Athletes Know the Benefits of Heat Lamps Electric HEAT LAMPS ARE KEYS TO BETTER LIVING Take a tip from athletes and their coaches and trainers—they all know that one of the best ways to get quick relief from muscle aches and pains is by applying the relaxing, soothing heat of an electric heat lamp. Severe sprains all react to the penetrating heat of heat lamps. Electric heat lamps have many other uses around the home, too. For example, they dry fingernail polish, paints and lacquers rapidly. And best of all, they fit any standard lamp socket. No special stands or holders are needed, unless you prefer them. TEXAS ELECTRIC SERVICE COMPANY J. E. LEWIS, Manager

19 to 1 YOU ROAST IT WITH GAS For 19 out of every 20 tables in the homes of America, Thanksgiving turkey will be roasted with gas. And the range will do all the work for owners of new automatic gas ranges. New automatic gas range lights itself. It automatically maintains exact low temperature that minimizes shrinkage. The constantly circulated, evenly distributed heat roasts turkey to juicy tenderness. Best of all, there's no stooping or peeking. New automatic temperature and clock controls let you cook without watching. No wonder it's 19 to 1! SMART COOKS KNOW GAS has got it! CRANBERRY JELLY (Non-Collapsible) Into 2 cups boiling water Drop 4 cups cranberries (1 lb.) Cook 6 to 8 minutes or until cranberries pop. Remove from flame, press through a sieve, add 2 cups sugar Return to flame and bring to a full, rolling boil. Pour into hot glasses or molds. The secret of making this recipe lies in making it in the small quantity given here.

What do YOU want most when you travel?"

"Who, me? I want lots of schedules... and prompt arrivals..."
 Then Greyhound's for you. There are many departures daily, timed at most convenient hours.

"Everything's so high these days — I want to save money!"
 Lady, you'll save real money on every Greyhound trip! Fares are lower than any other form of transportation.

"I'm interested in getting home from school week-ends."
 Then go Greyhound! It serves hundreds of schools and colleges in all 48 states.

"I like to see things, meet interesting people, have a good time."
 It's truly more fun traveling Greyhound—you meet so many congenial people.

"I'm a salesman... I have to stop at all the little towns!"
 Well sir, Greyhound's going your way! Its Super-Coaches serve all the big cities—thousands of small towns.

"I'm way past 50— just give me comfort, relaxation."
 There's real riding ease in deeply-cushioned chairs. Drivers are world-famous for safe operation, courtesy.

BEST ABOUT EVERY ONE I've asked has a different answer to that question!

If your reply is like any of the ones above, there's one sure way in which you can save quite a lot of money, and have a better time—on almost any out-of-town trip. Get on a Greyhound.

And, if you have some other pet preference, when traveling, my guess is that Greyhound will come nearest meeting it, too—in Super-Coaches built for long-ride, all-weather travel ease.

The best way is to phone, or call on your Greyhound agent, next time you plan a trip anywhere in America."

West Ward P.-T.A. Hears Of Work

"The Home" was the subject for a talk by Mrs. Curtis Koen at the meeting of the West Ward P.-T.A. last Tuesday.

Mrs. Jack Lee, program chairman, introduced the speaker and a group of students who played piano solos, including Virginia Ray McCord, Don Smith and Juan Jay Smith.

A gift purchased by Mrs. Koen was presented to Mrs. Gattis and Mrs. E. Corbell for the efforts put forth on the carnival to make it a success.

It was announced that swings have been installed on the school ground through the efforts of Otis McDonald, Curtis Koen, Eldress Gattis and Jeff Chenault.

U. S. Advertising Drive Launched

Washington, D. C.—An all-media national advertising campaign for a better understanding of the American economic system has been launched today by the Advertising Council.

"This campaign is, to us, the soundest information campaign against Communism yet devised—and I think it is noteworthy that it scarcely mentions the word," said Charles G. Mortimer, Jr., vice president of General Foods Corporation and chairman of the Advertising Council.

"To the best of our knowledge, this is the first time in history that representatives of all segments of society—management, labor, education, religion, social service, agriculture—have gotten together on an economic credo."

All of the Advertising Council's facilities, which include every major medium of advertising—newspapers, magazines, car cards, outdoor, radio—will be used in this year-long information campaign.

The project is based on a 10-point platform unanimously endorsed by members of the Council's public policy committee which emphasizes the principle of expanding productivity as a national necessity. A series of 11 advertisements, signed by Paul G. Hoffman, (formerly president, Studebaker Corp.) representing management; Boris Shishkin, American Federation of Labor economist, representing labor; and Evans Clark, executive Director of the Twentieth Century Fund, representing the public, have been prepared for magazines and newspapers.

More than 200 advertisements were submitted by the volunteer advertising agencies—Batten, Barton, Durstine & Osborn; McCann-Erickson; J. Walter Thompson; and Young & Rubicam—before eleven were selected. A twelfth is in preparation.

Included in each advertisement is a write-in offer for a booklet, "The Miracle of America," prepared with the cooperation of the Twentieth Century Fund. This booklet explains in the language of the laymen what makes the American economic system work.

National advertisers have been asked to devote as much of their advertising allotments as possible to the "Miracle of America" campaign. General Foods and General Electric have already pledged \$100,000 worth of advertising space to the campaign and other companies have also given assurance of support.

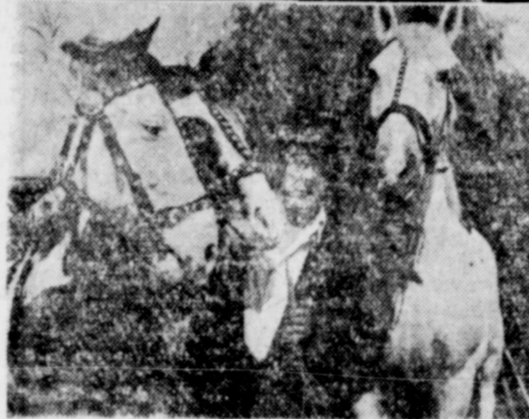

To provide maximum impact for the campaign, the Council has scheduled one advertisement for each month of the year which will be repeated in as many publications as possible by the companies who have pledged advertising support.

Colds Are Spread Easily, Is Warning

AUSTIN— Sudden seasonal changes in the weather during the fall months often result in chilling, which in turn is usually followed by wide-spread incidence of the common cold. This disease always spreads rapidly because of the fact that very few people can live isolated lives and in any group or crowd of people, coughing, sneezing and spitting will scatter millions of cold germs among susceptible persons.

Dr. George W. Cox, state health officer, says that there are countless ways of spreading a cold other than by coughing, sneezing and spitting. "For instance" the doctor said, "if a member of your family has a cold and the other members share a common drinking glass with him, you may expect the whole family to pick up the germs he leaves on the glass. Sometimes a person with a cold thoughtlessly touches his mouth or nostrils with his hand, and then shakes hands with another person. That person can, and very likely will contaminate his own mouth or nostrils with his hand, and the germs are transmitted into his system. A child with a cold may contaminate his toys, and the next child that picks them up and plays with them will certainly obtain the cold germs, along with the toys."

Children, as well as adults, who are suffering from a cold should be put to bed, and if complete rest, light food, and plenty of liquids do not improve his condition in a short time, the family physician should be called. Dr. Cox further advised that dressing properly for the weather, sensible eating, plenty of rest, and avoiding persons with colds can be helpful in preventing your own infection. Colds are costly in time, health, and money, the doctor said, and added, "Prevent them if possible."

 In order that we shellers may supply you desirable seed peanuts next spring, we must have peanuts that are thoroughly cured before placing in storage, as green peanuts will heat when bulked. You farmers are not gaining anything when you sell your peanuts green, to some sheller, and permit him to dock you for excess moisture. There would be no dock if your peanuts were dry. McCULLOUGH'S PARENTS OF INFANT SON

Mr. and Mrs. Clifford McCullough are the parents of a seven pound, 13 ounce son born Thursday of last week, Nov. 11, in the Ranger General Hospital. The baby has been named Thomas Wayne.

Mr. and Mrs. W. B. Pickens met their daughter, Bettye, who is attending the University of Texas, in Fort Worth last week end for the Texas-T.C.U. football game. The family visited in the home of Mr. and Mrs. C. W. Geue.

"Gives You Texas"

Joe Naylor of San Antonio has made an outstanding success as a publisher. Some of the books bearing the Naylor imprint have achieved great sales and have received praise from such far-away journals as the New York Herald-Tribune, to name one.

But not from the Dallas News. Lon Tinkle, the college professor who edits the News' book page, seems to have a policy of ignoring Naylor books or "damning with faint praise."

Which leads up to an incident this summer at the Writers Conference in Corpus Christi where Tinkle told of a visit to New York, where he was introduced to Harold Ross, editor of that clever and sophisticated magazine, The New Yorker. Ross acknowledged the introduction (said

Tinkle) with:

"If you are from Texas, where is your manuscript?"
 And then Ross said in substance, "Texas is writing and producing perhaps more good books than any other part of the country."

Tinkle having completed his story, then presented different notables to the Writers' Conference. When he presented Naylor, the publisher responded with a verbal punch that, in prize-ring parlance, he "brought from the floor." In a tone that sizzled with sarcasm, Naylor said:

"It should not have been necessary for you, Mr. Tinkle, a book page editor, to have to go all the way to New York to find out that good books are being written and published in Texas."

The audience gasped, then laughed and applauded. Tinkle staggered back as though the words had been a blow.

That round, at any rate, was Naylor's.

All that a Texan wants is what is coming to him—not any less but not a bit more. But some are receiving more than they are entitled to because of the greater
