

OLDEN, MORAN TO CLASH ON EASTLAND GRID

Olden, winner in one division of District 11, Class B, and Moran, winner in the other division, will play for the district championship at Welsh field, Eastland, Friday afternoon at 2.30, it was announced today by Coach Herman Struggs of the Olden high school Oilers.

The game is expected to draw a good crowd, because the two teams are about evenly matched, and both have made impressive records in their divisions.

Moran and Woodson fought to a tie in the second division, while Olden was winner in her division without a defeat during the 1936 season.

The Olden attack centers around Curry at quarter, Hyatt and Norton at halves and Anderson at full, with Curry and Anderson making one of the best aerial attacks in Class B football, and one that has not been stopped this year.

Moran also has a splendid passing attack and both teams are good on running plays as well as being among the best in their respective divisions on the defense which indicates that the game will be one of the best played in this part of the country this year, either in Class A or Class B.

A good attendance is expected when the two teams clash at Eastland Friday afternoon.

Terrace Lines On 26 Farms Finished

The NYA youths in Eastland county have run terrace lines on 26 farms for a total of 703 acres or approximately 369,975 feet of terraces since November 1st, announced Dan L. Childress, County Project Supervisor.

These boys are working on a soil conservation program sponsored by the Texas Extension Service and under the supervision of Elmo V. Cook, County Agricultural Agent.

All farmers that are planning to terrace their land between now and Spring are urged to take advantage of this opportunity to have lines run of their farms at no expense. Applications are received at the County Agent's office in Eastland.

Employees Receive SS Number Forms

Employees' application for account number forms were being delivered Tuesday to workers here by the postoffice. The distribution marked another step in the setting up of the machinery of the social security old age benefit program.

These forms, for convenience also being given to employers who in turn give them to their workers, are known as SS-5. They should be returned to the post office by Dec. 5.

Employees, if they wish, may obtain forms direct from the post-office. Forms may be returned direct to the post office, thus keeping all information confidential from the employer.

Sentence Is Given On Plea of Guilt

A penitentiary sentence of two years was received Monday by J. W. Adams from 91st district court after he pleaded guilty to a charge of burglary.

CCC Enrollment Is Again Opened

There will be another enrollment of boys for the CCC Camps during the month of January, according to information just released by C. J. Sweeney, District Administrator of the Texas Relief Commission, with head quarters at Abilene.

To be able to give the War Department information as to the number of boys that will be available, it is requested that all who desire to attend immediately, call at their county relief or welfare office and leave their names and addresses. Reports on the number of men available must be sent to Washington on Nov. 30, although applications will be taken until December 21. However, some idea must be had as to just how many will be ready to leave when the time comes.

This will possibly be the last opportunity for boys to make application for this training, and it is hoped that all who have a desire to attend will lose no time in registering with the least possible delay.

Ciscoan Obtains Poll Tax No. 1

Henry H. Curtis, Cisco claim adjuster, received poll tax receipt No. 1 in Eastland county, Deputy Tax Assessor-Collector, J. T. Cooper disclosed Tuesday.

Second poll tax receipt issued for 1937 voting went to J. T. Starks, Eastland printer.

Citizens have from now until the last day of January to obtain their poll tax receipt.

If polls and half of other taxes are paid on or before Nov. 30, the balance will be extended until June 30, 1937, without penalty or interest.

Re-Investigation Of Pensioners Is Started In County

Work was started Monday of this week of re-investigating the 500 applicants for old age assistance under the Texas Social Security Law, it was announced here today.

The work in this section is being done by W. W. Kelly of Eastland and Mrs. Lulu Riddell of Ranger, investigators for the old age assistance administration, which is now under the board of control.

According to the new law the applicants must be re-investigated to determine how much property is owned, whether or not it is bringing in any revenue, and whether or not the applicant has children from whom they can receive assistance.

Because of the regulations of the federal social security act, the re-investigation must be made in order that those who cannot qualify under the federal act can be removed from the rolls.

It was stated today that about 20 to 25 investigations could be made each week, and that with 500 applications on file in Eastland county it would take some time to complete the work.

Grand Jury Panel For Term Drawn

Jury commissioners of 91st district court for the December term have drawn the names of the following who will report at Eastland Dec. 7, for the formation of a grand jury:

J. R. Snoddy, Cisco, Rt. 4; J. E. Spencer, Cisco; Paul Poe, Cisco; V. V. Cooper, Ranger; F. W. Roberts, Rising Star; Ben Woods, Gorman; Clayton Cook, Gorman; Ira Swift, Rising Star; Gratton Adams, Okra; Andy Rhodes, Eastland; Ed Curry, Pioneer; F. D. Moore, Desdemona; John D. Harvey, Eastland; Oscar Schaffner, Nimrod; W. W. Speer, Carbon, and W. J. Jessop, Eastland.

Constable Position Attracts Another

Members of commissioners' court Tuesday had before them the second application requesting appointment as constable of precinct No. 6. The coming vacancy was occasioned by the recent death of Lee Barton, constable-elect.

HIGHWAY 89 CONTRACT TO BE LET SOON

Delegates representing the Highway 89 Association appeared before the State Highway Commission Monday morning at Austin relative to final plans for the topping and completion of Highway 89, extending from Weatherford to a few miles south of Strawn.

The delegation was assured that the contract would be let during December for the completion of said road according to order entered April 20th, of this year.

Delegates were present from Ranger, Thurber, Santo, Eastland and other places interested in Highway 89.

Highway No. 89 Association was formed at Abilene, August 14, 1935 for the purpose of promoting and securing the topping and completion of the highway. At the organization meeting Milburn McCarty of Eastland was elected president and R. V. (Rip) Gallo-way of Ranger was elected secretary, and the organization has since been very active in securing the final completion of Highway 89.

The representatives from Ranger at the hearing were Hall Walker, J. E. Meroney, J. J. Kelly, E. A. Ringold and L. H. Flewellen.

Romney Farmer Is Buried Near Carbon

Funeral services were held Saturday afternoon for J. T. Brown, 74, Romney farmer, with burial nine miles south of Carbon in the family cemetery.

Brown, who had farmed many years in the Romney community, died Thursday afternoon after a heart attack.

Six children by a former marriage and two step-children survive. His widow was the former Mrs. R. A. Abbott, whom he married near Cisco. They have no children.

Surviving children are T. L. Brown, Carbon; Mrs. V. M. Hitchcock, Gillian; J. L. Brown, Big Spring; Plez Brown, Ford City, G. W. Brown, Ford City, and Jodie Brown, Ford City. Miss Lucille urr of Long Branch and John T. Burr, address unknown, are the step-children.

Few Errors Seen In Farm Measuring

Few mistakes have been discovered in the measuring of farms for compliance in the soil conservation program. Conservation Agent L. N. Miller stated Saturday.

In an effort to determine accuracy in the work, a rechecking was held. Miller stated the mistakes discovered will not affect compliance seriously.

Three of the five districts in the county have been measured completely.

Mrs. Wheat's Home Scene of D. C. Meet

The Morton Valley Home Demonstration club met recently at Mrs. T. L. Wheat's home.

The vice president, Mrs. W. E. Tankersley, presided at the meeting. The club prayer was led by Mrs. Guy Stoker. Songs were sung by the group. Approved minutes were read by the secretary, Mrs. Guy Stoker.

First Tenants Helped to Farm Ownership

T. H. Scharff family, first of 200 in Texas to be accepted by the Resettlement Administration for its "farm tenant security project."

The Scharffs are being helped to buy a farm in Grayson County with annual installments no greater than they were paying as rent on the same farm. In addition, the farm is to be terraced and fenced, a new house to be built with modern conveniences, surrounded by trees and shrubs. This is made possible by three per cent interest and forty years in which to pay. Extension of this plan to a large per cent of tenant farmers would be provided under the Bankhead Jones Farm Tenancy Bill, scheduled for action at the coming session of Congress.

Olden Oilers Are District Winners

The Olden Oilers, in winning over Woodson Friday afternoon at Woodson by a score of 14 to 12, had their closest call of the season, but remained undisputed winners in their district, while Baird and Moran are tied for the championship of District 11, division I.

Olden will play the winner of division 1, probably at Eastland, next Saturday, since Moran and Baird both owe Olden a game.

In winning over Woodson, Olden had a close call. The Oilers scored in the first quarter, with Curry going over for the touchdown.

In the second quarter Woodson scored one touchdown, but failed in the attempt for the extra point, leaving the score at the half 7 to 6 in favor of Olden.

In the third quarter Anderson, Olden fullback, picked up forty yards on a gallup down the field to put the ball over the goal line but the play was called back and Olden given a penalty. Curry then took the air to put the ball in position to score and then carried over for the touchdown. Adams kicked both extra points.

Woodson threatened again in the final period, scoring a touchdown in the last three minutes of play, but failed again to make the extra point.

Curry and Anderson were outstanding on the offense for Olden, while Adams at tackle played the best game of his career. J. Norton and Holt at ends were also outstanding, as were Anderson and Hyatt as linebackers, the latter pair making more than half of the tackles. Dickey starred for Woodson.

Olden attempted 11 passes, six being completed and one intercepted and four incomplete.

The lineup for Olden was Holt and J. Norton, ends; Ray Howell and Adams, tackles; Rex Howell and Spears, guards; Fowler, center; Curry, quarter; Hyatt and W. Norton, halves, and Anderson, full.

Guilty Pleas Result In Prison Sentence

Three two-year sentences, made concurrent, were assessed Monday against Lewis Milton Weed after the defendant entered pleas of guilty in 88th and 91st district courts.

SECOND WELL TO BE DRILLED ON BRASHEARS

A spudder was being rigged up Saturday for a second well on the Brashear farm five miles south of Ranger and between that city and Eastland.

Garvin D. Chastain of Ranger, who drilled a discovery well this year on the farm which produced, at conservative estimate, 750 barrels daily initially, is responsible for the new location.

The new well, No. 2 H. Brashear, is located 660 feet north of the discovery location. It is 330 feet from the south and 6,700 feet from the west lines of the E. Finley survey.

About half a mile north of the No. 1 Brashear, Hoffmann and Page of Eastland are preparing to drill No. 1 Brashear-Fox, E. Finley survey, 330 feet of the south line and 330 feet west of the farm lines.

Eighteen Register For Scholarships

WACO — Eighteen students have registered this year as candidates from Texas for Rhodes scholarships at Oxford university, Prof. M. Trantham of Baylor university, secretary of the committee of selection for Texas, has announced.

The University of Texas has six candidates: Richard H. Ballinger of Hearne, William Russell Brown, Thomas W. Curtis, Jr., and Joe R. Greenhill of Austin, Charles E. Rothe of Sherman and Jackson H. Stuckey of Devers.

Other schools and the candidates who seek scholarships are: Texas A. & M.—Richard N. Conolly of Corpus Christi, Jesse C. Howard of Center and J. O. Silvey of College Station.

Baylor—William L. Strauss and Oscar Weatherby Jr., of Waco. Southern Methodist—A. D. Jett, Jr., of Dallas, and Morris T. Keeton of Overton.

Rice—A. Frank Smith, Jr., of Houston. Southwestern — T. Newton Starnes of Winona. Abilene Christian—Lemoine G. Lewis of Midlothian. Princeton—Cresson H. Kearney of San Antonio.

North Texas Agricultural—Kenneth O. Emery of Fort Worth. The Texas committee will meet Dec. 17 to nominate two candidates. The Gulf district committee, which includes Alabama, Arkansas, Louisiana, Mississippi, Oklahoma and Texas, will meet Dec. 21, at which time out of the 12 names submitted by the six states, four men will be selected for the Rhodes scholarships.

Lost Radium Is Found by Science

LUBBOCK — Texas Technological College professors recently found ten milligrams of radium that had been lost in a local sanitarium.

Insurance adjusters had called the faculty members to aid in the search after a nurse had let a platinum needle containing the valuable substance slip from her fingers.

Dr. E. F. George, head of the Texas Tech physics department, took electroscopes into the hospital room and found the needle imbedded in lint between the coils of a steam radiator, approximately eight feet from the spot where the nurse was standing when the object slipped out of her fingers.

"Huntitis" Grips The State Capitol

AUSTIN — The state government is undergoing its usual fall season of "huntitis." Officials go hunting game while capital visitors vainly hunt officials.

Gov. James V. Allred topped off a campaign for the national Democratic ticket in New Mexico by a week's hunt with Gov. Clyde Tingley. While he was hunting b'ar, Lieut. Gov. Walter Woodul planned a fox hunt in East Texas, leaving the executive chair at Austin vacant. Woodul missed his hunt because of a cold.

The real absence period began Nov. 16. Then deer and wild turkey began enduring an "open season." Some of the hunts held during this open season have become annual events with practically the same participants each year.

One inseparable hunting group includes Justices Richard Critz and John Sharp of the state supreme court. Board of Control Chairman Claude Teer and State Representative Harry N. Graves of Georgetown. Three of them have been hunting together for years. Judge Sharp is the junior member.

A senatorial hunting party that visits the hill country west of Austin, sometimes acquiring a few newspaper correspondents en route, is made up of Sens. Allan Shivers, Port Arthur; Will Pace, Tyler; John Redditt, Lufkin, and Wilbourne Collie of Eastland.

Members of the Court of Criminal Appeals save their hunting until the Christmas holidays. The courts are closed then, so the judges get in their shooting just before the season ends.

C. V. Terrell, railroad commission chairman, uses his vacation for big game hunting. His office is decorated with some wonderful moose and elk heads brought back from such trips.

Tyer Cultivates 18 Million Roses

TYLER, Tex.—Cultivation of 18,000,000 rose plants to be set out in the gardens of the nation next spring—more than enough to form a continuous rose fence from New York to Los Angeles with bushes set one foot apart—will mark 1936 as a record growing year, commercial rose producers estimate.

Approximately half of the huge yield will come from the concentrated rose cultivation area around Tyler, Texas. A. F. Watkins, "dean of the rose growers" in that region predicts. With the opening of the 1936 shipping season, he said, indications point to a production of about 9,000,000 plants from the Tyler district, easily topping last year's record output of 7,400,000.

Most of the remainder of the rose plants will come from the producing areas on the Pacific coast, and from the eastern section, including Ohio, western New York and Eastern Pennsylvania and Delaware.

"The prominence of Texas rose fields is due largely to the protection from plant diseases afforded by use of sulphur, a natural fungicide produced in the state," he said. "The fields are usually well protected against 'black spot,' the worst scourge of the industry, because of regular dusting with finely ground sulphur. The ability to obtain sulphur at low cost from Texas mines gives the growers a great advantage over other areas in fighting plant diseases."

The extraordinary success of the "Texas Centennial" rose—a new variety developed in 1933 and marketed in connection with the Lone Star State's exposition—has played a large part in the growth of the Tyler rose district. Watkins pointed out. He said contracts had been signed with 49 major plant distributors, representing every state in the nation where roses may be grown out-of-doors.

Deer Obtained by Alameda Resident

A 10-point buck was bagged last week by Dick Weckes of Alameda, one of seven from the county on a deer hunt in Real county.

Others in the hunt were L. C. Hail and son, Jack, of Eastland; Lee Gellay, Dick Carlile and Mr. Reynolds, all of Ranger, and Eugene Tucker of Eastland.

Funeral Held For Ben Sears' Mother

Funeral services were held at McKinney for Mrs. Joe B. Williams, 61, mother of Ben L. Sears, of Eastland, who died Sunday. Burial was at Farmersville.

A member of the Baptist church, she was born in Rockwall county.

Other survivors are her husband, her mother, Mrs. J. O. McKinney; two sons, Claude Sears of Dallas and Leonard Sears of Fort Worth; two daughters, Mrs. Tom Greer and Mrs. Deb Travillion of McKinney; a brother, R. H. McMinn, of McKinney, and five grandchildren.

Tools Recovered From Hickok Well

Tools dropped in the hole several days ago when the cable pulled out of the socket, were recovered in the Hickok Kleiner No. 2 Tuesday. The string was brought out with the pipe, to prevent caving the casing being pulled a joint at a time and stripped from the line by a laborious process.

At a total depth of 975 feet now, the pipe will be re-run and drilling operations resumed.

Meantime, the Lone Star Bogs No. 2, 2an offset to the west was drilling ahead at 1150 in shale.

Initiate Desdemona Girl In Society at Fort Worth College

Miss Mignon Whitworth, daughter of Mr. and Mrs. F. M. Hays of Desdemona, and senior at Texas Wesleyan college at Ft. Worth, was elected recently to membership in Mu chapter of Alpha Chi, national honor society.

Miss Whitworth, together with 12 other seniors and 16 juniors, chosen for their high scholarship, was initiated in a formal ceremony at Ann Waggoner Hall Monday night.

Miss Whitworth was also recently initiated into the Susan M. Key literary society on the campus.

McCarty Is Praised For Road 89 Work

Milburn McCarty of Eastland, president of Highway 89 Association, was praised by Highway Commissioner John Wood as having done more for the development of the road than any other, save former Commissioner W. R. Ely, of Abilene, according to a Dallas News report of a meeting of the highway association this week at Austin.

McCarty was one of several delegates from towns interested in the highway from Weatherford to three miles south of Strawn. They were assured contract for the road's completion would be let according to an order entered April 20th.

Eastland Lions Plan Sponsorship Of Negro Gridders

Plans for the sponsorship of a football team composed of negroes to compete in games against neighboring towns were made by Lion members at the weekly luncheon Tuesday in the Connellee hotel.

The committee on the team selection and games is composed of Johnnie Kitchen, John D. Harvey and John A. Burke. Present plans call for a game Friday afternoon, Dec. 4. The opponent may be Ranger or Cisco.

Profits from the games would be used in charity work.

Rev. P. W. Walker, pastor of the First Methodist church, made a talk. He was introduced by B. W. Patterson, lion tamer for the club.

Miss Olivette Killough was pianist for the club in the absence of G. W. Collum, who was ill.

John Garners Have Quiet Anniversary

UVALDE, Tex., Nov. 25.—Vice President John Garner and his wife observed quietly, today, their 41st wedding anniversary.

Garner and Ross Brumfield, Uvalde garageman returned empty handed last night from their latest deer hunt but the vice president hoped to find time for another expedition near Uvalde before he leaves for Washington on Dec. 1.

Agent Shoots Two Deer While Hunting

SAN ANTONIO — While some Texas turkey raisers withheld their birds from the market because of low prices, the Market News Bureau released figures to show sold storage holdings of turkeys nearly 500,000 pounds above last year's figures and above 2,000,000 pounds above the last five years' average.

The bureau quoted figures showing 4,119,000 pounds in storage Nov. 1, against 3,629,000 the same time last year and a five-year average of 2,070,000.

County Agent and Mrs. Elmo V. Cook had returned Monday to Eastland from Llano county where he shot two deer. One was an eight-point buck and the other five-point.

Pay Rolls of Texas Banks Are Reported

DALLAS—Texas banks employed 9,084 persons and had payrolls amounting to \$14,588,170 in 1935, William L. Austin, Director of the U. S. Bureau of the Census, has announced.

Of the state's 945 banks, only two failed to report.

Morton Valleyites Attend P-TA Meet

Mrs. Josie K. Nix, delegate, and Mrs. J. B. Rayfield, alternate of Mrs. Fay Couch of Morton Valley attended the recent four-day meeting of the Texas Congress of Parents and Teachers in Fort Worth.

THE WEEKLY CHRONICLE

Established Nov. 1, 1887

Entered as second-class matter at the postoffice at Eastland, Texas, under Act of March, 1879

Published Every Friday Office of Publication: 106 East Plummer Street. Phone 601

NOTICE TO THE PUBLIC

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation, which may appear in the columns of this paper, will be gladly corrected upon being brought to the attention of the publisher.

Obituaries, cards of thanks, notices of lodge meetings, etc., are charged for at the regular advertising rates, which will be furnished upon application.

Money Is but a Means to an End—Living

The queerest stories that ever get in the newspapers are the ones which appear every now and then telling how some miser has died of starvation or malnutrition while hanging on to a hoard of cash that would have bought enough food for a regiment.

Typical of these is a case that recently came to light in New York.

An aging spinster died in a hospital after having gone without food for four weeks. The medical examiner listed her death as "suicide by starvation."

As far as could be learned, the poor old woman had been so obsessed by an unreasoning fear of destitution by that she had been unwilling to spend any money on food. But she had \$5279 in the bank when she died!

What agonies of fear, distrust, and anxiety preceded this climax of tragic folly we can only imagine. It must take tremendous pressure, long applied to turn a mind upside down so that money becomes more valuable than the things it can buy—when those things it can buy are the price of life itself.

But the beginnings of a thing like that are easy enough to understand. You can see them all around you. Most of us have a hint of them in our own lives.

What is involved is simply a natural confusion about the primary object of living. Every man shares in it who is too busy at his bread-and-butter job to spare time for the fundamental joys of life.

Whenever we get so busy making a living that we have no time left for the living itself, we are on the same melancholy track that this deluded spinster followed—a long way behind her, perhaps, but still on the same track.

For life is more than a mere process of getting and spending. Its highest values are never found in the pay envelope or in the dividend coupon.

These things—the bits of cash we are able to win from a frequently stubborn world—are only means to an end. The end is the greater richness and fullness of living; the means are important only as they lead to it.

Everyone is perfectly well aware of this, of course; but how often, how tragically often, do we get mixed up about it! Who has not seen the busy citizen, ambitious, energetic, and eager to "get ahead," denying himself time with his family, time for those unremunerative moments of relaxation and meditation that help a man's spirit to expand, plugging along through youth and middle age—and then, suddenly, dying before he has had a chance to turn his achievements into happiness!

The world as Wordsworth remarked, is too much with us. To make life mean what it should we have to withdraw from it now and then; we have to get our happiness as we go along.

If we put it off until some indefinite tomorrow when we may have time, we run the risk of doing as this New York woman did—starving with money in the bank.

Edward Clark to Be Secretary of State Second Time

AUSTIN—For the second time in the history of Texas an Edward Clark will be its Secretary of State.

Capital friends of the latest Edward Clark to be designated for the position are wondering if he will advance from that office to Governor as did the former Edward Clark.

The first Edward Clark to become Secretary of State came from Harrison county. He served two terms by appointment of Gov. Pease in 1853 and 1855; then was elected Lieutenant Governor and became Governor when Gen. Sam Houston retired March 16, 1861, rather than take the Confederate oath.

The present Edward Clark, secretary to Governor Allred, will become Secretary of State Jan. 19, 1937. He comes from San Augustine, Texas. He is related only distantly to the former Secretary of the same name.

Clark will receive \$6,000 a year instead of the paltry \$2,000 that Secretaries of State have been receiving. He said that it was not the increased salary that caused him to accept the position.

The increased pay, however, may end the rapid turnover that has occurred in the Secretary of State's office. Since Texas changed from a Republic to a State in 1846 there have been 51 Secretaries of State. As living costs have advanced the time has been shorter per secretary. Not since 1898 has one man remained for two terms.

Greatest number of changes for a single two-year period has been experienced the past two years. Governor Allred's term began with appointment of Gerald Mann, former Southern Methodist university gridiron star, as Secretary of State. Mann resigned to become Washington representative of the Texas Planning Board, later resuming law practice in Dallas.

Mann was succeeded by R. B. Stanford. Stanford resigned last September to become District Judge at Waco at double the salary paid the Secretary of State. M. E. Sandlin, who had been assistant Secretary of State, was designated and acted a few days, after which B. P. Matocha, attorney for the Securities Division of the Department, was named Secretary of State.

Matocha's service was at a financial sacrifice. His better paying place in the Securities Division was not filled and he is expected to return to it.

Many Secretaries of State have given up the office after short service. John L. Wortham served from January to June in 1913. D. A. Gregg was there from November, 1914, to January, 1915. Jeff D. Strickland was Secretary of State from September, 1924, to January, 1925. Gen. Henry Hutchings served less than a year and then Texas had its first woman Secretary of State, Mrs. Emma G. Mehary. She was followed by Mrs. Jane Y. McCallum. A woman Governor, Mrs. Miriam A. Ferguson, returned the office to man's keeping. She appointed W. W. Heath. Mann succeeded him.

TAKE QUAKE PRECAUTIONS

By United Press LASSEN PARK, Calif. — Park officials have completed arrangements for the evacuation from the park of all strangers in the event any of the earthquake grumbings develop into real quakes. All scientific opinion to date is to the effect that they will remain just "grumbings."

RODNEY DUTCHER TELLS HOW SOCIAL SECURITY OPERATES; AFFECTS 26,000,000 AFTER JAN. 1

BY RODNEY DUTCHER

WASHINGTON, Nov. 21.—You might, but shouldn't, be pardoned for supposing that Congress had met secretly in the woods at night to pass the Social Security Act and that the president had furiously signed it, thereupon tucking the law into a desk drawer, where it remained until it was dragged out as a red-hot campaign issue.

Requests for information keep pouring into newspaper offices and the headquarters of the Social Security Board (SSB) in Washington.

Immediate interest is especially aroused by the contributory old-age benefits system, which goes into effect Jan. 1 for an estimated 26,000,000 and making them understand what the plan is all about is one of the great information-spreading tasks of history.

Cataloguing those men and women, seeing that they and their employers all pay the sums required to finance the scheme, and then seeing that each beneficiary gets what's coming to him is a job the magnitude of which exceeds anything of the kind ever undertaken.

It's a job, incidentally, where the biggest and hardest part will have to be done before the U. S. Supreme Court decides whether it's all constitutional.

HERE ARE CHIEF FEATURES

Main features of the Social Security Act are the following: Divide the program into its three main phases and you'll find it easier to comprehend.

1. Old-age benefits through an employer-employee contributory system.

2. A federal-state unemployment compensation system.

3. Public assistance through grants to states for aid to persons over 65, the needy blind, and dependent children.

The end of November will find those 26,000,000 workers in factories, mines, stores, offices, and on other business and industrial jobs, receiving from their employers application blanks which must be filled out and given to postmasters for transit to Washington by Dec. 5.

Each blank is an application for assignment of a number to the individual's "social security account," which is kept by the SSB.

Beginning Jan. 1 the government will collect a tax from both employers and employees on the workers' wages up to \$3000 a year.

For three years workers will pay 1 per cent per dollar of wages and the rate gradually rises until it becomes 3 per cent in 1949.

The employer, who forwards all the money involved in the tax, contributes a sum equal to all the taxes his employees pay.

MAXIMUM IS \$85

What the worker finally receives as a result of these contributions after he is 65 depends on the amount of wages or salary he receives between Jan. 1 and his 65th birthday. Minimum monthly payment is \$10 and maximum \$85, since, for purposes of the act, earnings in excess of \$3000 a year aren't counted as "wages."

Examples: Worker who earns an average of \$30 a week, or \$1560 a year, for 30 years after 1936 before he becomes 65 will receive government checks of \$50.75 a month for the rest of his life after he is 65.

If he dies before receiving

HOW AMERICAN PEOPLE ARE AFFECTED BY FEDERAL, STATE PROGRAM FOR SOCIAL SECURITY

- WAGE-EARNERS: 38 million men, 11 million women. May be eligible for Federal Old-Age Retirement Benefits, Unemployment Compensation, Maternal and Child Health Services, Public Health Services, Vocational Rehabilitation, Aid to Needy Blind.
ADULTS NOT WAGE-EARNERS: 5 million men, 31 million women. May be eligible for Aid to the Needy Aged, Aid to the Needy Blind, Maternal and Child Health Services, Public Health Services, Vocational Rehabilitation, Aid to Needy Aged.
CHILDREN (Under 16 years): 19 million boys, 19 million girls. May be eligible for Aid to Dependent Children, Maternal and Child Health Services, Services to Crippled Children, Child Welfare Services, Public Health Service.

Social Security Account Card

Above is a specimen of the Social Security account card, one of which will be issued to each employe coming under provisions of the law. This number is used in keeping records of the employe's Social Security benefit rights under federal and state laws. Employes will be asked to be especially careful not to lose these cards, though they can be replaced in case of loss, and to always give the account number in writing to authorities in connection with their accounts.

any monthly payments his family will receive 3 1-2 per cent of these wages, or \$1638. If he works but 10 years at an average of \$30 weekly before reaching 65, his monthly check will be \$25.50 and the death payment would be \$546. Ten years' work at \$15 a week would mean \$19 a month after 65.

All benefits will come out of the Treasury's "Old Age Reserve Account." Lump sums equivalent to 3 1-2 per cent of total wages are paid to workers who reach 65 before they qualify for monthly benefits, which will not be paid until 1942. These and death lump sum payments will begin to become payable in 1937.

HOW TO FIGURE BENEFIT: If you don't get an application blank from your employer, call around for one at the postoffice.

If you want to figure out what your monthly benefit will be after 65, estimate your total wages (not above \$3000 annually) between now and your 65th birthday. The percentage of those total wages payable as the monthly rate of benefit will be one half of 1 per cent on the first \$3000, plus one twelfth of one percent on the next \$42,000 and one twenty-fourth of 1 per cent on all over \$45,000.

To receive the \$85 maximum, your total wages would have to be about \$130,000. For each month in which you are regularly employed after 65, a month's benefit payment is deducted.

Chief exceptions from the system are agricultural labor, domestic service, casual labor, public employes, and non-profit organizations.

zations. So much for the old age pension plan.

MANY GET JO INSURANCE

The unemployed insurance provisions are something else again: Fifteen states and the District of Columbia now have unemployment insurance plans approved by the SSB. They cover about 7,500,000 workers.

The act provides a payroll tax rising from 1 per cent of total payroll for 1936 to 3 per cent in 1938. The SSB's approval of a state law enables employers sub-credit up to 90 per cent of the tax for contributions to their state unemployment compensation funds.

The tax applies to all who employ eight or more persons for 20 weeks or more. The states with unemployment compensation laws withdraw nine-tenths of it for their own unemployed by collecting that percentage as contributions under their own laws.

States with such laws now include Alabama, California, Idaho, Indiana, Louisiana, Massachusetts, Mississippi, New Hampshire, New York, Oregon, Rhode Island, South Carolina, Texas, Utah, and Wisconsin, and the District of Columbia.

Texas, most recent state to adopt a law, provides for unemployment payments amounting to 50 per cent of full time weekly wage with a \$15 maximum, after a two-week waiting period, for a maximum of 15 weeks, with special provisions for another 10 weeks.

Employers contribute from 0.9 per cent of payrolls on a rising scale to 2.7 until 1941, whereafter credits are allowed to employes who have had little or no unemployment.

MILLION ARE AIDED

Under the act's public assistance provisions, more than 1,000,000 poor and aged persons are now receiving cash allowances. About \$80,000,000 has been paid out in federal funds since February, to be matched at least equally by state funds for old age assistance, plus more than \$3,000,000 for the needy blind and \$8,000,000 for dependent children.

Forty-two states have approved plans for helping the aged poor and 27 for the blind and the dependent children.

Only about 180,000 persons were receiving state old-age pensions in 1934 and total payments to the needy aged are eight times as much today as was available from state and local sources two years ago.

For old-age doles, the federal government contributes half the payment up to a federal-state total of \$30 a month. The highest average old-age payment is \$32.50 in California and the lowest is \$3.50 in Mississippi.

Other phases of the Social Security Act cover grants to states for helping meet costs of maternal, child health, child welfare, and crippled children services,

and for extension of public health and vocational rehabilitation services.

ROLLS HIS "MAKIN'S" IN 10 SECONDS Can you do it too?

P.A. HUGS THE PAPER AND MAKES A SWELL CIGARETTE QUICKER'N A MAN CAN ROLL OFF A LOG. "I don't reckon that lightning-quick rolling is the main reason why Prince Albert is so 'specially popular. My hunch is that it's the mild, smooth flavor of it," says Tony Grimes. "They tell me that's due to the 'no-bite' process that takes the harshness out. Anyhow, we all agree that there's nothing like Prince Albert to make a man throw his hat in the air and give three rousing cheers." Try P.A. yourself. Maybe you can better Tony's rolling time. And note offer:

Roll yourself 30 swell cigarettes from Prince Albert. If you don't find them the finest, just roll your own cigarettes you ever smoked, return the packet in with the rest of the tobacco to use any time within a month from this date, and we will refund full purchase price, plus postage. (Signed) R.J. Reynolds Tobacco Company, Winston-Salem, N.C. Note: For grand pipe smoking, just try to equal P.A.

Copyright, 1936, R. J. Reynolds Tobacco Company

PRINCE ALBERT THE NATIONAL TOBACCO

\$1.00 A MONTH PAYS UP TO \$3000

No Medical Examination

Think of it! For only \$1.00 a month you may obtain a real Life Insurance Policy which provides up to \$1500 for Natural Death and up to \$3000 for Accidental Death, as specified, based on age. Ages 15 to 65. No Medical Examination. No Red Tape. No Investment Features. Sold by Mail Only. That's why you can get so much life protection for only \$1.00 a month. SEND NO MONEY—NO AGENT WILL CALL. To receive a policy for FREE INSPECTION, send a post card with your name, address, age at nearest birthday, and name of beneficiary. If not satisfied you owe nothing. If thoroughly satisfied with the policy you may then send \$1.00, which pays for your insurance until first of second month following registration, if application is approved. Since this FREE INSPECTION OFFER may be withdrawn, write today to GUARANTY UNION LIFE INSURANCE COMPANY, Dept. T-W, Beverly Hills, California.

Thanksgiving Dinner advertisement for Camel cigarettes. Includes images of a turkey, a Waldorf salad, and a plum pudding. Text: 'Thanksgiving Dinner... and then the peaceful feeling that comes from good digestion and smoking Camels! OFF TO A GOOD START—with hot, spiced tomato soup—delicious in itself and an exciting prelude to the delights to come! THE MAIN EVENT—the time-honored turkey of our forefathers—done to a crisp and golden brown—flanked by a mountain of ruby cranberry jelly. And you enjoy it even more when you smoke Camels. For Camels speed up the flow of digestive fluids. Increase alkalinity. Help digestion run smoothly. DOUBLE PAUSE—First for the crisp refreshment of Waldorf Salad—then for the sheer pleasure of Camel's costlier tobaccos. This double pause clears the palate—sets the stage for dessert. WHAT WILL YOU HAVE? Reading in a circle, there's a piping-hot Plum Pudding... luscious Pumpkin Pie... Mince Pie à la mode... and layer cake with inch-deep icing. Thanksgiving dinner just wouldn't be complete without one of the traditional desserts shown here to add their characteristic touch of holiday cheer. SO TO A HAPPY ENDING—over coffee and after-dinner Camels. Enjoy Camels—every mealtime—between courses and after eating—and you can feel on top of the world. Good food and good tobacco go together naturally! CAMELS set you right! They help to ease tension. And to increase the flow of digestive fluids—alkaline digestive fluids—so important to your digestive well-being. You enjoy food more and have a feeling of greater ease after eating when you smoke Camels between courses and after meals. Enjoy Camels all you wish—all through the day. Camels don't get on the nerves. And when you're tired, get a "lift" with a Camel. FOR DIGESTION'S SAKE—SMOKE CAMELS

Skid Weather Is Time to Change Driving Methods

"Skid-weather" days are here again presenting road conditions that demand a different driving technique and added attention to car and accessories, C. T. Lucas of the Lucas Service Station, Good-year dealer at Eastland, reminded local motorists today.

Accidents show a tendency to rise abruptly on "skid-weather" days, in spite of reduced traffic in times of snow and sleet, it was pointed out. Consequently, it behooves motorists who may pay little attention to their cars during the pleasant months of the year to check over carefully various safety points about the car in advance of the stormy days ahead.

"When roads are icy the driver is faced with new situations that call for different driving speeds and an entirely different technique behind the wheel. Similarly, the tire is called upon to face a different type of road surface, and much depends on the way it reacts. A tire that is worn but still holds the road well enough on a hot summer day is not good enough to cope with a treacherous ice surface, and the motorist who awaits an emergency to find out if his tires are good enough often has reason to regret his delay."

Mr. Lucas said. In addition, brakes should be carefully gone over and oil changed to grades better suited for winter driving, he advised. "Goodyear research engineers have discovered that tire receive less wear per mile in winter months than during the summer" he continued. "In addition to the safety standpoint this little-known fact is excellent reason, for replacing worn tires at this season. For the motorist has new tires for the dangerous winter driving and still comes into the summer season with plenty of traction left for his touring."

Methodist Pastor Rotary Speaker

Rev. P. W. Walker, pastor of the First Methodist church, gave a talk on the Thanksgiving line Monday at the weekly luncheon of the Rotary club.

The speaker was introduced by Rev. Charles W. Estes. Program committee-men were Earl Bender and Jim Horton.

President T. E. Richardson announced Ranger and Cisco Rotarians have been invited to attend Monday's meeting when Herbert Harris of Whittier, Calif., will speak.

Floyd Mundy was named to aid the club in having a full attendance. Rotarian R. L. Ponsler of Cisco was a visitor.

Chalk Artist Due At Church of God

Our services were well attended last Sunday. A number of new people were with us. Old fashion again, you will find an old fashion welcome at any and all of the services. We will have a special service next Sunday morning at the 11 o'clock service. Rev. and Mrs. Wm. A. Bixler of Indiana, the Chalk Artist, will be with us. You are sure to enjoy their singing and the beautiful pictures. He draws while he preaches and sings. You will be glad you came. The pastor and family leave early Wednesday morning for Houston, to attend the State Young People's Convention. They expect to return Saturday. Remember our services next Sunday and meet with us.—Robt. E. Bowden, pastor.

Library Receives New Books Here

Arrival of the following new books has been announced by the Eastland Public Library:

The books and authors are: "Drums Along the Mohawk," by Walter D. Edmonds; "White Oak for Harvest," Mazu-De-LaRoche; "Beyond Sing the Woods," Trygve Gulbrandsen; "Flowers of the Sun," Harvey Ferguson; "Mrs. Meigs and Mr. Cunningham," Elizabeth Corbett; "World with a Fence," Marion Sims; "Town Girl," Elizabeth Carraze; "Two Keys to a Cabin," Lida Larrimore; "Shadow on the Brook," Elizabeth Payne, and "Rainbow Glory," Louise P. Hauck.

Two-Day Holiday Due for Students

A holiday for Eastland school students and teachers on Thursday and Friday was announced Monday by Superintendent P. B. Bittle.

The Thursday date is Thanksgiving and the extra holiday Friday, has been extended to enable teachers to attend the Texas State Teachers Association convention in Fort Worth. The teacher's meeting will begin Thursday and conclude Saturday.

Supt. Bittle stated a number of Eastland teachers are contemplating attending.

Eastland Church Head Is Selected

Rev. L. C. Anderson has been assigned to the pastorate of the Nazarene church in Eastland, it was announced Monday. The appointment was announced with others of the Abilene district at a meeting in Plainview.

Rev. A. G. Pool was assigned to the Nazarene church at Ranger and Mrs. Maud Busby at Cisco.

Policeman's Annual Dance Date Near

Members of the police department Tuesday were making final preparations for the dance which it will sponsor Friday night at the Connellee hotel.

The dance, at which Joe Buzze and his orchestra will play, is to start at 9 o'clock.

Tickets may be purchased from Chief W. J. Peters or any member of the department.

GOOD SCHOLARS GET CASH PEPPING.—All university students who maintain a scholastic average of 85 or more are commended by their school authorities for exemplary conduct will receive \$100 as a cash award at the end of each school year. The government has appropriated \$80,000 for these rewards.

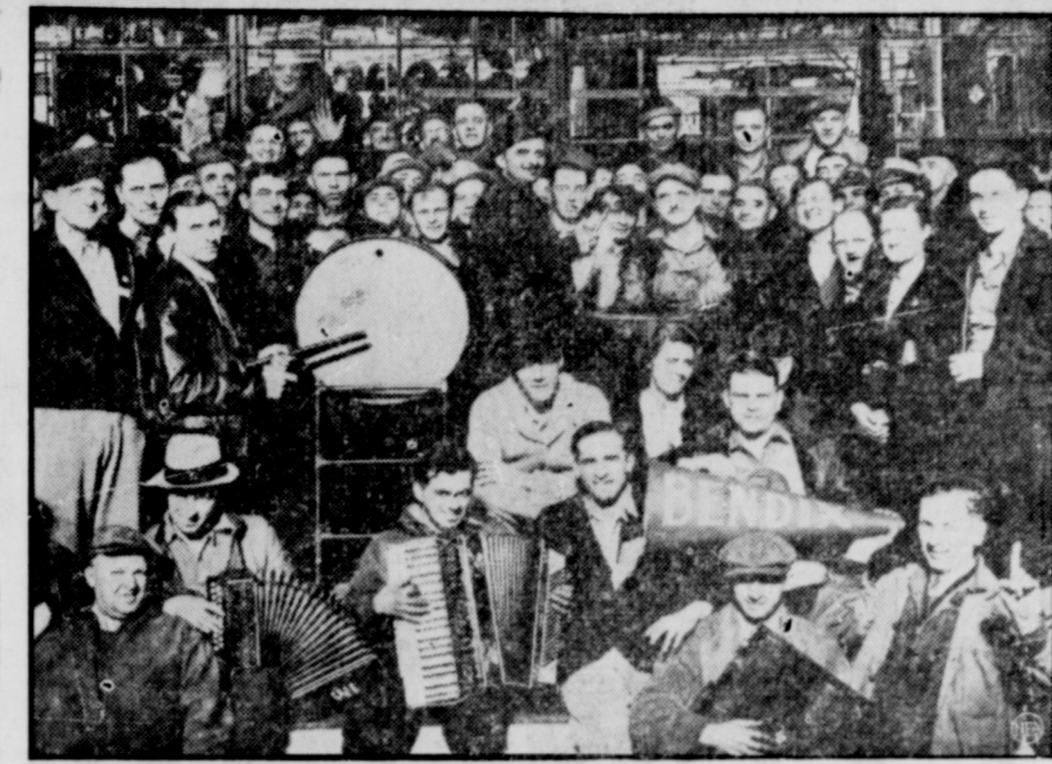

DOUBLE AS MUCH

Double your money's worth!

TWICE AS GOOD

Musical Interlude in Bendix 'Sitdown' Strike

As they waited results of their "sitdown" strike, these Bendix Products Corporation workers in South Bend, Ind., "holding the fort" in the plant, enjoyed a round of singing and "orchestra" music. Accordion, improvised drums, and megaphones comprised the musical instruments. Union officials said the 1200 strikers, ignoring demands to leave, remained in the plant rather than wait outside in the cold. Food was passed to them through windows of the plant. Strikers sought unionization of all employees, numbering about 4300.

40 Germs In Foot Of New York Air

NEW YORK — Forty or more germs may be present in a cubic foot of air in New York City, reports the American Institute of Sanitation. At times in some sections the number is much larger.

Most of the microbes found everywhere in the air are harmless and come chiefly from the soil, being blown about by the winds. They cause molds, decay and spoilage of foods. Some dangerous germs, however, do at times contaminate the air in New York and other cities, but as a source of infection the air is not regarded as great a peril as it once was, continues the institute.

"During the early days of bacteriology it was thought that most contagious diseases were air borne but with increased knowledge the list of diseases regarded as being transmitted by air has steadily decreased, until now only measles and small pox remain in that category. At one time yellow fever and malaria (which means "bad air") were thought to be air borne but it is now known that they are carried from person to person by mosquitoes.

"The fact that the atmosphere is not, in a narrow sense, an agent in the spread of disease does not mean that it is not important. Tests have shown that cold infections can remain suspended in the air for a long time in a closed room," continues the institute. "There may be many germs on the floor in a closed room and they may be set in motion when the air is disturbed. In that manner the air may contribute to the spread of various ills.

"Sanitation in schools, offices and other buildings is most effectively carried out by using disinfectants in the water used to wash the floors, for the germs settle on the floor and if they are destroyed there, they will not be put into circulation when the atmosphere is disturbed. Dust-cloths should be wrung out dry from an antiseptic solution before being used. This practice should be carried out in schools especially, where little fingers repeatedly go from desk to mouth."

Million Is Made After a Farmer Started In Debt

LONDON.—The story of how George Baylis, of Berkshire, overcame early adversity to become the largest farmer of arable land and producer of barley in England, was told by C. S. Orwin, Director of the Oxford University Agricultural Economics Research Institute, in an address at King's Lynn.

After six years of farming in Berkshire, Orwin said, Baylis lost \$3,000, and in his search for some other method of farming he came upon the experiments at Rothamsted, which proved that corn could be grown with an application of ammonia and phosphates. He made a great success of it, and eventually farmed 12,000 acres, half of which he owned.

Except for a few working horses Baylis dispensed with animals, and he obliterated villages and farmhouses in building up his great holding.

VILLAGE FEAR SKUNKS DOLGEVILLE, N. Y.—Village folk are sleeping with their windows tight these days. Reason? Skunks have come out of the woods at night.

"Never disengage the clutch until just before the car comes to a stop. Of course, if a cop is in sight it is wise to break away from her."

Pastor to Attend Houston Convention

Rev. Robert E. Bowden, pastor of the Church of God, and family will leave Wednesday morning for Houston to attend the State Young People's convention.

TOLEDO POPULATION RISES

By United Press TOLEDO.—Population has increased here 15,756 since the 1930 census to a new high of 306,474, according to the government-census bureau estimate.

Christmas Light Installation Begins

Workers Tuesday began the annual installation of lights which add the Christmas spirit to Eastland's square.

As is the usual custom, poles were being erected from the courthouse square in preparation to stringing lights from merchants' stores. The cost is paid by Eastland merchants.

Rubber Bands Shoot Small Fish Harpoon Man Inventor of Wild Rice Harvester

MIAMI, Fla.—A handy harpoon-rifle to shoot small fish is the invention of W. M. Edwards, Miami. He says the gun makes fishing even more interesting.

Edwards' gun operates with two stout rubber bands on a slide which stretches from the muzzle to the trigger on each side of the gun. A steel arrow six inches long is tied to the line of a fishing reel under the barrel of the weapon.

When the trigger is discharged, the bands are released and the arrow shoots from the gun as the line unwinds. When the fish is speared, the fisherman simply reels in his catch.

FOPLAR, Wis.—A scowlike machine that he says will harvest 1,000 pounds of wild rice daily has been invented by Emmett Curtis of Poplar.

Because of increased demand for wild rice as food for wildfowl, Curtis believed his invention may prove of great value. The machine, which picks only ripened rice, has been inspected by conservation officials, he said.

A motor-driven paddle-wheel mounted in the stern supplies locomotive power. On the bow are fastened rotating reels that beat the grain from the stalks into a container.

**WEEKLY
CHRONICLE**

Gasoline Usage In New York State Breaks All Records

NEW YORK—Following the reduction of the state gasoline sales tax to 3c from 4c per gallon on July 1, gasoline sales in New York state during July and August broke all previous records. Records of the American Petroleum Institute, compiled from official reports, show that gasoline sales in July, the first month of the lower tax, totaled 185,871,000 gallons, or 12.2 per cent over July, 1935. Sales in August, the second month of the reduced tax,

were 178,466,000 gallons, or nearly 5 per cent over August of 1935, which was the month of peak consumption last year. During the first six months of 1936, gasoline consumption in New York State was only four per cent greater than during the first six months of 1935, as compared with an increase of approximately 10 per cent for the whole country. The greatly increased sales of gasoline following the reduction of the tax rate brought the average gain in consumption for the first eight months of 1936 approximately to six per cent above the same period of last year. It is estimated that the 1c reduction in the New York gasoline sales tax will save motorists more than \$15,000,000 annually.

Sixteen Projects of WPA to Employ 839 of Jobless

SAN ANTONIO.—Allocation of \$136,033 for the operation of sixteen WPA projects will make jobs available for 839 workers, State Works Progress Administrator H. P. Drought announced today. Cities and counties sponsoring the projects have agreed to provide \$51,635 to assist in their operation, Drought said. Among civic public improvement projects authorized were: extension of water mains and repair of City Lake dam at Mount Pleasant; construction of sanitary sewers in Dallas, paving of market square at Cleburne, improvement of water mains at Palestine, construction of stone building to house a cannery plant at Camp Wood, surfacing of Corpus Christi streets, and additions to the sewage disposal plant at Aledo. A project for the improvement of eight miles of farm-to-market roads was approved for Mitchell County.

Sponsored by the University of Texas bureau of economic geology, the statewide mineral resources survey was authorized for Dallam, Donley, Freestone, Leon and Sherman counties. Wellington's cannery plant program was approved, a countywide library program was authorized for Fannin County, and a home economics project was made available for Bell County.

INDIAN CHIEF IN POVERTY NORTH MANCHESTER, Ind.—A movement has been started here to erect a comfortable shelter for John Newman, a 91-year-old Indian and former chief of the powerful Miami who once claimed this territory. Newman is living in a shack.

"Beaver! Beaver! Beaver! Beaver! Beaver! Beaver! Beaver! Beaver!"

The children of Japan must have a grand time when they play the old game of "Beaver"—look at all the bearded men there are in the land of Cherry Blossoms! The chin adornments belong to competitors for the distinction of passing the longest beard—and honors went to Naojiro Kato, 72-year-old hardware dealer, whose 5 foot 6 inch "beaver" dominates the right side of the picture.

Oldest Fireman Dies at McAllen

McALLEN, Texas—One of the oldest active firemen in Texas, Sid J. Purl, Sr., 61, resident of McAllen for the past 43 years,

died here after a lengthy illness. He began his career as a volunteer fireman as a member of the Georgetown volunteer fire department in 1893. He was a member of that organization for 31 years and served as department chief on several occasions. He moved with his family to McAllen in 1924 and immediately joined the McAllen organization.

Inland Sailor Is Building New Ark For Another Trip

WACO, Tex. — Commodore B. M. Hatfield, the Texas Noah, is building another ark—this one from part of three rusted East Texas steel oil tanks.

During the day, the solitary clank of the commodore's sledge rings through the wooded thickets that surround the new Texas shipyard. At night he stands watch over his ship by the light of a blazing log fire.

Curious residents of the neighborhood creep through the underbrush to watch the commodore at work—and to laugh. But that doesn't worry Texas' inland sailor. He just swings and sings.

Building boats is nothing new to Hatfield. Back in 1933 he built a boat, "The Texas Steer," from scrap lumber and fence timber. Then, one bright morning, he said goodbye to civilization and set sail.

He navigated streams that children couldn't wade in. He visited New Orleans, Birmingham, Chicago, St. Louis and all the towns up and down the Mississippi and Missouri rivers. Then he splashed his way to the Ohio river, the Colorado river and the Great Lakes.

The old "Steer" was only 25 feet long and was propelled by a small outboard motor. The new ship will be 112 feet long and 20 feet wide.

The purpose of the first trip was to prove navigability of the Trinity River. And the Commodore proved that it could be done—with sufficient pushing to get his boat over the sandbars and mud banks.

The projected trip in the new vessel will be to prove that larger boats can travel on the Trinity and its tributaries.

The commodore is asking the Dallas and Fort Worth chambers of commerce to guarantee him 1,500 pounds of freight. He also wants \$10,000 from the two cities to defray expenses.

But whether he gets the freight and the money or not, Hatfield intends to go ahead with the trip.

And perhaps in another year or so he will be coming back to Fort Worth, as he did in 1935, luxuriant whiskers blowing back in the wind, to tie his shop to a willow tree on the muddy banks of the Trinity, as proof that large ships can sail the inland waters of Texas and the mid-west.

Dotes on Perils of Boar Hunting

When sportsmen gather from far and near for the nation's only wild boar hunt, the center of attention is the only girl guide in the Cherokee National Forest in Tennessee, where the dangerous pastime is enjoyed. Ready for the chase, blond and pretty Miss Edith Haas is shown above. Below is the head of one of the fearsome beasts that range the mountain wilderness.

Re-Investigation Of Pension Claims Is Going Forward

AUSTIN — Investigators were busy this week throughout the 254 Texas counties re-investigating present old age assistance recipients granted aid under the old pension law, reported Acting Director Orville S. Carpenter, of the Texas Old Age Assistance Commission, today.

"No one will be removed from the rolls until a thorough re-investigation of his case has been made," he declared.

Last week Carpenter explained that there would be no arbitrary or mechanical cut in the rolls but that each case would be studied and re-investigated upon its own merits before any action were taken. Rumor that 36,000 aged would automatically be dropped from the assistance lists was declared unfounded.

"Re-investigations are now being made in each district of all people on the rolls who possess income or property. Their cases are being re-investigated to determine whether they are eligible under the new law. But until they are found ineligible they will continue receiving monthly checks," Carpenter stated.

Methodist Choir Cantata Planned For December 20

A Christmas cantata, "Night of Holy Memories," is scheduled for presentation by the Methodist choir at the church Sunday night, December 20, it was announced Saturday.

Miss Wilda Drago is director of the 38-voice choir. Ira B. Wilson is the author of the cantata.

Miss Jane Ferguson will be the pianist.

B.T.U. Delegates to Be Guests of H-SU

ABILENE, Nov. 23—More than a hundred of the delegates to the state B. T. U. convention in session Thursday, Friday and Saturday will be guests of Hardin-Simmons resident students, Dean R. A. Collins reported today.

Students living in Mary Frances, Ferguson and Smith halls voted in called meetings last week to contribute what bedding and linens they could spare to make visiting young people comfortable. Beds for the convention delegates will be placed in the students' since enrollment this year left very few vacancies.

Other convention activities involving Hardin-Simmons university are the music festival in the university auditorium Wednesday night, ushering by the famous Cowgirl organization for all convention assemblies, and the inter-sectional gridiron battle Friday afternoon between the Cowboys and Morningside college from Sioux City, Iowa.

The Cowboy Band and other student musical groups will contribute to the Wednesday night concert.

Pension Checks to Average More Than \$16 Under New Law

AUSTIN—Belief that the statewide average assistance grant would be larger under the new statute than the \$16 of the old law, was expressed today by Acting Director Orville S. Carpenter of the Texas Old Age Assistance Commission. He said he expected this trend to become apparent about the first of next year.

"Experiences of other states indicate that a 'needy only' program generally results in a higher average grant," Carpenter said.

"The present Texas average of \$16 is influenced by small allotments made under the old law to people barely meeting statutory requirements.

"Applicants and recipients needing only small grants now will be put on the rolls, of course, but I believe we will have fewer of them," he added.

SEE THESE BARGAINS IN HOMES TODAY

101 East Lens—\$1250.00
706 South Bassett—\$1000.00
605 West Moss—\$1000.00
803 West Valley—\$1000.00

Take the Hazards out of WINTER DRIVING

Winter will soon be here with deep mud and snow drifts. They will mean nothing to you, however, if your car is equipped with Seiberling Mud and Snow tires—the only "two-way" mud and snow tire on the market. Here is a tire that gives traction forward and backward—is self-cleansing—is quieter and thumpless on dry pavement, yet gives long, economical wear the year round.

SEE US TODAY FOR A DEMONSTRATION
Tell us what you think your old tires are worth and if your proposition is at all reasonable, we will allow you what you get as a trade-in on a set of new Seiberling Mud and Snow tires.

Libeled LADY
with WALTER CONNOLLY

ON THE STAGE WEDNESDAY ONLY

To Appear in Person on The Connellee Wednesday

Gene Autry, popular singing Screen and Radio Star who will head an exceptional array of Cowboy entertainers in a Special stage presentation at the Connellee Wednesday.

Star-Studded Cast Marks "Libeled Lady" at Connellee

Jean Harlow—William Powell—Myrna Loy—Spencer Tracy—all in one picture! There's a collection of outstanding film names, each of which is capable of ruling a motion picture cast in his or her own right. Only once in a movie moon is such a stellar aggregation of stars gathered together for one production. Metro-Goldwyn-Mayer has assembled them for its extravagant production of "Libeled Lady," the new season "special" which comes to the Connellee theatre Sunday for a run of 3 days.

It is a well known fact that when a film company loads four of its greatest personalities into one picture, that picture has what it takes. "Grand Hotel," and "Dinner at Eight" are outstanding examples of star-studded hits of the past. Now comes "Libeled Lady," engrossing story of an heiress slandered by a metropolitan newspaper and suing for libel to the tune of five million dollars! The move involved four principals—the heiress, the newspaper's managing editor, the girl whom he is pledged to marry, and a very clever gentleman of the Lothario school who has achieved a unique reputation for his unrivaled ability to quash just such libel suits.

CLASSIFIED

FOR RENT—20-acre farm, well improved, at Olden. Inquire Pickering Lumber Co.

ELECTRICAL APPLIANCES

Texas Electric Service Co.

FOR RENT—Modern four-room furnished apartment. All bills paid. See Mrs. Frost, 201 S. Walnut.

MISS HARLOW, fresh from her recent success in "Suzy," plays the role of Gladys who is persuaded to enter into a marriage of convenience in order to help compromise Myrna Loy in the role of the libeled heiress, Connie. Powell is the man selected to "frame" Miss Loy in order to force her to drop her suit and Tracy is the harassed managing editor of The Evening Star. Prominent in the supporting cast are Walter Connolly, Charley Grapewin, Cora Witherspoon, E. E. Clive, Lauri Beatty, Otto Yamnoka and Charles Trowbridge.

OF interest in connection with "Libeled Lady" is the fact that its stars, while having never before been assembled for one picture, have worked opposite each other as co-stars. Miss Loy and Powell first achieved co-starring success in "The Thin Man," and recently created a triumph in the sensational "Great Ziegfeld." Miss Harlow and Tracy were the principals in "Riffraff."

SIZE KEEPS POICEMAN DOWN

By United Press
FORT WORTH, Tex.—I. L. Burton, policeman, was too big for promotion. He could ride a motorcycle, and asked for promotion from his beat when a vacancy was created on the motorcycle squad. Chief of Police H. B. Lewis ruled Burton out because of his size—6 feet 6 inches.

At the Connellee, Saturday Only

Best Policeman's Dance Is Promised

The Friday night's policeman dance at the Connellee hotel will be the "best" ever sponsored by that department, Chief W. J. Peters said Wednesday.

Peters said it would be the best because Joe Buzze's orchestra has been secured for the first time. From reports it was stated Buzze's orchestra is the most prominent to have played in Eastland for several years.

Tickets may still be secured from any member of the police department.

Fort Worth Dog Is Found In Denver

FORT WORTH—It was a long route, but Roscoe Fleming of Denver, Colorado, former Fort Worth newspaper man, learned that his dog had been found.

T. P. McKinstry of Denver found the dog wandering near his home. He noticed a Fort Worth license tag and asked local tax collectors whose dog it was. The Fort Worth Press, which formerly employed Fleming, notified him that his dog had been found—in

Gene wears one for the first time, either on or off stage. In part of the story, he impersonates a French count of no account. "Walking on Air" is based on the Collier's story, "Count Pete."

Happy Helpers Club Has Quilting Party

The Happy Helpers club met at the home of Mrs. Guy T. Smith at 1 o'clock, Thursday, Nov. 19.

The club pieced a lovely red, white and blue friendship quilt for their hostess. While Mrs. Smith was teaching the ladies did the piecing of the quilt. She was called home to find a house filled with friends and a beautiful friendship quilt.

After refreshments were served each member was presented with a present from her unknown club sister. The club was glad to have Mrs. Somersall, a sister-in-law of Mrs. Ferguson, as a guest.

After the social, the club adjourned, planning to meet with Mrs. Dave Tarrant for their next meeting, Dec. 3.

"THANKS A MILLION" FOR MORE THAN A MILLION

America has bought 1,130,000 Chevrolets during the past twelve months, thereby giving Chevrolet the greatest year in its history and the greatest measure of buyer preference it has ever enjoyed.

The builders of Chevrolet are thankful for many things, but most of all for the warm friendship of the American people.

And so again at this Thanksgiving season we say, "Thank you, America," for you have given Chevrolet a measure of good-will without parallel in the annals of modern industry.

Consider, for a moment, all that you have done to inspire Chevrolet's appreciation during the past twelve months:

You have purchased 1,130,000 Chevrolets; you have made Chevrolet your favorite car for the seventh time in the past ten years; you have given Chevrolet strong preference in every section of the country; you have conferred this same high honor upon Chevrolet trucks by purchasing more than 205,000 commercial units; you have made 1936 the most successful year in all Chevrolet history.

And now, to climax these expressions of friendship, you are displaying even more marked preference for the new Chevrolet for 1937.

It is difficult to express adequate appreciation for gifts so great and so generous as these.

All we can say is, "Thanks a million" for more than a million cars in 1936; and all we can do is offer you the still finer Chevrolet of 1937 in return for the finest friendship ever bestowed upon any motor car manufacturer.

Sentimental Old U. S. Government Comes To The Aid of Cupid When Love Is Placed On a Cash Basis

BY FREDERICK C. OTHMAN
United Press Staff Correspondent

WASHINGTON.—This good old sentimental government of ours has come to the aid of cupid, putting love on a cash-and-carry basis and socking errant husbands where it hurts the worst—in the bank-roll.

Publishing 116 pages of income tax regulations, the Treasury department stressed romance and the rest thereof. It also pondered the question of actors' pants and reached a sharply worded decision in connection with the taxability of soldiers' swords.

When a love affair flowers in a June wedding, the treasury promised it would have a tax collector waiting for the government's share of whatever the groom pays the preacher.

If the romance goes blowie, however, and the lady concerned slaps a breach-of-promise suit on her erstwhile suitor, the latter is out of luck, insofar as the treasury is concerned. No matter how much he has to pay for breaking her heart, he can't deduct a nickel from his income tax.

Should the wedding take place, the government will cooperate with the usual \$1000 a year deduction from the taxable income,

so long as the wife lives with her husband. Let her spend a year in Europe, though, and there's no deduction. If she rests a year in a sanitarium, the husband can claim his deduction, but he won't get it unless he can prove his wife was mighty, mighty sick.

If she leaves him, sues for divorce and collects alimony ever after, the treasury merely twists the financial knife. The harried ex-husband can claim no exemption for support of his one-time wife, even though he pays her nearly every cent he earns.

Finally, there's the successful marriage, wherein a child is born to the happy couple. The treasury has its hand out again for a slice of whatever offering the happy father gives the minister for the baptism.

All that takes care of love, as supervised by the government, which seems to be interested in a lot of things when tax paying time comes around. Take swords, for instance.

The treasury ruled on page 2133 of its regulations that whenever a general or an admiral buys himself a new saber, he can deduct its cost from his income tax. Let the Grand High Mogel of the Loyal Order of Water Buffalo buy him-

self a sword, though, and he'd better not try any deduction if he doesn't want the tax collector threatening to sell all his goods and chattels. A soldier's cutlass, it develops, is necessary to his profession; a lodge official's sword isn't.

As for actor's pants—as contrasted to your pants and mine—the treasury drew a bifurcated decision.

If our pants wear out, that's our tough luck, because he treasury figures, apparently, they're not necessary! It won't allow any deductions for their deterioration.

When an actor's pants become ragged, however, and he buys himself a new pair, the treasury said it would be okay for him to claim a deduction.

His pants are a necessary part of his equipment, but our's aren't. That's what the good old treasury thinks. All we hope is that its own pants go the way of all creeches, and that it has to buy a new pair, itself. If that doesn't change the treasury's mind about the necessity of pants, nothing will.

Mountain School News

We are having extremely nice weather for this time of year, but is threatening a change now.

School is progressing nicely. Mr. Moore of De Leon is teaching again this year. He spends the week-ends at his home.

Lone Star Gas Company is taking up its field lines in this community. Several in this community are working on the job.

Mr. and Mrs. Joe Fonville of near Thurber visited his parents, Mr. and Mrs. Fayette Fonville last Sunday.

Mrs. Askew and son, Bill, were in De Leon last Saturday. Miss Mable Moore who is staying with them, visited her parents in Desdemona, while Mrs. Askew was gone.

Mrs. Harriet Abernathy, who has been suffering severely with her face of late, is some better.

The friends of Mrs. Frank Hogg will be glad to know that she is some better and is able to sit up quite a bit of the time.

Mrs. Ella Tidwell spent the week-end with her mother, Mrs. Mattie Sparks.

Mrs. J. L. Morrow returned Monday from an extended visit with his brother, Bill Morrow and family of Ralls, Texas.

Mr. and Mrs. Turner, who have lived here for some time, have moved to Desdemona, recently.

Mr. and Mrs. Hardie Tidwell visited her parents, Mr. and Mrs. S. T. Wilhite of Desdemona last Sunday.

Mr. O. H. Moore, who teaches this school went to Desdemona, Thursday to see Mr. O. W. Kountz about school affairs.

Mr. and Mrs. Sam Fonville and son, Jimmie of Union spent last Tuesday with his parents, Mr. and Mrs. J. L. Fonville.

ALAMEDA

Most of the farmers have their peanuts threshed in this community.

Mr. and Mrs. Harry Deal have been visiting in South Texas. They returned home Tuesday.

Mr. Simmons was in our community Wednesday.

Mr. and Mrs. John Shooks from Jacksboro have been visiting her parents, Mr. and Mrs. J. M. Grice.

Mrs. J. L. Brown visited in the Harry Deal home Thursday night and Friday the past week.

Charlie Cross gave a dance Thursday night. Everyone had a good time.

Ott and Jegge Hoper and Truitt Grice visited Harry Deal Wednesday night and played "42."

Charlie Cross visited Harry Deal Tuesday night.

Uncle Jim Wheat is ill.

Mr. and Mrs. Aaron Cozart and little son, Bobbie Gale, visited her parents, Sunday, Mr. and Mrs. J. M. Grice.

Forgotten Team Of University Is Really a Winner

AUSTIN — The University of Texas swimming team, five times conference winner, is the "forgotten team" of the university.

Comparatively few of the eight thousand-odd students enrolled in the university know when the swimmers leave on a trip, where they go, what records they break, or when they return.

Notwithstanding the lack of student interest these particular athletes continue to train harder and work harder to win honors for the school than any rose bowl football winner. And in spite of this they do not seem to want a place in the sun. They seem to be satisfied with the keen competition.

The swimming team was organized in 1921, and immediately won the conference championship, competing against teams from SMU, TCU, Baylor and A. & M. For five years they have repeated, and have usually played to a crowd of only a few score students.

For the past two years the team has been coached by Tex Robertson, former University of Michigan star, who coaches without pay in order that he can retain his amateur status. Robertson has done much to improve the team since coming to Austin.

Through his efforts Adolph Kiefer, Olympic backstroke champion from Chicago, entered the university this fall. Kiefer was discovered and developed by Robertson in Chicago.

Robertson also has been active in bringing many outstanding stars from high schools and junior colleges to the university during the last two years.

Outstanding candidate for the varsity this year is John Crouch, Hondo, Crouch, a freshman, competed, unofficially, last year with varsity swimmers during meets and bettered their record-shattering swims with ease. He is expected to lead the squad in honors during the 1936 season.

With Crouch came twelve other promising freshmen swimmers and divers.

As a nucleus for his 1936 squad, Robertson has Rollin Baker, 1935 captain, who holds the conference record in the 50 and 100 yard free style swims; Jack Tabb, Thurman Talley, Leroy Bursey, divers; Lee Allison, diver; and Johnny Keough. Carrying the heavy diving assignment for the Longhorns will be Joe Bowling, Gulf AAU diving champion.

After five years of conference and inter-sectional "Y" meets, Robertson hopes to take his squad to the national meet this year for the first time. He believes his team is equal to the big teams of the nation. A successful tour of Midwest and Eastern cities last year bears him out in this.

Still Coughing?

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with anything less than Creomulsion, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membranes as the germ-laden phlegm is loosened and expelled.

Even if other remedies have failed, don't be discouraged, your druggist is authorized to guarantee Creomulsion and to refund your money if you are not satisfied with results from the very first bottle. Get Creomulsion right now. (Adv.)

GULF BREWING COMPANY, HOUSTON, TEXAS

The Universal Car Broadens Its Field with New Economy and THE LOWEST PRICE IN YEARS

For more than thirty years Ford has been "The Universal Car." And the name takes on a new meaning for 1937, with the addition of a 60-horsepower V-8 engine to the Ford line.

The new "60" makes possible the lowest Ford price in years, and brings smooth, dependable V-8 performance within the reach of more people than ever before. It means also a choice of two V-type 8-cylinder engine sizes. 85 horsepower for maximum performance. 60 horsepower for maximum economy. Both engines are built into the same big body size.

The "60" is a replica of its brilliant older brother, except in size, weight and

power. It was first developed for England and France, where fuel costs are high. Two years in service there have proved that it creates an entirely new standard of modern motoring economy.

If you want a big car for a small budget—a car you can own with pride and drive with pleasure—ask the nearest Ford dealer to show you the new car with the new engine.

BASE PRICES \$480 AND UP—At Dealers Plant Taxes, Delivery and Handling, Bumpers, Spare Tire and Accessories Additional

\$25 a month, after usual down-payment, buy any model 1937 Ford V-8 Car—from any Ford dealer—anywhere in the United States. Ask your Ford dealer about the easy payment plans of the Universal Credit Company.

FEATURES

APPEARANCE—Newly streamlined. Recessed headlamps. Modern lid-type hood. One-piece steel top. Slanting V-type windshield opens in closed models.

BODY—All steel. Top, sides, floor and frame welded into a single steel unit of great strength. Safety Glass all around at no extra charge.

BRAKES—Cable and conduit type. "The safety of steel from pedal to wheel." Easy-Action. About one-third less pedal pressure required to stop car.

COMFORT—Increased by smoother spring-action with new interleaf pressure lubrication. New methods of mounting body and engine for quieter operation.

Auto Designed To Run On Air

SPRINGFIELD, Mo. — Charles Thomas Hunt, 67-year-old mechanic, says he is developing an automobile which will use air instead of gasoline and be refueled by highway jolts.

Hunt has completed the motor. It is driven by compressed air. He believes his invention will revolutionize the motor industry.

"The engineers said it couldn't be done because they didn't get it out of their books," Hunt said. "And they didn't get it out of books because it wasn't in them. But I did it, and now they'll put it in their books."

Hunt plans to make the first practical test of his invention about Dec. 15. He promises to put his first skeleton automobile powered with the air-driven motor on Springfield streets at that time.

His first car will have a light steel frame only 4 feet long, 26 inches wide, with a "skeleton" body. It will have a maximum speed, he predicts, of approximately 14 miles per hour.

Hunt's motor has a tiny, five-eighths inch piston and a four and one-quarter inch stroke, and a weighted flywheel mounted on a small axle to which the piston is attached.

When Hunt turns the valve on the compressed air tank, a plunger releases half-a-pound of compressed air from the tube leading from the tank into the cylinder housing the piston. The half-pound blast of air shoves the piston down, and the flywheel, weighted with five pounds of metal on one side, turns over.

As the piston returns to the top of the cylinder, the plunger releases another blast of air automatically, forcing it down again and keeping the operation continuous.

The plunger which releases the air into the cylinder operates on the same principle as a match stuck into the valve core of an automobile.

Hunt believes he can harness the car's bouncing to pump air into the tank.

To each of the four corners of the car's frame, a pump will be attached with a tube leading from it to the air tank. When the car hits a bump, the raising of the frame will raise the plunger from the pump, sucking air into it. As the frame settles back, the bump plunger will force the air into the tank, Hunt believes.

And if there aren't enough bumps and the supply of air is exhausted?

Hunt has an answer for that, too.

Refill the tank, he says, with an ordinary air hose at the filling station, or bounce the car by jumping on the running board.

Lowering of Cotton Grades Is Reported

By United Press

AUSTIN—A continued lowering of grades as the cotton season advances was revealed by the weekly cotton grade and staple report for Texas of the week ending Nov. 26.

The general trend of staple lengths has been towards shorter lengths for the last several weeks than those reported earlier in the season, the report showed.

The report, issued by the Austin office of the Bureau of Agricultural Economics, revealed that only 6.5 per cent of the cotton classed for the week was graded white middling and above against 17.5 for the preceding week.

Worries Wrack College Youths, Educator Says

INDIANAPOLIS. — The gay "high-de-ho" activity of the average American college student masks a multitude of worries, according to Prof. L. M. Sears, head of Purdue University's history department.

"You would not be surprised how little jollity or genuine gaiety there is among youth in college," Prof. Sears told members of the Purdue Dads' association of the Indianapolis area.

The historian, a bachelor, asked his audience to "sympathize with the problems of youth."

"College jollity is of the hectic, excitable type," he said, "but actually the student is under the weight of many things which constitute real worries."

"College students worry about their studies and whether they are pleasing their professors. They worry about whether they are pleasing their fellow students and thus are obtaining popularity. They worry about their careers—whether they will have careers at all. They worry about the right person to marry."

Prof. Sears said he is convinced the age of the college youth is not the "Golden Age."

Veteran Plans to Ride a Horse On 14,266 Mile Trip

MELBOURNE — An effort to beat America's record for long-distance horseback riding will be made by R. M. Rein, who will endeavor to reach London in time for King Edward's coronation.

Reid, who was formerly a warrant officer in the Australian forces, will start from here and ride to Darwin on the northern coast of Australia. From there he will take a boat to Singapore, where he will continue on horseback to Amsterdam, taking there a boat for England.

If he succeeds he will have covered a distance of 14,266 miles, riding the entire distance except for the two short sea passages from Darwin to Singapore and Amsterdam to England.

Reid is being backed by the Australian Horsebreeders association, which hopes to bring the world's championship to Australia. It is held in the United States by an American who rode 8,000 miles from Nome, Alaska, to South America.

While three horses were used by the American on this trip, Reid hopes to make his entire trip with one horse.

Colored Etchings From One Plate

WHITEWATER, Wis. — Leon R. Pescheret, an artist who found his "dream house" here, is believed to be the only person in the United States who makes color etchings from one plate.

Many persons make colored etchings from several plates, but Pescheret brought here the etching skill he learned from Roger Hebbelink, color etcher for the Belgian royal court.

Pescheret studied color etching under Hebbelink after the Chicago world fair, where he etched only in black and white.

To make colored etchings from one plate requires infinite patience and skill, Pescheret believes. It involves using all methods known to etchers—soft ground, aquatint, the bitten line and dry pointing. Colored inks are rubbed into the plate similar to the way black is rubbed on for a black and white etching.

"The important point is that the etcher must know exactly what the desired result is to be before he starts his plate," Pescheret said.

"Sometimes it takes weeks of redrawing and careful study of composition before it can be done on a copper plate."

The reason, he explained, is that different colors require different depths in the plates—reds

Only Three Phoney Bills Were Passed At the Centennial

DALLAS, Texas.—In spite of the thousands of times bank notes were presented to cashiers at the Texas Centennial Exposition only three spurious bills were passed, Centennial officials have announced.

At the opening of the exposition Forrest V. Sorrels, chief of the United States Secret Service, directed his trained men in teaching each cashier how to detect counterfeit notes and coins.

Diagrams were drawn of the various counterfeit bills in circulation and placed at the disposal of the cashiers.

The result of these careful preparations was that only three bills passed detection, two spurious \$10 federal reserve notes and one counterfeit \$5 bill.

One of the two \$10 bills was passed by a notorious counterfeiter whose course across the country was traced by the notes appearing in cities through which he passed.

Political Heir of Pendergast

Active control of the powerful Pendergast political organization in Missouri passed to James M. Pendergast, above, 41, when his uncle, Thomas J. Pendergast, long the dominant leader in the state Democratic party, withdrew because of illness. The older Pendergast, stricken during the Democratic national convention this year, will act as an adviser to his nephew.

War Service Blamed for 15,000,000 Deaths

VIENNA—More war veterans died of the effects of their wounds after the war ended than were killed in the four years of actual fighting, figures gathered from official sources and just published here reveal.

The figures show that 8,538,000 were killed or died of wounds during the war among all the combatants, whereas of 19,000,000 wounded treated during years after the Armistice, more than 15,000,000 have died of the effects of their war service.

CHURCH OF GOD
ROBERT E. BOWDEN, Pastor.

When Jesus came to this world nearly two thousand years ago, the world was wrapped in a dark cloak of superstition and dead cold form of ceremonial religions. His coming brought new life and light to the hearts of men.

Multitudes followed Him, seeking to know of His power and love. Yet there were great numbers who rejected His message and sought to put Him to death. But, to those who received Him, to them gave He power to become His children. And they all went on their way rejoicing, happy in their newly found Saviour.

The dark clouds of Pagan religion were dispersed in the hearts of many, while others continued on in their unhappy state.

Today my dear friend, the Pagan, heathen form of religion is seeking to crowd out the vital realities of true christianity, by bringing the world to a cold dead form of worship. To be committed to such an ideal of worship, is opening the door big and wide for every unclean and foul spirit, to crowd out the pure sacred worship of our Lord and Master.

It is our purpose to lift up a pure standard of Christian living and maintain a worship of true vital Christianity. Reader, if your heart longs for the worship that will truly satisfy meet in God's House and worship Him in Spirit and Truth. You are invited to worship with us, where Christian fellowship predominates.

Plans have been completed for the Christmas program which will be given Wednesday night, Dec. 23rd. Make your plans to come and enjoy the program.

Our regular services continue as usual. A Christian welcome awaits you at all our services.

CHRISTIAN SCIENCE SERVICES
Sunday school, 9:45 a. m.
Morning service, 11 a. m.
Wednesday, testimonial service, 8 p. m.

Public cordially invited.

"God the Preserver of Man," is the subject of the lesson-sermon which will be read in all Churches of Christ, Scientist on Sunday, December 13.

The Golden Text is: "Preserve me, O God: for in thee do I put my trust." (Psalm 16:1.)

Among the citations which comprise the lesson-sermon is the following from the Bible: "When thou passest through the waters, I will be with thee... and through the fire, thou shalt not be burned; neither shall the flame kindle upon thee. For I am the Lord thy God, the Holy One of Israel, thy Saviour." (Isaiah 43:2-3.)

The lesson-sermon includes also the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The divine Mind that made man maintains His own image and likeness" (page 151).

THE FIRST PRESBYTERIAN
Charles W. Estes, Pastor
Sunday, Dec. 13, 1936.
Sunday School, 10 o'clock. Mr. E. C. Johnston, Superintendent.
Plans are already made for the Christmas program and treat to the members of the Sunday school in due form. All kindly invited to be present this Sunday. This day the pastor will be in Strawn for the regular services there.

PLAINTIFF WINS

Trial of the case of Cisco Mortgage and Loan Company against W. W. Anglin and others in 88th district court by a jury which reported Tuesday, resulted in a judgment for the plaintiff.

DIVORCES GRANTED

Divorces to two couples were granted this week by district courts.

Eighty-eighth District Court granted a divorce to Floye Banner from Frank Banner.

Following granting of the divorce to Stella Alexander from W. W. Alexander, 91st district court made several orders involving property of the parties.

Constant Nursing Saves Hummingbird

LONDON, Ont.—Working in relays, Mrs. E. E. O'Conner and her four daughters have kept an injured hummingbird alive for six weeks with the aid of an eyedropper.

One of the girls found the bird on the sidewalk, unable to move because of a broken back. The whole family took turns in feeding it milk, honey, tomato juice and the blood squeezed from meat, and now it can flutter weakly about the house.

YOU ARMY MEN SURE KNOW THE SECRET OF ROLLING 'MAKIN'S' CIGARETTES. LOOK AT THE MESS I'M MAKING OF MINE

THE TROUBLE WITH YOU, BOY, IS THAT YOU DON'T USE OUR KIND OF 'MAKIN'S'

THE NATIONAL JOY SMOKE!

War of Tribes Ended by Flier

SYDNEY — Planes are being used in Australia's outlying territories to break up battles between warring tribesmen by the simple process of scaring them into flight.

Charles Bates, district patrolman in New Guinea, has described the first triumph of aviation in this new field.

Bates had been informed that a sanguinary battle was in progress on a part of the island. He immediately hastened to the battle scene and informed the chiefs of the contending tribes that the warfare must cease. His edict, however, brought no results.

Contemplating how he should perform his duty as a patrolman and peace officer in the island, he learned that an aviator had just arrived at a nearby settlement. The flier, Kevin Perez, listened to Bates' plan and accepted. At once they took to the air for the scene of battle where some 600 warriors were lined up for the fray.

It took only one downward swoop of the plane—the first the natives had ever seen—to convince them that flight was preferable to battle, and the war came to a sudden end.

Senator Will Talk Before Teachers

BAIRD, Dec. 9—Senator Wilbourne B. CoJie of Eastland will discuss school legislation as the featured speaker at a meeting here Saturday of the Callahan County Teachers' association. He will speak at the morning session.

Three Ways to Insure Safer Winter Driving

A strategic campaign for motorists in their annual tussle with the three bugaboos of winter driving—ice, snow and rain—was outlined today by Lucas service station, Goodyear dealer located at 200 E. Main St.

"With Jack Frost already on the scene, it is a wise motorist who is all set to meet his demands," he said.

"The first and perhaps the most important move in the campaign is to check tires, making sure that the treads are diamond-blocked and thick, thereby removing all possibility of the tires falling to grip on wet or icy pavement, especially in an emergency - stop situation.

"In a bad skid it is not only tight brakes and expert driving that make the difference between a crackup and successful recovery. Of extreme importance, too, is the type of tread on the tire. The Goodyear G-3 All-Weather, with its heavy diamond blocks that give the utmost traction and gripping power, is designed to supply that extra margin of protection that so often turns imminent disaster into welcome safety."

He went on to explain that the second step is to have the brakes examined and the steering mechanism carefully gone over.

In commenting on the third move in the campaign, he said: "Every motorist should make a solemn pledge to drive with extra caution. Too many motorists ignore the threat of winter hazards. By making the three moves as suggested, motorists will have put into successful execution a really effective campaign against the three bugaboos of winter driving."

U. of T. Destined To Be Greatest In Entire South

By United Press

AUSTIN, Tex.—The University of Texas is destined to become the greatest university in the South, predicted Dr. H. Y. Benedict, president.

Dr. Benedict believes the University will take its place as one of the first 12 universities in the country. At present no Southern universities are so ranked.

The University of Texas, he said, is included in the exclusive Association of American Universities. Only 32 universities in the United States and Canada have qualified for such membership, among them only three Southern universities.

Other Southern universities so honored are the Universities of Virginia and North Carolina. At present, Dr. Benedict said, the University of Texas is ranked above Virginia and North Carolina by the American Council on Education and other agencies. This, he believed, is because of national recognition achieved by some of the departments.

He pointed to the low cost per student as compared with other schools. He is grateful for the oil royalties that have made possible the \$15,000,000 physical plant which houses more than 8,000 students during the fall term and more than 5,000 during the summer.

He pointed out, however, that the teaching load is too heavy and teaching salaries inadequate for a university of its class.

In summing up the kind of university intended by the founders of Texas who provided for a state University in the constitution, Dr. Benedict quoted Governor Oran M. Roberts, who was largely responsible to the state for providing for its establishment:

"Our constitution says it is to be of the first class; let it be the labor of love to make it so."

Ranger Physician Heads 2-County Medical Grouping

Members of the Eastland-Callahan Medical association elected Dr. T. L. Lauderdale of Ranger as president at a meeting in the Connelie hotel at Eastland Tuesday night. About 20 attended.

Dr. S. P. Rumph of Baird was elected vice president and Dr. J. H. Caton of Eastland was re-elected secretary-treasurer. The new officers succeed Dr. M. L. Stubblefield, Gorman, president; and Dr. T. G. Edwards, Cross Plains, vice president.

Dr. A. K. Wier of Ranger was elected to succeed Dr. E. L. Graham of Cisco as a member of the censor board. The term of Dr. Wier will be three years. Hold-over members on the censor board are Dr. W. L. Jackson of Ranger and Dr. Rumph.

The scientific program consisted of an address of Dr. John Potts of Fort Worth on diagnosis and differential diagnosis of tuberculosis.

Next meeting of the association will be held in February at Eastland.

Santa Claus Is Due On Saturday

Santa Claus is coming to Eastland again Saturday.

Last week he made his first of three visits here in connection with trades day. A similar method of welcoming the holiday visitor by sending Police Chief Peters out on the Ranger highway is planned.

H. J. Tanner, secretary of the Chamber of Commerce which is sponsoring the trade day series, stated Thursday Santa Claus will arrive at 10 o'clock Saturday morning and be on the streets and in the stores until noon.

After eating dinner Santa will again make an appearance for the children and their parents.

Texas Invited to Take Part In New York's Fair

ALBANY, N. Y.—Governor James V. Alford of Texas has been invited by Governor Herbert H. Lehman of New York to have the State of Texas participate in the New York World's Fair of 1939. Formal invitations of a similar nature have gone forward to the governor's of 46 other states.

In his letter of invitation, Governor Lehman points out what New York State has already done and intends to do in taking full share in the exposition that is already in process of construction on the Flushing Meadow site in the Borough of Queens and which is to represent an estimated total investment of \$125,000,000.

The New York legislature, he notes, during 1936 passed an act creating the New York World's Fair Commission of 18 members and providing funds in aid of this body's investigations looking to the preparation of plans for a state building and exhibit and for active participation in the Fair. The commission has held several sessions and is now considering

The State of New York has also appropriated, to date, \$2,130,000 for commencement of construction of boulevards, service roads, bridges, a boat basin in Flushing Bay, and certain other basic improvements the state will make at the exposition site or its approaches.

Proceeds from this year's seal sale, Miss Nichols said, will be used by the state and local tuberculosis association in a concerted effort to reach more people between the ages of 15 and 45 with those methods of diagnosis, prevention and cure which have reduced the death rate from tuberculosis more than two-thirds in the past 30 years. She pointed out that in spite of this reduction in the general death rate tuberculosis is still the highest cause of death among people in this age group.

Officials pointed out that they were not intending to interfere with the Indian Reservation Administration routine or to alter the program of education for Indian children. They say time has brought a realization of the significance and merit of Indian culture as exemplified in tribal rituals and customs.

Doctors Are Buyers Of Christmas Seals

AUSTIN.—In the first mail following the distribution of the Christmas Seals released at Thanksgiving, more than \$100 of the day's returns to state headquarters of the Texas Tuberculosis Association came from doctors, according to Miss Pansy Nichols, Executive Secretary of the Association.

"Doctors know first-hand," Miss Nichols said, "of the tragedy caused by tuberculosis. Few people realize how much doctors give, without thought of monetary remuneration, in the way of professional service to the tuberculous poor. For this reason we are doubly grateful for their generous contributions to the Christmas Seal sale which finances the campaign for the prevention of tuberculosis."

Indians Chosen To Record Lore

BELCOURT, N. D.—Once again full-blooded Indians of the Turtle Mountain reservation here, will raise their war cries and conduct eerie rites as did their forefathers when the redman was king of the West.

Because the Indian office in Washington wishes to preserve the old customs and traditions of different tribes, and because the Chippewa and Cree culture is considered important, Turtle Mountain reservation will witness at least a partial return to bygone days.

Approximately 300 full-blooded Indians on the reservation, fami-

lar with the ways of their forefathers and ancient rivals, will be used in the government's project. Among the Indians who will figure prominently in the movement are Flying Nice, a Chippewa, and Little Elk, a descendant of the Hurons. Flying Nice and Little Elk will endeavor to teach the native customs to other reservation Indians and also will contribute outstanding facts of past Indian folklore which will be compiled in book form.

POLICE LOSE TRAFFIC KEYS

By United Press

BOSTON.—Because patrolmen shut off traffic lights during an emergency sometimes forget to turn them on again, traffic signal light keys will be taken from them and entrusted only to traffic division sergeants and employees of the traffic commission on the order of Police Superintendent Edward W. Fallon.

Group Asks Judge How to Go About Circumventing Law

By United Press

HOUSTON.—District Judge Langston G. King was not at all flattered when a delegation of 22 druggists and cafe and beer parlor operators asked his advice on steps they should take to remove a ban on marble machines here.

"You will have to get yourselves an attorney and consult with him about what action you should take," the judge told the delegation mildly.

Judge King recently instructed the Harris county grand jury to keep the ban on marble tables as well as other types of gambling declared illegal by the state court of criminal appeals.

One of the men in the delegation asked him if he thought a call on the grand jury would have any results. The judge said he did not believe it would.

"Of course, you can operate any legal kind of machine," he said, "but in my opinion, a nny officer who advises you on this matter should be impeached."

The group closed the interview at once.

LEGAL RECORDS

Instruments.

Deed of Trust—W. E. Ricks, and Inex Ricks to E. J. Poe, Trs. for First National Bank, Cisco, W's, NE 1-4, Sec. 46, Blk. 4, H&TCRYCO, \$714.00.

A Philadelphia man was awarded 2 cents for his broken heart in a breach of promise suit. If he was a banker, it would hardly pay for the cement.

RATTLE IN STEEL PLANT

MONESSEN, Pa.—A diamond-backed rattlesnake, 39 inches long, with nine rattles and one button, was killed in the open hearth department of the Pittsburgh Steel Company plant here. Workers said they believed the snake was imported with a car load of scrap iron from Oklahoma.

Beware Coughs That Hang On

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with anything less than Creomulsion, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membranes as the germ-laden phlegm is loosened and expelled.

Even if other remedies have failed, don't be discouraged, your druggist is authorized to guarantee Creomulsion and to refund your money if you are not satisfied with results from the very first bottle. Get Creomulsion right now. (Adv.)

Receives Aid for Broken Collar Bone

John Hart, Hardin-Simmons university student, arrived in Eastland Tuesday from Abilene for treatment of a broken collar bone received in football play. The injury was suffered while playing with friends and not in connection with university football play.

Damage Suit Filed Against Doctor

A suit asking \$25,000 judgment for alleged negligence in an arm operation has been filed in district court by Frank Conway Perry of Gorman against Dr. George T. Blackwell, Gorman surgeon and physician.

Perry stated in the petition garnered set in an arm following a resetting in 1918 by Dr. Blackwell.

Terms in Cattle Cases Pronounced

Sentences in two cattle theft cases were pronounced Tuesday by Judge B. W. Patterson in 88th district court against Rayford Adams. Both sentences, concurrent, were for two-year terms.

Adams had been found guilty previously by juries who had deliberated his fate. One indictment charged the defendant with the theft Oct. 9 of two head of cattle owned by L. B. Norvell. The other indictment alleged theft of two head of cattle Oct. 2 from W. L. Andrus.

Eastland Pythian Lodge Elects its New Officer Group

Officers to be installed for the six-month period beginning Jan. 1, were elected Tuesday night by the Eastland Knights of Pythias.

The officers are: Les Dorsey, chancellor commanded; R. E. Richardson, vice chancellor, commander; Jack Hilburn, prelate; K. K. White, master of work; Tom Lovelace, grandkeeper of seals and records; Charlie McCoy, master of finance; L. B. Black, exchequer; J. W. Great-house, inner guard; Guy Robinson, outer guard; T. J. Powell, Ranger, deputy grand chancellor, and C. F. Shepperd, representative to the grand lodge meeting in May.
