TROOPS SMASH COMMIES BACK

Threat To Taegu Eased As US Counter Attack

By Earnest Hoberecht
United Press Staff Correspondent

TOKYO, Saturday, Aug. 19 (UP)—U.S. and South Korean armies sent the shattered remnants of a crack Communist division fleeing in panic across the Nakdong river today. The victory gave the capital city of Taegu a breathing spell.

American Marines and 24th division troops smashed the big Communist bridgehead in the elbow of the Nakdong south of Taegu, U. S. 24th division units and South Korean troops hurled back a North Korean offensive aimed at the capital from the north.

Other allied forces recaptured the east coast port of Pohang and nearby Kigye to roving out one of the best days of the war. The victories all around the beachhead rim restored the Nakdong line eased a serious threat to Taegu, and promised to reopen the best Allied airport in Korea just south of Pohang.

THE MARINES AND MEN OF the 24th division wiped out the Communist bridgehead in the Nakdong bend on the second day of an offensive against the 10,000 to 12,000 elite troops of the North Korean fourth division.

Marine commanders estimated that more than 1,000 Communists were slain and the whole division was neutralized as a fighting force by the American assault.

By nightfall yesterday, front dispatches reported, the Yanks had smashed the bridgehead which once was seven miles deep and eight miles long. They were mopping up scattered pockets on the ridges.

GEN. DOUGLAS MACARTHUR'S midnight communique, trailing the reports from the front, said the Communists were being pushed back steadily in the bridgehead.

North of Taegu, the communiques said, Korean Republicans regained half to all of the ground lost to the Communist offensive Thursday, "and are holding firm in the face of the present main enemy effort."

But front dispatches disclosed that tank-led units of the U. S. 25th division, rushed to that sector from the south coast, had opened a strong counter-attack along with the South Koreans, and had thrown the Communists back on the northern approaches of Taegu.

PUSHING ON BEYOND KIGYE in the east coast attack, allied forces overran high ground and set up relatively stable lines in this sector where a sudden enemy thrust out of the hills carried through Pohang and to the edge of its airfield.

Although the Allied successes eased the threat to Taegu, the South Korean government ordered women, children and the aged among the war-swollen 800,000 inhabitants to evacuate the city. Communist shells fell in the outskirts early today and killed four civilians.

Another Allied victory was reported on the east coast. A South Korean military spokesman announced that South Korean troops had recaptured the port of Pohang, 63 miles up the coast from Pusan, and Kigye 19 miles northwest of Pohang.

Too Cold To Swim
No Reg Cross swimming classes will be held today because of the cool weather. Eddie Hart, has announced.

The regular meeting will be held Monday, Hart said. Lifeguard classes will meet Saturday morning, he added.

It is estimated the horse family originated during the Tertiary and Quaternary periods of geological time some 55,000,000 years ago.

"ROCKET AHEAD" With Oldsmobile Osborne Motor Company, Eastland

SEEKS ASYLUM—Wladyslaw Nizinski, left, second secretary, and Stefan Rogozinski, counselor at the Polish Embassy in Washington are two of the three high-ranking Polish officials who have resigned in defiance of the present Polish Government. They are seeking asylum in the U. S. (NEA Telephoto).

Cantwell Resigns As Assistant Coach; Ed Hooker To Replace

Ed. Hooker, a graduate of Texas A&M College has been named to replace James E. Cantwell whose resignation as assistant Eastland High School football coach was accepted by the Board of Trustees at the regular monthly meeting for August, J. Ross Rucker, board secretary, has announced.

Hooker is now living at College Station where he is working toward a Master's Degree. He is a veteran of World War II. He plans to make his home in Eastland shortly after his marriage on August 27.

Troy L. Washington of Temple, was elected to a teaching position in the Eastland Colored School. Washington plans to arrive here within the next week for the opening of school. He has a bachelor's degree.

The purchase of two automatic

Churchman Says Democracy Is Dying At Roots

WACO, Aug. 18 (UP)—A Ft. Worth Churchman told Baylor University's largest summer graduating class in history last night that "Democracy is Decaying At its Roots."

The warning was voiced by the Rev. James N. Morgan of Fort Worth's North Baptist church in a commencement address.

The minister said only the "moral responsibility of the people" could spare this nation a downfall like that of the ancient Grecian and Roman empires.

"Unfortunately, such responsibility is at a very low ebb today," Morgan said. "Empty hearts and empty churches reveal that democracy is decaying at its roots."

Baylor President W. R. White conferred 294 bachelor's degrees and 94 degrees for graduate work.

Still Time To Vote Absentee

Voters who will be out of town on the date of the second Democratic primary election, Saturday August 26, may still vote absentee through August 22. County Clerk Virgil Love has announced.

Love said that absentee voting had been fairly brisk with an especially heavy group recorded at Ranger. A great deal of interest has been shown in Eastland also, Love added.

Coded Messages Sent To Andorra Clandestinely

CHIHUAHUA CITY, Mex. Aug. 18 (UP)—Communications ministry experts studied code books found in a hidden radio station today to learn the meaning of messages the operator, a Spanish refugee, sent to a receiving post in the tiny European Republic of Andorra.

The radio station was raided yesterday by Ministry inspectors on a tip from the U. S. Military Intelligence. They arrested the operator, Enrique Ricart Cortes, and confiscated the modern American-made equipment he had used for his transmissions to Andorra, between France and Spain.

Ministry officials said they had refused Ricart an amateur operator's license. They said he had been operating from 1 a. m. to 6 a. m. every day for the past month, sending and receiving in both English and French. Ricart is the owner of a mattress factory in Chihuahua, which is 200 miles south of El Paso.

India Drawing Up Proposal For Settlement

By Bruce W. Murn
United Press Staff Correspondent
LAKE SUCCESS, N. Y., Aug. 18 (UP)—India set to work today to draw up a concrete resolution embodying its suggestion that the United Nations Security Council assign a small-power committee to thrash out a Korean peace settlement.

The Council itself was in recess until next Tuesday afternoon to give the Indians time to canvass the sentiments of Council members on a written draft of their week-old proposal. Their success hinged chiefly on the attitude of the United States and Russia.

Though the Council will not meet formally again until Tuesday, there will be a secret and informal get-together here Monday afternoon.

This was arranged by Soviet delegate Jacob A. Malik, Council president, in somewhat puzzling circumstances.

Malik simply restated the Soviet position on the issue that has roadblocked Council work on Korea since the return of the Russians Aug. 1 to take over this month's presidency.

He said in so many words that both the North Koreans and the South Koreans should be heard in Council attempts to reach a peaceful settlement in Korea. And he gave no sign that he would budge from his refusal as president to invite the South Koreans unless the North Koreans got an invitation too.

A. V. Clark No. 3 Shows 42 Barrels Hour In Test Run

Bankline's A. V. Clark No. 3 well, located in the Briggs-Owens pool about three miles west of Eastland flowed 42 barrels per hour through 40-64ths choke in a test run.

Drilling operations on the No. 6 Owens were below 1,600 feet. Choate Drilling company is in charge of drilling.

The test on the Clark well was taken following Hydrofrac treatment. The well had flowed naturally without the Hydrofrac. Completion of the well marked the seventh well in the new pool.

Ethyl Corp To Build

HOUSTON, Aug. 18 (UP)—The Ethyl Corporation, the world's largest producer of anti-knock compounds for gasoline, announced today it will build chemical plants here to produce more than 100,000,000 pounds annually for the military forces and area refineries.

Fagan Dickson Visits Eastland On Campaign

Fagan Dickson, San Antonio attorney and runoff candidate for Texas Supreme Court, Place 1, visited Eastland Thursday and charged that tax money is being spent in an effort to defeat him.

"I resigned my job as first assistant attorney general of the state of Texas to make this race," Dickson said. "I am not on any public payroll and I have no assistants on any public payroll. My opponent, Will Wilson, kept his job as criminal district attorney of Dallas County and hired more than 20 young lawyers from all over the state. He put them on the Dallas county payroll as assistant district attorneys, and at the moment, while they are drawing tax-paid salaries, some of them are traveling over the state in a desperate effort to defeat me. The Dallas county voters and taxpayers don't like that any more than do voters and taxpayers elsewhere. I am highly confident that I will be elected on August 26."

Commenting on the "Scratch Dallas" movement originated by Emmette Alexander of Marble Falls, which has gained widespread publicity during the last two days, Dickson said, "I do not know Alexander and am taking no part in the 'Scratch Dallas' movement. I am not running against Dallas and am not appealing for votes on a sectional basis. The Texas Supreme Court represents the entire state, and I am making this race strictly on my own qualifications."

Friday morning Dickson will address a group of Ft. Worth attorneys who are supporting his campaign. He said that he will stress his 21 years experience in the practice of civil law, as compared to his opponent's five years experience. Dickson served as assistant attorney general of Texas under Gerald Mann and Grover Sellers, and as first assistant under Price Daniels.

Authorities o Move Houses

LAREDO, Aug. 18 (UP)—Instead of building a new village near the site of the new Falcon dam on the Rio Grande, authorities will move dwelling units from Fort McIntosh and Laredo to the area.

Atomic Espionage

ALLEGED SPY FOR RUSSIA ARRESTED IN LAREDO; EIGHTH AMERICAN CAUGHT SO FAR

WASHINGTON, Aug. 18 (UP)—Morton Sobell, a New York electrical engineer and former Navy employe, was arrested today in Laredo, on charges of spying for Russia, the FBI announced.

Sobell was the eighth American arrested in connection with a Soviet Atomic spy ring operating in the United States.

He was caught with sending "National defense information" to Soviet Russia which he obtained as a radar engineer working for the Navy.

Sobell was arrested by the FBI at Laredo following his deportation from Mexico.

The Justice department said that Sobell fled from the United States to Mexico last June 22 af-

Pentagon Says Civilian Move Safety Measure

WASHINGTON, Aug. 18 (UP)—Official reports from Gen. Douglas MacArthur show the main North Korean threat still to be in the Waegwan-Kunwi area northwest of Taegu, a military spokesman said today.

THE COMMUNISTS STILL have their largest concentration of troops there the spokesman said at 10 a. m. (EDT) press briefing at the Pentagon.

The spokesman said that the latest official reports—which he said are running behind press dispatches—showed the fighting to be "relatively quiet" on all areas. He said there had been "no alarming development."

HE DESCRIBED THE OREDRS for civilian evacuation of Taegu as a "safety measure."

He said that they wouldn't be safe and that they also got in the way of the soldiers.

In explanation, the spokesman said that the defeat of the French armies in World War II was caused about as much by the hordes of civilian refugees swarming in battle areas as by German troops.

\$700 In 1947 Would've Made You Rich Now

FORT WORTH, Aug. 18 (UP)—Many investors regret today they did not buy a barrelful of Danciger Oil & Refining Co. stock that was offered only three years ago for 65 cents a share.

The Danciger family sold their firm July 25, with each share bringing \$25.

JOHN McCLANE, A FORT Worth stock broker, said shares were offered at 65 cents Jan. 21, 1947, but failed to sell.

"On Sept. 10, 1947, the stock was offered here at 70 cents a share, but again found no takers," McClane added.

"An investment of \$700 in Danciger stock two and a half or three years ago would have earned the investor \$25,000," he said. "But most investors here turned it down."

DAN DANCIGER, PRESIDENT of the company, said Wednesday about \$1,000,000 from the recent sale would be distributed among the firm's 400 employes in Texas and several other states.

ter the arrest of David Greenglass, ex-army man also charged with spying for Russia.

Sobell is charged with working with the Atomic spy ring during the period 1942-47 while he was employed by the Navy at the General Electric Co., Schenectady, N. Y., in aeronautical and Marine engineering and radar.

He worked in the section which conducted radar research under the provisions of restricted contracts for the Navy during World War II.

When Sobell fled to Mexico last June he was employed in a New York engineering firm, the Reeves Instrument Co.

Chemists Hunt Fumes That Color Houses

BAYTOWN, Aug. 18 (UP)—Chemists searched today for the source of fumes which splashed white homes with unsightly yellowish-gray patches in this industrial suburb of Houston.

City authorities said the "chemical invasion" apparently posed no health problem. But they feared damage to some 100 homes in a two-square mile area of west Baytown might "run into money."

FIRE CHIEF A. H. LINTELIN speculated the odorless fumes were some kind of chemical from plants in the area, either here or at Texas City, 30 miles away.

Angry residents first noticed the discoloration Wednesday morning. Outside walls were covered with yellowish-gray patches, while columns and wood floors of the porches sported a greasy coating.

Authorities sent samples to the Humble and DuPont laboratories for examination.

"THE PEOPLE ARE TAKING IT pretty calmly," Lintelman said. "But they don't like it and I don't blame them."

Housewives found they were able to remove the film from furniture in houses, but outside it was a different matter.

"I tried to wash some of the stuff off the columns of my front porch," said Mrs. J. E. Peters. "The stuff came off—and so did my paint."

Soldier, Girl Exchange Vows Long Distance

LUBBOCK, Aug. 18 (UP)—An Air Force soldier and the German girl he married in 1947 exchanged vows again yesterday over 5,000 miles of telephone wire—"mostly for her morale."

Fred A. Dickey and Erna Theresa Bollinger were first wed shortly after they met in 1947, when Dickey was in the Army of Occupation in Germany.

Dickey, a native of Wichita, Kan., was sent back to the United States and stationed at Reese Air Force base near Lubbock.

He said he was now trying to get his wife into this country on a two-year visitor's visa, after which he hopes to obtain permanent residence for her.

"This one was mostly for her morale," Dickey explained. "It cost me \$36 for nine minutes, but it was worth a hundred times that."

BOYCE HOUSE

Boyce House To Speak At Rotary Monday

Boyce House, author of 10 books, newspaper columnist and after-dinner speaker, will address the Eastland Rotary Club at the noon meeting Monday.

House lived in Eastland county for 10 years, as editor of the Eastland Telegram and in a similar capacity with the Ranger Times and the Cisco News.

He is the newspaperman who played a big part in making Old Rip, the Eastland horned toad, world famous and while helping in the pursuit of the Santa Claus bank robber gang, House narrowly escaped being killed when a riot gun was accidentally discharged.

Rotary President David McKee announced that members of the Lions Club were especially invited to the Monday meeting. House is a Lion and was a charter member of the Eastland Club.

House's first book, "Were You In Ranger?" gives a history of the great oil rush in this county and nearly half of his book, "Oil Boom" tells more about the Eastland county rush.

He also wrote an article for the Saturday Evening Post on the subject, entitled, "It Was Fun While It Lasted." House was called to Hollywood to help write the big oil motion picture, "Boom Town," which starred Spencer Tracy, Clark Gable, Claudette Colbert and Hedy Lamarr.

House's weekly "column" and daily humor feature appear in numerous newspapers. His best known books are "I Give You Texas" and "Tall Talk From Texas," which have sold more copies (about 200,000) than any other books ever written about Texas.

He was featured for years on a radio network program and is the most in demand speaker in Texas. Four years ago, he came close to being elected Lieutenant Governor, receiving nearly half a million votes in the runoff.

The first city to promulgate the law forbidding the marriage of whites with blacks was Bienville, Ala., in 1706.

Robert Miller Reports

RIVER RUNS RED WITH KORED BLOOD AFTER MARINES ATTACK TO BLAST OUT BRIDGEHEAD

By Robert C. Miller
United Press Staff Correspondent
ON THE NAKTONG RIVER FRONT, Korea, Aug 18 (UP) — Shattered remnants of the North Korean fourth division fled in panic today from their shattered bridgehead in the elbow of the Naktong. The sluggish river ran red with their blood.

United States Marines and infantry scored the first complete American victory of the Korean war. They wiped out the Communist bridgehead menacing the whole Naktong river line.

The two-day offensive had won all its objectives by nightfall save one small pocket on a ridge. Only the mopup remained. The wedge in the American defenses, once seven miles deep, was no more.

American casualties were light, once the backbone of the Communist defense was broken and the enemy began his flight over the ridges and across the river.

Marine commanders estimated that more than 1,000 Communists were killed and the whole 4th division was "neutralized" as a fighting force.

The last enemy stand was made this afternoon atop a ridge one and one-half miles long. Only yesterday its formidable slope had hard fighting Yanks.

Suddenly the ridge was bathed in the glare of white phosphorous and high explosive artillery shells. The frantic Communists poured over the hill, seeking refuge on the far slope.

The planes caught them there, scourging them with rockets and shells and deadly napalm, a burning gasoline jolly that fries the land and suffocates the living.

The ground quaked under artillery and mortar. Tanks and recoilless guns joined the bedlam with flat trajectory fire.

It was more than the Communists could bear. Those still ambulatory plunged down the steep slope of the ridge to the river.

The slaughter was even greater as the North Koreans tried to wade and swim the 100 yards of deadly water. Some tried it alone, other in groups of 20 or so, and a few bigger bands of a couple of hundred.

For every group that made it, a dozen failed.

The Corsairs and Mustangs, the machine guns and rockets, the small arms from the east bank permitted them no respite. Had they waited until dark, hundreds

might have saved themselves. But as one prisoner of war explained, their officers were either dead or in flight, and in the confusion it was every man for himself.

The Air Force had so many calls it was unable to destroy completely all the enemy troops fleeing into the hills on the west side of the Naktong. Cooperating in the assault from the skies were Air Force jets and Mustangs and Marine Corsairs.

By late afternoon the Marines had cleaned up everything but their third and last objective, an "elephant back" ridge next to the river bank.

One Army unit got so far ahead of its supply line that it had to halt for an air drop.

The Air Force definitely knocked out three enemy tanks in a battle today and two others were stopped in their tracks and may have been knocked out.

Added to the three definitely destroyed yesterday by Marine anti-tank crews, the two-day score was six tanks destroyed and two probables.

The last fighting remaining in the bulge was on several ridges just east of the river. Ground forces were jubilant and morale was high.

The hard-bitten Leathernecks and the doughboys poured it into the North Koreans hot and heavy and were ahead of schedule in reaching their objectives.

There was less opposition from the 10,000 to 12,000 Communist troops holding this bulge in our line than there was when the offensive started yesterday morning and enemy casualties were reported high.

Army and Marine officers were elated by the progress of the coordinated drive and some of them think it may be possible to clean out the bulge and push the Reds into the river by tomorrow.

F-51's and Marine Corsairs supplied day-long air cover for the advancing troops and knocked out enemy placements that couldn't be reached by artillery.

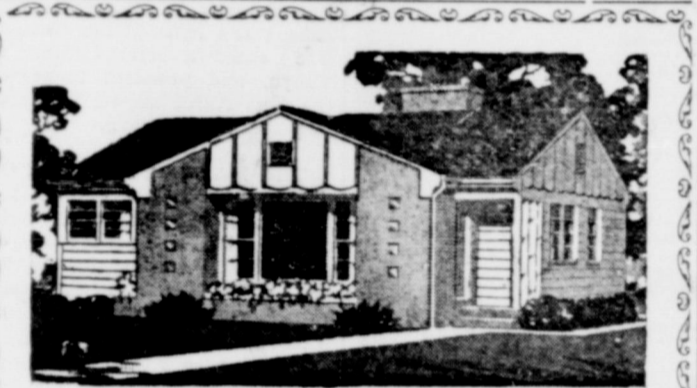

During a two-hour artillery duel, an Army gun crew was lobbing shells all around one heavy enemy position but couldn't quite get the range. They asked for an Air Force rocket attack and fired a white phosphorous shell to mark the spot for the pilots.

The smoke shell landed directly on the Red artillery position and blew up ammunition stores with a terrific explosion.

Ferguson Reports

Reds To Turn Malik Loose In UN Again To Grind Propaganda

By Harry Ferguson
United Press Foreign News Editor

The Big Russian filibuster resumes in the United Nations today. By nightfall the Moscow radio will have some new propaganda material to send booming around the world in 32 languages.

It won't be exactly new material. Rather it will be some more of the same. Jacob Malik, president of the U. N. Security Council, will recognize Jacob Malik, chief Soviet delegate. Jacob Malik then will make a speech. You do not have to be clairvoyant to predict what he will say. He will say that the United States made a deal with the South Koreans to attack the North Koreans. That's what all the shooting is about along the Nakdong river, in case you didn't know.

Few people in the Western world, where we enjoy a free press and freedom of expression on the radio, will believe what Malik is saying. He probably doesn't care much, because he has another audience in mind. He is trying to hammer home a propaganda point to the Russian people and to the millions throughout Asia whom the Russians would like to bring under the banner of the hammer and sickle.

But how do Malik's words get to those people who have few newspapers and maybe only one radio in a town? Primarily through the Moscow radio, which, from a technical standpoint, is the biggest propaganda medium operating today. It has more than twice as many programs as the Voice of America.

The Russians maintain a Soviet monitoring post in London. It is a round-the-clock operation, picking up and translating what the Moscow radio is saying. The broadcasts go on 24 hours a day. A total of 32 languages are used in relays so that no country or race will be ignored.

The Moscow radio also broadcasts to the Russian people. Sometimes it slows down to "dictation speed" so that editors of provincial newspapers and Communist propaganda agents can copy what is being said and publish it. The Moscow radio pays particular attention to Southeast Asia and India. It has a special broadcast for that section of the world for two hours every day in four languages—English, Malay, Hindustani and Bengali.

Communist leaders in cells through China and the rest of Asia have been trained to listen to the Moscow radio. They take down on paper the propaganda line. Then they usually call a meeting and make a speech about it. Soon Red agents are fanning out into the nearby villages. There they explain to the people how the South Koreans attacked the North Koreans and what Malik had to say about it in the U. N. Security Council. Occasionally, they print pamphlets and post one somewhere along the main street of each town.

There probably are hundreds of towns throughout Asia where the people never heard of Warren Austin, American delegate to the U. N., or Sir Gladwyn Jebb, British delegate. Their remarks don't get much space on the Moscow radio or in speeches made by Red cell leaders. And about the only time they hear about Gen. Douglas MacArthur is when Malik sarcastically describes him as "the deputy of God in Asia."

Army Plans To Call Up 439 Officers

AUSTIN, Aug. 18 (UP)—Some 439 company grade Army reserve officers, not attached to units, will be in uniform by Oct. 6, Texas Military District headquarters announced.

Col Oscar B. Abbott, commanding officer of the Texas district headquarters, said the call would include officers in both combat and service units of the organized reserve corps.

THE COLONEL ALSO SAID the state's quota of medical service officers had been set at 79. They will be called by Sept. 10. Officers will be called in three groups. Abbott said, with the first reporting by Sept. 22, the second by Sept. 29, and the third by Oct. 6.

Combat branches include the infantry, armored corps, artillery, coast artillery and corps of engineers. Service branches include the headquarters corps, ordnance and the adjutant general department.

ABBOTT SAID THE AGE-IN-GRADE requirements put the age limit in combat forces at 30 for second lieutenants, 35 for first lieutenants, and 41 for captains. For service branches, limits are 38 for second lieutenants, 41 for first lieutenants and 45 for captains.

GORMAN

By Buena Van Winkle

George L. Smith, Sr., who has not been in good health for almost all this year is back home from Harris Memorial Hospital where he underwent surgery.

Quite a large representation from Gorman attended the Horned Toad Derby in Eastland Saturday evening. Miss Adele Fairbatter of Gorman was crowned Queen of the occasion, while Mrs. E. E. Todd and Mrs. Boyd Hilley were in charge of the coronation ceremonies.

D. R. Brown of Rochester and old-time resident of Gorman and vicinity has been visiting friends and relatives for the past week.

Among those who are on the way to Carlsbad, N. M., are Mr. and Mrs. Clyde Barbee, Mr. and Mrs. Haden Barbee, Mr. and Mrs. Jack Barbee, and Misses Patsy and Naoma Anderson, granddaughters of Mr. and Mrs. Haden Barbee; also Mr. and Mrs. Bedford Butler and their two daughters; and Mr. and Mrs. Pete Mauney. Several other parties are being made up.

Mr. and Mrs. Roy Rodgers and son Jimmy of Old Ocean, Texas are spending their vacation with Mr. Rodgers parents, Mr. and Mrs. Don E. Rodgers, and other relatives.

Emily Starnes, Bride Elect, Is Honoree At Series Of Parties

Emily Starnes, who will be married Sept. 7 to Jim Sharpe of Houston, has been honored at a group of parties this week in her home town of Weatherford. She is the daughter of the Rev. and Mrs. Homer Starnes, former pastor of the First Baptist Church here.

Mrs. E. P. Bruce entertained with a breakfast this morning the Women's Missionary Society of the First Baptist Church complimented Miss Starnes with a musical Tuesday evening at the home of Mrs. Hubert Roberts and the bride elect was honoree Friday afternoon at a shower at the home of Mrs. S. B. Teague.

Decorations at the breakfast featured seasonal flowers carrying out a theme of blue and silver, the bride-elect's chosen colors.

Places were laid for Misses Sarah Starnes, Marilyn Meyer, Dorothy Eagle, Pat Woodard, Martha Louis Granstaff, Jamie Smith, Frances Frost, Beverly Curtis, Judy Culwell, Violet Ann Martin, Ollie Marie James, Joey Smith, Mmes. H. J. Starnes, F. E. Malone, Malvery Oglesby, J. E. Granstaff, and R. J. Smith, the honoree and the hostess.

The musicale Tuesday evening was held on the lawn of the Roberts home and the program included background mariamba music by Sarah Starnes, vocal solos by Jamie Smith and Mrs. Jack Patterson, duets by Mr. and Mrs. Don Vandergriff and readings by Mrs. Bob Oakley, Charlie Lowe and Judy Culwell. Setting for the skit presented was the Baylor campus, where both Miss Starnes and Mr. Sharpe are students.

Hostesses at the miscellaneous shower Friday afternoon at the Teague home were Mmes. Jack Dunne, C. R. McCauley, Weldon Cash, M. R. Tucker, Deris Pritchard, W. R. Poulter, Misses Pauline and Evelyn Phillips.

Silver garlands and wedding bells in sunburst arrangement with a miniature bride and groom in cups of blue maine and blue satin glamour leaves centered the refreshment table. On the buffet, was an arrangement of white-carnations, baby bride gladiola, delphinium and blue baby's breath accented with silver cords and bells.

Rebekahs Attend New Members To Be Initiated

A group of members of the Eastland Rebekah Lodge accompanied four new members to Ft. Worth, to be initiated Thursday evening by the Magnolia Rebekah lodge.

Candidates were Mmes. Vivian Fox, Sam Herring, Raymond Webb and Joe A. Bowles. Others making the trip were Mr. and Mrs. Ben Mathews, Mr. and Mrs. F. F. Terrell, and Mmes. E. E. Herring, Hazel Peyton, C. M. McCain, D. C. Hager, and Blanche Nicols.

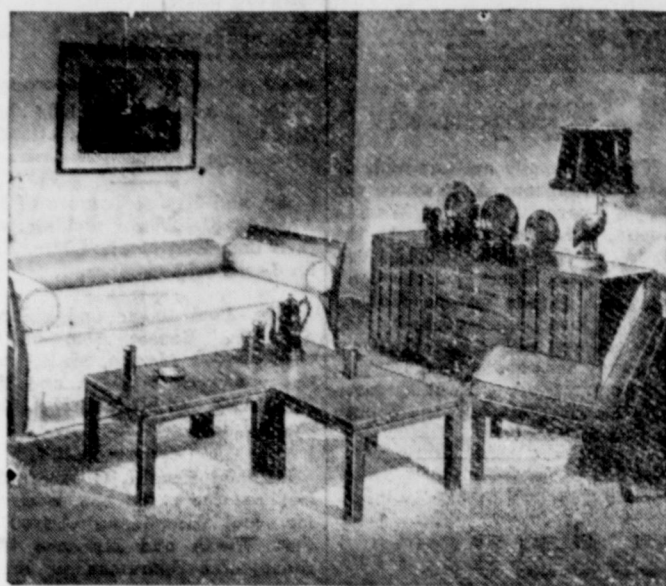

Refreshments were served during a social hour after the initiation ceremony and the group had a very enjoyable time, the spokesman said.

Informal Evening Honors Two On Birthday

Mrs. James Ward honored her husband, James Ward, and Mrs. Clifford Nelson with a picnic dinner at Lake Cisco Thursday evening, August 17th.

Arriving at the scene, the table was covered with a beautiful hand embroidered table cloth, and the table was laden with delicious edibles.

The evening was completed by the group playing miniature golf. Those present were Mae Edna Smith, Clifford and Mrs. Nelson, James Ward, and the hostess, Mrs. Ward.

The smart modern styling and great versatility make this "Cross Country" group ideal for the college girl's room. The cane-paneled daybed is full twin size and is both a handsome sofa and a comfortable bed. The square snack tables may be used with snap-on rubber foam cushions or extra seating units. Two sliding door junior wardrobes are combined with a center chest to form a wall grouping, and are designed to hold every item in a feminine wardrobe. The furniture is of sturdy oak in a soft beige-gray finish. (Grand Rapids Chair Co.)

Personals

Mr. and Mrs. C. M. McCain visited Wednesday in Roby with Mr. McCain's twin sister, Mrs. Benny Kidd and with her aunt, Mrs. V. H. Moore of Lubbock, who was a guest in the Kidd's home.

Judy Anne Brannan and Johnice Brannan of Breckenridge are spending a few days with Linda Linkenhoger.

Linda Linkenhoger took an airplane trip with her father, W. W. Linkenhoger, from Ft. Worth to Austin and back to Dallas. She was made an honorary Junior Air Hostess on the trip.

Mr. and Mrs. W. B. Adams of DeLeon visited here Wednesday with her sister, Mrs. Tom Lasater and Mr. Lasater.

Mr. and Mrs. C. H. Turner of Dallas is here visiting with her parents, Mr. and Mrs. C. L. McCoy, Route two, Eastland.

Mrs. C. B. Beall and daughter Billye will be the week-end guests here in the home of Mrs. Beall's parents, Mr. and Mrs. E. L. Drago.

Mr. and Mrs. Roy Petty of Iran were the over-night guests in the home of Mr. and Mrs. O. H. Dick.

Enlisted Reserves To Be Ordered To 21 Months Service

AUSTIN, Texas — The Department of the Army has directed all continental Army areas to order male members of the Enlisted Reserve Corps, between the ages of 19 and 25, to 21 months of extended active duty. With or without consent, the reservists who are qualified in specified Army specialties will be selected for active duty, Col. Oscar B. Abbott announced today.

In the Fourth Army a quota of 3,330 has been established, 2,330 of whom will be assigned to specific units to bring ORC units up to the table of organization and equipment strength and 1,000 will be assigned wherever they may be needed in key positions throughout the Fourth Army area.

Those first to be recalled are Reservists without dependents and will be assigned to units as soon as possible after the arrival of units at their respective training stations. The stations where the Reservists are to be processed will be announced later.

CHEVROLET

CHEVROLET TRUCKS deliver more horsepower at the clutch*

The world's most popular engine

More trucks use Chevrolet than any other make! And one important reason is Valve-in-Head engine design. For 38 years Chevrolet has been the largest producer of world famous Valve-in-Head engines.

Blue-Flame combustion

Chevrolet's Valve-in-Head design makes possible the smooth, even burning of the fuel—blue-flame combustion. Combustion chambers are scientifically shaped to wring more power from every drop of gasoline.

Lower cost per mile!

Chevrolet's Valve-in-Head Loadmaster engine with greater horsepower at the clutch offers important advantages to truckers. It means greater efficiency—it means bigger pay loads at lower cost per mile!

PLUS—Chevrolet Advance-Design Truck Features!

TWO GREAT VALVE-IN-HEAD ENGINES • NEW POWER-JET CARBURETOR • DIAPHRAGM SPRING CLUTCH • SYNCHRO-MESH TRANSMISSIONS • HYPOID REAR AXLES • DOUBLE-ARTICULATED BRAKES • WIDE-BASE WHEELS • ADVANCE-DESIGN STYLING • BALL-TYPE STEERING • UNIT-DESIGN BODIES

Net horsepower . . . the power you use, the power delivered at the clutch . . . is the true measuring stick of a truck's ability to haul payloads. And for net horsepower, Chevrolet heavy-duty trucks with Loadmaster engine have no equal among the five most popular standard equipped makes in their weight class—13,000 to 16,000 lbs. G.V.W. Chevrolet heavy-duty trucks lead them all! Compare the facts! Check the serial plates of all other popular makes for proof. And remember—it's the power at the clutch that counts! Come in and let us tell you the full story of Chevrolet's truck leadership.
