garment matched trousers found on the skeleton.

On examination by the defense he testified Justice of Peace W. M. Morris, who has died since, told him he saw McBee walk down the railroad tracks May 1, 1935.

Raymond Brookshire of Coleman, who in 1933 was working near Rising Star, said he saw McBee at his home May 1, of that year.

O. C. Broughton told of the discovery of a hole near the home of W. E. "Sandy" Tyler, one of the state's main witnesses in the trial of Raymond Henry, who was given a 50-year sentence in connection with McBee's death.

Broughton also said he found another hole on his land which was large enough to bury a jug of whiskey.

Mrs. Belle King of Rising Star testified she had seen Raymond Henry and Mrs. McBee dance together at parties near the community. She amplified her testimony by saying it was not unusual for all persons at the parties to dance with others.

Roy Lane recalled hearing Mrs. McBee tell her husband she "had another man waiting" after she "ejected" him from a dance near Rising Star.

Testimony Taken On Equal Vacuum Order For Area

Testimony to determine an order on vacuum in the Pleasant Grove area north of Eastland was taken by the Railroad Commission in a hearing Wednesday at the Connellee hotel in Eastland.

The hearing was conducted by Layton Stansberry, chief supervisor of the Oil and Gas Division of the Railroad Commission. The hearing was asked by G. M. Harris and the Arab Gasoline Corporation of Eastland to determine a uniform order on the Pleasant Grove field.

Other companies represented were Magnolia, Texas, Texas and Pacific Coast and Oil and Lone Star Gas.

The decision of the commission will be announced later from Austin.

ON TEXAS FARMS

C. C. Gilbert of Hartley County has dug a 300-ton trench silo in order, as he says, to make the most of what feed he has—preventing leaching and keeping it in good shape so the stock will eat all of it. The silo is 150 feet long, 17 feet wide and 9 feet deep.

The Weatherford brothers of Hutchinson County planted 19 acres of sudan grass with a lister. Rain came shortly after it was planted and the furrows filled up.

Being on the contour of the land they held the water on the land until it soaked in and they have had good pasture for 47 head of cattle all summer, while the grass pastures were dried up.

Recent tests on contour-listed land of the E. M. Dowd farm in Dallam County show that his soil holds moisture to a depth of over four feet. This land was contour listed under the 20-cent emergency program, and wide-row planted to qualify under the new agricultural conservation program. Both programs are under the Texas extension service administration.

Donley County has at the present time over 30 trench silos. More silos are being dug and it is hard to estimate the number that the county will total this year, but it is thought that it will reach at least 40.

"One rain did the job," said C. R. Stanley, a Moore County farmer, in speaking of his extra good milo crop. Continuing, Mr. Stanley explained that he had his land in excellent shape and seeded it with a lister planter on the contour. He received a three-inch rain and since the lister furrows were made on the contour there was no run-off.

LOCKHART — Good pasture, trench silage, plenty of roughage grown on the farm and the use of good males, are the factors to which Albert Ohlendorf of Caldwell County attributes his success in the dairy industry, according to L. E. Ellwood, county agricultural agent.

In one month, Ohlendorf sold \$200 worth of butter fat from 23

cows and fed the skimmed milk to his hogs and chickens. His cows were fed feed that was produced on the farm with the exception of his protein feed.

Ohlendorf's farm of 500 acres of cultivated land is all terraced and manure from his livestock has not only maintained the fertility of his soil but has helped to build it up, he says.

EAGLE PASS—In order to have a sufficient amount of cheap feed for his cattle at all times, and as an insurance against dry pastures, H. A. Franke of Eagle Pass is storing up maize and hogari in trench silos, according to W. M. Sellers, Maverick County agricultural agent.

Franke had about 4,000 tons of ensilage stored in trench silos in 1935. This year he dug three more silos and already has about 4,000 tons of ensilage stored. He will store another 1,000 tons when he finishes harvesting his feed crop. He figures it cost him about 50 cents a ton to produce the silage and store it.

MERIDIAN—In order to prevent moisture losses and to preserve the native bermuda and buffalo grasses on his hillside pasture, M. C. McCorkle of Meridian has contoured nine acres under the direction of E. R. Lawrence, Bosque County agricultural agent.

After the lines were run, the first round of plowing was made with an ordinary turning plow. The second and final plowing was done with a wide wing plow. By using this plow, the lift is higher and the average height approximates 12 inches. The entire acreage has a thin spotted turf and its land which has been taken out of cultivation.

HENDERSON—By having a fall and spring garden from which to can vegetables, an orchard for fresh fruit and to can, a poultry flock to furnish eggs and chickens

to eat and to sell, six milch cows and three hogs and two beeves for meat, Mrs. J. O. Cagle of the Hickory home demonstration club in Rusk County has provided a varied and adequate diet for her family of three.

Mrs. Cagle canned 827 containers of foods and has a number of vegetables in her fall garden. The orchard furnished seven varieties of fruits and wild grapes were available. Two beeves are killed each year, one in the fall and another in the spring. A part of the meat is eaten fresh, a part canned, and the remainder cured, according to Miss Marie Wilmett, county home demonstration agent.

RICHMOND—With the cooperation of the entire family and at a cost of only six dollars, Mr. and Mrs. George Philipp of Fort Bend County have moved and set 143 native plants, 24 trees, repaired all fences, levelled and sodded the yard, laid two walks, built a pit-type toilet and added 12 roses to their rose garden during the past two years.

A yard improvement plan was made and the work was carried out under the supervision of Miss Loris J. Welhausen, county home demonstration agent. Mrs. Philipp says that sodding the yard has prevented its washing during every rain as it did before.

COLD SPRINGS—From a 9x7 foot "side room," Mrs. Johnnie Shirley of San Jacinto County has built adequate storage space for her canned products. She ceiled overhead and sides and added seven shelves on two sides, giving her 112 feet of storage space. The shelves were made by using three pieces of 1x4 inch lumber spaced one inch apart to give ventilation around the cans and prevent their rusting. Having the inside walls ceiled also helps to reduce the temperature in the summer.

WOMAN IS SEXTON
By United Press
DOVER, O. — Dover has a woman cemetery sexton. Mrs. James Maxwell was appointed by trustees of Maple Grove Cemetery as acting successor to her husband, who died recently.

FISH OF AGES FOUND
By United Press
BERLIN. — A 15,000,000-year-old skeleton of a seabird has been extracted from the amber pit at Palmicken, East Prussia, Dr. Franz Voigt, of Halle University, announces.

Wyoming Finding Fewer Are Idle

CHEYENNE, Wyo. — Jobs are plentiful in Wyoming for applicants who are qualified, and finding men to fill all available skillful positions has become a difficult task, according to State Employment Service Director Tracy N. Shaw.

Available jobs for qualified men and women were listed as follows: Motor operators for road construction work. Farm and ranch help for the bean, corn and potato harvest. Domestic employees who can furnish references. Experienced, capable and reliable machinists, mechanics and workers for similar jobs.

Jobs for Able-Bodied
"A call for 100 able-bodied qualified men hardly could be filled by any of our offices," Shaw said. "Of course, there are some men who still are unemployed but they have not qualified for jobs, due to mental, physical or age handicaps or improper training."

Wage increases are expected shortly, because of the scarcity of help, Shaw estimated. Domestic employees can obtain the highest wages in recent years for their services.

In two fields, however, Shaw said the picture was not so promising.

Drouth conditions have made it necessary for many farmers to seek work in their home regions to "keep going," and the employment outlook is being affected adversely.

A building slump in Cheyenne and other cities has resulted in the unemployment of many carpenters, brick-layers and building trades workers.

Road Projects Opened
Work is being provided on road projects for many farmers by the state and federal governments.

Buildings has picked up some but not enough to entirely relieve the situation, Shaw said.

Cheyenne's two C C C camps have been ordered to remain at their present locations throughout the winter and both will add 77 new workers to their rolls, according to E. S. Mosher, project superintendent.

Improvement programs are to be continued, Mosher said.

Wyoming's participation in the national social security program's unemployment insurance has been postponed until some time next year by Gov. Leslie A. Miller's decision not to call a special session of the legislature.

Valley Schools Have Heavy Attendance

McALLEN, Tex. — Public school systems of the Lower Rio Grande Valley have registered 25,546 children, according to a compilation of superintendents' report for the first four weeks of the 1936-37 term.

Brownsville ranked first with 4,326 students, Edinburg was

second with 2,821, McAllen was third with 2,342 and San Benito was fourth with 2,160. The new figures showed a considerable increase over the 1935 total, which was not available because not all Valley schools kept four-weeks' report last school year.

It was estimated that total enrollment in six other schools which were not included in the compilation would add another 2,400 students to the total enrollment.

"Paris winter styles feature beehive caps." Just the thing for the little woman, who usually has a bee in her bonnet.

Learn the amazing benefits of **GULFPRIDE**
THE WORLD'S FINEST MOTOR OIL

WHY is it that no other motor oil in all the world can deliver the performance of GULFPRIDE OIL?
Because only GULFPRIDE starts from the finest Pennsylvania crudes . . . is refined to the same point as other fine motor oils . . . and is then further refined by Gulf's exclusive Alchlor process!

This process is the most efficient ever developed—the fruit of 15 years' research by Gulf scientists—men who stand behind every Gulf product.

Read the facts on this page. Then drive into any Gulf dealer's—and replace your old summer-worn oil with GULFPRIDE now.

(Above)—MANY WORLD'S RECORDS on land, sea, and in the air have been set with GULFPRIDE OIL. Racing drivers, fliers, speedboat pilots swear by it. Proved in the toughest competition, GULFPRIDE will outlast, outlast, and outperform any oil you ever used in your car!

(Left)—4 TIMES AROUND EARTH. A man drove his automobile on GULFPRIDE OIL 100,000 miles—without ever needing a repair, without ever having the head of the motor, without ever adding one drop of oil between drains. Expect great things of GULFPRIDE—you'll get them!

THE ALCHLOR PROCESS removes all sludge and residue. Proof: we took 6 of the finest Pennsylvania oils we could buy and put them through the Alchlor process. It removed 20% waste from already highly refined oils! Be wise—get GULFPRIDE—the only oil that has this head start.

GULFPRIDE
THE ONLY ALCHLOR-PROCESSED 100% PURE PENNSYLVANIA OIL

Famous Fan Dancer Will Be Here With Tent Attraction

"Daphne," Queen of Fan Dancers, will visit Ranger on the evening of Thursday, November 12, accompanied by her entourage of more than eighty people,

traveling on a fleet of thirty-five huge trucks, cars and busses, will appear for one performance only at the big tent on the Terry show lot on North Austin Street, being presented there by the popular producer, Billy Wehle, manager and producer of Billroy's Comedians. This is his 12th anniversary tour and is reported to be by far

the most impressive offering he has ever placed on tour. While press agent adjectives may be ignored, the fact remains that reports and reviews from other cities say the show is truly "magnificent" and is undoubtedly the most massive attraction of its kind ever to appear under canvas. A huge tent, recently purchased

houses the show and provides comfortable seats for more than 4,000 patrons. Charming ushers see to the comfort of the public and popular prices, always a feature of Billroy's, will, as usual, prevail. During past seasons Manager Wehle has featured the fact that many old familiar faces would be seen in the show, but this year it is an entirely new offering, produced in Miami, Florida, instead of in the North. By so doing, he secured the pick of the talent which had been appearing in the Florida clubs during the winter season, among whom are more than a score of the most beautiful dancing girls ever to appear on a local stage.

One of the big features on the show is the Palais Royale orchestra, offering a dozen of the peppiest, hottest playing musicians ever seen anywhere. A number of them were featured during the past winter at Bouche's Villa Venice, at Miami, where they were an outstanding attraction. New shows, new faces, new vaudeville acts, new specialties, new features and new everything is the Billroy motto this season. The engagement here will be for one night only, but will include a three-act production, seventeen vaudeville acts, the Palais Royale orchestra, "Daphne" and her dream girls, and many unusual novelties. Doors will open at 7.15, overture at 7.30, and the curtain rises at 8.15 sharp. Continuing his well known policy of the past, Manager Wehle is offering this magnificent attraction at popular prices, and for this engagement will admit ladies free, provided each is accompanied by one paid adult admission.

Paper Importance Stressed at Meeting

By United Press
LUBBOCK — Importance of weekly newspapers was stressed by Charles A. Guy, Lubbock publisher, in a discussion with members of the Texas Tech Press association. "You are overlooking a good bet when you overlook the country field," Guy told the organization, composed of Texas Tech journalism students. Three of the twenty students present said they plan to enter weekly newspaper business after they graduate.

YES, THIS FOOD ENDS YOUR CONSTIPATION

Look out for those half-sick days, when you feel listless, headachy, out-of-sorts. Your trouble may be constipation. The real cause of common constipation is too little "bulk" in meals. Your system misses its regular exercise. Get this needed "bulk" in a delicious cereal: Kellogg's ALL-BRAN. Within the body, its "bulk" absorbs moisture, forms a soft mass, gently sponges out the system. Why keep on feeling bad when you can feel good? Millions of people use ALL-BRAN. Tests prove it's safe and effective. ALL-BRAN is guaranteed. Try it a week. If not satisfactory, your money will be refunded by the Kellogg Company. Two tablespoonfuls daily are usually sufficient. Serve as a cereal, with milk or cream, or cook into recipes. Remember, ALL-BRAN also supplies vitamin B and iron. Certainly you'd rather eat a food than take pills and drugs. Buy ALL-BRAN at your grocer's. Made by Kellogg in Battle Creek.

OLDEN

Miss Lucille Robertson entertained Friday night with a Halloween party for the juniors and seniors at the home of her parents, Mr. and Mrs. Dave Vermillion.

Many jolly and exciting games were played until a late hour. Then they were invited out in the electrically-lighted yard where barbecued weiners, toasted buns and coffee were being prepared and were served to Betty Gray Nix, Florine Peak, Doris Stanton, Nadine Norton, Max Anderson, Geneva McFadden, Doris Williamson, Louise Connell, Lucile Robertson, Eugene Wilson, Wilbert Norton, Melvina Holt, Ray Howell, Charles Hunter, Bobbie Collins, Mary Lois Bryson, Junior Sponsor Mr. and Mrs. Herman Scruggs; Senior Sponsor; and Mr. and Mrs. Dave Vermillion.

Mr. and Mrs. Bennie Anderson of Freer, Texas, are here visiting his father, Bessie Anderson and other relatives.

Mrs. Bettie Mitchell is home after an extended visit with her daughter, Mrs. Ott McDonald, accompanied her home and will visit here a few days.

Miss Mary Evelyn Edwards, who is attending a nurses' school in Fort Worth, was the guest of her parents here Sunday, Mr. and Mrs. Bill Edwards.

Mr. and Mrs. W. W. Nolan spent Saturday in Fort Worth on business.

Miss Doris Langston entertained the T. G. club Saturday night at her home in East Olden.

The 4-H club girls, sponsored by Mrs. Jack Hale, put on a Halloween carnival Saturday night in a vacant store building in Olden. The many booths were well decorated for the occasion, some being very weird and spooky. But loads of fun was had by the large crowd that attended.

Mrs. T. J. Stanton entertained a houseful of guests Saturday evening honoring Mrs. D. M. Collins with a shower. Many dainty gifts were presented. Games were played, and punch and cake were served at a late hour.

The class of sophomores enjoyed a Halloween party Friday night at the home of Mr. and Mrs. U. E. Howell. Those there were: Marvline Moore, Marjorie Witt, June Edwards, Ella Mae Fiddler, Helen Backman, Margaret Wynn, Evelyn and Juanita McMin, Mary Helen Lester, Norma Jean Sepulver, June Groves, May Elna Ward, Christine Wilkerson, Rex Howell, Billie Speer, R. C. Howell, Ray Howell, Bobbie Collins, Charles Hunter, Joe Wilson, Charlie Butler, Norman Speer, Mr. Smith, the class sponsor, and Mr. and Mrs. Howell.

Mr. and Mrs. John B. Wright of Electra, were Olden visitors the past few days.

Mr. and Mrs. Lee Williamson went to Fort Worth Thursday to be at the bedside of her mother, who was very ill.

Mr. and Mrs. Orval Johnson of Kokomo were guests Sunday of her mother, Mrs. Bessie Kirbie, here.

The ladies of the Missionary Society of the Methodist church will meet Friday at the church, each taking a covered dish, an all day program has been planned, observing that day as prayer day.

Mr. and Mrs. Jim Carlisle of Strawn were guests Sunday of Mr. and Mrs. W. P. Edwards.

STRAWN NEWS

Approximately 200 Strawnites boarded a special train early Monday morning heading for the Texas Centennial in Dallas. Besides the Strawn delegation there were about 1400 other representatives from points in Palo Pinto county. The entire day and part of the night were spent in the Centennial grounds and the train departed at 10 o'clock p. m. Everyone classed the trip as a grand success.

Mrs. Delphia Martin of Iran visited Mrs. Will Oylar Wednesday while enroute to the Texas Centennial in Dallas.

Miss Wilma Goldenberry of Midland spent the weekend in Strawn with her parents, Mr. and Mrs. W. T. Goldenberry.

Mrs. C. D. Farnely has returned from Coleman with her daughter and grand-daughter, Mrs. R. M. Ellis and Norma Kate. Norma Kate is recuperating from an appendicitis operation.

Mrs. Lee Aguirre journeyed to Gorman Sunday to be with her father, J. L. DeBusk, who is receiving eye treatments there.

Misses Wilma Goldenberry and Anne Ratliff were Mineral Wells visitors Sunday.

Mr. and Mrs. Chas. Watson and son, Billy Bob, are visiting relatives in Strawn this week.

Mr. and Mrs. R. B. Thomas visited the Centennial in Dallas last week.

Mr. and Mrs. George Watson and Charles Watson were Centennial visitors in Fort Worth and Dallas over the weekend.

Rev. W. E. Anderson is attending the Methodist Conference in Houston this week.

Mrs. M. C. Anderson of Caddo was a Strawn visitor Sunday.

Mr. and Mrs. Lee Vernon and son, Stuart, arrived in Strawn Wednesday for an extended visit.

Judge E. B. Ritchie transacted business in Strawn last week.

Joe Dalton of Longview is visiting in Strawn this week.

Valiant is the word for carrying the burden in question is a rug.

THEY KEEP YOU IN TOUCH WITH THE BEST BARGAINS, AND INCREASE YOUR REPUTATION FOR THRIFT.

**EASTLAND
CO. NEWS**

DESDEMONA

Horace Morrison, Oscar Lyerla of Eastland, county democratic chairman was here on business Monday evening.

Mr. and Mrs. Bill Parks and daughter, Gaynell, attended the Frontier Centennial at Fort Worth on Friday night.

Mrs. J. R. Buchan and her daughters, Miss Lillie Buchan and Mrs. Raymond Anderson accompanied by Miss Delia Wall, drove down to Fort Worth Saturday and did some shopping and attended the Frontier Centennial.

The "21" Study Club met on Tuesday, October 27th at the club house, which had been made comfortable by the leader, Mrs. C. W. Maltby, who had gotten her son, Glenn, to put up the stove and build a fire as the weather was cold and gloomy. In the absence of the president, Mrs. David Parks who had a son who was ill, Mrs. S. E. Snodgrass, presided. The roll was called and minutes read by the secretary, Mrs. Pres-

ton Sparks. Response to roll call were news items about Mexico. During the business session several financial matters were attended to, one being the paying for the year books which were printed by the Ranger Times and with which the members were well-pleased. Mrs. W. C. Bedford gave a review of a magazine article entitled "Bumping down through Mexico," the main subject being "El Canimo," the highway from Laredo, Texas, through Mexico, Mrs. Maltby gave a book review, "Contrabando," a story of the smuggling of Mexican laborers into the United States. The story was quite interesting and was well given. The closing number on the program was a better English drill given by Mrs. W. H. Davis. Topics and sources of material for the next time were announced by the year-book chairman, Mrs. Charles Lee. The travel course programs are proving quite interesting as well as instructive. Several members were absent on account of the weather.

An all-day session of the Methodist Missionary Society was held Monday at the church as a part of the week of prayer program. In the afternoon at the close of the program, the study superintendent, Mrs. W. H. Whitworth, conducted the 5th lesson from the book, "A Preface to Racial Understanding." Each one present took part in the discussions. Mrs. Chas. Lee had as her assignment about two chapters of the book, "Brown America." Mrs. Bedford talked on the negro church and then she and Mrs. Lee told of the negro life building at the Centennial at Dallas. Others who took parts on the week of prayer programs were Miss Mollie O'Rear, Mrs. E. M. Daily, Mrs. Preston Sparks, Mrs. S. E. Snodgrass and Miss Rebecca Daily, who was accompanist for the singing of the negro spirituals. Miss Vella Whitworth was a visitor during the day.

Mr. and Mrs. O. C. Sloan, of Stephenville were here Monday visiting friends and looking after business.

Mr. and Mrs. F. E. Walker and children and Miss Lillie Buchan went to the fair and stock show at Cisco Thursday night. Jack Walker entered his fine calf in the show.

Mr. and Mrs. C. O. Brazg and son, Charles, accompanied by Mrs.

NEW YORK—Once he is hired, the new manager of the Brooklyn Dodgers will spend most of his time trying to find one of the club officials.

It's the same old trouble in Flatbush, of course. Debts, constant bickering between the Ebbets and McKeever factions, a poor organization, senility in the president's seat, and a mediocre club to begin with make the situation intolerable.

Casey Stengel got no help at all during his three-year sentence. Brooklyn club vice-presidents only show up to complicate things.

Joe Gilcaudeau, who is a hat salesman, goes south with the club each spring, and does the old Hawkshaw on the manager and the athletes.

They seldom see Gilcaudeau during the season.

Jim Mulvey, the other vice-president, is a more practical baseball man, but is seen even less. A big shot in a motion picture organization, he's in Hollywood most of the time.

MULVEY, son-in-law of Judge Steve McKeever, the president, makes too much money in the picture business to sacrifice his position or to give more time to baseball.

The business manager is John Gorman, who looks like a misprint from Esquire. Gorman is a nice fellow, but the only thing he knows about baseball is the names of the National League cities, and someone probably told him that.

This gives you a rough idea of how tough it is for the Dodger manager to make deals. When he does round up the officials, they don't seem to want to deal.

Stengel could have made a deal

Sport Glances. By Grayson

with the Chicago Cubs during the season just closed which would have helped the Dodgers. He could have obtained Chuck Klein and Stephenson, the young catcher, for Fred Frankhouse. But he couldn't find either vice-president.

BUT the club again showed a neat profit, and that is all that interests either faction, it seems. The goat was Stengel, as Max Carey was the goat before him, and Wilbert Robinson the goat before Max. The officials probably decided that they could stir up enough interest to get by for another year or two simply by showing a new manager.

The club did Stengel more harm by the way they handled the Yan Lingle Mungo case.

Mungo is a real hill-billy who gets a bit wacky when he steps out a bit and realizes how good he can pitch and how poorly he is supported. Stengel always was unable to handle Mungo the hard way because the officials wouldn't back him up.

STENDEL'S big mistake, of course, was made that February day of 1935 when they called him into the office, broke his old contract which had a year to run, and gave him a new one for three campaigns.

Casey was quite a guy then. The club had drawn very well and finished in Heaven, as far as the Brooklyn filberts were concerned, by knocking the despised Giants out of the pennant in the last two games of the season.

Stengel should have refused to sign unless he was given absolute control of players and trades. But he didn't demand that and as a result was out of luck from that time until the finish.

Mrs. Darlington will be glad to know that they are both in good health, and he is still with the Structural Steel company, a position he has held for 12 years. That company did all the steel work for the Casa Manana and other features of the Centennial.

Rev. Mrs. Earl Alexander, accompanied by her husband, his mother and also by Hoyt Lee Browning and Misses Bernice Sawyer and Naomi Alvis, drove down to Stephenville on Thursday night and Mrs. Alexander held service for the newly organized Church of God.

of Oklahoma City are visiting her parents, Mr. and Mrs. Ed Hanson. Mrs. McCoy was formerly Miss Kins Hanson and grew up here in Desdemona and graduated from our high school, afterwards taking a business course at Fort Worth.

Guy Bruce came in Sunday from Galveston where he left the oil steamer on which he has been working for a long time. He has cruised in the waters of the Atlantic and visited many ports during the time he has worked on the steamer. A cousin of his came with him for a visit.

to twice its proposed size, opening a vast market for East Texas pine, salt and seashell.

Additional plans for South Texas' first paper pulp plant were announced by W. R. Crute, general manager for the Champion Paper and Fiber Company. Construction of the first units will be completed and operation started by Feb. 1, he said.

Further development of the new industry will depend upon favorable labor conditions and other factors, including sufficient supply of raw materials. The addition to the present plant would cost \$3,000,000, Crute said.

Beginning Feb. 1, the new plant will require 300 cords of pine wood, 200 tons of limestone or seashell, 16,000,000 cubic feet of natural gas, 30 tons of salt and 40 tons of salt cake, for each day's operation, Crute estimated.

Capacity of the plant will be 300,000 pounds of pulp, which will be shipped to the company's paper mill in Hamilton, Ohio, and ten tons of liquid caustic. By-products will be chlorine, turpentine, hydrogen, sodium resinates and liquid resin.

Crute said there would be a perpetual supply of pine wood available throughout East Texas to fill the needs of the new mill. The new industry will mean several millions of dollars additional revenue to landowners in the piney woods section of the state, he said.

**Book About Texas
Towns Is Written**

By United Press
TERRELL, Texas—By accident
Fred Massengill, Terrell editor
and postmaster, saw several bundles
of shrubs addressed to three
different Texas towns, all named
Sweetwater. The coincidence
started him on a hunt for interesting
facts concerning Texas cities.
The result is a book, "Texas
Towns."
The bundles of shrubs were ad-
dressed to recipients in Sweet-
water, Ague Dulce and Mobeetie,
Agua Dulce and Mobeetie are
Spanish and Indian words, respec-
tively, but each mean Sweetwater.
In his book, which has recently
come off the press, Massengill
traces the origin of names and in-
teresting facts about Texas towns.
For instance: The town of Cash
was originally named for J. A.
Money. But Col. E. H. R. Green,
president of the railroad, and the
man who named the town, didn't
want to use the word Money. So
Cash was the result.
In a small town in Brown county,
a group of citizens sought a

name for the new hamlet. A northern
struck during their delibera-
tions. A town was suggested the
name Zephyr... and Zephyr it
was, and still is.
Four names have been used for
the designation of eight towns.
They are: Walker-Reklaw; Lu-
cas-Sacul; Sunset-Tensus; Al-
ton-Notja. The word written
backwards provided the name for
the second town.
Massengill's book also contains
the name of every postoffice in
Texas and gives the railroads,
state and federal highways on
which it is located.

**3,500 NYA Youths
Get Regular Jobs**

AUSTIN — More than 8,000
youths assigned work by the Na-
tional Youth Administration in
Texas have been removed from
project payrolls during 1936, Lyndon
B. Johnson, state director, an-
nounced.
This reduction is more than 40
per cent, 17,000 young men and
women having been originally as-
signed to the NYA work program.
On Oct. 1, only 8,760 were ac-

Lois Lindsay as the pleasure seek-
ing rich girl in "The Pace That
Kills."

"Drinking, necking, dope and
jazz parties have struck a solar
plexus blow in the new production
of "The Pace That Kills" featur-
ing Neel Madison and Lois Janu-
ary.
Youthful delinquency will always
be with us; many a proud mother
and father who, today, fears the
embarrassment of straight-from-
the-shoulder talks of their off-
spring, would greatly benefit if
they sent their sons and daughters
to watch their step.
Jazz and gin, sex and sensuality,
cars parked on shady lanes, sporty
roadhouses, wild parties, traffic in
dope and human souls are among
the highlights of this most unusu-
al picture, which graphically illus-
trates the terrible results of pa-
rental neglect and ignorance in
the handling of modern youth.
Showing Friday 11:15 P. M. and
at Regular Run Saturday at the

J. C. PENNEY CO.
Be Here With The Crowds — On Time!

When the road is opened a
steady stream of colonists will
push toward Addis Ababa in a
fleet of trucks to obtain the chal-
est bits of the fertile and well
watered plateaus.
The youth of Italy is being given
the opportunity that was offered
the adventurous minded of other
countries during the last cen-
tury. Young people will have the
opportunity to pioneer in these
vast expanses, ideal for machine
farming or cattle ranching.
The timbered regions of the
south and west will be opened as
well as the rolling prairie-like
ranges of the central provinces.
Nor will danger be completely
lacking. The smouldering resent-
ment of a conquered people will
not be extinguished for some years
and the young pioneers, with gun
ready will have to pacify their sec-
tions as did the American pioneers
of a century ago.
Those who wish plantations will
be sent to the blistering lowlands
where white men find it difficult
to work. Those who wish machine
farming will go to sections more
appropriate. Fruit growers will
be granted land in portions suit-
able for fruit growing, and ranch-
ers will get the hilly ranges where
native cattle have fattened for
centuries.
The government control of the
colonization movement will be pa-
ternalistic. Care will be taken that
fruit growers do not go to terri-
tories where fruit cannot be raised.
The government does not want to
have disgruntled pioneers who
have been settled in the wrong
parts of the empire.

OAK GROVE

The heavy rains that fell here
over the week-end have stopped
all farm work except wood work.
Almost everyone is chopping wood
for the winter.
Temperatures reached the frost
line here Monday morning, but
frost was prevented from forming
by the cloudy weather.
Mrs. Lou Estes of Avery visited
her sister, Mrs. Fred Milford, here
last week-end.
Mr. and Mrs. Jessie Weaver of
Ranger and Mr. and Mrs. A. E.
Milford of Okra visited relatives
in this community last Sunday.
Mr. and Mrs. J. E. Cannaday
attended church services at Car-
bon last Sunday night.
A large crowd gathered at Mor-
ton Valley Friday night to attend
and enjoy side shows, fortune
telling, bingo and a number of
other entertainments from which
the proceeds were reported to
amount to \$41.50. It was sponsor-
ed by the parent-teacher associa-
tion.

**Schedule Change
Effective Sunday, Nov. 8th**

MORE TRAINS THIS WINTER
No. 6 will leave Ranger at 4:05 A. M. instead of
4:50 A. M.
No. 10, a new train for Fort Worth and Dallas, will
leave 4:40 A. M.
No. 7, will leave Ranger at 1:07 A. M. instead
1:00 A. M.
No. 27, a new train for Lubbock and Amarillo, will
leave at 12:25 A. M.

High School Votes "General Election" Ticket Like Elders

"As the high school votes, so votes the nation." Supt. W. T. Walton stated today in announcing the results of a "general election" held at the local high school in which students were allowed to express their preference for all presidential candidates and indicate their opinion on the six proposed state constitutional amendments.

Thomas were Jim Galloway and Elvin Ingram, for Earl Browder Glenn Ed Murphy and for William Lemke were Ross Hodge.

Tabulation of the 349 ballots showed Roosevelt received 300, Landon 35, Thomas 4, Browder 0, Lemke 1 and Calvin 0.

The students also voted on the state constitutional amendments as did the regular Texas voters, and the same amendments were approved by the students.

The first amendment, providing for a liquor monopoly, lost; the second providing for a retirement fund for teachers passed with 293 votes; the third, authorizing workmen's compensation for state employees passed by 299 votes the fourth establishing a pardon board passed by 251 votes; the fifth raising the salary of state officers passed with 215 votes and the sixth, limiting representation in large counties passed with a vote of 259.

Election judges were Robert Ray Herring, Jim Rawlston, Bobbie Branton, Babba Edmonds, Floyd Russell and Joe Jane Griffiths.

SAFE MOVERS TOO EARLY
PASADENA, Calif. — It struck

Policeman C. E. Miller as odd that a local motor car agency should be moving its safe at dawn, even if it did have it already loaded on one of its own trucks. Then he telephoned the station and with six other policemen arrested the busy safe movers.

Correct Posture Held Essential

AUSTIN—Correct posture in school children, and adults as well, is necessary to proper physical and mental development, says a warning from the Texas State Department of Health. "Good posture is a sign of self respect and plays an important part in winning the respect of others," said Dr. John W. Brown, State Health Officer.

"Many of the ills of childhood and the deformities of adult life have their beginning in poor posture acquired during childhood," he said, "and it is particularly important that the child's posture conform to nature's dictates. Most children are born in good physical condition and yet examination of large groups of school children show a high per cent to be suffering from poor posture. Malnutrition and fatigue are productive of poor posture. These lessen the size of the chest and decrease the lung capacity. Abdominal organs may also be pushed out of natural position, which may seriously interfere with their action. These conditions must be corrected before the body is able to attain normal weight and nutritional standards.

"School children who have poor posture are said often to average lower in attendance and in school mental and physical activities than those who have good posture. A child may be forced to hold his body in an unnatural position by a desk that is too high or too low. Desks and work tables should be just high enough to allow the feet to rest on the floor and the forearms and hands to rest upon the tops without the shoulders being hunched up.

"Begin early in life to teach your children to stand straight and sit straight for health and self-confidence, and they should grow into strong well-built men and women."

HERON TIES UP PUMPS
RUSSELL Kan.—A blue heron with a 6-foot wing spread became entangled in the control wires of city dam pumps. The heron was killed and the water pumps were ineffective for a few hours.

1 take 1 Carter's Little Liver Pill before and 1 after meals and get relief. C.M.C.

Debut Near for Queen of Bridges

Completed except for minor details, the San Francisco-Oakland Bay bridge, stretching 4 1/2 miles across San Francisco bay, is soon here, ready for its official opening, Nov. 12. This \$77,000,000 bridge, largest in the world, was built to carry six lanes of autos on the upper level and trucks and railways on the lower level. As the span crosses Yerba Buena Island, left center, it passes through the world's largest bore tunnel. This view looks from the San Francisco side toward Yerba Buena Island and Oakland and Berkeley in the distance.

Pharmacists May Register With Army After Examination

FORT SAM HOUSTON, Tex.—Eligibility for the examination for commissions in the Medical Administrative Corps of the Regular Army will be conducted by the U. S. Army December 14 to 19, 1936, Eighth Corps Area Headquarters has been notified by the War Department.

Application blanks and detailed information may be obtained upon request from General War Department, Washington, D. C. Applications must be filed not later than Dec. 1.

"BLACK-DRAUGHT IS PURELY VEGETABLE"

—What Does That Mean? A great many things can cause constipation and there are many remedies to relieve it, but possibly none more popular than the "vegetable" laxative.

Among these, Black-Draught is outstanding. In its manufacture, leaves of a certain plant are used, and the roots of certain others. These are dried so they will keep without preservatives. . . no other chemical change from the way they grow in "Mother Nature's medicine garden." By their being finely ground the digestive system extracts the active medicine right where it is needed. Constipation is relieved.

Beware Coughs from common colds That Hang On

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with anything less than Creomulsion, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membranes as the germ-laden phlegm is loosened and expelled.

Woman Is Named Landscape Garden Extension Specialist

By United Press
COLLEGE STATION, Tex.—Miss Sadie Hatfield, Extension district home demonstration agent who has been on a year's leave of absence, has been appointed extension specialist in landscape gardening Miss Mildred Horton, state home demonstration agent, has announced. Her appointment was effective Sept. 1.

Oil City Pharmacy offers FREE Sample of new High Blood Pressure treatment

Every High Blood Pressure sufferer in Ranger is urged to go to Oil City Pharmacy and receive a free sample of ALLIMIN Essence of Garlic Parsley tablets for High Blood Pressure as well as a valuable booklet. These tablets are made by a prominent Chicago concern and according to most reliable reports are being used with good results by thousands of sufferers. A special new process by which ALLIMIN tablets are produced makes them both tasteless and odorless. A two weeks' treatment costs only 50c.

GUARANTEED RELIEF FROM CONSTIPATION

Common constipation is usually due to meals low in "bulk." Pills and drugs give only temporary relief. The sensible thing to do is to put "bulk" back into your meals.

Millions of people get this needed "bulk" in a delicious cereal: Kellogg's ALL-BRAN. Its "bulk" is much like that in leafy vegetables. Within the body, it absorbs moisture, forms a soft mass, gently cleanses the system.

Some years ago, an investigation was made among thousands of ALL-BRAN users. 98 per cent found it satisfactory. Only 2 per cent found the type of constipation that would not respond to ALL-BRAN.

ALL-BRAN is guaranteed. Try it a week. If not satisfactory, your money will be refunded by the Kellogg Company.

*Just eat two tablespoonfuls daily, either as cereal or in cooked dishes. ALL-BRAN is sold by all grocers. Made by Kellogg in Battle Creek.

Texas Farmers Made a Profit On Refinancing Debts

Texas farmers who have refinanced their debts through the Federal Land Bank of Houston will profit by a gross interest saving of more than \$7,259,000 for the year 1936, a statement today from A. C. Williams, president of the bank, revealed. As nearly as can be estimated, says Mr. Williams, this benefit will be divided among the owners of 83,075 farms.

Through rewriting former mortgages with the land bank in the Farm Credit Administration's tenth district, the difference in interest rates yields an annual saving of more than \$3,500,000 to

Ranger Stores to Close November 11

Mrs. Eva George, secretary of the Ranger Retail Merchants Association, announced today that the association had voted unanimously to close all stores in Ranger on Wednesday, Nov. 11, in celebration of Armistice Day.

It has been the custom in Ranger for a number of years for all stores in the city to remain closed all day on Armistice Day, and the decision by the members of the association is in keeping with the annual practice.

Men Who Defy Custom
Are Not Always Goofy

The World War veteran who used his bonus money to build a sea-going barrel, and who forthwith set out to cross Lake Erie from Buffalo to Cleveland to find out if the "craft" would do for a trip across the Atlantic, seems to have at least one of the qualities that go to make a great man.

Bad weather got the better of him on his trial trip and coast guards had to tow him ashore. Stepping on the dock, he announced:

"I'm not giving up. The world thinks I'm goofy. I think the world is goofy. Now it's a contest to find out who's right."

This inventive gentleman may never persuade the sea-going world that barrels are destined to replace more orthodox craft, but he does have the right spirit. He is blood brother under the skin to a long list of great men, from the Wright brothers to that first inquisitive caveman who decided to try cooking his meat instead of eating it raw. The least we can do is give him a bow.

For any brave soul who sets out to do something in a different way than custom and the habits of mankind dictate has to acquire a state of mind similar to that of this Buffalo war veteran.

He has to admit that the world thinks he is goofy, and he can comfort himself only with the thought that it is really the world that is goofy.

Sooner or later he has to step forth, try out his idea, and find out who is right.

There is something irritating about these men. We learn in the hard school of experience, and by the time we become adults it is pretty well bumped into us that the world as a whole is a good deal wiser than we are as individuals. Its knowledge is greater than ours; the way it does things must be the right way.

So we find the fur standing up on the back of our neck when we behold some brash person who thinks he knows more than does the world at large.

He is a rebel, he dares to pit his own little brain against the collective wisdom of the ages—and he gets our goat. The fact that once in a blue moon he turns out to be right is apt to make us all the madder.

But in the long run all the progress we make is due to these rebels. Columbus was one, and Watts, and Pasteur and Galileo and Edison, not to mention those nameless souls who invented the wheel and learned how to make fire and discovered the principle of lever and pulley.

So—when you run into a goofy soul who thinks that it is the world, and not himself that is goofy, walk softly and carry your hat in your hand.

He may be as mad as a roomful of hatters, but he is moving in the great tradition. And there is always that one chance in a thousand that he is right.

Caddies carry guns on a Madrid, Spain, golf course. The informed loyalist golfer will specify the number of his shooting iron.

6,233 Miles of New Roads Built by the WPA In the State

SAN ANTONIO.—Works Progress Administration laborers have built and improved 6,233 miles of road in Texas during the past twelve months, State Administrator H. P. Drought has announced. Projects still in operation encompass the improvement of an additional 3,724 miles of roadway, he stated.

On the 9,957-mile network of Texas roads which have been included in the WPA program there has been employed a monthly average of 26,300 men. Reaching into 214 Texas counties, the program has been financed by sponsors' expenditures of \$3,957,224 and federal allocations of \$9,182,946.

Drought pointed out as significant the fact that 9,507 miles of the 9,957-mile road program are classified as farm-to-market roads. He said: "At the outset of this program we stressed the importance of lateral roads. Now at the end of twelve months of operation we note that approximately 41 per cent of the WPA expenditures in Texas has been on that type of improvement. As a result of this road building activity thousands of farm families are no longer dependent upon the weather in marketing perishable food crops, in taking advantage of top prices for farm products, in getting a doctor in time of emergency or in reaching schools and churches and other gathering places.

Car Owners are Warned Against Winter Neglect

Warning to car owners against winter neglect, Motor Enemy No. 1, was given this week by Fred M. Lege, Jr., Vice President of Magnolia Petroleum Company, as he announced "Winter-Proof" protective service to be made available to the motoring public by Magnolia dealers throughout the Southwest, beginning November 1. This service, originated by Magnolia several years ago, has been growing in favor each year as motorists have learned the value of the semi-annual check-up to insure against the ravages of weather and wear by protecting the vital parts of the automobile.

"Magnolia's 'Winter-Proof' service is a seven-point check-up, preparing the engine, transmission, differential, chassis, fuel, radiator and battery for winter demands," Mr. Lege explained. "It has been devised by engineers to make winter driving more economical and more pleasant, to insure dependable operation and avoid undue wear and consequent need for repair.

The \$13,140,170 expended upon road work by sponsors and WPA in Texas has been divided as follows: for labor, \$6,880,072; for materials, \$2,015,306; for rental of equipment, \$4,244,792. A substantial proportion of the funds expended for the rental of equipment was for wages. Many of those indirectly employed by this means would otherwise have had to seek relief, WPA officials declare.

FISHERMEN GUIDE PORPOISES

GLOUCESTER, Mass.—Three fishermen reversed the process by which they earn their living and acted as "guides" to three beached porpoises stranded in Smith Cove. Aware that the finny trio could not find their way out of the cove, the men lassoed one of the porpoise by the tail and towed it out to sea. The other porpoises trailed their companion.

THE WAY TO MAKE GIFT GIVING EASY

You Can Afford to give the kind of gifts you have always wanted to choose, this year! Umberson's complete stocks make it possible to select any jewelry gift... and Umberson's "easy credit payments make it easy to give!

Call and see our many gifts which are arriving daily. We have the gifts you need for that certain occasion.

We have two new Baldwin Pianos which we will sell at a greatly reduced price. Will allow from \$75.00 to \$200.00 for your old piano. Thirty Months to pay balance.

DEEP INTO THE BIG WOODS on a hunting trip. No luxuries here, as "Herb" Web—famous Maine Guide—makes noon camp and serves up beans, johnny-cake, and coffee hot from the camp-fire coals, winding up with Camels all around. Hearty outdoor appetites welcome the sense of digestive well-being that smoking Camels encourages. "Herb" says: "Anything that goes into the woods with me has to earn its way. Camels more than earn theirs. Camels are a swell thing to have on the trail... a pleasure and a necessity. I've lived on one meal a day—just dried meat and water at that—and I've dined on the best that the state of Maine offers—but no matter what I'm eating, it always tastes better and digests better when I smoke Camels. And I like Camel's cheery "lift!"

ROUTES 100 TRAINS A DAY. H. M. Wright says: "I have to have healthy nerves and good digestion. So I smoke Camels. They do not get on my nerves. And they insure a sense of well-being at mealtimes. Camels set me right."

CAMEL TURKISH & DOMESTIC BLEND CIGARETTES
Cathier Tobacco
Camels are made from finer, MORE EXPENSIVE TOBACCOS Turkish and Domestic than any other popular brand

WHEREVER...WHATEVER... WHENEVER YOU EAT— For Digestion's Sake— Smoke Camels!
YOU eat over a thousand meals a year! Many kinds of foods. At all times and places. Sometimes you are free of care—at others, worried and nervous. Yet, thanks to Camels, you can help digestion meet these conditions easily. Smoking Camels speeds up the flow of fluids that start digestion off well and keep it running smoothly. Tension eases. Alkalinity increases. You enjoy your food more—and have a feeling of greater ease and contentment after eating. Mealtime or any time—make it Camels! To millions of men and women, Camels are the last word in cigarette enjoyment. Camels are so mild, they do not get on your nerves—or tire your taste—facts that steady smokers especially appreciate.

ANOTHER CHAMPION SMOKES CAMELS. Dorothy Fieldman set a globe record for bathmen and women. "I maintain low gliding 3000 digestion," she says. "But a few Camels at mealtimes bring my digestion right back."

HOLLYWOOD RADIO TREAT! Camels guarantee you a FULL HOUR'S ENTERTAINMENT! Benny Goodman's "Swing Band"... George Sibley's Concert Orchestra... Hollywood Guest Stars... and Rogers Hughes preside! Four New National Forests In Texas

The four federal forest purchase units established in eastern Texas by the Government in 1934 were proclaimed National Forests by President Roosevelt October 15, the U. S. Department of Agriculture announced today. The new National forests include 1,714,000 acres, of which about 681,000 acres already have been purchased and placed under the administration of the Forest Service.

Each of the four units, which now become the Sam Houston, the Sabine, the Angelina, and the Davy Crockett National Forests, contain large areas of cut-over land carrying some timber of commercial value and all have great possibilities for development as permanently productive timber lands. It is the plan of the Forest Service to administer the four National forests in Texas under a forest supervisor to be stationed at Houston.

The Sam Houston National Forest contains 491,800 acres gross area, in Montgomery, Walker and San Jacinto counties. About 148,000 acres of this area have already been approved for purchase by the National Forest Reservation Commission. Forest management for continuing yields of timber and other permanent uses is being established by the Forest Service. The greater part of the Sam Houston has been cut over but is restocking to young trees, largely of shortleaf and loblolly pines and hardwoods.

The Sabine National Forest includes about 489,600 acres in Sabine, Shelby and San Augustine counties and is next to the Louisiana boundary, on the watershed of the Sabine river. About three-fourths of it is cut-over land, largely restocking to young trees. Almost half of it is already under federal administration.

The Angelina National Forest contains 388,700 acres in Angelina, Jasper, San Augustine and Nacogoches counties. Approximately 135,000 acres have been purchased or are in the process of purchase and have been brought under Forest Service administration.

The Davy Crockett National Forest is in Houston and Trinity counties. It covers a gross area of 394,200 acres, of which 165,000 are now under control of the Government. It is the southwestern-most National forest in Texas. The Forest Service plans to replant parts of it that formerly grew stands of longleaf pine.

Sportsmen Plan A Big Fox Hunt

CROCKETT, Texas—Sportsmen plan the biggest hunt in the history of the 44-year-old Texas Fox and Wolf Hunters association, to be held Nov. 9-12 in the National Forest preserve near here.

Hunters from all sections of Texas and a dozen other states will gather with their best running hounds at Camp Jim McClean. President Robert W. Henderson, Houston, has announced.

Henderson said sportsmen would pitch a tent camp on Nov. 7 at the location 16 miles from this city. Chief Jim McClean was named in honor of an old-time follower of the hounds, who still lives at Crockett.

Gov. James V. Alfred has informed Henderson that he would attend at least one day of the hunt. U. S. Senator Tom Connally, who has been at the "kill" on former hunts, also has accepted an invitation.

Derby dogs, under two years, will be cast at dawn on Nov. 9th. Sam Woodruff, authority on the foxhound, will judge the bench show to be held that night. The last three days of the hunt will be devoted to all-age fox trials, with the grand champion being named on the final day.

Henderson announced that Will A. Gillispie, Overton, judge of the field trials in previous years, would be master of the hounds. W. H. Long, Crockett, vice presi-

dent of the association, has charge of arrangements at Camp Jim McClean. J. W. Elliott, Mexia, association secretary, said he had received many letters from hunters

throughout the South and Midwest indicating a large out-of-state attendance.

Ed Buller, chairman of the grounds committee, notified hunt-

ers that game is abundant in the piney woods section selected for the meeting. To augment the supply of native fox, the association has released 50 Georgia fox near the camp.

Two new trophies, in addition to regular association trophies, will be offered this year. Friends of L. Wilson, veteran member of the association, who died last fall, have

offered a memorial challenge trophy for high score in hunting and trailing. Houston county sportsmen offer the second cup.

The West Virginia boy who reads everything backward can either have his malady cured, or be a politician, whose audiences never know the difference.

Spanish version: "Mother, may I go out and shoot an insurgent?" "Home, home on the range," Dora thought, was a new idea in trailer heating.

Special Sermon For Football Squad to Be Next Sunday

Rev. H. B. Johnson, pastor of the First Christian Church announced today that he would preach his annual sermon for the Ranger Bulldogs Sunday morning at the 11 o'clock hour, with the subject of the sermon being "What It Takes."

For a number of years Rev. Johnson has preached a sermon each year, especially for the members of the high school football squad, with the general public invited a cordial invitation to attend. Each year the sermon has been preached on the Sunday immediately following the Ranger-Cisco football game.

"I have conferred with Coach Baker Wright," Rev. Johnson said today in announcing the sermon, "and he was well pleased with the idea and said that all members of the squad would be present for

the sermon. He seemed to be deeply appreciative of the opportunity to have all his charges attend church in a group."

The sermon this year will be delivered on Sunday, Nov. 8, which is just prior to the Cisco-Langer game on Wednesday, Nov. 11.

Two Sisters Have Similar Accidents

By United Press
FORT WORTH, Tex.—Auto accidents involving two sisters here were almost identical in nature, but one nursed minor wounds where the other died.

Last March 20, Clara Nell Calhoun, was killed when the auto in which she was riding crashed into a concrete safety zone standard. Sept. 2, her sister, Jean Calhoun, was riding in a car that smashed into the back end of a truck. She had scratches on the head and a lacerated finger.

S. P. BOON IS NEW PRESIDENT OF ROTARIANS

S. P. Boon was unanimously elected president of the Ranger Rotary club today at the regular meeting of that body. Boon has been an active member for several years and has been chairman of the rural urban committee for the past two years.

F. M. Kuykendall was in charge of the program and after several numbers given on the piano by Mrs. Weldon Webb, called upon a number of the members for the aims and objects of the club.

Announcement was made that no meeting would be held next week because of the holiday of Armistice.

T. E. Richardson and A. Neal of Eastland were visitors.

VOTING TREND IN RANGER IS LIKE IN STATE

A total of 1,198 votes was cast in the general election in Ranger Tuesday, with the Roosevelt-Garner ticket receiving a total of 871 votes, and the Landon-Knox ticket polling 191, a total of more than eight to one for the Administration and the New Deal. The remainder of the votes, totalling 126, were scattering for the minor candidates.

The entire Democratic ticket, from President down to Constable, went over with a big majority, while the state ticket for U. S. Senator down to Constable went Democratic by an even greater majority than did the Presidential ticket.

The trend of the six proposed constitutional amendments went the same in Ranger as it did over the state as a whole, with the liquor monopoly amendment losing by a vote of 410 against to 378 for.

Totals of the two Ranger boxes on the other proposed constitutional amendments were as follows:

No.	Young	City	School	Hall	Tot.
1—For	166	207	207	373	
Against	183	227	410		
2—For	185	234	420		
Against	155	206	362		
3—For	222	280	502		
Against	128	155	283		
4—For	263	313	569		
Against	96	127	223		
5—For	185	217	402		
Against	162	223	385		
6—For	219	290	509		
Against	118	140	258		

In crossing the street when the light is green, a pedestrian is in the right. In fact, he may be dead right.

Texas Hen Making Egg Laying Record

By United Press
DALLAS, Texas.—Three of five leading positions in the six-month egg laying racing in progress at the Texas Centennial Exposition were held by the Enterprise Hatchery of Mt. Cain, Tex., at the end of the fourth month.

Walter Burton, exposition poultry director, in announcing the 25 most prolific hens, all White Leghorns, said the Enterprise topped the list with a bird that laid 94 eggs since the race began and has scored a total of 102.43 points.

Radley's Hatchery, of Houston, was second with a hen that that produced 92 eggs and a score of 100.60. Enterprise ranked third and fourth with hens each producing 91 eggs but scoring 100 and 99.60 point, respectively.

Traffic Safety Is Urged As a Course In Public Schools

By United Press
FORT WORTH, Tex.—A required course in "traffic safety" for all American schools has been proposed by Paul W. Curtis, manager of the Southwest Motor Club.

Curtis said the idea seemed near realization. The American Automobile Association has prepared a series of texts, to be supplemented by oral lectures, to teach young Americans "what to do with an automobile."

Estimated cost of the course to Fort Worth's 5,000 senior high school student is \$3,000 a year. Instruction for grown-ups would be given in a separate course. It would teach motorists how to signal for turns and stops, traffic etiquette, and general safety measures.

RED FLAGS NOT "RED" SANTA ROSA, Calif.—County authorities have requested the public not to carry away red flags that are posted along the roadways. The authorities explain they are not signals for various community organizations, but merely markers for a statewide examination of secondary roads.

TRAVEL-as you like it - for as little as 1 1/4¢ a mile

There is—in the speed, comfort, safety and dependability of Texas and Pacific service—something for each traveler especially to enjoy.

You know you will cover distances with the minimum of exertion, the maximum of ease. You know that whatever the weather or the season, you will enjoy security and comfort.

So next time you have a trip to make, and want to make it in the most pleasant way possible... ride the "T. & P." and see for yourself.

See how faster schedules, modern equipment, air-conditioning, and millions put into heavier rails, safety signals and railroad maintenance, are keeping the "T. & P." out in front.

And you can travel on the "T. & P." for as little as 1 1/5 cent a mile.

Week-end Centennial rates as low as one cent a mile.

HAPPY RELIEF FROM PAINFUL BACKACHE

Caused by Tired Kidneys

Many of those gasping, aching, painful backaches people blame on cold or strain are often caused by tired kidneys—and may be relieved when treated in the right way. The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. Most people pass about 3 pints a day or about 3 pounds of waste.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may affect muscles, rheumatism, pains, backache, leg cramps, loss of pep and energy, getting up night, swelling, puffiness under the eyes, headache and dizziness.

Don't wait! Ask your druggist for Doan's Pills, and see successful relief for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

A Three Days' Cough Is Your Danger Signal

A cough, chest cold or bronchial irritation today may lead to serious trouble tomorrow. You can relieve them now with Creomulsion, an emulsified Creosote that is pleasant to take. Creomulsion is a medical discovery that aids nature to soothe and heal the inflamed membranes and to relieve the irritation and inflammation as the germ-laden phlegm is loosened and expelled.

Medical authorities have for many years recognized the wonderful effects of Beechwood Creosote for treating coughs, chest colds and bronchial irritations. A chemist worked out a special process of blending Creosote with other ingredients so that now in Creomulsion you get a real dose of Beechwood Creosote which is palatable and can even be taken frequently

Natives Resenting Modern Nudism

Sydney.—Contrary to the ethics of nudist colonies who insist that all inmates shall go nude, New Guinea natives object in the extreme degree of having white people among them go "native."

So strongly is this objection entrenched in the native tribes, that L. E. Ledoux, American anthropologist, was obliged during his five months stay with New Guinea tribes, to keep cleanly shaved and maintain the standard of living in conformity to the dignity of a white man.

Ledoux, who is conducting anthropological research work under the direction of the Department of Anthropology of the American Museum of Natural History, has returned from his five months work on the island of New Guinea. He spent the entire time in the village of Kaup.

"I built my own house," Ledoux said, "and dressed myself in a shirt, shorts and straw hat. But the natives insisted that I should keep my own place as a white man and also as a matter of respect to their own high standard of living insisted I should shave and keep my hair combed.

"While I took a large amount of canned food with me, yet I ate little of it as I raised all manner of vegetables and game was plentiful. "I found the natives on the whole very intelligent, some of them even being able to read and write in three languages.

"The objective of my work was to coordinate that which had been done by other scientists in an endeavor to trace and find a reason for the "trading-complex" of the natives. They trade extensively in shells and pigs and what is more strange, in dances.

"Although they are not allowed to perform many of their dances, which deal mainly with activities of life, they manage to sell them to tribes along the coast, and in some cases they translate the words with the object of creating new themes.

"The trading aspect of the natives of New Guinea has puzzled

scientists for years, Ledoux says. They have a currency based on shells, and an effort is now being made to regard this form a purely scientific point of view.

Planting On Roads Part of Road Job

WASHINGTON.—Improvement on roadsides by landscape grading, seeding, sodding and planting has become increasingly popular in recent years. Since 1933 it has been required that each state include roadside improvement projects in its program of work to be done with Federal funds administered by the Bureau of Public Roads. The total program—completed, under improvement, and planned—includes 1,391 sections of road improved according to plans prepared by landscape specialists. Roadside improvements have been, or are being improved on approximately 5,000 miles of highway at a cost of more than \$7,000,000, of which the Federal government is contributing more than \$6,000,000.

Most of these improvements are on main arteries of travel at the approaches to the more important centers of population, and much of the work has been done along existing surfaced highways.

Several features of roadside improvement work that have come to the attention of highway engineers as a result of the object-lesson demonstrations, have been adopted in regular highway construction practice in the practice of states. Among the practices adopted are flatter grading of slopes and slope rounding, reduction in the depth of ditches, elimination of "borrow" pits, a better "cleanup" of the roadsides after construction is completed, the gaving of trees and other volunteer growth, the conservation of topsoil humus where feasible for later use in

ground cover protection, the planting of natural snow barriers, and the construction of small parking areas at scenic outlooks. Several states, in building new roads, are doing as much of this work as a right-of-way width permit.

State highway department organizations are providing for an improved technical approach to the various roadside problems, and as experience is accumulated, they are developing more effective methods of handling the work. Only a few years ago highways were completed with little thought to the appearance of the finished roadside and attempts were made at so-called "beautification" under conditions already had and after with over-emphasis on some particular kind of planting. Results have been much better since roadside improvement has been regarded as an integral part of highway improvement to be provided for in planning rather than an afterthought following construction.

CUBAN ARMY BUYS HORSES

ST. LOUIS.—The Cuban Army has purchased approximately 2,000 horses through dealers at the National Stockyards in National City, according to the Cuban consul, Armando de Leon. About 2,400 more horses and 500 mules are to be purchased during the remainder of the year, he said.

A certain romance seems to have the British public "Wally-eyed."

Saved From Fall Britain Is Facing A Farm Problem

LONDON.—British farmers are preparing to protect their interests against the flood of produce from the Dominions when the question of the revision of the Ottawa agreements arises next year.

There is a strong body of opinion among them that closer control of the growing volume of dairy and general farm produce from the Dominions is necessary.

Meanwhile, the National Farmers' Union is taking action to protect its interests generally. The Council of the N.F.U. has decided to apply to the import duties advisory committee for duties on all imported meat and livestock, and all poultry products irrespective of their country of origin.

On official of the Union explained, however, that this action was not intended to disturb the newly stimulated trade in empire farm products, but is designed to insure a standard and a remunerative price for home and empire producers. The Union has not suggested that the proceeds of any new or additional tariffs on farm products should be considered as a

levy to subsidize the British producer.

Meanwhile, Tom Wise, president of the National Federation of Meat Traders Association, has predicted the launching of an "Eat More Meat" campaign. He declared plans involving the expenditure of many thousands of dollars to stimulate public demand for meat were under consideration.

Smithfield Market Tenants, the Wholesale Meat Trade Federation and meat importing firms have conferred with the National Federation of Meat Traders' Associations regarding means of raising enough money for a really comprehensive "eat more meat" campaign.

Romney Territory Yields Two Stills

By United Press

The discovery of two stills two miles west of Romney was reported Saturday by Deputy Sheriff Ray Hardwick.

One of the stills had an estimated capacity of 200 gallons and the other 100 gallons. The recent operation of one of the stills was indicated in findings of the sheriff's department.

If the wagon bolts and the horse stalls whether an axle would tire. However, that may be, we don't tire of telling you that we are in the auto repair business to make bread and butter, and therefore believe that the only way to get a little more bread is by doing our work well, and charging enough to make a reasonable profit. No job too large or too small to pass up. Try us.

We have the Exclusive Agency in this City for the famous

Knit-tex Coat

In this community we are the only store privileged to sell the nationally famous Knit-tex coat, America's largest selling and most popular topcoat. This great over-garment is the most useful coat a man can own. It is extremely good-looking—soft and luxurious to the touch. It provides ample warmth on all but the coldest days and in mild weather it is never burdensome. It is sturdy and long-wearing and never wrinkles. In addition, it resists moisture and drizzle to a remarkable degree. It is a coat you can wear with equal confidence when you go to business—when you travel—when you go motoring—when you spend the week-end at the country club.

To Quickly Ease Pains of Rheumatism

Bayer Tablets Dissolve Almost Instantly

In 3 seconds by step water, a genuine BAYER Aspirin tablet starts to disintegrate and go to work. Drop a Bayer Aspirin tablet into a glass of water. By the time it hits the bottom of the glass it is disintegrating. What happens in this glass happens in your stomach.

Ask Your Doctor About Genuine BAYER Aspirin

Any person who suffers from pains of rheumatism should know this:

Two genuine BAYER ASPIRIN tablets, taken with a full glass of water, will usually ease even severe rheumatic pains in a remarkably short time.

Ask your doctor about this. He will probably tell you there is nothing better. For real Bayer Aspirin tablets not only offer a potent analgesic (pain reliever), but start going to work almost instantly you take them. Note illustration of glass.

Try this simple way. You'll be surprised at how quickly pain eases. Get real Bayer Aspirin by asking for it by its full name, "Bayer Aspirin" at any drug store. Now virtually one cent a tablet.

New CHEVROLET 1937

The Complete Car—Completely New

ON DISPLAY TOMORROW

NEW ALL-SILENT, ALL-STEEL BODIES
(With UNSTEEL Turret Top Construction)
Wider, roomier, more luxurious, and the first all-steel bodies combining silence with safety.

NEW DIAMOND CROWN SPEEDLINE STYLING
Making this new 1937 Chevrolet the smartest and most distinctive of all low-priced cars.

IMPROVED GLIDING KNEE-ACTION RIDE
(30% EXTRA COST)
Proved by more than two million Knee-Action users to be the world's safest, smoothest ride.

NEW HIGH-COMPRESSION VALVE-IN-HEAD ENGINE
Much more powerful, much more spirited, and the thrift king of its price class.

It's the newest of all low-priced cars... new in every feature, fitting and fabric... also the most thoroughly safe, the most thoroughly proved, the most thoroughly dependable.

TOMORROW, Chevrolet will present the brilliant successor to the only complete low-priced car—Chevrolet for 1937, the complete car—completely new. You'll want to see it, for it reveals an even greater measure of superiority over its field than the fine car which in 1936 set a new all-time high in Chevrolet sales.

Chevrolet for 1937 is *new all through*... new in the unequalled beauty of its **Diamond Crown Speedline Styling**... new in the unmatched comfort and safety of its **All-Silent, All-Steel Body**... and most excitingly new in the greatly increased power and acceleration of its **High-Compression Valve-in-Head Engine**. Then, too, this thrilling motor car is *proved all through*. It embodies all the extra-value features which have made Chevrolet dependable and complete beyond any other car in its price range.

See and drive the complete car—completely new. Let your own good judgment tell you that it's the outstanding value of 1937!

CHEVROLET MOTOR COMPANY, DETROIT, MICHIGAN
