OUR 1947 RURAL PROGRAM

23,000 telephones in Texas

There's lots doing these days in Southwestern Bell's rural territory. We plan to connect 23,000 telephones in rural areas in Texas this year, and construction work is moving ahead.

The job of bringing good telephone service to thousands of farms in our 250 exchanges is a big undertaking. It begins with a survey of each exchange to determine the kind and amount of construction required. Then farmers are interviewed, detailed plans drawn up, materials ordered, and when they arrive, the lines built and telephones installed.

The purpose of this planning, organizing, and building is dependable, up-to-date rural telephone service. It's the kind of telephone service American farmers need, and it's the kind of telephone service we plan to make available, sooner or later, to every farmer in our territory who wants it.

BETROTHAL OF MISS SPARKS TOLD AT FORMAL TEA

The approaching marriage of Miss Patsy Sparks, daughter of Mr. and Mrs. J. Frank Sparks, to Mr. Carl Butler, Jr., son of Mr. and Mrs. Carl Butler of Olden, was an-nounced at a formal tea given by Mrs. Sparks at the Woman's Club Thursday of last week, June 12.

Mrs. Guy Parker and Mrs. Joe Stephen alternated in greeting the guests at the door. Just inside they were received by the hostess, the honoree, Miss Sparks, and Mesdames Carl Butler, L. C. Brown, W. R. Eppler of Abilene, and W. B. Collie, and Miss Ann Harral of Breckenridge.

Directing the guests to the bride's book, which contained a picture of the bride-elect, was Mrs. W. P. Leslie, in a lace dinner dress.

Miss Marjorie Van Hoose and Mrs. Earl Bender alternated in pre-siding over the register. Mrs. A. F. Taylor ushered the guests to the tea table, which carried out the white and silver theme. Presiding at the table was Miss Kathleen Collie and Mrs. Wallace Hooper of Abilene. Tea plates were passed by Misses Ann Love and Ethel Sparr and Mesdames Martin Jean Morton and Dillard Morgan, who served heart shape molds of ice cream centered with pink cupids. They were assisted by Mesdames Guy Patterson and Earnest Halkias.

The tea table was laid with an Italian cut-work linen cloth, and with crystal and silver appoint-ments. White gladiolas formed a background for the pair of hand-made white satin hearts, on which the words, "Carl and Patsy, June 28" were inscribed in silver letters.

The hearts standing on easels, were flanked by white tapers burn-ing in antique crystal holders with Czechoslovakia prisms. Casading from the hearts down the length of the table, and ending in tiny satin bows with pink centers was a white satin ribbon representing the bridal aisle. A miniature bride stood in the aisle looking toward the small silver wedding bells which were placed at intervals along the length of the aisle. Pink and white mints were in duplicate crys-tal containers. A large tray held the cakes iced in white.

Music was furnished throughout the evening by Miss Mary Kather-ine Hoffmann, in white evening gown with ostrich trim, who sang "Moonlight and Roses" and "Indian Love Call," the latter being the theme song of the Ko Shari Club at Texas Tech, where the bride elect attended school last term. Mrs. Annette Miller, dressed in pas-tel pink, sang "Mifanwy—To You," and "By the Bend of the River."

The vocalists were accompanied by Miss Martha June Morehart at the piano. Mrs. Morton and Joe Stanley Stephen played appropriate music on the piano at intervals throug-hout the afternoon.

The house party presented an array of color in their pastel frocks with harmonizing corsages compli-ments of the hostess. The hostess wore a dainty printed draped even-ing gown. Mrs. Butler wore an aqua lace dinner dress. The honoree wore an ice blue net and satin gown with ostrich trim, with matching blue flowers in her hair. The clubroom was decorated with white gladiolas in pastel con-tainers. Goodbys were said at the exit door by Mesdames Fred Maxey and Frank Crowell. Several parties are being planned for Miss Sparks.

The wedding will be held in the Sparks home in Hillcrest at 7:30 p. m. June 28.

Leonard Todd, student of Hardin-Simmons University at Abilene, spent Saturday and Sunday here with his mother, Mrs. Obara Todd, 412 West Plummer Street. Sunday Mrs. Todd and her son visited Mr. and Mrs. J. R. Todd at Gorman.

Your Cost of Living is a PENNEY problem

Maybe we ought to say it's THE Penney problem—that's what we built our success on. We make it our business to think about getting the things you need, at prices you can afford. We don't have "sales". Why should we, when we sell at lowest cash prices EVERY day! When prices zoom, we fight to keep them down. When prices fall, they fall for YOU—fast and low—at Penney's. Millions of hard-working American families know this. They are our customers—the backbone of our business.

Constant Food Protection Your electric refrigerator is waging a continuous war against food waste in your home by providing constant temperatures of forty degrees and below—the food safety zone. 2. Economical Operation Electric refrigerators have long enjoyed an enviable record of economical operation. Operating costs of new electric refrigerators now making their appearance in ever-increasing numbers average well under one dollar a month. 3. Dependable Service More than half the electric refrigerators now in use are eight or more years old. Many electric refrigerator owners have refrigerators that have never faltered during their years of dependable day-and-night service. HELPFUL HINTS FOR BETTER REFRIGERATION • Don't place hot foods in your refrigerator. Let them cool first. • Don't open the refrigerator door more often than necessary. • Defrost frequently, at least once a week. Thick frost lowers efficiency. • Leave space between refrigerator and wall to allow air to circulate. TEXAS ELECTRIC SERVICE COMPANY

What's Back of the Big Swing to Nash?

EVERYWHERE today, the swing is to Nash. You see it on the highway, in your neighborhood. In city after city, leading dealers are handling Nash.

And listen to the "talk" about new cars . . . the fine performance of the 1947 Nash "600" . . . its big car economy of 25 to 30 miles on a gallon at moderate highway speed . . . its single-unit body-and-frame.

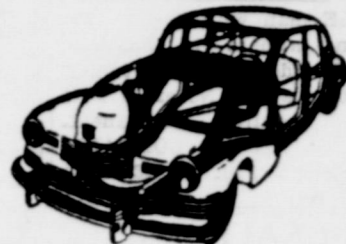

The talk is about Nash Conditioned Air—automatic fresh air heat, and ventilation . . . banishing cold, dust, drafts and smoke from motoring forever!

The talk is about the room in a Nash—extra head-room, seat-room, leg-room—the big double bed you can have in the back.

The talk is about easy handling . . . the wonderful ride of coil springing at all four wheels. And the talk is about value—a Nash "600" is low in price.

This, then—is why Nash popularity is breaking all records. See your dealer now, drive a new Nash "600," or its running mate, the Nash Ambassador.

The Unitized Body-and-Frame

Product of Nash research and engineering, new Unitized body-frame construction sets the pattern for tomorrow. Built a new way, with frame and body welded into a single steel-girdered unit, it is lighter and immeasurably stronger. 8000 spot welds eliminate weak body bolts and noise-making joints.

See your Nash dealer, too, for the kind of modern automobile service you've been waiting for.
