Are You "Hobby Happy?"

Funny thing about hobbies ... When Ed Carey started making a model of the "Flying Cloud," it was only to rest his eyes from reading. But now he spends every spare

moment ship modelling! Some wives might have resented a husband suddenly shutting himself in the attic every night. But not Ed's Prudence. When she found him working late, she brought him up some beer and crackers ... showed a real interest in his hobby

... until finally Ed had her helping

with the rigging.

Wasn't long before they were working side by side on Ed's bench, sharing a common interest. Instead of keeping them apart, Ed's hobby brought them more together.

From where I sit, a husband's hobby can often be a wife's as well. In fact, I've got the missus interested in tying trout flies-and, along with that mellow glass of beer, it makes the evenings go by
