CHRISTIAN SCIENCE SERVICES "Soul and Body" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, May 22.

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "We are confident, I say, and willing rather to be absent from the body, and to be present with the Lord" (II Corinthians 5:8).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The time approaches when mortal mind will forsake its corporeal, structural, and material basis, when immortal Mind and its formations will be apprehended in Science, and material beliefs will not interfere with spiritual facts" (page 402).

DESIGNER WORKS ON COMFORT OF SLIPS TO REPLACE DRESSES

BY BARBARA BUNDSCHU United Press Fashion Writer NEW YORK, May 21 (UP)—Want to doff your dress in the heat of noon and sit-around in your slip?

If Vera Maxwell can talk the underwear manufacturers into the idea, you may be able to do it one day soon, with complete propriety.

Miss Maxwell, who makes suits and coats and dresses, also is remembered for a romantic hat she can fashion from a fancy pair of lace-trimmed black panties. She shops for girdles with the idea they should double for half a bathing suit.

And she thinks the men who make the nation's slips and girdles and bras are in a better position than anybody to carry the whole idea a step further and revolutionize the female wardrobe.

Her idea of the moment is a nicely tailored camisole slip with a good solid hem instead of the usual rolled or stitched edge and a nicely flared skirt. In some handsome dress-like materials.

It could be worn under a dress like any slip, Miss Maxwell said. Or it could be worn with a light coat as a redingote. Or—it can stand out all alone as a hot weather dress.

The advantage of having it made by underwear people is price, Miss Maxwell and other dress designers can make the dress. But it's a waste for their high priced tailors to spend their time at it, and it runs the price up terrifically.

Her camisole dress—and they shouldn't be hidden as slips—sell for around \$40 bottom. An underwear factory properly geared could turn out the same garment for under \$15, she estimated.

Then the manufacturers should get down even further and start designing bras and panties to look nice out in the sun, Miss Maxwell said.

Her travelwardrobe—in the day of the millenium—will start out at the north pole with a fur coat over a fitted cloth coat-dress. Down to the temperate zone, and the fur coat comes off. Get a little more southerly and the cloth coat comes off—leaving the slip-dress. Right down to the equator, you peel to the two piece foundation-bathing suit.

Nobody's done out of business, Miss Maxwell said. The woman doesn't need less clothes—just fewer kinds to worry about.

To Be Tough With Bean Ball Pitchers

ST. LOUIS, May 21 (UP)—Life banishment from baseball threatens any National League pitcher found guilty of using a bean ball, League President Ford Frick said today.

Frick said the same fate awaits any manager who orders such a pitch.

He issued the warning after Lou Boudreau, manager of the Cleveland Indians, charged that "rival pitchers are deliberately throwing the dangerous and outlawed bean ball."

Frick said the penalty for players guilty of using the bean ball would range from a season to life banishment from baseball.

"I'd be just as tough on any manager who ordered such a pitch," Frick said. "But in my 15 years as head of the National League, I've never had to make such a decision."

The cost of operating farm machinery is more than one-third the expense of operating farms in Texas.

Violin Ensemble To Perform At Methodist Church

A special musical number, entitled "Sanctuary of the Heart", will be given Sunday morning at 10:50 o'clock at the First Methodist Church by students of Miss Glenn Johnson, who will form a violin ensemble. Taking part in the number will be Elizabeth Kleiner, Ruan Owens, Eileen Vaughan, E. L. Hazelwood, and the teacher, Miss Janelle Patterson will give a violin solo. The pastor, Rev. J. M. Bond, will speak on "How a Great Soldier was Healed of Sickness". Evening services will be dispensed with for the baccalaureate service at the high school.

Bible School Starts May 30

A Daily Vacation Bible School will begin Monday, May 30 at the Church of Christ and continue through June 10, it was announced by the minister, Bro. Claud C. Smith.

Hours for the school will be 9:30 to 11:30 a. m., Monday through Fridays.

Classes will be given for all youngsters—including pre-school through high school age. Certificates will be awarded at the conclusion of the school. Activities will include handicraft, visual education and Bible studies.

Gorman Oil News

By Buena Van Winkle

R. H. Patterson No. 1 James out from Rucker drilling at 1640 feet, in shale. They have just passed through a shallow sand with no show, of either gas or oil.

The two McClung operations in Erath are still closed in because of muddy roads.

Jimmie Courtney is starting up a new operation on his own over near Rising Star. It is to be a really shallow venture—to be drilled to about 450 feet! He has a small cable tool rig out there and said he should know if he is in the pay by about next Sunday.

The indications all around out there are such that it would not surprise this reporter if Mr. Courtney does really have a pretty good little shallow well. Jimmie Production Man in this area for Martin Harris Drilling Co., and on the side looks after some

of his brother-in-law, Homer Snowden's interests. Mr. Courtney is from Midland, Texas, and should really know the oil game since every contact he has is in oil. His headquarters are in the Gorman Hotel at present. It would be a fine thing to see this young man really strike it good for himself while he is yet young enough to do something about it, and to enjoy it.

The Jay and Parker Company—the whole Company are camping out around their wells these days of mud and slush. Their No. 2 T. N. Watt is getting its 7-inch pipe set and will begin drilling ahead within a few hours presumably. They are something over 2,600 feet and did not want to set 7 inch now, a cave-in caused the speedup on the setting of pipe.

Commercial Production Co. No. 3 R. S. Sanders cannot treat their well until they move the rig off the hole so as to set up a competition unit, and they cannot start up on their No. 1 Sanders across the road from the No. 3 until they can move that rig to the No. 1 location. All in all it is a vicious circle—one thing depending on another right on down the line, and everything being held up by the rain, and prospects of even more every hour.

from the parked car of Mrs. R. H. Bates. The culprit was laboriously lugging it down the street when officers closed in.

Mass Honeymoon Proposed By Los Angeles Man

BY PATRICIA CLARY
United Press Staff Correspondent
LOS ANGELES, May 21 (UP)—A honeymoon-by-the-hundred was launched by a promoter with the idea that newlyweds don't want to be alone.

The happy couple in the honeymoon hideaway would be a happier couple with plenty of company, Wesley Oliver said. He believed the bride and groom need other newlyweds around to remind them that a honeymoon happens to everybody. They need an impartial third party to take pictures. And they need an unruffled guardian to take care of their reservations and make sure they catch the train.

Couples "run out of things to do" on hideaway honeymoons, said Oliver, who went on one himself. "I know people who came home after one week," he said. "They got lonesome."

Nobody will get lonesome on Oliver's honeymoon special. A train leaves San Francisco and Los Angeles late in June on a month's tour, stopping one night in Houston at millionaire Glenn McCarthy's Shamrock Hotel, one night in New Orleans, two nights in Washington, three nights at New York's Waldorf-Astoria, three nights at Montreal and one at Winnipeg.

The honeymooners will toss coins for the bridal suites. On the train they get sections or compartments. "There'll always be somebody on our tour to take a picture," he said. "Haven't you seen honeymooners with the bride taking a picture of the groom and the groom taking one of the bride and nobody to take a picture of them together?"

Oliver got his idea when he noticed the happiness everyone felt in a maternity ward. "As in a maternity ward," he said, "the couples all have so many experiences in common."

Liechtenstein, the principality between Austria and Switzerland which has an area of 65 square miles, has no military force and only 50 policemen.

Takes Clay's Job

Lt. Gen. Clarence Huebner, above, replaces Gen. Lucius D. Clay in Germany. He will be acting U. S. military governor and acting commander of U. S. armed forces in Europe. General Huebner, deputy and chief of staff to General Clay, is a veteran of both World Wars, rising from private to general. He commanded the famous First Division in invasion of Normandy.

Say Retail Food Prices Up In Month Of April

DALLAS, May 21 (UP)—Retail food prices in Dallas last March halted their downward trend and then started upward in April, the Bureau of Labor Statistics of the U. S. Department of Labor said today.

The retail food price index for Dallas rose 1.2 per cent during April to a level of 204.4 (1935-39 prices equal 100). That was 1.1 per cent below prices in April 1948, 43.5 per cent above the level of June 1946 and 122.9 per cent higher than in August 1939, last prewar month.

The range of changes in retail food prices in Southern cities varied from a decline of 1.4 per cent in Mobile, Ala., to an increase of 1.6 per cent in Little Rock, Ark.

The regional office of the Department of Labor said retail prices paid for living essentials by moderate-income families in Houston halted their downward trend in March and rose fractionally in April.

Some of the most destructive insect enemies that infest American shade trees were imported into this country. They include the elm leaf beetle, the brown tail and gipsy moths and the voracious Japanese beetle.

LUKEMIA CONTROL MAY BE NEXT STEP IN CONTROL OF CANCER

Editor's Note: This is the last in a series of dispatches reviewing the latest developments in cancer research.

By PAUL F. ELLIS
United Press Science Writer
(Copyright 1949 by United Press)
NEW YORK, May 21 (UP)—

The control or prolongation of life in leukemia cases may be the next major victory in the battle against cancer.

Leukemia, actually cancer of the blood stream in which the white corpuscles become abnormal and multiply rapidly, has responded to some forms of treatment—but not enough to prolong life.

A new chemical substance, however, is now undergoing human trials at Memorial Hospital Center for Cancer and Allied Diseases. Scientists at the Sloan-Kettering Institute for Cancer Research, part of the hospital center, are quick to emphasize that no "cures" have been made, and that it may be years before a true analysis of the effects of the chemical can be made.

What is significant is that a chemical has been brought out of the animal and test tube laboratories after earning its right for a trial in human cases.

The chemical is technically known as 2,6-Diaminopurine, an established precursor of a nucleic acid component known as guanine. In simpler words, taken in the diet, the chemical converts into the nucleic acid—a substance found in the nucleus of all tissue cells, and necessary for the life of the cell.

In the case of diaminopurine, however, its production of guanine apparently is not what the cancer cell needs. It just appears to be. Yet, animal tests have shown that it does not hurt normal cells if given in proper dosage.

Following many, many months of animal experimentation, the chemical has been given to some

patients at Memorial. It has shown some response in at least two persons, but memorial doctors emphasize that it is too early to make conclusions. The patients were given the chemical on an experimental basis.

Even though the chemical should fail—as so many others have—in the treatment of human cancer, the scientists believe the knowledge gained in its test may lead them to a new approach in finding other compounds that when taken in the diet will convert to substances, or nucleic acids, that eventually will stop abnormal growth.

They emphatically pointed out that successful treatment for one type of cancer may not work on another type of cancer. Yet with one criminal caught, the drag-net for the others can be spread. The Sloan-Kettering scientists believe science is closing in on man's ancient foe—cancer.

Dim Your Lights And Save A Life

U. T. Players Go Professional

LOS ANGELES May 21 (UP)—Texas University end Lew Holder and tackle Ed Kelley have signed with the Los Angeles Dons of the All-America Conference, Don Coach Jimmy Phelan announced today.

Holder, a 195-pound six-footer, was Texas' hero in the 1948 Sugar Bowl game. He intercepted one pass for a touchdown and stole the ball from Harry Gilmer of the Alabama four-yard line to set up another score.

Kelley was voted Texas' most valuable player by Alabama in the same game and played with Holder on the Longhorn squad three years.

When you gotta stop - you wanta stop!

"I can stop on a dime," the salesman promised you, "—and leave nine cents change!"

And your Buick did—when it was new and brake linings unworn and everything factory-tight and fresh.

But brake linings wear—lights grow dim with time—tires can lose their bite and traction.

And with a whole summer's driving ahead, what better time than this to bring your Buick back to new-car peak in all those details that mean so much to safety?

Our men, trained in Buick ways, will give you brakes that stop you as Buicks should, with new brake linings that are right in size and brake drums turned to perfect round.

They can replace sealed-beam headlights to give you new-bulb brilliance—and while they're at it, check battery, voltage, wiring and headlamp-aim to boot.

They'll check tires, switch them as needed, look into wheel alignment for easy steering.

In a word, they'll renew your Buick with the same care and interest they would lavish on their own—and do it at no greater cost than for just ordinary service.

So drop in. Get set for some summer fun that's up to lively Buick standard.

**Check your car---
Check accidents!**

Three great service and safety organizations across the country are alerting car-owners everywhere this month on safety-checking their cars.

They list ten vital question marks for you to think about—How are your Brakes? Lights? Tires? Steering? Wheel alignment? Defective glass? Rear-view mirror? Muffler? Windshield wipers? Horn?

Be sure your family rides in safety—ask your Buick service man to look over these check-points this month—and join the great drive for driving safely!

Buick care keeps Buicks best
