### Britain Views Murder As A Serious Crime

It wasn't especially pleasant to read about the hanging of that English woman who poisoned an aged cripple to win an inheritance. But the story had overtones, just the same, on which we in America could dwell with some profit.

For if there ever was a case designed to show how British justice manages to get along without all the lather of sentimentality and soft-headedness which afflict the American variety, this was it.

Consider the facts briefly. Mrs. Dorothea Waddingham, trained nurse and mother of five children, fed poison to a patient who had made a will bequeathing to Mrs. Waddingham a considerable sum of money.

There evidently was no doubt as to her guilt; however, there was a man in the case—the father of two of Mrs. Waddingham's children—who was tried with her and found not guilty.

Because Mrs. Waddingham had five children, because it may have seemed that she was not solely responsible for the crime, and because the execution of a woman is never a matter which ordinary folk can contemplate calmly, the jury that convicted her added a strong recommendation for mercy.

The trial judge indorsed it. The public signed numerous petitions to the same effect.

But all this made no difference. These appeals went to the convicted British criminal's last resort, the home secretary—in this case, Sir John Simon—and he refused to intervene. Despite her five children, despite public sympathy, despite the attitude of judge and jury, Mrs. Waddingham was duly hanged in the manner prescribed by law.

The British, you see, have an old-fashioned notion that murder is a serious crime. They feel especially bitter about poisoners. Poison is so easy to administer, so hard to detect; the British seem to feel that, unless poisoners are given the heaviest penalties the law allows, without exception, their tribe will increase beyond all endurance.

So Mrs. Waddingham was hanged, in spite of everything. And the next time some English nurse feels moved to slip a little rat-killer into a wealthy patient's soup, it is quite likely that Mrs. Waddingham's experience will rise before her mind's eye and cause her to pause.

All this is worth going into at this length because, in America, we never seem able to adopt that eminently sensible viewpoint. Our sentiment always goes out to the killer, not to his victim.

If we had had Mrs. Waddingham over here, we would have had innumerable appeals stays, reprieves, and pleas for clemency. In the end, the lady might have spent as many as five years behind the bars; and her case would have been no deterrent at all to other potential poisoners.

The contrast is too striking to overlook. British law may at times be heartless and cold, but it is strictly logical. And—which is very much to the point—it does put the fear of God into murderers.

### Long Preparation Urged For Sleep

URBANA, Ill.—Start preparing for a good night's sleep shortly after you get up in the morning, advises Dr. Millicen Hathaway, University of Illinois economist.

One of her four fundamental rules to follow in good sleep is: "Consciously relax at definite periods throughout the day for regularly scheduled tensions. Thus you slow down the nervous mechanism and condition the muscles to period rest."

Three other "fundamentals" are: Establish a regular retiring hour, avoid evening excitement, and avoid a heavy meal near bedtime.

Iowa senator says Americans live on food unfit for dogs to eat. Certain bridegrooms, however, maintain their wives' offerings are eminently fit for the purpose.

### R. V. Galloway to Be Candidate For County Clerk Job

R. V. Galloway of Ranger has announced his candidacy for the position of County Clerk, subject to the action of the democratic primary of July 25.

In making his announcement Galloway stated that he intended to make a whirlwind campaign, and was starting out immediately to contact voters in a number of the towns of the county.

Galloway has been in the printing business in Ranger for a number of years and for the past few months has been serving the old age assistance commission in the capacity of investigator. He has resigned his position as investigator to wage an intensive campaign. Galloway has been a citizen of

Ranger for a number of years and has a number of years was publisher of a weekly paper in Ranger. His paper was sold to the Times Publishing Company in February, 1935, and since that time he has been operating a commercial printing plant in Ranger.

In announcing for the office Galloway stated that he would have an official announcement concerning his candidacy, which he would issue the latter part of this week or by next week at the latest.

### It's hard to persuade Pontiac owners that any car could be more economical

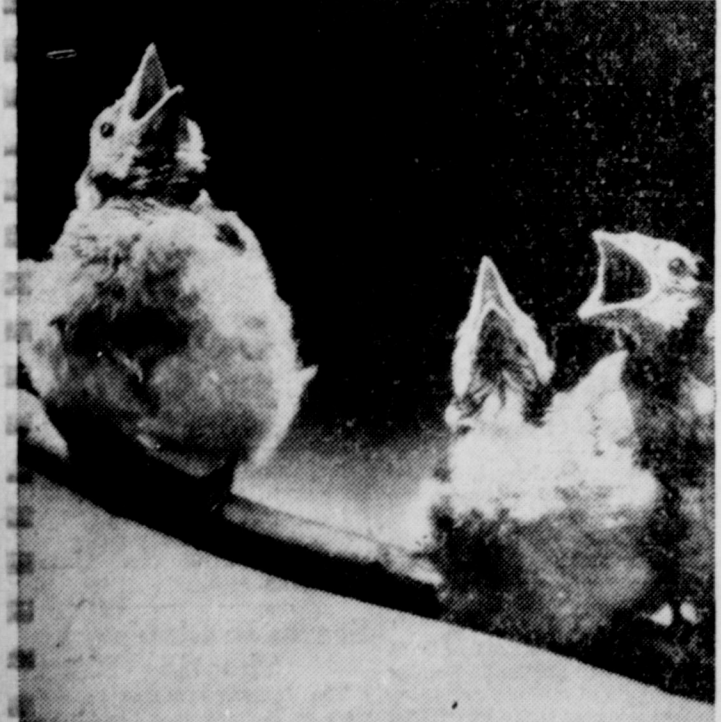

ALMOST all motorists who buy Pontiacs notice a sharp drop in driving costs. So it didn't surprise owners when Pontiac defeated all entrants in its class in the Yosemite Valley Economy Run—averaging 23.9 miles per gallon (no oil added), under American Automobile Association supervision. It simply made official what they knew before—you can't do better for all-around economy. Remember that when you buy a car. Over and above its smart distinction... its wealth of modern features... and its smooth, lively performance, Pontiac offers savings that are nothing less than phenomenal! It asks no odds of any car—not even for economy!

"Camels make food taste better and digest better," says Henry Siemer, master diver. "That tasty Camel flavor is made to order for me."

### ONE OF THE PLEASANTEST EXPERIENCES

of modern life is shown at the right. Leisurely diners at Jacques French Restaurant in Chicago enjoy such dishes as Baked Oysters à la Jacques and the other specialties of the house. And here again Camels are preferred for the flavor of their costlier tobaccos! "Camel cigarettes are most popular here," Jacques himself (left) observes. "Camels are clearly the favorite with those who know fine living."

### FOR DIGESTION'S SAKE SMOKE CAMELS

### Smoking Camels Encourages Good Digestion, Good Feeling... Increases Alkalinity

Modern days are trying. Nerves get "wound up." Hurry, worry, and strain tend to interfere with normal processes of digestion. It is a scientific fact that smoking Camels has an alkalinizing effect, through increasing the flow of the alkaline digestive fluids, helping to keep digestion on its proper course. You sense a comforting "lift" and feeling of well-being as you enjoy the delicate flavor of your Camel. You can smoke Camels steadily. With their matchless blend of costlier tobaccos, Camels never get on your nerves or tire your taste.

# ON TEXAS FARMS

After reading the March reports the county agricultural agents, R. Bentley, Extension Agricultural Engineer, commits himself to the belief that the work done in terracing and contouring land on Texas farms and ranches was "stupendous and colossal."

Bentley thinks that the answer to the oft-asked question "How is a terrace when there is nearly no growing crop?" is to be found in some of these reports.

Live Oak county—Crops must be planted on this land before

the terracing machinery will be available, but the farmers are leaving out a 25 foot strip along the terrace line so that the terraces may be built at any time the machinery becomes available.

Howard county—Early maturing or soil improvement crops will be planted on a strip 40 feet wide along the terrace line to leave ample room for the terrace building work without molesting other crops.

## Bare Weird 'Snake Murder' Tale

Accusing each other in a weird murder that rivaled a tale of Oriental fiction, Charles S. Hope, left, and Robert S. James, right, are held for the killing of James' fifth wife, and District Attorney Buron Fitts of Los Angeles, center, says he will ask the death penalty for James. The body of Mrs. James was found in the lily pond at the James home, which the three are viewing above. James is said to have confessed that he and Hope strangled the woman to a table and allowed rattlesnakes to bite her several times, then drowned her in a bathtub, later putting the body in the pond. James carried a \$10,000 insurance policy on the victim.

## Report Is Given On Music Meeting

Mrs. A. F. Taylor, piano teacher in the Eastland schools, entered six students in the Piano Tournament held in Abilene May 1 and 2. This group of students played from memory 79 pieces, Jack Coffman played fifteen pieces, making the National Honor Roll with highest honors a superior pupil and a grade of 95. Emma Lee Hart played four pieces making the District Honor Roll with high honors and was classed as an excellent student, with a grade of 90. Joe Cile Coffman and Lorene Stahr played 20 pieces each and were graded as excellent students on the National and High Honor Roll, with a grade of 90. Martha Lou MacDonald and Johnnie Lou Hart played ten pieces each and were graded as excellent students on the National and High Honor Roll.

Miss Catherine Fain of Dallas was the judge. Professor Earl Allison, former dean of Music at Hardin-Simmons University, is founder and president of the tournament. One hundred and ninety-eight students entered the tournament at Abilene on May 1 and 2, and approximately four thousand will enter the piano tournament in various towns over the United States by June 1st.

Joe Cile Coffman was one of four to enter in 1935, making National and Highest Honors with a repertoire of twenty selections.

## Employment And Payrolls Gained In Texas In April

AUSTIN.—Employment and payrolls in Texas recorded moderate gains during April over both the preceding month and April, 1935, according to the University of Texas Bureau of Business Research.

Reports from more than 1,400 representative Texas concerns show a total of 76,395 workers during the week ended April 18, an increase of 1.6 per cent over March and 1.4 per cent over April last year. Total payrolls for the week were 3.4 per cent above the like week in March and 4.7 per cent above the corresponding week in April last year.

Cities showing gains above the average increase for the entire state for the comparable period are: Abilene, El Paso, Laredo, Lubbock and Waco.

Industries showing better than average gains are foundries and

## Youth Group To Make Peace Study

GENEVA.—Representatives of youth groups throughout the world will wrestle with the problems of preventing future wars and organizing peace at a world congress which meets here from Aug. 31 to Sept. 7.

The gathering, which will be presided over by Sen. Henri Rolin of Belgium, head of the International Federation of League of Nations Societies, will discuss possible cures for the world's ills under three main headings: nations and the League of Nations; the economic and social organization of the world, and moral, religious and philosophical bases of peace.

Under the first heading, two lectures will be given, one on the organization of peace and the other on collective security and disarmament. The economic and social aspects of the discussion of the third problem, three points of view—the Protestant, Catholic and philosophical—will be stressed. All three subjects will be referred to special committees for further study.

We are glad to report all who have been on the sick list improving.

Mr. and Mrs. Woody Parsons are happy to announce the arrival of a fine boy in their home Tuesday, April 28.

On Friday, May 1, the patrons on the new route out of Thurbur met in the home of Mr. and Mrs. George Foster and welcomed the carrier, Frank Head. Cake and ice cream was served.

Mr. and Mrs. Clyde Woods and little daughter, Margaret Ann and Barbara June of Ranger moved in our community. We welcome them in our midst.

Mr. and Mrs. Lawrence Anderson of Russell Chapel passed thru here Friday enroute to the Stephenville hospital with their baby daughter who was ill with pneumonia and mumps. We have learned since that Mrs. Anderson is also ill with pneumonia. The last report from the hospital they were both improving.

Mr. and Mrs. Al Moody and little daughter, Juanita, spent Sunday at Sap Oak in the home of his sister, Mrs. Price Moody and family.

Miss Hermie Singleton visited in Gordon Thursday with Miss Alma Fulbright.

Little Jackie Carter has been very ill this week having relapsed with the mumps. He is improved at this writing.

Those visiting in the home of Mr. and Mrs. M. N. Singleton this week were Dr. J. H. Spratt of Iraan, Miss Willie Rigby of Min-

gus, Mr. and Mrs. W. W. Wiggins of Morgans Mill, Rev. James Bradford and Rev. E. E. Barber of Dublin.

Mr. and Mrs. Earl Blue and little son Larry Ross of Lake Creek were Sunday visitors in the home of her sister, Mrs. Loyce Venable, and family.

Mr. and Mrs. M. N. Singleton had as recent visitors in their home, Mr. and Mrs. Clemence Mansheim of Corpus Christi formerly of Fort Madison, Ia.

Mr. and Mrs. Bennett Goodloe and children, Billy Wayne, Ramona Ruth and Linda Lee returned home Saturday from Wichita Falls, where they had visited with friends and relatives for several days.

Mr. and Mrs. Lester Minnick and little daughter, Patsy Wannell of Iraan arrived here Saturday for a visit in the home of their parents, Mr. and Mrs. J. W. Minnick and Mr. and Mrs. George Cox.

Mrs. George Foster visited in Strawn Wednesday in the home of her sisters, Mrs. Bill Havens and Mrs. Mabel Foster.

Mr. and Mrs. Dean Wylie and Misses Ola Mae and Jannie Wylie attended the cemetery working at Hannibal Saturday.

Mr. and Mrs. M. N. Singleton spent Sunday at Liberty in the home of Mr. and Mrs. Henry Edgar Singleton.

Mr. and Mrs. Louis Hunt of Huckaby visited in our community Sunday afternoon.

ens. A liquid "prime" coat tar will be poured over that, and while it is still wet, the long strip of fabric, resembling heavy burlap bagging, will be laid.

Varying in width, the cotton strips are made so that three of them will cover the width of the road, with a three-inch overlap. Lengths will vary from 50 to 100 yards, with similar overlaps on the ends.

The road surface, two to three inches of bituminous (asphalt and cotton) material, then is laid on the cotton and rolled.

Engineers estimate roads averaging 20 feet in width would require about six bales of cotton a mile.

The government has made \$1,300,000 available for the experiment, which it estimates will build about 1,000 miles of the bituminous roads in various states.

H. H. Houk, engineer of the state highway department, said Alabama was in a peculiarly fortunate position to test the new fabric due to its "three-way" program.

Under the old relief setup, hundreds of miles of roads were started, with the county, state and federal relief administration each contributing one-third to their cost. Relief labor was used. Alabama was the only state to have such a program.

More than 200 miles of those "farm-to-market" roads have been based since last fall, ready for surfacing, so that the cotton could be placed on them in the next few weeks.

In conducting the experiment roads would be divided into mile sections. Four types of fabric, varying in weight, would be laid in adjoining sections, with the fifth division built without the reinforcement. Projects have been picked to test all types of road bases, level and mountainous terrain, urban and rural localities, and damp and dry sections.

Inspectors will ride the roads, keeping check in weather, volume of traffic, and road conditions, and will make constant reports to the federal bureau of roads.

Experiments also will be conducted in using cotton mats for "curing" concrete roads, but on a smaller scale.

Cotton brokers are watching the experiment closely, and in view of the unpredictable future of the new cotton control plan, regard the road project as the bright spot of the 1936 cotton market.

TOLEDC.—A new university will be formed here when St. John's University and Toledo Teachers' College merge. A name has not yet been chosen for the school. It will offer a complete signal education, Mgr. F. J. MacElwane, dean has announced.

# History Contest Winners Chosen

Miss Bertha Graham, 1013 Channing street, Dalhart, well-known Dalhart school teacher, wins the \$100 first prize in the second of a series of nine weekly Texas history contests sponsored by the makers of Post cereals, according to the judges, S. W. Pappert, president of the Texas Daily Press League, Inc.; C. C. Maes, general manager of the Houston Post; and Victor Schoffelemyer, president of the Texas Geographic Society, of Dallas.

Miss Graham's answer to the second contest question, dealing with the massacre at Goliad, March 27, 1836, received the highest rating among thousands of entries sent in from all parts of Texas.

A second prize of \$75 was won by Mrs. Bessie Ashenurst, 2723 Gould street, Dallas, mother of two grown daughters.

The \$50 third prize was awarded to a 14-year-old high school pupil, John Price, son of Mr. and

Mrs. Walter Price, of 205 East Pine street, Palestine.

Weekly advertisements published in Texas newspapers outline details of the contest, which has aroused interest among youngsters and adults. The advertisement announces the seventh history contest, which appears in this paper, urges readers to hurry their entries before the series ends in a few weeks. Contestants must answer, in less than 25 words, a question based on a momentous incident in Texas history and put to the contestant in this manner: "As a Texan—What would you say?"

Announcement of winners in the third contest will be made next week.

# COTTON ROADS WILL UNDERGO ALABAMA TEST

By WILLIAM BENNETT  
United Press Staff Correspondent  
MONTGOMERY, Ala. — Alabama will be the nation's testing ground for cotton highways if present plans of highway officials are approved.

The program, part of the federal department of agriculture's search for new uses for American-produced commodities, involves the use of rough cotton fabric as a reinforcement for bituminous surfaced highways.

The United States Bureau of Public Roads recently received the state's application for enough cotton to build 162 miles of road, embracing 14 projects in widely separated areas. Engineers are surveying the road sites.

In building the roads, a base of sand and clay, or gravel is laid and allowed to "ripen" under weather and traffic for several months until it settles and hard-

BUILT IN TEXAS BY TEXAS LABOR

TWO things above all are worth looking at carefully before you choose your new car. One is the real dollar value and motoring satisfaction you are going to get for your money. The other is the price of the car delivered and in your garage ready to drive. Here you see the low delivered price of a new Ford V-8. If you will drive this 1936 Ford car, you will also see at once how much greater value it gives you than even Ford has ever offered before. In performance, safety, comfort, and beauty, it is by far the finest Ford car ever built.

And all these plus values in any Ford V-8 at NO EXTRA COST TO YOU!

- Safety glass all around, and a windshield that opens.
- 6.00 x 16-inch Air-Balloon Tires.
- Free Action on all 4 wheels.
- 85 horsepower V-type 8-cylinder engine with dual down-draft carburetion.
- Silent helical gears for all speeds, including low and reverse.
- Super-Safety brakes with more braking surface per pound of car weight than any other car under \$3195.
- Centerpoise Ride—passengers cradled between springs on Ford's 123" spring-base, almost a foot longer than wheelbase.

### Eastland Federal Building Work Will Be Expedited, Blanton Wires

Construction of the new federal building in Eastland to house the Eastland post office is to be expedited, according to a telegram received by Postmaster Frank A. Jones from Congressman Thomas L. Blanton in Washington.

The site for the new building was acquired by the government from Dr. T. E. Payne in February and about 30 days later the lot was cleared and ready for actual construction work. Advertisements for bids to construct the building have been posted and will be opened in Washington at 1:00 p. m., June 4.

The delay in getting construction of the building under way was occasioned by a failure of the Labor Department to furnish wage scales requested last December, the telegram from Congressman Blanton, which was as follows, states:

"Have now gotten all obstacles out of the way and construction will be expedited on post office building. Long delay was occasioned by Labor Department to furnish wage schedules requested last December."

The telegram from Congressman Blanton was in reply to an inquiry from Postmaster Jones as to when construction on the building might be expected to be started.

### Attends Chevrolet Meet At Abilene

Chevrolet dealers in this territory have just returned from attending a very important meeting at Abilene. This meeting was May 1 under the direction of Arch Methvin of Chevrolet Motor Company. Attending the meeting from this territory were John D. Harvey of Harvey Motor Company.

This meeting was held for the purpose of putting into effect plans covering merchandise campaign throughout this territory in order that Chevrolet dealers might reap the maximum benefit from the great increased market that has developed in recent months. Due to the increased volume of new car business throughout this territory, Chevrolet dealers are receiving an exceptionally large volume of new car sales—and at the time—because of the great number of used cars being traded in on new cars, they have acquired exceptionally good stocks of used cars—and due to the popularity have obtained these used cars at a very satisfactory price, which we find as a general rule is considerably below current market values. As fast as these cars are properly reconditioned, they will be offered of the new 1936 Chevrolet, they for sale by the dealers throughout this territory. Mr. Harvey feels very confident that this good volume of business will continue and that he will have exceptional values in his used car stock in weeks to come.

### Eastland Student At College Given Club Recognition

### Rubinoff Holds World Record for Broadcasting

Rubinoff and his violin—and Chevrolet—are a combination that few, if any, radio listeners in the United States have not received in their homes via the air. The famous violinist and his Stradivarius, stars of the Chevrolet Musical Moments programs, have the distinction of going on the air from more broadcasting stations than any other program in the history of radio. Three hundred and seventy-eight stations broadcast Rubinoff three times a week, a total of 1134 fifteen-minute programs. That figures out at 283 hours, and if one week's programs were broadcast one after the other, day and night, it would require 11 days. The illustration shows Rubinoff, carrying his precious violin, posing with his car after a special appearance at Detroit.

### Snake Bite Season Suggests Caution

AUSTIN.—Spring fever, that seasonal malady which accompanies the first warm days and early blossoms, has become more or less of an epidemic, Dr. John W. Brown, state health officer, reminds the citizens of Texas with some suggested precautions. The most outstanding symptom of spring fever is the urge felt by both old and young to get out into the open as often as possible. While people are getting all the benefits possible from contact with Mother Nature, Dr. Brown urges the use of common sense precautions.

"Some of the glamour has been taken from the swimming hole by the modern pool," Dr. Brown said, "but it is more than offset by the sanitation and safety devices which promote health and save lives. Swimming now can be learned by everyone, without the needless sacrifice of lives and without the constant threat of typhoid fever which is a hazard of every out of the way swimming place.

"With the first excursions into the woods and fields in quest of wild flowers, everybody should remember that about 75 per cent of snake bites occur on the lower extremities. Snake bites could be prevented to a large extent by wearing boots or heavy leggings and being cautious.

"If one should be bitten by a rattlesnake, prompt action is necessary and a physician should be obtained as soon as possible. No time should be lost in removing the poison by suction. Apply a tourniquet above the wound and make cross-cut incisions over the fang marks. Suction should be applied for at least half an hour. The most dangerous fluid is farthest away from the wound; its absorption must be prevented as it is the source of the systemic poisoning.

### Announcement of Ed T. Cox Made

The Eastland Daily Telegram and Weekly Chronicle were authorized Saturday to announce the candidacy of Ed T. Cox for the 16th district state representative post.

Cox, a former member of the legislature in the house of representatives, has lived in Eastland County over 50 years. He came to the county from Erath County and has lived at Eastland and Carbon. Twenty-five years a farmer, Cox has also taught schools in the county and held the county clerk position.

### Donors to Scout Fund Are Listed

The following donors, in addition to those published Sunday, to the annual Eastland Boy Scout fund drive were listed by committee workers Thursday: Perry Sayles, Hoffmann & Page, E. E. Freyschlag Insurance Co., John A. Burke, Connellee Theatre, R. A. Larner, Frank Castleberry, R. H. Birmingham, Pete Collum, L. R. Gray, R. L. Young, R. E. Sikes.

### Error In Time Made Smaller By Clock

SYDNEY, N. S.—Father W. O'Leary, director of the Riverview Jesuit college observatory, has completed an astronomical clock which, according to experts, is nearer perfection in time-keeping than any other yet invented.

With the discovery of a score of new stars already in his credit, Father O'Leary spent 11 years on research work on the new clock, and another year on its construction.

The new principle of absolutely free pendulum movement which

he has adopted is believed to be an improvement on that employed by Short, whose clock is in standard use in the world's leading observatories.

Electrically driven, the new clock will not need the slightest regulation and, according to Father O'Leary, one dare not even touch it. It is so sensitive that an earth movement two or three thousand miles away will cause slight variation in its accuracy.

Now that rubber class has been invented, a Mussolini deft may get monacles bouncing on the floor of Parliament.

### Magnolia Lounge Is Being Built at The Centennial

DALLAS—Planned to typify the friendliness of the Southwest and the picturesque history of its various sections, the Magnolia Lounge is rapidly approaching completion on the Central Exposition Grounds of the Texas Centennial. Fred M. Lege Jr., vice president in charge of marketing for the Magnolia Petroleum Company, announced this week. A two-story building of ultra-modern design, completely air-conditioned by its own 20-ton refrigeration plant, and an adjoining cactus garden will provide a unique method of restful entertainment for weary sightseers and will represent an expenditure of more than \$75,000, Mr. Lege said.

The Magnolia Petroleum Company is building "Magnolia Lounge" on the Texas Centennial Exposition Grounds, Dallas, at a cost of more than \$75,000, to provide rest and entertainment for weary sightseers

Magnolia Lounge will offer a glimpse of the past and the present of the five states of Magnolia and a sample of Texas hospitality. All Centennial visitors will be invited to relax in cool comfort, among the interesting surroundings, as guests of the Southwest's first petroleum producing, refining and marketing organization.

Entering the Central Exposition grounds through the Grand Avenue entrance, visitors will find Magnolia Lounge near the Hall of Natural History, Fine Arts Gallery and other buildings in the civic and cultural group which surround a spacious lagoon. The approach to the building, an extensive terrace, is to be planted with many rare species of cactus native to the Southwest, with each plainly marked to show its nature, locale and history. The building itself is of stucco on concrete with hollow tile walls. An elevated promenade deck reached by an outside stairway extends over a sheltered area on the ground floor and will be equipped with comfortable chairs and tables for guests. Beautiful interior decorations and furnishings are by Neiman-Marcus of Dallas. Rest rooms for men and women will be handsomely finished in exotic marble and tile.

In the spacious lounge room where comfortable seats for 100 persons will be provided, continuous

ous talking motion pictures will be projected on a translucent screen in such a manner that will be clearly visible while the room remains lighted. Throughout the past year Magnolia has been producing these pictures with the utmost care in order to give Centennial visitors a true picture of the Southwest as it is today with a historical background depicting its romantic past. Completely non-commercial, the Magnolia Lounge has been planned in every detail solely to give the Centennial visitors a comfortable rendezvous where they may rest and at the same time become better acquainted with the great Southwest of yesterday and today. Magnolia invites Centennial visitors to "be our guests and rest at the Magnolia Lounge."

#### Kate Smith to Have Fifth Anniversary As a Radio Star

"When the Moon Comes Over the Mountain," the identifying

theme of Kate Smith and her Swanee Music will usher in the fifth anniversary of radio's most popular songstress, May 4. Coincident with this event will be the celebration of Kate's birthday. Since the announcement that she was to be tendered a party on that night by the Washington, D. C., unit of the A. & P. Tea company, she has been deluged with letters from her thousands of listeners extending congratulations and good wishes. Her desk has been piled high daily with bundles of fan mail.

Her hosts will be the employees of the Washington branch and their friends, and will include everyone from the leading executives down to the newest delivery boys. Ted Collins, her announcer-manager, and Jack Miller and his orchestra who are heard with Kate every Tuesday, Wednesday and Thursday on A. & P.'s popular "Coffee-Time" program over the Columbia network at 5:30 p. m. CST, will be on hand when she extends her greetings to her 3800 guests at Constitution Hall.

#### Hidalgo County Forming A Soil Conservation Board

EDINBURG, Texas. — Organization of the Hidalgo County Soil Conservation Board will be completed soon, according to County Agricultural Agent R. G. Burwell, who has been supervising local community meetings for the past week.

The county has been divided into eight districts containing about 500 farms each, and committees from each district have been named to participate in organization of the county-wide board.

The committees include three members and three alternates and chairmen of the committees will be named at the county board meeting.

##### BRECK OPERATOR WILL DRILL NEAR GRAHAM

GRAHAM.—A deal was closed and contract signed in Graham for a new deep test to be drilled on the H. L. Rogers land in the J. Ray Survey, six miles Southwest of Graham.

Art Cox of Breckenridge will drill the well and it is understood that work will begin at once. He agrees to drill to the new deep pay sand which is found around 4,000 feet in wells in the Rathke pool recently.

This well would extend the Rathke pool about a mile and half East.

A block of three forty acre tracts has been formed for the test. They are the Sneed, Rogers and Wadley tracts.

##### SHOT HELPS WELL NEAR DE LEON

DE LEON.—The Carter well on the Haynes tract, four miles west of this city, was shot with 60 quarts of nitroglycerine at 2:00 o'clock last Tuesday and responded with an increased flow of gas. The well has been tested and seems good for two and one-half million feet of gas daily. A large number of interested persons from this city witnessed the shooting. No oil or water responded as a result of shot. Only a trace of oil was found in the well. The well is regarded as a profitable gasser as it stands. It is about 2700 feet deep.

The owners are preparing to treat the well with acid immediately. This frequently increases the production of oil gases.

It is probable other wells may be drilled in the vicinity of the Carter well the Free Press has heard.

##### OFFSET OF BIG PRODUCER NEARING COMPLETION

MORAN.—The Lone Star R. W. Brooks No. 4 was reported to be 3121 feet Wednesday with prospects of drilling in next week. The well is being drilled to the Caddo line found there at 3400 feet. This well is an offset to the Brooks No. 3, which came in 6 days ago estimated at 4,000 barrels daily.

The No. 4 is about 600 feet northwest of the No. 3 and it is expected that the oil will be found in large quantities.

##### BAIRD—Leland Fikes, Ungren & Frazier have completed a well on the Jackson ranch which is making 180 barrels of oil per day.

The sand was encountered at 999 feet and completed at 1007 feet. Pueblo Oil company, C. B. Snyder No. 1-A, running pipe at 654 feet.

Pueblo Oil company, Mrs. Louise M. Williams No. 1, location. Murry & McDavid, H. W. Ross, No. 1, on location North of Baird school property, moving in rig and tools.

Jackson Bros., et al, in West Baird closed down at 540 feet. E. G. Johnson, A. G. Hobbs No. 1, drilling at 1345 feet.

Hal Hughes, T. A. Irvin, rigging up, ready to spud in for a 4650 foot test.

Tom Bryant, Bryant fee, cleaning out at 2850 feet, with a good show of oil and gas.

#### School Friend Says Hitler Mischievous

WOOSTER, O.—Adolf Hitler as a schoolboy was "bright, mischievous but not over-fond of study."

That's the picture of Hitler at 17 as drawn by John Schemmel, who was a schoolmate of the German dictator in the village of Hermannstadt in Transylvania.

Schemmel, once a wagonmaker, now a farmer, recalled that Hitler had a determined nature and "usually got what he went after."

"He was learning the trade of painter and paperhanger, while I was an apprentice at wagon-making," Schemmel said. "Hitler went to class wearing the clothes he wore at work. The smell of turpentine was obnoxious to one teacher."

"When Hitler learned that the teacher frequently dismissed class early to get away from the odor, he made it a point to increase the turpentine scent. The teacher protested but Hitler said he had no other clothes."

"He got a new suit out of the deal."

#### Public Is Warned About Misleading Civil Service School

WASHINGTON.—The United States Civil Service Commission has sent a notice to post offices, warning that misleading information is being given the public by representatives of some of the correspondence schools which sell "civil service" courses.

For a long time, the service has been receiving complaints from different parts of the country which indicate that opportunities for obtaining Federal employment have been greatly exaggerated.

It was made clear that no school has any connection whatever with the Civil Service Commission or with any other branch of the Government, and also that the Commission has no agents who solicit applications for Civil Service positions or who sell "civil service" courses.

No school can "guarantee" Government employment and none is given information regarding examinations, or any other information, which is not available to the general public. The Commission stated that it does not recommend any school, and explained that it is not necessary for anyone to take a course with a so-called civil service school in order to compete in a Civil Service examination.

A special point was made of the fact that information concerning examinations may be obtained at any time, without cost, from the Secretary of the Civil Service Board at any first- or second-class post office or from the Commission's office in Washington, D. C.

#### Philippine Regime Makes a Showing In First 6 Months

MANILA.—The Philippine Commonwealth government is nearly six months old and contrary to some predictions it has suffered no economic or political upheaval, nor has it slipped into the orbit of foreign powers.

On the other hand, affairs are moving forward in a manner to please the most optimistic.

President Manuel L. Quezon, without rest after the busy and tiring inauguration program, plunged vigorously into his administration and already has accomplished many things toward stabilizing the new government, including:

1. Inauguration of the national defense program.
2. Organization of a new appellate court.
3. Arrangements for retiring outstanding bonded obligations of the Manila Railroad, government-owned corporation.
4. Maintenance of law and order, including suppression of banditry in Tayabas, removal of a number of officials for inefficiency, corruption or the good of the service, and inauguration of a campaign against jueteng, prevalent form of lottery.
5. Reorganization of many of the departments and offices of the government.
6. Steps to prevent profiteering in the rice shortage.

Other items of lesser importance might be listed.

#### Farmers Grasp 4 Per Cent Interest Rates On Loans

WASHINGTON.—Attracted by the record-low interest rate of 4 per cent on new Federal land bank loans, 3,233 Texas farmers borrowed \$13,365,950 from the Federal land bank and Land Bank bank commissioner in the nine months ending April 1.

In announcing the total loans, Gov. W. I. Myers of the Farm Credit Administration said the average land bank loan in the state was \$4,117 with an estimated interest saving to the borrower of about \$115 a year, compared with the average rate which farmers refinanced had been paying on their debts.

The Federal land bank started making new loans through national farm loan associations at the contract interest rate of 4 per cent on June 24 last year.

Farmers used the 4 per cent for refinancing higher rate debts, for buying farm land and equipment and for other general agricultural purposes, the governor said. The land bank made 2,043 first mortgage loans totaling \$8,410,300.

Farmers borrowing from the emergency funds of the Land bank commissioner, many of them on second mortgage security, obtained \$4,954,750.

## REMEMBERING AUNT CLEMMIE

Great-Aunt Clemmie was brought up to the Spartan life. She enjoyed (she always said) getting up at five on a Saturday morning, hanging her market basket over her arm, and going down town to do the marketing for the week-end. She said, "If you get there first— you'll get the best!"

Aunt Clemmie is a fine reminder of her time. Nowadays one needn't rise with the birds to be sure of a full market basket. It's so much simpler and more efficient to spend a few minutes with the advertisements. Marshalled before you, in your newspaper, is all the news that is necessary for your good living. There, in the advertisements, are facts—sound, solid facts—about prices and quality. Advertised, trade-marked merchandise must be honest merchandise. Or it wouldn't be advertised.

**FIND HAPPINESS TOGETHER**

In "This Is the Life", JANE WITHERS plays her most dramatic role as a footlight darling who yearns to be just a "regular kid." Life on the open road with the gayest companions any little girl ever had brings her true happiness. JOHN McGUIRE and SALLY BLANE are featured. It is a Fox picture.

Robert Taylor in the romantic leads of "Small Town Girl."

More than a half-million fans have suggested that Taylor appear opposite Miss Gaynor since he made his first great success in "Society Doctor" not quite a year ago.

Since the flood of letters first began—and the idea seemed to strike almost simultaneously in a dozen sections of the country—the studio had been looking for a suitable vehicle. The search ended when Ben Ames Williams' new novel made its appearance. It was considered ideal for the photoplay debut of the two young favorites as a team.

"Small Town Girl" presents Miss Gaynor as a New England girl who rebels at the hum-drum

existence of life in a little town and impetuously elopes with Taylor, a sophisticated young city doctor. The elopement precipitates a social and domestic crisis, since Taylor is engaged to a Boston society girl, and Miss Gaynor finds herself ostracized by her husband's smart friends. The story concerns her determined fight to overcome this obstacle and to win the cooling love of her bridegroom.

Produced by Hunt Stromberg and directed by William Wellman, from a screen play by John Lee Mahin and Edith Fitzgerald, the picture boasts an excellent supporting cast headed by Binnie Barnes and including Lewis Stone, Andy Devine, Elizabeth Patterson, Frank Craven, James Stewart and a score of others.

**Ducks To Battle Skeeters In New Anti-Bite Drive**

NEW YORK.—Wild ducks and the prolific little killifish—two of Nature's greatest experts at mosquito birth control—are to be enlisted in a new kind of strategy to lengthen intervals between mosquito bites being launched for the first time at Long Island, N. Y., this spring.

And the new idea promises not only a unique means of relief from the pests, but it also promises settlement of a nation-wide controversy between wild-life conservationists and public mosquito control agencies, according to the More Game Birds Foundation.

Conservationists have protested that the spending of millions of unemployment relief dollars on mosquito marsh drainage without due consideration of its effects upon beneficial wildlife was creating vast "biological deserts." An enormous acreage of wild duck habitats has virtually been ruined by the work and the narrow steep-sided ditches have proven unescapable pitfalls for thousands of hapless ducklings, it is claimed.

Mosquito control experts have countered with the claim that no feasible plan to mitigate effects of marsh ditching on wildlife had been discovered. Now, after a cooperative study by the Suffolk County Mosquito Extermination commission, of Long Island; the Southampton Wildfowl association; and other wild-life interests, a double-barreled mosquito control-wildfowl restoration plan has been developed.

The new strategy to be used against the pests calls for the creation of numerous wild duck and killifish ponds in the mosquito drainage systems. Here the two prodigious consumers of mosquito larvae may flourish and multiply in miniature wildfowl picnic grounds.

The ponds are to be excavated at the junction of drainage ditch-

Excavated material is to be piled in the center of the ponds as nesting islands on which food and cover plants are to be set out to make them attractive to the ducks. To maintain water levels in ponds and ditches, enabling both fish and ducks to cruise the entire drainage system in search of mosquito wrigglers, miniature dams are to be installed at pond and ditch outlets. These will be of a suitable height to permit free circulation of water and to maintain adequate water levels in the system to protect aquatic waterfowl food plants and the fish from destruction during dry periods.

By United Press  
AUSTIN.—The right to vote is such an important one, that Atty. Gen. William McCraw believes it is his duty to give legal advice on the topic to all interested, regardless of position or party. Advice in other matters is confined to state officials, whose adviser he is.

"The custom of this office, in advising election officers, as to their duties and responsibilities deserves to be perpetuated," McCraw said. "It will be continued by this administration. In proper cases, individual citizens will likewise be assisted in matters touching their rights and privileges as voters."  
A booklet on election laws and procedure has been compiled by McCraw and has been printed. It is "not paid for by the state of Texas", the imprint informs.

EASTLAND WILL  
COLLECT TAXES  
BY LITIGATION

The Eastland city commission contemplates the immediate institution of suits against delinquent tax property owners, Mayor C. W. Hoffmann stated Thursday.

While officials are reluctant to undertake the litigation, it will become necessary unless the delinquent taxes are paid, Mayor Hoffmann pointed out.

Payment of the taxes now will mean a saving to the delinquent owners because they will save court and attorney fees.
