President Truman Joins War Buddies In Omaha

President, arriving in Omaha to attend the annual reunion of his World War I comrades in the 35th Division, was greeted by his sister, Mary Jane Truman, of Grandview, Mo., and Ed McKim, who served with him in France. — (NEA Telephoto).

Following is report of activity for June 4 in Gorman Oil fields: This report was delayed in the mails.)

Clemens and Mellard No. 1 Pete Mauney drilling at 700.

J. W. Baldwin No. 1 Sanders drilling ahead at 2634.

Coast Oil No. 1 T. N. Seay drilling at around 150 feet.

Wrather Penn and Walters No. 1 Dornay will spud in Sunday. This is an East Texas Company with its first set up among us. Mr. Walters and Mr. Penn both coming from Tyler.

Man and Griffin et al, No. 1 Wilson drilling at 2839—hit pay at about 2825.

The jeep showed that there is to be about a 36 foot streak of the pay.

J. W. Baldwin No. 1 J. N. Watson fixing to gun perforate and acidize Saturday if no hitches occur.

F. D. Glass Jr., No. 1 J. O. Gowen was put on pump. Some magnetic attraction within the structure seems to be hindering the pump test. Now they intend pulling the rods and installing a bronze ball and a steel seat instead of the all steel equipment which in one or two other instances has seemed disturbed by the phenomenal attraction underground. The grade of oil in this well is almost pure, however, there will not be sufficient gas to bring it to the surface, so it is necessary to overcome the lead which the all steel equipment picks up within a matter of hours.

TOWRY WINS RANGER GOLF TOURNAMENT

In a tournament that spectators and golfers alike hailed as the best and fastest tournament ever held at the Ranger Country Club, Gene Towry of NTSC at Denton calmly stroked in a four-foot putt for a par three to defeat highly favored Earl Stewart of Longview 1-up in a spectacular 25-hole match at the Club Sunday afternoon.

Stewart conquered C. A. Dewees two up and Towry eliminated L. M. Crannell, 3 to 2, in the Sunday morning semi-finals. Stewart won three of the first four holes from Dewees and C.A. never was able to catch up although he succeeded in cutting Stewart's lead to one up several times.

LEWIS GIVES IN GRUDGINGLY TO JUDGE'S COURT ORDER

WASHINGTON — John L. Lewis resumed wage talks under court order with the soft coal industry today, charging he was "shackled" and under "duress."

Lewis told union and industry negotiators that he had revived the soft coal conferences only because he was ordered to by Federal Judge T. Alan Goldsborough.

Lewis and his United Mine Workers negotiating committee met with the operators at 9 a. m. CST.

"As representatives of labor, we sit here under attainment," Lewis told the conference.

"In reverse," he told the coal operators, "Your limbs are unshackled."

Lewis broke up contract talks three weeks ago when he refused to bargain with the Southern Coal Association.

The government went to court last week and got an injunction from Judge Goldsborough which forced Lewis to reopen wage talks with the association and the entire industry to try and get a new contract by June 30, when the present one expires.

"We attend this conference only through duress," Lewis said. "The intemperate judicial sanctions imposed upon us were uttered upon the premise of an oppressive and iniquitous statute the Taft-Hartley Act."

"This statute constitutes the first major trust of fascist tyranny in this republic," Lewis said. "The UMW 'at present' has no wage proposals to make. But he added, "Assuredly, the mine workers expect improvements."

He asked the coal operators to make the first new contract proposals.

Mavericks Win From DeLeon By 3 To 2 Score

The Mavericks annexed their second straight victory yesterday, winning from the DeLeon 'Cats, 3 to 2. The winning pitcher was Paul Campbell, who was with Strawn last year, and with San Angelo of the Longhorn League the first part of this year. He allowed ten hits, but scattered them well, pitched well with men on base, and was the victim of two errors.

DeLeon, aided by an error, scored two runs on three hits in the third inning. As the innings wore on, and the score remained two to nothing, it looked as if the Mavericks would be defeated the second time by the same team, and by identical scores.

However, in the seventh, they scored a run and filled the bases on one hit and one miscue. Clifton Beck hit a single to right field, and stole second base on the throw-in. He held third base also, and scored on an infield cut. Campbell struck out with runners on second and third for the second out. Tipton was hit by a pitched ball to fill the bases, but Dick grounded out to end the inning.

In the eighth, both teams went out scoreless. Then, in the last of the ninth, with one away, White was sent to pinch-hit for Raymond Beck. He singled to right field, and Charlie Jo Owen, pinch-hitting for the first baseman, knocked a triple over the center fielder's head, scoring White to tie the score. That brought the pitcher to bat. After watching a couple go by, he laid a bunt between pitcher's box and second base. Owen crossed the plate to end the game.

It was stated, however, that King will have to undergo surgery for an injury to one of his eyes, a crushed left ankle and other injuries. This was expected to be done Tuesday.

Funeral services for Don Hill, Jr., 14, who lost his life in the accident in which King was injured, were held at the First Methodist Church in Eastland Sunday afternoon. Interment was in the Eastland Cemetery.

REFUSES TO WIPE OUT RACIAL SEGREGATION IN ARMED FORCES

WASHINGTON, June 7 (UP)—The Senate today refused to wipe out racial segregation in the armed forces.

It did so by killing a proposed amendment to the draft bill that would have banned segregation or discrimination based on race, religion or national origin. The vote was 67-7.

The amendment, sponsored by Sen. William Langer, R., S. D., was tabled as the Senate refused to inject the civil rights issue into the 19-through-25 draft bill. Langer has sought to attach President Truman's entire civil rights

program to the draft bill as a rider—a move that would have jeopardized chances of congressional action on a draft bill at this session.

The decision to table Langer's controversial amendment came on a motion by Chairman Chan Gurney, R., S. D., of the Senate Armed Services Committee who said civil rights legislation must "stand on its own feet."

Gurney assured the Senate that "progress is being made" by the armed services in settling racial problems.

Since his motion to table was not debatable, Gurney's request halted debate on the amendment.

Adoption of Langer's proposal would have touched off a Southern Democratic filibuster that might have killed the entire draft bill.

The amendment was one of a series drafted by Langer to carry out Mr. Truman's civil rights program insofar as it may be applicable to the armed forces.

Meanwhile, Sen. Homer Capehart, R., Ind., claimed growing support for his amendment to put the draft on a standby basis.

The local Retail Merchants' Association recently has received complaints from merchants that small boys are spending a great deal of time loitering in stores, picking up and handling various kinds of merchandise displayed on counters. When approached by a clerk and asked if there is something they want these boys, it is reported, give the excuse that they were just looking and leave the building. The practice is growing to be a nuisance.

The Danger To This Country Is In Our Own Complicity

If this country ever loses its democratic form of government it will not be because of the activity of groups unfriendly to our form of government. Rather it will be because of the fact that the good people of the nation who believe in our form of government fail, because of their complacency, to vote. In one of the national elections only fifty-two percent of the qualified voters voted for any candidate. This being true a group that represented only thirty-three percent of the voters might conceivably elect its candidate—not through its own activity, but because of the complacency and lack of interest on the part of those who should be interested and concerned. It is disturbing to think that any special group only has to have a third of the people back of it to win an election.

Cold but Honest Look at FDR Is Found in Hull's Memoirs

BY PETER EDSON
NEA Washington Correspondent

WASHINGTON—(NEA)—Of all the people who knew Franklin D. Roosevelt and wrote books about him, Cordell Hull's new 1742 pages of "Memoirs" written in collaboration with Washington correspondent Andy Berding offer the most honest appraisal.

Hull's sizeup is pretty cold. He strives for historical accuracy. Some of it is a bit tedious, but it is the record. The two men first met in 1918, when Roosevelt was assistant secretary of the Navy and Hull was in Congress. It was 10 years before they became closely associated.

It was a complete surprise to Hull when Roosevelt offered him the Secretaryship of State in January, 1932. Hull took a month to decide. "If I accept, I do not have in mind the mere carrying on of correspondence with foreign governments," Hull told the President.

U. S. IN GERMANY ADMITS BLINKING AT BLACK MARKET

FRANKFURT, Germany (UP)—The American military government considered black marketing in Germany a "recognized way of life" early in the occupation, an official history of the first year's activities here revealed.

Efforts to destroy it, the black market, the report said, were complicated by its expansive nature, the de-employment of American troops and the inefficiency of the German police.

The reference to re-deployment,

indicating that American controls might have been relaxed because of the cut in quantity and quality of American troops here, was one of three slight references to American involvement in black market operations.

One of the other two references noted the sudden appearance on the black market of American goods stolen or otherwise obtained from stocks held at signal corps, engineer, ordnance and quartermaster depots. The report also mentioned "items" procured in many instances from American troops.

The reference to U. S. participation in the black market involved the establishment of "barter marts." They were organized exchange shops where Germans could swap their old silver, Meissen china, expensive cameras and Persian rugs for the cigarettes, soap and other American luxuries which the Germans considered necessities.

The history just released does not include a report of what happened to the black market when U. S. authorities banned further import of cigarettes and tobacco, theretofore brought in by the case for "bartering" purposes.

The acceptance of the black bourse as a way of life stemmed not only from the dire economic straits in which the Germans found themselves after the war, the report said.

German veterans of the Nazi occupation of other European countries remembered the harassing effect of the black market on their administration and calmly went about the task of creating the same effect in the American military government.

The history credited the displaced persons reported always to have been a source of difficulty in maintaining security in occupied Germany, with much of the responsibility for black market operations. Their constant comings and goings, crossing borders, moving from one place to another, were a natural vehicle for black

The Horned Toad Derby, sponsored by the Chamber of Commerce, from all reports was a success. Plans are formulating to make this an annual affair on a much larger scale. Eastland received much publicity in many California papers, caused by the entry of "Old Rip V" in the famed Coalinga Horned Toad Derby. Our clipping service shows an EASTLAND dateline consistently appearing in more than 55 newspapers from all parts of Texas, with news of local activities. We receive a weekly take-off of the Railroad Commission Records, showing new well locations, completions, etc., in Eastland County. The information is available at the office at any time.
