#### TVA Is Here to Stay

Many of the things that have been accomplished during our decade of depression are here today. It is a notable thing that in the current discussion of political platforms for 1940, almost nobody believes in a complete return 'o 1929, even if that were possible.

A case in point is that of Wendell Willkie, sensational dark hourse in the Republican presidential race. Willkie, a number of other towns of the works; Leghorn Roofing Products, a number of other towns of the last Machine and Engineering and Link Relt Company: Conro head of a giant utilities combine, has had his share of tangles with the Tennessee Valley Authority. No one fought it more straightforwardly, more openly, nor more turing plants are the Byer-Rol- plants and factories during the effectively. He didn't like the way it was built or expanded, and he doesn't like the way it is run, but it is there. The dams are built. The distribution system has been built and acquired. No president, Willkie believes, can turn the Manufacturing Company makes CLASSIFIED clock back.

It should now be operated for a test period, say, of five Foundry at Bonham makes castyears, Willkie suggests. Then, after close bookkeeping has shown that its real costs are as compared with the cost of new firms are Chadwell Cleaners, privately produced electricity, the country can democra- Sweetwater; Ruppert Bakery, Cistically decide whether to extend or control this field.

Memphis, for instance, became a year ago the first large city in the United States to own and operate all of its Craus, ice public utilities, gas, electricity, and water. The saving to Nemecek Brothers, meat prodthe people of Memphis in that year has been enormous, at least \$2,500,000. A million kilowatts a month more in residential service alone is being consumed. Savings of from omy Cash Feed Store, Wichita 25 to 40 per cent in utility bills have actually raised the Falls; Woodall and Fagan Gin standard of living of Memphians.

The only question is: Has this desirable result been and the C. and F. Cleaners, Purachieved at the expense of the taxpayers of the rest of the cell, Oklahoma; Walters Co-operacountry? The TVA idea has been based on the expectation that eventually the whole vast system will pay for itself- Hugo, Oklahoma. reimburse the taxpayers of the United States for an advance made largely for the benefit of a section.

Willkie is quite right in suggesting that the books of this enterprise should be kept in such a way that the American people will know exactly what TVA is costing

Who pays, and how much? Who gets the benefits, and what are they? Careful scrutiny should be kept of these factors, for on them will depend future policies that may well transform the country.

Some folks still insist Benito will remember the time he was left holding the grab bag.

Chamber of Commerce officials were charged with a mild form of treason when delegates to a San Francisco shoe men's convention were entertained at a night club where Hawaiian girls danced barefooted.

#### There was a time

-when old fashioned heating methods blistered your face while your back shivered.

But now ...

with natural gas service, winter can be just another pleasant, healthful season in the modern home.

# A timely reminder

Make your plans now for winter heating ahead of the usual fall rush

DO you remember the old days? Old-fashioned methods of heating ... children wore heavy underwear and long stockings in order to keep warm ... members of the family "huddled" in one or two rooms during cold weather ... mother went shiv-

ering about the house with a shawl around her shoulders ... someone was always "catching cold"-Remember? There is a direct relationship between your family's health during winter months and the way you heat your

home. Sudden changes of temperature during the treacherous months of cold weather are dangerous. If you follow the old-fashioned practice of "huddling" in one or two rooms while the rest of the house remains unheated - YOU ARE TAKING

> CHANCES WITH YOUR FAM. ILY'S HEALTH. Plan now to have adequate heat and healthful temperatures in every room in the home this winter. It's the modern way to fight the "common cold."

more than two hundred million illnesses each year. Don't give a "common cold" an even break!
