Eastland Burr's Store Is Celebrating Its Tenth Anniversary In the City

This issue of the paper carries a full page advertisement announcing the Tenth Anniversary Sale of the L. C. Burr Department Store.

This popular store came to Eastland in 1930 at a time when depression years were at its height but with faith in the future of Eastland has constantly maintained a store that has been outstanding in the quality of merchandise handled and yet the prices have been held within the scope of economy.

During the past ten years the store has made many improvements and added many departments.

Mr. W. A. Green and his force of efficient employees extend a cordial invitation to the entire community to visit the store during the Tenth Anniversary Sale and take advantage of the low prices they are offering in celebration of the event.

A 15-year-old Ranger schoolboy has been placed under a \$1,000 appearance bond after his alleged attempt to attack an 11-year-old Ranger schoolgirl Tuesday afternoon while she was on her way home from school, it was stated today by Guy Pledger, chief of police of Ranger.

According to Pledger the youth is alleged to have left the ward school he attends, and to have awaited the girl along the route he knew she took on her way home from school.

Some time later, the police officer said, she appeared at her home, about three quarters of a mile away, with her hands bound with baling wire and a gag made from a rag and a handkerchief still in her mouth. She was released by her mother and officers were notified.

As Patrolman Pounds rode in the police car with the girl, Pledger stated, the girl identified a boy riding along on his bicycle as the one who had allegedly attacked her. The boy emphatically denied any knowledge of the act.

Advertising Service Builds Into One of National Proportions

Again Eastland comes within the jurisdiction of having as its headquarters one of the outstanding printing establishments of the nation. We say nation because the Cornelius Printing Company, which is owned and operated by Victor Cornelius, a local Eastland citizen who has been here practically all his life, runs the business of supplying theatres throughout the United States and Canada with an advertising service that is unique from the fact that Mr. Cornelius invented the idea and is fully protected by patents in the United States Patent Office.

From a little idea of a clip on napkin holders that are prominent in all cafes, cabarets and hotels throughout the nation there was born a business that has reached such vast proportions that an entire new building 50x100 feet is required to house the printing equipment necessary to take care of the increased demand for this class of advertising.

To provide 1,800 men work for eight months, a blanket project covering eight road jobs entailing the expenditure of \$410,677.70 has been submitted by Eastland County commissioners to WPA authorities.

The project was prepared by members of the commissioners' court and County Judge W. S. Adamson, who were assisted by County Engineer A. F. Taylor.

It is understood the project has been approved by state officials in San Antonio and now awaits the final oke at Washington, D. C.

The project will provide for the improvement of a total of 60 miles on eight farm-to-market road jobs. The eight projects range in expense from \$23,000 to \$70,000.

The eight jobs will provide a total of 836,900 man hours of labor.

Over 1,000 rock and concrete drainage structures will be constructed in the work if approved by Washington officials, stated Taylor.

When the project is approved and when the road work is completed as provided in the request, there will be over 400 miles of farm-to-market roads in the county built through the WPA program since September, 1935. That will leave 635 miles of public roads yet WPA-unimproved in the county. Eastland county has 1,033 miles of public roads.

At the present time the monthly payroll of men working on six county WPA road projects is \$50,000, all of which is spent in the county for necessities of living.

THE WEEKLY CHRONICLE

NOTICE TO THE PUBLIC

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation, which may appear in the columns of this paper, will be gladly corrected upon being brought to the attention of the publisher.

Obituaries, cards of thanks, notices of lodge meetings, etc., are charged for at the regular advertising rates, which will be furnished upon application.

No More Reds

The American Civil Liberties Union became the first liberal organization to take definite action against Communist and Fascist influences when the union's governing committee and board of directors both voted to bar persons belonging to organizations "with obvious anti-democratic objectives or practices."

Many Stalinist sympathizers will shortly set up a howl. But by its gesture, the Civil Liberties Union has won the applause of thousands of Americans, whose approval is more important than that of Reds and Fascists.

The name of the organization clearly states its objective. Anyone subscribing to tenets of the Civil Liberties Union, and, at the same time, upholding either Stalinism or Hitlerism, is the clearest kind of hypocrite. No organization, professing to safeguard American rights and liberties, can have room for that type of member.

Finns Test 'Culture Invasion'

The Finnish people haven't forgotten that, behind all the brutality, Joe Stalin still sticks to his avowed that he is sending culture to the "backward" Finns.

Stealing an idea from American radio quiz programs, a Finnish station recently selected five Russian prisoners at random and gave them a brief intelligence test while the world listened. The prisoners included a medical captain, an air captain, two sub-lieutenants, and one lieutenant.

A few of the questions were: "Who was Beethoven?" "Who was the first czar of the Romanoff dynasty?" "Where was peace concluded after the last war?" The questions drew complete blanks.

It's not going to be easy for Stalin to push that kind of evidence aside.

Pretty smart people, these Finns—at the front and behind the lines.

He's Honest: He Doesn't Know

If all the experts on relief problems were laid end to end, it would probably be just as well.

Ten years of trying to solve welfare problems have produced a chaos that extends from Washington almost to every municipality and township in the country. And for every relief client, three "experts" have sprung up.

During the December relief crisis in Ohio, President Roosevelt threatened to send soup kitchens into the state if they were needed. From Athens, O., a city of 8000 in the southeastern corner of the state, came a quick response from someone inviting the President to bring on the kitchens because people were starving.

County officials denied that there was starvation contended there was plenty of money to hand out adequate relief to all eligibles. The usual squabbles and name-calling followed. At the moment, things are being taken firmly in hand. A representative of the state relief administration is in Athens trying to straighten out the affairs. Three county officials have been indicated in connection with the middle.

It was the same old story—all the experts were out howling, and all of them were sure they were right.

It is downright refreshing, therefore, to find one man in Athens who could easily profess to be a relief expert—and who admits that he isn't. Gordon K. Bush, publisher of the Athens Messenger, was asked, "What about the relief situation down there?"

He replied: "Our reporters, who are unusually conversant with the courthouse and county affairs and finances, say that it is practically impossible for anyone to give a clear-cut answer one way or the other, because the matter is so involved."

A lesser man would have muddled through an explanation, vague and pointless, because it was expected of him. Few have the courage to admit that there are problems in this complex civilization that are beyond them.

Mr. Bush isn't the only one who doesn't understand relief. But he is virtually the only one who admits it.

Lenses and Liberty

The news camera is playing a part—an important part—in recording the history of our times. Not only freedom to speak and to print are important these days—freedom to record photographically the passing of events is also important.

That is why we think delegates to the United Mine Workers' convention at Columbus were wrong when they seized newsmen's cameras, tore out and destroyed their plates, when the cameramen had made "shots" of the Communist flag which suddenly appeared above President Lewis' head.

These delegates were fearful that something discreditable to their union might be recorded; they acted hastily and unthinkingly. Had they paused to think, they might have thought like this: what if the picture had been one which might reflect on a coal company or a steel company, and deputies or guards had similarly manhandled the cameramen and their pictures? Why, the unions would be first to raise a cry of "censorship" and high-handedness. That is no conjecture. It has often happened.

The incident of the Communist flag was evidently an ill-conceived and stupid prank on somebody's part. It reflected no discredit on the union. But the destruction of newsmen's equipment and the suppression of picture records of a convention of great and legitimate public interest reflects discredit on the union in a way which the pictures themselves could never have done.

Earl Conner, Jr., Is Candidate For District Attorney

This issue of the paper carries the announcement of Earl Conner Jr., for the office of Criminal District Attorney of Eastland county.

For consistency, fairness, strict adherence to the duties entrusted to him, Eastland county has been fortunate in the valued service of this devoted official to his trust, for the best interest of the citizenry throughout the county.

Following the procedure of his service as Criminal District Attorney, Earl, as he is familiarly known in every section, we find that he has never evaded nor shirked the responsibilities of his office and that he has based his prosecutions in every instance and detail in a fair and unbiased manner and with full knowledge of the rights of all defendants concerned. He is fearless in the line of his duties and has demonstrated in the cases under his jurisdiction that he knows the laws of the state and his prosecutions have come within the scope of protecting the citizenship against law violators.

It has also been very evident that the state has not been put to unnecessary expense due to prosecutions that have no merit and that would also jeopardize the peace and happiness of a citizen or place an extra burden upon the taxpayers of the community.

We herewith gladly present a personal statement from Mr. Conner for the consideration of the voters of the county:

TO THE VOTERS OF EASTLAND COUNTY: In announcing my candidacy for re-election for the office of Criminal District Attorney I come to the citizens of the entire county and earnestly solicit your continued confidence in my ability to administer the affairs of the office to which you intrusted me in extending justice in an unbiased, fair and impartial manner, according to the Constitution and laws of the State of Texas.

I am deeply grateful for the wholehearted cooperation of the entire citizenship that has been given me. I am also highly appreciative of the diligence and cooperation of all Grand Jurors and law enforcing officers with whom I have worked during my tenure of office for their untiring efforts in every session in delving into all matters brought to their attention for the protection of the interests of the public.

I feel that my experience during my tenure of office has qualified me to render you a greater service as your Criminal District Attorney, and I sincerely solicit your wholehearted support, vote and influence in the July primaries.

Sincerely yours, EARL CONNER, Jr.
