## ASSURANCE IS RECEIVED BY EASTLAND HEAD

Mayor C. W. Hoffmann of Eastland stated Saturday he has received the assurance of State Highway Engineer Gibb Gilchrist that work on the completion of Highway "89," Weatherford-to-Ranger cutoff, will be begun in its entirety December 1.

Mayor Hoffmann also stated Gilchrist has given assurance that the highway commission will resurface South Seaman Street in Eastland.

The assurance of the projects was communicated to Mayor Hoffmann through State Representative George A. Davison, Jr., who wrote that Gilchrist told him the work will be in accordance with an agreement reached at a conference of county citizens in Eastland July 10.

Those who attended the summer conference, arranged by Hoffmann, with Gilchrist, were Representative Davison, Jr., K. B. Tanner, Frank Sparks, Eastland; Mayor J. T. Berry, J. E. Spencer, Secretary of the Chamber of Commerce, Cisco; and Dr. H. A. Logsdon, Mayor of Ranger, L. H. Flewelling of Ranger, and Hoffmann.

At the conference it was agreed by Gilchrist, acting on authority of the highway commission, that the cutoff work would be completed wholly and not in sections and the resurfacing of South Seaman Street would be performed by the department as soon as approval was received by the federal government.

Recent proposals to divert highway funds for old age assistance was opposed in messages from supporters of the cutoff project.

The South Seaman Street project will be begun in November, according to Mayor Hoffmann.

Previously it had been reported the highway commission had entered orders providing for start of work on the "89" by Dec. 31. The "airline" route cuts off about 15 miles from the regular road to Fort Worth.

## Over Hundred Go To Kinard Reunion

One hundred and seventeen attended a recent reunion of the Kinard family at the home of Mr. and Mrs. U. G. Kinard of Cisco, Rt. 2.

## Power Employees Get Safety Plaque

For five years work at the Leon plant without lost time due to accidents, 45 employees were given a safety plaque Friday night at the Connellee hotel in Eastland by C. A. Lilly of Fort Worth, superintendent of power of the Texas Electric Service Company.

L. R. Gray, superintendent of the plant, received the safety award for the employees.

Principal speaker at the meeting, which included a dinner at the Connellee hotel, was A. W. Breeland, Dallas, supervisor of safety for the Lone Star Gas Company.

Other speakers included J. B. Thomas of Fort Worth, and Boyle of Fort Worth, vice presidents of the Texas Electric Company.

## Miss Mary Yonker Teaches at Denton

DENTON, Tex. — Miss Mary Yonker of Ranger is teaching home economics in the Denton Public School system for the first semester of this year. This work is included in the curriculum at Texas State College for Women (CIA) where Miss Yonker is working for a teacher's certificate in vocational home economics. She is the daughter of Mrs. Helen C. Yonker, and is a member of the senior class at the college.

## Surgery Gives Baby His Cry

A baby who COULDN'T CRY! What a boon, chorus parents who stumble forth in dead of night to still infantile yowls! But the mother of 13-month-old Eugene Greco missed the usual rumble, so Eugene went to a Pittsburgh hospital. There a surgeon found a larynx obstruction and remedied it, so here Eugene is shown apparently ready to try out his newly acquired wail.

## Hearing Is Called In Pleasant Grove Area of the County

Notice of a hearing to determine the vacuum to be pulled in the Pleasant Grove area of Eastland County has been received here from the State Railroad Commission. The notice of the hearing reads:

"It is hereby ordered that notice is hereby given to all interested parties that the Railroad Commission of Texas will, at 10 o'clock, a. m., on Monday, October 26, 1936, in the court house at Eastland, Texas, hold a hearing in the above number and entitled cause for the purpose of determining the vacuum to be pulled in the Pleasant Grove area of Eastland County, Texas.

"Pursuant to said hearing the commission will enter such rules, regulations, or orders as in its judgment the facts prescribed at said hearing may justify."

The notice is signed by Ernest O. Thompson, chairman and C. V. Terrell and Lon A. Smith, members of the State Railroad Commission and attested by C. F. Petet, secretary.

The number and cause referred to in the notice is listed as "oil and gas docket No. 125" and in re: Cause of crude oil and natural gas in the West and Central District of Texas."

## Citizens Thanked By Davis For Aid In Commerce Work

H. C. Davis, who resigned Thursday as secretary of the Chamber of Commerce, Saturday issued a statement thanking the citizens of Eastland for their cooperation.

Davis stated he would retain the secretaryship of the retail merchants association.

His statement was as follows: "I have enjoyed the work as Secretary of the Chamber of Commerce and deeply appreciate the cooperation given me by the board of directors, the business and professional interests and the entire citizenship of Eastland, but believe that my own personal interest and welfare should come first and for that reason I placed my resignation."

"I trust that the citizenship will support the Chamber of Commerce to the utmost of their ability both personally and financially so that the program of work that has been outlined for the new year can be carried out."

"I believe that Eastland will continue to progress, and as long as I remain a citizen of Eastland I will do my utmost to further any program for its welfare and growth."

## Suit Is Filed to Restrain Collection On Eastland Taxes

The effectiveness of a temporary injunction issued by 21st district court restraining the City of Eastland from collection of taxes on property owned by L. E. Gage, hinged Tuesday on the posting of \$250 bond with district clerk.

M. E. Lawrence, who filed the case for Gage, alleged attempts of the City to collect taxes on the plaintiff's property were illegal as the property was not legally added to Eastland.

Lawrence claimed Calhoun Addition, where Gage resides, was added to Eastland May 24, 1920, by an ordinance but residents of the section did not legally give their consent to the addition.

Gage's property is located in lot 8, block 3 of the addition.

## Five Former Mavs Lead Commerce to Bearcat Victory

Five former Eastland High School football players saw action last week for the East Texas State Teachers College team against Sam Houston at Commerce.

Early in first quarter Johnny Garrison took the ball on the Bearcat 40-yard line, stepped back and fired a high pass to Darrell Tully, who ran the remaining distance for a touchdown. In the second quarter, Garrison took the ball on an off tackle play and weaved his way 14 yards for another touchdown. Again in the third quarter he made the same play good for a score, this time by a run of 20 yards.

Randolph Railey played the majority of the game for the Commerce school as center. W. E. Kellert and Lee Taylor, also of Eastland, saw action.

## Special Venire of 140 Ordered For Murder Trial of Mrs. Raymond Henry

A special venire of 140 men from which will be chosen a jury for the Nov. 2 trial of Mrs. Raymond Henry on a charge of slaying her former husband, H. L. McBee, 42, was ordered Monday by B. W. Patterson, Judge of 88th district court.

The venire was ordered on motion of Criminal District Attorney Grady Owen. The venire will be drawn from the jury panel for the November term of the court.

Raymond Henry, 25, husband of Mrs. Henry, was assessed a 50-year sentence April 5 on his conviction of slaying McBee.

Lynn Smith, 29, is accused as a necessary in the case.

The state charged Henry with slaying McBee, a highway worker, at Rising Star May 1, 1933 and that the body was buried, exhumed three weeks later and hung from a tree to give the appearance of suicide.

The skeleton was found on the O. C. Broughton farm near Rising Star one year later by two boys. A fourth defendant, Jack Smith, 40, brother of Lynn, committed suicide in jail by slashing his throat.

Application has been made by the state for the subpoena of the following witnesses:

- Lila Gay Earh, Olden; Ollie Barnett, Carbon; Mrs. Hulie Erwin, Rising Star; Perry James Blake, Brown county.

Application has been made by the defense for the subpoena of the following witnesses:

- Clarence Butler, Hamlin; Alfa Butler, Hamlin; Vol Pennington, Wink; Finis Pennington, Wink; A. E. Hankins, Joshua, Johnson county; Mrs. A. E. Hankins, Joshua; Mrs. Viola Smith, Joshua; Mrs. Lois Smith, Joshua; Lynn Smith, Gatesville.

## Boys from County Live On \$10 Per Month at A. & M.

Nineteen Eastland County boys who are attending A & M College as members of the Eastland County Project Group received board and lodging their first month at an average expense of ten dollars each, according to Jack W. Morris of Ranger, manager of the group.

The project is made up of nineteen boys from all parts of Eastland County and was organized last summer, in cooperation with Elmo V. Cook, County Agent, and other A & M Ex-students of Eastland County.

Early in September a committee composed of Wesley Lane of Eastland, Billy Jake Joyce of Rising Star, and Jack Morris inspected several vacant houses near A & M College and rented a large house in Bryan. They were assisted in their plan by Dr. Daniel Russell, Head of the Rural Sociology Dept. of A & M. Just before school started a truck was hired to pick up the boys' baggage and other equipment at Ranger, Eastland, Rising Star, and Pioneer and take it to Bryan.

A house mother was hired whose duty it is to prepare meals for the boys and see that they are properly supervised. Practically every boy in the group has gained weight since school started. Groceries and other supplies are bought co-operatively through the Rural Sociology Dept. of the College.

The A & M Project House idea started five years ago with one project. Last year there were over 500 boys in 43 groups. This year there are 1000 boys staying in project houses. A & M College has the largest enrollment in history, more than 4,000 boys. It would have been impossible to accommodate all these boys but for the project groups. In former years, expenses of boys staying in project houses have been less than half the expenses of other students.

Eastland County boys who are members of the project are Cleo Key, L. A. Dolberry, Andy Taylor, Robert Henderson, Jack Goussard, and Wesley Lane of Eastland; Jack Gray, Billie, Billie, Jake Joyce, W. R. Rising Star; Foster Cash of Pioneer; W. C. Robert of Desdemona; James Collins of Cross Plains; and Jack Morris, Jack Waggoner, Jack Palmer, Jasper Woods, C. F. Poyner and Barton Watson of Ranger.

## ANOTHER TEST FOR NEW DEAL

The ruling of Judge C. B. Kenamer (above) of U. S. District Court in Montgomery, Ala., granting the Gulf States Steel Corporation of Gadsden, Ala., an order to halt collection of a 1 per cent payroll tax, intended to finance unemployment insurance, may bring the first test of the New Deal's social security program. It is expected the case will be carried to the U. S. Supreme Court.

## Agriculture Group Meets With Expert

The Eastland County Agricultural Council held its regular October meeting in the courthouse Thursday, October 15, at which time R. H. Bush, extension organization specialist, spoke to the group on approved activities for 1937. He also pointed out that the organization's duties are to assist in Government agricultural programs and cooperate with the county agent in planning and operating a worthwhile agricultural program in the county.

A committee composed of R. F. Cox, Okra; F. S. Boland, Scranton; A. L. McDonald, Rising Star; J. D. Guy, Carbon; W. J. Jones, Alameda; and T. E. Castleberry, Yellow Mound, was appointed to cooperate with the commissioners' court and the county agent in securing terrace-building equipment for the county and encouraging farmers to terrace and contour their land. This committee met with the county commissioners on Wednesday afternoon at 2 p. m.

In addition to cooperating with soil conservation programs, the council went on record as sponsoring boys' 4-H club work, preparing surplus feed by means of trench silos, and an educational program in the county which will give each farmer of the county an opportunity to state what kind of Government program he wants for 1937.

The meeting was attended by 13 of the 20 councilmen. The membership of the county agricultural council, which was elected by farmers of the county last spring, consists of Dick Weekes, chairman; R. R. Bradshaw, secretary; R. F. Cox, F. S. Boland, Oscar Schaefer, Joe Donaway, A. L. McDonald, W. A. Williams, J. E. Smith, J. D. Guy, H. W. Gilbert, H. A. Howell, L. A. Bennett, W. J. Jones, Ben F. Alcazar Siege Reveals Man's Innate Heroism

Whatever we may think about the rights or wrongs of the struggle in Spain, all of us can at least recognize dogged human heroism when we see it.

And as the correspondents at last pick their way over the ruins of the Alcazar fortress in Toledo and tell what they saw there, we have to realize that here, once more, has been retold the great story of the way ordinary human beings can set their teeth and take a beating.

There are times when life suddenly turns into a melodrama; when men are thrust into positions where there is nothing to do but to hang on tight and take the worst that can happen in the way of pain, hardship, danger and death.

Their lives resolve themselves into a struggle between the human spirit and the gathering darkness; and as the struggle goes ahead we suddenly discover that death is only an incidental thing, that to endure and to be dauntless is to win a victory that defeat and the grave cannot affect.

So it was with the English at Lucknow, with the Texans at the Alamo, with the Light Brigade at Balaclava, and with Lee's exhausted army at Petersburg; and so, too, it seems to have been with the rebels in the Alcazar.

Eleven hundred fighting men went into the Alcazar. When the rebel troops finally fought their way into Toledo and raised the siege, 90 of these men had died, 580 had been more or less seriously wounded, and 57 had vanished.

There had been 520 women in the place when the siege started. Two died and nine were wounded; two gave birth to children during the fighting.

The defenders had a quantity of grain, 97 horses and 27 mules, and a chest of medical supplies when the siege started. When it ended, one horse and five mules remained (the rest had been eaten), and the doctors had one bottle of chloroform and one bottle of alcohol left of their supplies.

During the siege the assailants rained 8500 shells and 4000 bombs and grenades on the castle. They made eight direct attacks on it, raided it by air 30 times, threw 200 jars of inflammable liquid into it, and set it afire 10 times.

For 71 days the defenders had crouched in underground cells and burrows, fighting and sleeping and eating and fighting again in a dreary, heart-breaking, endlessly monotonous round.

Those statistics sound dead and dry, when you write them down. But they do give us the outlines of an epic of endurance and solid, undramatic courage which deserves to be remembered.

For struggles like this one tell us more about the spirit of man than a whole volume of ordinary annals. They remind us that there is something utterly unconquerable in this blind, selfish, and frequently ignoble descendant of the angels; that he can, on occasion, look death in the eye without trembling, fight in the dark without aqualm, and hang on grimly when the last shadow of hope seems to be gone.

With all his faults, he can be a great guy when the pinch comes. Can we learn that lesson too often?

Brook trout lose 2.6 per cent of their length in death, science says, which refutes the belief that fishermen always stretch them.

90th Division to Hold a Reunion

FORT WORTH.—From present indications, the coming Convention of the 90th Division Association, to be held in Fort Worth November 6th, 7th and 8th will be one of the best ever held by that organization, according to John W. Wallace, Secretary of the Texas Division and General Chairman of the local Convention Committee.

The fact that the 36th Division will also hold its annual Reunion in Fort Worth on November 7th and 8th, will permit the veterans of these two outstanding Divisions from different communities in Texas and Oklahoma to travel together to this joint meeting.

November 6th; smoker, Friday afternoon; Friday night, entertainment in the ballroom of Hotel Texas; Saturday morning, November 7th, registration and smoker; Saturday afternoon, left open for attendance at T. C. U. vs. Texas football game and Arlington Downs races; also unit organization meetings Saturday night, Divisional banquet and floor show at Hotel Texas; Sunday morning, joint Memorial service with the 36th division at Trinity Park, followed by a barbecue.

Beattie, sub-manager of the National City Bank in Rio de Janeiro, said on his arrival in Dallas to visit the Texas Centennial. Brazil is fairly prosperous out the country's trade balance is gradually diminishing, Beattie said. Brazil's money is pegged to the franc but since the devaluation by France of its money, Brazil probably will turn to the British pound or to the United States dollar.

Beattie believes. The Brazilian and his wife sail "With the Wind," to find out who was formerly Miss Ellen Fulwiler of Abilene, came to Texas to visit her family and Beattie joined her a few days ago. They will return to Brazil in a short time. We are anxious to read, "Gone With the Wind," to find out who was formerly Miss Ellen Fulwiler of Abilene, came to Texas to visit her family and Beattie joined her a few days ago. They will return to Brazil in a short time.

FOOTBALL'S BIGGEST THRILL BY Ted Hussey FAMOUS SPORTS ANNOUNCER

THE GREATEST THRILL IN FOOTBALL IS A PERFECT SCORING PLAY. MINNESOTA PULLED A BEAUTY LAST YEAR IN THE MINNESOTA-NEBRASKA GAME

UNDEFEATED, MINNESOTA FACES TOUGHEST TEST MINNESOTA HAD ADVANCED DOWN THE FIELD FOR A FIRST DOWN ON NEBRASKA'S 9-YARD LINE. NOW HERE'S WHERE FOOTBALL BRAINS COME IN. HERE'S WHAT TO WATCH FOR AT THE NEXT GAME—

DOWN 1 YDS TO GO 9 BALL MINNESOTA GOAL TO GO! A LINE PLUNGE OFF CENTER IS STOPPED BY NEBRASKA. THIS PLAY IS NOT INTENDED TO SCORE. MINNESOTA IS DOING WHAT EVERY CLEVER TENNIS STAR, FENCER, OR BASEBALL PITCHER DOES—RUNNING PLAYS TO GET THEIR OPPONENTS OUT OF POSITION & OFF TIMING

DOWN 2 YDS TO GO 5 BALL MINNESOTA NEBRASKA STIFFENS! AGAIN MINNESOTA THRUSTS AT THE LINE. NEBRASKA STOPS THEM DEAD. THEY'RE FIGHTING WITH EVERY OUNCE OF VIGOR TO PREVENT MINNESOTA FROM SCORING—

DOWN 3 YDS TO GO 3 BALL MINNESOTA THE BIG MOMENT—WILL THEY SCORE? 9 TEAMS OUT OF 10 WOULD UNCORK THEIR SCORING PLAYS NOW, BUT NEBRASKA EXPECTS THIS. MINNESOTA HAS TO USE DECEPTION. FOR THE THIRD TIME THEY CRASH THE LINE. THE BALL IS ON THE 1/2 YARD LINE. MINNESOTA GOES INTO A HUDDLE—

DOWN 4 YDS TO GO 2 BALL MINNESOTA GIVE 'EM PLAY... AND COMES OUT WITH THE SWEETEST SCORING PLAY I'VE EVER SEEN. LET ME DRAW YOU A COACH'S DIAGRAM OF IT ON THE TABLECLOTH...

MINNESOTA IS IN SINGLE WING-BACK FORMATION WITH AN UNBALANCED LINE. THE QUARTER-BACK, #3 BACK, TAKES THE PASS FROM CENTER... DOES A HALF SPINNER... AND TOSSES AN UNDERARM LATERAL TO THE RIGHT HALF-BACK, #2 BACK, WHO FEINTS AT THE LINE, THEN THROWS A SECOND LATERAL TO THE LEFT HALF-BACK, THE TAIL-BACK, WHO HAS BEEN COMING OVER. THE TAIL-BACK PIVOTS QUICKLY AND CUTS OFF TACKLE... FOR A TOUCHDOWN!

MEANTIME EVERY MAN ON THE NEBRASKA TEAM WHO CAN STOP THE PLAY IS TAKEN OUT. THANKS TO THE THREE PLAYS JUST PRECEDING, THEY ARE OFF-BALANCE AND OUT OF POSITION. THIS MAKES IT EASIER TO STRETCH THEM DOWN FLAT AND OUT OF THE RUNNING. THE ACTION PICTURE SHOWS THE PERFECT MINNESOTA BLOCKING

BUSINESS FOLLOWS CONCRETE

CONCRETE HIGHWAYS PAY FOR THEMSELVES

Three reasons why concrete is the most economical pavement: 1. Long life and low upkeep—funds which would otherwise be spent for repairs may be used to complete your highway system. 2. Scientific investigation has proved that it costs motorists less to drive on concrete than on inferior surfaces. The saving is in gas, tires and car repairs. 3. Concrete builds business, promotes travel. A town on concrete is moved closer to all markets. And in addition to these money-reasons concrete pavements give motorists relaxation... comfort... and swift travel with SAFETY!

### New Auto Line Is Due by Chevrolet

O. E. Harvey of the Harvey Chevrolet Co., Chevrolet dealers, Thursday confirmed reports that Chevrolet would shortly climax its 25 years of manufacture by introducing a complete new line of cars embodying new beauty, style, safety, durability, and above all, performance capabilities.

Mr. Harvey cited official notice from Chevrolet headquarters in Detroit, confirming the report that the new car would be a valve-in-head six, the type on which Chevrolet has concentrated with such conspicuous success.

"More than 12,000,000 Chevrolets have been produced in the company's quarter-century of operation," he pointed out. "Of the number nearly 7,000,000 are still in active service. 1,125,000 of the 1936 models have been sold this year to date. According to word from Detroit, the forthcoming models, while new from bumper to bumper, will adhere closely to engineering principles which have helped Chevrolet to lead the entire industry in sales seven years out of the last ten."

The "balanced" performance of the power plant in the 1936 models is credited with a large share of the spectacular success which that product has enjoyed, Mr. Harvey asserted. "Our 1936 owners," he said, "report not only ample power for every possible requirement, but also durability, and oil and gasoline economy even after many thousands of miles. We have it on good authority from Detroit that the 1937 engine will rate still higher in all of these important respects."

FISHERMEN GUIDE PORPOISES  
By United Press  
GLOUCESTER, Mass. — Three fishermen reversed the process by which they earn their living and acted as "guides" to three bewilderment porpoises stranded in Smith Cove. Aware that the finny trio could not find their way out of the cove, the men lassoed one porpoise by the tail and towed it out to sea. The other porpoises trailed their companion.

ON DISPLAY at all Buick Showrooms

SPECIAL CENTURY ROADMASTER LIMITED

### FOUR WONDROUS NEW REASONS WHY: "It's Buick again!"

SENSATIONAL is the fervor with which the American public has taken to its heart the brilliant motor cars offered by Buick this year.

That's why every car in the 1937 Buick line—the SPECIAL, the CENTURY, the ROADMASTER and the LIMITED—is a triumph visibly and intrinsically outranking anything we have ever done.

Indeed, the sweeping success of the 1936 Buick program flatly challenged us and our great parent General Motors to a momentous decision.

Each has more beauty for dazzling style, more power for breath-taking action, more room for full-family comfort, more downright "road-command" for safety and pleasure.

Should we continue this amazingly popular line of cars into next year, perhaps the prudent thing to do—or should we dare broad improvement upon their spectacular excellence?

See them—then you'll know why Buick's soaring sales curve is headed for yet loftier altitudes next year.

We felt there was only one right answer to that question, the bold and progressive answer—and that's why insiders now forecasting 1937 are already saying: "It's Buick again!"

That's why on top of \$15,000,000 recently spent re-tooling and re-equipping Buick's great plant, we appropriated and are now spending \$14,500,000 more.

YOU'VE GOT WHAT IT TAKES!  
You can afford the new Buick. It's easy to buy and thrifty to own. With all its quality, its phenomenal performance and stunning style, prices start as low as \$765 and up list at \$14,500. ### Roosevelt-Garner Campaign In Texas Moving Smoothly

AUSTIN, Tex. — With less than a month until the national election Nov. 3 the campaign in Texas for Roosevelt and Garner is operating like clock-work, with all units cooperating and with quotas coming in steadily to the headquarters of Roy Miller, campaign director in this state. It is a real Democratic campaign, judging by the activity, rallies and meetings being held in all of the counties.

This year, since the national convention has abrogated the two-thirds rule in making nominations, in the future delegate strength at national conventions will be based on the number of votes cast in the general election. Unless all Democrats vote there will be danger of losing strength and prestige in the national conventions and in Washington government affairs, and at present Texas is prominent in control of party government matters. This should ever be sacrificed, and to maintain this power the vote of every Democrat and a contribution, no matter how small, is needed.

### Last Cave Dwellers Move from Dark Into Model Village

BUDAPEST—The last settlement of cave dwellers in Europe has disappeared.

Until recently, in a certain district of the Hungarian county Borsod, not far from the Czechoslovak border, several thousand poor farmers, together with their pigs and poultry, lived in caves into which no ray of the sun ever penetrated.

For many decades, neither authorities nor public opinion paid any heed to their condition.

Then recently, a group of socially minded young Hungarian writers roused the nation's conscience and started a movement to end this medieval situation.

### Car Registrations Show a Decline

AUSTIN, Texas.—New passenger car registrations in thirteen representative Texas counties during September, totaled 4,364, a decline of 14.6 per cent from August but an increase of 41.9 per cent over September last year, according to the University of Texas Bureau of Business Research.

The change-over to the 1937 models by a number of car builders doubtless accounts for the decline in sales from August to September, the Bureau's report stated. Unusually large back orders announced by several companies should soon be reflected in expanding registrations, the bureau added.

### \$1.50 Rate Quoted On Special Train

J. A. Stover, agent for the Texas and Pacific railroad, said Thursday a rate of \$1.50 has been quoted to organizers of a proposed special train to Sweetwater for the Mustang-Maverick football game Friday night, Oct. 30. Two hundred and fifty passengers would be necessary to secure the \$1.50 rate.

At the high school, where a group of students are sponsoring the excursion, it was said 18 names had been secured.

### Young Negro Boy's Desire for a Car Leads to Downfall

HOUSTON, Tex. — Jesse, eight-year-old negro, had an over-riding desire to own an automobile. He took a short cut by driving one from a parking lot.

### Still Coughing?

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with anything less than Creomulsion, which goes right to the seat of the trouble to aid nature in soothing and healing the inflamed membranes as the germ-laden phlegm is loosened and expelled.

# Mother, I can't Study - My head hurts!

AS A USUAL THING, he is "such a regular guy." He comes home from school full of pep and energy. Of course you want him that way always. But are you protecting his health and safety during the few short months of winter when he must spend his evenings indoors?

That uncomfortable "stuffy" feeling . . . dullness . . . lowered vitality . . . headache—these are some of nature's ways of complaining against improper heating and insufficient ventilation. These are the warning signals that America's Public Health Enemy Number One, the common cold germ, has found another fertile field in which to attack. For your health's sake and that of your loved ones do not wait for these definite signs of warning that the air indoors has become stale. Keep the air you breathe constantly purified with fresh oxygen through adequate ventilation in every room in the house.

Without oxygen man cannot live. Without oxygen, fuel cannot burn. Therefore, if your family "huddles" in one or two rooms around an open flame heater during cold weather with the doors and windows tightly closed, you are violating all the rules of nature, good health and good heating. Sooner or later the occupants of the room and the burning fuel reduce the oxygen content to the point where the room air becomes stale. Without adequate ventilation and circulation the air indoors may become as foul and unhealthy as that of the tenement slums of large cities, even though your home may be the most beautiful in the neighborhood.

A simple and easy method of providing a constant circulation of fresh air is found by opening a window in each room slightly. Connecting doors left open between adjoining rooms when the entire house is adequately heated provide a natural circulation of pure warm air from one room to another.

Guard the health of your loved ones with adequate heat and proper ventilation of pure, warmed air in every room in the house.

—LONE STAR GAS SYSTEM

The common cold germ is responsible for more than two hundred million illnesses each year.

### Without a Crankshaft Made

...airplane without crankshaft, valves, propeller, which burns ordinary fuel, and follows other general principles of internal combustion engines, has been invented by W. H. Smith after long experimentation. The engine was created to overcome energy used by ordinary engines in keeping themselves. The engine has eight cylinders, and runs four times per revolution of the engine, making 32 strokes for every two revolutions. The engine revolves in its casing, eliminating the necessity of a shaft. When completed the engine will produce 10,000 to 15,000 revolutions a minute, Smith says, or 4,000 revolutions a second under load.

### Most House Members Are Native Texans

AUSTIN—All but 26 members of the next House of Representatives, which meets next January, will be native Texans. Four of the members were born in Tennessee and four in Mississippi. There will be two each from Alabama, Georgia, Oklahoma, Iowa and Missouri. Other non-native Texans who will be in the House come from Arkansas, Virginia, Indiana, Kansas, North Carolina, Illinois,

### Flying Over Wells Dangerous Practice

FORT WORTH, Tex.—Flying an airplane over a "gusher" oil well or "wild" gas well is a thrilling experience—but a dangerous one—H. L. Patton, president of an oil well fire-fighting company, said today. Patton, president of the Patton Oil Well Fire-Fighting Company of Houston, warned local fliers that sparks from airplanes frequently ignite the gas-charged atmosphere above uncontrolled wells. The result is that pilots are in danger of an explosion. Another danger of such flying, Patton said, comes from rocks hurled into the air by gas pressure. The boulders blown from below-surface sometimes weigh 15 to 20 pounds. If one struck a plane the result would be disastrous, since those falling on adjacent buildings usually tear great holes in the roof.

### Galveston Starts Big Road Program

GALVESTON—The county commissioners' court has embarked on an extensive road building program. The commissioners authorized County Judge E. B. Holman to apply for a federal grant of \$284,963.82 to launch a \$633,252.93 project. Judge Holman said the plans include construction of 21.5 miles of concrete surfacing and improvements on roads between San Leon, Altax, Loma, Texas City and La Marque on the mainland and 61st street, each beach and other roads on Galveston Island.

### Program Outlined For Rising Star's Homecoming Event

RISING STAR, Oct. 22.—Arrangements have been completed for a barbecue dinner to be given for ex-students of Rising Star high school who attend the annual homecoming reunion on the high school campus Friday, Nov. 13. A program at the gym, beginning at 10 in the morning will include a welcome address by Mayor W. E. Tyler of Rising Star, who at one time was superintendent of Rising Star schools. The response is to be made by Hob Gray, professor in the University of Texas, who was a member of the original Wildcat football team in 1903 and 1904—one of the first high school teams in West Texas. This team won fame by defeating such teams as Daniel Baker and Howard Payne. In the afternoon all members of the original Wildcat team will be special guests at the football game between the Rising Star Wildcats and the Santa Anna Mountaineers, a conference game. The old players will be seated on the players benches.

### Presenting the phenomenal facts about GULFPRIDE

THE WORLD'S FINEST MOTOR OIL

THE facts on this page sound hard to believe. But here is the reason why GULFPRIDE—and only GULFPRIDE—can accomplish such results . . . Gulf begins with selected Pennsylvania crude, refines it to a motor oil that equals the best—then further refines it by the exclusive Alchlor process. Only GULFPRIDE is made by this process—result of 15 years' research—the same scientific research that has made every Gulf product a leader. Read the facts below. Then drain your dirty summer-worn oil and refill with GULFPRIDE now. At all Gulf dealers.

AN AMAZING TEST. Bottle No. 1 shows a mixture of 6 famous Pennsylvania motor oils. Bottle No. 2 shows them after being put through Gulf's Alchlor process. Bottle No. 3 shows the 20% waste removed from these already highly-refined oils by Gulf's Alchlor process. This process starts where others stop! That's why GULFPRIDE is the world's finest motor oil.

TOPS IN THE AIR—8 out of the 11 winners in last year's National Air Races used GULFPRIDE OIL, the identical oil you can buy for your car at any Gulf dealer. This "aviator's oil" will take you farther before you need to add a quart than any oil you ever used!

THE U. S. NAVY specifications for motor oil, as well as those of all other government agencies, are bettered on every point by GULFPRIDE. For instance, this oil forms only 1/4 the amount of carbon allowed by Navy specifications. That's why GULFPRIDE almost completely banishes carbon cleaning.

### Free Garbage Disposal Service For Residential Sections To Be Begun As City Project on November 1

Beginning of free garbage disposal service in the residential sections of Eastland was planned Monday night at a meeting of the city commission in the city hall. November 1 was set as the date of the inauguration of the service. Although the schedule for the

been maintained for the latter for years. Commissioners urged that citizens place their garbage in "suitable cans that one man can handle." Jess Richardson of the sanitation department, who has handled the mosquito problem this year, was named to direct the new city project, and employment of a negro laborer was approved. "There is only one mosquito to 10 last year," Mayor C. W. Hoffmann complimented Richardson. "I think you've done an awful good job."

### Says Rotarianism Brings Harmony in Rivalry of Cities

An opinion that Rotary clubs have done much to bring about a friendlier and more cooperative business and social relationship between the rival cities of Ranger, Eastland and Cisco was expressed Monday at the Eastland club by Fred Wemple of Midland, governor of the 41st district. Beside the inter-city results of Rotary, Wemple stated the organization brings a practical accord of different factions and coordinates community effort.
