Lions Tuesday had a fine out of the visit of a Fort Worth Lions who brought the Fort Worth Western Exposition and Fat Show.

Dragan, manager of the North Cats, told a lot of things which could be done and the Lions from Fort Worth were unrestrained as Lions members traditionally are.

After I came to Eastland the Lions Club was often referred to by members "Eastland Ministerial Alliance" because so many ministers.

Fire Burns Over Large Tract North Of City Tuesday

Fire that apparently started near the eastern edge of Ringling Lake burned over several hundred acres of land Tuesday before burning itself out late Tuesday night.

The grass and brush fire burned pastures owned or rented by D. A. Toliver, Bernard Hanna, C. M. Pinkston and Cecil Holifield, and destroyed thousands of fence posts, as well as threatening cattle and causing alarm on the part of utility crews.

The fire began shortly after noon Tuesday, and smoke from it could be seen all afternoon from Eastland.

The fire burned south nearly to the northern edge of Eastland, west to the county road past Ringling Lake, north to the east-west road a mile or so north of the lake, and east nearly to the Breckenridge highway.

Several of the Toliver cattle and horses narrowly escaped destruction in the flames.

Those in the affected area and numbers of volunteers beat the flames away from homes and out-buildings.

EHS Teams To Meet Dublin Tonight

Eastland High School basketball teams, after losing three hectic games to Ranger Tuesday night, will take on Dublin at Dublin Friday evening in conference contests.

Eastland lost its only previous district games to Comanche.

The Ranger games in the local gym Tuesday were about as rough as any ever seen here. Ranger's boys easily defeated the Eastland boys, 44 to 30, to avenge an earlier loss, and the Ranger girls won from the Eastland girls, 20 to 13.

High feeling was evident in all the contests, including a preliminary game in which the Ranger B team won from the Eastland B boys.

In the boys' game Rodney Stephens and George Harris, both Eastland starters, were knocked to the floor and incapacitated for further play in the second quarter, and in the same period Ranger school officials made members of the girls' team leave the stands after a bit of scuffling between them and members of the Eastland girls' team who were seated next to them.

Edith Hazard, star Eastland forward failed to play for infraction of school discipline, and Fern Shaffer, star guard, played only the final quarter because of illness, and under doctor's orders to take it easy.

FFA Group To Attend Fort Worth Show

Members of the Eastland FFA Chapter Thursday planned to attend the Fort Worth Livestock Show Jan. 27, which will be FFA Day at the show.

The group decided to leave for the show from the Manhattan Cafe at 6 p. m., and to leave Fort Worth for the return trip at 9 p. m. the same day.

The chapter also planned to initiate a new member of the second year class, Edwin Aaron, to the rank of Chapter Farmer.

Presiding at the meeting was Lonnie Young, chapter president.

James House Named Men's Shop Manager

James "Kelsey" House has been named manager of the Men's Shop in Eastland, succeeding Cpl. Carlton A. Ranney, who was called back as a reserve, and is now stationed at Fort Sam Houston, San Antonio.

House has been associated with the Men's Shop for over a year, and has lived in Eastland four years. He formerly was district manager of the National Banker's Life Insurance Company here.

His wife, Marie House, is employed in the Eastland County Tax Assessor-Collector's office.

Mrs. A. R. Myrick of Eastland has been employed as a clerk in the shop. She formerly worked at Burr's here.

Last Rites Are Held For Mrs. Cora Baines, Explosion Victim

Funeral services were held Sunday for Mrs. Cora Baines, who died at a Ranger hospital following an explosion at her home in Eastland early Saturday morning. Burial was in Eastland cemetery following rites at the Hamner Funeral Chapel at 2 p. m. Sunday.

Mrs. Baines, 86, was badly injured in the explosion and was carried from the apartment in which she and her son lived by W. C. Whaley, Eastland engineer who was one of the first persons to arrive on the scene.

Officers theorized that Mrs. Baines struck a match to light a gas heater and exploded gas that had escaped into the room somehow.

Mrs. Baines, born in Shelby County, came to Eastland County in 1900 and had been a member of the First Church of Christ, Scientist, for over 40 years.

She is survived by a daughter, Mrs. Neta Cross of Olden, two sons, J. M. Baines of Odessa and W. M. Baine of Eastland, and eight grandchildren and 12 great-grandchildren.

March Of Dimes Goal About \$6500

A March of Dimes goal of about \$6500 for Eastland County was announced Thursday by Stanley Webb, county chairman, as the 1951 polio fund drive got under way. The quota compares closely with last year's.

The National Foundation's epidemic aid funds have been greatly depleted, Webb pointed out, by the last three tragic polio years. For this reason, the March of Dimes has grown into a need for a March of Dollars, he said.

Webb reported that March of Dimes posters and collection boxes have been distributed all over the county, and a trickle of dimes already has started.

There were at least two cases of polio last year, at Gorman, and Texas as a whole had its highest polio incidence in recorded history.

City of Eastland's share of the county quota in the drive is about \$2,000.

New Dodge To Be Presented Saturday

First showing of the new 1951 Dodge models is due Saturday at the McGraw Motor Company in Eastland.

L. E. McGraw, owner of the motor firm, said the new models will have a far easier and smoother ride because of improved Oriflow shock absorbers, and will offer better visibility through wider windshields and larger rear view mirrors.

In addition, performance characteristics have been improved, and a new and modern appearance is stressed in the hood and grille design.

McGraw said the new cars list at the same prices as the 1950 models.

A. R. Myrick, who has been a patient in the Veterans Hospital at McKinney, was returned home Wednesday. Mr. and Mrs. Myrick live at 105 North Ammerman St.

Joe Ben Koonce Groomign Two Shorthorn Calves For Shows

By DORA WATKINS

Joe Ben Koonce, Eastland County 4-H Club boy, is grooming his two shorthorn calves this week for the Comanche County Livestock Show, and the Fort Worth show. Joe Ben will show his two calves, White Flash and Red Prince, at Comanche Thursday, Jan. 23, and at the Fort Stock Show in Fort Worth, Saturday, Jan. 25.

White Flash, aptly named because of his curly white coat, tips the scales at about 875 pounds, and is 15 months old. Joe Ben got him from his father's herd. Red Prince, who was raised by the 4-H youngster, is 11 months old, and weighs around 715 pounds.

Joe Ben lives on the ranch farm of his parents, Mr. and Mrs. B. O. Koonce, four miles south of Desdemona. This is his fifth year to raise a club calf, and he has several winners to his credit already. His shorthorn, Butch, was reserve champion at the Dallas Fair last year, and another calf, Frosty, was

Saturday Rainfall, Light As It Was, First Since October

Last Saturday's rainfall of .2 of an inch was more rain than had fallen in Eastland since October, Weatherman J. A. Beard said this week after checking his records.

He also came up with the information that 1950's rainfall was 23.59 inches, only a little under normal despite the long fall and early winter drought.

No measurable rain fell in November of December.

It was different earlier in the year, though. Rainfall totalled .55 of an inch in January, 1.10 inches in February, none in March, 3.15 in April, 5.13 in May, 2.05 in June and an unprecedented 5.50 in July. It was then that farmers were wishing the rainfall would stop and let them get into their grassy fields.

The rainfall slowed down to 1.90 in August, and September had 3.92. Then October dropped to .29, and there were only traces measured in the last two months of the year.

Average annual rainfall in the county is 27.51 inches, according to the Texas Almanac.

Last year's rainfall was far less than that of the year before, but perhaps more of it fell at a time to help summer crops than in any recent year.

500 Attend Farm Bureau Session

Some 500 farmers and ranchers attended a meeting of Eastland County Farm Bureau in the Eastland High School auditorium Tuesday night. Highlight of the evening was Murray Cox's film on farming and ranching in the Pacific Northwest, with the farm radio reporter giving the commentary.

County Agent J. W. Cooper reported Wednesday morning that the number of farmers and ranchers who signed up with the Farm Bureau group Tuesday night was not available.

A. J. Myrick of Cisco, president of the Eastland County Farm Bureau, served as master of ceremonies. Mr. and Mrs. Stanley Webb of Eastland led the singing.

There are now about 150 members in the Farm Bureau, membership of which has grown rapidly the past six years.

Last Services Held For Mrs. Sue, 81

Services for Mrs. Maggie Emma Sue, 81, 409 S. Walnut, were held at 4 p. m. Monday at the Hamner Funeral Chapel in Eastland, with W. E. Moore, pastor of the Church of Christ, officiating. Burial was in Eastland Cemetery.

Mrs. Sue, long time resident, died in a Ranger hospital early Monday. She was born February 16, 1869, in Alabama.

She is survived by one daughter, Mrs. Hoyt Davis; A son, J. O. Sue; four grandchildren, Mrs. Will Rust of Houston; Weldon Davis, Eastland; Alice Sue, Marlin; and Ray Thomas Sue of Snyder; and three great grandchildren.

Dr. White To Leave Eastland; Lack Of Hospital Here Blamed

Committee Studies Cost Of Building Institution Here

Earl Bender, chairman of an Eastland committee named to investigate hospital sites and costs, said this week the committee likely will have no report to make for several more days.

He said that as instructed at a general hospital meeting Friday night, the committee is investigating the cost of building a 16-room addition to the Caton and White Clinic. An appraisal of the cost of building the present clinic building also was being made, he said.

It was learned that two members of the four-man committee are opposed to the Caton & White site for a hospital, but Bender said it was his opinion that the committee had been named not to oppose or favor sites, but to report on specific things, and that was the course that was being taken.

Members of the committee are Bender, Victor Cornelius, Sam Gamble and Ocie Hunt.

They were appointed by Mrs. James Horton, president of the Civic League and Garden Club, which has been sponsoring the hospital movement. Mrs. Horton called and presided at the meeting Friday in the Woman's Club.

At the session, numbers of Eastland citizens expressed themselves as favoring any move to obtain a hospital, but none advanced any concrete plan except Mrs. John Turner, chairman of the Civic League hospital committee, who reported on the recommendation of Dr. Charles Root of Colorado City that the Caton & White site would be the best of any suggested.

Root, operator of a hospital in Colorado City, said that the present building could be used for offices, X-ray rooms, emergency rooms and the like, and a 15-bed hospital building could be built as an addition or wing to the present building.

At the meeting Friday, Cornelius said he looked upon such a proposal with disfavor, and said he could see no valuable hospital for Eastland emerging from such a project.

Lowell Herring suggested the former States Oil Company office building on Highway 80 east of town near the J. M. Weaver home might make a good beginning for a hospital, and Bender said this week the site was being investigated as to availability.

BROWNS ATTEND MRS. PARKER'S RITES

Dr. and Mrs. L. C. Brown attended funeral services Tuesday for Mrs. R. L. Parker, 73, of Fort Worth, held in Fort Worth.

Mrs. Parker, step-mother of Mrs. Brown, died Sunday of a heart attack.

Scout Worker Potts And Family Move

Boy Scout Field Executive Steve Potts and his family moved over the week end to Del Rio, where Potts has accepted a similar Boy Scout post.

Potts and his family had lived in Eastland about three years.

Local Scout officials said that no one had been named to replace him. Potts was executive for the northern part of the Comanche Trail Council.

Band Group To Play At District Affair

Eastland High School Band Director T. R. Atwood told members of the Eastland Band Boosters Club Tuesday night that 14 Eastland band members will take part in the All-District Band in Dublin Jan. 27.

Band members chosen to appear are Jim Ed Willman, Bobby Phillips, Ben Green, Billie Farr, Claudine Lasater, Bobby Latham, Alice Cushman, Patsy Atwood, Mozelle Pullman, Don Smith, Guyrene Robinson, Richard Jones, Joe Ernst, Sarita Seale and Jimmy Harris.

Atwood also reported on the band clinic to be held in Eastland Jan. 13 with Mr. McAdoo of Denton as director. He explained the All-State Band, and said two or three Eastland students are expected to play with it at Galveston in February.

Tentative plans were announced to secure the Carswell Air Base Band from Fort Worth for a concert and clinic in Eastland, the project to be sponsored perhaps by the local American Legion post.

Club members voted to continue the drive for members. Wayne Jackson, president, presided over the business, and Mrs. A. E. Cushman gave a financial report.

Junior High Cage Tournament Begins

An elementary school basketball tournament being sponsored by Eastland Junior High School began in the Eastland gym Thursday evening and will continue through Saturday, with the finals in girls' and boys' play Saturday evening.

The event, the first ever held by the Eastland school, is a double elimination event.

Teams entered were from Cisco, Moran, Carbon, Scranton, Olden and Eastland.

Support of the tournament by attendance was urged by the faculty of junior high and by members of the teams.

Games will be played Friday afternoon and night and Saturday afternoon and night.

1951 Buick Lines To Be Seen Saturday

The 1951 Buicks will go on display in Eastland Saturday in the showroom of the Muirhead Motor Company.

The new line is highlighted, said Jack Muirhead, by the new and improved Buick Special, with new body and new engine.

The 1951 Special, lowest-priced car in the Buick line, is new from front to rear, with a new body new chassis and is powered with the F-263 Fireball engine that was introduced last year in the Super line, next higher priced series in the Buick price group.

The entire line has been restyled, and offers a wide choice of body styles and prices, Muirhead said.

Young Physician To Be In Practice At Ranger Clinic

Eastland's need for a hospital was pointed up greatly this week as Dr. J. E. White, only young doctor in the city, announced that he was going to give up his practice here and leave Eastland.

Dr. White said that after Feb. 1 he will be associated with Drs. Calvin Harris and W. P. Watkins in the Ranger Clinic in Ranger.

He said further that one of the main reasons he is leaving is lack of hospital facilities in Eastland.

"After all," he said, "a hospital is the workshop of a doctor. He just has to have one."

Dr. White's departure will leave Eastland without a single physician who will make private calls and night calls at the homes of patients.

He is the third young doctor to leave Eastland for similar reasons—no hospital and overwork. Dr. Watkins was the first, then Dr. W. K. Cowan moved to Colorado City, and was succeeded in practice with Dr. J. H. Caton by Dr. White last September 1.

Dr. Caton said he had written 20 letters to young doctors who might be interested in coming to Eastland, but had received answers from only three.

All three now are interns and will not be able to go into practice until July.

Dr. Caton said he wants to induce two young doctors to go into practice here.

Dr. White has told friends repeatedly that the demands of the practice on him are too great, with out relief. He has been up all night many times, and still had to make hospital calls in Ranger and attend to his office practice in Eastland the next day, and then perhaps had to spend half the next night up also.

It was the same intolerable routine, particularly the interminable trips back and forth to the hospital in Ranger, that induced Dr. Cowan to give up his flourishing practice here and go to Colorado City, where he is a partner in the Rhode Clinic.

Dr. White said his departure should boost the move to obtain a hospital for Eastland, since it is his opinion that no young doctor will come to Eastland and stay in practice as long as there is no hospital here.

Library Open House Scheduled Sunday

The annual library open house will be held Sunday at the Public Library in the Woman's Club. Calling hours are from 3:30 to 5 p. m., and open to the public.

Members of the Thursday Afternoon Club, sponsors of the library, will be hostesses. The annual tea is held to show improvements that have been made in this public service from year to year.

The club is also sponsoring an essay and poster contest in connection with the library through the public schools. Winners of this contest will be announced at a later date.

Hostesses for the tea Sunday will be the president, Mrs. W. F. Davenport, other officers of the club, and the library committee, composed of Mesdames Arthur Murrell, W. B. Pickens, James Horton, and Dixie Williamson.

Morgans Moving To Littlefield Farm

Mr. and Mrs. Tommy Morgan and family are moving to Littlefield, where Morgan has bought a farm.

The Morgans have lived in or near Eastland for a number of years while Morgan was employed by the Lone Star Gas Company.

Mrs. Morgan had been secretary of the First Baptist Church here.

Ben Hamner was in Dallas Wednesday attending the showing of the new 1951 Buick appliances.

 "HOW TO WIN FRIENDS and INFLUENCE PEOPLE"

Worry Is the Greatest Enemy

DR. JOSE P. BADEL, Jersey City, N.J., says he will always be
 a better doctor because of a trying and disheartening expe-
 rience he suffered some years ago when he was still a student.

He was making a culture of Eberthella
 Typhosa, to you and me, the microbe that pro-
 duces Typhoid fever. He wasn't as careful of
 himself as he should have been and the result was
 that he contracted Typhoid himself.

Things took a bad turn; he had a
 complication of meningitis, which is an
 inflammation of the membrane that covers
 the brain and spinal cord. He, by chance,
 overheard his physician say to one of the
 other physicians that the case was very
 serious and would probably result in death.

Just then came the experimental stage with
 the sulfa drugs, so they experimented on him. He recovered from
 meningitis but he developed peripheral neuritis, lost 50 pounds,
 was practically skin and bones, and was so weak that he had to
 be taught to walk again. Worried? Of course.

But the disheartening word came when the doctor
 told him he was not to resume his studies for at least two
 years! During those two years his classmates would pass
 him by. Naturally this worried him. But it had to be
 faced, and he faced it. He went to the country and he
 made up his mind that worry would not go with him. He
 stayed a year before he went back to the doctor for a
 check-up.

Said the doctor, "You have recovered in a wonderful way;
 you are perfectly well, and you may now resume your studies."
 Says Dr. Badel, "I know now that I would not have re-
 covered in just half the time the doctor allotted me if I had
 continued to worry. And this is a lesson that will stand me in
 good stead all my life, and make me a better doctor than I ever
 could have hoped to be."

DOCTORS WITH SOME DEGREES MUST REGISTER

AUSTIN—Persons required to register under the medical draft law January 15th are limited to males who hold one of six degrees in the fields of medicine and surgery, and veterinary medicine and surgery.

Brigadier General Paul L. Wakefield, state director of Selective Service, said that male persons, with certain exceptions, who hold the following degrees are required to present themselves for registration.

- (1) Bachelor of medicine, (2) doctor of medicine, (3) doctor of dental surgery, (4) doctor of dental medicine, (5) doctor of veterinary surgery, and (6) doctor of veterinary medicine.

Any of the above degrees who has "Any male person who holds reached his 50th birthday on January 15th is not required by law and official proclamation to register on that date," General Wakefield said.

The state director noted three other exceptions to the registration rules: (1) Members of the uniformed services on active duty and in reserve components and those in the Coast and Geodetic Survey and the Public Health Service, (2) those who registered under the medical draft law on October 16, 1950, and (3) certain categories of aliens.

General Wakefield pointed out there are some aliens who are required to register under the law. He suggested that any alien physician, dentist or veterinarian who is in doubt should consult the nearest local board for clarification.

The state director called attention to the fact that the law provides male persons who receive medical, dental and veterinary degrees in the future are required to register. He quoted from official directives which state that such persons "shall be registered on the date they receive any such degree, or within five days thereafter."

Persons outside the United States who are eligible for registration are required to present themselves for registration on the day of entry into the United States or any of its territories, or with-

in five days thereafter. State Selective Service Headquarters estimates that about 7,500 physicians, dentists, and veterinarians will be registered with the state's 137 local boards by the close of business on January 15th. General Wakefield said that all persons required to be registered under the law will be registered at the local board offices and at "such other registration points as are deemed necessary by local boards."

Must Enlist Before Drafted

State Headquarters for Selective Service and some local draft boards in Texas are being swamped with pleas of many young men of draft age to permit them to join the service of their choice after the induction process has begun.

"We are forbidden by law and regulation to permit enlistment in such cases," commented Brigadier General Paul L. Wakefield, state Selective Service director. "We have no authority to act favorably on such requests."

The state director said that Section 1 of the Selective Service law states that no person shall be accepted for enlistment after the induction process is once started.

"This prohibition against enlistment has been interpreted by the Department of Defense to mean that no person shall be accepted for enlistment after he has been notified to report for armed forces physical examination by a Selective Service local board," General Wakefield said.

Local draft boards were advised of this interpretation by official publication under date of Nov. 15, 1948, and the official advice has been in force and effect since that time.

Before order to report for pre-induction physical examinations is issued there is no prohibition of any kind against the enlistment of any man registered with a draft board.

"If the individual is acceptable to the service concerned, he can be inlisted before he gets his or-

der for physical," General Wakefield said. "Under such circumstances, there is no need to consult the local board, as the permission of the board is not required."

"If the man waits until the physical notice is mailed, then it is too late. The draft board cannot, because of the prohibition against it, release the man to join a service of his preference," the state director concluded.

Materials Listed Critical By NPA

The Dallas Regional Office of the U. S. Department of Commerce announced today that the NPA has acted to prevent excessive accumulation of a wide range of materials important to both defense and civilian production.

It issued a list of materials, NPA Notice 1, subject to the anti-hoarding provisions of the Defense Act. This list covers those materials, under the jurisdiction of the Department of Commerce, vital to meeting defense production goals, including certain building materials, chemicals, iron and steel products and scrap, lumber, plywood, wood pulp, aluminum, antimony, asbestos, cadmium, cerium, chromium, cobalt, columbian copper, industrial diamonds, lead, magnesium, manganese, mica, molybdenum, nickel, platinum, talc, tin, tungsten, vanadium, zinc, zinc oxide, paper, paperboard and hog bristles.

Section 102 of the defense production act specifies that hoarding of important materials may be either that which is (1) in excess of the reasonable demands of business, personal or home consumption, or (2) for the purpose of resale at prices in excess of prevailing market prices of materials, the supply of which would be threatened by such accumulation.

Further information regarding the National Production Authority may be obtained from the Regional Department of Commerce Office located in Room 1114-1116 Commerce Street, Dallas, Texas.

Lone Star delivers comfort, cleanliness and convenience to 17,871 new stores

If you go shopping today, the comfort of the store you trade at will likely be provided by Lone Star Natural Gas Service. The store will be cleaner and the merchandise will be fresher because natural gas is so clean.

It is impossible to imagine a modern and successful store without natural gas service. In the last five years 17,871 new stores have been opened in cities we serve. That's one of the reasons for our building program in which we have invested over 80 million dollars. Though virtually all materials and labor for building natural gas pipe lines, compressor stations and other facilities have gone up in price, our commercial rate has not been increased. The truth is, Lone Star commercial rate for stores is lower today than 10 years ago.

Lone Star is keeping abreast of the growth of every community it serves. At the same time we are keeping the price of natural gas service down.

"I REMEMBER BY THE OLD TIMES"

From Mrs. Rhoda Bell, S. W. Va., Ky.: I remember when I was a child about the time that McKinley was shot, my mother and grandmother made they called linsey. They have sheep, but they bought and cleaned it. I don't know how, but my grandfather card it into small rolls, and er would spin it into threads. Grandma would weave goods. They colored it and then they made dresses. I thought we were really up in our linsey dress!

From Mrs. C. H. Vaughn, S. W. Va., Ky.: When I was a girl I can remember we would gather in the pumpkins the fall of the year, and and us children would pumpkins round in a ring hang them on a long stick. When they got dry, we would them with a fat piece of and how good it was!

From Mrs. E.C. Bass, Ala.

I remember when I was a boy, my father went to the yard and bought leather to shoes. He put them together maple pegs. He went swamp, cut the trees down made the pegs himself. I remember when people wore shoes and when they bought in barrels.

From Mrs. Mary Stewart, Ala.: I remember when grocery four or five grades of tub designated as dairy, creamerine (oleo today), and better, at 25 cents per pound, of cold water with a wooden rested on the counter. We got out we got a few ounces over the clerk always put a silver best in his mouth.

TEXAS ELECTRIC SERVICE COMPANY W. B. PICKENS, Manager

Your first eye-smacking look at the line of lovelies pictured here tells you that they've got what it takes in visual charm.

But the fellow who said a picture speaks louder than a thousand words wasn't talking about these superbly able 1951 Buicks.

Sure, they're smart to look at—smart in style and smart in dress.

But they're also smartly powered—smartly engineered—smartly priced. And it would take a book to describe in full their deep-down goodness.

What's been done for '51 is to take the best automobiles that ever bore the Buick name—and top them.

Come, look them over, and you'll see what we mean.

There's the SPECIAL which can accurately be titled "the newest car in the world"—new in structure, new in power, new in dimensions, new in thrift—and potent in price appeal.

There's the SUPER—that looks and is a smart new edition of its "best seller" forebear.

Then there's the ROADMASTER—that coddles your anatomy on luxurious new fabrics and cloud-soft cushions—pampers your pride with its lordly bearing—shoots a delicious tingle right up your spine by

the exuberance of its power action.

We could go on and on. This is the car that "breathes through its nose." This is the car that sports brand-new front-end styling. This is the car with new high-visibility instrument dials, more easily read at night. This is the car with glare and heat-reducing glass and a host of other news-making features you can't afford to miss.

So your No. 1 date this week ends with your Buick dealer. It won't take you long to conclude that he's offering the smartest buys of the year.

LAFF OF THE WEEK

Certainly Be Glad When This Six-Day Bike Race Is Over!"

"EASY DOES IT"

BETTER RESULTS can be achieved when you use powdered eggs. If you reconstitute them and allow to stand overnight in the refrigerator before using. For reconstituting, use 3 table spoons of water for 2 table spoons of powdered egg, the equivalent of one fresh egg.

After relish jars are opened, always store them in the refrigerator. They keep almost indefinitely in this way.

RECIPE OF THE WEEK

Turkey Omelet (Serves 4)

4 ounces medium noodles
3 eggs, separated
1/4 teaspoon salt
1/4 teaspoon pepper
1/2 cup milk
1 tablespoon melted butter
1 cup diced turkey or chicken
2 tablespoons butter
Cranberry sauce

Cook noodles in boiling, salted water until tender (about 5 minutes). Drain and rinse. Beat egg yolks; add salt, pepper, milk and 1 tablespoon butter. Combine with noodles and turkey, mixing well. Fold in stiffly beaten egg whites. Melt 2 tablespoons butter in heavy skillet. Pour egg mixture in skillet and cook over low heat 3 minutes. Then place in moderate (350° F.) oven for 15 minutes. When done, fold over and serve hot with cranberry sauce.

Pickles preserved in brine are susceptible to spoilage. Use about one teaspoon of oil poured on the surface after the jar is opened to prevent the growth of mold.

If you want to keep bread moist and fresh, store in a plastic bag and refrigerate. Unless the bag is used, mold may develop on the bread.

Soft cookies should be stored like cake. If placed in a cookie canister or tin box, keep an apple in the package to provide moisture.

To keep crisp cookies from softening, store in airtight containers. Close the box immediately, and do not allow moisture by way of air to enter the container.

Large, canned hams should be refrigerated or they will spoil. After buying them, store in your own refrigerator before using.

Texans Rally In New Dimes Drive

AUSTIN—A proud state is marshalling its resources as Texas this week swings into step with the 1951 March of Dimes.

The annual drive for money to fight sinister infantile paralysis was begun with unusual determination because Texas has been compromised while being hit harder than most states.

Ed S. Stewart of Abilene, state March of Dimes chairman, said advance reports indicated that Texans "will eagerly meet their obligations in this humanitarian effort."

The Texas quota of \$2,500,000 is the minimum needed, Stewart said. A huge deficit developed from the state's record number of cases the last three years. During this calamitous period, Texas received almost \$400,000 in outside assistance through the National Foundation for Infantile Paralysis.

"There is a limit to what the layman can do in directly combating this terrible disease," said Stewart. "But there is no limit in what Texans can do now to put over the March of Dimes. If I know my fellow Texans, this is one opportunity to help they will not pass up."

Stewart went on to say that the ravages of polio, marked by almost 2800 cases in Texas in 1950 alone, "has stirred our people."

"The money they provide now," he continued, "is necessary for polio patients care, and, equally important, it is needed to finance research into the cause and cure of polio."

While volunteer workers hustled on the local level to clinch the March of Dimes cash objective

Governor Allan Shivers stood by on the state level to help where possible. The state government effort is concentrated behind a special "Fight Polio Committee," appointed by the Chief Executive. The March of Dimes continues through January 31.

Carl Davis Services Are Held Monday

Funeral services for Carl Davis, former Eastland County man who died Friday morning after an automobile accident near his home at Freer, were held Monday in Ranger with burial in the Eastland Cemetery, with Masonic graveside services.

Mr. Davis was a member of the Eastland Masonic Lodge and Baptist Church.

Survivors include his wife, two sons, Bill and Fred, both in the Army, a daughter, Muriel, who is attending school at Waco, two brothers, Short of Ranger and Nugent Davis of Garland, three sisters, Mrs. Lucille Angus of Ranger, Mrs. Mamie Lee Rogers of Midland and Mrs. Dorothy Cole of Abilene, and his parents, Mr. and Mrs. Bill Davis of Colony.

SINGING TO BE HELD IN CHURCH

The Eastland Third Sunday afternoon singing class will meet at the Church of God, corner of Valley and Lamar Streets, at 2 p. m. Sunday. New books have been purchased, and everyone was invited to attend.

Mrs. Stella Price of Lingleville is visiting her sister, Mrs. S. E. Price, and Mr. Price.

Somewhere Down the Line

... the man who buys real estate without an abstract will sooner or later find out about his mistake. When he goes to sell or mortgage it is almost certain that an abstract will be required. Then he will have to furnish it at his own expense and the abstract may reveal that he has a "bum" title. Money can and will be saved by getting the title approved first, then make a trade.

Ideal Cleaners Make Plant Improvement

Fred Adcock, owner and manager of the Ideal Cleaners, has announced the purchase and installation of a new 10 horsepower boiler to speed up his cleaning process. It will double his cleaning and pressing capacity, Adcock said.

The new boiler is twice the size of the old boiler that was replaced. Adcock has been in business in Eastland about three years.
