## Sidelssues

By HENRY G. VERMILLION

Spring fever got you? It has me. The doctors advise taking it easy when you feel in the grip of that annual disease. Take that fishing trip, they say; get out on that golf course.

The coming of warmer weather brings on profound physiological changes in the body that produce the feeling of listlessness, and the feeling should be heeded, the experts have been telling us.

That is all very well, but how such a deal ties in with my personal program of keeping five little mouths fed at our house is something I haven't worked out yet.

Any of you doctors got any ideas?

The City of Eastland is to be commended on the downtown cleanup which has made our business section streets cleaner than at any time since I've lived in Eastland, a matter of nearly four years now.

I haven't heard an argument yet about Eastland being the best appearing and cleanest town in this part of the world. Have you?

President Jack Chamberlain of the Quarterback Club tells me the fish almost all finally succumbed to the rotenone in Ringling Lake, and on the day he was talking, thousands of the finny tribe were lying around the banks, very dead, he said.

I haven't had time or much desire to investigate, and we haven't had a north wind for several days. But anyway, the stage soon will be set for killing part of the moss out of the lake, and then its restocking. Then after a while, the fishermen should be in a good humour again.

Final applications for Red Cross relief were to be taken today.

More than 100 noted singers from throughout Texas and possibly adjoining states are expected in Eastland Saturday night and Sunday to attend the Eastland County Singing Convention, one of the oldest and most widely known organizations of its kind in Texas.

In addition to the singers who will perform in duets, quartets, and so forth, a large number of singers from over Eastland and nearby counties is expected.

Henry Carter, president of the convention, will call the meeting to order at 7:30 p. m. Saturday in the Eastland High School Auditorium, where all the sessions are to be held.

Judge Milburn S. Long, chairman of the local entertainment committee, said arrangements are nearly complete to take care of singers coming from a distance, and that an old fashioned basket picnic lunch will be spread on the high school grounds at noon Sunday.

In addition to the basket lunch for the visitors, there will be plenty of coffee, tea and water on the grounds.

## Plane To Dust 'Hopper Poison

A demonstration on dusting for grasshoppers by plane will be held on the F. E. Clark farm seven miles southwest of Cisco at 9 a. m. Monday, Tom Smartt, farm manager, said this week.

Smartt told County Agent J. M. Cooper that Charles L. Lewis of Grand Prairie and a chemist will be on hand with the plane to spread both Chlordane and Toxaphane, the new dust poisons that reportedly have proven very satisfactory in grasshopper control.

An invitation to attend was extended to all farmers and ranchers of Eastland and surrounding counties.

Smartt told Cooper the young hoppers are very thick on the Leon River bottom grasslands of the farm, and are still in bunches.

Experts have been spreading the word for several weeks that there is an acute possibility of a severe grasshopper outbreak in the next 90 days.

A large number of persons from Eastland County and part of Stephens County Sunday afternoon heard Bishop William C. Martin of Dallas speak in the First Methodist Church in Eastland.

The bishop spoke in Cisco Sunday morning and in Breckenridge Sunday evening.

## Leon Plant Storm Damage Repaired

Less than two weeks after a tornado wrecked a steel substation structure at the Leon Power Plant of the Texas Electric Service Company, a new temporary structure was completed by company workmen, W. B. Pickens, assistant district manager for the company, said Thursday.

"Seldom has a structure of this kind been erected in such a short time," said Pickens. "It will do the job until a permanent steel structure can be designed and built."

Pickens said that soon after the twister struck, a week ago last Saturday, the company had 150 men with trucks and heavy line equipment making emergency repairs. Approximately 40 men have been working on the temporary substation structure, which is made of creosoted poles.

Pickens said that the availability of skilled crews, plus reserves of wire, switches and other equipment, "enabled our men to build the structure in days, instead of the weeks usually required."

The damage done at the power plant by the storm could have resulted in an interruption of electric service for several days, the power official said, but quick work by linemen and others was credited with holding the interruption to a matter of a few hours.

Work on the new substation structure was done by the crew of J. W. McAnally, transmission engineer, and crews from Eastland and Big Spring. Leon plant electricians also helped with the electric work on the rush job.

## Trucks To Pick Up Rubbish Monday

Starting Monday, the city trucks will begin removing rubbish the Eastland residents have collected in the vicinities of their homes and which has been placed where it is readily accessible.

In the clean-up campaign, the trucks will make only one trip over the city and residents who do not have the rubbish ready and accessible when it arrives, will have to have it removed at their own expense, city officials said.

The trucks will operate Monday in that section of town north of Commerce Street. The next week they will be in that portion of town south of Commerce Street.

The annual campaign got under way Friday, April 1, and according to Mrs. H. L. King, chairman for the Civic League and garden Club, campaign sponsor, much work has already been done.

## Grimes, Muirhead, Fiensy Elected To Commission

W. W. Linkenhogger Thursday evening was elected mayor of Eastland by the newly organized City Commission.

Eastland actually has no mayor under its city manager form of government, but the chairman of the City Commission popularly bears that title, and Linkenhogger was elected commission chairman.

His election came after the old commission met and canvassed the Tuesday election which put Pearson Grimes, Jack Muirhead and Dave Fiensy on the commission.

The other holdover member besides Linkenhogger, Herman Rushing, moved for the election of Linkenhogger as chairman, and the vote was unanimous.

Fiensy was elected treasurer, with Grimes as his assistant.

In the election Tuesday, 447 voters went to the polls to elect the three new commissioners, with the following results: Pearson Grimes, 316. Jack Muirhead, 295. Dave Fiensy, 250. C. H. McBee, 216. J. H. Johnson, 183.

The three men elected, Grimes, Muirhead and Fiensy, had run on a joint platform, as had McBee and Johnson.

The vote total Tuesday was a little more than half that in the last contested city election two years ago.

In their platform, Grimes, Fiensy and Muirhead pledged to work for added water reserves for the city, to try for an eventual tax reduction, to try to equalize taxes as nearly as possible, and to extend the city limits only if the extension would be beneficial and agreeable both to the city and to those in the areas to be taken in.

Three of every four home telephones today are party lines.

Yes, party lines have "stretched" hard-to-get telephone equipment in a time of shortages and a big demand for service.

Our goal, of course, is service for everyone—the kind he wants, when and where he wants it. For the time being, though, in many neighborhoods we must continue to say:

"We can offer only party-line service to new customers. It's the fair way for everybody while we're still working to get telephones to hundreds of people who are waiting."

. . . are all paid for by the ultimate consumer. The farmer sells his bale of cotton for \$150.00 and we buy it back in clothes for several hundred dollars. Same old cotton except the look, design, color, wage, transportation, rent, storage, interest, commission, profit and taxes - many kinds of them. **CHEMISTRY CLASS GOES TO HORTON CERAMICS**  
Miss Morris took her chemistry class through Horton's Ceramics last Friday. It was a very interesting experience as Mr. Horton explained the chemistry of the body and glaze of the ware and how the different colors are obtained. After this explanation, he showed the group through the plant and dis-

ussed each process.

**BAND UNIFORM FUND**  
Those busy band members and band booster club members worked hard last Friday despite bad weather to put over the sale of tickets for their midnight show Friday night. The band members are all enthusiastic in their thanks to the generosity of the Interstate Theatres for donating, absolutely free of charge, the movie shown.

Three prizes were donated to be given to those band students selling the most tickets. First prize was given to Babs Sherill and the second prize was given to Hubert Johnson. Both students ticket sales were so close that equal prizes of two dollars and fifty cent show books were given by the Band Booster Club members. Mr. Van Hoy, himself, donated a weeks pass to the theatre as third prize, the receiver of which has not yet been announced.

The total amount cleared from the ticket sale was two hundred and twenty three dollars. Although this seems small in comparison to the huge sum they owe, it is a good step towards their goal.

Band members have been eager to help by doing small jobs to get money for the uniforms. Many of the girls have offered to baby-sit and donate the money.

Our band and those people backing them have done a swell job. E. H. S. is proud of those students who have worked so hard for their organization.

**A FRESHMAN'S ESSAY ON BOYS**  
I'm Through with all men, They're all untrue,

They make you, they shake you, and laugh when they're through. They wreck and degrade you with motives most base, They reward all your love with a slap in the face.

I'm done with all men. There's not one alive. That's worth all the misery that girls must survive. I'm through with all men, they

cheat and they lie, They prey on us females to the day that they die.

They tease us, they torment us, and drive us to sin, Say, who is that brunette, that just came in?

**SUB-DEB**  
The Sub Deb met in the home of Claudine Lasater, Tuesday. The meeting was called to order and new and old business was discussed.

New officers were elected and they are as follows: Frances Van Geem, president; Ann Day, vice-president; Gene Griffin, secretary-treasurer; Claudine Lasater, reporter; Zena Grissom, parliamentarian.

Refreshments of cake, fritos, sandwiches, cookies, and cokes were served to Ann Day, Zena Grissom, Gene Griffin, Frances Van Geem, Sarita Seale, Hedi Throne, Gayle Parrack, and the hostess; Claudine Lasater.

The next meeting will be held at Gayle Parrack's home.

**FRESHMAN SPOTLIGHT**

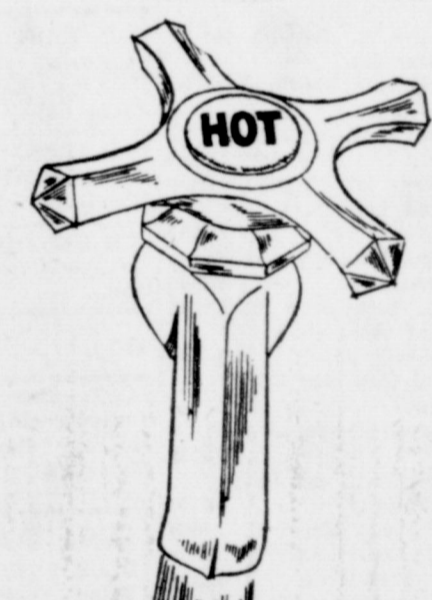

The spotlight searches dear old E. H. S. this week and finally catches up with a cute little brunette. She is 5' 3" and weighs 125 pounds and has very pretty brown eyes. She loves any kind of food but especially likes fish and coconut pie. In the movie world she hooses Bura Lancaster for an actor and Jennifer Jones as an actress. Her favorite movie is "Song of Bernadette." Of course she will always cheer for the Mavericks and football is her favorite sport, though she loves to play tennis. She also plays the bass fiddle in the band. She is very active and popular in school. This could be none other than Sarita Seale.

Don't forget the senior play to be given the 7 and 8 of this month. The seniors have worked very hard the last few weeks and what little time they have had has been very well spent.
