

## FORTY VOICE CHOIR COMING TO RANGER

Forty voices strong, the picturesque Appella Choir from the North Texas State College will be heard in concert here Sunday, Oct. 27, at 8:15 p. m. o'clock in the Recreation building. Their appearance is sponsored by Men's and Women's organizations of Ranger.

Under the direction of Dr. Wilfred C. Bain, Dean of the School of Music NTSC, the NTSC Appella Choir is said by critics to be one of the most dramatic and colorful musical organizations in the Southwest.

Trained to precision, the forty young men and women offer a performance that is exciting both to the trained music lover and the uninitiated. From its programs audiences derive the same thrill that comes to the spectators watching any other finely balanced human machine in action—a crack battalion of troops on dress parade or a championship football team driving down the field toward victory.

The Choir, dressed in purple velvet and white satin robes, move quickly to their position in the phalanx formation in which they always sing. The conductor takes his position, and immediately the Choir begins singing. They sing number after number, and each time there is no hesitation, and as far as the audience can tell, no clumsy "getting the pitch."

The result is a graceful performance in which Dr. Bain plays on his human "symphony of voices" with even greater precision and variation than a skilled organist. Bain guards closely as a professional secret his method of enabling his singers to start their programs without permitting the audience to discover how they receive their pitch.

## 17th District Legion, Auxiliary Meeting Sunday

The convention of District 17 of the American Legion and Legion Auxiliary will be held in Breckenridge Sunday with a business session scheduled to open the one-day session.

## West And South Ward Schools To Have Carnival

Because of the great demand of the school children of Eastland the Parent-Teachers Association of the South Ward and the West Ward grammar schools of Eastland have banded together to put on the first Halloween Carnival in two years on the night of October 31 at the High School Gymnasium on High School Hill. It is felt by members of the two associations that not only will the two organizations realize considerable money for their respective treasurers from the events, but it will also give the children of Eastland a good Halloween party to attend, and will keep them occupied on the night when pranksters are liable to stalk the town.

The executive committee of both associations met Wednesday afternoon in the cafeteria of the South Ward School to complete plans for the Carnival. It was announced that the doors of the gymnasium will open at 6:30 p. m. for the beginning of the fun. There will be a lunch counter serving various types of food. Also there will be an ice cream booth, a cold drink booth, a coffee booth, and candy, gum and other attractions will be present. A Spook House will be put on for the children and grownups too. There will be a Cake Walk, cakes having been promised by the leading cooks of the town. There will be a large and interesting Bingo game for both children and adults. Several very good fortune tellers have promised to be on hand to predict the future. An innovation will be weight-guessing concession which promises to be one of the hilarious events of the evening.

There will also be a Fish Pond where customers do "dry fishing", and there will be a booth with toys for sale. A Country Store will sell all sorts of merchandise from articles of fun up to articles of clothing and food items.

A contest among the children for costumes will be held with judges and prizes. Three prizes will be given: one for the best costume, one for the most comical costume; and one for the "tackiest" costume.

Admission to the Carnival is free to everyone. The High School Band will play during the evening.

Mrs. Wade Massengale, president of the South Ward P.T.A., Mrs. L. E. Corbell, president of the West Ward P.T.A., Mrs. Russell Hill and Mrs. Guy Craig, finance chairmen, and Mrs. Gerald Wingate who is in charge of the food, are the heads of the Carnivals.

These women are asking anyone who wishes to donate food, articles of clothing including shoes for the Country Store, merchants who wish to contribute articles, and novelties either to be sold in the Country Store or to be used as prizes for the Bingo game, to contact any of these five people. Also funny books are greatly requested. All contributions will be used for the benefit of the two P.T.A. organizations.

The executive committees of the two P.T.A. organizations besides the above women mentioned include: West Ward, Mrs. George Wright, Mrs. E. T. Sperce, Mrs. Bob Burkett, Mrs. G. L. Durham, South Ward, Mrs. H. H. Durham, Mrs. L. E. Hucksby, Mrs. C. L. Little, H. Upchurch, Dalton, C. W. Hoffman, and Mrs. Johnny Kilgore.

To meet the requirements of the National Turkey Improvement Plan the birds were first selected or culled according to the following points: Appearance, conformation, balance, lack of deformities, health, vigor, size, weight, and development. A blood sample was then drawn from all birds that were selected. These samples were then sent to the turkey laboratory at Stephenville, Texas, to be tested for Pullorum. Any reactors were then removed from the selected birds.

Mrs. Thurman is keeping fifty of these selected and tested hens for her own breeding flock for another year. The rest of the selected and tested hens and toms are being sold to other turkey breeders. The culls will be sold for eating purposes when the turkey market opens.

## Jet-Propelled Dishwasher Now On Display Here

## LOCAL SPORTS

The Eastland Mavericks will meet Dublin here on Maverick Field this evening, in a conference game. The game will open at 8:30.

E. J. Pryor, director of the Eastland Band, urges members that organization to be present for a short rehearsal before the game.

Tonight's game promises to be a good one and fans will not want to miss it.

## MOTHER OF MRS. MORGAN OF OLDEN DIES

Mrs. James C. Horton, a resident of Cisco for 57 years, and mother of Mrs. Z. B. Morgan of Olden formerly of Ranger, was buried in Oakwood Cemetery in Cisco, Monday afternoon following funeral services at the First Methodist church at 3:00 o'clock. Rev. H. N. Balderee and Rev. E. Allen A. Peacock officiated.

Mrs. Horton died at her home in Cisco Sunday morning at 6:45 o'clock. She was born in Rutherford County, Tennessee, May 28, 1870 and christened Flossie Hale. She was married to Mr. Horton at Teague, Texas, December 15, 1887. On coming to Eastland county they settled three miles southeast of Cisco and were living there at the great cyclone on April 28, 1893. Their home was swept away by the storm and the couple escaped death by clinging to a small tree in the yard. Both Mr. and Mrs. Horton had been closely associated with the development of the First Methodist Church in Cisco.

Survivors are her husband, one daughter, Mrs. Morgan of Olden; two grandsons, Jimmy and Jerry Morgan of Olden; two sisters, Mrs. E. M. Stallard of Ft. Worth and Mrs. William Rogers of Chapel Hill, Tennessee; two brothers, Walter Hale of Dalton, Ga., and Buford Hale of Nashville, Tennessee.

Out-of-town relatives and friends who attended the funeral and burial were, Mr. and Mrs. Z. B. Morgan and sons, Jimmy and Jerry of Olden, Mr. and Mrs. E. M. Stallard and Mr. and Mrs. D. H. Stallard, Ft. Worth, Mr. and Mrs. John Horton and Mrs. Willie McNutt, Teague, Mr. and Mrs. L. S. Densmore, Ranger, Hugh Vermillion, Dave Vermillion, Mrs. Stella Jarrett, Mrs. Buster Elliott, Mr. and Mrs. Weaver, Olden, Mr. and Mrs. John Hart, Eastland; Charles Reinhart and Elmer Woods, Abilene, Mrs. W. T. Shell, Gorman and Mr. and Mrs. B. C. Morgan and Mrs. G. R. Whitney, Breckenridge.

## Demonstration On Turkeys Held At Thurman Ranch

Turkey selection and blood testing of turkeys was the order of the day at the Thurman ranch near Staff, on October 16, 1946, when H. H. "Red" Weatherly, special representative of a feed mill, J. M. Cooper, county agris agent, Eastland, an approved flock selector and tester, and N. R. Watkins, ass't. county agricultural agent, Eastland worked Mrs. John Thurman's turkey flock.

Mrs. Thurman who raises baby brooder turkeys, has U. S. Approved and U. S. Certified birds under the National Turkey Improvement plan. This year she started with four hundred ninety five poult and raised four hundred ninety to maturity.

To meet the requirements of the National Turkey Improvement Plan the birds were first selected or culled according to the following points: Appearance, conformation, balance, lack of deformities, health, vigor, size, weight, and development. A blood sample was then drawn from all birds that were selected. These samples were then sent to the turkey laboratory at Stephenville, Texas, to be tested for Pullorum. Any reactors were then removed from the selected birds.

Mrs. Thurman is keeping fifty of these selected and tested hens for her own breeding flock for another year. The rest of the selected and tested hens and toms are being sold to other turkey breeders. The culls will be sold for eating purposes when the turkey market opens.

## Fagg's Furniture Store Has Record Department Now

The new record department is now open with a large line of records from which to select your favorite.

## Joe Roberts, 66, Died At Home In Eastland Monday

Funeral services were conducted Thursday afternoon at the Little Flock Baptist Church, for Joe Roberts, 66, who died at his home Monday.

Roberts and his family were the first colored folk to come to Eastland. The family came here in 1919.

Interment was in the Eastland cemetery with Hamner's in charge.

## Jimmy Bennett, Cross Country Rider, Visitor

Enroute to Hollywood, movie-bound he hopes, Jimmy Bennett, the Tennessee Kid, who is riding horseback from Franklin, Tennessee, 17 miles of Nashville, to Los Angeles, rode into Eastland about noon. He was greeted and taken in 5:30 o'clock Wednesday afternoon by Commander Bob Burkett of the local American Legion post and a committee of Legionnaires. He was the Legion's overnight guest.

Bennett left Eastland about 9:00 Thursday morning enroute to Abilene via Cisco, Putnam, Paid and Clyde. A committee from the local American Legion Post was on hand to see him off and to wish him well on the remainder of his trip.

Bennett says he started his trip on September 8, and his last stop before reaching Eastland county, was at Fort Worth where he spent several days and was given a royal welcome. Fort Worth gave him a new horse. The one he is riding now, however, is one for which he traded. He has ridden about 900 miles.

When Bennett reached Ranger Wednesday at noon, he was met by a committee from the Ranger Rotary club who invited him to be their luncheon guest. He had spent the previous night in Strawn where he was entertained by the American Legion Post.

During World War II Bennett served 33 months with the United States Coast Guard and saw action in the European theatre.

## Eastland People Invited To Hear A Cappella Choir

Music lovers of Eastland are invited to attend a program to be given Sunday night at 8:15 o'clock in the Recreation Building in Ranger at which Dr. Wilford C. Bain of NTSC will present his A Cappella choir.

The presentation is being sponsored by a number of organizations in Ranger and no admission will be charged. No free will offering will be taken.

Dr. Bain's choir is one of the most outstanding A Cappella choirs in the southwest and offers an hour and 15 minute program of superb singing. In keeping with the name of the choir there is no instrumental accompaniment.

There are forty voices in the choir and much of the music that will be heard is of a religious nature.

## Forty And Eight To Sponsor Dance Saturday Night

The Forty and Eight of the American Legion will have a meeting here Saturday. The organization, according to Bob Burkett, Post Commander, will have a big party at which Legion Auxiliary members and their friends and Legionnaires and their friends are cordially invited.

One of the features of the evening's entertainment will be a dance from 9:00 p. m. till, at the Legion Hall. Music for the dance will be furnished by Lester Francis and his Diamond X Cowboys.

## Mrs. Poe Opens New Floral Shop In Eastland

Mrs. J. C. Poe will open her floral shop Wednesday, October 30th. The name of the business is Poe Floral Shop, 612 S. Mulberry. Mrs. Poe has been to market in Brownwood, Fort Worth and other places, securing supplies for the shop. Mrs. Poe is experienced in the business, and will carry a line of novelties, and do all kinds of floral work.

## Clark Denounces Selfishness Of Monopolists

BOSTON (UP)—U. S. Attorney General Tom C. Clark, today attacked selfish monopolists who would "tear down our free enterprise system while they declare their love for the American way of life."

In a speech prepared for delivery before the 31st annual meeting of the Associated Industries of Massachusetts, the Texan said these men clamor loud for free enterprise and opportunity when actually they mean freedom for their own activities—freedom to drive competitors from the market place.

Wyoming was one of the first states to maintain at its own expense a service for the placement of teachers.

## WARNER MEMORIAL UNIVERSITY PROPERTY HERE TRANSFERRED

### 'ON THE HILL'

By Jan Spalding. The chief topic of conversation on "the hill" this week is the Ballinger game. Our boys really put up a courageous fight even though they were outweighed quite a bit.

The football boys wore their complete new uniforms for the first time Friday night and they are really pretty. The pants are gray and red, and jerseys are white with red letters.

The Eastland High drill squad will march for the first time Friday night. They have been practicing every afternoon and are really doing wonderful work. The twirlers are Patsy Saffley, Betty Ann Hartridge, Nancy Hartridge, Joyce Pearson, Marleee Elliott, and Billy Floy Hunt.

Wanda Williams gave a barn dance Saturday night for the football boys and their dates. Everyone really had a grand time. Mr. and Mrs. Curley Maynard, Mr. and Mrs. Lee Horn, Mr. and Mrs. Joe Tow, and Mr. and Mrs. John Little directed square dancing.

James Ed Gann is home again and visited his former teacher Monday afternoon.

The A. W. D. Club is giving a party for the football boys at the Old Union School next Saturday night. All football boys and their dates are invited.

Sandy Taylor is cheer leader mascot again this year and she leads with the leaders now. We are all very proud of her and think she adds a lot to our pep rally.

The Sub Deb club is planning to have a party for the entire school sometime soon.

The Rip and Sip club, the Home Economics club, has began having regular meetings now. Miss Loretta Morris, homemaking teacher, is the club sponsor.

The first six weeks work has been completed and the students will get their report cards Thursday. There will probably be a really large honor roll this year.

Nancy McDonald, who was recently married to Bill Pryor, returned to school Tuesday. We are very glad she is going to finish her high school work.

Well I guess this just about ends the high school "chit-chat" for the week and I'll see you next week if the "goblin" don't get me.

## Hurls Charges Against Russia

BERLIN (UP)—Col. Frank L. Howley said today that the Russians would be asked tomorrow for a full report on allegations that they were transferring German workers to the Soviet Union along with the dismantled plants at which they were employed.

Roosters, brood hens and nonlayers will eat an average of seven pounds of feed each, per month.

At local ceremonies at 1:30 Wednesday afternoon, Judge V. T. Seaberry, Eastland attorney, representing the National Board For Church Extension of the Church of God a deed to what is presented to members of the Texas State Extension Board of the Church of God, a deed to what is known as the Warner Memorial University buildings and grounds located just west of Eastland on Highway 80. The state board is now the full owner of the property, having paid cash for it.

Rev. R. E. Bowden, former Eastland Church of God pastor, and now pastor at Sweetwater, and treasurer of the Church of God State Board acted as master of ceremonies. Rev. C. S. Moad of Cisco, chairman of the State Board of Trustees of the Church of God, accepted the deed.

Rev. Bowden told a Chronicle reporter that his church planned to make Eastland its state headquarters and would create quite a lot of activities here. He said also that their plans called for the establishment, in the near future, of a first class Junior College in Eastland which would occupy the Warner Memorial site and buildings.

## Device Seeks To Ease Movie Seat Fumbling

CHATTANOOGA, Tenn. (UP)—A new device to help theater patrons find seats in darkened movie houses has been invented by W. F. Dixon of Chattanooga.

Whenever a seat is taken the mechanism will flash a light on a panel at the end of the row. The seat shopper has only to look at the number of lights to tell how many seats in the row are vacant.

The problem of hats and coats dumped into empty seats has been solved, too. Dixon fixes his contraption so lights won't flash unless the seat supports a minimum of 20 pounds.

## Communists Ask UN To Halt Yank Aid to Kai-Shek

NANKING (UP)—Chinese Communists today radioed an appeal to the United Nations assembly meeting in New York to halt one-sided American aid to Generalissimo Chang Kai-Shek's government.

As an alternative, the UN was urged to send a special committee to investigate "American infringement of Chinese territorial integrity and security."

Under The Dome At Austin

AUSTIN, Tex., (UP) — Apparently there is not any difference between a public road and a highway. But friends of the proposed amendment in the state constitution to freeze road-use taxes to road purposes are alarmed because some people are saying "highway" instead of "road."

"high seas" used to designate free voyaging areas. More likely the term originated from routes being laid out by royal direction and so became known as the king's way or highway. Courts set up by royal direction frequently were known as king's court or high courts and by analogy the same should hold for roads.

They fear an impression will be created that the objective of the change in the state constitution is to limit use of road taxes to work on main thoroughfares. They point out that the amendment is not so limited. It proposes that these funds shall be used for constructing, maintaining and policing "public roadways."

A public roadway has been held by many courts to be any land dedicated to public road purposes. The term has been held to include a county road, a bridge, a street and even an alley in a city.

In 1907 the state of Iowa codified its laws and substituted the word "road" wherever "highway" had appeared in the acts that were codified.

Just how roads came to be known as "highways" is surrounded in the fog of years. There are two suggestions for origin of the term. One of these is that a route passable in all weather, frequently was raised above the surrounding area to carry the traveler across bogs or midholes and so became known as the "high" way. There is the Scotch ballad, "You take the high road and I'll take the low road," to give credence to some such origin of the term. State highway offices thought the origin was an aping of the term

In road financing on so large a scale as that of Texas, it is necessary to be able to look ahead more than a year. This results in piling up temporary balances in the state highway fund in the state treasury. Such balances attract the greedy eyes of persons who want the state to finance something or other.

There has been borrowing from the state road funds in the past and there will likely be attempts to borrow or take them outright again, unless the proposed amendment is approved.

The provision by which one-fourth of all state occupation taxes go into the state school fund will remain in effect if the new amendment is adopted. That means that the schools will continue to get one cent out of the four cents

a gallon tax that the motorist pays on gasoline. That tax is levied as an occupation tax against the gasoline sellers. Of course, the seller merely adds the four cents to the price the buyer pays, so it really is a ushers tax, but the way it is levied the schools get their one fourth share.

ICE BOX HOUSE TESTS WAYS FOR HEATING

WASHINGTON (UP) — No help for the housing shortage, but the government has a pretty four-room bungalow that nobody lives in—and it's tucked away in a "refrigerator."

The house, at the National Bureau of Standards, is being used so that more can be learned about the best way to heat a small home so it will be comfortable. Built in 1939, it has been heated by many different methods.

The house is surrounded by another structure so that a cooling system can keep the outside temperature anywhere between 0 and 70 degrees. Inside the two-bedroom bungalow, instead of people, are 150 "measuring stations," suspended at various heights around the rooms. These measure the temperature provided by various heating systems.

The experiment, discontinued during the war, has been started again—and will go on for a "long, long time," Paul Achenbach, in charge of the test work, said. He explained that new heating methods are coming along all the time, and that science "goes on and on."

Right now, they are testing a baseboard heating system (hot water) which is said to give great comfort for basementless houses. They have also tried out floor furnaces, space heaters, small warm air furnaces, hot water boilers, fireplace heating, and many other kinds.

Teacher In Hurry Gives Cop Run For Their Money

SAN JOSE, Cal. (UP)—It cost a San Jose school teacher \$20 to find out that policemen aren't used to having people drive off and leave officers in the middle of writing tickets.

Traffic Officer Robert Johnson told the judge that he had stopped Mrs. Agnes B. Crider after she had ignored a stop sign. He said Mrs. Crider had no driver's license; she refused to be cited; she drove off and left him and ran through another stop sign. He added that the teacher also did 47 miles an hour in a 25-mile zone in her hurry to get home and lock the door in his face.

Mrs. Crider told the judge she was in a hurry to get home. Police Judge Percy O'Connor was willing to forget everything but the speeding charge.

CHRISTIAN SCIENCE SERVICE

"Probation After Death" is the subject of the Lesson - Sermon which will be read in all Churches of Christ, Scientist, on Sunday, October 27.

The Golden Text is: "Blessed is the man that endureth temptation for when he is tried, he shall receive the crown of life, which the Lord hath promised to them that love him" (James 1:12).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Be ye therefore perfect, even as your Father which is in heaven is perfect" (Matthew 5:48).

The Lesson - Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The divine demand, 'Be ye therefore perfect,' is scientific, and the human footsteps leading to perfection are indispensable" (page 253).

GI Students Prefer Classics To Jazz

LOS ANGELES (UP) — Former GI's attending the University of Southern California say they would be soothed by symphonies over the radio rather than be "sent" by swingsters.

A survey made by the Daily Trojan, student newspaper, showed that 60 per cent of the veterans preferred classical music while 35 per cent stood by swing.

Eighty per cent turned thumbs down on audience - participation shows.

**Repatriating the Bodies of Our World War II Dead**

The Karl and Boyd Tanner Post No. 4136, Veterans of Foreign Wars, has just received from the War Department some important data on the Repatriation Program. The War Department, through the Quartermaster General of the Army, is now engaged in the gigantic task of providing for the final disposition of the remains of some 325,000 war casualties of World War II. The Quartermaster General of the Army, who is also Chief of the American Graves Registration Service, is committed to carrying out the wishes of the survivors within four choices, including the dignified, reverent return of war dead and provision for their burial in the United States, the options afforded the legal next of kin for disposition of remains are as follows:

First: The remains may be interred or reinterred in a permanent American military cemetery overseas. The establishment of permanent American Military Cemeteries in overseas theaters is contemplated, should the number of requests justify their establishment.

Second: The remains may be returned to the United States for final interment in a National Cemetery. Burial of remains in a National Cemetery is restricted to members of the Armed Forces only. When this option is desired, the remains will be transported to the Continental United States and interred in the National Cemetery selected by the next of kin.

Third: The remains may be returned to the United States, or any possession or territory thereof, for interment in a private cemetery. Shipment will be made to the city or town designated by the next of kin.

Fourth: The remains may be reinterred in the country in which now interred or be returned to a foreign country, the homeland of the deceased or the homeland of the next of kin, for interment by the next of kin in a private cemetery. Shipment to a foreign country is dependent upon the ability of the United States government to obtain entry therein. If entry can be obtained, shipment will be made to the city or town designated by the next of kin.

The War Department has designated fifteen distribution points in the United States through which the remains of World War II dead will be sent to the city or town designated by the next of kin. The distribution point for this particular area is Ft. Worth Quartermaster Depot. It is interesting to know that sixty one per cent of the dead

organization is going to be strong, without a doubt, and will be able to function for the betterment of all concerned—community and nation.

**It's not that we don't love our work!**

**WE DO LOVE** our work—but these days, we almost dread leaving home and going to our showroom.

So many people want new Packards, and there are so few coming through!

*But you can't build cars without materials!*

The factory is straining every effort to get more parts and material so production can be increased.

**We're doing our best!**

Some cars have been shipped with wooden bumpers, some without window regulator handles. This costs the factory a lot of money, for it means that replacements must be shipped and installed later.

Under such difficulties, it's a wonder the folks at the factory have done as well as they have. This year, compared to the same period of 1941, Packard has built a higher percentage of cars than the industry as a whole.

**We don't dare predict!**

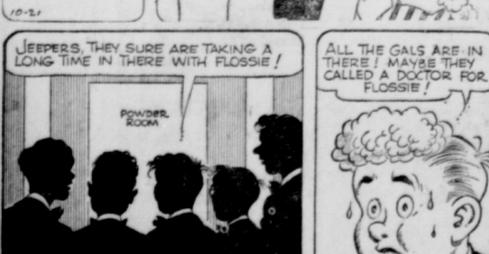

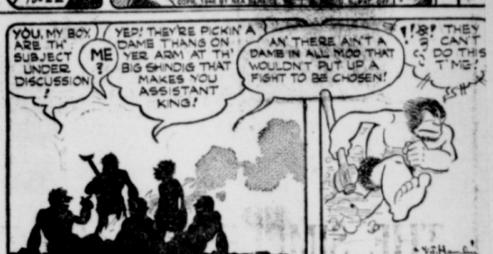

Our customers have been so patient that we'd like to sound some optimistic note.

### Former Eastland Girl Sails For Paris, France

Miss June Hyer, daughter of Mr. and Mrs. W. K. Hyer of Coleman, and formerly of Eastland, left October 14 for Paris, France, where she will be employed by the U. S. Government to investigate the influence of the Nazi administration on post war philosophy. She will also represent the Dallas News as a correspondent.

Miss Hyer flew from Abilene to New York, and was to sail Oct. 18, on the Drottningholm for Gotenborg, Sweden. She was to fly from there to Paris.

Miss Hyer received her doctor of philosophy degree from the State University the week before her departure. She was awarded the Martha Cathing Enoch fellowship by the American Association of University Women.

She will be in the European countries about nine months, and will live at Bethel, France.

### 4-H Club Boys Prepare Calves For Spring Shows

Four 4-H Club boys of Eastland County have calves on feed with the expectation of showing them in the spring shows, states N. R. Watkins, Ass't. County Agric. Agent.

All of these boys expect to show their calves in the county in the spring. Some of them are planning to enter their calves in the Fat Stock Show in Fort Worth in March of 1947.

Boys who are now feeding calves are: Joe Don Clinton, Scranton, Bob McMinn, Ranger, Ross Lowmire, Jr., Olden and Guy Warden, Eastland. A few of them are now expecting to start calves on feed in the near future.

## More telephone service than ever...

### FOR MORE PEOPLE THAN EVER...

We've put in more than 190,000 telephones in Texas in the first nine months of this year—nearly twice as many as we connected in the first nine months of 1940.

We're handling a million and a half more local calls a day than a year ago.

And 13 per cent more long distance calls. (Nearly twice as many as before the war.)

Putting in all those telephones and taking care of all those extra calls—regardless of shortages of materials—is one of the biggest jobs the telephone company has ever done.

Best part is that service has remained good on most calls despite heavier-than-ever volumes.

There are some delays but we're working on them—just as we're working hard to serve people waiting for telephones. Service will be better than ever, for everyone, as soon as new equipment can be made and installed.

# PARTIAL DEAFNESS BOTHERS MILLIONS, SURVEY SHOWS

MINNEAPOLIS, Minn. (UP)—By the time you're 35, there is a chance you will have lost part of your hearing without realizing it.

That's the conclusion of a study by the Northwestern National Life Insurance Co. It found that between 5,000,000 and 7,000,000 Americans have difficulty hearing in one or both ears. And about half that number are seriously handicapped by their deafness.

In children, catarrhal conditions

and diseases involving high fever are the major causes of poor hearing. As people get older the chief reason for deafness is circulatory trouble, such as high blood pressure.

The insurance company learned that approximately 1,500,000 children have minor hearing defects that should be given attention to prevent them becoming serious handicaps.

Treatment with streptomycin, penicillin and sulfa drugs has almost eliminated a former cause of

deafness among World War I veterans—meningitis.

Persons who work where there is lots of noise—such as riveters, welders, boiler-makers, tractor operators—often suffer from "boiler-maker's ear." That's a condition where hearing may be normal or near normal in the middle and lower ranges of sound, but can't distinguish high-pitched tones.

Elevator operators and airplane pilots also suffer from that kind of deafness. The answer—in part—is either brief rest periods at regular intervals or ear stoppers.

This widespread loss of acute hearing, the study concludes, may well explain the number of traffic accidents in which a driver fails to hear an oncoming locomotive, a fire engine or an ambulance.

## Wild Squirrel Chase Peeves Game Warden

FRANKFORT, Ky. (UP)—Horace Beard, Greenville, Ky., game warden, is disgruntled.

The Green River Republican, weekly newspaper, carries a column each week "From the Files of the Republican Sixty Years Ago." A recent issue contained the following item:

"J. B. Phelps and Maury V. Ward bagged 63 squirrels on a one day hunting trip last week."

The item was cut from the paper, minus the heading that indicated the event occurred in 1836, and was sent to the fish and game commission offices here. Bagging 63 squirrels is unlawful nowadays.

Beard went forth and spent two days looking for Phelps and Ward, only to find out that they had been dead more than thirty years.

## Smart Guinea Pigs Get Nod Over Dumb Rats

CHICAGO (UP)—Put your money on a guinea pig rather than a rat if there's a latch to be lifted.

Dr. R. Frederick Becker, assistant professor at Northwestern University medical school, says the guinea pig is smarter than the rat. He used both animals in problem-solving experiments.

"Our overall feeling is that the guinea pig is less random and more purposeful," he said.

"In problems requiring latch-lifting, burrowing under, use of teeth and circumvention of barriers, the guinea pig was superior. It solved these problems more readily because its mode of attack was variable."

The responses of rats, Becker invariably to frustrate behavior," said, were stereotyped and "led

## Pitching Hero Was Flop In Texas League

GALVESTON, Tex. (UP)—Harry (The Cat) Breechen, the pitching hero of the World Series, was a complete flop as a rookie hurler in the Texas League.

But that was a decade ago. And his success in the big time since then is baseball history.

It was in 1935 that Manager Jack Mealey of the Galveston Buccaneers brought the young Broken Bow, Okla., pitcher in from the East Texas league and sent him in for mound duty.

The rookie lost three late season games. He won none.

Next year Breechen started the season with Galveston, but he did not finish it. The reason was that he still could not win. After four straight losses, Manager Mealey shipped him off to the Western Association, where he had only slightly better luck, winning six and losing 18.

By 1937, though, the slender hurler was picking up the skill that was to make him so valuable in the majors. With Portsmouth in the Piedmont League, Breechen started mowing down the batters with his baffling slants and ran up a season record of 21 victories against 6 defeats.

From then on, he was a winning pitcher.

By rail, the United States is approximately 3,000 miles from east to west and about 2,000 miles from north to south.

The United States exported more than 16,500,000,000 tons of food stuffs during the year ended June 30.

## Cities Adopting Pay-As-You-Go

CHICAGO (UP)—An increasing number of cities are paying for municipal post-war projects without issuing bonds by putting their expenditures on a pay-as-you-go basis, according to the International City Managers' Association.

Two cities of a selected group recently surveyed by the association are debt free. Six others have enough money to pay off their small debts and are financing capital improvements almost entirely with current revenues.

Other cities plan to finance as many capital improvements as possible on a pay-as-you-go basis.

Colorado Springs, Col., and Kalamazoo, Mich., are debt free, the association reported. They plan to finance extensive public works improvements during the next decade out of current revenues.

Cities able to pay off debts and still pay for improvements in cash include Lansing, Mich., Alameda, Cal., Fond du Lac and Milwaukee, Wis., Cleveland Heights, O., and Macon, Ga.

Schenectady, N.Y., and Columbus, Ga., also operate on a pay-as-you-go basis, although they have comparatively larger debts.

## Russia Would Check Uranium Ore Deposits

LAKE SUCCESS, N.Y. (UP)—Russia has proposed a world wide inventory of uranium ore deposits as the basic step in the control of atomic energy.

The proposal, outlined to a committee of the United Nations Atomic Energy Commission by Prof. S. P. Alexandrov, Russian scientist, declared that control of atomic energy should not have its beginning in the first stage of production, but should go beyond that to include an index of the world's supply of uranium, actual and potential.

## Jet-Propelled Ship Launching Due Next Year

Mrs. Earl Francis, Auxiliary Pres.

Ex-serviceman W. J. (Wilsey) Broussard, wife and five month old son left on a two week's vacation to Lafayette, Louisiana. The Broussards will spend most of their vacation with Mr. Broussard's parents, Mr. and Mrs. Elize Broussard, Buddy Broussard is an employe of the Multhead Motor Co.

Legion and Auxiliary friends of Mr. and Mrs. Hood King regret to hear their son, Doug has been very ill at our local hospital, where he underwent surgery for the removal of a badly infected appendix.

Next Tuesday night is our mask tucky party night and the committee has put some honest-gooodness effort into its plans for a real fun festival. Prizes will be awarded to the two tackiest dressed funster present. Each auxiliary member has agreed to bake a pie for the party and homemade pie will certainly be a treat to many of us that have got by without sugar so long. The program will include a few games for both young and old, a fast moving original skit written and directed by the party chairman, Mrs. Hazel Melton. A men's style show, with all its fa'fare and other features that go to make such parties a success.

Commander Burkett, chairman of arrangements for the 40 and 8 dance tomorrow night, announced he has secured the musical services of Lester Francis and his Diamond Ranch Cowboy band, this dance band is widely known throughout West Texas and their services are on an almost demand basis. Our post will act as host to the 17th district membership of the Forty and Eight who will gather here Saturday afternoon for their installation of officers for this year, during these ceremonies, the lady folk of the Forty and Eight members will be entertained by the ladies of our auxiliary. All Legion and Auxiliary members and guests are invited to attend the dance which will start

promptly at nine o'clock. The 17th district convention will convene Sunday, October 27th at Breckenridge and a full day's program has been arranged for the delegates. It is the wish of our commander Burkett to have a good Eastland representation of legionnaires and Auxiliary members at this convention, being only twenty six miles distance from home, all Legion and Auxiliary members should avail themselves of this advantage and attend this nearby convention.

Mrs. Troy Taylor and son left Sunday morning for Dallas for a visit with Mrs. Taylor's sister, Mrs. James Curry.

Glen Branton is attending college at Cisco, Glen is the son of County Treasurer, Mrs. Ruth Branton and is an ex navy man.

Have you noticed that since the scarcity of cigarettes, nylons, and lawnmowers, drug stores look more like drug stores again.

We notice Mrs. Eaurl is sporting a new cement walk and porch as improvements to her home.

Mrs. Sidney Horton was host at a wedding shower honoring Mr. and Mrs. Dean Seaborn. Mrs. Seaborn will be remembered as Miss Geraldine Roberson, daughter of Mrs. Ruth Roberson. Mr. Seaborn served three years in the Navy and was a crew member of the battleship Maryland.

Mr. and Mrs. J. C. Linley are the proud parents of a fine nine pound boy, who arrived October 15, at the Eastland hospital. Mrs. Linley is the former Miss Clarence Seaborn. Mr. Linley is an ex-Air Force G.I., his service included 2 years on Guadalcanal.

Buddy and Mrs. Wayne Clark have gone to Arizona for Mr. Clark's health, he is in the Veterans hospital at Tucson according to his sister Mrs. Ruth Branton and the last report stated he

was improving as much as could be expected.

Mr. and Mrs. Billy Walters were visiting friends in Dublin last week.

Among last day visitors at the Dallas state fair last Sunday were Mr. and Mrs. Conard Reeves and their guests Mrs. Clyde Doyle and Mrs. D. E. Pittman. Other Fair visitors were: Mr. Joe Canaris, Mr. and Mrs. Dick Chamberlain and Mr. and Mrs. Earl Francis. All report a good attendance Sunday and a fine Fair.

Puddy Howell, chairman of the membership committee stated his committee had worked out a membership contest plan whereby the 1946 membership roll would be cut-up into five men teams, the team securing the greatest number of 1947 members would receive five handsome American Legion coat sweaters for their effort, a worthy prize, worth working hard to be in the winner column. There are many veterans of both wars that will join the American Legion if we display an interest in their affiliation with our great organization. Thanks to the founders of the American Legion in their broadmindedness when they decreed that the only qualification required to be eligible for membership in the Legion was an Honorable discharge. We are happy to offer membership to the so-called 90-day wonders (Soldiers who took the 90-day training course at officers training school) many of these same 90-day wonders may lie in Flanders Field, dying just as game and honored as the seasoned soldier, shedding their blood just as selflessly and for the same high ideals Chateau Thierry, St. Mihiel and the Argonne perhaps found many of these 90-day wonders meeting the Hun and his whistling death then crashed his defense, their powder humbled in the dust, they asked for an Armistice. 90-day wonders, they were American officers and their immortal laurels will always be a heritage to the American Legion.

Mrs. Carl Franklin, daughter of Mr. and Mrs. S. A. Steddum of Olden and members of our post and auxiliary, entered the Eastland hospital with an injured foot. Mrs. Franklin's diagnosis revealed an infected appendix, making an appendectomy necessary.

**FIRMS TRAINING VETS  
MUST FURNISH REPORT**

Mr. Harry J. Walter, Training Officer with the Veterans Administration Office at Eastland, Texas, announced today that all Texas firms training veterans under the GI Bill must furnish the VA on or before Jan. 1 a comprehensive outline showing how they are preparing trainees for more responsible jobs.

The reports, said Mr. Walter, must be made on each of the 14,000 veterans in North Texas as a result of legislation affecting training and subsistence. The new law is aimed at tightening the program and eliminating firms whose objectives do not meet required standards.

Mr. Walter stated that he had been supplied with enough copies of suggested programs to meet the needs of firms. The pattern for job training covers veterans learning livestock and agriculture, commercial and managerial jobs, professional and technical fields and trades and industry. Business firms employing

Our Unit Secretary, Mrs. V. O. Hatcher spent a few days in our local hospital for a deficiency, which was corrected and she was able to resume her work last Wednesday.

veterans must break down the training and show how much time will be required to complete each progressive step. Statements must say whether the instruction is to be given in the shop, in organized classes or through correspondence, and a schedule of wages must be listed. The firm also will be asked to report whether it expects to employ the veteran after he completes his instruction.

The VA will pass on the program set up by the firms, determining whether they meet the test of giving a real opportunity to reach journeymen status.

The amended law limits on-the-job training to a maximum of 24 months in the managerial, clerical and sales fields. It also sets the same time limit on mechanical skills unless the employer has been approved in Texas by the Federal Apprenticeship Training Committee.

In recognized apprentice trades the veterans may continue to receive subsistence, tools and training for four years if his military service was lengthy enough to allow him this much training time. There are more than 100 recognized apprentice jobs approved in Texas by the Federal Committee, including all the building trades, airplane and automotive mechanics, railroad crafts, machine shop instruction, refrigeration and watchmaking.

Any firm needing help in tailoring its program to meet apprenticeship approval can be given this

**Greyhound To Get Busses In Early December**

Delivery of the first of 1,257 new busses on order for the Greyhound Lines at an estimated cost of more than \$30 million is expected early in December, according to Orville S. Caesar, Greyhound president.

The coaches, which are being built by General Motors, will replace one-fourth of the nationwide highway fleet. They will be developed in only limited quantities. Although the exterior appearance will be similar, the new "Silverides" will incorporate more than 100 improvements for passenger comfort, riding ease and mechanical performance. All will be powered by diesel engines and be equipped with the most modern air-conditioning units.

The new busses will replace older coaches that were kept in service to meet wartime transportation demands. In normal times, only one-seventh of the fleet is replaced each year, but wartime restrictions limited bus manufacture and confined production to less luxurious "Victory" types. As

**Florida Boasts Huamn Skull 10,000 Years Old**

WASHINGTON (UP)—The Smithsonian Institution has announced that "Florida can now make legitimate claim to some very old inhabitants" — perhaps 10,000 years old.

Dr. T. Dale Stewart, Smithsonian curator of physical anthropology, dug into the institution's skull collection, tore apart a reconstructed skull and put it together again in another shape.

The skull was discovered 20 years ago near Melbourne, Fla. At that time Dr. James W. Gidley, Smithsonian paleontologist, said fossils unearthed where the skull was discovered indicated it was the remainder of a human who lived when giant mastodons roamed North America near the end of the Ice Age.

However, original reconstruction of the skull was identified as a Florida Indian, refuting Gidley's theory.

But Stewart was dissatisfied. He put the bones together again in the shape of a long-headed skull "similar to the earliest skeletal remains found on this continent," the Smithsonian said.

Since the original discovery of the skull anthropologists have agreed that man actually arrived in North America as many as 10,000 years ago.

**On Plying the Fiddle Badly**

A favorite recreation in our town is getting together in one or another's home and making music. There's somebody at the piano; a guitar; a fiddle player; and Molly Birtles even has a harp!

What comes out isn't the best music in the whole world. In fact, a lot of it is downright bad. But nobody even thinks to question or to criticize.

Because the spirit of harmony is there—harmony between folks who like each other's company, who enjoy the simple, homey atmosphere

—with thing more exciting than old song, and a glass of moderate beer orider.

From where I sit, it's a heap more imbrtant to be a poor fiddle player, but not to play at all. More imbrtant to be a part of the American scene—with its community mut, home entertainment, friendly lass of beer—than to hold out in professional perfection. (Belies, I like to play the fiddle—ev badly!)

work was by Ranger Camp, with eleven candidates in the class. All officers were perfect, and the Graces put their work on beautifully. Business of the meeting then began. Breckenridge was chosen as the next meeting place in April. The exact date is not yet known.

Election of the New District officers was taken care of and the following were elected by acclamation:

President, Mrs. Effie Kinchen of Breckenridge; Vice-President, Mrs. Mable Southerns of Ranger;

Chancellor, Mrs. Weir of Abilene; Secy-Treas. Mrs. Anna Bell Walker of Breckenridge; Marshall, Mrs. Choates of Graham; Assist. Marshall, Mrs. Alene Matthews of Eastland and Musician, Mrs. Josephine Strickland of Eastland.

Draping of the Charter was given by Breckenridge, followed by the pass word drill by Graham Camp. Abilene put on the Retiring March. A question box was opened and several questions were answered by Mrs. Carter, supervisor. Adjourned at 4:30 p. m. till six o'clock when all met at the Roof Garden of the Connellee Hotel for a banquet. All State and District officers were presented with beautiful corsages of pink and white carnations. The tables were decorated with West Texas cacti, and Royal Neighbor Favors. Mrs. Bea Lovelace and Mrs. Allene Matthews were the decorating committee. The group went to the Camp room again where the evening meeting was opened at 7:30.

The State and District Deputies were presented by the juvenile members. A reading was given by little Miss Maxine Harbin. Breckenridge had a beautiful Fancy

Drill, the members all carried large purple and white crepe paper chrysanthemums. There was a siren and their Drill Captain, Mrs. Gay Burton, in the drill. Two piano numbers were given by Milton Herring, titles were "Bells of St. Mary's" and "The Gay Butterfly." Abilene camp put on a Fancy Drill, which was followed by a very impressive Memorial Ceremony by Breckenridge, led by Mrs. Effie Kinchen repeating the 23rd Psalm. The Ranger girls then gave a big laugh when they had a black face skit representing a negro school, with Past Oracle, Mrs. Mary Johnson, acting as teacher.

The Eastland girls gave a delightful "Singing Romance" led by District Deputy, Cora Hooper. Other in the cast were, Mmes. Velma Hunt, Jeanette Throne and Allen Matthews. The last thing on the program was the installation of the new District Officers, with Mrs. Myrtle Ester Carter, as installing officer, assisted by Mrs. Julia Brown as Ceremonial Officer. The following were installed: Effie Kinchen of Breckenridge, President; Mable Southerns of Ranger, Vice-President; Mrs. Weir, of Abilene as Chancellor; Mrs. Anna Belle Walker of Breckenridge, Secy-Treas. and Musician Josephine Strickland of Eastland, the Marshall, Mrs. Choates of Graham, and Assistant Marshall was Mrs. Allene Matthews of Eastland.

The meeting was closed with the Lord's Prayer. Every one present seemed to enjoy every minute of the day and night. All members are looking forward to the coming State Rally, which will be held in Abilene in January, 1947.

**TO SING IN RANGER**

Shown here are members of Dr. Wilford C. Bain's A Cappella choir from North Texas State College at Denton posed in the shape of a cross. The choir will be heard in Ranger on Sunday, October 27 at 8:15 o'clock in the Recreation building.

The program is being financed and sponsored by a group of men's and women's organizations and no admission will be charged.

**Preacher To Deaf Uses 2 Languages At Same Time**

PITTSBURGH (UP) — The Rev. Herbert Rohe, a missionary to the deaf, preaches to his congregation in two languages at the same time.

The youthful minister has mastered the rare art of speaking orally and using the sign language simultaneously. He explained that many deaf mutes who come to hear him preach cannot read lips.

"My greatest handicap was the accurate translation of biblical terms," the missionary said. He makes his home here, but conducts services for the deaf at various towns in Pennsylvania, Ohio and New York.

**Veteran Land Bill To Be Voted On In November**

AUSTIN, Texas, Oct. 21—Passed by the Legislature unanimously and approved by the American Legion, the Veterans of Foreign Wars, the 36th Division and the State Democratic Convention, a Constitutional Amendment making it possible for Texas veterans to purchase farm and ranch homes from the State, faces ratification by the voters on Thursday, November 7, two days after the general election.

Over 5,000 Texas veterans have already expressed a desire to participate in the program in letters addressed to Bascom Giles, Commissioner of the General Land Office.

Under the plan the State would put some 10,000 tracts located in every section of the State on sale to the veterans for as little as 10 per cent down with 40 years to pay the balance at 4 per cent interest. The tracts would range from 50-acre farms to 2,500-acre ranches with a maximum purchase price of \$5,000.

Each tract would carry a fifteen-sixteenths mineral fee interest in oil and gas and a seven-eighths mineral fee interest in sulphur. Purchasers would not be required to homestead the land. They would also be permitted to dispose of their equity.

The State, which owns several million acres of land, plans to select the best tracts and to supplement this acreage through purchase of some of the 2,400,000 acres of land acquired by the Federal government during the war.

The program, which would run over an eight-year period, would be administered by the Veterans' Land Board composed of the Governor, Attorney General, and the General Land Commissioner, in cooperation with enabling statutes by the Legislature. This Board would be authorized to issue up to \$25,000,000 in bonds to be sold to State surplus funds, for the purpose of purchasing Federal-owned land.

**Says More Men Than Women Are Using Laundry**

AUSTIN, Tex. (UP)—University of Texas veteran students with working wives find that taking the laundry to the local self-service laundrette isn't as bad as they had once thought "doing the family wash" would be.

While their wives are busy making a living, the men take bundles of laundry under one arm and books under the other to the laundrette. There they can study while the machines do the work. Then when the wives come home, they still have the ironing to do. Reports are that more men than women use the service.

**Cotton Futures Irregular; Trade Almost Normal**

NEW YORK (UP)—Cotton futures fluctuated irregularly today, but the line of least resistance was on the upside as trading began to assume near normal conditions for the first time in a week.

Rising as much as \$5 a bale at the opening, prices withstood recurring small flurries of hedge offerings and liquidation to retain net gains of 50 to 65 points—\$2.50 to \$3.25 a bale—in the second hour.

**U. S. FARM VALUES UP 90 PER CENT SINCE 1940**

By Charles R. McCabe  
United Press Staff Correspondent  
WASHINGTON (UP)—An overall evaluation of \$101,500,000,000 was placed on the United States farm plant at the beginning of 1946, in a study by the Department of Agriculture.

It was added that in bookkeeping terms the new figure represented gains of nearly 12 per cent from a year earlier and practically 90 per cent since 1940.

The dollar valuation of agriculture is shown in the "Balance Sheet of Agriculture, 1946," a study prepared by the Bureau of Agricultural Economics.

The study shows that of the total of the nation's agricultural plant on Jan. 1, farm real estate accounted for \$56,600,000,000, compared with \$50,300,000,000 on Jan. 1, 1945.

Other physical assets made up \$24,900,000,000, as compared with \$24,400,000,000 a year earlier. Financial assets of farm operators totaled more than \$20,000,000,000, compared with \$16,200,000,000 in 1945.

The equities of farmers and other owners of the farm business accounted for \$93,200,000,000 of the total worth of agriculture, compared with \$81,900,000,000 a year earlier. Creditors' claims amounted to \$8,300,000,000, a decrease of \$700,000,000 from a year earlier.

The study draws attention to the fact that the increase over last year is mainly due to price increases for agriculture's physical assets and to accumulations of financial assets resulting from a large volume of sales, at recent prices.

Comparatively little of the increase came from the physical improvement in the nation's farm plant, it was stated.

The study added that financial assets of farmers on Jan. 1, 1946, were estimated to include practically \$14,000,000,000 in deposits and currency, compared with \$11,300,000,000 a year earlier.

Also included in the total of assets were about \$5,000,000,000 in war bonds, compared with \$4,000,000,000 last year, and \$1,000,000,000 of investment in cooperatives, only slightly more than the year before.

**Delinquency Eased By War's Ending**

COLUMBUS, O. (UP)—Juvenile delinquency in Ohio last year was down 17 per cent from the peak year of 1943, the State Bureau of Juvenile Research has reported.

The situation also improved during the first half of this year with a decrease of 14 per cent compared to the first six months of 1945, according to Richard Allaman, state research sociologist.

## "LOOK UP AND LIVE"

**Alta Starvo**  
Sincere praise of the good in others fulfills the cardinal principle of psychology: the innate goodness and worth of the individual.

Don't praise inspires and impels one to act in harmony with the best within him and thus a chain of good is set in motion. On the other hand, criticism only draws attention to the evil that should be shunned. Psychology teaches that we do that which we fix our attention upon. So if we concentrate upon mistakes, we tend to repeat the wrong rather than rising above it. For example, a piano pupil hammers the keys. The wise teacher would say: "Strike the notes more gently" and the pupil's mind, being fixed upon striking softly could not help but do so. The unwise teacher would say "Don't bang so"; and not offering a correct pattern the poor student would continue to pound.

The same is true of children in the home. The mother who remembers the tasks well done, compliments them, and says: "You always clean the lavatory so nicely. Do the sink the same way when you finish the dishes." This mother is much more likely to get willing cooperation and good results than the mother who says: "Mary you never clean the sink after doing the dishes, you must not be so careless." She offers no acceptable pattern to follow and the results continue to disappoint her.

Praise sincerely offered, is one of the greatest powers in harmonizing human relations. It pays big dividends in better work and the happiness of all concerned.

## Oil Field Notes

October 14 through October 19 Among the Applications To Drill filed this week was one filed by R. F. McClung of Eastland to drill the Luke Pippens No. 1, a wildcat well, located in survey number 3167 in Eastland County and two miles west of Dothan. Drilling will start immediately with cable tools and the proposed depth is 400 feet. The well is to be located 1500 feet from the east line and 450 feet from the south line of a 160 acre tract out of the south half of survey 3167.

Hickok and Reynolds, Inc., of Cisco are asking permission to drill a 3500' well on the John E. Leazar at lease, 4 miles North of Sipe Springs, not quite one thousand feet from the Eastland-Comanche county line. Exact location of this well number 2 is 1400' from the West line and 660' from the South line of the NW 1-4, Section 27, D&A Survey, Comanche County. This is in wildcat territory.

Well Record has been filed on the Fred M. Manning, Inc., C. J. O'Connor Number 6 in Block 7, Section 52, Stephens County T&P Survey showing this well to have been drilled to a total depth of 4088, drilling being completed on Oct. 10. Initial production of this oil well was not estimated on this form.

Fred M. Manning, Inc., has filed a potential test report on their O'Connor No. 4 in section 51, block 7, T&P Survey, Stephens County. Result of this test was 156 barrels of crude oil per 24 hours, with a gas-oil ratio of 13-900 cubic feet of gas per barrel of crude oil. Gravity of the oil produced during this test was 44. Depth of the well is 4170.

Plugging of the Milt Decker D. C. Pratt well number 1, located 10 miles North of Ranger in Stephens County has been completed, and the proper forms have been filed by O. J. Urban of Ranger, who is part owner of the lease. This had been a gas well which was drilled in 1926 to a depth of 2066.

There's Always a First Time. EVANSVILLE, Ill. (UP)—Attendees wondered who was the most nervous at a wedding ceremony here—the bride, the groom, or Justice of the Peace W. E. Lauber. Lauber was officiating at his first ceremony in the eight years he has been in office.

"Crying Room" Works ASHLAND, Wis. (UP)—Mrs. Dave Mackie of Ashland is not a trained psychologist but a little common sense in child training is making life quieter at her home.

Mrs. Mackie has one room reserved as the "crying room." Whenever her grandchildren start to cry, she tells them:

"It's all right for you to cry, but you must do it in the crying room. No one will disturb you and you may cry as long as you wish. It will be lots of fun to cry all by yourself. Want to try it now?"

The weeping usually subsides.

# A MESSAGE OF INTEREST to all who await deliveries of new Chevrolets

We want you to know that everything possible is being done to speed deliveries to you; but production still lags far behind schedule—even though Chevrolet has built more cars and trucks than any other manufacturer from January through September, 1946

WE REALIZE how eagerly you are awaiting delivery of the new Chevrolet you have ordered from us, and we want to pass on to you the latest information received from the Chevrolet Motor Division, even though that information isn't too encouraging at this time.

It is true that Chevrolet leads all other manufacturers in total production of passenger cars and trucks from January through September 1946, despite the fact that Chevrolet was out of production entirely during the first three months of this year. It is also true that Chevrolet has continued to maintain its lead in total production during the third quarter of 1946. And yet production is still running far below desired levels, with the result that Chevrolet's output of cars and trucks through September 1946 was only 38.7% of the number produced during the corresponding period of 1941.

This means it may take many months for the Chevrolet Motor Division to reach peak production of new Chevrolets—even longer to fill the unprecedented demand for this product of BIG-CAR QUALITY AT LOWEST COST—and, for the present at least, "there just aren't enough Chevrolets to go around," much as we wish there were.

However, we want you to know that new Chevrolets are leaving the plants in the largest numbers possible today. The Chevrolet Motor Division tells us it is doing everything it can, in the face of continued suppliers' strikes, material shortages and manpower problems, to step up shipments to us and to all dealers, in accordance with a predetermined distribution plan assuring each dealer of his fair allotment based on 1941 passenger car sales. And we, in turn, are doing our best to deliver new Chevrolets to our customers as rapidly as they are received and in the fairest possible way. We are too appreciative of your loyalty and good will—too grateful for your patience and understanding—to do anything less than continue to serve you to the very best of our ability.

## FORTY VOICE CHOIR COMING TO RANGER

Forty voices strong, the picturesque A Cappella Choir from the North Texas State College will be heard in concert here Sunday, Oct. 27, at 8:15 p. m. o'clock in the Recreation building. Their appearance is sponsored by Men's and Women's organizations of Ranger.

Under the direction of Dr. Wilfred C. Bain, Dean of the School of Music NTSC, the NTSC A Cappella Choir is said by critics to be one of the most dramatic and colorful musical organizations in the Southwest.

Trained to precision, the forty young men and women offer a performance that is exciting both to the trained music lover and the uninitiated. From its programs audiences derive the same thrill that comes to the spectators watching any other finely balanced human machine in action—a crack battalion of troops on dress parade or a championship football team driving down the field toward victory.

The Choir, dressed in purple velvet and white saria robes, move quickly to their position in the phalanx formation in which they always sing. The conductor takes his position, and immediately the Choir begins singing. They sing number after number, and each time there is no hesitation, and as far as the audience can tell, no clumsy "getting the pitch."

The result is a graceful performance in which Dr. Bain plays on his human "symphony of voices" with even greater precision and variation than a skilled organist. Bain guards closely as a professional secret his method of enabling his singers to start their programs without permitting the audience to discover how they receive their pitch.

## 17th District Legion, Auxiliary Meeting Sunday

The convention of District 17 of the American Legion and Legion Auxiliary will be held in Breckenridge Sunday with a business session scheduled to open the one-day session.

## West And South Ward Schools To Have Carnival

Because of the great demand of the school children of Eastland the Parent-Teachers Association of the South Ward and the West Ward grammar schools of Eastland have banded together to put on the first Halloween Carnival in two years on the night of October 31 at the High School Gymnasium on High School Hill. It is felt by members of the two Associations that not only will the two organizations realize considerable money for their respective treasurers for the events, but it will also give the children of Eastland a good Halloween party to attend, and will keep them occupied on the night when pranksters are liable to stalk the town.

The executive committee of both associations met Wednesday afternoon in the cafeteria of the South Ward School to complete plans for the Carnival. It was announced that the doors of the gymnasium will open at 6:30 p. m. for the beginning of the fun. There will be a lunch counter serving various types of food. Also there will be an ice cream booth, a cold drink booth, a coffee booth, and candy, gum and other attractions will be present. A Spook House will be put on for the children and grownups too. There will be a Cake Walk, cakes having been promised by the leading cooks of the town. There will be a large and interesting Bingo game for both children and adults. Several very good fortune tellers have promised to be on hand to predict the future. An innovation will be weight-guessing concession which promises to be one of the hilarious events of the evening. There will also be a Fish Pond where customers do "dry fishing" and there will be a booth with toys for sale. A Country Store will sell all sorts of merchandise from articles of fun up to articles of clothing and food items.

A contest among the children for costumes will be held with judges and prizes. Three prizes will be given: one for the best costume, one for the most comical costume; and one for the "tackiest" costume.

Admission to the Carnival is free to everyone. The High School Band will play during the evening.

Mrs. Wade Massengale, president of the South Ward P.T.A., Mrs. L. E. Corbell, president of the West Ward P.T.A., Mrs. Russell Hill and Mrs. Guy Craig, finance chairman, and Mrs. Gerald Wingate who is in charge of the food, are the heads of the Carnivals. These women are asking anyone who wishes to donate food, articles of clothing including shoes for the Country Store, merchants who wish to contribute articles, persons wishing to give notions, and novelties either to be sold in the Country Store or to be used as prizes for the Bingo game, for the fish pond or for the grab box to contact any of these five people. Also funny books are greatly requested. All contributions will be used for the benefit of the two P.T.A. organizations.

The executive committees of the two P.T.A. organizations besides the above women mentioned include: West Ward, Mrs. George Wright, Mrs. E. T. Spence, Mrs. Bob Burkett, Mrs. G. L. Whitley; South Ward, Mrs. H. H. Durham, Mrs. L. E. Huckaby, Mrs. C. L. Little, H. Upchurch, Dalton, C. W. Hoffman, and Mrs. Johnny Kilgore.

## MOTHER OF MRS. MORGAN OF OLDEN DIES

Mrs. James C. Horton, a resident of Cisco for 57 years, and mother of Mrs. Z. B. Morgan of Olden, formerly of Ranger, was buried in Oakwood Cemetery in Cisco, Monday afternoon following funeral services at the First Methodist church at 3:00 o'clock. Rev. H. N. Baldersee and Rev. v. Allen A. Peacock officiated.

Mrs. Horton died at her home in Cisco Sunday morning at 6:45 o'clock. She was born in Rutherford County, Tennessee, May 28, 1870 and christened Flossie Hale. She was married to Mr. Horton at Teague, Texas, December 15, 1887. On coming to Eastland county they settled three miles southeast of Cisco and were living there at the great cyclone on April 28, 1893. Their home was swept away by the storm and the couple escaped death by clinging to a small tree in the yard. Both Mr. and Mrs. Horton had been closely associated with the development of the First Methodist Church in Cisco.

Survivors are her husband, one daughter, Mrs. Morgan of Olden; two grandsons, Jimmy and Jerry Morgan of Olden; two sisters, Mrs. E. M. Stallard of Ft. Worth and Mrs. William Rogers of Chapel Hill, Tennessee; two brothers, Walter Hale of Dalton, Ga., and Buford Hale of Nashville, Tennessee.

Out-of-town relatives and friends who attended the funeral and burial were, Mr. and Mrs. Z. B. Morgan and sons, Jimmy and Jerry of Olden, Mr. and Mrs. E. M. Stallard of Ft. Worth, Mr. and Mrs. John Horton and Mrs. Willie McNutt, Teague, Mr. and Mrs. L. S. Denmore, Ranger, Hugh Vermillion, Dave Vermillion, Mrs. Stella Jarrett, Mrs. Buster Elliott, Mr. and Mrs. Weaver, Olden, Mr. and Mrs. John Hart, Eastland; Charles Rheinhardt and Elmer Woods, Abilene, Mrs. W. T. Shell, Gorman and Mr. and Mrs. B. C. Morgan and Mrs. G. R. Whitney, Breckenridge.

Demonstration On Turkeys Held At Thurman Ranch  
Turkey selection and blood testing of turkeys was the order of the day at the Thurman ranch near Staff, on October 16, 1946, when H. H. "Red" Weatherly, special representative of a feed mill, J. M. Cooper, county agris, agent, Eastland, an approved flock selector and tester, and N. R. Watkins, ass't. county agricultural agent, Eastland worked Mrs. John? Thurman's turkey flock.

Mrs. Thurman who raises baby beef bronze turkeys, has U. S. Approved and U. S. certified birds under the National Turkey Improvement plan. This year she started with four hundred ninety five poult and raised four hundred ninety to maturity.

To meet the requirements of the National Turkey Improvement Plan the birds were first selected or culled according to the following points: Appearance, conformation, balance, lack of deformities, health, vigor, size, weight, and development. A blood sample was then drawn from all birds that were selected. These samples were then sent to the turkey laboratory at Stephenville, Texas, to be tested for Pullorum. Any reactors were then removed from the selected birds.

Mrs. Thurman is keeping fifty of these selected and tested hens for her own breeding flock for another year. The rest of the selected and tested hens and toms are being sold to other turkey breeders. The culls will be sold for eating purposes when the turkey market opens.

## Mrs. Poe Opens New Floral Shop In Eastland

Mrs. Poe is experienced in the business, and will carry a line of novelties, and do all kinds of floral work.

## Joe Roberts, 66, Died At Home In Eastland Monday

Funeral services were conducted Thursday afternoon at the Little Floek Baptist Church, for Joe Roberts, 66, who died at his home Monday.

Roberts and his family were the first colored folk to come to Eastland. The family came here in 1919. Interment was in the Eastland cemetery with Hamner's in charge.

## Jimmy Bennett, Cross Country Rider, Visitor

Enroute to Hollywood, movie-bound he hopes, Jimmy Bennett, the Tennessee Kid, who is riding horseback from Franklin, Tennessee, 17 miles of Nashville, to Los Angeles, rode into Eastland about noon. He was greeted and taken in 5:30 o'clock Wednesday afternoon by Commander Bob Burkett of the local American Legion post and a committee of Legionnaires. He was the Legion's overnight guest.

Bennett left Eastland about 9:00 Thursday morning enroute to Abilene via Cisco, Putnam, Paired and Clyde. A committee from the local American Legion Post was on hand to see him off and to wish him well on the remainder of his trip.

Bennett says he started his trip on September 8, and his last stop before reaching Eastland county, was at Fort Worth where he spent several days and was given a royal welcome. Fort Worth gave him a new horse. The one he is riding now, however, is one for which he traded. He has ridden about 900 miles.

When Bennett reached Ranger Wednesday at noon, he was met by a committee from the Ranger Rotary club who invited him to be their luncheon guest. He had spent the previous night in Strawn where he was entertained by the American Legion Post.

During World War II Bennett served 33 months with the United States Coast Guard and saw action in the European theatre.

## Eastland People Invited To Hear A Cappella Choir

Music lovers of Eastland are invited to attend a program to be given Sunday night at 8:15 o'clock in the Recreation Building in Ranger at which Dr. Wiford C. Bain of NTSC will present his A Cappella choir.

## Clark Denounces Selfishness Of Monopolists

BOSTON (UP)—U. S. Attorney General Tom C. Clark, today attacked selfish monopolists who would "tear down our free enterprise system while they declare their love for the American way of life."

In a speech prepared for delivery before the 31st annual meeting of the Associated Industries of Massachusetts, the Texan said these men clamor loud for free enterprise and opportunity when actually they mean freedom for their own activities—freedom to drive competitors from the market place.

## PROMINENT RANCHER OF SECTION DIES

Walter Jackson Gardenhire, 75, and pioneer rancher of this section died at his home on Route 3, Ranger Thursday morning.

Funeral services will be conducted at the Macedonia cemetery Saturday, October 26 at 2:00 p. m., with Rev. K. C. Edmunds and Rev. H. B. Johnson, officiating. Burial will be in the Macedonia cemetery with Morris Funeral Home in charge of arrangements.

The deceased was born in Grayson County on January 26, 1871 and had resided in the Route 3 area for 68 years. He was married at Addington Oklahoma, in the Indian Territory, in 1897 to Miss Virginia Turnell and together they had lived for the past 46 years on the ranch where he died. Mr. Gardenhire had been associated with ranching interests in this area for all of these years and was a contributing factor in the development of ranching in this section.

Survivors are his wife; one son, Van Gardenhire of Cisco; four daughters, Mrs. C. J. Samuels of Ft. Worth; Mrs. R. L. Justice of Ibe; Mrs. Roy Trower of Route 3, Ranger and Mrs. R. E. Stelle of Ranger; one brother, Brown Gardenhire of Route 3, Ranger and three grandchildren.

### 'ON THE HILL'

By Jan Spalding  
The chief topic of conversation on "the hill" this week is the Ballinger game. Our boys really put up a courageous fight even though they were outweighed quite a bit.

The football boys wore their complete new uniforms for the first time Friday night and they are really pretty. The pants are gray and red, and jerseys are white with red letters.

The Eastland High drill squad will march for the first time Friday night. They have been practicing every afternoon and are really doing wonderful work. The twirlers are Patsy Safley, Betty Ann Harkrider, Nancy Harkrider, Joyce Pearson, Marleece Elliott, and Billy Floy Hunt.

Wanda Williams gave a barn dance Saturday night for the football boys and their dates. Everyone really had a grand time. Mr. and Mrs. Curley Maynard, Mr. and Mrs. Lee Horn, Mr. and Mrs. Joe Tow, and Mr. and Mrs. John Little directed square dancing. James Ed Gann is home again and visited his former teacher Monday afternoon.

The A. W. D. Club is giving a party for the football boys at the Old Union School next Saturday night. All football boys and their dates are invited.

Sandy Taylor is cheer leader mascot again this year and she leads with the leaders now. We are all very proud of her and think she adds a lot to our pep rally.

The Sub Deb club is planning to have a party for the entire school sometime soon.

The Rip and Sip club, the Home Economics club, has begun having regular meetings now. Miss Loretta Morris, homemaking teacher, is the club sponsor.

The first six weeks work has been completed and the students will get their report cards Thursday. There will probably be a really large honor roll this year.

Nancy McDonald, who was recently married to Bill Pryor, returned to school Tuesday. We are very glad she is going to finish her high school work.

Well I guess this just about ends the high school "chit-chat" for the week and I'll see you next week if the "goblin" don't get me.

## Hurls Charges Against Russia

BERLIN (UP)—Col. Frank L. Hewley said today that the Russians would be asked tomorrow for a full report on allegation that they were transferring German workers to the Soviet Union along with the dismantled plants at which they were employed.

Roosters, brood hens and nonlayers will eat an average of seven pounds of feed each, per month.

## FT. WORTH LIVESTOCK

Cattle 3400, calves 3200. Receipts mostly medium and low grade offerings. Common and medium slaughter steers and yearlings 11.00-17.00.

Stocker and feeder calves and yearlings mostly 13.00-16.50, a few higher.

Hogs 500. Butcher hogs 50-1.00 higher than Wednesday average. Top 25.00 paid for most good and choice 180 lbs. up.

### "Tut, Tut, Sam, Don't Get Excited!"

### Under The Dome At Austin

AUSTIN, Tex., (UP) — Apparently there is not any difference between a public road and a highway. But friends of the proposed amendment in the state constitution to freeze road-use taxes to road purposes are alarmed because some people are saying "highway" instead of "road."

They fear an impression will be created that the objective of the change in the state constitution is to limit use of road taxes to work on main thoroughfares. They point out that the amendment is not so limited. It proposes that these funds shall be used for constructing, maintaining, and policing "public roadways."

A public roadway has been held by many courts to be any land dedicated to public road purposes. The term has been held to include a county road, a bridge, a street and even an alley in a city.

In 1907 the state of Iowa codified its laws and substituted the word "road" wherever "highway" had appeared in the acts that were codified.

Just how roads came to be known as "highways" is surrounded in the fog of years. There are two suggestions for origin of the term. One of these is that a route passable in all weather, frequently was raised above the surrounding area to carry the traveler across bogs or midholes and so became known as the "high" way. There is the Scotch ballad, "You take the high road and I'll take the low road," to give credence to some such origin of the term. State highway offices thought the origin was an aping of the term

"high seas" used to designate free voyaging areas.

More likely the term originated from routes being laid out by royal direction and so became known as the king's way or highway. Courts set up by royal direction frequently were known as king's court or high courts and by analogy the same should hold for roads.

In Texas court decisions the terms "highway" and "public road" seem to be used almost interchangeably. Some decision say flatly there is no distinction.

At all events, Texas Good Roads Association and other supporters of the amendment to be voted on Nov. 5, are anxious that the people know that all roads are included for expenditure of road-use taxes under both the literal terms and the intent of the proposed amendment.

In road financing on so large a scale as that of Texas, it is necessary to be able to look ahead more than a year. This results in piling up temporary balances in the state highway fund in the state treasury. Such balances attract the greedy eyes of persons who want the state to finance something or other.

There has been borrowing from the state road funds in the past and there will likely be attempts to borrow or take them outright again, unless the proposed amendment is approved.

The provision by which one fourth of all state occupation taxes go into the state school fund will remain in effect if the new amendment is adopted. That means that the schools will continue to get one cent out of the four cents

a gallon tax that the motorist pays on gasoline. That tax is levied as an occupation tax against the gasoline sellers. Of course, the seller merely adds the four cents to the price the buyer pays, so it really is a users tax, but the way it is levied the schools get their one fourth share.

### Paul's Widening Field of Service

Scripture: Acts 13:1-5, 13-14, 44-46, 48-49; 14:26-27

BY WILLIAM E. GILROY, D.D.

WHEN Paul saw the light on the way to Damascus, we are told that "he was not disobedient unto the heavenly vision." God's call may come to us in heavenly visions or in very human inward impulses; but in whatever way it comes it is by obedience only that we find the pathway to our highest and best service.

Paul the persecutor could but little have realized in the hour of his conversion the greatness of the mission God had for him. His conversion meant that he was breaking with old associations. His future was uncertain. He was accepting all the dangers and risks of a new way.

But there was no uncertainty in Paul himself. He threw himself into the business of being a Christian with all the intensity he had put into his persecuting.

NOR was there any incompleteness in Paul's conversion.

In his Jewish prejudices he had been bigoted and narrow-minded. Now, as if to stone for all his past sins, he ardently took upon himself a mission to gentiles as well as to Jews. And his mission was directed more and more to gentiles as the opposition of his former comrades, Jewish persecutors, increased.

It was from the pagan city of Antioch, where the disciples were first called "Christians," that Paul began his missionary journeys; and the first journey was slight in comparison with Paul's later travels. His companion on that first journey was Barnabas, who had spoken up for him when the disciples at Jerusalem were inclined to fear and distrust him.

ACCOMPANYING them was a young man named John, whose surname was Mark. This companion later caused a sharp contention between Paul and Barnabas (Acts 15:37-39).

He left them on their first journey under circumstances that Paul evidently considered not to his credit, and Paul refused to take him with them when they proposed a second trip. So Paul took Silas as his companion on the second missionary journey, while Barnabas and John Mark went their own way.

In defense of John Mark it may be said that Paul, for whom no danger was too great and no task too formidable, may have been too exacting a leader. In any event, the world owes a great debt to this John Mark, for he was later the author of the Gospel of Mark, the simplest and most direct of the Gospels in its portrayal of the Master's life and work.

### ICE BOX HOUSE TESTS WAYS FOR HEATING

WASHINGTON (UP) — No help for the housing shortage, but the government has a pretty four-room bungalow that nobody lives in—and it's tucked away in a "refrigerator."

The house, at the National Bureau of Standards, is being used so that more can be learned about the best way to heat a small home so it will be comfortable. Built in 1939, it has been heated by many different methods.

The house is surrounded by another structure so that a cooling system can keep the outside temperature anywhere between 0 and 70 degrees. Inside the two-bedroom bungalow, instead of people, are 150 "measuring stations," suspended at various heights around the rooms. These measure the temperature provided by various heating systems.

The experiment, discontinued during the war, has been started again—and will go on for a "long, long time," Paul Achenbach, in charge of the test work, said. He explained that new heating methods are coming along all the time, and that science "goes on and on."

Right now, they are testing a baseboard heating system (hot water) which is said to give great comfort for basementless houses. They have also tried out floor furnaces, space heaters, small warm air furnaces, hot water boilers, fireplace heating, and many other kinds.

### Teacher In Hurry Gives Cop Run For Their Money

SAN JOSE, Cal. (UP)—It cost a San Jose school teacher \$20 to find out that policemen aren't used to having people drive off and leave officers in the middle of writing tickets.

Traffic Officer Robert Johnson told the judge that he had stopped Mrs. Agnes B. Crider after she had ignored a stop sign. He said Mrs. Crider had no driver's license; she refused to be cited; she drove off and left him and ran through another stop sign. He added that the teacher also did 47 miles an hour in a 25-mile zone in her hurry to get home and lock the door in his face.

Mrs. Crider told the judge she was in a hurry to get home.

Police Judge Percy O'Connor was willing to forget everything but the speeding charge.

### CHRISTIAN SCIENCE SERVICE

"Probation After Death" is the subject of the Lesson - Sermon which will be read in all Churches of Christ, Scientist, on Sunday, October 27.

The Golden Text is: "Blessed is the man that endureth temptation for when he is tried, he shall receive the crown of life, which the Lord hath promised to them that love him" (James 1:12).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Be ye therefore perfect, even as your Father which is in heaven is perfect" (Matthew 5:48).

The Lesson - Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The divine demand, 'Be ye therefore perfect,' is scientific, and the human footprints leading to perfection are indispensable" (page 252).

### GI Students Prefer Classics To Jazz

LOS ANGELES (UP) — Former GI's attending the University of Southern California say they would be soothed by symphonies over the radio rather than be "sent" by swingsters.

A survey made by the Daily Trojan, student newspaper, showed that 60 per cent of the veterans preferred classical music while 35 per cent stood by swing.

Eighty per cent turned thumbs down on audience - participation shows.

**Repatriating the Bodies of Our World War II Dead** The Karl and Boyd Tanner Post No. 4136, Veterans of Foreign Wars, has just received from the War Department some important data on the Repatriation Program. The War Department, through the Quartermaster General of the Army, is now engaged in the gigantic task of providing for the final disposition of the remains of some 328,000 war casualties of World War II. The Quartermaster General of the Army, who is also Chief of the American Graves Registration Service, is committed to carrying out the wishes of the survivors within four choices, including the dignified, reverent return of war dead and provision for their burial in the United States, the options afforded the legal next of kin for disposition of remains are as follows:

**First:** The remains may be interred or reinterred in a permanent American military cemetery overseas. The establishment of permanent American Military Cemeteries in overseas theaters is contemplated, should the number of requests justify their establishment.

**Second:** The remains may be returned to the United States for final interment in a National Cemetery. Burial of remains in a National Cemetery is restricted to members of the Armed Forces only. When this option is desired, the remains will be transported to the Continental United States and interred in the National Cemetery selected by the next of kin.

**Third:** The remains may be returned to the United States, or any possession or territory thereof, for interment in a private cemetery. Shipment will be made to the city or town designated by the next of kin.

**Fourth:** The remains may be reinterred in the country in which now interred or be returned to a foreign country, the homeland of the deceased or the homeland of the next of kin, for interment by the next of kin in a private cemetery. Shipment to a foreign country is dependent upon the ability of the United States government to obtain entry therein. If entry can be obtained, shipment will be made to the city or town designated by the next of kin.

**The War Department** has designated fifteen distribution points in the United States through which the remains of World War II dead will be sent to the city or town designated by the next of kin. The distribution point in this particular area is Ft. Worth Quartermaster Depot.

**It's not that we don't love our work!**

**WE DO LOVE** our work—but these days, we almost dread leaving home and going to our showroom.

So many people want new Packards, and there are so few coming through! **But you can't build cars without materials!**

The factory is straining every effort to get more parts and material so production can be increased. **We're doing our best!**

Some cars have been shipped with wooden bumpers, some without window regulator handles. This costs the factory a lot of money, for it means that replacements must be shipped and installed later.

Under such difficulties, it's a wonder the folks at the factory have done as well as they have. This year, compared to the same period of 1941, Packard has built a higher percentage of cars than the industry as a whole.

**We don't dare predict!** Our customers have been so patient that we'd like to sound some optimistic note.

But word from Detroit says that parts and materials are still scarce. Steel continues to be limited. Shortages of lead, copper and other materials are looming up.

Scrap iron has been so scarce that Packard started the ball rolling on a nation-wide collection drive! **Take care of your present car!**

Until you're sure of getting a new one, give your present car the best of care.

Lots of cars are running better and lasting longer because our trained mechanics have serviced them right. Give us a chance to catch those little troubles before they grow up into big ones.

Bring your car in any time. We're short on new cars, but we're long on helpful, car-saving service.

### More telephone service than ever...

### FOR MORE PEOPLE THAN EVER...

We've put in more than 190,000 telephones in Texas in the first nine months of this year—nearly twice as many as we connected in the first nine months of 1940.

We're handling a million and a half more local calls a day than a year ago. And 13 per cent more long distance calls. (Nearly twice as many as before the war.)

Putting in all those telephones and taking care of all those extra calls—regardless of shortages of materials—is one of the biggest jobs the telephone company has ever done.

Best part is that service has remained good on most calls despite heavier-than-ever volumes.

There are some delays but we're working on them—just as we're working hard to serve people waiting for telephones. Service will be better than ever, for everyone, as soon as new equipment can be made and installed.

# PARTIAL DEAFNESS BOTHERS MILLIONS, SURVEY SHOWS

MINNEAPOLIS, Minn. (UP)—By the time you're 35, there is a chance you will have lost part of your hearing without realizing it.

That's the conclusion of a study by the Northwestern National Life Insurance Co. It found that between 5,000,000 and 7,000,000 Americans have difficulty hearing in one or both ears. And about half that number are seriously handicapped by deafness.

In children, catarrhal conditions

and diseases involving high fever are the major causes of poor hearing. As people get older the chief reason for deafness is circulatory trouble, such as high blood pressure.

The insurance company learned that approximately 1,500,000 children have minor hearing defects that should be given attention to prevent them becoming serious handicaps.

Treatment with streptomycin, penicillin and sulfa drugs has almost eliminated a former cause of

deafness among World War I veterans—meningitis.

Persons who work where there is lots of noise—such as riveters, welders, boiler-makers, tractor operators—often suffer from "boiler-maker's ear." That's a condition where hearing may be normal or near normal in the middle and lower ranges of sound, but can't distinguish high-pitched tones.

Elevator operators and airplane pilots also suffer from that kind of deafness. The answer—in part—is either brief rest periods at regular intervals or ear stoppers.

This widespread loss of acute hearing, the study concludes, may well explain the number of traffic accidents in which a driver fails to hear an oncoming locomotive, a fire engine or an ambulance.

## Wild Squirrel Chase Peeves Game Warden

FRANKFORT, Ky. (UP)—Horace Beard, Greenville, Ky., game warden, is disgruntled.

The Green River Republican, weekly newspaper, carries a column each week "From the Files of the Republican Sixty Years Ago." A recent issue contained the following item:

"J. B. Phelps and Maury V. Ward bagged 63 squirrels on a one day hunting trip last week."

The item was cut from the paper, minus the heading that indicated the event occurred in 1886, and was sent to the fish and game commission offices here. Bagging 63 squirrels is unlawful nowadays.

Beard went forth and spent two days looking for Phelps and Ward, only to find out that they had been dead more than thirty years.

## Smart Guinea Pigs Get Nod Over Dumb Rats

CHICAGO (UP)—Put your money on a guinea pig rather than a rat if there's a latch, to be lifted.

Dr. R. Frederick Becker, assistant professor at Northwestern University medical school, says the guinea pig is smarter than the rat. He used both animals in problem-solving experiments.

"Our overall feeling is that the guinea pig is less random and more purposeful," he said.

"In problems requiring latching, burrowing under, use of teeth and circumvention of barriers, the guinea pig was superior. It solved these problems more readily because its mode of attack was variable."

The responses of rats, Becker invariably to frustrative behavior," said, were stereotyped and "led

## Pitching Hero Was Flop In Texas League

GALVESTON, Tex., (UP)—Harry (The Cat) Breechen, the pitching hero of the World Series, was a complete flop as a rookie hurler in the Texas League.

But that was a decade ago. And his success in the big time since then is baseball history.

It was in 1935 that Manager Jack Mealey of the Galveston Buccaneers brought the young Broken Bow, Okla., pitcher in from the East Texas league and sent him in for mound duty.

The rookie lost three late season games. He won none.

Next year Breechen started the season with Galveston, but he did not finish it. The reason was that he still could not win. After four straight losses, Manager Mealey shipped him off to the Western Association, where he had only slightly better luck, winning six and losing 18.

By 1937, though, the slender hurler was picking up the skill that was to make him so valuable in the majors. With Portsmouth in the Piedmont League, Breechen started mowing down the batters with his baffling slants and ran up a season record of 21 victories against 6 defeats.

From then on, he was a winning pitcher.

By rail, the United States is approximately 3,000 miles from east to west and about 2,000 miles from north to south.

The United States exported more than 16,500,000,000 tons of food stuffs during the year ended June 30.

## Cities Adopting Pay-As-You-Go

CHICAGO (UP)—An increasing number of cities are paying for municipal post-war projects without issuing bonds by putting their expenditures on a pay-as-you-go basis, according to the International City Managers' Association.

Two cities of a selected group recently surveyed by the association are debt free. Six others have enough money to pay off their small debts and are financing capital improvements almost entirely with current revenues.

Other cities plan to finance as many capital improvements as possible on a pay-as-you-go basis.

Colorado Springs, Col., and Kalamazoo, Mich., are debt free, the association reported. They plan to finance extensive public works improvements during the next decade out of current revenues.

Cities able to pay off debts and still pay for improvements in cash include Lansing, Mich., Alameda, Cal., Fond du Lac and Milwaukee, Wis., Cleveland Heights, O., and Macon, Ga.

Schenectady, N.Y., and Columbus, Ga., also operate on a pay-as-you-go basis, although they have comparatively larger debts.

## Russia Would Check Uranium Ore Deposits

LAKE SUCCESS, N.Y. (UP)—Russia has proposed a world wide inventory of uranium ore deposits as the basic step in the control of atomic energy.

The proposal, outlined to a committee of the United Nations Atomic Energy Commission by Prof. S. P. Alexandrov, Russian scientist, declared that control of atomic energy should not have its beginning in the first stage of production, but should go beyond that to include an index of the world's supply of uranium, actual and potential.

## Jet-Propelled Ship Launching Due Next Year

BOB BURKETT, Post Commander  
Mrs. Earl Francis, Auxiliary Pres.

Ex-serviceman W. J. (Wilsey) Broussard, wife and five month old son left on a two week's vacation to LaFayette, Louisiana. The Broussards will spend most of their vacation with Mr. Broussard's parents, Mr. and Mrs. Elize Broussard. Buddy Broussard is an employe of the Muirhead Motor Co.

Legion and Auxiliary friends of Mr. and Mrs. Hood King regret to hear their son, Doug has been very ill at our local hospital, where he underwent surgery for the removal of a badly infected appendix.

Next Tuesday night is our mask tucky party and the committee has put some honest-gooodness effort into its plans for a real fun festival. Prizes will be awarded to the two tackies dressed funster present. Each auxiliary member has agreed to bake a cake for the party and homemade pie will certainly be a treat to many of us that have got by without sugar so long. The program will include a few games for both young and old, a fast moving original skit written and directed by the party chairman, Mrs. Hazel Melton. A men's style show, with all its finage and other features that go to make such parties a success.

Commander Burkett, chairman of arrangements for the 40 and 8 dance tomorrow night, announced he has secured the musical services of Lester Francis and his Diamond Ranch Cowboy band. This dance band is widely known throughout West Texas and their services are in almost demand. Our post will act as host to the 17th district membership of the Forty and Eight who will gather here Saturday afternoon for their installation of officers for this year, during these ceremonies, the lady folk of the Forty and Eight members will be entertained by the ladies of our auxiliary. All Legion and Auxiliary members and guests are invited to attend the dance which will start

promptly at nine o'clock.

The 17th district convention will convene Sunday, October 27th at Breckenridge and a full day's program has been arranged for the delegates. It is the wish of our commander Burkett to have a good Eastland representation of legionnaires and Auxiliary members at this convention, being only twenty six miles distance from home, all Legion and Auxiliary members should avail themselves of this advantage and attend this nearby convention.

Mrs. Sidney Horton was host at a wedding shower honoring Mr. and Mrs. Dean Seaborn. Mrs. Seaborn will be remembered as Miss Geraldine Roberson, daughter of Mrs. Ruth Roberson. Mr. Seaborn served three years in the Navy and was a crew member of the battleship Maryland.

Mr. and Mrs. J. C. Linley are the proud parents of a fine nine pound boy, who arrived October 15, at the Eastland hospital. Mrs. Linley is the former Miss Clarence Seaborn. Mr. Linley is an ex-Air Force G.I., his service included 2 years on Guadalcanal.

Buddy and Mrs. Wayne Clark have gone to Arizona for Mr. Clark's health, he is in the Veterans hospital at Tucson according to his sister Mrs. Ruth Branton and the last report stated he

was improving as much as could be expected.

Mr. and Mrs. Billy Walters were visiting friends in Dublin last week.

Among last day visitors at the Dallas state fair last Sunday were Mr. and Mrs. Conard Reeves and their guests Mrs. Clyde Doyle and Mrs. D. E. Pittman. Other Fair visitors were: Mr. Joe Canaris, Mr. and Mrs. Dick Chamberlain and Mr. and Mrs. Earl Francis. All report a good attendance Sunday and a fine Fair.

Puddy Howell, chairman of the membership committee stated his committee had worked out a membership contest plan whereby the 1946 membership roll would be cut-up into five men teams, the team securing the greatest number of 1947 members would receive five handsome American Legion coat sweaters for their effort, a worthy prize, worth working hard to be in the winner column. There are many veterans of both wars that will join the American Legion if we display an interest in their affiliation with our great organization. Thanks to the founders of the American Legion in their broadmindedness when they decreed that the only qualification required to be eligible for membership in the Legion was an Honorable discharge. We are happy to offer membership to the so-called 90-day wonders (Soldiers who took the 90-day training course at officers training school) many of these same 90-day wonders may lie in Flanders Field, dying just as game and honored as the seasoned soldier, shedding their blood just as selflessly and for the same high ideals Chateau Thierry, St. Mihiel and the Argonne perhaps found many of these 90-day wonders meeting the Hun and his whistling death then crashed his defense, their power humbled in the dust, they asked for an Armistice. 90-day wonders, they were American officers and their immortal laurels will always be a heritage to the American Legion.

Mrs. Carl Franklin, daughter of Mr. and Mrs. S. A. Steddum of Olden and members of our post and auxiliary, entered the Eastland hospital with an injured foot. Mrs. Franklin's diagnosis revealed an infected appendix, making an appendectomy necessary.

**FIRMS TRAINING VETS  
MUST FURNISH REPORT**

Mr. Harry J. Walter, Training Officer with the Veterans Administration Office at Eastland, Texas, announced today that all Texas firms training veterans under the GI Bill must furnish the VA on or before Jan. 1 a comprehensive outline showing how they are preparing trainees for more responsible jobs.

The reports, said Mr. Walter, must be made on each of the 14,000 veterans in North Texas as a result of legislation affecting training and subsistence. The new law is aimed at tightening the program and eliminating firms whose objectives do not meet required standards.

Mr. Walter stated that he had been supplied with enough copies of suggested programs to meet the needs of firms.

The pattern for job training covers veterans learning livestock and agriculture, commercial and managerial jobs, professional and technical fields and trades and industry. Business firms employing

Our Unit Secretary, Mrs. V. O. Hatcher spent a few days in our local hospital for a deficiency, which was corrected and she was able to resume her work last Wednesday.

Buddy Troy Taylor had the misfortune of injuring an eye, which has caused a great deal of pain and a loss of time from his cement contracting business.

veterans must break down the training and show how much time will be required to complete each progressive step. Statements must be given whether the instruction is to be given in the shop, in organized classes or through correspondence, and a schedule of wages must be listed. The firm also will be asked to report whether it expects to employ the veteran after he completes his instruction.

The VA will pass on the program set up by the firms, determining whether they meet the test of giving a real opportunity to reach journeyman status.

The amended law limits on-the-job training to a maximum of 24 months in the managerial, clerical and sales fields. It also sets the same time limit on mechanical skills unless the employer has been approved in Texas by the Federal Apprenticeship Training Committee.

In recognized apprentice trades the veterans may continue to receive subsistence, tools and training for four years if his military service was lengthy enough to allow him this much training time. There are more than 100 recognized apprentice jobs approved in Texas by the Federal Committee, including all the building trades, airplane and automotive mechanics, railroad crafts, machine shop instruction, refrigeration and watchmaking.

Any firm needing help in tailoring its program to meet apprenticeship approval can be given this

**Greyhound To Get Busses In Early December**

Delivery of the first of 1,257 new buses on order for the Greyhound Lines at an estimated cost of more than \$30 million is expected early in December, according to Orville S. Caesar, Greyhound president.

The coaches, which are being built by General Motors, will replace one-fourth of the nationwide highway fleet. They will be 37 and 41-passenger "Silversides" the distinctive Greyhound model developed just before the war but produced in only limited quantities. Although the exterior appearance will be similar, the newer "Silversides" will incorporate more than 100 improvements for passenger comfort, riding ease and mechanical performance. All will be powered by diesel engines and be equipped with the most modern air-conditioning units.

The new buses will replace older coaches that were kept in service to meet wartime transportation demands. In normal times, only one-seventh of the fleet is replaced each year, but wartime restrictions limited bus manufacture and confined production to less luxurious "Victory" types. As

a result of this situation, together with postwar production delays, a much greater backlog of equipment needs has been created.

**Golf With Interruptions**  
RYE, N.H. (UP) — Playing 36 holes of tournament golf usually is considered a full day, but Dr. H. J. Robbins, an obstetrician, managed to squeeze in three deliveries at a nearby hospital during the day's play at the Abenaki club.

**Florida Boasts Huamn Skull 10,600 Years Old**  
WASHINGTON (UP)—The Smithsonian Institution has announced that "Florida can now make legitimate claim to some very old inhabitants" — perhaps 10,000 years old.

Dr. T. Dale Stewart, Smithsonian curator of physical anthropology, dug into the institution's skull collection, tore apart a reconstructed skull and put it together again in another shape. The skull was discovered 20 years ago near Melbourne, Fla. At that time Dr. James W. Gidley, Smithsonian paleontologist said fossils unearthed where the skull was discovered indicated it was the remainder of a human who lived when giant mastodons roamed North America near the end of the Ice Age.

However, original reconstruction of the skull was identified as a Florida Indian, refuting Gidley's theory. But Stewart was dissatisfied. He put the bones together again in the shape of a long-headed skull "similar to the earliest skeletal remains found on this continent," the Smithsonian said. Since the original discovery of the skull anthropologists have agreed that man actually arrived in North America as many as 10,000 years ago.

Florida's ancient man, however, is relatively young compared to the Java man estimated to be 400,000 years old.

In the Scilly Isles off England's southwest corner, flowers bloom outdoors the year around.

**From where I sit... by Joe Marsh**

**On Playing the Fiddle Badly**

A favorite recreation in our town is getting together in one or another's home and making music. There's somebody at the piano; a guitar; a fiddle player; and Molly Birtles even has a harp!

What comes out isn't the best music in the whole world. In fact, a lot of it is downright bad. But nobody even thinks to question or to criticize.

Because the spirit of harmony is there—harmony between folks who like each other's company, who enjoy the simple, homey atmosphere

—with nothing more exciting than old songs, and a glass of moderate beer or cider.

From where I sit, it's a heap more important to be a poor fiddle player, than not to play at all. More important to be a part of the American scene—with its community music, home entertainment, friendly glass of beer—than to hold out for professional perfection. (Besides, I like to play the fiddle—even badly!)

work was by Ranger Camp, with eleven candidates in the class. All officers were perfect, and the Graces put their work on beautifully. Business of the meeting then began. Breckenridge was chosen as the next meeting place in April. The exact date is not yet known.

Election of the New District officers was taken care of and the following were elected by acclamation: President, Mrs. Effie Kinchen of Breckenridge; Vice-President, Mrs. Mable Southers of Ranger;

Chancellor, Mrs. Weir of Abilene; Secy-Treas. Mrs. Anna Bell Walker of Breckenridge; Marshall, Mrs. Choates of Graham; Assist. Marshall, Mrs. Alene Matthews of Eastland and Musician, Mrs. Josephine Strickland of Eastland.

Draping of the Charter was given by Breckenridge, followed by the pass word drill by Graham Camp. Abilene put on the Retiring March. A question box was opened and several questions were answered by Mrs. Carter, supervisor. Adjourned at 4:30 p. m. till six o'clock when all met at the Roof Garden of the Connellee Hotel for a banquet. All State and District officers were presented with beautiful corsages of pink and white carnations. The tables were decorated with West Texas cacti, and Royal Neighbor Favors. Mrs. Bea Lovelace and Mrs. Allene Matthews were the decorating committee. The group went to the Camp room again where the evening meeting was opened at 7:30.

The State and District Deputies were presented by the Juvenile members. A reading was given by little Miss Maxine Harbin. Breckenridge had a beautiful Fancy

Drill, the members all carried large purple and white crepe paper chrysanthemums. There were eighteen ladies and their Drill Captain, Mrs. Gay Burton, in the drill. Two piano numbers were given by Milton Herring, titles were "Bells of St. Mary's" and "The Gay Butterfly." Abilene camp put on a Fancy Drill, which was followed by a very impressive Memorial Ceremony by Breckenridge, led by Mrs. Effie Kinchen repeating the 23rd Psalm. The Ranger girls then gave a big laugh when they had a black face skit, representing a negro school, with Past Oracle, Mrs. Mary Johnson, acting as teacher.

The Eastland girls gave a delightful "Singing Romance" led by District Deputy, Cora Hooper. Others in the cast were, Mmes. Velma Hunt, Jeanette Throne and Allene Matthews.

The last thing on the program was the installation of the new District Officers, with Mrs. Myrtle Estes Carter, as installing officer, assisted by Mrs. Julia Brown as Ceremonial Officer. The following were installed: Effie Kinchen of Breckenridge, President; Mable Southers of Ranger, Vice-President; Mrs. Weir, of Abilene as Chancellor; Mrs. Anna Belle Walker of Breckenridge, Secy-Treas. and Musician Josephine Strickland of Eastland, the Marshall, Mrs. Choates of Graham, and Assistant Marshall was Mrs. Allene Matthews of Eastland.

The meeting was closed with the Lords Prayer. Every one present seemed to enjoy every minute of the day and night. All members are looking forward to the coming State Rally, which will be held in Abilene in January, 1947.

**Preacher To Deaf Uses 2 Languages At Same Time**

PITTSBURGH (UP)—The Rev. Herbert Rohe, a missionary to the deaf, preaches to his congregation in two languages at the same time.

The youthful minister has mastered the rare art of speaking orally and using the sign language simultaneously. He explained that many deaf mutes who come to hear him preach cannot read lips.

"My greatest handicap was the accurate translation of biblical terms," the missionary said. He makes his home here, but conducts services for the deaf at various towns in Pennsylvania, Ohio and New York.

**TO SING IN RANGER**

Shown here are members of Dr. Wilford C. Bain's A Cappella choir from North Texas State College at Denton posed in the shape of a cross. The choir will be heard in Ranger on Sunday, October 27 at 8:15 o'clock in the Recreation building.

The program is being financed and sponsored by a group of men's and women's organizations and no admission will be charged.

**U. S. FARM VALUES UP 90 PER CENT SINCE 1940**

By Charles R. McCabe  
United Press Staff Correspondent  
WASHINGTON (UP)—An overall evaluation of \$101,500,000,000 was placed on the United States farm plant at the beginning of 1946, in a study by the Department of Agriculture.

It was added that in bookkeeping terms the new figure represented gains of nearly 12 per cent from a year earlier and practically 90 per cent since 1940.

The dollar valuation of agriculture is shown in the "Balance Sheet of Agriculture, 1946," a study prepared by the Bureau of Agricultural Economics.

The study shows that of the total of the nation's agricultural plant on Jan. 1, farm real estate accounted for \$56,600,000,000, compared with \$50,300,000,000 on Jan. 1, 1945.

Other physical assets made up \$24,900,000,000, as compared with \$24,400,000,000 a year earlier. Financial assets of farm operators totaled more than \$20,000,000,000, compared with \$16,200,000,000 in 1945.

The equities of farmers and other owners of the farm business accounted for \$93,200,000,000 of the total worth of agriculture, compared with \$81,900,000,000 a year earlier. Creditors' claims amounted to \$8,300,000,000, a decrease of \$700,000,000 from a year earlier.

The study draws attention to the fact that the increase over last year is mainly due to price increases for agriculture's physical assets and to accumulations of financial assets resulting from a large volume of sales, at recent prices.

Comparatively little of the increase came from the physical improvement in the nation's farm plant, it was stated.

The study added that financial assets of farmers on Jan. 1, 1946, were estimated to include practically \$14,000,000,000 in deposits and currency, compared with \$11,300,000,000 a year earlier.

Also included in the total of assets were about \$5,000,000,000 in war bonds, compared with \$4,000,000,000 last year, and \$1,000,000,000 of investment in co-operatives, only slightly more than the year before.

**Delinquency Eased By War's Ending**

COLUMBUS, O. (UP)—Juvenile delinquency in Ohio last year was down 17 per cent from the peak year of 1943, the State Bureau of Juvenile Research has reported.

The situation also improved during the first half of this year with a decrease of 14 per cent compared to the first six months of 1945, according to Richard Allaman, state research sociologist.

**Veteran Land Bill To Be Voted On In November**

AUSTIN, Texas, Oct. 21—Passed by the Legislature unanimously and approved by the American Legion, the Veterans of Foreign Wars, the 36th Division and the State Democratic Convention, a Constitutional Amendment making it possible for Texas veterans to purchase farm and ranch homes from the State, faces ratification by the voters on Thursday, November 7, two days after the general election.

Over 5,000 Texas veterans have already expressed a desire to participate in the program in letters addressed to Bascom Giles, Commissioner of the General Land Office.

Under the plan the State would put some 10,000 tracts located in every section of the State on sale to the veterans for as little as 10 per cent down with 40 years to pay the balance at 4 per cent interest. The tracts would range from 50-acre farms to 2,500-acre ranches with a maximum purchase price of \$5,000.

Each tract would carry a fifteen-sixteenths mineral fee interest in oil and gas and a seven-eighths mineral fee interest in sulphur. Purchasers would not be required to homestead the land. They would also be permitted to dispose of their equity.

The State, which owns several million acres of land, plans to select the best tracts and to supplement this acreage through purchase of some of the 2,400,000 acres of land acquired by the Federal government during the war.

The program, which would run over an eight-year period, would be administered by the Veterans' Land Board composed of the Governor, Attorney General, and the General Land Commissioner, in cooperation with enabling statutes by the Legislature. This Board would be authorized to issue up to \$25,000,000 in bonds to be sold to State surplus funds, for the purpose of purchasing Federal-owned land.

**Says More Men Than Women Are Using Laundry**

AUSTIN, Tex. (UP)—University of Texas veteran students with working wives find that taking the laundry to the local self-service laundrette isn't as bad as they had once thought "doing the family wash" would be.

While their wives are busy making a living, the men take bundles of laundry under one arm and books under the other to the laundrette. There they can study while the machines do the work. Then when the wives come home, they still have the ironing to do. Reports are that more men than women use the service.

## "LOOK UP AND LIVE"

**Alta Starnes**  
Sincere praise of the good in others fulfills the cardinal principle of psychology: the innate goodness and worth of the individual.

Honest praise inspires and impels one to act in harmony with the best within him and thus a chain of good is set in motion. On the other hand, criticism only draws attention to the evil that should be shunned. Psychology teaches that we do that which we fix our attention upon. So if we concentrate upon mistakes, we tend to repeat the wrong rather than rising above it. For example, a miso pupil hammers the keys. The wise teacher would say: "Strike the notes more gently" and the pupils mind, being fixed upon striking softly could not help but do so. The unwise teacher would say "Don't bang so"; and not offering a correct pattern the poor student would continue to pound.

The same is true of children in the home. The mother who remembers the tasks well done, compliments them, and says: "Mary you always clean the lavatory so nicely. Do the sink the same way when you finish the dishes." This mother is much more likely to get willing cooperation and good results than the mother who says: "Mary you never clean the sink after doing the dishes, you must not be so careless." She offers no acceptable pattern to follow and the results continue to disappoint her.

Praise sincerely offered, is one of the greatest powers in harmonizing human relations. It pays big dividends in better work and the happiness of all concerned.

## Oil Field Notes

The farmers of this community are working to save their peanut crop while they have good weather and sunshine.

October 14 through October 19 Among the Applications To Drill filed this week was one filed by R. F. McClung of Eastland to drill the Luke Pippens No. 1, a wildcat well, located in survey number 3167 in Eastland County and two miles west of Dothan. Drilling will start immediately with cable tools and the proposed depth is 400 feet. The well is to be located 1500 feet from the east line and 450 feet from the south line of a 160 acre tract out of the south half of survey 3167.

Hickok and Reynolds, Inc., of Cisco are asking permission to drill a 3500' well on the John E. Leazar et al lease, 4 miles North of Sipe Springs, not quite one thousand feet from the Eastland-Comanche county line. Exact location of this well number 2 is 1400' from the West line and 660' from the South line of the NW 1-4, Section 27, D&D Survey, Comanche County. This is in wildcat territory.

Well Record has been filed on the Fred M. Manning, Inc., C. J. O'Connor Number 6 in Block 7, Section 52, Stephens County T&P Survey showing this well to have been drilled to a total depth of 4088, drilling being completed on Oct. 10. Initial production of this oil well was not estimated on this form.

Fred M. Manning, Inc., has filed a potential test report on their O'Connor No. 4 in section 51, block 7, T&P Survey, Stephens County. Result of this test was 156 barrels of crude oil per 24 hours, with a gas-oil ratio of 13,900 cubic feet of gas per barrel of crude oil. Gravity of the oil produced during this test was 44. Depth of the well is 4170.

Plugging of the Milt Decker D. C. Pratt well number 1, located 10 miles North of Ranger in Stephens County has been completed, and the proper forms have been filed by O. J. Urban of Ranger, who is part owner of the lease. This had been a gas well which was drilled in 1926 to a depth of 2066.

There's Always a First Time. EVANSVILLE, Ill. (UP)—Attendants wondered who was the most nervous at a wedding ceremony here—the bride, the groom, or Justice of the Peace W. E. Lauber. Lauber was officiating at his first ceremony in the eight years he has been in office.

"Crying Room" Works ASHLAND, Wis. (UP)—Mrs. Dave Mackie of Ashland is not a trained psychologist but a little common sense in child training is making life quieter at her home.

Mrs. Mackie has one room reserved as the "crying room." Whenever her grandchildren start to cry, she tells them: "It's all right for you to cry, but you must do it in the crying room. No one will disturb you and you may cry as long as you wish. It will be lots of fun to cry all by yourself. Want to try it now?"

# A MESSAGE OF INTEREST to all who await deliveries of new Chevrolets

**We want you to know that everything possible is being done to speed deliveries to you; but production still lags far behind schedule—even though Chevrolet has built more cars and trucks than any other manufacturer from January through September, 1946**

**WE REALIZE** how eagerly you are awaiting delivery of the new Chevrolet you have ordered from us, and we want to pass on to you the latest information received from the Chevrolet Motor Division, even though that information isn't too encouraging at this time.

It is true that Chevrolet leads all other manufacturers in total production of passenger cars and trucks from January through September 1946, despite the fact that Chevrolet was out of production entirely during the first three months of this year. It is also true that Chevrolet has continued to maintain its lead in total production during the third quarter of 1946. And yet production is still running far below desired levels, with the result that Chevrolet's output of cars and trucks through September 1946 was only 38.7% of the number produced during the corresponding period of 1941.

This means it may take many months for the Chevrolet Motor Division to reach peak production of new Chevrolets—even longer to fill the unprecedented demand for this product of BIG-CAR QUALITY AT LOWEST COST—and, for the present at least, "there just aren't enough Chevrolets to go around," much as we wish there were.

However, we want you to know that new Chevrolets are leaving the plants in the largest numbers possible today. The Chevrolet Motor Division tells us it is doing everything it can, in the face of continued suppliers' strikes, material shortages and manpower problems, to step up shipments to us and to all dealers, in accordance with a predetermined distributor plan assuring each dealer of his fair allotment based on 1941 passenger car sales. And we, in turn, are doing our best to deliver new Chevrolets to our customers as rapidly as they are received and in the fairest possible way. We are too appreciative of your loyalty and goodwill—to be grateful for your patience and understanding—to do anything less than continue to serve you to the very best of our ability.

**KEEP YOUR PRESENT CAR RUNNING**

Meanwhile, the most important car of all to you is the car you are driving now. May we suggest that you keep it in top running condition until you secure delivery of your new Chevrolet, by bringing it to us for skilled service now and at regular intervals. Remember—cold weather is hardest on old cars. Please see us for a complete check-up today. . . . And, again, thank you!
