**Q: How much light is enough to sew on a button**

**A:** Sewing is a hard job for your eyes—few seeing tasks are more difficult. You need all the light you can get; certainly more than the poor illumination found in so many homes. To ease the eyestrain of sewing or other exacting visual tasks, use a lamp with at least a 100-watt bulb, and preferably a 150-watt bulb. You'll find that a floor lamp with the 100-200-300-watt 3-lite bulb makes a big difference in speeding work and reducing eyestrain.

**BETTER LIGHT** in your home brings you closer to nature's ideal, such as the good lighting you enjoy on your porch.

**CORONATION**  
 The King and Queen of Eastland School will be crowned Dec. 10 at the High School Auditorium. There will be three Dukes and three Queens and one Prince and one Princess from each class in High School. This year's coronation promises a grand entertainment for the entire school.

The class is slaving away trying to finish the book—order a readable facsimile of the same. The class is trying to cover a chapter in workbooks every two days when possible.

The class is learning how our government works, no fooling!

**AMERICAN HISTORY**  
 The American History class is studying the Constitution and their outlines for a theme. The teacher hopes will teach the class that it is really a wonderful thing to be an American.

**SCIENCE**  
 The Science class is studying about the region made some of those human beings (like Hitler's) who were human beings—if it is true (it wasn't).

**PHYSICS**  
 The physics class is about to be produced in the Speech Class. The play, "Night Before Christmas," is to be a scream and the most wonderful.

**ENGLISH**  
 The English class is putting on a play, the class is learning to do some real speaking. You should hear of these oral reports. No kidding, it's a good class.

**MATH**  
 The first year Science class is a whiz! Oh, are we smart. They had about fifteen to make or less in last weeks' work. Turner seems to be very smart. Ha! Once he made 16, on day 20, so Mr. Harvey says if he would study a little he might make fifty. Oh, how much for our grades. The class like most in Science is in the laboratory. So wish us on the next six weeks and we will make better grades.

**SPORTS**  
 The week the sophomore spotlights on that cute little girl, Frazer. She is 5 feet, 4 inches tall, and has brown hair and blue eyes. She tops the scales at 100 lbs.

 The one who is in the Junior Class spotlight this week has blonde hair, brown eyes, and is 5 feet 6 inches tall. Her favorite of all stars are Greer Garson and Butch Jenkins. She likes to read and go fishing. Most of all she likes to go to football games. She dislikes combination salad and leaky fountain pens. By now you should certainly know this is Ann Maddrey.

**SENIOR SPOTLIGHT**  
 Margaret Triggs better known as "Muggy" is in the spotlight of the Senior Class. She has blue eyes, light brown hair, and personality plus. Her favorites include "State Fair," Dick Haymes, Hedy Lamarr, blue and English—imagine English! The song she loves to hear is "It Might As Well Be Spring." As for boys she likes 'em all, just ask her. Margaret will finish school at mid term and go to college at Denton. She is going to NTSTC because it is co-educational. Smart girl!

### Music Club Meeting Here is Success, President Reports

The convention of the Sixth District, Texas Federation of Music Clubs, preceded by a state board meeting, all held in Eastland last week was quite a success, according to Mrs. Sheridan Newman, president, of Brady.

"World Wide Peace" was the theme of the convention, as outlined by Mrs. Joseph M. Perkins, state president, who had just returned from Washington, D. C., where she attended the national convention of Federated Women's Clubs.

Two fine arts programs were an inspiration to music lovers, and were outstanding in the number of artists participating.

Lard of Wichita Falls, organist, accompanied Herbert Rogers, pianist, who played the first movement of Rachmaninoff's concerto. An outstanding artist who is only 17 years of age, young Rogers is playing sensational performances.

About 35 state board members were among the guests here.

Friday evening, the Federated Womens Clubs of Eastland gave a tea in the Womans' Club honoring the guests.

Mrs. Ben Krauskopf of Cisco was elected president of the Sixth District, in the business meeting Friday evening.

day evening, and Mrs. Robert Wylie of McMurry college, Abilene, was elected vice president. The term is for 1946-48, and installation will take place at the state convention to be held in Corpus Christi in April.

For the junior day convention Saturday, which opened with registration at 10 a. m. at the Womans Club with Mesdames W. E. Brasher and H. T. Weaver in charge, 57 out-of-town guests registered.

Mrs. A. J. Ricks, Jr., of Brady presided in the place of Mary Verner, president, who was ill. A piano solo, "Fairy Footsteps," was played by Jana Weaver.

The Mozart Melody Club of Brady won first place for the best yearbook, best club report, and the largest number from out of town present. The Beethoven Club of Eastland and the MacDowell Club of Brady tied for second place in best club report. Scrapbooks were displayed.

Mr. and Mrs. Kay Lucas and family of Fort Worth spent Sunday here with his brother, Charlie Lucas and family.
