## DEEP CISCO STRIKE FLOWS 901 BARRELS IN 20-HOUR RC TEST

### Brother, Sister After Annulment

Their month-old secret marriage annulled, Ben Ispock and Mary Lee Williams, shown above reading newspaper accounts of their amazing story, seek happiness as brother and sister in their farm home at Chilhowee, Mo.

Hickok Producing and Development company No. 1 Van Parmer, Ellenburger strike about eight miles northwest of Cisco, completed railroad commission potential test Sunday to flow a total of 901 barrels in 20 hours.

The well is probably the county's largest since the Ranger oil boom, it was stated. Hickok company had primarily drilled the well for gas production as found recently in its producer on the Grover Cleveland land in that area.

Not only is the Van Parmer the county's largest well for a long period, but is its first real Ellenburger producer, it is stated. Several wells have been drilled in the county to the Ellenburger, but none had sustained production.

### Accident Delays Freight In Ranger

A Peculiar accident near the Texas and Pacific railway station in Ranger Tuesday afternoon delayed a freight train's departure. As the train pulled into the Ranger yards the arm on the water tower, which swings over the tracks so water can flow into the engine's tender, swung over the tracks. The approaching engine struck the arm, breaking off the pop-off valve on the engine and destroying the water tower. The broken pop-off valve allowed the steam to escape from the engine and repairs were made necessary before enough steam pressure could be obtained to move the train, it was reported by those who helped make emergency repairs. It was estimated that between 40,000 and 50,000 gallons of water were wasted before valves could be closed to stop the flow from the broken pipes.

FOR THE WINTER MONTHS . . .

. . . Nothing gives a man such peace of mind and full sense of security as to know that he has provided a home for his family during the long winter months.

. . . With home ownership, one has this consolation. Without it, he has not, as moving is the order of the day with every tenant, and moving in the winter has its added inconveniences.

. . . Home ownership has few problems compared to its desirable advantages. Every man with a good job should give the subject of home ownership serious consideration while bargains are plentiful and the plan of payment is within the reach of all.

Eastland Police Force Is Praised

Praise for the work of the Eastland Police Department is contained in a letter received by Chief W. J. Peters from Ashley H. Sills, principal of Stephenville Junior High school.

The letter read: "Permit me to express to you for my boy and myself our most sincere appreciation for the prompt and efficient service which your very generous favor of yesterday rendered us. I was desperately trying to

reach my 13-year-old son, who was stranded in Eastland on no one's account but mine, in time to get him on the 2:10 bus for Stephenville. My efforts to reach him through the Texas and Pacific station where he was waiting for me appeared to be futile for the time being. A gentleman visiting here had the presence of mind to suggest that I contact the chief of police. Thanks to his suggestion and your courtesy and accommodation my boy reached home at 4 o'clock.

"Your city and your constituency are to be congratulated upon the type of protection and service their police department render. At any time that you are coming through or to my town, I hope you

PLAY SAFE WITH SILVERTOWNS — The Only Tire That Gives You Golden Ply Blow-Out Protection

IT'S NO time to gamble when you're sitting behind the wheel of your car. With human lives at stake, it's mighty risky to "bluff" with tires that aren't constructed to give you and your family real blow-out protection.

That's why we say, "Come in now and let us equip your car with Goodrich Safety Silvertowns." Because no other tire will give you the marvelous protection of the Life-Saver Golden Ply—a layer of special rubber and full-floating cords, scientifically treated to resist the terrific blowout-causing heat generated inside all tires by today's high speeds.

YOUR LIFE MAY BE SAVED BY THIS TIRE—SEE US TODAY. Illustration of a man's face and a tire with a speech bubble saying 'HEAT CAUSES BLOW-OUTS! PREVENT THESE BLOW-OUTS WITH THIS HEAT-RESISTING PLY'.
