1st. Will state that it is my opinion and belief that we should begin now to make our water system more adequate before our present supply becomes exhaust-

2nd. I believe that there are many people living outside the Incoroporated City Limits that carry on their business or vocation within the city that would be willing to have their property placed inside the city limits in order that they maye have a part in carrying on the affairs of our city government, and if I am elected I shall use my efforts and influence in helping them to accomplish this.

3rd. It is my opinion that the city commission should now and all times hereafter follow the mandate laid down in our city charter which has long since been approved by our people and if elect-ed I will not hesitate to vote againt any and all expenditures coming out of our treasury, for projects either inside or outside our

Lord Slayer Held Without Bond

CLEBURNE, Tex., March 19-(UP) — Young Arthur Clayton Hester was held without bond today after re-enacting for authorities the fight in which he fatally beat Dr. John W. Lord, 70, noted educator who was his legal guardian and benefactor.

Sheriff Houston Walling returned yesterday with him from Los Angeles, where the 19-yearold boy was arrested a week ago for the murder of Lord, dean of the Texas Christian University

Walling took Hester at once to nearby Burleson, where Hester and Lord had lived in a lonely farm house for approximately a month prior to the murder.

Without emotion, Hester re-enacted for Walling his fight with Lord. Then, unhesitatingly, he led the sheriff to a weed patch and pointed to a 24-inch steel rod, about a half-inch in diam-

The Tough Way Everyone has heard of "keeping up with the Joneses." But keeping up with the Joneses of No. 21 G. I.

Village, Commerce, Texas is not an easy task. Donald and Frances Jones of Eastland, students at East Texas State College, are helping pay their way through college by doing odd jobs. Selling Fuller brushes, raising domestic rabbits, selling cosmetics and doing laundry are some of the many undertakings of

the Jones family "I have almost paid for my fashng machine by doing laundry for my neighbors," Mrs. Jones says. "However, my laundry business was almost ruined when our two year old son poured a full box of soap chips into a run of clothes almost flooding the entire house

Like her laundry business, Mrs. Jones' cosmetic selling career has had its troubles too. She came home one day to find her threeyear old daughter's face thorough ly smeared with her best samples of make-up. But even with these minor catastrophies, Mrs. Jones believes that no marriage is complete without children.

A practical and ingenious couple, the Joneses expect to graduate from East Texas State next year. And if ingenuity and resourcefulness are an indication of success the Joneses are apparently headed in the right direction.

United Press Staff Correspondent LONDON, March 19.—(UP)—Russia declared today that the Atlantic Pact means "war on the Soviet Union" but British Foreign Secretary Ernest Bevin harled it as the west's means of escape from destruction by the Kremlin.

All other nations of Western Europe, fearful of the Soviet menace, hailed article five as a provision of the pact which has placed them at long last under military protection equal to that of Russia and her satellites.

Article five states that "the parties agree that an armed attack against one or more of them in Europe or North Africa shall be considered an attack against them all."

"This pact means war on the Soviet Union," said Radio Moscow in an English language commentary, the first Russian reaction to be heard in the west. In the broadcast, however, Moscow avoided giving de-

tails of the North Atlantic treaty. In addition to denouncing the pact in familiar ideological language, Moscow pointed to Communist anti-pact demonstrations throughout Eur-

Delaney said Bob Dalton, one of Jesse's contemporaries, told him that Robert Ford had shot James death at St. Joseph, Mo., just the books say today.

He said Ford was rotten-egged when he later went on the stage as "the man who killed Jess James.'

The Lamesa newspaper took such an interest in Delaney's tory that they offered to pay his expenses to Austin, if Jesse will grant him an interview.

Burn Ribbons On Oak Ridge Gates

By Alberta Trulock United Press Staff Correspondent

OAK RIDGE, Tenn., March 19. (UP)—A burst of white fire set from an atomic pile 15 miles away burned the ribon to the gates of Oak Ridge today.

It took a millionth of a second for the impulse to travel over telephone wire and go off with a

sound like an air rifle. Now the public can enter the town unrestricted.

Immediately, souvenior hunters burned the ribbon to the gates of red and blue ribbon. Hundreds standing outside the four newly opened gates broke through. Long lines of cars started the slow movement down a long turnpike into the city.

The crowd had two hours to inspect the town before the start of a parade, and Oak Ridge traffic officers with the help of atomic

Mystery Train May **Outdo Streamliners**

BERWICK, Pa. March 19, (UP) The American car and foundry company refused today to divulge further details of its "streamlined caterpillar train" which may revolutionize the modern stream-

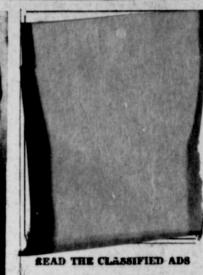

The secret of the speedy, 16-car train got out yesterday when it struck a car at a grade crossing. Powered by a 1,000 horsepower diesel locomotive, it had aroused the curiosity of residents along a 20-mile stretch of the Delaware, Lackawanna and Western railroad as it flashed by on trial runs.

At first it was enclosed in a heavy canvas "glove" and residents dubbed it the mystery train, or the train of the future. Ten days ago, its builders took of the wraps. But it flashed by so fast residents never got a good look at it until the accident forced it to

The train, built for Spain, is lower slug than conventional American trains and has only two middle-of-the-road Socialist Lawheels on each coach.

Mrs. Golda Myerson, a former Milwaukee, Wis., schoolteacher, will be labor minister in the first Israeli cabinet. She's a member bor (Mapai) Party.

SPACIOUS, ECONOMICAL 8-CU-FT G-E REFRIGERATOR

This is the big brother of the ideal refrigera-tion pair. This big G-E gives you 1/3 more refrigerated food storage capacity in the kitchen floor space required for an old-style, 6-cu-ft model. Freezer compartment holds 4 ice trays (80 ice cubes). Fourteen square feet of shelf area. Extra big, 5½-inch-deep drawer for fruit and vegetables. Bottle space will hold 12 square, quart-size milk bottles, also very tall bottles. Porcelain-on-steel interior.

When our customers ask to see a big refriger ator, we like to show them this one. It gives them lots of storage space, plus G-E depend-ability. When they add a home freezer, they have just the right combination for better liv-ing . . sufficient storage capacity, variety in menus, and economy in operation and food

DEPENDABLE, CONVENIENT 4-CU-FT G-E HOME FREEZER

This economical home freezer actually pays for itself over the years, because of the many savings it enables you to make in your food purchases. You buy when prices are lowest and produce is at the peak of flavor. You can freeze practically everything . . . meat, fruit, vegetables, fish, game, pastries, and many prepared dishes. Yes, even leftovers! If your family is small, you can now afford to buy in such quantities that real dollars-and-cents savings can be made.

The General Electric Home Freezer has the famous General Electric sealed-in refrigerat-ing system (the same type as that used in G-E refrigerators), and Perfect Seal cabinet con-struction! It's by far the best buy in home fractors today!
