News From . . . OLDEN

By MRS. OLIVE STEPHENS

Jack Patterson, who is employed by a drilling company at Seagraves, was injured in a car crash there last week. The wreck happened when Patterson and two other men were driving to work and a front tire blew out, causing the car to turn over.

Patterson was badly cut on the face and throat, and although he was bleeding profusely, he managed to get out of the car and had walked a few steps before he fell.

The next car along picked up

the other men in the car, who had received lesser injuries, but the occupants stopped and looked at Patterson and thought he was already dead, so they went on, leaving him there.

A second car stopped and took him to the hospital, where it was feared for a time that he would not live. However, he is getting along very well, and his father, B. W. Patterson, who was called to his bedside there, returned home Friday.

Mrs. Mary Colburn is greatly improved at this time.

Things worth seeing around our town now: Dave Vermillion's beautiful pansy bed; Mrs. Curry's elephant collection; Mr. Grabowsky's new company car, and the new green grass that seems to be just jumping up now that spring is here.

Did you happen to see and hear the big flock of wild geese heading straight north Saturday? They were flying in their usual perfect formation, and honking as they passed high directly over our house. I ran inside to tell my father and mother and husband to hurry out and see them, and they thought it must be a fire or something. But anyway, we hope the geese know their business, and no more bad northerls will be coming our way now.

Sentinels of Health

Don't Neglect Them! Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—its itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure. When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel tired, nervous, all worn out. Frequent, scanty or burning passages are sometimes further evidence of kidney or bladder disturbance. The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use Doan's Pills. They have had more than forty years of public approval. Are endorsed the country over. Insist on Doan's. Sold at all drug stores.

NOTICE TO CITIZENS OF EASTLAND

We think that we have a beautiful city, and we wish to keep it that way. Under the present set-up, and with the present water rates there can be no green grass, gardens, shrubbery, and other herbs that go to make our town one of the prettiest in the State.

We favor a tax equalization board, with equal renditions for all.

We favor repair and maintenance to our City Streets, rather than have money expended on other interests.

We are in favor of at least a quarterly financial statement to be brought before the public through the local papers.

Why we ask people to take party-line telephones Bringing telephone service as quickly as possible to thousands of people waiting for it in the Southwest is our Number One job. One way we are doing it is by furnishing party lines to residence customers. This makes it possible for limited amounts of telephone equipment to serve more people. After everyone who wants service has it, then we can begin the job of providing the kind of service you want when you want it. IF YOU HAVE PARTY-LINE SERVICE ...you can get the greatest value from it by doing these simple things: 1. When you have several calls to make, allow a little time between them. That gives others on the line time to make or receive calls. 2. If the line is in use when you try to call, please hang up quietly. Wait awhile before trying again. 3. If you have children, teach them how to use the party line properly, too. SOUTHWESTERN BELL TELEPHONE CO.

SENIOR SPOTLIGHT

The senior spotlight searches through our class and falls upon a dark haired boy. He has brown eyes and he weighs 117 pounds. He is 5' and 2" tall.

Manning Wady has taken part in all the boxing matches we have had. He has put up a good show and has become a very good boxer.

Manning has many favorites, such as swimming, boxing, apple pie, football, and typing. Teacher Johnson is his favorite teacher.

Manning is planning on going to C. J. C. the first year after he graduates. Then he will enter another college which he has not yet picked.

We all want to wish Manning all the luck and success and happiness in the world for only a swell guy like he deserves it. YEA SENIORS!

JUNIOR SPOTLIGHT

The Junior Spotlight shines on one of the dark haired beauties of our class. She is Rita Joyce Fox. Rita has beautiful blue eyes, olive complexion, and dark brown hair. She is 15 years old, and 5' 11" tall. Among her favorites are red, horse-back riding, fried chicken. "The Jolson Story," Larry Parks, June Allyson, "For Sentimental Reasons," Bing Crosby, Harry James, "Teach" Johnson and English. Rita says her favorite pastime is day dreaming. As to the future Rita doesn't exactly know except that she wants to go to college. Here's wishing a very pretty and swell girl lots of happiness, and success.

SOPHOMORE SPOTLIGHT

As the spotlight wanders down the halls this week, it stops on the cute, little red-head of the mighty Sophomore class. She has green eyes, weighs 112

pounds and is 5' 6" tall. Her favorite color is aqua and her hobby is going with Bill.

The top favorites, in her movie stars, are Peter Lawford and Lana Turner. She likes "Thrill of a Romance" better than any show. (She hasn't seen the "Jolson Story.")

One of her favorite sports is swimming and her favorite song is "I'll Close My Eyes." If you want to find her just go to a place with a juke box playing that and there she'll be. In case you don't know who this member of the Co-Ed Club, is, it is the one and only Gay Nell Whitley.

SHORTHAND BLUES

Has anybody ever written an article on shorthand? Well, if they have, it's been a long time ago.

Some people say shorthand is hard. But is it really? es. Of all the dots and dashes, thingamabobs, and watchamacallits! Did you ever see such a conglomeration of "stuff."

Teacher gets up in front of the class and says this goofy looking thingamabob stands for so and so. But this one is just like it (only different) stands for something else. Catch on? Huh. Huh? Only you don't tell her that!

So what do you do? You pledge to study every night for a couple of hours or so. Come study time—"well, I'm sleepy!" oS shorthand goes to the dogs, while you lay in blissful dreams.

Next day in shorthand teacher asks, "How many studied your lesson last night?" All but one raises their hand. Yeah. Guess Who! You! Lecture. Lecture. Lecture! It's all you hear for the next hour. "Teacher, honest, I'll study tonight."

Study time again! Also basketball time again! What? Miss it, and one is important as this "un" No siree, not me! I'll just tell teacher I did study. What she doesn't know won't hurt her!

Here you are in class again. "How many studied your lesson last night?" That old familiar call! Exerony raises his hand. Teacher looks over at you and gives you one of those "You'd better!" smiles.

On with the lesson. Dear old windbag calls on you! Huh, well, that-huh, golly Moses, teacher I studied, I don't know what happened to me, I just can't read it like I did last night! She gives you the eagle eye. "There was a basketball game last night, wasn't there?" "Yes'm." "Did you like it?" "Yes'm." Lecture. Lecture. Lecture!

Lordy, Lord, if only the bell would ring! The lifesaver of all times.

As you walk out of class, "I'll study tonight, by golly, if I don't I'll get another lecture."

Another study time! But that wonderful dance they're having the school tonight! And you did so want to go. Shorthand can wait till tomorrow and then you'll really give it a going over.

No! No! No! This could go on for days and days and days! And with you it probably does.

WINNERS OF WRITING CONTEST CHOSEN

The eliminations for the Ready Writer contest were held with a very representative group of the student body participating. Veda Sneed and Billy Jeane Armstrong represented the sophomore class... from the Junior Class came Charles Merrill, Kathryn Watkins, Marilyn Wittrup, Mary Halkias, and Jan Spalding. The Seniors were Anna Anderson, Barbara Patterson, Jack Turner, Alton Landry, Nelson Allison, Dorothy Sims, Gladeene Womack, Billie Hunt, and Ann Maddrey.

The judges complimented the students and said that all of the

themes were interesting. Gladeene Womack won first place with a theme on "My Experiences as a Girl Scout." "My Best Friend," written by Jack Turner, won second place and Dorothy Sims and Nelson Allison tied for third place. Dorothy's theme was a "Birthday Party" and Nelson wrote "My Best Friend."

A SENIORS THOUGHTS

You may think this is dramatizing the situation, but it is something to think about—this is our last year, as seniors, in the public schools. We, the upper classmen, have reached the end of the line. The "jig" is up so to speak! It doesn't seem possible that twelve years will have passed, they have sped so swiftly. After we walk out of this school this spring, and we hope to be graduates; we shall be shutting the door on one phase of our lives, locking it in our memories and throwing away the key. From thence onward we shall be but as outsiders looking in.

Since we were six years old we have trod the paths to and from the mythical "Little Red School house." Then, in a ceremony lasting from an hour or so, it will end. We have spent the most formative years of our lives, our childhood and adolescence, in attendance at school, and then we face the world. Some of us, at least, are puzzled. What are we going to do? Are we going to college? When will we see the people from home? What will we make new friends, and what will they be like? All sorts of questions will confront us and we will have only a dim conception as to the answers.

Up until now we have had our parents and teachers to guide and advise us. All people in life are not as concerned as they with one's every little problem. We will have to think for ourselves and make every decision. That will be the test of our stamina and character and fortitude.

So as we, the graduates of '48, walk through these halls with a feeling of superiority, feeling that we are the "big shots" of the student body, let us look into the crystal ball and picture ourselves this time next year.

Consider that after 12 years of preparation, overnight we will be given the finishing touches and

almost before we realize it, will be pushed, dazed and bewildered, into the hustling, bustling, and somewhat selfish world, with only school and home training to carry us on. "It will be a big moment—the test supreme."

THINK IT OVER

(Boys)

If you've had trouble getting dates maybe it's because you:

(a) Have been careless about grooming. Maybe you think that windblown hair looks rugged. Ten to one it resembles a well-used mop. Some shirts look nice worn out, but please, don't compromise none of this half and half business you don't have to look like a collar ad but on the other hand you don't have to resemble "Sad Sack."

(b) Need brushing up on your manners. You can be conventional without being considered a "pretty boy." Politeness is an asset to a boy but rudeness will show traits of ignorance.

(c) Have been going off the deep end. By this I mean, going with the crowd and doing things a high school boy should not do. Of course your private life is yours, but try to handle it wisely.

(d) Consider a girl just a date. Let's be honest! If you date a girl then you should be her friend. When you see her in school, or out, talk to her and show her you're sincere and not just a "one night guy"!!!!!!

(Girls)

If you've had trouble getting dates maybe it's because you:

(a) Are too presumptuous over a couple dates. Don't scare the poor fella away. Two dates and you think he's mad about you. Maybe 'tis so but let him spread the good word.

(b) Are worshipping him too closely. All right, so he's your dream man but do you have to be so obvious? Come on, straighten up and save some room on that pedestal for yourself—with him. If you don't, may I say "Hello, peasant!"

(c) Are trying too hard. You have that string chuck full, just in case. Better tie knots because they'll get away. Flirtations get 'em but only faithfulness will keep

'em.
(d) Lack a date conversational guide. Unless you have laryngitis from too many football games, this should be easy. Just talk about what every boy is interested in—himself. By the time you know what he's like, you'll know what to talk about.

HOW MANY TIMES \$10 WILL THIS PHOTOGRAPH BE WORTH?

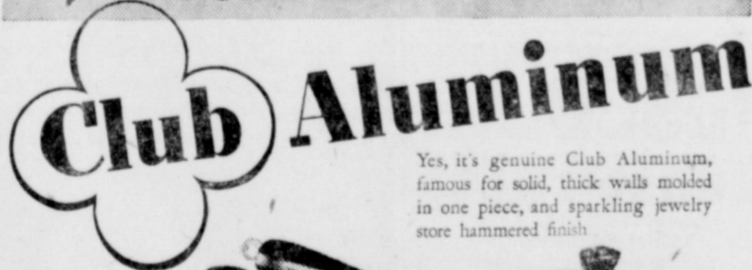

"How many times \$10.00 will this photograph be worth when he's a tow-headed boy in blue jeans starting to school? How much more when he's graduating from College? How utterly priceless when he, too, has a youngster who looks exactly like his Daddy did at that age! You wouldn't sell your baby's photograph for any amount of money. And yet you can have one made reasonably at Shultz Photo Studio. We understand babies — we catch the gleam in their eyes, that fleeting grin — and we catch it not for today — but forever."

all more or less on the same subject—Texas with a strong flavoring of Boyce House.

It's full of stories about Eastland, the people who live or lived here, tells in detail of the famous Santa Claus bank robbery, which happened in Cisco and wound up with a lynching in Eastland, tells the story of Old Rip, and has a lot of general Texiana in it.

Incidentally, Morris, whose article mostly is devoted to retelling stories House already has cashed in on two or three times in his weekly column, books, and radio program, says House's record as No. 1 Texas booster, author, speaker, and radio figure is impressive for a man born in Arkansas, raised in Tennessee and who has spent a mere 26 years in Texas, out of his total 50.

I imagine House resents this implication. As the chief booster for Texas, he would have to reply that any years spent outside the borders of his beloved native state by adoption just don't count, and he's really only lived 26 years. Or am I putting words in his mouth?

Spring Fever . . .
