Quarterback Club Sponsors Benefit Play

"The Light Eternal" will be presented at the Eastland High School Auditorium Wednesday and Thursday evenings, November 3 and 4, under the auspices of the Eastland Quarterback Club. "The Light Eternal" is a spectacular Biblical dramatization in which many prominent people in this community will take part. It is a dramatization of the most important events leading up to and connected with the giving of the Ten Commandments. One of the most unusual things about this production is the fact that the local people taking part, instead of carrying ordinary burlesque, comedy type characterizations, will actually play very important dramatic roles that carry the audience along with a great deal of suspense and highly effective dramatic action.

Earl Frances, well known in this community, has been chosen to play the important role of Joseph. Supporting Mr. Frances in scenes filled with suspense and dramatic action are the brethren, who sell the favorite brother, Joseph, into slavery into Egypt. Jack Roper has the role of the elder brother, Reuben, who was favorable to Joseph and tried to save him from being sold into slavery. Willis Smith has the role of the grasping Judah, whose artful and scheming ways led the brothers to actually sell Joseph into slavery. The part of Simon will be done by Sin Hunt — Levi will be played by Roy Jones while the part of the young brother, Benjamin will be portrayed by Bill Cooper. These men are playing the parts of the old patriarchs who lived over 4000 years ago. They will be dressed in the costumes of the times, with long flowing gowns, turbans, sashes and beads.

Another important character is H. J. Tanner playing the part of the grandfather, who carries the first and last scenes of the production and makes a number of important announcements concerning the entire "Light Eternal." He is supported in these particular scenes by Joe Collins playing the part of the mother, and Charles Collins and Ellen Whatley who play the roles of the two grandchildren. Mr. Tanner is well known in this community, and is fitted to carry the part of interpreter and announcer and the grandfather character. Since does not permit us to tell just how his part is carried out, but we want to say here that it is done in a novel and entertaining way. One of the most spectacular and outstanding scenes in the drama is that depicting the court of Pharaoh. This scene is done in a beautiful and unusual manner. It is staged with all the pomp and glory of ancient Egypt, and is costumed in accordance with the fashions of the Egypt of 4000 years ago.

E. K. Henderson is playing the part of the Pharaoh of Joseph's time, who was so well pleased because Joseph could interpret his dreams that he made Joseph Governor of all Egypt.

A number of characters support the court scenes, including guards, court girls and the chief steward. The guards are played by Curtis Koen and Neil Day. This is an effective scene and will be long remembered in this community. Bobbie Shero and Veda Sneed play the parts of the court girls while W. C. Robinson plays the role of the Chief Steward. Father Jim has been chosen to play the role of the famous character, Moses, the ancient deliverer, prophet and law-giver of Israel. Moses is one of the most dramatic and noddynamic characters in Biblical history.

The scene of Moses' return to his people and the giving of the "Ten Commandments" is one of the most effective and impressive scenes in the entire drama.

Other characters appearing in this scene are Myrtle Aaron as Nebulon; Mattie Bell Shero girl victim; Hilda Tiner, Hannah; Winnie Edmonston, Rachel; Sude Doss, Esther.

Paper parachutes are being used with success in Sweden and have attracted attention abroad. The first foreign order called for 3,000 'chutes for the French army in Indo China.

Johnson Would Be Candidate In Special Race

BY UNITED PRESS
The rousing Texas Democratic senatorial battle, still being fought two months after it supposedly terminated at the polls on Aug. 28, appeared today to have some chance of being re-enacted from scratch.

Lyndon B. Johnson, the Democratic nominee, raised that possibility last night in a state-wide radio address in which he said that if future events led him to resign from the Senate, he would be a candidate for the place in any special election called to fill the vacancy.

Former Governor Coke Stevenson already had said he would probably be a candidate in such a race. Stevenson lost the Aug. 28 second primary contest by 87 votes, out of nearly a million cast. Since then he has fought numerous battles in the courts to have Johnson's victory nullified on grounds of fraudulent voting.

Johnson said that he won his nomination "fairly, squarely and honestly." It was his first campaign speech since before the second primary.

"I don't know how many times a man is expected to win," he said.

He said he was convinced that "I won by a much greater majority than the official figures show."

Tobacco Heiress Gets Divorce

Doris Duke, tobacco heiress, relaxes in her Reno, California home after receiving a divorce from her second husband, Porfirio Rubirosa, a Dominican Republic diplomat. Miss Duke, whose father left her a \$30,000,000 estate, said she and Rubirosa "just couldn't get along." (NEA Telephoto).

BABSON PREDICTS ANOTHER DEPRESSION, PROBABLE WAR

Editor's Note—Roger Babson, the economist who forecast the 1929 stock market crash, says there's going to be another depression and probably another war too but not this year or next.

In an interview on the occasion of the anniversary of the crash Babson said depressions are inevitable and war will come unless a world government with authority is developed.

United Press Staff Correspondent WELLESLEY, Mass., Oct. 29 — (UP)—Nineteen years ago today, Oct. 29, 1929, the stock market crashed.

It was "black Tuesday." The glass-domed tickers ran hours behind transactions in Wall Street brokerage offices in New York. In the ensuing days of panic and confusion, men who had been millionaires a week before became paupers.

Filling station attendants, bookkeepers, housewives, all "experts" on the stock market saw their small investments wiped out overnight.

One of the few men who forswore the market break was Economist Roger Babson. He predicted in September 1929 that the crash was coming.

Today, Babson took a gloomy look at the world and predicted that another depression and probably another war are on the way. However, they won't arrive this year or next, the 73-year-old former prohibition party presidential candidate said in an interview.

"Depression's inevitable," said Babson. "War isn't—but it surely will come unless the nations can develop a world government with authority to regulate such things as tariffs and immigration."

Babson said he's preparing for war because he doesn't think such an international organization can be created until the world's businessmen "stop worrying about profits, the working men about wages, and the politicians about votes."

"In other words," he said, "A spiritual awakening is the only solution to the problem."

Convinced that nearby Boston would be a primary target in World War III, Babson is preparing atomic bomb havens at Remote Eureka, Kans., and New Boston, N. H.

Foreign Surplus Disposed Abroad Reports Lovett

WASHINGTON, Oct. 29 (UP)—Acting secretary of state Robert A. Lovett reported today that the United States has sold to foreign nations virtually all of the \$10,261,979,000 in war surplus property left abroad.

The sales began three years ago and brought a return to the U. S. 19.2 cents on the original dollar of investment. Lovett told congress in a quarterly report that less than one-half of one per cent of the original stockpile still is "available and saleable."

The report confirmed that this government has no surplus stockpile from which it can draw out arms for western Europe. Under the proposed North Atlantic Security Pact the U. S. probably will be asked to provide some sort of military "lend-lease" to the five "western Union" nations.

The five nations are Britain, France, Belgium, the Netherlands and Luxembourg.

Lovett reported that the government is about ready to wind up the surplus sales program.

The Army, Navy, and Air Force in most parts of the world will stop declaring property to be surplus after next Sunday. Lovett said this cut-off date would apply to all areas but the Far East, where the program will drag on a few months longer.

The following proceedings were had in the Court of Civil Appeals, Eleventh Supreme Judicial District for Oct. 29:

Affirmed: (Judge Gray) John Kegans, et al, vs. C. C. Williams, et al. Coleman.

Motion Submitted: Fred Fauth vs. First National Bank of Granbury, appellant's motion for rehearing.

Motion Overruled: Fred Fauth vs. First National Bank of Granbury, appellant's motion for rehearing.

Motion Dismissed: Dixieland Petroleum Co. vs. Fred Brown, et ux, appellant's motion for rehearing.

Church Of God Begins Revival Monday 7:30 P.M.

The Eastland Church of God will begin a revival meeting Monday November 1, at 7:30 p. m. Services will be held each evening of this hour throughout the week, the pastor, Rev. W. E. Hallenbeck, announces.

Rev. R. L. Strickland of Lufkin will be the evangelist. He is said to have a gospel message with a unique style of delivery that will interest you.

Everyone is invited to attend the special services.

And A Mere Child Did Lead Them

FORT WORTH, Tex., Oct. 29 (UP)—A 22-month-old child owed his life to a 27-month-old child today.

It all happened when 22-month-old Jerry Daniels fell in a creek near his home in southeast Fort Worth as he was playing with a group of children.

Little Kathleen Edgar toddled to the nearest house and indicated to Mrs. Gladys Garner that something was wrong.

Mrs. Garner ran to the creek where the body of the unconscious boy was floating. Over-the-knee resuscitation revived him and he was taken to St. Joseph's Hospital for overnight observation.

Hennessee And Cagle Buy Main Street Station

Marlin Cagle and A. W. Hennessee have purchased the Texaco Service Station at 513 West Main street formerly known as the Tackett station and are now operating it.

"We will continue to handle a full and complete line of Texas Company products, and will endeavor to render prompt, efficient and courteous service," Mr. Hennessee said.

The new owners of the West Main street station invite their friends, new and old customers, to give them a chance to serve them.

Baird Firm To Open Abstract Office Here

Raymond Young and Miss Marion Vestal of Baird will open an abstract office in Eastland, December 1, Young stated Thursday.

The new business will be located in the Petroleum Building with Miss Maxine Williams in charge. The company, which operates an abstract business in Baird, will continue their office in that city.

REPORT INTERVENTION BY TRUMAN HALTS TALKS UNTIL AFTER ELECTION

The United Nations Security Council today put off action on possible sanctions against Israel, at least until the U. S. presidential elections Tuesday, reportedly as a result of intervention by President Truman.

The Council set up a five-nation subcommittee in Paris to try to work out a compromise on the disputed Anglo-Chinese proposal for economic and diplomatic sanctions against Israel unless she quits Beersheba and other territory taken from Egypt in recent fighting.

It then adjourned indefinitely, probably until Tuesday, to give the subcommittee time to work.

The United States indicated yesterday it would support the Anglo-Chinese proposal. But responsible diplomatic sources said overnight intervention by President Truman led to the decision to appoint a subcommittee and put off any definitive action until too late to influence the American elections.

The American delegation would neither confirm nor deny the report. The political committee already has postponed debate on the over-all Palestine dispute until after the American elections.

Other foreign news: PARIS — Western delegates to the United Nations expressed fears that Soviet premier Josef Stalin's denunciation of the West might herald Soviet intensification of the East-West cold war. They were concerned that the Soviet not only will increase his denunciation of the West in the UN, but step up Communist pressure throughout the world.

PEIPING, China — Generalissimo Chiang Kai-Shek's Manchurian army was reported in full retreat south toward the Yellow Sea port of Yingkow for a "Dunkerque" evacuation. The Nationalists already have begun abandoning Mukden, their last major stronghold in Manchuria, and are funneling south through a narrow 100 mile corridor to Yingkow with Communist forces pressing in from all sides.

PARIS — French troops struck a dawn against 3,000 striking miners barricaded in the big Couriot coal pit in St. Etienne, central France. They quickly overcame minor resistance and took possession. Other motorized troops and police continued their sweep through the northern coal fields, seizing mine after mine.

LANDSBERG, Germany — The U. S. army guarded nine SS concentration camp hangers and Nazi security police for executing captured American fliers and murdering and mistreating concentration camp inmates. These brought the number of executions carried out by the army at Landsberg to 171, with 60 more still scheduled.

BERLIN — A U. S. military government spokesman said the American army and air force would remain in Germany until a new German state has been established firmly and western Europe is strong enough to defend itself.

WIESBADEN, Germany — Maj. Gen. William H. Unner, commander of the combined Anglo-American airlift, said his air fleet soon would increase its haul by more than 1,000 tons a day despite fall rains and winter weather. He said the quota for Berlin would be upped to 5,500 tons a day as soon as 66 additional C-45 cargo planes are placed in operation.

ATTENTION BOYS William C. Emberton, speaking for the ministers of the city, makes the following announcement: "We need quite a few boys to give us an hour or so of their time, Saturday morning from ten till noon to help us get some valuable information in the homes of Eastland."

If you can come and help in this valuable work, meet at the Church of the Nazarene, Saturday at ten o'clock. The church is located at the corner of Main and Connelley.

THE WEATHER East Texas — Partly cloudy and continued warm this afternoon, tonight and Saturday. Moderate southeast winds on the coast.

West Texas — Partly cloudy this afternoon, tonight and Saturday. Not much change in temperature.

LIQUOR
In 1945 the United States liquor bill was \$7,800,000,000 and Americans consumed 2,527,000,000 gallons of beer.

In 1943, the most crucial year of World War number two, the United States liquor bill was six billion dollars. This was eighty per cent above the figure for 1939.

"Think about it! While millions starved and slaved under the crushing heel of arrogant dictators; while millions fought and bled on battle fronts around the world; while lonesome wives wept and anxious mothers prayed, American citizens indulged in six billion dollars worth of liquor.

There are over 400,000 retail liquor and beer outlets in the United States. Chicago has one to every 366 people. Dallas has one for each 281 persons in the county.

Weary Escapees Back In Prison

HUNTSVILLE, Tex., Oct. 29 (UP)—Two 19-year-old convicts were back in their cells at State Prison today, weary from a 15-hour chase by bloodhounds, sheriffs and state highway patrolmen.

The escapees, George L. Sumpter and Bob Walter Vatter, were spotted last night on the Hempstead highway, only one mile from the spot where a car they stole was found abandoned early yesterday.

They told patrolmen they must have "gone around in circles," since they were constantly on the move. At one time, Sumpter said, the bloodhounds were within 20 feet of them.

The youthful prisoners made an escape from Central State farm near Sugar Land early yesterday morning, stole the automobile in Sugar Land and headed for Houston. The vehicle was found wrecked on the outskirts of the city around 6 a. m. yesterday.

The New Orleans, a steamboat built by Robert Fulton, was the first to navigate from Pittsburgh to New Orleans.

Court Rules Out Divorce Dispute

HOUSTON, Tex., Oct. 29 (UP)—A state law requiring a divorced husband to financially aid his children until they reach the age of 16, even though they may be in the custody of their mother, was involved in court litigation here today.

A suit over the statute was ruled out of court here yesterday by district judge William M. Holland, but attorneys for Mrs. Chlois Morgan served notice they would appeal to the state court of appeals. Mrs. Morgan brought suit against CHH E. Drescher, a 54-year-old music teacher, requiring him to pay \$1,394 to support and educate his 18-year-old daughter.

Defense attorneys claimed the statute did not merit a court hearing, and Judge Holland's action followed.

Truman Backers In South Carolina Get Recognition

COLUMBIA, S. C. Oct. 29, (UP)—The National Democratic Party today recognized a group of Truman-Barkley supporters as the official Democratic party of South Carolina.

A telegram from Democratic National Committee Chairman J. Howard McGrath to founders of the new organization finished severing the States' Rights Democrats in South Carolina from any national ties.

The old state Democratic party of South Carolina, along with those in Louisiana, Alabama and Mississippi, have accepted Gov. J. Strom Thurmond as their state party's presidential nominee.

McGrath wired Ashton H. Williams, newly-named National Democratic committee member replacing Thurmond: "We have been informed of the organization of your group and you have met the requirements of properly organizing yourselves.

At the same time the government alerted troops to be ready to unload 24 coal ships tied up in French ports. Communist-led dock workers, in efforts to support the sagging coal strike, have refused to unload the ships.

WASHINGTON Oct. 29 (UP)—Foreign Aid Chief Paul G. Hoffman said today the French coal strike is "Moscow directed" and possibly Russia's last determined effort to halt European recovery.

Resistance was virtually non-existent as troops rolled toward their objectives in the fifth day of the government's campaign to take mines away from strikers and restore safety services to prevent flooding and explosions.

SPARTA, ILL. (UP)—Dive-bombing tactics by a motter blue jay had residents on South Market street here on the alert. One woman "casually" exhibited a small scar on her forehead as evidence of the bird's accuracy. The "all clear" was sounded when the mother's fledglings learned to fly.

Houston Leads Hockey Circuit

By United Press

It was the Houston Huskies out in front of the southern division of the United States hockey league today.

Trailing 3-2 going into the final period against the Dallas Texans last night, the huskies turned on the heat with Joe McArthur scoring three goals in that period and won going away 6-2.

The victory gave the Huskies eight points and made them the highest scoring club in the circuit with 29 goals in seven games.

All other clubs were idle and only other contests scheduled this week will find Omaha at Dallas and Tulsa at Minneapolis tomorrow night.

Pep Defends Title Against Saddler

NEW YORK, Oct. 29 (UP)—Wee Willie Pep, a great featherweight champion, was scheduled to defend his world title tonight at Madison Square Garden against Sandy Saddler, the dangerous negro challenger whom he had evaded nearly two years.

More than 15,000 fans were expected to provide a gate of at least \$65,000.

Despite young Saddler's punch, the sharp-faced, black-haired champion from Hartford, Conn., was favored a 13-5 to make his third successful defense of the world title.

Galveston Crime Is Under Fire

BY JACK GALE

United Press Staff Correspondent

GALVESTON, Oct. 29. (UP)—A full-scale investigation of crime in this resort town was under way today by a Galveston county grand jury originally impaneled to study alleged election fraud.

The decision to expand its activities was made by the Grand jury yesterday, following the shooting from ambush of one of the jury's officers.

The grand jury asked that Texas Rangers take over the investigation of these early morning shootings of C. H. Jackson, 25, police patrolman who was commissioned Wednesday as a bailiff for the grand jury.

The grand jury asked that Texas Rangers take over the investigation of these early morning shootings of C. H. Jackson, 25, police patrolman who was commissioned Wednesday as a bailiff for the grand jury.

The investigation will include a look into gambling, prostitution and dissipation in law enforcement agencies as well as the alleged election irregularities.

Jackson said he was shot when his automobile was ambushed by five men in a "strange" car, touching off a running gun battle that ended when he outraced them and found sanctuary in John Seay Hospital.

Jackson and three other officers — Detective W. E. Taber and Patrolmen C. E. Timm and C. H. Kirby — were appointed special grand jury bailiffs Wednesday. Their duties were to assist in the grand jury's investigation of voting irregularities, which allegedly are linked with the Galveston "underworld."

Likes and Dislikes Stymie Giants Trading Cooper, Mize

CLEVELAND (NEA)—It's astonishing how likes and dislikes figure in such a highly competitive game as major league baseball.

Any old broken-down Cardinal can have a job with Billy Southworth of the Braves, they say, pointing to Geazy, White, Cannon, Shoun and Barrett and others who have passed along.

There is the story of Bill Veck of the Indians trying to dispose of the brilliant Lou Boudreau as recently as the past summer.

Now you hear that Leo Durocher of the Giants wants no part of Walker Cooper, while the front office, which is Horace Stoneham, would like to dispose of Johnny Mize.

It is recalled that Cooper was one of the Cardinals who brought up a touchy subject in riding Durocher while the Red Sox were scrapping his Dodgers for pennants.

It is obvious that the New York Nationals would like to trade Cooper and Mize, but the hitch is getting value in return.

A catcher like Cooper is a precious jewel, which in more recent years rarely has been found. On top of that he represents a \$265,000 investment. President Stoneham paid the Cardinals \$175,000 for his contract, and he has drawn \$30,000 a year for three campaigns. The Big Man from Missouri easily could have collected \$50,000 a year, but, escaping from the Cardinals, believed he was driving a hard bargain at \$30,000.

Cooper is preparing for another operation on his left knee, the way, which makes him something of a doubtful quantity.

Many a run slips in because of Mize's fielding, or lack of it, but where in exchange for the huge first baseman can the Giants obtain one who swats 40 or more homers and drives in 100 runs?

If Bill Veck doesn't fancy Lou Boudreau as a manager, he should at least give him some credit for transforming Bob Lemon from a mediocre outfielder and third baseman into a pitcher capable of winning 20 games in the American League.

After having been miscast for five years, Lemon started to pitch while in the Navy at Honolulu during the war at the suggestion of Freddie Hutchinson of the Tigers and Birdie Tebbets of the Red Sox. They were the first to see that he could do a Bucky Walters, realized it was a pity to see such a remarkable arm wasted at a position where the southern Californian couldn't hit consistently enough to hold.

Lemon pitched 20 games in the Islands, and when he was discharged in 1946, Boudreau and the Indian coach, George Sisco and Mel Harder, took up from there.

"The only trouble is," beams Bob Lemon, "that now I hit like a

Nine SS Camp Guards Hanged

LANDSBERG, Germany, Oct. 29 (UP)—Nine SS concentration camp guards and Nazi security police were hanged by the United States Army today.

They were convicted of executing captured American fliers and murdering and mistreating concentration camp inmates.

The executions brought the total of hangings at Landsberg prison to 171. Some 60 remain to be carried out. Forty five will be held up for confirmation of sentences by American Military Governor Gen. Lucius D. Clay.

One scheduled execution, that of Hermann Dammann, was stayed at the last moment on an appeal "of sufficient merit to warrant further investigation and study," according to the army judge advocate's office.

Today's executions carried out sentences handed down by the U. S. war crimes tribunal that sat at Dachau last year. They began at nine A. M. GMT (4 A. M. EST) and were completed in 90 minutes.

Dammann, 54, was a home guard soldier at Neu Wulmstorf. He was convicted of clubbing to death an American flier who was forced to land there during the war.

Manchurian Army Retreating

PEIPING, Oct. 29 (UP)—The Manchurian Army of Generalissimo Chiang Kai Shek is in full retreat before Communist forces driving it south toward a Dunkerque at the Yellow Sea port of Yingkow, front dispatches said today.

Nationalist forces have started pulling out of Mukden for a retreat along a 100-mile "hairline corridor" to Yingkow and responsible sources said the government had rushed transports to the port to haul them out.

Chinese officials and foreign diplomats, who swarmed into this north China stronghold of the government by air, said Gen. Wei Li Huang apparently had no intention of leaving any defenders behind for a rear guard action or "last ditch" stand at Mukden.

But six Nationalist divisions were thrown into battle to hold the escape corridor open against the assaults of superior Communist forces along a 130-mile front.

The Communists were reported to have already thrown advance units into a fight to seal Yingkow.

RANGERS WIN OVER NAVARRO, 20-18 AFTER BULLDOG RALLY MISSES FIRE

BY MARVIN GROSS

A crest-riding Ranger team that had seemingly salted away a 20-6 verdict over Navarro Junior College almost saw the victory stolen away from them in the final period but held tight to escape with a 20-18 win.

Emerging from a six-six halftime deadlock the Rangers gobbled up two Bulldog fumbles in the third period to zoom into a two touchdown lead. And when Johnny McClendon booted two perfect conversions Coach Boone Yarbrough's team had just about clinched its fourth consecutive victory.

Then the 134-pound Bulldog quarterback, Bill Reed started that magic left arm into activity and Navarro strolled back int the ball game. Reed who had 16 completions for 27 attempts throughout the evening centered his attention mainly on halfback Bill Davis and the combination almost did it.

Early in the final quarter Navarro moved 85 yards and clinaxed the surge when Reed hit Davis in the end zone corner with a 10 yard aerial. With three minutes remaining the Bulldogs moved 86 yards — a Reed pass to Davis again notching the touchdown. But missing both conversions the Bulldogs were two points down.

Bill Reed got his hands on the ball again with less than a minute to go. However the party was over for Bobby Gene Williams, the game's defensive standout, leaped up and plucked off Reed's pass on the 30 and wrapped up the ball game.

It was midway in the first period that the Rangers moved 47 yards for the opening score. Frankie Ford snatched Reed's opening pass, and returned to the Bulldogs 47. Crawley and Bailey Woods tore off consistent yardage to grind out a first down on the 12. After Woods picked up another first — the two, Bobby Gene Williams plunged over center for a six point lead. McClendon's conversion was wide.

The Bulldogs knotted the count in the second period when Bill Davis returned William's punt to the Ranger's 33. Reed rifled two shots to Longino and the Bulldogs were on the six. Then Davis hit off tackle for six and the deadlock. Holland was no good with the extra point try.

An exchange of fumbles gave Ranger possession on the Bulldogs 46 early in the final half. On the first play Junior Arterburn faded, hit Howard Frazier on the 20 and Frazier was set for a solo jaunt. He went over standing up and McClendon's conversion put Ranger ahead 13-6.

Poor luck dogged Navarro as Hopson fumbled immediately after the next kick-off. Williams recovered and the Rangers were knocking again from the 29.

Ford ate up a first down in two tries on the 19. Bailey Woods powered to the 13 and Jimmy Crawley hit to the 10. On last down Arterburn faded to the right and threw on the run to Dale Jones in the end zone. Jones, surrounded by defenders clutched the ball for what turned out to be the clinching marker. McClendon again split the uprights.

It was time for the Bulldogs to fade but pushed back to their own 15 they switched to a semi-passing formation and Reed couldn't miss. A Reed pass to Davis chalked up one score and after stopping the Ranger ground game they started another assault from their own 14.

Reed doled out his shots to Davis, Carter and Vinson to carry on down to the four. And three minutes from whistle time the Bulldogs had their third score— via Reed to Davis by the flag markers.

Stopped after the next kick-off on their own 24 the Rangers punted out to the 41. But it wasn't the night for a Merriwell finish and Williams stepped in to kill off the last Bulldog hope.

ty million church people passed resolutions petitioning the President and Congress for war-time prohibition. The politicians in Washington just sneered at these good Christian people.

You frequently hear foolish people say that the Church should leave the liquor question alone and that they think a preacher should preach the Gospel and stay away from politics, sin and liquor. How very foolish! How very limited their knowledge of the Scriptures. Read your Bible. Read Amos 2:11-12. It was predicted that people would try to muzzle the preachers of the Gospel.

JESUS himself warned against strong drink. He said that at the time of his return conditions would be similar to those in the days of Noah and Lot when they ate and drank and He said "TAKE HEED TO YOURSELVES. LEST AT ANY TIME YOUR HEARTS BE OVERCHARGED WITH SURFEITING AND DRUNKENNESS AND THE CARES OF THIS LIFE, AND SO THAT DAY COME UPON YOU UNAWARES." (Luke 21:34).

The prophets, the greatest preachers we know anything about all preached on the evils of liquor. Hosea, Joel, Amos, Habakkuk and Micah all preached on it.

Editor Eastland Daily Telegram, Eastland, Texas.

Dear Editor:

Many voters have inquired of me if I were going to support the Truman-Barkley Nominees, heading the Democratic Ticket.

Just to keep the record straight and that my stand can't be misunderstood, I shall vote for both as well as all Democratic Electors, and support the Democratic Ticket, Local and State-wide.

If I go to a bank for a loan, my "promise to pay" is my "pledge",—but in this instance collateral or personal security backs up that "pledge" in a legal manner so the bank will be sure to secure the return of the amount received on that "promise."

When I enter a Primary, my "pledge" is that "I am a Democrat and pledge myself to support the nominees of this primary." All the guarantee the party has as well as those directly affected is "my pledge" and a conscience and principle that mak's my "pledge" to be depended upon.

I shall certainly keep it this time as in times past and WILL NOT SCRATCH the name of a single Democratic Nominee.

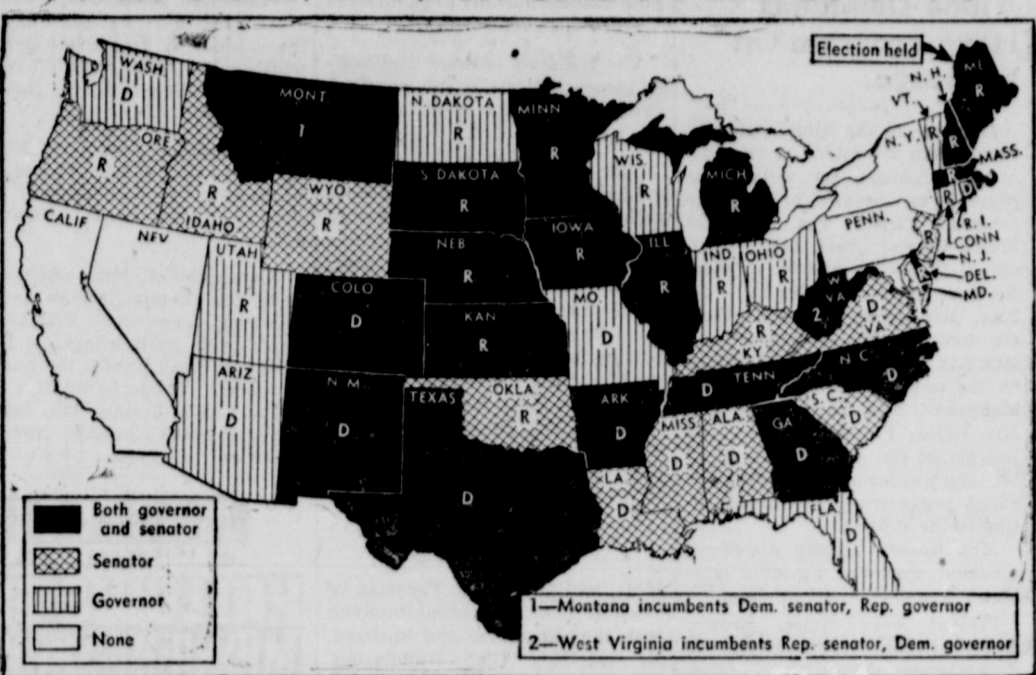

Very Truly Yours,

Omar Burkett Rt. 2, Cisco.

These States Will Elect Senators and Governors

Map shows the states holding senatorial and gubernatorial elections this year. The letter in the state indicates the party affiliation of the incumbent—R for Republican, D for Democrat. In Montana and West Virginia, a senator and governor of different parties are now in office. Five states have neither senatorial nor gubernatorial contests, and one, Maine, has already held its election.

SAYS STALIN TRYING TO UNLOAD BLAME OF CRISIS

Editor's Note—The following analysis of Josef Stalin's statement on the Berlin crisis is by a United Press correspondent now on leave in the United States after serving two years as head of the United Press Moscow bureau.

By Walter Cronkite United Press Staff Correspondent KANSAS CITY, Mo., Oct. 29 (UP)—The speech Andrei Y. Vishinsky might have made in the United Nations Security Council has been made for him inside the walls of the Kremlin.

Premier Josef Stalin in his answers to questions put by Pravda has admitted the Western Allies have won the diplomatic battle for the support of world opinion in the Berlin crisis. He has indicated the Kremlin wants to unload the blame for the failure of Berlin negotiations.

The statement probably was intended to serve four purposes: 1. To try to put the blame on western nations for the present crisis and the failure to reach a compromise.

2. To spread war fear, and resulting confusion, by making the division between east and west appear almost insoluble.

3. To confuse world public opinion by imputing to western countries the very motives which are behind Russian policy.

4. Possibly to lend last-minute help to the Third Party of Henry

Wallace.

Stalin's propaganda advisers, it seems to me on the basis of my Moscow observations, must have had the American presidential election in mind in helping him frame his answers. The Kremlin, knowing Wallace does not have a chance for the White House, wants to turn out a big Third Party vote in the hope the party may eventually become a real political power.

By blaming western leaders for the Berlin crisis and implying that men more sympathetic to Russia might solve such problems, Stalin seems to have made a last minute plea, however indirectly, for Third Party votes.

Stalin, in arguing that the western countries repudiated the Moscow basis of agreement on Berlin, did not mention that the agreement failed because the Russian commander in chief made completely new demands when negotiations were taken to Berlin.

This is the first time that Stalin himself has put so bluntly the charge that western leaders are seeking a war. But Soviet newspapers have taken that line almost daily for nearly two years.

To one who has lived in Moscow, their opinions can hardly be separated from Stalin's.

Fire losses in October 1947, were 37 per cent higher than in the preceding month.

Porter Pressing For Demo Vote

FORT WORTH, Oct. 29 (UP)—Jack Porter, Republican nominee for the U. S. Senate, was scheduled today to continue his campaign for traditionally Democratic votes at a noon luncheon here. Tonight, he will make a statewide radio address from Waco.

The Houston oil man made several speeches yesterday in a tour of six north Texas towns, including Texarkana.

He predicted that he would defeat Lyndon Johnson, his Democratic opponent, by a good majority—perhaps by a landslide. He said he was encouraged through the day by the interest in his candidacy.

"You can push some Texans just so far, but they will rebel at dishonesty and fraud," Porter said. "The expressions I have heard today have only added to my confidence that I will be your next senator."

Porter said he was a Democrat until 1940. "When I saw left wing leaders abandoning the grand old principles of the party—I think I am a better Democrat than many who are still following what the present Democratic leadership has to offer."

Winners On Fire Prevention Items Are Announced

October 2 to 9 was Fire Prevention Week and as such was observed by the 7th and 8th grades in Eastland school. Mrs. Guy Patterson teaches English in these grades.

The Chamber of Commerce offered prizes for the best article on Fire Prevention written by a pupil in the seventh grade and a similar prize for the best article written by a pupil in the eighth grade. Also a similar prize was offered for the best of all posters.

The themes, without names on them, were submitted to the judges, who just recently awarded prizes to the following:

Best Poster—Pauline Cogburn. Best Article by Seventh grade pupil—Joy Lynn Robinson. Best article by eighth grade pupils—Marilyn Hurt.

Following are the prize winning articles:

SEVENTH GRADE

Ever since the caveman, fire has been our friend. It cooks our food, keeps us warm, smelts the ore for our steel and has many other uses. Everything we use, almost everything we eat, all of our conveniences, even our ice, we owe to fire.

We should all share the responsibility of cutting down our fire losses by following the rules given below:

(a) Strike matches away from you. (c) Allow no rubbish to accumulate.

(d) Don't leave matches within reach of small children.

These are just a few of the many rules that can aid us in fire prevention.

Carelessness is one of the most destructive killers of our time. Many could lose their lives just because they fail to follow the sensible program of fire prevention.

If all the people in America would do their part to prevent fires, we would have a more beau-

EIGHTH GRADE

Some of the greatest hazards of today are caused by fires. Each year many homes and public buildings are burned. Also many lives are taken in fires where homes and families are destroyed.

Regular inspection should be taken by the fire department for fire hazards. All alleys should be kept clean because papers and trash in alleys often cause buildings to be burnt. Oiled rags and oiled mops should not be kept in closets. Gas leaks often cause fires, therefore all gas pipes should be checked regularly.

Matches should be kept out of the reach of small children and in metal containers. Match containers should not be kept near stoves because the heat from stoves often ignites the matches. When you strike matches always remember to strike them away from you. Matches should not be carried loosely in the pockets.

Candles often cause fires. They should not be used unless it is nec-

essary to use them. Metal screens should be used in front of all fire place and open fires and stoves. Fireworks should be handled by adults. Children are often hurt very seriously with fireworks. All people, old and young, should be very careful with matches and always study good fire prevention habits.

Christian Science Services "Everlasting Punishment" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, October 31, 1948.

The Golden Text is: "Be not deceived; God is not mocked; for whatsoever a man soweth, that shall he also reap" (Galatians 6:7.)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "A man's pride shall bring him low; but honor shall uphold the humble in Spirit" (Proverbs 29:23.)

The Lesson-Sermon also includes the following passage from the Christian Science textbook,

"Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Pride and fear are unfit to bear the standard of Truth, and God will never place it in such hands" (page 13.)

Pennsylvania, now one of the greatest game and fish states in the nation, was practically a "shot out" state in 1885.

September, the ninth month of the year, got its name from the Latin word "septem," which means seven. Julius Ceasar added two months to the Roman calendar and upset the sequence.

JUST DROPPED IN TO TELL YOU —

... that my \$10,000.00 home which you have insured for \$3,000.00 has gone up in smoke" is an announcement that insurance agents don't like to hear for two reasons. First, his friend had lost his home, and second, he wasn't carrying near enough insurance. Incidents similar to this one are common around every insurance office. What can we do? Nothing much, except to suggest again that you be adequately insured, day and night.

Was There Fraud In The Stevenson-Johnson Campaign?

Here is what Judge Whitfield Davidson, U. S. District Court, Northern District, Fort Worth, found to be the facts:

FINDINGS OF FACT

- "1. The Court finds that the names and residences of all parties hereto, both plaintiff, defenders and interveners, are as alleged in the pleadings.
- "2. The Court finds that the evidence makes a prima facie showing of fraud in the election returns certified to the State Democratic Executive Committee from Precinct No. 13 in Jim Wells County, from Zapata County and from Duval County in the Democratic Primary Election held August 28, 1948, in the race for nominee for United States Senator from Texas.
- "3. THE COURT FINDS THAT THE EVIDENCE THAT SUCH FRAUD IN THE COUNTIES AND PRECINCTS NAMED IS PRIMA FACIE SUFFICIENT TO CHANGE THE RESULT OF SAID PRIMARY ELECTION IN THE RACE BETWEEN THE COMPLAINANT, COKE R. STEVENSON, AND THE RESPONDENT, LYNDON B. JOHNSON, FOR DEMOCRATIC NOMINEE FOR UNITED STATES SENATOR FROM TEXAS.
- "4. The Court finds that the giving of effect to the fraudulent returns, heretofore mentioned, will result in depriving the complainant, Coke R. Stevenson, and interveners, H. L. Poole, A. G. Johnson and F. A. Harkrider, of their civil rights, in violation of the Constitution and laws of the United States.
- "5. The Court finds that each material allegation of the amended complaint and the trial amendment is sustained by the evidence.

Justice Hugo Black of the U. S. Supreme Court said Judge Davidson had no right to pass on this matter. **NO COURT HAS EVER SAID THAT JUDGE DAVIDSON'S FINDINGS OF FACT WERE INCORRECT.**

These findings are a matter of record and have never been set aside. You can find them in Civil Action No. 1640, filed Sept. 25, 1948, in the U. S. District Court at Fort Worth.

Questions and Answers about the Telephone Company's Request for Higher Rates in Eastland

Q. Why is the telephone company asking for higher rates in Eastland?

A. Because Eastland rates are too low to bring in enough revenue to pay the cost of furnishing the service.

Q. Is the telephone company operating the Eastland exchange at a loss?

A. Yes. During the last half of 1947, expenses of operating the Eastland exchange were \$3,000 higher than revenues collected for service here.

Q. How about telephone costs? Are they up much?

A. Yes. The cost of everything that goes into furnishing service is higher. Copper is up 105 per cent. Lead is up 240 per cent more than in 1940. A 35-foot pole that cost \$6.30 in 1940 now costs us \$18.11.

Q. How much is the telephone payroll up?

A. The telephone payroll in Eastland is more than four times as high as it was seven years ago. The growth of Eastland has made it necessary that we hire more people to handle the larger volume of calls, and in addition wage rates have gone up.

Q. How long have Eastland's telephone rates been in effect?

A. Present rates for telephone service here were established in 1924. At that time Eastland had 700 telephones as compared with 1,420 today. The scope and value of the service has increased greatly in the past 24 years with no increase in rates.

Q. With so much more business, isn't the company's revenue much higher than it was a few years ago?

A. Telephone revenues have increased, to be sure, but expenses have increased much faster. Since 1941, local telephone revenues have increased 34 per cent, but expenses during the same period have gone up 87 per cent. Despite the fact that we have twice as many telephones as in 1924, and are handling a greater volume of calls than ever, the telephone system here is being operated each month at a loss.

Rates established 24 years ago will not bring in enough revenue to pay present costs of furnishing service.

Q. Would it be possible for the telephone company to cut corners and reduce expenses?

A. The telephone company takes advantage of every possible operating economy to keep rates low without affecting the quality of the service. Through these economies and advances in the telephone art we have been able to furnish more and more telephone service here without increasing rates. The telephone company is proud of its record of not having increased rates during these 24 years, although the number of telephones here has more than doubled and the cost of virtually everything that goes into the furnishing of service has risen sharply.

Q. What does the rate increase amount to?

A. Briefly, for customers with four-party lines, the new rates represent an increase of less than two cents a day, and less than a cent a day for other residence customers. Business telephones will cost less than two cents a day more.

Rural business service will cost about four cents a day more, and rural residence customers will pay less than two cents a day more than at present.

Charges for various auxiliary telephone services will be increased in relation to higher costs of furnishing them.

Q. What are the telephone company's expansion plans for Eastland?

A. The telephone company will continue to enlarge the telephone system here as rapidly as possible to provide telephones for many families who are now waiting for service.

The telephone company is at work on a \$38,000 expansion and improvement program for this year and next. Included in the program are: installation of 260 more subscribers lines next year at a cost of \$15,000. This is in addition to a \$23,000 project completed here last April which added a local switchboard position, two long distance switchboard positions, and 100 more subscribers lines.

The network of outside lines and cables throughout Eastland will be expanded this year and next. Some of the new lines already are in service.

Three new long distance circuits are being added in Eastland this year and next. A new circuit to Dublin is being put in service this year. Next year, new circuits to Abilene and Breckenridge will be added to help speed Eastland's increasing volume of long distance calls.
