## Heat Your Entire Home ... for your health's sake this winter

Any health authority will urge you not to give a common cold an even break. Frequently simple colds develop into dangerous illnesses. Any sudden change of temperaturesuch as occurs when going from a warm room into a cold one-makes it easy for you to "catch cold." That is why it is important to heat your entire house and provide adequate ventilation during the short winter season.

COMPANY STUDIES COMMON COLD THREA

ing. "Doctors and health authorities, who cooperated with the company in preparing education information given at the conference, agreed that many colds so prevalent in this sec-tion of the country are caused by stuffy, overheated rooms," accord-ing to D. A. Hulcy, president of the Lone Star Gas System. "Our surveys show that many of our customers are not getting proper benefit from their present heating equipment, due to the un-heathful habit of living in one or two rooms during the winter sea-son," Mr. Hulcy said. "Occupants of these homes are not only sub-jecting themselves to exposure to catching cold by going from warm rooms to unheated parts of the house, but are also in danger by remaining in the overheated and usually poorly ventilated rooms. Scientific tests prove that the most important step in guarding against colds is to provide a circulation of warm air throughout the home." For several years the gas com-pany has been engaged in research concerning the common cold and the relationship between adequate heat and health conditions during the winter season. Findings from these investigations have been envinter season. Findings investigations have been d by leading dectors horities through

Nationally designated surplus oods, which will be available for blue stamps, for the period November 1 to November 36, in the Eastland County area, and in all other areas where the Food Stamp Plan is in operation, were need today by Eber H. Peters, local Stamp Plan representaive of the program. Fresh grapefruit, fresh cabbage, and onions (except green onions) have been added to the national list of surplus foods for the November 1 through Novem-ber 30 period. All other nationally listed surplus foods, available o Stamp Plan participants during the October 1 to 31 period, will be continued for the month of November. The complete list for November is as follows: cabbage, grapefruit, onions (except green onions), Irish potatoes, apoles, pears, oranges, butter, raisins, rice, pork, lard, all pork (except that cooked or packed in meta lor glass containers), corn meal, shell eggs, dried prunes, hominy grits, dry edible beans, wheat flour, and whole wheat lour (graham). Local designations of seasonal urplus vegetables, which have been made periodically since June on a regional basis, have been discontinued with the wind-up of the growing season in most producing areas.

Mineral Deposits To Be Sought By WPA

By United Press

TEXARKANA, Ark. - WPA offices have been established for a survey of Miller county to de-termine if any mineral deposits are present, to analyze its water supply and make a map of its surface. Completion of the work will

take about one year. Rex Red-wine of Little Rock, Ark., project superintendent, will be in charge Working with Redwine will be 10 WPA employes and a stenograph-

Holes as deep as 30 feet will be drilled in making the mineral analysis. The map will show roads, streams, houses, wells and springs. Samples of water will be taken from five wells or springs in each of Miller county's 800

when the survey is completed the information, along with that of two or three other counties, will be published in book form.

# MAKE A DATE FOR A RIDE IN TODAY'S LUXURY Liner

The feeling starts in your fingers-the moment they close on that handsome new steering wheel! You know in a flash that Dodge beauty is more than skin-deep...that here is a true Luxury Liner that only men who are proud of their craft could build so well!

LUXURY IN THE DODGE MANNER

Next, you're pretty apt to beam all over when you behold the most eyeappealing instrument panel you ever sawl...Like a jewel-case open for your inspection! Dodge designers are forever anticipating not only the big things you need, but the little things you like!

And what a "top o' the morning" feeling when you sense the power of that famous Dodge economy engine that saves you money on gas and oil every mile you drive...lightning in its

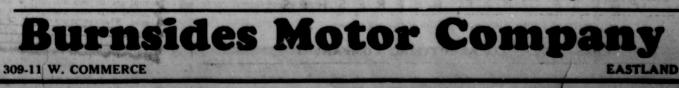

Words Can't Describe It...You've Got To See And Drive It!

leap to action-yet quiet as a whisper as it answers your lightest toe touch! It wasn't made in a day-26 years of building great Dodge Engines is back of it!

The same consummate skill is apparent in the many new safety features provided...such as a spring-balanced rear deck lid to the luggage compartment that raises or lowers without effort, and that can't fall accidentally! ... new Safety Wheel Rims to hold the tire to the rim even should a "flat" occurl... A 47.6% larger rear window to improve visibility "sternward."

#### START IN HIGH

And greatest of all the features of this brilliant new motorcar is Dodge Fluid Drive\*...in which "gearshifting takes a holiday." Drop in on your Dodge dealer soon for a demonstration of this new Dodge Luxury Liner!

ing Takes a Holiday! You can start in high, drive in high, stop in high... and start again in high!

A Thousand Different Speeds! You can drive from one mile an hour to top speed without ever shifting gears

The Smoothness of Oill Power is transmitted to rear wheels through a cushion of oil, giving unbelievable smoothness, longer car life.
