

Bull Town Bulletins

By
Bill Ellis

BOVINE, TEXAS, has one of the most well-known and successful "Trades Day" programs of any place we know of.

My parents were from Montague County, and had told us for years about the event, which is known as "Second Monday" in the Bowie area.

When the swap-meet idea was started before the turn of the century, horses, mules and other farm livestock were the main item of exchange. Farmers would take their horses to the Second Monday event, and see if they could be successful in "trading up."

In the more than 80 years of the monthly sales spectacular, the field of merchandise has expanded to include almost anything which can be bought and sold. And, today's participants use cash instead of the original swapping idea.

Dogs have also been a big item at Bowie's Second Monday trade event. During the 1950s, it was not uncommon for the sale to draw as many as 600 hunting dogs, as owners from as far away as Oklahoma, Arkansas, New Mexico and Missouri congregated for the sale.

Bowie merchants have taken advantage of the tremendous crowds of people which are drawn into town by the monthly event, and schedule sales and promotions to lure some of the out-of-town customers.

Although our grandparents had participated in the event for years, and some of our relatives in that area still do, this past weekend was the first opportunity for us to get to see a Second Monday in operation. We were impressed.

It is true that the merchants have everything from soup to hay to offer to the bargain-seekers. Second Monday is sort of a giant garage sale. But it is more.

Yes, it could be described as a sprawling flea market. But it's much, much more.

You can get new or used clothing; farm tools, almost any type of farm animal, fruits, vegetables, antiques, hardware, books, knick-knacks—you name it, and they probably have it. The merchants display their wares in pickups, trucks, and on tables set up in rows at the sale location.

Bartering is still a major factor at Second Monday. We personally heard one customer open with "That's a nice looking hammer." The merchant replied "Yep, I've got it priced at \$6, but why don't you give me \$5 for it so I won't have to take it back home?" "Sold!" the buyer replied.

The biggest turnout at the sale is usually in August, September and October. They told us that the crowd, both of buyers and sellers, was much better for the October sale than it had been earlier in the year, probably due to the hot summer weather earlier.

Many of the merchants live in Bowie or nearby. Others come from far and near. They now arrive as early as Thursday and begin vying for the best spots. Saturday and Sunday prior to the "Second Monday" are now the big days, and most of the sale is actually gone by Monday.

Food vendors have caught onto the act in recent years. Mobile hamburger joints now have sprung up among the vendors. People used to take a sack lunch, if they were manning a stand at the sale.

There were even a couple of carnival-type items for the young folks, including a Shetland pony ride. This keeps the small fry busy, and creates yet another business prospect.

We had been to two state fairs, one world's fair, a Major League all-star game, and to NFL football games. But after seeing Bowie's Second Monday in full-bloom, we decided that these other things were second-rate.

That's a great thing the folks down there have going. Wish our towns had something like it.

Deadline Is Here For History Book

With the deadline rapidly approaching for the Parmer County History, Volume II, residents were reminded this week about the value the book could have for future generations.

"Several people have told us they have used county history books to help trace their family genealogy. They have found these books in university, city, college and high school libraries," said Otho Whitefield, chairman of the history book project.

"We are especially needing family histories from residents in Bovina and Rhea, and urge people to go ahead and turn them in," Whitefield said.

Ponies Begin District Play

Bovina's Mustangs travel to Kress to play the Kangaroos in the first District 3-AA game of the 1980-81 school year.

Coach Paul Toppliff comments, "We are as physically strong as we have ever been. We have worked very hard this past week, and had good practices."

"It's Kress' Homecoming this week, and we are playing on the road. We haven't played a good game on the road yet. This is very important because we have three district games to play away from home. It all boils down to who hits the hardest and how our mental attitude is at the time. We need to play with a lot of inside emotion."

"How well we play will also be left up to the offensive linemen and the linebackers. Playing on the offensive line is Doyle Garner, Tad Mayfield, Charlie Trimble, Mark Teague, Brad Heflin and Lynn Read. Linebackers

are Gabriel Guevara, Lynn Read and Tad Mayfield. These are the key people," the Mustang coach says.

Toppliff says that Ed Chisom will play a lot of ball Friday night. Chisom has been on the injured list all season. He plays defensive tackle and tight end.

Kick-off time is 7:30 for all district games.

Toppliff released the mid-season statistics this week, and the Mustangs, with a 4-1 season record, have some good individual marks.

Quarterback Dale Gilbreath has passed for 877 yards, an average of 175 per game, and at the last ranking, was the leading passer for class AA in the area, for yardage and completions.

Gilbreath has completed 55 of 120 attempts, including ten for touchdowns and five for two-point conversions. His completion average

First Freeze Contest Is Underway Locally

The 16th annual First Freeze Contest, sponsored by The Bovina Blade, is underway.

Those wishing to enter the competition can write the forecast of the first killing freeze on a postcard and mail it or bring it to The Blade office on Third Street. Do not forget

to write the date on which you enter, the time and your guess of the date of the freeze.

If more than one person predicts the same date, the entry received first will be declared the winner.

Contestants are cautioned not to confuse the first frost with the first killing freeze.

Deadling for entering the contest is 5 p.m. Wednesday, October 22.

The person coming closest to guessing the exact freeze date will earn a \$5 cash prize, along with the title, "Champion First Freeze Predictor of Bovina, 1980."

The contest is conducted by The Blade because of the widespread interest among residents of the area in the first freeze. The interest is prompted by the effect of the freeze on the overall agricultural situation in the Bovina community.

Past champions include Charles Smith, 1965; Mrs. E.L. Cochran, 1966; Cathie Trimble, 1967; Johnnie Horn, 1968; Mrs. Rita Mast, 1969; Dalton Morrison, 1970; Mrs. Flossie Rhinehart, 1971.

Also, Mike Spears, 1972; Gary Cox, 1973; Mrs. Donald Kay Kerner, 1974; Mrs. Bill Bradshaw, 1975; Mrs. Radford Venable, 1976; Cathie Trimble, 1977; Wendy Stanberry, 1978, and J.L. Pruitt, 1979.

Sewer rate will be \$3 per month, an increase of 50¢ for residential and \$4 per month for businesses, an increase of \$1.

Trash rate shall be \$5 per month, an increase of \$2 for residential and \$6 per month for businesses, an increase of \$2.

Mail Service To Chad Suspended

The U.S. Postal Service announced recently that it is embargoing all mail to Chad in Central Africa due to a lack of transportation into the country.

The embargo means no mail for Chad will be accepted at any U.S. post office. Mail in the postal system bound for Chad will be returned to the sender. Refunds of postage for returned mail will be available.

The Postal Service advises customers that once the suspension is lifted and service is restored, they can cross off the endorsement "Postal Service temporarily suspended" on returned mail for which no postage has been refunded and re-enter it into the mails at no extra cost.

Senior Citizens Offer Service

Bovina Senior Citizens is offering a new referral service to the citizens of Parmer County.

The full service will assist Senior Citizens in locating community service agencies that can help make their lives easier. The center is developing a resource file with addresses of agencies that deal in health and human service areas like alcoholism, educational services, emergency assistance, etc.

Contact the center or Mrs. Kelso at 238-1542 or 238-1359.

M.C. Osborn Elected To Board

McFarland C. Osborn of Friona was recently re-elected to the Parmer County Soil and Water Conservation District board of directors on October 7. Osborn represents Zone 2 of the district.

The purpose of the Parmer S.W.C.D., with headquarters in Friona is to promote sound soil and water conservation programs on farm and ranch lands within the district and to serve as a voice for farmers and ranchers on conservation matters and other issues affecting private property rights of landowners.

The board of directors coordinates the conservation efforts of various local, state and federal agencies and other organizations and has authority to enter into working agreements with these governmental agencies and private concerns to carry out its purposes.

As one of five individuals serving on the district board of directors,

Sales Totals Given For Parmer Co.

State Comptroller Bob Bullock Tuesday reported that gross sales in Texas during the first quarter of 1980 totaled \$60.9 billion.

He said first quarter sales this year passed 1979 first quarter sales by \$12.4 billion.

Bullock said the sales tax analysis of gross sales for January, February and March show that 250,681 outlets reported gross sales.

The Comptroller's office also released a computer analysis showing reported sales for each of the state's 254 counties and a sales tax analysis broken down by the state's 25 Standard Metropolitan Statistical Areas.

First quarter sales in 1980 for Harris County were \$15.9 billion as recorded by 40,987 reporting outlets compared to \$12.4 billion reported in the first quarter of 1979 by 41,727 outlets.

Parmer County's gross sales for the quarter amounted to \$16,751,724.

Neighboring Bailey County, reported gross sales of \$19,025,539, and Castro County's sales for the same period were \$27,208,602.

Osborn will be responsible for district policies and procedures for carrying out the district program within the framework of the Texas soil conservation district law.

In other areas of leadership, Osborn is active in Evening Lions Club, Chamber of Commerce, and Texas Wheat Board.

M.C. and his wife Ann have five children.

In Texas there are 200 soil and water conservation districts. Each is a legal subdivision of state government organized by local agricultural landowners with the assistance of the

Texas State Soil and Water Conservation Board. Unlike most other legal subdivisions of state government, S.W.C.D.s do not have the powers of taxation or eminent domain. All conservation programs managed by the districts are of a voluntary nature to the landowner or operator.

Organized in November 1947, the Parmer County S.W.C.D. makes its services available to all land users in the District. No regard is given to the race, sex, or size of the operating unit of the person making application for assistance.

Bovina FFA News

By BRET WHITTEN Reporter

The Ag Mechanics Class is still working on a new sidewalk at the back of the High School building. The class members have been moving dirt and laying forms. This sidewalk will be useful and will also add to the beauty of our school.

Mr. Widner has just returned from a trip through the major corn belt states in search of pigs for club projects. Several of the FFA members now have show animals because of his efforts.

The Freshmen and Sophomore

Agriculture Classes are beginning to work on parliamentary procedures. This is a new experience for the Freshmen.

The Junior Agriculture students are working on different projects. They will soon be starting to work on theirs.

The co-op students are working at their separate jobs in the afternoons. They will also start work on their skills during class time.

Remember that the FFA members are still selling the sausage and will be glad to order yours if you will notify them.

Food For Thought

By GERALD McCATHERN

A recent presidential citation originating in the Department of Agriculture has many agriculture producers up in arms.

It seems that Howard Hjort (Yort), chief economist for the Department, has been awarded a cash bonus by the government of twenty thousand dollars for his contribution in changing the scope of the Department of Agriculture from an agriculture oriented to a consumer oriented branch of the government!

Farmers who have invaded the Washington scene for the past three years in an effort to change the "consumer-oriented" policies of the present administration, remember Mr. Hjort as the ever-present shadow of Secretary Bergland at House and Senate Agriculture hearings. When difficult questions were posed by members of the committees to the Secretary, he would always turn to Hjort who would tell him what to say. Consequently, farmers began referring to Hjort as "the ventriloquist" and to Bergland as "the dummy."

Apparently, Hjort was the mastermind of the 1977 Farm Act which established floor prices on all basic agriculture commodities at levels equal to less than 50 per cent of parity, and ceilings equal to approximately 65 per cent of parity. Farmers strongly disagreed with the economic philosophy of Mr. Hjort, and have had a running battle with him for the past three years.

The wording of the recent presidential citation, "Mr. Hjort has successfully made the shift in USDA policy from producer-oriented to consumer-oriented in policy and budgetary matters," has caused the rupture of a festering sore in the minds of the protesting farmers. They say this is proof-positive that the present administration has sold agriculture down the economic drain, and that they no longer have a forum in the Federal government. Some are even advising that the name of the Department of Agriculture be changed to the "Department of Consumer Affairs," to better describe the function of that department.

With only five weeks left before the presidential elections, this could be the most costly twenty thousand dollars spent by the Carter administration if rural voters have their way about the outcome of the election.

Change In Concept Of God

Read Galatians 4:1-7

You, my brother, are not a servant any longer;
through God you are a son.

--Galatians 4:7 (PHILLIPS)

H. C. WELLS, in his *Outline of History*, tells of the Old Man concept of primitive man. The Old Man was the absolute ruler of his tribe; his rule was law. Everyone was forbidden to touch his spear or sit in his place. He was the ruler of every man, the master of every woman in his tribe. In fact, all children grew up with dread for the Old Man because he was the feared tyrant who held complete control.

With the advance of humanity, the Old Man of the tribe disappeared. Yet in another sense he is still with us, deeply embedded in our unconscious, as our concept of God. How often God is thought of as absolute ruler or despotic tyrant who mercilessly controls the destiny of His people.

Faith in Christ means the death of the Old Man. In Christ we are no longer slaves to an Old Man, but children of a concerned and loving Father. We are no longer subjects to be controlled, but sons and daughters who can respond in love to the heavenly Father's gift of abundant life.

PRAYER: O God, free us from all the authoritarian images we have of You. Let our lives be open to You as Father, that we may recover the joy of faith, through Your Son, Jesus Christ. Amen.

THOUGHT FOR THE DAY

Faith in God is not slavish obedience, but joyous assent to life.

Around The House

By LAURA JACOBS
 Harvest Happening-'80, a camp for mature men and women, will take place at the Texas 4-H Center in Brownwood from Tuesday, November 4 through Friday, November 7. Participants are advised to cast their vote for their favorite candidate on Tuesday morning and then to come to camp and watch the results come in at our Election '80 Campaign Countdown.

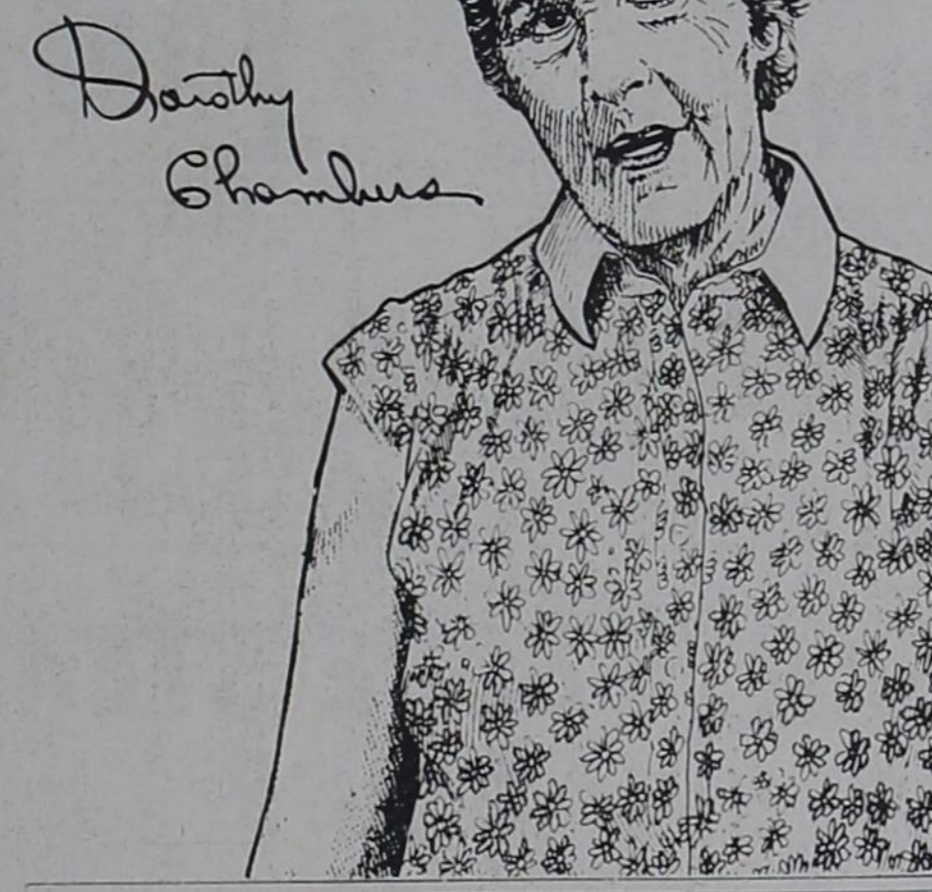

Freedom of Choice is the motto for the remainder of the camp as campers will be able to participate in four skill areas: Lapidary, Needlecraft, Ceramics and Basketweaving. Eight special features will be presented and recreation will be held every evening. Singing, good eating and fellowship will abound as campers choose their own activities. For those inclined to dominoes, cards or shuffleboard, space has been set aside for these activities at all times. The 1.7 million dollar facilities of the Texas 4-H Center provide a resort-type atmosphere for Harvest Happening-'80 participants. Ten lodges will house five men or five women to a sleeping area. Each has adjoining bathroom facilities. To insure your comfort and convenience, only 100 registrations will be accepted. For more information about Harvest Happening-'80, contact your county Extension agent.

Foreign diseases seen as threat to American animals

COLLEGE STATION — Smuggling frozen semen from high-powered Brazilian bulls is daily increasing the risk of economically devastating foot-and-mouth disease in Texas, says a top federal scientist. Foot-and-mouth disease, eradicated in Texas 55 years ago, and African swine fever, unknown in this hemisphere until 1971, are two of the foreign animal diseases most worrying scientists. Dr. Jerry Callis said at Texas A&M University. Callis, director of the Department of Agriculture's Plum Island Animal Disease Center in New York, said ordinary pasteurization and hide and cheese processing do not eliminate foot-and-mouth virus from products of infected animals. He also said completion of the Pan American Highway from South America would dramatically boost the chances of eventual invasion of foreign animal diseases.

It's True.

"We've had the heat pump about a year and four months. The heat pump has saved us a lot of money this past winter. Everything that has been said about the heat pump is true. It's just great! And, I would advise everyone to install a heat pump. It's very very efficient."

The things said about the heat pump are true. Find out more about the heat pump. It can save for you.
