O'Brien Family Held Reunion At Lamesa

Mr. and Mrs. Earl O'Brien, Mrs. W. B. Bennett and Mrs. Clara Blisby attended the O'Brien reunion Saturday, April 20 at Lamesa. The reunion was to commemorate the one hundredth birthday of the late C. W. O'Brien, grandfather of Earl O'Brien, who lived and died in Eastland county.

He came to Texas in 1875, settling where Gorman now stands, from Sheridan, Arkansas. Nine children are living and six were present at the reunion, which was held at the home of J. F. O'Brien father of Earl. Every six months the family holds reunions observing the grandmothers and their grandfathers birthdays.

A barbecued beef dinner, with most everything good to eat, was served. The long table was covered in white linen depicting the days of the late Mr. and Mrs. O'Brien with bouquets of roses at each end and a vacant chair at each end where the parents always sat.

The invocation was by Rev. Rev. O'Brien of Big Spring, and Rev. P. D. O'Brien, pastor of the First Baptist church of Big Spring, was master of ceremonies. Religious hymns were sung with the opening song, "When the Saints Go Marching In" and the closing song "God be With You Till We Meet Again."

Seventy-five people were present, including those from Eastland, Fort Worth, Big Spring, Spur, Corpus Christi, Levelland, McCombs, May, Crane, and Los Angeles.

PAUL BENBROOK DUE PROMOTION TO STATE CASUALTY ACTUARY

The following regarding Paul Benbrook, son-in-law of Mrs. John Harrison of Eastland is taken from a recent copy of the Austin American:

"Paul Benbrook, Navy veteran, will be promoted to succeed Vestal Lemmon as casualty actuary when Mr. Lemmon leaves the Casualty Insurance Division July 1. Casualty Commissioner J. P. Gibbs announced Friday.

Mr. Benbrook is now the division's assistant actuary, having been advanced to that position when he returned from naval service last February. He was placed on inactive duty with the rank of lieutenant.

The casualty actuary heads the division's technical staff, and Mr. Benbrook's experience gives him a broad background in the casualty insurance field, Commr. Gibbs noted. After graduating from Teague High School, he received B.A. and M.A. degrees from the University of Texas in 1937. He was an instructor at the University and at West Texas State Teachers College before becoming connected with the State Insurance Department in 1938.

He became chief statistician for the automobile rating division before going with Cravens, Dargan & Company, Houston, as assistant manager of the automobile department. He returned to the casualty division in 1941 as assistant director of the automobile section in 1941 and became director in 1942.

For games played between local teams, the public will be charged a fee of 10 cents per person and five cents for grandstand seats, while for games played between local teams and visiting teams a fee of 10 cents will be charged for both the gate entrance and grandstand seats.

Thirty-five per cent of the gross proceeds from the sale of tickets will go to the local team sponsors.

EASTLAND VISITOR

Ray Hardwicke, Chief Investigator for the State Attorney General's office, was in Eastland visiting his family and friends over the Easter holidays.

LEGION POST PROTESTS ACT OF V-A REPS.

Claiming that representatives of the Veterans Administration who have visited the Eastland County Vocational School for ex-service men at Eastland, are demanding that each veteran taking these courses attend classes as much as twelve and one half hours per week, which makes it necessary for veterans taking training on the job to leave their work about two hours each work day, the American Legion at Eastland passed the following resolution which is being sent to United States Senators Connally and O'Daniel, Gen. Omar Bradley, Administrator of Veterans Affairs, T. G. Lamphier, Director of the Administration's regional branch office at Dallas, and Herman Nami, State Commander of the Legion.

According to members of the local American Legion post, both the veterans and their employers are complaining bitterly about the veterans being required to leave their jobs for class work.

RESOLUTION

WHEREAS, The Eastland County Training School, under the direction of the Eastland County School Board, set up to administer the training on the job to veterans under Public Law 346, 78th Congress, was approved on December 4, 1945 by A. O. Willman, Chairman, State Committee for Approval of Educational and Training Institutions under Public Law 346, 78th Congress, and his associate committeemen, and

WHEREAS, Mr. Willman and his associates granted the Eastland county School Board full authority to approve business establishments and various industrial establishments as being equipped to furnish training to veterans, and to furnish classroom instructions with a minimum of 3-10 hours weekly. The duty of the Veterans Administration was to determine the veterans' eligibility for training and to make subsistence payments to the veterans undergoing training, and to make tuition payments to the training school.

WHEREAS, Two hundred twenty-three (223) veterans have been approved by the school and are receiving training on the job.

WHEREAS, Representatives of the Veterans Administration have recently contacted officials of the Eastland County Training School and made a mandatory request that veterans under the training program attend daytime classes amounting to a minimum of 12 1/2 hours weekly. This action is vigorously protested by veterans undergoing training and by the employers offering the training. Some employers report that it will be impossible to continue their training program as they cannot spare the trainee 12 1/2 hours weekly from their jobs. Other employers who were planning to train veterans on the job refuse to do so under the present set-up. This action by these representatives of the Veterans Administration is seriously handicapping the training program and is threatening to kill the program entirely.

THEREFORE, be it resolved that the American Legion, Dulin-Daniel Post No. 70, Eastland, Texas, urgently requests that these representatives of the Veterans Administration withdraw their demand of a weekly 12 1/2 hours daytime class instruction if they do not have the authority to make such demands, or, if they do have such authority, it is urgently requested that they relax this 12 1/2 hours weekly minimum daytime classroom work to a workable plan. Dulin-Daniel Post No. 70 The American Legion Eastland, Texas.

HARDIN - SIMMONS UNIVERSITY SYMPHONY ORCHESTRA TO GIVE CONCERT

ABILENE, April 25 — The Hardin - Simmons university Symphony orchestra under the direction of Herbert M. Preston will present a varied program with a wide range of appeal when it appears in concert at Eastland High School auditorium Monday April 29th at 11 a. m.

This will be one of the six stops of the 40 piece organization from Abilene on its tour of this part of West Texas. Other concerts are slated at Winters, Breckenridge, Ballinger, Cisco, and San Angelo.

Organized in 1934 by Mr. Preston, formerly of Chicago, the Hardin - Simmons orchestra is one

of the oldest college symphony groups in West Texas. Many former members have distinguished themselves as composers, teachers and band and orchestra directors, several having become prominent as army band directors during the war. The orchestra is made up exclusively of University musicians and has been sponsored and maintained by the school continuously under the same direction ever since it was established. During the war the orchestra gave numerous concerts at the USO and service clubs of the various army camps of this area.

Otis Harvey is associate conductor of the orchestra and Sue Hooker is concertmistress.

Featured on the program will be vocal solos by Unita Rogers, San Angelo, who is a coloratura soprano and a student of Miss Ethel Rader; and by Mary Catherine Miles, 13-year old violin student of Mr. Preston.

Orchestra numbers will include excerpts from Wagner's opera, Die Meistersinger, a processional march Introduction to Act III from Lohengrin; the Rose Marie Selection by Friml; El Relicario by Jose Padilla; the Russian Sailor's Dance from the Red Poppy by Gliere and Star Dust by Hoagy Carmichael.

By J. T. Warden

The newly organized Quarterback club gave their first banquet for the Eastland High School Athletes, Friday night, April 19, at the Connellie Roof Garden. There were approximately two hundred guests present. The guests were members of the Quarterback club, E.H.S. boys who participated in any of the athletic sports in the past year, and a few honored guests. The toastmaster was Judge Virgil T. Seaberry. He introduced the president of the club, Conrad Reeves, the school superintendent, W. C. Womack and other officials. He then called on Coach Chief Warden to give a prayer of thanks after which the banquet dinner was served.

The dinner consisted of an appetizer of lettuce and french dressing; the main course consisted of hot rolls, ham with raisins, baked potatoes, english peas, coffee and ice cream and cookies.

The coaches of next year were introduced and Chief Warden was called on to introduce the athletes and tell something of each one's record. Exes who attended were also recognized.

Very pleasant entertainment was furnished by Glenn Castleberry's songs, accompanied at the piano by Gladden Womack, Billy Allen Kenney played a very nice piece of "Boogie" and the "Donkey Serenade".

The highlight of the evening came when Mr. Seaberry introduced the two principal speakers, Coach "Dutch" Mayer of T.C.U., and Mike Brumlow, line coach of T.C.U. After the speeches, slow motion pictures of the T.C.U. and A.M. football game was shown with Coach Mayer explaining each play.

The occasion was one which shall not soon be forgotten. If you have not joined the Quarterback Club you should do so at once. It is truly a great organization.

MRS. LOVE IS ELECTED H. D. VICE-PRES.

At the annual district convention of District 7 of the Texas Home Demonstration Association held in Ballinger the latter part of the week, Mrs. John Love of Ranger, Route 1, was elected first vice-president.

Mrs. Love is a member of the Alameda Home Demonstration Club and has been active in H. D. club work for years. She has taken a very active part in the county organization. At present she is serving as secretary of the Eastland County Farm Bureau and is president of the County Federation of Women's Clubs.

Sessions of the convention were held at the First Baptist church in Ballinger. At noon Thursday the Ballinger Board of Community Development entertained delegates and visitors at a luncheon in the City Park.

In the absence of Mrs. A. L. Renfro of McCullough county, vice-president who was to have presided, Mrs. W. C. Shafer, vice-president of District 2, presided. The morning was devoted to the county reports and discussions on matters of importance and during the afternoon session, Barbara Franklin, Morton Valley 4-H Club, gave a report on girls' 4-H club work in Eastland county and exhibited articles made by Eastland county girls.

Twenty-seven from Eastland county attended the session and those from Route 1 who attended were Mmes. A. H. Dean, John Love, B. B. Freeman and F. E. Ferrell.

Rites For C. J. Moore Held In Ranger, Dallas

Last rites for Charles J. Moore were conducted Wednesday afternoon at 2:00 o'clock at the Ed C. Smith Funeral Chapel on Ross Avenue in Dallas. Rev. Burton Smith, an Episcopal minister officiated and burial was in a Dallas cemetery.

Funeral services for Mr. Moore were conducted in Ranger Monday afternoon at 4:00 o'clock at the First Methodist church. Rev. H. B. Johnson, assisted by Rev. Wallace N. Dunson, officiated. Arrangements were by Killinkworth's Funeral Home in Ranger.

At the request of Mrs. Cora H. Moore, wife of the deceased, who was in California and could not reach Ranger Monday, Mr. and Mrs. A. E. Ernst, long time friends directed arrangements which were made by members of the Lions Club, of which Mr. Moore was secretary, and friends of the deceased.

Jenning M. Moore, father of the deceased and his sister, Mrs. Arell Barta of Corpus Christi, came to Ranger for the services.

Mr. Moore, better known to most of Ranger as "Charlie," was instantly killed Sunday afternoon about 5:00 o'clock when, while enroute home his car was side swiped by a truck at the foot of Thurber Hill.

One of Ranger's best loved citizens, Mr. Moore had been a resident of Ranger since February 1919. He had consistently worked for the welfare of the town and had served in many civic offices. He was a past city commissioner, past exalted ruler of the Elks Lodge, was one of the original members of the American Legion Tickle band and at one time was voted Ranger's most outstanding citizen. He was a member of the Episcopal church. He was born April 10, 1894 in Dallas.

Eastland Man Returns From Detroit Visit

Milton J. (Pop) Gaines of the Eastland Auto Parts has just returned from a business trip to St. Louis and Detroit. He brought back a 1-ton Dodge truck which he had purchased from McGraw Motor Company, Eastland Dodge and Plymouth dealers, as well as a considerable supply of merchandise for his big Eastland store. Other merchandise purchased on the trip is arriving almost daily.

Mr. Gaines, who conferred with representatives of some of the large manufacturers, says he got the impression that the main things holding up supplies is the strikes that are holding up steel because of the coal shortage, and the restrictions being imposed by OPA. At least this is the impression the manufacturers left on him.

LONE STAR PENSION PLAN STARTS JUNE 1

A pension plan providing retirement income and additional insurance for employees of Lone Star Gas Company and Lone Star Producing Company will be effective June 1, officials announce.

Approximately 3,000 employees in the 300 Texas and Oklahoma cities and towns in which Lone Star operates will be eligible to participate, including returning service men whose benefits cover time spent in the service.

Normal retirement age will be 65. Annual cost to the company is estimated at \$485,000. Lone Star will pay for all past service benefits and its contributions for future benefits will exceed three dollars for each dollar contributed by an employee.

Certain employees will be entitled to benefits if they sever connections with the company prior to age 65 due to causes other than death, sickness or physical or mental disability.

A booklet is to be issued to employees explaining the plan and application blanks will be provided. Participation will be voluntary.

The pension set-up has been termed by insurance representatives as most complete and it is being used as a pattern for similar plans. It is one step in the company's plans for strengthening its peace-time service throughout its system.

Church To Serve Fried Chicken Dinner Today

Members of the First Baptist church (col.) will have a fried chicken dinner Friday at 11:00 a. m. at the church annex. A charge of 75 cents will be made as the proceeds go to a building fund for completing repairs now being made to the church. In addition to the chicken dinner, home baked pies and cakes will be sold.

Those in charge of the dinner extend special invitations to white folks to attend the dinner and state that arrangements have been made to serve them in a special dining room in the church annex.

Elephants Guard Circus Against Labor Troubles

Labor troubles may interfere with operation with some businesses at intervals but Dailey Bros. Three Ring Circus, exhibiting on East Commerce Street in Eastland Tuesday, May 7, has unique and dependable insurance against such troubles in the form of its herd of 10 huge elephants.

When the circus train is unloaded in the railroad yards the elephants will be seen pulling the many heavy wagons from the string of flatcars. At the show-grounds the elephants will raise the huge center poles, pull up the peaks of the many big tents, shove wagons into position and perform many other tasks not on the circus program.

Directed by pretty Norma Davenport at 14 the world's youngest elephant trainer, the huge beasts present an intricate routine on the circus program, climaxed by a realistic baseball game in which the two-ton pachyderms themselves are the players.

And when the big show is over the beasts will be seen going around the tents, wrapping their trunks around the iron stakes and pulling them from the ground. They do this without the presence of any elephant attendant.

In its herd of elephants the circus has a corps of powerful, docile workers who never go on strike. As a reward they receive adequate supplies of fresh hay, with an occasional loaf of bread as a special treat. The Dailey Bros' elephants will accept this tidbit from none other than their youthful trainer.

The elephant act is but one of the many seen during the two-hour circus performance. Performances will be presented at 3 and 8 p. m. and doors will open an hour earlier to allow ample time for inspection of the large free menagerie, which includes elephants, lions, tigers, zebras and many other animals from the far corners of the earth. An elaborate horse fair which includes many blue ribbon winners is another feature of the menagerie.

New circuits are on the way

Here's how long distance underground cable is plowed in . . .

CABLE UNDERGROUND

A new coast-to-coast "coaxial" cable now being laid underground across Southern route, in addition to providing new paths for radio broadcasts and television, will carry more long distance calls than the four other transcontinental telephone lines put together. It will have a capacity of 1,920 circuits.

This cable is part of the Bell System postwar construction program, which aims at achieving prewar speed of long distance service.

The cable train is now in the vicinity of Dallas, Texas. The Shreveport-Dallas section of the cable will be placed in service this summer.

N. E. Grisham Announces for District Atty.

N. E. Grisham, Eastland Attorney, announces his candidacy for County Attorney in the forthcoming elections, subject to action of the Democratic Primary next July. In making his announcement he states the following:
"The principal duty of the County Attorney is to prosecute criminal cases for the State. It will be my purpose to see that justice is done. In addition to the prosecutions, it is further the duty of the County Attorney to act as advisor and to assist the Sheriff's department, the tax collector, the commissioner's court and other departments of the County Government. I will cooperate with all of these departments in any manner which will make for efficiency and good government in the administration of the County's affairs. I will do my duty as I am directed to do under the Constitution and Statutes of the State of Texas."
Grisham is 32 years of age, married to the former Sybil Holder, and has two children. He is a university graduate, and has a five years law practice with his father, the late R. N. Grisham, prior to his entry into the army. Grisham enlisted as a Private and was assigned to the 91st Infantry Division four years ago, and was separated from the service on January 22nd of this year as a Captain and in which position he held the office of Post Judge Advocate.

Dubin-Daniel Post No. 70 AMERICAN LEGION
DON D. PARKER, Post Commander

Somewhere in your town, or perhaps in your office, plant or industry, there are jobs which can be capably filled by war-handicapped veterans.
It is altogether likely that also in your community there is to be found a handicapped veteran who needs that job or position, and so can fill it rapidly and satisfactorily.
Much has been said of the undoubted ability of these handicapped men to compete with their able-bodied comrades in doing a full day's work. New techniques in training these handicapped men to take their place in the community as self-supporting producers have been employed in the armed forces, and when they discharge such a handicapped veteran into civilian life, he usually is prepared, physically, mentally and emotionally, to do a day's work to the satisfaction of both his employer and himself.
But the fact seems to be that there has been a falling down on the part of those of us who are

not handicapped in getting the handicapped man and the job together. Too many of these men—peopeles and those with other war disabilities—find themselves unable to connect with a job, despite their willingness and their ability to undertake such employment.
This situation can be quickly cured by the willing cooperation of the able-bodied workers as well as the employers, in locating jobs which can be done by these handicapped persons, and seeing to it that a handicapped veteran is connected with that job.
All of the evidence shows that these handicapped persons make good employees; their records of production, of skill, and of a minimum of time lost are reported to be just a bit better than for the able-bodied. Unless they are given their chance, we must admit that industry as an employer, and ourselves as comrades of these veterans, have failed in a mission we should perform promptly and willingly.

CHRISTIAN SCIENCE SERVICE
"Probation After Death" is the subject of the Lesson-Sermon to be read in all Churches of Christ, Scientist, on Sunday, April 28.
The Golden Text is: "Take heed, brethren, lest there be in any of you an evil heart of unbelief, in departing from the living God. But exhort one another daily, while it is called Today; lest any of you be hardened through the deceitfulness of sin" (Hebrews 3:12,13).
Among the citations which comprise the Lesson - Sermon is the following from the Bible: "Search me, O God, and know my heart: try me, and know my thoughts; and see if there be any wicked way in me, and lead me in the way everlasting" (Psalms 139:23,24).
The Lesson - Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The death of a false material sense and of sin, not the death of organic matter, is what reveals man and life, harmonious, real and eternal" (page 298).

| At a 60c rate for 1946, your County taxes would \$6.00 | | | |
| DELINQUENT County Collections for Jan., Feb., and March, 1946, are \$37,299.05 | | | |
| DELINQUENT Rural School Collections for Jan., Feb., and March, 1946, are \$3,275.05 | | | |
| ON YOUR OWN VALUATION AT A RATE OF APPROXIMATELY 60c PER HUNDRED, WHAT WILL YOUR SAVINGS BE FOR 1946? | | | |

Your attention is directed to the last column of figures shown above, 1945. Comparing it with the other two columns, you will readily see that the current collections have substantially increased even though the rate for 1945 is 26c lower than 1944 and 35c lower than 1943. The increase in delinquent collections is almost four times as much in 1945 as compared with 1943. This has all been done through a fine spirit of cooperation, in an orderly manner and at a time most convenient for the people, which shows their desire to place this County on a sound financial basis.
Too, the collections for County Rural Schools have been greatly benefited. Note that Delinquent Rural School Collections are almost four times as much in 1945 as in 1943.
Particular attention is called to the County Tax Rates. Figure your taxes on the value of your property for these three rates and also on a rate of approximately 60c per hundred valuation, for 1946, and note your savings. The continued cooperation of the tax payers with the Tax Collector's Office and the Commissioners' Court in rendering your property, placing a fair and reasonable value on same, and seeing that your property is correctly described on your rendition, this will save you tax troubles and tax dollars.
The County has on hand enough money to complete or pay off all term road and Courthouse bonds and meet all the cash requirements on all bonds for 1946 and approximately \$25,000.00 to apply on bonds and interest maturing in 1947. By the end of this year we expect to have enough money on hand to pay all bonds and interest maturing during the NEXT TWO years. All other County funds have improved in the same proportion.
The above report gives you a complete financial picture of the County, and the benefits you are deriving from this program.

What Changes a Few Years Can Bring
... especially in prices and values on homes, business properties and other commodities we classify as housing facilities. In 1933, for example the average 5 and 6 room modern home, including lot, cost \$3,820.00. The same home in 1940 cost \$5009.00, while today, if you could get material to build, the price would be \$7,197.00. (Figures taken from government statistics). And the improved properties as well as personal properties are up in the same proportion. Are you insured on 1933 values or 1946 values?

Californian Writes of His Trip Back To His Native State of Texas

By S. ED REYNOLDS

After leaving the cemetery, at my request, we went across in a Northwest direction to a place where we school boys used to play. There is a steep bank on the side of the hill where we would take 1x12 boards and sit on them, sliding to the bottom, then climbing back up and sliding again. The first one up would be first to slide down again. That was one way we boys got our exercise in those days. In between the big hill and the little hill, near by, we gathered our Indian paint-rocks that we used to turn our selves into Indians until the teacher had to rule against warpa in school. There are many paint-rocks there yet, and I took some when I went back; I have now returned to Eastland, and I am writing from where I am now rooming at 232 East Olive St.

After leaving the paint-rocks between the hills, we went west along side of our old home place where I lived from the age of 4 to 11 years of age. We traveled around a year or so, then came back and lived at Pleasant Valley for two years. We then lived on my grandfather Seabourne's place, one mile north of Pleasant Valley, one year. Next we settled upon the hill west of the Seabourne place about a mile northwest of Pleasant Valley school house where we lived until I was married in 1899.

While walking along by the side of what was our farm in my childhood, and where then grew crops of corn, cotton, wheat, oats, millet, watermelons, muskmelons and many garden vegetables and a splendid orchard of peaches, plums etc. I only saw grass and weeds and not one sprig of anything resembling any of those things mentioned above. Our old home stood on a gravel-elevated point extending out from the foot of the big hill and around about it were many beautiful post-oaks but today there is nothing but desolation and silence.

Once upon a time there lived a family in a humble little 3 room cottage with stairs leading to an upper space that was used for storing things, and when necessary, for sleeping quarters. The little home had two chimneys, but today I could not see one small stone that had been used in the building; neither did I see one board that was used in the build-

ing; however, moving about us were living images of my father, mother, brothers and sisters and even the cows, horses and even our old dog "Watch" came wagging his friendly tail as though he was glad to see me after all those years of our separation. I have long thought that there must be a happy place where animals and birds live on, after living lives of useful service to man.

I could visualize my father's happy appearance when seated before the fire-place with his Bible in hand and the family gathered around while he read from the Word and prayed for God to protect and guide and then perhaps with song book in hand we would sing gospel songs which afforded father and mother one of their greatest enjoyments.

I can see a healthy, vigorous, black-haired, dark complexioned one fourth Cherokee Indian, Welch-American woman with flashing dark, brown eyes, walk briskly out to our front gate with chin high and body leaned back, elbows askimbo, fingers forward and thumbs back of waist and a dull in clear, high-pitched voice: "OO . . . OO . . . K LILLY; Soo . . . oo . . . K LILLY; Soo . . . oo . . . K FRIDE; Soo . . . oo . . . K Sook; and immediately the resounding reverberations soo . . . oek; Lilly; Soo . . . oek; Lilly; soo . . . oek; Pride; soo . . . oek; soo; Thusly mother's voice charmed or otherwise got the cows to come home and likewise her children when they wandered. We seldom wandered so far that she could not reach us with her splendid voice.

I GIVE YOU TEXAS

By BOYCE HOUSE
The only sea voyage I ever took was to Catalina Island, off the coast from Los Angeles. True, the distance was only 25 miles but the ship's deck developed quite an angle at times and walking wasn't easy.

The craggy island rises high from the sea, presenting a sight familiar to movie goers for it has furnished the background for many a saga of the ocean—shipwrecks, marooning of sailors and hunts for pirate treasure; and it has been the locale for many an idyl of a South Sea Isle.

On the way, you see flying fish. There are many beautiful homes, including the one that belonged to novelist Zane Grey, ensconced on the precipitous slopes, which are clad in shaggy, green bushes. Then there is a drive over the island, and, from the crest, you look down upon what seems a toy village, and creamy waves, incredibly little, break against a miniature shore.

But none of these constituted the most memorable feature of Catalina Island, which by the way is owned by William Wrigley, the chewing gum magnate, and he spent millions of dollars in its beautification.

Nor was the most vivid experience the ride in the glass-bottomed boat, though you saw many marvelous ferns and flowers growing in the water and fish of many kinds glided at your very feet and stared at you with their big eyes and, as the climax, the diver went overboard and you beheld him far below, on the bed of the sea, and

D. D. T. Saves Asters From Insect-Borne Disease

Thanks to the army insecticide, D.D.T., asters which once were rated among the three most popular flowers, may be on their way back to leadership this year. For years they have suffered from an insect-borne virus disease called aster yellows, which was carried from host plants by a pestiferous insect known as the leaf hopper.

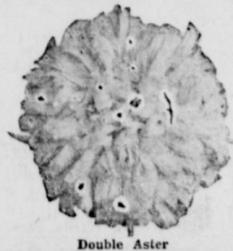

This is a tiny jumping and flying pest which does not eat leaves, but saps plant juices. No insecticide had ever been found which would control it, until D.D.T. was tried. When dusted on the plant, this new insecticide stays thru until the insects, which swarm on the gardener's approach, come back to renew their feast. Then D.D.T. strikes them, through their feet, and soon there are no leaf hoppers.

The aster wilt, which is prevalent in some sections, has been overcome by breeding wilt resistant varieties; but against the yellows no remedy had been found, except to grow the flowers in a cloth house, or a high cloth fence, which would exclude the leaf hoppers.

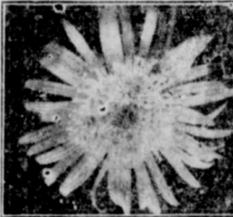

Because the plants grow slowly, they are usually started under protection, to give an earlier harvest. But if you are willing to wait, more vigorous plants can be grown by sowing direct in the garden.

The large flowers, many colors, and beautiful forms make asters one of the exhibition flowers, which are gorgeous enough to present the sort of spectacle that is required for a great flower show. They have all the colors except yellow, but a yellow blend is found in varieties of the California Sunshine and Princess types, which have crested centers surrounded by guard petals.

There are dwarf asters, which grow into bushes covered with small flowers, and single asters, in effect large daisies of many colors, which will be new to many gardeners. If you try asters this year, protect them from the leaf hoppers by regular dustings from the time they are a few inches high.

What is your GUESS?
on our profits...

SOMETIMES, although an idea is wrong, it does no harm. Like the idea that a square jaw is the sign of will power. That winters aren't as severe as they used to be, or that red hair denotes quick temper.

But there are other wrong ideas, which are definitely harmful to public confidence in and understanding of industry. One such idea is the current "guessing" about profits made by large business organizations.

Many people are apt to grossly exaggerate the money made by business. So Opinion Research Corporation (an independent organization) made a survey to learn just what the public thinks about profits. Compare these guesses and years with the International Harvester profit figures given below.

5 5 5 5 5 5
Profits on war profits . . . 30.0%
5
If four war year average profit . . . 4.9%

In this survey, the average of the guesses by the public of the war-time profits made by industry was . . . thirty per cent (30%).

But in the four peace years of 1942, 1943, 1944, and 1945, the profits of International Harvester Company averaged only . . . 4.9% on sales. Less than one sixth of what the general public "guessed" for all industry.

For this period, the year by year per cent of profits on sales was: 1942—7.34, 1943—5.59, 1944—3.95, 1945—3.93.

5 5 5 5
Public guess on peace profits 18.0%

If four pre-war year average profit . . . 7.17%

In the four peace years of 1938, 1939, 1940, and 1941, the profits of International Harvester Company averaged . . . 7.17%. This is well under half of what the public "guessed" for all industry.

5 FAIR 5 5 5
Majority think fair profit in normal times is . . . 10%

The survey indicates the public knows that in our economy profits are indispensable. And the majority regard 10% as a fair

Wages and materials consume nearly all of every dollar Harvester takes in from sales. A Government board has recommended and the Company has agreed to pay a general wage increase of 18 cents per hour for Harvester factory employees. The Government has also allowed price increases on raw materials which we purchase in large quantities. Steel has had an average increase of 8.2%.

There has been no general increase in our prices since they were frozen by the Government early in 1942.

So our situation today is that what we BUY costs us 1946 prices. We will be paying average hourly wages 56% above 1941. For what we SELL we get only 1942 prices. This condition cannot long be met out of our present low rate of profit.

Future Prices on I H Products
It is plain that price relief will be needed to meet the increased wage and material costs which we must carry.

We regret this necessity. We prefer to lower prices, when possible, rather than raise them and we know our customers prefer to have us do that. We had hoped to be able to "hold the line" at least. But we do not see how we can avoid operating at a loss if our prices continue to remain at their present frozen levels. We will NOT "cut corners" on any of our products, because QUALITY IS THE FOUNDATION OF OUR BUSINESS.

Our customers can be certain that we will seek no more than a moderate profit, both because of our policies and because we have approximately 300 competitors fighting us vigorously for your business. Our request for price relief will be no more than is necessary to insure continued service to our customers, continued work for our employees, and a reasonable return for our stockholders.

materials up to that time. But recent developments have forced a change in our plans.

BY WILLIAM E. GILROY, D. D.

THERE are some men who are so settled and uniform in their ways and habits, so fixed in character and psychological reactions, that their attitudes and actions in any situation could be predicted with almost scientific accuracy.

There are other men, whose characters and actions are as unpredictable as New England weather. Pent up within them are great forces and possibilities for good or for evil.

PETER was of this unpredictable sort, strongly impulsive and intense, ready to risk everything on a great adventure, easily discouraged when his hopes were disappointed, or when his plans seemingly failed.

EVELYN HEYWOOD GIVES LECTURE ON CHRISTIAN SCIENCE

The First Church of Christ, Scientist, Eastland, presented a lecture on Christian Science entitled "Christian Science: The Science that Eliminates Fear" was given by Evelyn F. Heywood, C. S. B., of London, England.

August 1 - Mr. and Mrs. Hofine of Johnston county arrived here at 2 p. m. by the T&P railroad to visit Mrs. Hofine's sister, Mrs. E. D. Townsend.

August 4 - E. D. Townsend and Mr. Hofine killed 6 doves and 2 quail.

August 7 - Too hot to get religion and the camp meeting is about played out.

August 8 - Light rain, cloudy and pleasant weather.

August 9 - Sudden change in weather and the town as usual is out of wood - look out for chills and fever.

August 15 - Caught in a storm in the woods, Allie, the children, Charley and myself. The quilts saved us from being drowned.

August 20 - Commenced hauling corn today. It will be over half a crop.

August 22 - Finished Allie's milk house. The best job of its kind in the country.

August 29 - It has been raining for the last ten days. All kinds of stock look well.

August 30 - J. T. Townsend, Charley Simmons, Ed Simmons and Mr. Morgan left Eastland this morning for Llano, prospecting.

Sept. 4 - Fine rain this morning and wind in the north. Received a bottle of 10 year old brandy from my old friend, J. H. Holloway of Eddyville, Ky.

Sept. 11 - This morning cold norther and cloudy.

Sept. 21 - The first pile for the new bridge over the Leon at Eastland was put in at 2 o'clock today.

Sept. 27 - Water getting very scarce - no rain yet. Last week was the hottest of the year.

Sept. 28 - 2 young boys lodged in jail for robbing and horse stealing.

FRANK LOVETT OF EASTLAND DIES TUESDAY

Funeral services for B. F. (Frank) Lovett, II, of Eastland were conducted at the First Baptist church in Eastland Thursday afternoon at 5:00 o'clock.

Miss Heywood is a member of the Board of Lectureship of the Mother church, First Church of Christ, Scientist, in Boston, Mass. The lecturer spoke substantially as follows:

In the Christian Science textbook, "Science and Health with Key to the Scriptures," Mary Baker Eddy pictures, by means of what she calls an "allegory," the experience of mortal man on trial for having committed liver-complaint. The prisoner, after many witnesses have been called, is adjudged "guilty" of disobeying the laws of health, and is condemned to die.

The trial of the prisoner is begun anew, but this time in another court, the Court of Spirit, and this time Christian Science is the counsel for the defense. The second trial results in a complete contradiction of the first and reversal of the sentence of death to one of life. The prisoner is declared "not guilty."

In this vivid and pictorial drama, Mrs. Eddy stages what has, in some degree been experienced by many thousands of those who are today Christian Scientists. Of the severest sentences of disease, of overwork, of heredity, have been passed upon them, and the sentence of "guilty," from which there appeared no reprieve, been pronounced. And then the vision of a power transcending mortal verdicts has been glimpsed, an assurance gained that the captive can be set free, that Love and Life are available here and now, and that they mean health and salvation.

In "Retrospection and Introspection" Mrs. Eddy writes (p. 61) "Science saith to fear: You are the cause of all sickness; but you are a self-constituted falsity - you are a darkness, nothingness. You are without hope, and without God in the world. You do not exist, for perfect love casteth out fear."

What is this science? And why can it speak thus authoritatively? This Science is the law of God, and it gives man - you and me - as the reflection or idea of God, the right to speak thus to fear. And we have this right because we are

Green, Leafy Foods Are a "Must" for Home Gardens

For family health, the most important crops in the home vegetable garden are the greens, which nutritionists call the "green, leafy, vegetables," and recommend so highly as a source of vitamins.

Of these, spinach is not the chief, since its harvest ends with hot weather. But there are others which bear throughout the summer and produce, for the space they occupy, more food than other crops. Most widely grown are Swiss chard and New Zealand spinach.

Chard is an ancient vegetable, probably the first form of beet to be grown in food, while New Zealand spinach is relatively modern, having been discovered as a wild plant in New Zealand, where the natives did not eat it. It became popular in Britain long before its vitamin content was known. Its flavor resembles that of spinach.

It has large, hard seed, which some have difficulty growing; but grows well if sown in the early spring, as soon as the soil has been prepared. Seeds often live over winter and come in the spring, and the plant is hardy in spite of a tropical origin. But it is easily overdone; since one plant fills a bushel basket, and when the tips of its leaves are cut off for use, new tips grow rapidly, and the harvest continues until late in the fall.

Swiss chard should be used when the leaves are young, not over ten inches in height. Sown with the earliest crops, it will be ready to cut in a month, and new leaves will grow to replace those that are cut. Chard has a distinctive flavor, which many prefer to spinach, and children usually like it better.

The mustard family provides several varieties of greens. One known as Tendergreen will produce edible leaves in 21 days from sowing, and if the roots are left undisturbed will produce eight or nine crops in the season. All the mustards are quick growing, and are much esteemed in the southern states.

Garden sorrel is a hardy perennial, which will live over winter and

A Single Plant of New Zealand Spinach.

produce greens. It does best in light shade.

Kale is a fall and winter plant. Sown in June, the plants set out in rows two feet apart, they will produce leaves which stand freezing, and are improved in flavor by that experience. Collards are a member of the cabbage family which do not make heads, but leaves with cabbage flavor.

All these varieties of greens are rich in minerals and vitamins, and are valuable in the diet. It is well for the home gardener to plant a small quantity of several kinds so that the family does not grow tired of greens. All produce a surprising quantity of food on small space.
