Marshall Opposes Repeal Of UN Veto

CONVENTION HARMONIOUS THROUGHOUT

The Eastland County Democratic convention meeting in Eastland Tuesday afternoon was a very harmonious affair—not one dissenting voice was heard to anything that was said or done—each and every motion and resolution was passed unanimously.

The nearest thing to an objection was when Ed A. Cox of Eastland, listed as a delegate to the convention from Eastland Precinct No. 1, started to object to the seating of delegates from that convention on the ground that no convention was held. Fred Brown, also a delegate from Precinct No. 1, put him right by explaining that the convention was called to order, did its work and adjourned evidently before Mr. Cox arrived at the City Hall where the convention was held.

County Chairman O. E. (Oscar) Lyerla called the convention together. Between 75 and 100 delegates and visitors were present. The convention elected Mrs. Don Parker, secretary; who with Lyerla, composed the temporary officers of the convention. Later they were made permanent by a vote of the convention.

Rep. L. R. Pearson of Ranger. Rep. T. M. Collier of Eastland, Judge Cyrus B. Frost of Eastland and Joe Neussle of Ranger at invitations from Chairman Lyerla addressed the convention. These talks were similar in that each speaker deplored what they termed encroachment of the Federal government upon state rights.

A resolutions committee composed of Jack Frost, Eastland; Will Tyler, Rising Star; F. S. Perryman, Gorman; J. J. Kelley, Ranger; Mrs. L. H. McCrea, Cisco, was named.

A committee on delegates was composed of J. C. Allison, W. B. Pickens, Eastland; W. J. Herrington, Rising Star; C. B. Pruett, Ranger; L. E. Clark, Desdemona; and Mrs. Chas. Jones, Cisco.

The committee on delegates submitted a list of delegates, (the list was read by W. B. Pickens), that included any member of the convention who desired to attend the district convention to be held in Brownwood on May 24, or whose name was suggested by other members of the convention.

The resolution's committee offered three resolutions, which were read by Jack Frost. The first of these instructed delegates to the district convention to vote as a unit, the second asked the assistance of congress in maintaining the rights and titles of tidelands within the states as against the federal government, and the third asked that functions of government belong to the several states, but allegedly heretofore appropriated by the federal government, be returned to the states.

On motion made by Earl Conner, Sr., and seconded by Will J. Carter, the convention voted to adjourn.

Tornado Rips Texas Town

A sudden tornado of fierce intensity ripped through McKinney, Texas, killing three persons and injuring fifty. The Texas Textile Mill plant was in the area hardest hit. Workers of the plant survey damaged auto mobiles parked outside of the plant. The mill was a shambles and hundreds of houses were destroyed. (NEA Telephoto.)

Asks Mayor Be Appointed For Holy City Rule

LAKE SUCCESS, May 5 (UP)—The United Nations trusteeship council recommended today the immediate appointment of an "emergency mayor" to assume authority in Jerusalem when Great Britain ends the Palestine mandate May 15.

The recommendation, made to the UN General Assembly, appeared to be the first step toward establishment of a shadow government for Palestine in a frantic effort by the UN to fill vacuum threatened in the Holy Land by the departure of British forces.

Work on the second major section of the plan for a shadow government, which will have no enforcement powers but only the legal blessings of the United Nations, was slated to begin this morning about 11 A. M. in a closed meeting of a special subcommittee of the UN General Assembly.

Senator Taft Welcomed Home

Senator Robert A. Taft, under "Cincinnati wants Bob for the Job" banner is welcomed home by Cincinnati friends after two-week speaking contest with Harold Stassen for Ohio convention delegates. Ohio voters go to the polls May 4, and some experts predict it will be nip and tuck between Senator Taft and Mr. Stassen. (NEA Telephoto)

Soap Company Lowers Prices

CINCINNATI, May 5 (UP)—Procter & Gamble Co. today announced a reduction of approximately six per cent in the price of its soap.

The reduction, which affects principal household cake and flake soap products, reflects the price decline in the cost of fat used in soap manufacture, P & G officials said.

Marine Recruiting Office 3rd Floor County Courthouse

M-Sgt. John Christopher and their 4 year old son, John, have moved to Eastland from a California Marine Base at San Francisco and are living at 103 East Hill Street.

M-Sgt. Christopher is connected with the U. S. Marine Recruiting office located on the third floor of the Eastland County courthouse.

Texas Democrats Show Opposition To Pres. Truman

By United Press, May 5 (UP)—Texas Democrats virtually declared all-out war on President Truman and his "anti-south" policies today as reports from county conventions showed a defeat for those who had favored sending a delegation pledged to back Mr. Truman.

A majority of the conventions approved Gov. Beauford H. Jester's recommendation to send an uninstruced delegation to the national convention in Philadelphia.

Thus it appeared that Governor Jester, and the Democratic state executive committee which agrees with his recommendation, would control the state convention in Brownwood May 23.

Home-Grown Mosquitoes Aid Science Project

LAWRENCE Kan. (UP)—Three colonies of domesticated mosquitoes have been living in on a special diet of powdered dog biscuits and raisins at the University of Kansas.

The mosquitoes were grown from eggs by Dr. H. B. Hungerford professor of entomology. The idea, Dr. Hungerford said, is to raise mosquitoes for safe experimental use in his medical entomology class.

The mosquitoes used were of the yellow fever type. But the insects were injected with bird malaria, which humans can't get. Thus they were usable for class experiments with no danger to the students.

Scranton Scouts To Observe First Anniversary

Boy Scout troop No. 36 of Scranton will observe their first anniversary with a Mother's Day program Thursday night.

The boys plan, along with their program, to serve the mothers a steak supper.

Fort Worth Livestock Cattle 2100. Steady. Steers and yearlings 23-28. Bulls 16-22.50. common and medium cows 18-21.50.

Calves 700. Generally steady. Good nad choice slaughter calves 26-29, few to 30.

Livestock Sales Run \$70,000 At Tuesday's Sale

A long list of buyers, including a number of packing company buyers, were bidders at the Big Faircloth Auction Sales in Eastland Tuesday afternoon.

Better than 800 head of cattle, a large number of horses and 75 or more head of top hogs were sold during Tuesday's sale. Total sales amounted to approximately \$70,000.

Among the buyers at Tuesday's sale were: Neuhaff Packing Company, Dallas; High grade Packing Company, Vernon; City Packing Company, Ft. Worth; Swift & Company, Fort Worth; Armour & Company, Fort Worth. There was also a Louisiana packing company buying.

There were also many individual buyers. One from Oklahoma City bought a carload and a truck load of cattle for shipment to Oklahoma. Quannah was also represented in the buying.

Faircloth auctions are held each Tuesday afternoon. The sales barns are located just east of Eastland on Highway 80.

Annual Father Son Banquet Be Tomorrow Night

Harley Sadder, the showman, member of the Texas Legislature from the Sweetwater, his home, district and the best and most popular entertainer in Texas, will be guest speaker at the annual Father and Son banquet to be held tomorrow (Thursday) night at the First Methodist church basement annex.

The annual banquet, held first 17 years ago, is sponsored by the Men's 9:49 Bible Class of the First Methodist church of Eastland. N. P. McCaerney is president of the class.

The program, designed for the entertainment and instruction of boys, has been well planned. It will open at 7:00 p. m.

Men not having boys of their own to take to the banquet should contact either County Judge P. L. Crossley or County School Superintendent Carl Elliott, who have a list of names of available boys.

The Martha Dorcas Class of the Methodist Church Sunday School will serve the meal at \$1.00 per person.

Arab-Jewish Truce For Holy City Brighten

JERUSALEM, May 5 (UP)—The "indications look good" for a firm Arab-Jewish truce for Jerusalem, a government spokesman said today. He added that a statement from a truce conference going on at Jericho was expected later.

The spokesman, Richard Stubbs, said at a press conference that the truce conference in Jericho, 15 miles from Jerusalem, reportedly was making considerable progress.

In the meeting, Arab and Jewish leaders, a consular committee named by the United Nations, and British officials are seeking a truce for the Holy City which will be maintained even after the British mandate expires at midnight May 14.

Father McClain Opens Mission At Strawn

Father James McClain of the Eastland Episcopal church announces the opening of an Episcopal Mission at Strawn.

Father McClain visits Strawn each Tuesday and on Sunday evenings at 7:30 goes there for a class of instructions held at the Watson Funeral Home.

TAFT LEADS STASSEN IN OHIO PRIMARY

By United Press, May 5 (UP)—U. S. Sen. Robert A. Taft led Harold E. Stassen 14 to 9 in the fight for 23 of Ohio's Republican convention delegates with nearly two-thirds of the precinct reported in the state's primary.

Since 30 of the state's 53 delegates were uncontested, Ohio's favorite son held a majority of 44 delegates in the statewide race, one of the four state primaries held yesterday.

With 4,847 of 5,446 precincts reported in the 11 contested congressional districts in Ohio, this is the way the candidates stood—Stassen led the race for two delegates in the 3rd, 9th, 14th, and 19th districts and for one in the 20th district. Taft had two delegates in the 6th, 7th, 16th, 18th, 21st districts and one in the 20th district.

Taft held a commanding lead in the race for delegates-at-large as Stassen's lone runner fell far behind delegates pledged to support the Ohioan.

A full slate of 56 Democratic delegates was elected without opposition. The delegates are pledged indirectly to support President Truman.

The President received a setback in the Alabama primary where voters supported the southern revolt.

Scranton Girls Win 20 Points At Track Meet

Scranton girls won 20 points at the Girl's Track Meet in San Angelo. Julia Wheatley won first in the broad jump, second in the high jump and third in the 50 yard dash.

In the 200 yard relay Scranton placed second.

The following Scranton girls made the trip to San Angelo: Julia Wheatley, Patty Fleming, Sally Speagle and Doris Ingram.

Young Jewish Warriors

A twelve year old Jewish boy, that is an expert with the weapon teaches a girl of elementary school age the mechanics of a Sten gun. Children living in the Jewish agricultural settlement of Neveh Yeakov, learn in addition to reading, writing, defense measures against Arab attack. (NEA Telephoto by Staff Correspondent David S. Boyer).

Delegates To Demo. Meeting At Brownwood

Delegates from the Eastland County Democratic convention to the District Democratic convention to be held at Brownwood on Tuesday May 25, are as follows:

Eastland—Mrs. H. H. Hardeeman, T. M. Collier, Oscar Lyerla, Fred Brown, J. C. Allison, Jack Frost, W. B. Pickens, Earl Conner, Sr., Frank Sparks, Cyrus Frost, Mrs. Joseph M. Perkins.

Cisco—Dr. Charles C. Jones, Mrs. Charles C. Jones, W. J. Armstrong, J. J. Calloway, Mrs. L. H. Calloway, Mrs. L. H. McCrea, Carl Armstrong, J. M. Flournoy, Mrs. J. M. Flournoy, E. P. Crawford, R. L. Ponsler.

Ranger—J. J. Kelley, L. R. Pearson, Joe Neussle, L. H. Hagaman, Mrs. M. H. Hagaman, C. B. Pruett, A. N. Larson.

Rising Star—W. E. Tyler, M. B. Shook, W. J. Herrington, Raymond Gray, Mrs. E. M. Howard.

Gorman—F. S. Perry, T. S. Ross, Henry Capers, John Kimble, Dr. F. B. Brandon, Miss Callie Lowe.

Carbon—W. F. Collins, Ed Allison, Ray Wyatt.

Desdemona—L. E. Clark, W. A. Saint, H. H. Williams.

Taft Claims Ohio Victory

WASHINGTON, May 5 (UP)—Sen. Robert A. Taft, R., O., today interpreted the result of the Ohio presidential primary as a defeat for Harold E. Stassen. He said he now had more first ballot convention delegates than any other candidate.

Taft issued a statement giving his analysis of the Ohio vote—and expressing gratitude for the support he received.

He was particularly jubilant over the fact that Carrington T. Marshall, only Stassen candidate for delegate at large, was trailing the nine Taft candidates.

The leased wire system of the United Press in Europe makes it possible to send news from cities from Rome to Stockholm to the United States within a matter of seconds.

SAYS ITS A MATTER OF PROTECTION TO UNITED STATES

WASHINGTON, May 5, (UP)—Secretary of State George C. Marshall today opposed proposals to eliminate the United Nations big power veto in matters of aggression.

Marshall said it is necessary to maintain the veto power "for our own protection."

He also warned Congress against approving other proposals to revise the UN charter.

Marshall set forth his views to the House foreign affairs committee which is considering various proposals for such changes.

Marshall also said it would be "tragic misfortune" for the "United States to break off relations within the UN with Soviet Russia."

Rep. James P. Richards, D., S. C., asked Marshall whether he thought it would be helpful if the veto power were restricted in matters of aggression.

Marshall replied that he felt it would be useful if the veto were eliminated on matters involving peaceful settlement of disputes.

But as for actual threats to peace or breaches of peace, Marshall said, "we feel the veto should remain for our protection in order not to have the manpower and material resources of the United States committed by a two-third vote to aggressive action."

When the UN charter was drawn up at San Francisco three years ago, the United States was one of the leaders in insisting that the big power veto be written into the compact.

The U. S. position—and is—that such a veto would keep the majority of the Security Council members from committing the United States to go to war without its consent.

In Security Council deliberations, the United States has not invoked its veto power. Russia has been the chief user of the veto.

Truman To Make Cross Country Trip In June

WASHINGTON, May 5 (UP)—The White House today announced plans for a transcontinental train tour by President Truman next month.

He will leave here June 3, travel through the Middle West, visit the Northwest, and then travel down the Pacific coast to Los Angeles. He plans to leave Los Angeles June 14, possibly returning to Washington by air.

Mr. Truman will speak in Chicago on June 4 to a centennial commemorating the settlement of Swedish pioneers in the Middle West.

Truman Gives Appraisal Of ERP Program

WASHINGTON, May 5 (UP)—President Truman declared today that the \$522,000,000 stop-gap foreign aid program made it possible for the European Recovery program to get off on a sound start.

He made the appraisal in his first report to Congress on the program for which Congress was called back last fall in special session. Mr. Truman said that without this interim measure, the prospects of ERP would have been "irreparably jeopardized."

Local Softball Season To Open Monday May 17

Eastland's softball season opens May 17.

A discussion of plans for the opening was had at a meeting of fans Monday night at the Fire Station at Eastland City Hall.

Expected to enter softball teams are Blevins Motor Company, King Tractor Company, Lone Star Producing Company and High School. At least two other teams may be entered.

Another meeting is to be held Monday night at the City Hall when all team managers and sponsors are requested and urged to be present.

Anyone wanting information regarding the softball set-up should call or see Eastland Fire Chief A. W. (Mack) Hennessy or E. M. Pritchard.

NEW COMBINE

WOOD BROTHERS, Inc., Des
Moines, Iowa, farm equipment man-
ufacturing concern, announced the
manufacture of a new combine. The
combine has a full six-foot cut, low,
streamlined, "straight through" de-
sign, and is powered with a 20
horse-power engine. Other features
include: header on the left side, 6
bar rasp bar cylinder, straw walker

type separator. Two models are
available: grain tank or bagger
equipped. The 61-year old Des
Moines firm, a subsidiary of Dea-
born Motors Corporation, Detroit,
national marketing organization for
the Ford Tractor and Dearborn farm
equipment, already is turning out
18,000 corn pickers yearly which,
like the combine, are distributed
through Ford Tractor dealers.
Flournoy, rat. of oil and gas lease.

**Potato Skin
Potatoes Are
Sought In Tests**
COPENHAGEN, Denmark —
(UP)—Potatoes with potato skin
is the object of extensive experi-
ments at the Danish school of
agriculture. It is hoped that such
a new type of potato with a tough-
er skin will be more capable of
resistance against pests.
The experiments so far have
only led to tomatoes with skins
like potatoes, but the scientists
go on with their experiments.

Thirty out of every 100 persons
killed in traffic accidents die be-
cause of failure by drivers to
compensate for reduced visibil-
ity after dark, according to the

IF YOU'RE BUILDING A NEW HOME

MORE and hotter water will keep the wheels
of housework turning easily and quickly

Automatic home laundry machines require
20 to 30 gallons hot water for 30 minutes' to
one hour's operation—compared to 12 gallons
required in usual washing machine.

Automatic dishwashers use 10 gallons hot
water per load—compared to three gallons
used in the average sink.

Housekeeping in modern homes calls for
twice as much hot water.

As a service to home builders, a committee
of leading home economists prepared the new
Sizing Chart for Automatic Gas Water Heaters.

Select Automatic Gas Water Heater By the SIZING CHART

SIZING CHART for automatic storage gas water heaters		
Number Bedrooms	Number Bedrooms	Storage Capacity Gallons
1	1 or 2	30
2	3 or 4	40
2	2 or 3	40
3	4 or 5	50
3 or 4	3	50
	4 or 5	75

THE CHART is based on the size of your
new home rather than on the number in
your family. The size water heater recom-
mended for your new home assures hot
water for guests and emergencies. It also
permits simultaneous use of the majority
of hot water appliances and fixtures you
install... or plan to install later.

An automatic gas water heater in the
size recommended for your new home is
available with a rust-proof tank. With
Lone Star Natural Gas Service, it will
make the wheels of housework turn easily
and quickly—for the lowest possible cost.

See the new automatic gas water heat-
ers now on display.

Illinois Cops Say Women Get By With Murder

CHICAGO (UP)— Take it from the Illinois Police Association women get away with murder.

In its official journal, the association said women are hard to prosecute for slayings, compared with men.

Occasionally a woman goes to jail for a killing," the article said. "But not too often. The electric chair seems destined to be used only by male customers. Illinois juries don't favor it for women."

The association said Illinois court records showed that most attempts to put women slayers behind bars end in acquittals or short terms in insane asylums.

If all the telegraph wires the United Press leases to carry its news dispatches were cut together in a single length, it would stretch from New York to San Francisco and back 40 times.

New Stamp Honors Heroic Chaplains

Honoring the four heroic chaplains who went down with the U. S. S. Dorchester, this stamp will be released in Washington, May 28. The four chaplains are, left to right, George L. Fox, Clark M. Poling, John P. Washington and Alexander D. Goode.

News From Older And Community

OLDEN, May 4— Maybel Whisenant, daughter of Mr. and Mrs. J. E. Whisenant of Olden, and Edward Gray of Fort Worth, were united in marriage at the Methodist Church Saturday morning with the Rev. Hugh Dutton officiating. After a wedding trip to West Texas they will reside in Fort Worth.

Mr. and Mrs. E. J. Stanford were visitors Sunday in Stephenville.

Rev. Clifford Nelson was called to the bedside of his mother last week when she suffered a stroke.

The mother of Mrs. Glen Betts of Fort Worth, visited here Sunday.

The ladies of the Olden Church of Christ met in the home of Mrs. Pete Holt and quilted quilts to send to Sunny Glen orphans' home at San Juan.

Cpt. T. E. Matlock of Roswell, New Mexico, accompanied by a "buddy," arrived Saturday for a visit with his folks. He is being transferred to Georgia.

A Mother's Day program will be presented at the Olden Baptist Church, May 9.

The Freshman class of the Olden school enjoyed a picnic Friday. They were accompanied by Miss Eunice Hamilton.

Mr. and Mrs. Billy Ray Elder of Edina are expected Thursday.

Home Canning Is Answer To Food Demand

A sound bit of advice to all housewives now is to make home canning plans, obtain supplies of glass fruit jars and caps, then be prepared to can plentiful supplies of foods the instant they come to market.

A heavier demand for food both at home and abroad is predicted for the future. That this will do to the supply and prices is anybody's guess, but the housewife who does home canning won't have to guess. She will know her family will be well-fed. Her food supply will be assured, and it will be put up the way she likes it!

Reports to the United Nations by the director general of food and agriculture early this year warned of "a food shortage of world magnitude." American farmers have been urged to plant full crops for the 1948 harvest. Where the farmer's job ends, the housewife's begins.

The Sophomore class of the Olden High School, with Mr. Hilliard as sponsor, enjoyed a picnic at the Eastland City Park Monday night, attending a show later.

Mrs. T. O. Marlow of New York is meeting her sister, who is to arrive this week from England. Mrs. Marlow is the daughter-in-law of the T. B. Marlows of Olden.

Members of the local Church of Christ enjoyed a basket lunch at Eastland City Park, Sunday.

The Olden Senior class with Mr. Weaver as sponsor plan to leave on a trip Friday.

Mrs. Lee V. Dick and son, Winston, of Odessa spent Sunday night and Monday here enroute to their home in Odessa. They also visited her parents, Mr. and Mrs. Dodd, in Odessa.

Youthful Kilt Hater Is Sent Cowboy Suit

AUSTIN, Tex. (UP)— A Scottish lad is going to receive the answer to his dreams, a full cowboy rig, in response to a letter he wrote to the "Sheriff of Texas, America, S. A."

Ten-year old David MacGowan of Stirlingshire, Scotland, a professional kilt-hater who wants to be a cowboy, wrote the letter, which wound up in the hands of Sheriff H. W. Collins of Travis County. In addition to a full cowboy ensemble ranging from Texas made boots to a gun belt and suit, Collins enclosed something to make the other Scottish lads take notice: an autographed picture of a "real live Texas sheviff."

A little rebel himself David said he wanted to be a cowboy, though his father had hopes he would turn into an architect. And as far as his native Scottish dress was concerned, David wrote: "I hate my old kilt."

All types of jars and caps for home canning are available at your grocer's, including porcelain lined zinc caps and two-piece metal lids for Mason jars. Newest thing in home canning is the two-piece metal dome lid which gives a sure test of a perfect seal. It is only necessary to press the center of the lid. If the dome is down, the jar is sealed; it's as simple as that!

So get your supplies of glass fruit jars, caps, lids and rubbers. Know the home canner's feeling of pride and achievement, the sense of security that is reward in itself, to say nothing of the lip-smackings which delicious home canned foods produce when your family sits down to the table.

Always ready at the ring of the phone to taxi you wherever you want to go. 24-hour service.

with one of Dallas big operators the other day who blandly stated every one in the flying business is going broke but him, and brought the informal interview to a logical close by pointing out the small operator (with particular emphasis on Eastland) hasn't one chance in a thousand of economic survival—now or ever.

Aviation has had a unique history in that it seemingly has faced a perpetual crisis from 1903 to this very day. Some one is always pulling acorns out of the fire trying to save private aviation from impending and certain ruin; yet it has survived two wars and an international and devastating depression, largely, and perhaps literally, because a lot of people would rather fly than eat. An even greater reason might be because a few thinking persons have reasoned realistically that since people are in such an all-fired hurry it might be more expedient to lift speed from the crowded and fantastic patterns of earth-bound travel to the clear and safer channels of the earth's atmosphere. The results are beginning to look good.

From a sociological point of view, the effects of the air-age up-

on our material and social life are more far reaching than we realize. On the material side of aerodynamic design has touched upon everything from salt shakers to locomotives. Architects design homes that more subtly suggest our streamlined hurry to get no place in particular—just hurry, and our automobiles look entirely capable of breaking almost any kind of speed record one can think of. About the only commodities untouched by the influence of aerodynamic design are the hamburger and dill pickle. The living room chair, on the other hand, takes on the appearance of having been designed in a wind tunnel.

Our thinking has been expanded to encompass the world, and is not so centralized on the hometown or state as it once was. Commerce has followed along; so no individual town or city can hardly consider itself self-sufficient—not if it desires to expand and grow. However much of our thinking may circle the globe in terms of hours and minutes, the majority of us have yet to experience such travel. We are, in fact, still trying to catch up from motley to city, state to state, and coast to coast; there lies the fertile ground of private aviation. There's enough for everyone, and it isn't up to just the easy pickings of the B.T.O.'s—some who would bluff the small operator out of business.

Recently in Colville, Washington, a town about one third the size of Eastland, Carl F. Lienesch chief of airport management of CAA (Spokane region), spoke to the Colville Chamber of Commerce. He had this to say: Before automobiles reached the 10,000,000 mark we had quite a network of highways, and before airplanes can make their proper contribution to our modern living we must have adequate airports. Surveys by several cities in the United States have shown that money invested in a modern airport returns a fair rate of interest in air traffic alone, and places the community in a position to expand airwise, just as cities favorably located on highways and railroads have benefited by travel. There are also benefits incapable of dollar valuation in the development of a modern airport. These include the bringing together of

Oxford Tie To U. S. Repeated In British Envoy

OXFORD, England (UP)—The appointment of Sir Oliver Franks as British ambassador to Washington strengthens a growing connection between Oxford University and the United States that has developed in the past 40 years.

Sir Oliver becomes the fourth in a line of British ambassadors who have been prominent in Oxford life.

The first was Lord Bryce, who was ambassador from 1907 to 1913 and previously had been regius professor of civil law at Oxford for 23 years.

The next was the Marquess of Lothian, who had been editor of the Round Table and private secretary to Prime Minister David Lloyd George during World War I. Lord Lothian was a fellow of All Souls College and, for 14 years, secretary of the Rhodes Trust, before his appointment to Washington in 1939.

The third Oxford figure to represent Britain at Washington was the Earl of Halifax, who succeeded Lord Lothian on his death in 1940. Lord Halifax, who served in Washington during World War II, also is a fellow of All Souls and has been chancellor of the university since 1933.

Sir Oliver, who expects to leave for Washington in mid-April, has served since 1946 as provost of Queen's College.

Educated at Queen's, Sir Oliver was a fellow of that college for 10 years. He spent a year as a visiting professor at Chicago University, before being appointed professor of moral philosophy at

Station-wagon. Cessna dealers brought in a Cessna 140 demonstrator from Fort Worth last week and was given a trial flight by student Dr. M. B. Murdock. The doctor also took a turn at the controls of the Stinson from Abilene.

Marked Teeth Proposed Eo Aid Police Work

CHICAGO (UP)—Policeman Irvin Schmidt got some ideas about dentistry and the police department set up a new identification unit.

Police Commissioner John Prendergast set up the new denture unit to help identify persons through their false teeth.

Schmidt's problem, now that he heads the unit, will be to work out

Glasgow University in 1937. During World War II, he was permanent secretary of the ministry of supply and returned to Queen's to become its provost after the war.

Almost immediately after his return, Sir Oliver was named chairman of the European Economic Conferences in Paris and Washington, returning to his beloved academic seclusion early this year after eight years in the governmental limelight.

Able, energetic, Sir Oliver wants to shun publicity as long as possible. Early in February, he addressed the Oxford University American Association on European recovery and the United States, but asked that there be no press reports of the speech.

"I want to keep out of the public eye for a while," he said. He commented privately: "My wife and I are no strangers to America. Apart from Washington and the eastern states, we have also seen much of the west and the middle west and have many friends in different parts of the country. I shall be particularly happy to return to the United States, for I like the American people very much."

a code for marking dentures then to get laboratories and dentists to use the code.

Schmidt said he hoped the code could become a nationally accepted means of identification, especially useful in establishing the identity of amnesia victims or of burned or decomposed bodies.

Equine Draft Evaders Loose In Wyoming

LARAMIE, Wyo (UP)—Ranchers who augment their supply of horses by capturing wild animals which roam the rugged Red Desert country of south-central Wyoming should thank a soft-hearted rancher.

Miss Mildred Capron, a student of Wyoming history, said the unidentified rancher was about to ship 1,000 head of horses to the government in 1917 when he discovered they were to be used in the World War I battles then raging in France.

He opened the corral gates and drove the horses out into the desert, where they have spread into big herds.

Strawberry Jam
Allow 1 cup sugar to each quart of berries. Wash and hull the berries. Mash some or all of the berries to start the juice, and add some of the sugar. Cook quickly until quite thick, then add the remaining sugar and cook for 10 to

15 minutes longer. Pack in containers while hot and seal at once.

Mamma Knows Best

With the missus lending a critical eye, PGA champion Jim Ferrier practices putting.

Leprosy Reported On Rise In U. S.

CHICAGO (UP)—A medical specialist says leprosy suffers are increasing in the United States, but that leprosy can be fought effectively with new drugs.

The specialist, Dr. Robert G. Cochrane, head of the London office of the American Mission to Lepers, said service men who were in the tropics during the war accounted for most of the new cases of the disease.

But he said public understanding of leprosy and its problems is vital.

"If there were an adequate understanding of the disease, people would become less hysterical," he said. "When a man suffering from leprosy was cured his neighbors would take him back into the community as they should."

He said that victims of the disease usually become hounded from their homes by frightened neighbors.

"Yet a leper might walk down the streets or sit next to anyone Cochrane said, in a movie without infecting him."

New drugs, he said, have brought "a tremendous possibility for better research in fighting the disease," and in India the some 50 per cent of the less serious cases of leprosy are cured.

Cats Learn Tricks Girl Proves

DENVER, (UP)—Cats can learn tricks, nine-year-old Retha Lindquist contends.

Tough and Puff, two striped alley cats, are her pets. The felines are more at home in doll's clothes than roaming the alleys.

They will spend half an hour at a time on their backs, legs stiff in the air, playing "dead." They like to pretend to eat with spoon and fork. They like to push each other around in a doll buggy.

Cotton was an important southern Illinois product early in the state's history. In 1849 production reached 200,947 pounds.

community as they should."

He said that victims of the disease usually become hounded from their homes by frightened neighbors.

New drugs, he said, have brought "a tremendous possibility for better research in fighting the disease," and in India the some 50 per cent of the less serious cases of leprosy are cured.

Wealth And Title No Temptation

HOLLYWOOD (UP)—A noble Italian title and fortune in vineyards and cash were turned down by Wilbur F. Radeline, Hollywood apartment house manager, because acceptance would mean loss of citizenship.

Radeline asserted that he'd rather be a \$35 a week American apartment house manager than a wealthy foreign nobleman. Italian lawyers, who lobbied him with difficulty, were flabbergasted. All Radeline has to do was go to Italy and inherit his wealth.

His father, a young Italian nobleman, met a young German-French girl on the ship that was bringing them both to America 50 year ago and they were married in Allentown, Pa. The father had to go back to his homeland and never returned.

The young mother had to give her son for adoption to a local Pennsylvania Dutch family who gave him their name, Radeline.

Dry Lake, six miles west of Willeix, Ariz., provides one of the world's few permanent mirages. On a clear day a great body of "dry water" may be seen from the highway.

Swiss Bolster Defenses With Tank Destroyers

BERNE, Switzerland (UP)—The defensive strength of the Swiss army will be considerably increased this year by the first tank destroyer units ever organized, the military department announced.

One hundred destroyers, supplied by the Skoda works in Pilsen, Czechoslovakia, are ready for service. Another batch of 50 will be delivered in the course of this year. For the time being, three tank destroyer companies are to be created.

The former United States ferry and Coast Guard icebreaker Chaparral is now under the Canadian flag and is slated to operate as an automobile ferry and passenger carrier on Lake Erie.

Bubble Bird

Here's a parrot who goes so far with his imitating that he even likes bubble gum. Jack Hausfeld, 14, his owner, chews the gum and "Baby" pecks at it. "Baby" also talks and whistles. He was shown at the Valentine Boys Club pet show, in Chicago.

RAILROAD STRIKE

Look who gets squeezed!

Union leaders representing less than one-tenth of railroad employees reject recommendations of President's Emergency board—refuse to negotiate except on their own terms—threaten to paralyze nation by strike!

They have dictated a paralyzing railroad strike.

You will be the victim!

How long will the American public stand for the undemocratic, arbitrary, and abusive use of the right to strike and the disregard of the obligation to provide transportation? How long can the American people permit a few dictatorial union leaders to defy the processes provided for peaceful settlement of disputes?

Force seldom produces settlements that are either fair or lasting. Moreover, a point is often reached when personal interests must be held subordinate to the greater public welfare. That is why the railroads have accepted the Emergency Board recommendations. That is also why the leaders of these three unions should reconsider their decision to call a paralyzing strike.

Compare these wages with what you make!

Type of Employee	1939 Average Annual Earnings	1947 Average Annual Earnings	1947 Average Annual Earnings with Wage Increases Recommended by President's Board
ENGINEERS			
Road Freight (Local and Way)	\$3,960	\$6,152	\$6,788
Road Passenger	3,632	5,391	6,025
