THE NEWSPAPER THAT WORKS FOR A BIGGER, BETTER BOVINA

WEDNESDAY, JULY 8, 1964

BOVINA, TEXAS

VOL. IX NO. 2

## WHITTLIN'

BY DOLPH MOTEN

This country has its share of strong points and advantages. Until this week, though, we'd never hear "good fishing" mentioned as one of them.

But Billy Whitecotton, the supermarket man, is bragging on Parmer County fishing. Billy just returned from a two weeks vacation. He fished in four states, including Texas, Oklahoma, Arkansas and Missouri, while he was gone.

After he returned home, he fished a couple of times at a pond a few miles east of Hub. "I caught more and better fish faster within 15 miles of Bovina than I did at any of the lakes I fished in while we were gone," Whitecotton declared.

Maybe the chamber of commerce should add "Excellent Fishing" to its list of community advantages!

As expected, the lighting of tennis courts here has created more interest in that sport of late.

We've noticed the tennis court lights on several nights... and sometimes late.

Wonder if there's sufficient interest yet for a tennis tournament?

Harold Carpenter, who is better known as a Little League baseball manager, says he used to be able to play tennis pretty good. And to prove his point, he challenges any other "grandpa" in Parmer County to a match.

Now, it shouldn't take too long to get a deal like that on! We'll see.

If there's an off-season for sports here, it's in August. The boys' baseball program is over early in that month and football doesn't get started until later in the month. During the lull might be an ideal time for a tennis tournament. We think members of a tournament--sponsoring organization could more than pick up enough revenue to pay for trophies for the winners and their time and effort.

Such a tournament wouldn't take a lot of work and could offer great sport for onlookers and participants alike.

Possibly it would be more appropriate to have a tournament just for girls since the baseball program is devoted entirely to boys.

According to information which has come to us, Jack Baker is one of the top biscuit makers of all times in Bovina. Mr. Baker was in to renew his paper this week, but we didn't have an opportunity to talk with him in regard to his skill in the biscuit business. However, if he isn't too modest, we'll pass along some of his tips on successful biscuit baking as soon as we learn about them from him.

Ed Isaac, who is cultivating a heavy two-tone black and grey beard for Bovina's mid-August Bull Town Days celebration, is more or less in charge of the horse tank in which non-beard growers are supposed to be dunked.

But he's having a difficult time keeping the trough filled with water. When he gets it all ready for a victim, he has to go off and leave it for the night.

That's when some non-cooperative individuals pull the plug on the tank and let all the water out. And, Isaac says, filling a horse trough with water on Main Street presents a problem. We guess that's because there's no Main Street windmill.

Be that as it may, Isaac says he'll be greatly appreciative if folks will leave the water in the horse trough when it's filled again.

Beard growers in this community are ample, percentage-wise. Seems that every third fellow we meet has a whisker patch in cultivation.

Mrs. Buck Ellison says we'll be making a mistake to give the best beard prize to a man. His wife should receive the prize, she allows, in implying that said prize should have monetary value.

She has a point, we're sure.

Remember that man who said it gets hot nearly every summer...

## ON SCHOOL BUILDINGS--

# Construction Progressing

SCHOOL CONSTRUCTION--Digging of foundations is nearing completion on Bovina Schools' near-\$200,000 expansion program. These two workers are shown cleaning out an extra wide foundation. Most of the foundations were done by machine with men tending to the cleaning out chores. The building is expected to "start up" soon, according to A. A. Arnold, who is working on the project.

Construction work on Bovina Schools \$200,000 expansion and improvement program is progressing "pretty good," according to School Superintendent Otis Spears.

Contractor for the project, which calls for construction of seven additional classrooms and improvements to the gym and to the school's sewer system, is Dean Slavens of Lubbock.

"They're about ready to start pouring foundations on the high school addition," Spears said early this week. Foundation forms are being readied on the grade school addition.

Work began on the project some two weeks ago. Completion time was expected to be 180 days.

## Bible School Enrolls 154

Church of Christ Vacation Bible School enrolled a total of 154 adults and children in their school Monday afternoon, according to Joe Pinner, director of school.

"God's Son and Worship" is theme of the school which will continue through Friday with classes each afternoon from 4 to 6.

Friday evening will climax the week's activities with a program at 8 which will be followed by an ice cream social.

## Weather

by Willie

We will have some threatening weather by the weekend. --Willie

## JULY FOURTH--

# Model Plane Contest Draws Good Crowd

A total of 39 contestants from 11 towns competed in second annual Bovina Modelers model airplane contests here Saturday.

Trophy winners were: STUNT--John Laney, Odessa, first; Riley Wooten, Lubbock, second; and Wayne Welch, Lubbock, third;

RAT RACE--Marvin Denney, Amarillo, first; Raymon Wilkins, Slaton, second; and Fred McClendon, Odessa, third;

COMBAT -- Wayne Welch, Lubbock, first; Tommy Weems, Hereford, second; and James Mears, Lubbock, third.

Towns represented in the entry list included Bovina, Clovis, Hereford, Amarillo, Lubbock, Odessa, Slaton, Fort Worth, Tahoka, Portales, and Muleshoe.

The action began on the holiday morning at 10 and continued until late in the afternoon.

Attendance at the contests was "very good," according to (Continued on page 2)

## PEEWEEES PLAYING FOR KEEPS--

# Baseball On Schedule After Holiday Break

After a light schedule last week because of the holiday weekend, boys baseball action gets underway again this week for full slates of games.

Thursday night of last week, games which were rained out June 12 were made up, Oklahoma Lane continued its undefeated streak with a 5-1 win over the Lions in a game played at Texico-Farwell. In a tilt here, Red Tops walloped Three-Way-Chemical-Bovina Gin, 16-6.

These games marked the end of make-up games. All scheduled games have now been played to date.

Regular action Monday night saw Bovina Wheat Growers-Bovina Insurance drop a 9-2 decision to the Red Tops at Texico-Farwell. Isaac Ancira went the distance on the mound for the losing Bovina team. In Monday night's game here, Bank-Lawlis ginned the Lions, 9-5. Roy Mayhew was the winning pitcher.

Peewee action started for keeps Monday as Parmer County Farm Supply beat Texico-Farwell there, 6-3, with Kim Rundell getting the win. The Bovina peewee game had Dairy Freeze beating Oklahoma Lane, 6-2. Mike Jones

was the starting pitcher. He was relieved by Larry Wiseman.

Upcoming peewee games include:

THURSDAY -- Dairy Freeze

(Continued on page 6)

## CLOSE, 5-4 DECISION--

# Carpenters Win Over Palmers In LL All-Star Game Friday

An all-star game worthy of the title was unreel in Little League play here Friday night.

The team managed by Harold Carpenter of Oklahoma Lane Eagles came from behind in the final two innings to take a one-run win over the team headed by Butch Palmer of First National Bank-Lawlis Gin.

The contest pitted the top four players from Oklahoma Lane, Lions and Bovina Wheat Grow-

ers-Bovina Insurance against the leading four from Bank-Lawlis, Red Tops and Three-Way Chemical-Bovina Gin.

Carpenter's winning surge was highlighted by Catcher Stuart McMeans' three run home run in the fifth inning. The final two runs for the winners came after two were out in the last frame. Isaac Ancira singled, and after a strike-out came home on James

Symcox' double. After Symcox went to third on a passed ball, Danny Prince got the game-winning run batted in with a hard-hit grounder to the right side of the infield.

Prince, who hurled the final two frames for Carpenter's team, got credit for the win. He allowed one single in each of the two innings he worked and gave up one unearned run.

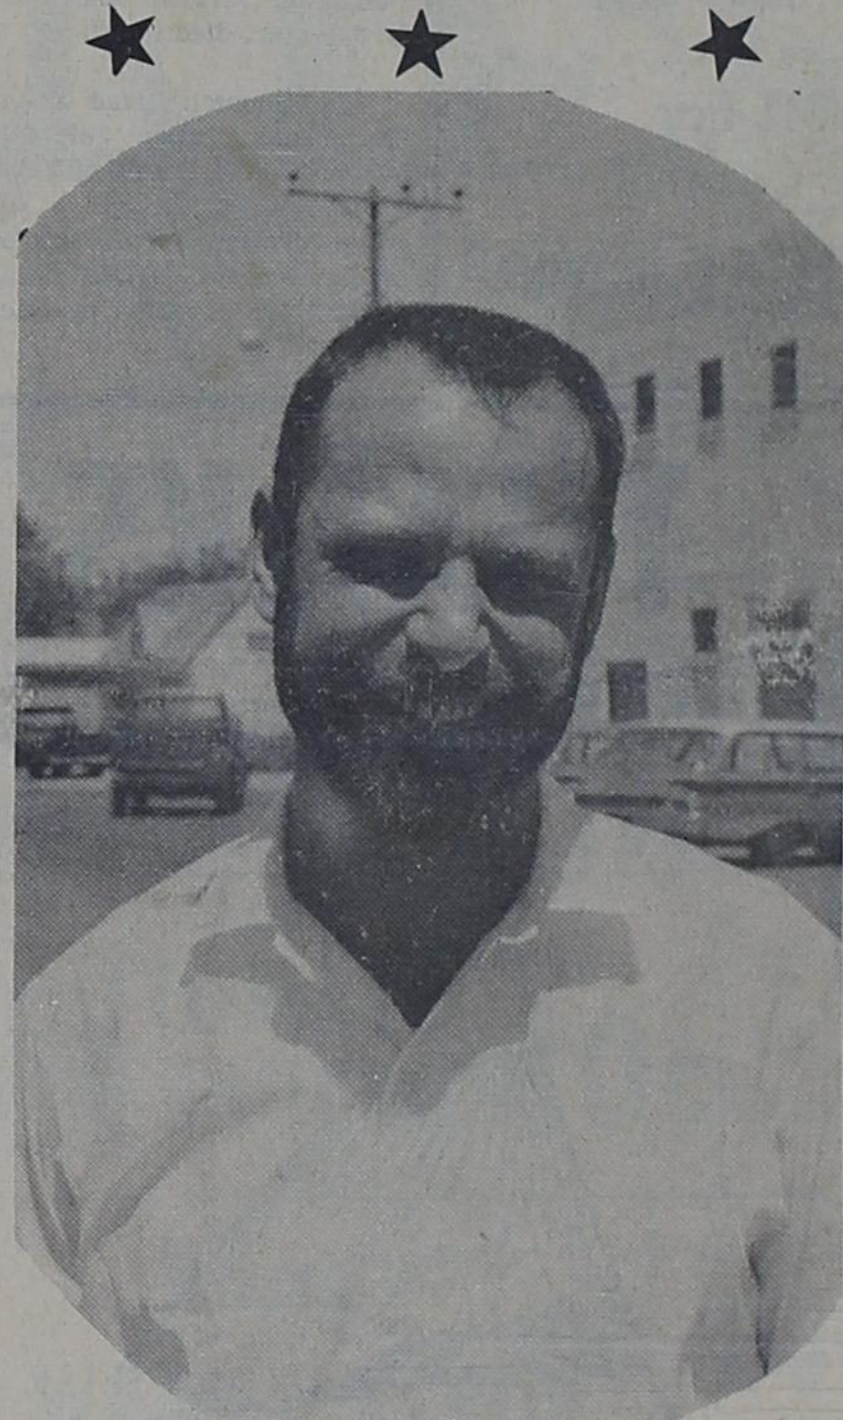

Palmer's squad drew first blood early. With one out Greg Meeks singled and came home as Dean Stovall homered to right field. In the third inning, Meeks, who had a perfect three-for-three night at the plate, again led off with a single, advanced to second on the left-fielder's error, and scored on Stovall's single to put his team in front, 3-0.

Joe Don Stevens, who pitched hitless and runless ball for his team during the middle frames, scored the final run for the Palmerboys in the fifth. He was safe at first on first baseman's error, went to second on a passed ball and came home on meeks' third hit of the night.

For the winners, Manuel Quintana hurled the first two innings. He allowed three hits and two runs. Greg Hargrove (Continued on page 2)

BULL TOWN DAYS SESSION--In preparation for area radio and television publicity for Bovina's Bull Town Days celebration, Cotton John Smith of KGNC in Amarillo, right, and Jack McCracken, manager of Bovina Chamber of Commerce and Agriculture, are shown discussing plans for the three-day festival which is scheduled for August 13-15. Cotton John, well-known area radio-TV personality, was in town this week getting information about the celebration.

A BEARDED ONE--Edward Isaac is one of many Bovina men sporting a beard to bring attention to the first annual Bull Town Days which are scheduled for mid-August. Non-beard growers are required to purchase a \$2 shaving permit or suffer the consequences.

## Building Service Station

Construction of a new business for Bovina is underway. It is a gasoline service station which will be constructed on south side of Highway 86 east of Southside Motor Supply.

Building the new business is L. H. Marshall of Olton. Property along the highway was purchased recently from Mrs. Mel Gunn.

Also being located on the property is a house which was moved in for living quarters. Completion of the building is expected in the next few months.

## Graveside Rites Conducted For Sikes Infant

Graveside rites were conducted Sunday afternoon at 2 p.m. for Kenneth Wilfred Sikes, infant son of Mr. and Mrs. Wilfred Sikes.

Rev. John Ferguson conducted the services at Bovina Cemetery.

TIED FOR SECOND--Presently tied for second place in Bovina's Little League is the team sponsored by First National Bank-Lawlis Gin. Members of the team are, kneeling left to right, David Dixon, Billy Mayhew, Roger Shook, Tommy McCormick, Kyle Carter, Greg Hromas and Buddy Clements.

Standing left to right, Alvaro Cano, Alan Dilger, Joe Don Stevens, Roy Alonzo, Bobby Cruger and Roy Mayhew. Not present when the picture was made were Billy Kesler and Steven Wiseman.

## TWO RESIGN--

# 5 Vacancies On Faculty

Two members of Bovina Schools faculty have submitted resignations recently, announces Otis Spears, superintendent.

Those resigning were Mrs. Barbara Eaves, who taught English and history in junior high, and Mrs. John Zahn, cooperative librarian for Farwell and Bovina.

This leaves a total of five vacancies on the faculty, Spears

says. Two more positions are expected to be officially filled at a meeting of school board Monday night.

Expected to be approved at the board session are an elementary principal and a third grade teacher.

The vacancies include the two aforementioned, high school science, junior high coach and a third grade section.

# Reflections

From  
*The Blade*

SIX YEARS AGO  
 July 2, 1958  
 Bovina city commissioners Tuesday morning took necessary action calling for a bond election for improvement to the city water and sewer system.

Fun for everyone is threatening to burst out at the seams at Mustang Field in Bovina on the Fourth of July. The Bovina Lions Club is again sponsoring the annual Bovina Fourth of July celebration for the entire community of Bovina and the surrounding area.

Three Bovina Future Farmers of America have passed approval of the state examining committee for the Lone Star Farmer Degree, according to Roy Crawford, James Stevens, Duane Rea and Don Bandy were the three whose project records were approved by the state committee.

Eleven boys of the local Boy Scout organization left Friday afternoon for an overnight camp out in the canyon near Tiaban, N.M.

Announcement of a plan to grow about 4-- acres of lettuce in the Bovina area was made this week by Otto Ables, representative of Gateway Produce Company.

THREE YEARS AGO  
 July 5, 1961  
 The weatherman misread his calendar. It rained on July third in Bovina instead of the fourth and Bovina's Independence Day Celebration was a big success.

Until someone with proof to the contrary comes along, M. H. Carson, who farms four miles north of Bovina, is laying claim to having the youngest combine crew in action on plains this summer. Carson's crew with the oldest members only 15 has cut approximately 1000 acres of wheat and barley this season and has done as good a job as anybody could ask for, Carson believes.

Lions Club concession stand at ballfield was broken into over weekend, Deputy Henry Minter reports.

First convent in Texas, the Ursuline Academy, was established in Galveston in 1847.

Only two Texas Governors, Pendleton Murrah and Beauford Jester, died in office.

Sam Houston lived in the Shenandoah Valley before he became the liberator of Texas.

Dehydration of fruits and vegetables was the earliest method of food preservation practiced in Texas.

Finest commercial wool in the 16th century was produced by Spanish merino sheep.

A newborn porpoise weighs about 25 pounds and is 30 to 40 inches in length.

Eggs of the female octopus are about half the size of a grain of rice.

Bloom of the magnolia tree is the official state flower of Louisiana.

### All Stars--

(Continued from page 1)

pitched during the fourth and fifth stanzas, allowing one run on two hits. Prince finished. He allowed two singles and one unearned run.

J. R. Sewell, working the final two innings for his team, was the losing pitcher as five runs were scored on four hits, including McMeans' three-run blast down the left field line.

Wesley Harris started for the Palmer squad and allowed only a

lead-off double to Symcox. Stevens pitched the middle frames and faced only seven batters--one man was safe on an infield error with two out in the third inning.

# it's a woman's WHIRL

By Rosemary

From rice to honeymoon, traditional wedding customs in the United States were first practiced in ancient times. Escorting the bride down the aisle and tying old shoes to cars derives from ancient Egypt where, the bride's father gave her away by handing one of her sandals to the groom. The use of today's ring as a symbol of the lasting quality of love also traces to the Egyptians.

Brides who have young ring bearers are following a custom of medieval Italy, where page boys from wealthy houses

holds took part in wedding ceremonies. The tossing of bouquets copies French custom. Those who prefer giving away garters are following a Gallic practice. The wedding trip as a "honeymoon" dates back to the Norse who each day for a month after their nuptials took a sip of mead, a fermented drink of honey, to bring them good luck.

And, finally, women will be pleased to know that the name bridegroom comes from Anglo-Saxon England where it was the custom for the husband to wait on his bride at the wedding feast. He was called the groom or servitor.

Summertime picnics can be more fun and less work if a few simple hints are followed. When packing sandwiches stand them on edge to keep the bread from getting soggy. Matches can be made waterproof by dipping them in colorless nail polish. A small piece of sandpaper is enough to ignite them when needed. The food load can be easily lightened by using dried instead of fresh fruit.

New summer brightness can be added to the interior of the home with a few simple and easy touches. Drawers of unfinished chests can be done in bright colors. Bathroom accessories can be made vivid red or blue. The mantelpiece can be painted a favorite color and have its whole complexion changed with decorative tiles which pick up colors in the room.

Women who must operate within the narrow confines of tight family budgets will probably look with jaundiced eye at the federal government's far-out expenditure of taxpayers' funds — \$119,000 to study eye and brain development of the mosquito; \$14,700 to investigate the spotting of patterns of frogs and \$54,700 for a look into family functions in contemporary China.

As a pedestrian, you have probably had your troubles crossing the street at some time or other. If so, the Texas Safety Association says, think the problem faced by those who are blind, or whose natural agility has been impaired by injury, illness or age. Their safety depends upon our alertness and courtesy when we are driving, and they are walking.

The Texas Safety Association reports that drivers who control their tempers are much more likely to be able to control their cars in emergency situations. Remember, that our streets and highways are crowded and dangerous enough without angry drivers duelling with horsepower.

Many persons drown each year while trying to save another person, and the Texas Safety Association reports that frequently the would-be life saver is the only one who drowns. If you do not swim well, do not attempt to save another person who is in trouble in the water. You will save time and probably two lives if you will go for help first.

The Texas Safety Association advises youngsters and adults to never go swimming alone. Take along a "buddy" for safety. If an emergency arises, you can help each other, or go for help.

### Party Fetes Miss Edens

Miss Patricia Edens, daughter of Rev. and Mrs. Davis Edens, and former resident of Bovina, was honored with a Coke Party Tuesday afternoon at the home of Miss Suzanne Wilson. Refreshments of chips, dips, cookies and Cokes were served to guests.

Attending were Martha Adams, Beth Hutto, Nancy Mitchell, Pamela Grissom, Candy Wilson, Denise Cle-

ments, Kathy Estes, Doris Corn, Vickie and Dian Evans of Oklahoma City, Karen Bell and Pam Wilson.

### Boy Born To Jerry Wilburns

Mr. and Mrs. Jerry Wilburn are the parents of a baby boy born July 3 at Torojon Air Base in Madrid, Spain. The new arrival weighed seven pounds eight ounces and is named Shawnon Keith. Grandparents are Mr. and Mrs. Arnold Hromas of Bovina and Mrs. Lorene Wilburn of Roby.

### Sudderths Have Family Picnic

Mr. and Mrs. Haskel Sudderth hosted a family picnic Independence Day for members of Sudderth family. The group had a fish fry and members of family brought dishes to compliment the hostesses dinner. Those attending were Mrs. Lee Sudderth, Mrs. Opal Sikes and son and grandchildren of Clovis, Randy Foster of Clovis, Mr. and Mrs. Ted Gardner and family, Phoenix, Ariz.; Mr. and Mrs. A. L. Hartzog and family, Mr. and Mrs. S. E. Redden and family, Mrs. Mae McGills of Colorado, Mrs. Janie Fila, Mrs. Jerry Strawn and son, Mr. and Mrs. Ronnie Sudderth, Mr. and Mrs. Billie Sudderth and grandchildren, Mr. and Mrs. J. B. Sudderth and sons of Farwell and Mrs. S. A. Hodges and sons of Happy.

### Mrs. Dixon Hosts Club

Mrs. P. O. Dixon entertained members of Thrifty Club Monday afternoon at her home. The group spent the afternoon embroidering tea towels for the hostess. Refreshments of lemon jello cake and ice tea were served to guests. Attending were Mrs. H. H. Kelso, Mrs. L. M. Grissom, Miss Lola Grissom, Mrs. J. D. Stevens, Mrs. G. A. Bandy, Mrs. Frank Smith, Mrs. Earl Ware, Mrs. H. D. Bradshaw and the hostess.

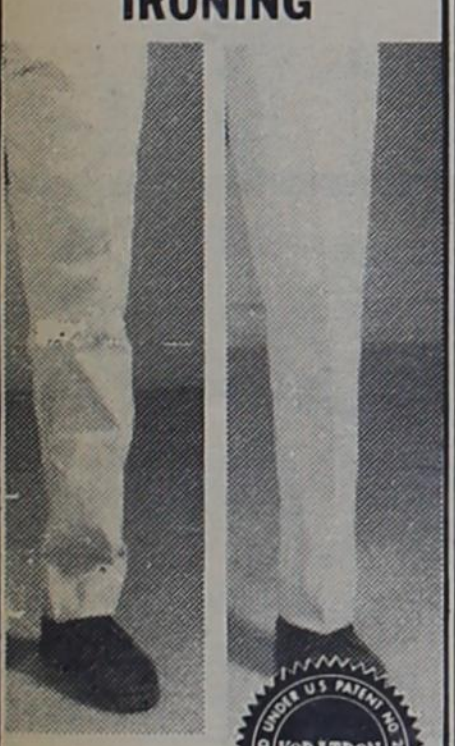

### Shower Fetes Bride Elect

Miss Cynthia Patterson, bride elect of James McDaniel of Borger, was honored with a miscellaneous shower Monday afternoon in fellowship hall of First Baptist Church. Hostesses presented the honoree, her mother, Mrs. Jack Patterson and Mrs. Charlie McDaniel of Borger, the groom's mother with corsages. Mrs. Travis Lloyd presided at the guest registry and Miss Judy Roach played piano selections throughout the afternoon. The bride's table carried out her chosen colors of pink and white. The table was laid with a white lace cloth over pink and centered with an arrangement of pink roses. Refreshments of cake decorated with pink motif and punch were served to guests by Mrs. Darrel Read and Miss Judy Strawn. Approximately 30 guests called at the come and go court-esy. Hosting the occasion were Mrs. Jack Clayton, Mrs. Earl Richards, Mrs. Ovid Lawlis, Mrs. Floyd Damron, Mrs. J. D. Stevens, Mrs. Ronald Minyen, Mrs. T. F. Taylor, Mrs. Norvell Strawn and Mrs. Travis Lloyd.

## Of Interest To THE WOMEN

Pickup and delivery service is available for youngsters who go to Church of Christ Vacation Bible School. Howard Ellison's pickup is the "school bus".

### Blade Sawdust

We have heard an abundant supply of fishing stories in our day but they do get bigger and better each one we hear. Dub Mayhew tells us that he fishes with marshmallows. Now this certainly sounds like a fish story especially when he supports the story with facts that he caught fish with marshmallow bait. However, maybe it isn't so far fetched. Believe if I were a fish a different diet which included dessert would be real fine.

This could be entitled Ripley's Believe it or Not, J. P. Macon and Willis Hester split the cost of my cup of coffee the other morning at Spudnut shop. Am glad I didn't eat a Spudnut or I might not have gotten it paid for.

We don't know whether the Deputy Henry Minter is trying to cut the cost of high living or the department cost but we saw him using a bicycle the other afternoon. Now, granted, this would be a cheaper method of chasing crooks but how would one ever get up enough speed on a bicycle. Who knows though, maybe he is just keeping physically fit.

Ola Lee Jones said she finally tracked down the fellow who sells shave permits. It seems she has had enough of Paul's mustache. It is amazing but mustaches always make us wonder if they are trying to grow one or just have a dirty lip. Leaves one in a quandry as far as conversation goes.

We read the other day that the modern medicine chest no longer contained castor oil and aspirin but pep pills to pep one up, tranquilizers to slow one down and sleeping pills to make one forget it all.

Bull Town Days should be good for a lot of reminiscing and recalling of good ole days. Hope any of you who have an interesting story concerning early Bovina will contact us. We want to publish the story!

### Everhart Family Has Reunion

Hillcrest Park at Clovis was scene of a family reunion and picnic Sunday for members of Everhart Family.

Those attending were Mr. and Mrs. Truman Baldwin of El Paso; Mrs. Besse Purcell of Roswell, N. M.; Mrs. W. C. Everhart of Odessa; Ernest Everhart of Lefores; Mr. and Mrs. Edwin Everhart, Mr. and Mrs. Ollie Everhart and daughter, Ellen Jane all of Odessa, Mr. and Mrs. Wanda Everhart of Jal, N. M.; Mr. and Mrs. Junlor Purcell and family of Muleshoe, Miss Kay Douglas and Bill Bovell of Muleshoe, Mr. and Mrs. Buster Purcell and sons of Roswell, N. M.; Mr. and Mrs. Tom Hartwell and family, Mrs. Stella Purcell, Mr. and Mrs. Butch Palmer and son and Mr. and Mrs. J. D. Stevens and family all of Bovina.

### Party Honors Brad Owens

Brad Owens, son of Mr. and Mrs. Don Owens, celebrated his sixth birthday with a party at his home Thursday morning. Youngsters were given favors of balloons, candy, gum and yo-yos.

The birthday cake carried out a camping scene, being decorated with animals and a tent. Refreshments of cake and punch were served to youngsters at an outdoor table decorated with a birthday tablecloth, cups and napkins. Those attending were Janie Clements, Jeff Hromas, George and Edward Isaac, Debbie and Terry Potts of Texico, Mat Moten, Chuck Vickers, J. B. Means, Brad and Steve Owens.

### Rainbows To Paint Trash Cans

Rainbow Girls will sponsor a house to house canvass Friday morning to paint trash cans. The girls will charge \$1, and will work from 9 to 12 a.m. Following the work morning the girls will have a salad luncheon at Masonic Lodge Hall, according to Mrs. A. M. Wilson, Mother Advisor.

### MYF Sponsors Ice Cream Social

Methodist Youth Fellowship is sponsoring an ice cream social Tuesday night at Methodist Church at 6:30 p.m., according to Nancy Fowler. Tickets can be purchased in advance from M. Y. F. members for 50¢. Everyone is invited to attend.

### Miss Corn Has Party

Doris Corn, daughter of Mr. and Mrs. Charles Corn, entertained several of her friends with a swimming party in their pool in the yard Friday.

Following swimming refreshments of chips, dips and Cokes were served to guests. Attending were Suzanne Wilson, Pamela Grissom, Candy Wilson, Diane and Vickie Evans of Oklahoma City, Patricia Edens of Denver City and Nancy Mitchell.

### Youth Decides Women's Game

The advantage of youth proved to be the difference in a women's July Fourth softball game here. A team of high school girls outran a women's team, 20-19. More women's softball games are expected to be scheduled in the near future.

### Quilting Club Entertained

Mrs. Levi Johnson entertained members of Quilting Club Thursday at her home. Members brought a covered dish to compliment the hostesses luncheon. During the afternoon members quilted for the hostess. Attending were Mrs. H. D. Bradshaw, Mrs. T. P. Griffith, Mrs. Travis Lloyd, Mrs. Reagan Looney, Mrs. J. E. Owens, Mrs. J. R. Caldwell, Mrs. Billy Johnson and son.

### Mrs. Willard Hosts Circle

Mrs. Ralph Roming presented the program on "Dedication" to members of Charity Circle Tuesday morning at Methodist Church. The group had a short business session after which refreshments were served by Mrs. Vernon Willard. Those attending were Mrs. Ralph Roming, Mrs. Richard Baxter, Mrs. Jimmy Clements, Mrs. Leon Ware, Mrs. Vernon Willard and Mrs. Harold Snell.

### Visitors In Hromas Home

Mr. and Mrs. W. E. Lovell and daughter, Judy, of Fort Worth are visiting in the home of her parents, Mr. and Mrs. E. A. Hromas. They were dinner guests at the home of Mr. and Mrs. Arnold Hromas on Monday and plan to visit other relatives for about a week.

### R. L. Standerfers Visit Here

Mr. and Mrs. Rufus Standerfer of Stratford who are former residents of Bovina, visited in the home of Mr. and Mrs. Elton Venable last week.

Third grade class under the direction of Mrs. Buck Ellison is ready to get underway for a week of study and play at Bovina Church of Christ Vacation Bible School.

### 39ers Honor Mrs. Read

Mrs. Nola Read was honored with a birthday dinner Tuesday evening by members of 39ers Birthday Club at the home of Mrs. Paul Jones. The dinner menu consisted of hamburgers cooked on an outdoor grill, pickles, relishes, potato chips, homemade ice cream. Attending were Mrs. Odis White, Mrs. Robert Read, Mrs. J. W. Wright, Mrs. Joe Wilson, Mrs. Jesse Walling, Mrs. Emmett Tabor, the honoree and the hostess.

### Dorcas Circle Has Luncheon

Methodist Church was the scene of a luncheon Wednesday for members of Dorcas Circle. The group continued their study and had a covered dish luncheon. Attending were Mrs. I. W. Quickel, Mrs. Pearl Moore, Mrs. John Wilson, Miss Ellen Reminsnyder, Mrs. Frank Wilson, Mrs. Pat Kunselman, Mrs. Earl Richards, Mrs. Lloyd Battey, Mrs. Mable Newberry and Mrs. T. J. Hopingardner.

### Swimming Party For Youngsters

Several youngsters were entertained with a swimming party Monday afternoon at the home pool of Mr. and Mrs. Charles Corn. Hosting the party was Heidi Corn. Following an afternoon of swimming refreshments of chips, dips and Cokes were served to youngsters. Attending were Cindy Read, Evanna Johnston, Nancy Hutto, Cathy Crump and Terri Willard.

### Boy Born To Billy Malcoms

Congratulations to Mr. and Mrs. Billy Malcom on the birth of a baby boy born July 3 at a Tulsa hospital. The new arrival weighed eight pounds two ounces and is named Rance Blane. The Malcoms have three other children, Monty, Tracy and Neala. Maternal grandmother is Mrs. Frank Smith.

### Whitcottons Return Home

Mr. and Mrs. Billy Whitcotton, Kim and Billy, returned Friday following a two-week vacation to points of interest in Arkansas, Missouri and Texas. Enroute home they visited Six Flags at Dallas.

## AMMO NOTES

By Bill Bennett, Agronomist

### Losses of Nitrogen

A review of research recently released by TVA provides additional insight into losses of nitrogen by way of volatilization in the ammonia form into the atmosphere. The report was primarily a summary of the research work done on topdressing the various forms of dry nitrogen fertilizer such as ammonium sulphate, ammonium nitrate and urea. The summary pointed out that nitrogen losses can occur on alkaline, calcareous soils which contain free calcium carbonate (caliche). The ammonium sulphate, ammonium nitrate or urea can apparently react with calcium carbonate to form ammonium carbonate. This compound is unstable and will break down and release nitrogen as a gaseous ammonia.

The extent of the loss will Home seamstresses in 1963 consumed textile materials equivalent to 400,000 bales of raw cotton, according to a study by the National Cotton Council.

obviously depend on several factors. First, soils with a pH or soil reaction of 7.8 to 7.9 or less will contain little or no free calcium carbonate, hence, very little loss would be expected on these soils. Soils with pH 7.9 or above usually contain free calcium carbonate. Soils with pH of 8.2 or 8.3 usually contain an excessive amount. When nitrogen is topdressed on these soils, losses can occur. Losses will usually be greater on hot days.

Losses can be prevented or decreased tremendously if the fertilizer is watered in soon after application or if it is chiseled into the soil or disked or plowed in.

The magnitude of losses of nitrogen by research workers varies considerably. Most of those reported will average around 10 to 20 per cent loss of the nitrogen when left on the surface. Losses were usually greater from ammonium sulphate than from ammonium nitrate. This is because half the nitrogen in the ammonium nitrate is in the nitrate form.

## Meeting In Hereford On Insecticides

On July 14, 1964, at 8:15 p.m., an educational meeting is being held in the Community Building at Hereford for the purpose of bringing facts to the producer, the processor, and the general public on the problem of insecticide residue on agricultural products.

This meeting is being sponsored by the Extension Service with the cooperation of the Hereford Chamber of Commerce, the Amarillo Chamber of Commerce, and various agricultural insecticide dealers in the area.

The U. S. Food and Drug Administration will be represented by Sam Fine, chemist with the Dallas office, who will discuss chemical tolerances allowed on various agricultural products and methods that are used to determine these chemical residues.

Also on the program will be

U. S. Secretary of Agriculture Orville Freeman has proclaimed a national wheat allotment of 49.5 million acres for the 1965-crop. It is the same as the 1964 allotment. Allotments to the states were also announced by USDA. The 1965 Texas allotment is only slightly larger than for the year before.

Allen Gunter of the agricultural department of Hercules Powder Company who will discuss the various chemicals used in the control of insects on agricultural products produced in this area.

Gunter is a former extension entomologist with Texas A&M College and is well known throughout the Texas Panhandle.

The 1964 Texas spring pig crop totaled 532,000 head, a drop of 16 per cent from the 1963 total, reports the Texas Crop and Livestock Reporting Service. An estimated 76,000 sows farrowed and average of 7 pigs per litter compared with the 6.8 pigs per litter farrowed in 1963. Nationally, the 1964 spring pig crop was down 8 per cent from 1963. The cutbacks in pig numbers is expected to strengthen the hog market later in the year.

Beginning August 1 the price quoted for the base quality of cotton, Middling 1-1/4 in each of the 15 designated bona fide spot markets will be the price at which the cotton is traded before payments in kind (PIKs) are made on the cotton.

# WHEAT STUBBLE CAN BE "MONEY IN THE BANK"

Burning of wheat stubble (residues) will remove from \$5 to \$8 per acre from the farmer's pocketbook yearly in loss of plant food, depending upon the amount of residue produced, says the Farmer County Soil Conservation District.

Research has shown that a 40-bushel wheat crop should yield approximately 5,000 pounds of air dry residue. Plant food removed from the soil to produce the 5,000 pounds residue is approximately 33 pounds nitrogen, 8 1/2 pounds phosphorus, and 58 pounds potash. It is a known fact that much of the potash is released in the burning of residues, yet much of it is swept away by wind and water erosion brought about through the destruction of the residue.

The most important management-type conservation practice in the High Plains is proper management of crop residues. Most of the wheat land should have enough residue following harvest this year to protect the land from wind and serious water erosion until the following crop is planted. Most farmers have the equipment needed to work the land to maintain the residues on or near the soil surface.

Residues left on or near the surface will break the force of the raindrop by providing a "cushion," thus preventing soil crusting and packing and therefore increase moisture intake. Soil moisture evaporation will be reduced due to lower soil temperature in the summer; therefore, more moisture will be available for the next crop.

The only reason given by man destroying stubble and straw is an old alibi -- "I can't handle the extra straw when I double crop!"

Mechanical technology today has provided shredders and rototillers which can eliminate most all of the trouble in handling extra straw. Fertilizers and irrigation water eliminates the competition between straw and the soil organisms for available moisture and plant foods.

Stubble mulch farming plus double cropping with soybeans, a forage sorghum, or summer pasture grasses can add life to the soil and dollars in the bank for the farmer.

An interesting study from Nebraska was made on the effect of straw mulch residues on silt loam soil with a five per cent slope. The total accumulation of moisture for the year was 17.9 inches. The moisture saved in soil on which two tons of straw was applied was 2.5 times more than on plowed land.

### Treatment Rainfall Depty of Conserved Water (Per Cent) Penetration

2 tons straw, disked	38.7	5 ft.
Land disked, no straw	19.5	4 ft.
2 tons straw, surface	54.3	6 ft.
2 tons straw, plowed	34.2	5 ft.
Land plowed, no straw	20.7	4 ft.

Do not burn the profits away from the soil. Make the stubble of 1964 crops help produce more in 1965!

The red maple is the most abundant maple in Texas.

## On The Farm In Parmer County

BY JOE VAN ZANDT  
County Agent

This hot, dry weather the last two weeks has been using up a lot of water in the grain sorghum and corn fields. The rainy weather we had four weeks ago probably caused the grain sorghum to grow a lot of shallow feeder roots and it failed to have a need to root down deep until lately.

We hope some of the dry weather effects will cause the grain sorghum to root down.

Several cotton fields have suffered a loss in the stands that remain after all the ill effects of the rainy weather have taken their full effect. Seedling disease took its toll after the hail, wind and rain did its damage. Seedling disease can be caused by one or a combination of several factors. Probably the weakened condition of our cotton in combination with the cool, damp weather we had brought the disease on. It thinned some stands out to one plant per two feet.

Several practices are recommended to reduce the incidence of the disease. These include: Crop rotations, select adapted, disease resistant varieties, select high quality disease-free seed, proper seeding rate (less than 30 pounds per

acre). The details of these and other practices are described in L-573, Guide for Reducing Cotton Disease Losses. Copies of this leaflet are available in the county agents office. Apparently this problem has been increasing in this area in the last few years.

I am going to confer with the specialists this week and find out what the latest control methods are. If any of you are interested in carrying out a demonstration next year on controlling cotton seedling disease, please let me know so we can start making plans.

### BOYS 4-H CAMP

A planning meeting to complete the details on the Boys 4-H camp will be held, Monday, July 13 at 8:30 p.m. in the Hub Community Center. Every 4-H boy and his dad are urged to attend.

Tentative plans are to go to Holy Ghost Canyon near Pecos, New Mexico, July 27-30. The fee for this year's camp has been set at \$8.00 for everyone attending. This money will have to be in the County Agents office by Monday, July 20.

Boys, age 9 thru 20, who are interested in joining 4-H should make plans to attend the meeting and the camp. We are all interested in rebuilding our 4-H program so any new comers will be welcome to attend.

### BEEF CATTLE SHORT COURSE

The fourteenth annual Beef

Cattle Short Course will be held at Texas A&M University, College Station on July 27 and 28.

The program will give attention to beef importations, the use of new feedstuffs, methods and costs of fence construction, establishment and utilization of hybrid bermudas, climatic influences in cattle production, cattle breeding and reproduction, judging beef cattle from the functional standpoint and carcass characteristics.

More complete details on the program can be obtained at the county agents office.

## Spider Mites Threat To New Cotton

Are your cotton leaves turning color? Are they covered with fine, pale green to white-yellow spots, or becoming yellow to purple-red? If so, it's a safe bet that spider mites are hard at work -- sucking the life out of your cotton.

Close examination of the lower leaf surfaces will probably reveal the small, rapidly moving pests, green to bright red in color.

Spider mites, red spiders, or cotton red spiders, whatever you call them are usually found wherever cotton is grown, especially in dry arid areas. Although they are active during the entire growing season, they thrive best and multiply fastest in warm dry weather, conditions which are most likely to appear in late-July and mid-August.

Because the insects are so (Continued on page 3)

# Texas And The World Soybean Situation

By James E. Kirby  
Economist-Marketing and Policy  
Texas Agricultural Extension Service

a notable amount of soybeans, which was a decrease from a Last year it shipped 1,229,000 bushels into the world trade high of 3,556,000 bushels in 1962.

World soybean production is expected to set a new record in 1964 if United States planting intentions materialize and weather is favorable.

Since the U. S. produces 94 per cent of all soybeans in world wide trade, the intentions of the U. S. producer set the pace for the world market.

Communist China produced more than the U. S. in the 1950-54 period. However, U. S. soybean production in the 1955-59 period was not only greater than that of China but was 73 per cent of the world market. It progressed steadily to a high of 94 per cent in 1963.

Soybean stocks in the U. S. on April 1, 1964, set a record high of 376 million bushels, 10 per cent above last year.

Soybean production in Texas for 1963 was estimated at 2,604,000 bushels which is a sharp increase from the 1,680,000 bushels produced in 1962. The harvested acreage last year was 40 per cent greater than the 60 thousand acres harvested a year earlier. A large part of the 1963 increase can be attributed to acreage planted on the High Plains following the loss of cotton from late June hail and washing rains. About 90 per cent of the soybean acreage in Texas is on the High Plains.

Some expansion in soybean production in the world markets seems likely; however, no spectacular rise is foreseen in the immediate future. The average price of U. S. soybeans, American No. 2 yellow, bulk, c.i.f., in European ports, was \$3.17 in January, 1964. Prices have since declined steadily, reflecting the larger U. S. supplies. The average for April of this year was \$2.93.

Significant expansion in soybean production has occurred in Mexico, Colombia and Argentina in recent years.

Mexico's production has risen from a negligible quantity in 1958 to almost two million bushels in 1963. This increase was almost four times the 1962 amount and reportedly resulted from further use of new varieties.

Columbia has had a similar increase from a scant volume in the early 1950's to over a million bushels last year. In about the same period, Argentina's production has grown to almost 700 thousand bushels. However, none of these countries export a significant amount in world trade.

Brazil is the only other country in the western hemisphere besides the U. S. that exports

## Hot Weather Hauling Should Be Planned

Did you ever wonder how a hog feels on a hot day? If not, think about it the next time you are hauling a load. Before loading them, stop and think about how hot it is and how long the hogs will be crowded together. When the farmer gets hot, he can roll up his shirt sleeves, get into a breeze or shade, get a drink of water or even take a shower. However, a load of hogs in transit has little if any chance to take advantage of these simple measures unless man provides them. By following a few simple rules, excessive shrink and transit death losses can be reduced, says Donalds Osbourn, assistant animal husbandman,

Texas A&M University. Avoid excitement and overheating while loading and sorting ahead of time helps quiet them down, says specialist. He offers these further suggestions for making the trip to market more comfortable for the hogs. Load one or two fewer hogs to let more air circulate through the load. Cover trailer or bed of truck with a tarp if animals are to be hauled more than a few miles. Remove straw bedding and substitute sand, sawdust or shavings, and wet the bedding if the temperature is above 75

(Continued on page 4)

Awards were made by Archie Tartar, Lazbuddie county committeeman. Pictured left to right are: Louis Welch, Friona, Thomas Beauchamp, Bovina and Archie Tartar, Lazbuddie members of the county committee; Irvin Martin, Mrs. Dorothy Gast, Mrs. Billie Faye Sluder, Mrs. Elizabeth Turner and Prentice Mills, manager of the local ASC office.

Four employees of the local ASC office were honored on Thursday afternoon when they were presented with pins and certificates denoting their years of continuous service with the ASC service. Presented with a 15 year pin and certificate was Irvin Martin. Ten year awards were presented to Mrs. Dorothy Gast, Mrs. Billie Faye Sluder and Mrs. Elizabeth Turner.

## 4-H County Dress Revue Set For July 16

The county 4-H Dress Revue will be held at the Oklahoma Lane Community Building at 8 p.m., July 16. The public is invited to attend this event, which is the big event of the year for the girls who are enrolled in the Clothing Project. Girls participating in the dress revue must have their garments and record books in the office of Cricket B. Taylor, Home Demonstration Agent no later than 9 a.m. on July 16 for judging. To be eligible to compete in the county 4-H dress revue, girls must be enrolled in a clothing program, and must have worked under the supervision of an adult leader, trained by the county HD Agent. Clothing projects include training, not only in sewing techniques and skills, but cover other phases of clothing such as how to select fabric, plan a wardrobe, good grooming tech-

niques, how to care for clothing and how to make a good appearance. Girls will be judged on the following:  
1. THE GIRL: - posture, poise, grooming.  
2. THE OUTFIT ON THE GIRL: - general appearance, fit, accessories.  
3. CONSTRUCTION: - quality of work.  
4. RECORDS: - 4-H activities, projects, and personal development. Oklahoma Lane HD Club will be in charge of decorating and will provide music for the event. Narrator for the show will be Mrs. Joe Jesko. Study bread labels before you buy, and choose bread for weight and food value rather than size of the loaf, says Marie Tribble, Extension Service nutritionist at Texas A&M University. Look for bread that is whole-grain or enriched, and that contains milk.

### Marcy Lee's look in scarf-ties

Fashion-front, a scarf-tie that's strikingly interesting, in a dazzling array of checks. Transitionals Arriving Daily

### Spider Mites--

(Continued from page 2) small, an infestation is not generally evident until leaves become discolored. Eventually, the leaves fall prematurely and, occasionally, the terminals and squares are coated with a silky-white shiny web. Spiders are prolific pests, producing up to 17 generations

every year. The female lays eggs on the lower leaf surface. Eggs are ivory-to-cream in color and are deposited one at a time. In only three to seven days, the six-legged larvae emerge. Mites moult two to three times before reaching maturity. Control is difficult due to its complicated life cycle, resistance of some species, and

the fact that an infestation has a good start before the pest is discovered. A spray of demeton at dosages recommended by state extension services will give a fast kill of spider mites, thereby stopping an infestation from increasing. The leaves absorb demeton, and it soon circulates throughout the sap stream, protecting the plant from one to two more weeks after the initial spray. The systemic action prevents re-infestations from migrating mites and kills larvae emerging from the eggs.

TAKE A CLOSER LOOK AT GIFFORD-HILL-WESTERN'S ALUMINUM PIPE!

A close look at your aluminum pipe will reveal some little things that make a big difference in life and performance. Reinforced ends and couplers . . . no out of round ends or splits. A long formed coupler for lateral adjustment at each joint. Positive water control . . . from 0 to 90 gallons per minute. These are just a few features that add up to real value . . . and they're all Gifford-Hill-Western features you can depend on. For immediate delivery at competitive prices contact your nearby Gifford-Hill-Western Sales Office!

### School-Age Marriages May Continue To Increase

School-age marriages may not be wise, yet after one becomes a fact, adults working with the couple have a responsibility to help them succeed. Indications are that they will continue to increase in numbers.

So says Patsy Reynolds, Extension specialist in family life education at Texas A&M University. Marriage is always a time of adjustment, she explains, regardless of the age of the couple. "Add to the normal problems of this period the disapproval and often bitter incriminations of parents and the load becomes almost impossible for the young couple to carry."

By Dr. B. J. Fallon, Executive Secretary of the West Texas School Study Council, school-age marriages have a divorce rate two to four times greater than for those who marry at age 20 or older. Dr. Fallon directed the survey in 238 Texas schools in 1962.

Conclusions of the research indicate that schools should educate for a "balanced social perspective" if these school-age marriages are to be reduced or those which occur are to succeed, the specialist says. The parents and community can give the young couple practical education for dealing with problems such as budgets, house cleaning and care and use of household equipment, and preparation for earning a livelihood.

USDA has reported that the Department is getting 10,000 acres of Federal land in Nebraska for use as a site for a National Animal Research Station. The land, near Clay Center, was the site of a Navy

ammo dump, closed by the Defense Department. Eventually the station will maintain about 5,000 cattle, 10,000 sheep and 3,500 hogs and a staff of scientists and facilities to conduct a wide range of research work.

### Hot Weather--

Continued from page 3) Sprinkling animals after they are loaded will help prevent overheating while in transit. Check load often to see that the hogs aren't getting too hot. Keep the vehicle moving, stopping only when necessary and then park in a shade where a breeze is blowing, advises Osborn.

### 4-H ACTIVITIES

A meeting of 20 adult leaders and interested parents met with the Extension agents recently at Hub Community Building to discuss county rules and policies related to 4-H activities, such as, eligibility of members to participate in award programs and other events representing the County 4-H program; and county camp for boys and girls; and Achievement Awards banquet. A committee was appointed to start work on plans for the Awards Banquet to be held in November.

The girls camp committee, with Mrs. Roy Miller of Lazbuddie as chairman will meet Friday, July 10th at 10:00 a.m. in the Hub Community Center to complete plans for county camp - Mrs. Joel White, Farwell; Mrs. Carl Schlenker, Friona; Mrs. Johnnie Rundell, Farwell; and Mrs. Everett McBroom of Lazbuddie are committee members.

### DRESS REVUE

4-H girls are all excited about the big event, the County Dress Revue, and are looking forward

### Mexico Ranchers Aid Screwworm Eradication

Livestock producers in Northern Mexico are so pleased with the reduction in screwworm infestations, because of the screwworm eradication program, they are making personal contributions to keep the project going.

A local cattlemen's association in Nuevo Laredo in the Mexican State of Tamaulipas is contributing \$60 a month and the state association of Nuevo Leon is collecting \$10 from each of its members to help finance ground survey and inspection activities and control of screwworm infestations.

Sterile screwworm flies are being released in an area of Northern Mexico encompassing nearly 250,000 square miles to prevent a buildup of fertile flies that could migrate into the areas of the U. S. where the insect has been eradicated. The action has reduced screwworm problems for Mexican ranchers as well. Mexico-employed livestock inspectors cooperate with U. S. inspectors in conducting educational and survey work in this buffer zone.

Maintenance of the live-fly barrier between the two countries is credited with keeping the incidence of screwworm infestations at an all-time low for the season. Less than 90 screwworm cases have been reported in Texas during the first six months of 1964. In the same period last year, 1,464 infestations were detected, while 17,693 were recorded in 1962. New Mexico has reported two cases in 1964.

NEWSLETTER From U. S. Senator RALPH W. YARBOROUGH

Dear Fellow Texan:

This week I attended a hearing by the Special Senate Subcommittee on Poverty to hear two high-ranking government officials testify on a plan to help the 36 million Americans who live in poverty. These witnesses were Sargent Shriver, chosen by President Lyndon B. Johnson to coordinate the national efforts in the War on Poverty, and the Hon. Willard Wirtz, Secretary of Labor.

They talked of the paradox of poverty amidst prosperity, and of the Economic Opportunity Act, a bill to help people with limited income help themselves. I'm a co-author of that bill (S. 2642).

The degree of poverty in the United States is truly a paradox. The New York Times of Wednesday, June 17, quotes President Lyndon Johnson under the headlines: "Jobs, Production and Income Made New Gains in May;" "Personal Income Reached \$485 Billion per Year, Up \$25 Billion a Year;" "Industry Profits Rise;" "President Hails Advances and Says Outlook Is One of Continued Growth."

Never has this country been so rich, so prosperous, with average incomes up so high. Yet, the poverty-stricken number into the tens of millions.

Secretary of Labor Wirtz testified about the 11 1/2 Million persons under 18 years of age living in families whose total annual income is less than \$3,000 a year. He talked of the desperate plight of families headed by women, where there is no man wage-earner in the family, women who work for pitifully small incomes and try to send their children to school. He talked of the need to find jobs for almost 10 million teenagers who will enter the work force in this decade without a high school education.

Secretary Wirtz estimated that up to 300,000 boys and girls a year are hurled into this waste-heap by a society that has passed them by.

The Economic Opportunity Act was described by Sargent Shriver as a proven and feasible program. He pointed out that the funds being requested are already included in the President's budget presented last January.

This will be the first time that a major national effort of this scale has been focused on the problem of poverty in our midst. It is a program to help the people with lesser incomes become good wage-earners in a good and affluent society. The War on Poverty would provide jobs and training for young people and would aid in the use of community resources on local level.

— Ralph W. Yarborough

## Toughest Driver in Town

Mr. C. is one of the nicest, gentlest fellows you'd ever meet. It's not his fault that he's tough on his car. It's just that he has to use it for frequent short trips around town . . . start and stop driving. And that's when corrosive wear can do the most damage, because the engine may never get really warmed up.

To protect your motor under severe start and stop driving conditions (the kind of driving most of us do) your Phillips 66 Dealer offers a very special oil: Trop-Artic All-Season Motor Oil. It starts protecting at low starting temperatures, and keeps on protecting at high operating temperatures. Trop-Artic is a top-performance oil that will keep your car running better, longer.

Get Trop-Artic Motor Oil at any station where you see the Phillips 66 Shield.

SAVE 10% with GULF LP Gas WARRENGAS

Save up to 10% OR MORE... on tractor fuel and upkeep costs

REDUCE TOTAL TRACTOR COSTS. Save money with Gulf-Warregas fuel over diesel, the so-called economy fuel—and over gasoline, too. Consider all costs. SLASH REPAIR AND UPKEEP COSTS. Cut these costs about one-third with Gulf-Warregas, compared with gasoline engines. Save more than \$100 a year for 1000 hours of use with a 4-pow tractor. FEWER OIL AND FILTER CHANGES. You go three times as long as diesels and one and one half times as long as gasoline engines between changes. Spark plugs last longer—no foul-up due to fuel residues.

Gulf-Warregas is the LP-Gas member of the Gulf family of quality petroleum products. OUR PROMISE! You'll have better living and better farming with Gulf-Warregas.
