**We're disappointed, too . . .**

Most of us have been on various waiting lists for one thing or another longer than we like to remember.

Railroads are no exception.

The Texas and Pacific has been on a waiting list since May, 1945, when orders were placed for the new lightweight passenger trains.

These fine, new trains . . . the TEXAS EAGLE and the LOUISIANA EAGLE . . . were scheduled to be put in service in 1946. Here it is October, 1947, and we do not have a single chair car, diner, lounge or sleeping car!

To say that we're disappointed is putting it mildly. We had every reason to believe that long before now these modern EAGLE trains would be in service. You're probably disappointed, too, as you have a right to be, for we've told you a number of times that we expected to place these trains in service many months ago.

The equipment manufacturers are keenly disappointed, too. Their promises were made in good faith, but shortages of materials, work stoppages and other conditions have retarded production schedules. Time and again they've had to revise their delivery dates.

But now the manufacturers are confident they're over the production hump, and they say it won't be long before some of the cars will begin to roll. We now have their assurances that deliveries will start in November, 1947, and be completed in April, 1948 . . . and the new cars will be placed in service as fast as they arrive.

To refresh your memory, there are 48 cars on order—sleepers, lounge and club cars, diners, chair cars and the usual complement of express, baggage and mail equipment.

We're extremely sorry that you've had to wait for these fine, new trains, but when you see and ride them, you'll agree they were worth waiting for.

## Light Up--- Cheer Up

ALL THE LAMP BULBS YOU NEED ARE AVAILABLE NOW!

Plenty of bulbs in all types and sizes will provide Better Light for Better Sight. With shorter days and longer nights ahead, it's time to stock up on your bulb supply. It's also a good time to check your home lighting. You'll probably be surprised at the number of empty sockets and the many places where light is inadequate. Empty sockets are useless and wrong size bulbs mean poor lighting as well as eyestrain.

### Fill EMPTY SOCKETS

Fix the bulbsnatchers in your family by filling all empty sockets and replacing burned out bulbs. With the supply of bulbs plentiful, there's no need for blacked-out halls, closets or corners anywhere in the house.

### Use RIGHT SIZE BULBS

For easy, comfortable seeing, use the proper size bulb for the lighting job to be done. Make sure that every member of your family has the best light possible for work, study or recreation.

### Buy SPARE BULBS

For your own convenience, buy lamp bulbs by the half-dozen or dozen. Burned out bulbs can be replaced easily and quickly when you have an assortment of spares on hand.

Most stores sell Lamp Bulbs — put them on your shopping list today.

### HOMEMAKING GIRLS GO TO STATE FAIR

Saturday was a great day for most of the F. H. A. girls as the long awaited day of the trip to the State Fair finally rolled around.

The girls boarded a chartered bus at 5 a. m. and arrived at Dallas at 8:30 a. m. They were honored with a luncheon by the Dallas Chamber of Commerce. All the girls enjoyed the entertainment, and it was said that the sponsor, Miss Morris, had as much fun as the students. Several girls visited friends and relatives and attended movies. Several Cisco girls accompanied the Eastland group. Tired, but happy, the girls arrived home at midnight, loaded down with souvenirs.

### SENIOR SPOTLIGHT

Stand by, hail and hearty classmates! A report has just come over the wire on our almighty secretary, Jan Spalding. If we look into the future we will see Jan as one of the most famous doctors in the world. Now folks, here is a review of the mighty Senior.

Jan is about 5' 6". She just refused to give her weight, but if you ask me, she has a pretty neat figure. Her hair is light brown and she has beautiful green eyes. Quite often we see her in blue and sometimes green, which are her favourite colors. But you should see the pretty red she turns when asked about Eddie (he's in Tech!).

Like all worthy students of E. H. S., Jan's favorite sports are football and basketball. She plays guard on the basketball team and is one of our star players. When asked her pastime, she just sighed and said, "Loafing." Jan really swoons when she hears "I'm Always Chasing Rainbows." Since she stated no special food, it would appear that she just likes to eat.

Jan is a member of the Sub Deb Club. She was our nominee for Queen her Sophomore year. I don't think we could have picked a more popular and perfect girl for the race. In our opinion she will always be queen.

Let's all wish happiness and success to a really swell and wonderful girl, Jan Spalding, who deserves the best.

Yea, Seniors!

### JUNIOR SPOTLIGHT

The mighty Junior Spotlight is turned this week on the class sponsor. She has big blue eyes and brown hair. She is a teacher of sophomore English, Latin and Biology. ### FATHER JIM'S TEEN CANTEEN

On Saturday night, Oct. 4, the canteen was opened with a Paul Jones. Regular dancing followed after this. The square dance was conducted by our friends Mr. and Mrs. Victor Lawson of Cisco.

Some of the boys are being taught to call square dances.

The movies were shown and were very good. A baseball quiz was held and many good prizes given. We want to thank Father Jim for his new recreational night for teen agers.

HERE IS A 4-UNIT DIESEL FREIGHT LOCOMOTIVE NOW OPERATED BY 2 MEN (1 ENGINEER AND 1 FIREMAN)

2 BRAKEMEN AND 1 CONDUCTOR COMPLETE THE CREW OF THIS TRAIN [One brakeman usually rides in the locomotive in freight service]

—BUT THE UNION LEADERS WANT 15 EXTRA "SITTERS" ON THIS TRAIN... 3 ENGINEERS, 3 FIREMEN, 6 BRAKEMEN AND 3 CONDUCTORS... TO GO ALONG FOR THE RIDE AT FULL PAY!

It's to your interest to know about this proposed

# feather-bedding!

For sheer feather-bedding, this mock work proposal takes the cake. But it is only one of 44 "rules" demands filed by the leaders of the operating unions. If all these demands were granted, they would cost the railroads an added BILLION DOLLARS A YEAR.

### Increased Wages, Too

On top of these "rules" changes, the leaders of the operating unions have filed an additional demand for a wage increase of over 30 per cent. If granted, this would be an added cost to the railroads of \$400,000,000 a year.

### \$468,000,000 To Non-Operating Employees

In addition to this, an Arbitration Board has just granted a wage increase of 15½ cents an hour to the million employees represented by the 17 non-operating unions. This will cost the railroads \$468,000,000 a year.

### Where Will The Money Come From?

Where will all the money come from to pay these increases? They total several times as much as the railroads made in 1946 or will make in 1947.

In July, the railroads filed an application for increased freight rates to close the gap which then existed between wage and material costs, and railroad revenues. Since then it has been necessary, because of further increases in wages and material costs, to supplement that petition and to ask for an additional freight rate

increase. No other course is open.

### Railroads Do Not Run For Employees Alone

Railroads are operated for the benefit of not one, but several groups—shippers, passengers, employes, stockholders, and the general public. The interest of all must be served—and that cannot be done unless the railroads can operate efficiently and economically, and unless they are allowed to earn sufficient revenue to provide the kind of transportation service this country MUST HAVE.

We are publishing this and other advertisements to talk with you at first hand about matters which are important to everybody.
