Three Ex-Eastland Gridders Enroll At Hardin-Simmons

ABILENE — Three members of the 1947 regional champion Eastland High Mavericks have joined forces with the Hardin-Simmons Cowboys and have enrolled for the spring semester at the Abilene school.

The trio, Bobby Blair, Wayne Lambert and Dick Sparks, were members of a delegation of more than 10 West Texas High School stars who enrolled at the university and moved into Cowden-Paxton Hall, the home of the Hardin-Simmons athletes.

Blair, 170 pound back, lettered three years for the Mavericks under coach John Little, and gained four letters each in basketball, baseball and track, with a little tennis thrown in for good measure. A physical education major, Blair is the son of Mr. and Mrs. B. G. Blair.

Lambert, a 185 pounder, also lettered three years in football with the Mavericks. One of the more promising guards to enroll at Hardin-Simmons, Lambert is the son of Mr. and Mrs. B. W. Lambert of Eastland.

Sparks, a 148-pound 17-year-old back, earned letters in football, basketball and track before enrolling at the university. He is the son of Mr. Frank Sparks.

Coach Al Milch has announced that spring football workouts for the freshman gridders will begin in April. Milch, 1946 All-Border Conference guard for the Cowboys, came to Hardin-Simmons in January to take over coach duties of the first freshman team since 1941. Milch coached the 1947 season at Roscoe High School.

FOOTBALL BOYS HAVE PARTY

Mr. Little
The 1947 Mavericks gave Coach a surprise farewell party on Friday, March 5, at his home. Captain ...

the best of everything to a girl who is really tops. Patsy Safley. YEA SENIORS!!

JUNIOR DUKE AND DUCHESS

As you look back through the history of Eastland High you will find there have been many people to come out all right in life. Many of the classes were popular but none can compete over this of the Junior class of '48. This year's coronation was an example of how the Junior class went to its height. Our Duke, Kenneth Norris Benham, and our Duchess, Nancy Lynn Harkrider, are among the ones that were paid notice.

First, we will let you know why we think so much of Kenneth and Nancy. For Nancy, she does not show up very well because she only measures to be 4 feet 11 1/2 inches and only weighs 100 pounds, but don't let this get you, because she gets around better than any one you would think of her size. To get down to the subject quickly she has blonde hair and blue eyes. Among her favorites are blue, and she looks quite well in it. In baseball season, you will see her playing because she loves it. When it comes to relaxing for awhile, she is listening to Tommy Dorsey and her record of "Stardust." The movie that seemed to be the one she liked most was "It Had To Be You." She would like to see Dana Andrews or Lana Turner play any old day. For the voice she'll take Bing Crosby. For her food she chooses fried chicken. The more educational subject of her notice is English and as for "Teach" Johnson she tops them all. Last but above all not least, is her chief interest for the present, No. 17 on the Mighty Mavericks of '47, better known as Jimmy Mathews.

"I'm sure after you've heard this that you think you wouldn't mind getting to know Nancy better, so when you meet her just remember she is a Mighty Junior of Eastland High. Now what everyone thinks of Kenneth is quite good, because he is very friendly to everyone.

If you haven't met him you have probably seen him buzzing around in a '47 Studebaker and for the color it is "Maroon." This wonderful character is 5 feet 8 inches and tips the scales at 145 pound. His hair is blond and he has pretty blue eyes. Among his better notices are the patriotic colors of red and black. As for this sport, first he will take football, but next is calf roping. I've heard he's pretty good at it, too. One odd thing is that his pastime is chopping wood—can you imagine this? From what we hear, Jack Kelly is coming up in the world as voice so he is the favorite of Kenneth. For the band, that takes his breath away is Benny Goodman. The song that is tops on his list is "Golden Earrings." You will probably see him eating meat balls and spaghetti, as he says he likes them pretty good. The movie that he liked was "Killer McCoy" and as for Humphrey Bogart and Susan Hayward, they just can't be beat. His favorite subject is typing and as for his teacher, it is none other than Mr. Seibert.

Among his further plans, his ambition is to become the world's champion calf roper, and of course we all wish him luck. For the future if he ends up right he wants to become a veterinarian.

Here's wishing two swell people from a wonderful class all the luck they deserve, and that goes a long way.

YEA JUNIORS

FRESHMAN NOBILITY

This is the last of a series in which we have told you about the Freshman members of the Royal Party. This Royal couple is a boy with hazel eyes, brown hair, and a girl with blue eyes and blonde hair. Yes, its those popular Freshmen, Doug King and Margie June Poe.

Taking the latter first, this cute Fish is five feet two inches tall and has a long list of favorites.

In EHS, Margie's favorites are English and Science, and Mr. Seibert and Teacher Morehart. Her favorite movie is "Good News," and among the stars, June Allyson and Alan Ladd are tops. Among the odds and ends are the color blue, the sport football, and the pastime reading.

Margie is a member of Double Seven, Rip and Sip, and Beethoven Clubs, and her steady boy is Bobby Womack.

Our Duke from the House of King, William Douglas, is five feet three inches tall and weighs 129 pounds. He's an Aggie clear through, so his favorite color is maroon. His favorites in sports are football and track. Mr. Seibert is his favorite teacher and General Science is his favorite subject.

Looking to the west, we perceive his favorite movie: "The Secret Life of Walter Mitty" and his favorite stars, Lana Turner and Douglas Fairbanks, Jr. The top song with Doug is "I'm Looking Over a Four-Leaf Clover." Doug's top pastime is, to quote, "Having a good time with a bunch of boys." Again we quote him on food. "I just like all of the wonderful stuff."

Let's wish all the luck and success in the world to two swell Fish!!!

TWIRP WEEK AND DANCE

Last Friday night, the Socialite Club gave a Twirp Week Dance. It was a wonderful success, and everyone had fun. It was a little hard to get used to the idea of the girls asking for dances, but it was a lot of fun.

The music was very good, and the girls were not bashful, so there was really a lot of dancing. Twirp week wouldn't be good for every year, but for Leap Year it would do well.

The girls were glad when it was over, because their funds were getting pretty low. In a way it was very good for them, because it made them realize just how much the boys do spend. Of course, there were some boys who ordered steaks every date, but on the whole it was not too expensive.

Too bad the boys don't get dates like the girls did. (That wouldn't be a hint, would it, girls?)

TEEN CANTEEN

Father Jim Night last Saturday was another success. There was a good crowd, and some new faces were seen.

A juke box has been purchased by the canteen, and many new records were bought. Although it was not loud enough last week, it will be repaired by next week.

HOMEMAKING NEWS

On Monday of last week we discussed patterns, and the way to read them. In the first of the week we started laying our patterns on our material, pinning etc. We are making pajamas. At last we started cutting the material. All this cutting produced little pieces known as backs, fronts, belts and yokes. Before we stitch the pajamas we will have to baste, of course, and then maybe we will have some beautiful work. If we

don't, we'll at least have more knowledge to do better next time. Homemaking is fun! Three cheers for Miss Mooris.

LATIN CLUB

On the fourth Friday of every month the Latin II club meets at the second period. There is a program first and then refreshments are served. Last Friday Stanley Stephen and Janell Day ere in charge of the program.

The program is obtained from the Auxilium Latineum (Latin Aid) magazine to which each member subscribed. All the magazine is in Latin and all subjects must be translated into English. This program consisted of a biographical sketch of Rita Hayworth, an article on the Freedom Train, brief facts, a story, "The Mother Bear Come to the Rescue" and various jokes.

After the program, delicious re-

freshments were served. These were sandwiches brought by Stanley, a cake brought by Janell and cokes. Each teacher in EHS got a piece of that good cake.

Also during this period we went to Junior High to see Mrs. Stephen's Chinese exhibit. We enjoyed it. Mrs. Stephen thanks for asking us.

ORCHIDS AND ONIONS

Orchids to Mr. Atwood. Onions to all the people who weren't at band practice. Orchids to Mrs. Taylor's assembly program.

Onions to the rain. Orchids to Latin II Club. Onions to the people who didn't participate in Twirp Week. Orchids to all the steadies. Onions to lazy people, that means YOU. Orchids to the way the boys accepted Twirp Week.

Orchids to Mrs. Woloszyn.

We Present Another Item — FOR — THE RECORD

Reading The Record is a habit a lot of people have gotten into, and we like to believe, of course, that it's a good habit.

If you've been downtown in Eastland on a Friday afternoon, you may have noticed the newsboys scurrying hither and yon selling copies of The Record. Do they sell them? Of course they do!

We take a lot of copies of The Record to the drug stores, too — and almost all are sold. Then quite a few people drop by our office and buy copies.

What we're getting at is that people WANT The Record — and when they get it, they read it thoroughly. That's our angle — putting out a newspaper that people want and read.

If you're not a regular Record reader, we urge you to come down and sign up, or send us the \$2 with your name and address, and you'll be on for a year.

We haven't run any fancy subscription campaigns, and we don't give away any premiums when you subscribe — and we don't intend to. At today's prices we think our newspaper is a pretty big bargain at \$2 a year in Eastland County — the same price it was when food prices were half what they are now.

Our mailing list is large now, but we have obtained enough newsprint to increase it somewhat, and that is the reason for our asking new subscribers at this time.

Make a habit of reading The Record, and keep up with things in Eastland County!

I GIVE YOU TEXAS
By Boyce House

Almost 25 years ago, Brady sent out a motorcade to extend an invitation to the sheep and goat raisers to attend the convention which was to be held that year in that city and I went along, being in those days a young news-gatherer for the old Fort Worth Record.

Just as soon as the motorcade—consisting of about 20 cars with nearly 100 persons—came to a stop in the first town, somebody stepped out of the waiting crowd and asked, "Where is Boyce House?" When this had happened four or five times, the other motorcaders—none of whom had ever heard of me until that trip—began to be impressed.

Fact of the matter was, I had written to the mayor or Chamber of Commerce manager in each town and said that if he'd see me and give me a few interesting facts about the place, I'd include it in the writeup!

That was the same trip that a fellow newspaperman imbibed rather freely across the Rio Grande and when he got back to the hotel, gave me his pocket book to keep for him. Next morning, he'd forgotten all about it; told me he'd been robbed and when I told him I'd be glad to make him a loan and he eagerly agreed. I pulled out his pocket-book and handed it back to him to his great surprise and delight. Then there was another newspaperman and he had just raised the water bottle for a drink when the car hit a chug-hole and he almost strangled. We pounded him on the back and at last he gasped, "Don't tell anybody; they wouldn't believe it was water—or else they'd say I was so unused to drinking water that it strangled me."

Tragedy threw its shadow across the trip. In Del Rio, an attorney gave the address of welcome and then we "fell to" on the barbecue dinner. An hour or so after the speech, the attorney was stricken with a heart attack and died.

At Sonora, there was a dance on a platform in the center of town and it was quite a scene to

hear the fiddles going and see the cowboys clumping about the dance-floor in their high-heeled boots.

A citizen told a story of a shooting which he said had taken place in the town's wild-and-woolly days. Two men were playing a game of pool one night. One player stooped over the table to make a shot, and the instant that he bent, a bullet came through a window and killed his adversary.

Quite an interesting experience was that Brady motorcade. It doesn't seem like towns have them, any more.

It has been said there are only 14 people in the world who can understand Einstein's theory. Well, here is an explanation of that theory, in Einstein's own words:

"When you sit with your girl an hour, you think it's a minute. When you sit down on a red-hot stove for a minute, you think it's an hour."

"That's relativity."

A good many years ago, traveling with a candidate for governor was a group of newspapermen representing their respective papers and one of these newspapermen looked like the candidate. This reporter however was for the other candidate. So, after a speaking, he would go into a beer parlor, drink a schooner, then come out and stand right in front of the door for half a minute so that anybody on the street could see him.

Next day, it was all over town that Candidate Zilch had been seen coming out of a tavern and wiping his mouth on the back of his hand—and so all the "drys" voted for the other fellow.

Which was exactly what that

newsman had wanted to happen, of course.

A friend was telling me about going to a city and the hotel room he got was so small that if you dreamed it would have had to be about midgets.

Some weeks back, this column made a favorable reference to that great guy, Jimmy Durante. Well, sir, soon afterward, here came a letter of thanks from Durante. Such appreciation is one of the reasons why he is where he is today, a top favorite of screen and radio.

A deed that you might consider so light a thing that by tomorrow you will have forgotten it may yet have untold effect on the whole life of some youth.

When I was attending high school in Memphis, Tenn., the Memphis Press published a "feature story" about a young tax assessor out west who had unusual ideas on taxation. I wrote him a letter and he replied, making a suggestion which, indirectly, led to my becoming a "cub reporter" on the Commercial Appeal and to a career as a newspaperman.

So when my newest book, "Cub Reporter," was published, I wanted to present a copy to my benefactor of so many years before—if he was still living. I recalled

that his name was Knapp and that he lived in Pueblo, Colo. So I wrote to Lloyd Wilson (who used to be manager of the Waco Chamber of Commerce and before that at Vernon); he's manager of the Pueblo C of C and he enlisted the aid of the Pueblo Chieftain. After the news item appeared, Knapp wrote me. Oddly enough, he had moved away from that city about the time I was entering newspaper work and he lived in Utah, Iowa, Minnesota, Arizona and Missouri (engaging in newspaper work himself) and had returned to his old home state. And so a copy of "Cub Reporter," suitably inscribed, was sent to the man who, by answering schoolboy's letter, helped to shape an individual's destiny.

For several years, we have been publishing up-to-date and authentic reports of tests conducted by experiment stations to determine the best material to use in treating Seed Peanuts to improve germination after ACTUALLY PLANTED. The following tests were made under planting conditions the same as yours. These reports have just come to us and are outlined below for your information and guidance in purchasing your seed.

From the GEORGIA AGRICULTURAL EXPERIMENT STATION, Experiment, Georgia
FEBRUARY 23, 1948

A letter from this experiment station dated Feb. 23rd, is quoted below: "We have not yet assembled or published our results from peanut seed treatment tests during the past several years, however, we have not obtained any results which would change our recommendations. At the time of our last publication in which we recommended 2% Ceresan, Arasan and Spergon in the order named. These three have held their relative position and relative superiority to other materials in partially every test. With peanut seed stock of low vitality, we have found that 2% Ceresan is significantly superior to any other seed treatment material." (End quote).

The above two reports are from two leading experiment stations most interested in seeing that farmers get good stands of peanuts. Please note the last paragraph of the letter from Georgia. On seed peanuts that are of low vitality — in other words, slow in germinating or of rather poor seed stock, CERESAN has been found to be even more valuable over other treatment materials, in helping these seed to stay longer in the ground without rotting.

We are now booking our seed at 23c per lb. treated with either Ceresan or Arasan. We have three sizes — Graded No. 1's, 2's and Pee Wee 1's. These peanuts will be graded very close for size and uniformity. We have always stressed proper sizing of our seed and have been pioneers in producing uniform seed for easier and better planting. Our price is guaranteed against decline of legitimate shellers in this section. Book your seed now with us or our dealers for you have everything to gain and nothing to lose.
