Eastland Drilling Ordinance Passed Without Debate

Anyone who wants to drill an oil well in Eastland now can do so, provided first he pays \$200 to the city for a drilling permit...

Anyone wishing to know the complete nature of these regulations may find out by reading the ordinance, which is published in this issue of the Eastland County Record on Page 2.

The ordinance was passed by the City Commission Saturday morning as an emergency measure, to take effect immediately, and was not protested.

City Manager I. C. Heck said this week he had heard not a single protest about the city reversing its former stand.

For many years there had been an ordinance on the books barring the drilling of any oil or gas wells within the city. This was repealed a few years ago.

Heck said that on legal advice the commission had not provided in the ordinance for unitization, whereby property owners would have to be signed up in blocks to enable drilling to be done.

The city manager said he may have to go to Austin to find out something about the rules of the Texas Railroad Commission about in-city drilling.

As it stands now, as far as the City Commission is concerned, every property owner in town can drill a well on his lot, just so it is at least 50 feet away from the home of any neighbor.

A 75-foot rule first had been contemplated, but the distance was altered to 50 feet so a man on a 50-foot town lot could have a well drilled if he desired.

Eastland Clean-up Drive To Begin Monday

I LIKE TO FEEL IMPORTANT, DO YOU?

Householders Urged To Begin On Own Premises

Eastland's annual clean-up drive sponsored by the Eastland Civic League and Garden Club will begin Monday, Mrs. T. E. Richardson said Thursday.

Mrs. Richardson is chairman of the league's beautification committee, and has been active in the annual clean-up activity for a number of years.

Speaking on behalf of her committee, she urged Eastland householders to begin Monday on the job of cleaning up and beautifying their premises.

"This will give everyone a chance to get rid of those dead tree limbs and other things they have been wondering how they could dispose of," Mrs. Richardson said. "Ordinarily the garbage collectors will not take certain types of unwanted objects, but it will be different during the drive."

Mrs. Richardson said city officials again have promised that city trucks will haul away everything collected for disposal by householders during the drive, if the articles to be hauled are placed by curbing or alley where they can be picked up.

Mrs. Richardson said that anyone ready for the pickup truck after the first week of the drive could call her or any member of her committee, and the pickup will be made.

She said members of the committee will be announced a little later.

Mrs. Collins Resumes Post As Treasurer

Mrs. Joe Collins has returned from El Paso, where she has been with her husband, Sgt. Joe Collins, and has again taken up her duties as county treasurer.

Sergeant Collins expects to be transferred from Biggs Air Force Base at El Paso soon.

Mrs. Sudie Doss served in the treasurer's office while Mrs. Collins was living in El Paso.

Mrs. Collins and two daughters are living with Sergeant Collins' parents, Mr. and Mrs. Henry Collins of Carbon.

SINGING SCHEDULED AT MANGUM CHURCH

A singing will be held in the Mangum Baptist Church at 2 p. m. Sunday, it was announced this week.

The public was invited to attend.

Mr. and Mrs. Victor Cornelius and Mr. and Mrs. Jack Germany this week are on a vacation trip to Mexico City and Acapulco.

Side Issues

HENRY G. VERMILLION

Eastland County Treasurer Joe Seale is now on leave from his duties...

Seale left Goodfellow Field, Angelo, at 6:10 p. m., and at the same day, five minutes before he left, he was in El Paso at the Biggs Air Force Base.

Seale had been visiting Bob Collins, his brother, in San Angelo before he left for El Paso.

Seale and I will appreciate your help in the new job. She worked on a newspaper but is learning fast and getting the job done.

Seale believed Bob, and so of course if it had been Joe, it would have been the same.

Seale and I will appreciate your help in the new job. She worked on a newspaper but is learning fast and getting the job done.

Seale and I will appreciate your help in the new job. She worked on a newspaper but is learning fast and getting the job done.

County Oil Men Criticize Tax Move By U. S. Treasury

Eastland County's oil industry eventually would suffer a staggering blow if the U. S. Treasury Department's proposal to reduce drastically the 27.5 percent percentage depletion allowance for oil and gas production is adopted, oil men of the county said this week.

They pointed to testimony this week before a Congressional committee by a group of independent Texas oil operators.

Tom F. Grisham of Abilene told the group that "stripper" wells throughout the oil country would be plugged in large numbers if the proposal is adopted.

H. B. Fuqua, chairman of the board of the Texas & Pacific Coal & Oil Co. of Fort Worth, told the committee that the proposed tax change ultimately would drive his firm out of existence.

And a Tulsa engineer, Donald P. Oak, testified that the tax change would drive out of the picture the water flooding of fields for secondary recovery.

It was such a program that has saved the Gorman field in Eastland County and has made possible the production there of many thousands of barrels of oil that otherwise would have remained in the ground.

The oil men explained that the tax change would end the incentive to spend money on new wells or old wells, beyond a certain limited point.

Polio Chapter Session Called For March 23

Everyone in Eastland County interested in the fight on polio was asked this week by Mrs. Merle Barthelmy, county chapter chairman of the National Foundation for Infantile Paralysis, to attend a meeting March 23 in the Court-house.

New chapter officers are scheduled to be elected at the session, she said.

Mrs. Barthelmy inherited the county chairmanship when County Treasurer Joe Collins, who had been chairman, was recalled to service in the Air Force. Mrs. Barthelmy had been secretary of the chapter.

Red Cross Opens Drive For Funds In Rural Sections

Red Cross fund raising activity was widespread over the county this week as the 1951 campaign got under way, and Mrs. John Love, drive chairman, said she was pleased with the organization and the progress shown so far.

As was the case a year ago, the home demonstration clubs of the county are sponsoring the campaign in the rural areas of the county, with Mrs. Marcus Greiger of Flatwood as general chairman of that phase of the drive.

Community club chairmen serving with Mrs. Greiger are:

North Star, Mrs. Clara Burkhead; Pioneer, Mrs. H. C. Fridge; Sabanno, Mrs. J. L. King; Nimrod, Mrs. Ed Townsend; Salem, Miss Allene Fonville; Word, Mrs. Willie Word; Cheaney, Mrs. A. H. Dean; Olden, Mrs. J. F. Moseley; Flatwood, Mrs. J. S. Turner. Desdemona, Mrs. J. E. Heeter; Lake Cisco, Mrs. Nellie Housh; Morton Valley, Mrs. Raymond Beck; Okra, Mrs. Jim Ray Cox; Scranton, Mrs. J. L. Gattis; Crocker, Miss Vera McBeth; Carbon, Mrs. C. W. Stafford; New Hope, Mrs. Joe Bob Browning, and Pleasant Hill, Mrs. Marshall Berry.

1951 Car License Deadline Nearing

Time is fast approaching when you will have to have a 1951 license on your car, and the reminder this week from the office of Tax Collector Stanley Webb.

Deputies in Webb's office said there almost undoubtedly will be a last minute rush to buy plates, since the deadline is April 1, and less than half the cars in the county have been licensed.

About 2000 automobile passenger car licenses were bought in the county last year before April 1.

Mr. and Mrs. Johnny Moore and their two sons, Tommy and Sammy, recently moved to Eastland from Lawton, Okla. Moore is an employee of the Magnolia Pipe Line Co.

Move To Be Made Toward Drilling On Local Hospital Site

Eastland Attorney Jack Frost said Thursday he had been approached on getting an oil test well drilled on the Eastland hospital site on the old high school hill, and planned to talk to oil men on the subject.

The site was bought several years ago by a group of Eastland men, with the late Cyrus B. Frost, Sr., father of Jack Frost, acting as a chief agent in the project.

Drilling anywhere in Eastland was not considered practical until the passage Saturday by the City Commission of an ordinance licensing those wishing to drill.

Sponsors of the hospital project in Eastland hoped that a producing well on the site would ease most of their financial problems.

Jack Frost said he probably will talk to a number of oil men in the next few days about the project.

Meanwhile, the hospital project was marking time awaiting return of interior plans for the proposed new hospital by Ted Howard, Eastland student at Texas A. & M. College who is working up the plans, with assistance from fellow architectural students and their teachers.

Howard, son of Mr. and Mrs. Veon Howard, came home last week end with a set of outside plans for an H-shaped building, picked up a lot of ideas from the hospital committee of the Civic League and Garden Club, and returned to get up a more detailed set of plans and to get some cost estimates worked up.

Mrs. John Turner, chairman of the hospital committee, said it likely will be Easter before the plans are ready, and there likely will be little activity toward the hospital until then.

She said the committee asked for cost estimates on a Haydite block building.

Former Mayor C. T. Lucas said he would help the hospital project along by donating a cent a gallon of the gasoline sales in his station to the hospital fund, and Mrs. Johnny Chancellor, Box 26, Eastland, said she would donate 10 cents of every dollar of sales of Watkins products to the fund.

Mrs. Turner said all such donations are welcomed, and that many a dollar must be raised in many a way before Eastland will have a hospital.

Wage Earners Singing Income Tax Blues

Income tax blues time was here again this week, as the March 15 payment deadline loomed sharp and near.

Most of the income earning portion of the population of the county will have to have final returns in to the U. S. Bureau of Internal Revenue by Thursday midnight of next week.

And those with not enough income to file a return had very little in a financial way to be glad of.

1000 Acres Seen As County Quota Of Castor Beans

Eastland County farmers likely will get to plant about 1000 acres of castor beans this spring under the government's program of allocating seed and guaranteeing a 10-cents a pound price for the seeds, County PMA Administrator Emmett Powell said Thursday.

Powell attended a meeting in Brownwood Tuesday night at which the castor bean program was explained.

Powell said an outstanding part of the project from the point of view of the farmer is that the cost of planting and cultivating the crop is so small.

The beans can be planted for a seed cost of about \$1.50 an acre, and two cultivations are enough, he said.

Roy Quinby, Texas Extension Service specialist, told the group that the beans will bear at the rate of 500 to 800 pounds per acre.

Powell said this part of Texas had been scheduled to grow 20,000 to 25,000 acres of castor beans, but a seed shortage will reduce that to 15,000 to 18,000 acres.

Farmers who get the seed will have to sign a contract to turn over their entire crop of beans to a government agency, Powell said.

FFA Boys To Sponsor Skating Friday Night

The Eastland High School FFA chapter again will sponsor skating in the Morton Valley gym from 7 to 9 p. m. Friday, according to Edwin Aaron.

Admission price will be 35 cents, Aaron said. For those who do not have a way to go, there will be rides in cars leaving the Davis-Maxey Drug at 7 p. m., he said.

Orchard Prospects Are Called Good

Eastland County fruit prospects were quite good this week, barring a late hard freeze, the usual bane of fruit growers in this area.

Orchardists said peaches in particular looked to be unhurt by the severe cold of the winter, and on the contrary may have been helped. Peach trees need a good many days of freezing weather to make good crops, it has been learned.

Many fruit trees, including apricots, plums, pears, and some varieties of peaches, were beginning to bloom this week as hot days followed each other.

However, orchard owners felt their trees in most instances still could stand some fairly cold temperatures and make fruit.

Last year was the poorest fruit season in the county in the past seven or eight, and owners of large orchards mostly felt they needed good crops this year to make up for it.

Mr. and Mrs. Pat Murphy visited their daughter, Mrs. F. J. Brock, and Mr. Brock, and new grandson, Kyle Glen Brock, of Lubbock over the week end.

IF YOUR NAME

On the mailing label of this copy of The Eastland County Record is circled in red, it is a notice that your subscription is due again.

If we are in error, let us know and we'll be glad to correct it.

We hope you are enjoying the Record, and that if your name is circled, you'll drop by and renew, or send in your renewal.

Dale Carnegie

"HOW TO WIN FRIENDS and INFLUENCE PEOPLE"

Disraeli Knew How To Catch Flies

AS A BOY I used to be told that you could catch more flies with sugar than with vinegar. I saw no reason whatever for wanting to catch flies, but these words stuck, and I thought of them as I read "Further Letters of Queen Victoria" who during her 64 years on the British throne revealed herself as being as human as the rest of us.

Her husband said in the early days of their marriage, "I am the husband but not the master of the house." But he proved himself adept at handling people, for later he wrote "I only wish you to be as happy as we are; more I could not wish you," and Victoria avowed over and over again, publicly and privately, during the 21 years before death claimed her prince consort, that she adored her husband, the father of her children.

Carnegie

But what impressed me even more was the art of handling people achieved by her prime minister, Disraeli, Lord Beaconsfield. He knew that she was an imperious woman; knew that she had had many dissensions with those preceding him. In his first letter, which was the letter of a genius, he wrote to his queen, whom he wanted to guide but knew he must obey, "Your Majesty's life has been passed in constant communication with great men. . . This rare and choice experience must give your Majesty an advantage in judgment which few living persons, and no living Princes, can rival."

One wonders if he had reference to the then heir to the throne, the Prince of Wales, later Edward VII, when he referred to "no living Princes" for as all knew, the queen and her son were not in agreement on most matters of state, nor in personal affairs. Naturally she would be glad that England's prime minister saw her point of view.

You can judge for yourself whether Disraeli adopted the right tactics as you read what the queen wrote about him later: "Mr. Disraeli has achieved his high position entirely by his ability. . . I have nothing but praise for him. One thing that predisposed me in his favor is his great admiration for my beloved Albert and his recognition of, and his great respect for, Albert's great character." And Disraeli continued to enjoy her trust and confidence to his dying day.

You can see that Disraeli believed in that maxim about the flies.

ers, and Petroleum Transportors. Bus operators: Over-the-road (intercity), and City buses. The one driver in each group, who is the safest and most outstanding, according to his past record, will be presented with an award.

In addition to the Individual Driver Award Contest, the Texas Safety Association has also conducted a Fleet Traffic Safety Contest, a Taxi Cab Traffic Safety Contest, an Industrial Safety Contest, and a Traffic Safety Activities Contest for Cities. The winners of these various contests will receive their awards during various sessions of the Conference.

The two day Safety Conference will bring to those in attendance the latest information on techniques and procedures in all phases and types of accident prevention. Sessions will be held on each of the following subjects: Industrial Safety, School Safety, Farm and Ranch Safety, Traffic Safety, Accident Prevention Programs for the Colleges and Universities, and the Traffic Court System of Texas. This vital and pertinent information will be presented by recognized safety authorities and experts from all over the State and Nation who will come to San Antonio for the two day Twelfth Annual Texas Safety Conference.

The general public is invited to attend any, or all, sessions of the conference.

Deaths From TB Blamed On Delays

AUSTIN—"It has been well said that procrastination not only is the thief of time, but frequently the thief of health and life." Dr. George W. Cox, State Health Officer, said today. "Indeed, medical records in physicians' offices and hospitals prove that many persons die because they do not receive early diagnosis and prompt treatment for their condition. An outstanding example of this fact is the great number of deaths from tuberculosis that could have been prevented.

"Tuberculosis is a powerful enemy, no matter what its stage, but the fact remains that early discovery and adequate treatment offer the best opportunity for cure. If the patient upon being told that he has tuberculosis cooperates fully with the strict regimen and discipline outlined for him, the disease can usually be overcome."

Dr. Cox said that in line with some of the other major killers,

tuberculosis is insidious in its approach. Acute pain and discomfort are absent usually, and the symptoms are so comparatively mild that the patient is thrown off guard and considers them of little importance. Herein lies the real slaying ability of tuberculosis.

The symptoms which, singly or in combination, demand and immediate checkup by the doctor are easy tiring, a persistent cough, and loss of weight.

"While it is true that any of these symptoms can be present without the patient having tuberculosis, this is no reason to imagine that such is the case. Therefore, if one is suffering from any of these manifestations, the only sensible and safe thing to do is seek the advice of the family physician at once," Dr. Cox warned. "If such a course is pursued, and the condition turns out to be not serious, nothing has been lost. On the other hand, if tuberculosis is discovered, the patient by doing the wisest possible thing has probably saved his life."

LOCAL GIRL IS CANDIDATE FOR COLLEGE OFFICE

DENTON—Miss Mary Halkias, daughter of Mr. and Mrs. Ernest J. Halkias, former residents, is a candidate for secretary of College Government Association at Texas State College for Women in Denton.

A junior home economics major, Miss Halkias is a member of Mary Swartz Rose Club, Phil-

omathia social club, and is president of the home Economics Education Club. As a freshman she belonged to Alpha Lambda Delta, honorary freshman fraternity, Omega Rho Alpha, honorary freshman English fraternity, and served as a dormitory counselor. She is also a member of the Heart O' Texas regional club.

Approximately 25 candidates for student body offices started their official campaigns with assembly speeches Thursday. Elections will be the following Thursday.

Romulus and Remus, founders of Rome, were said to be adopted by a she-wolf.

Safest Texas Truck Driver To Be Given Award By Group

Who is the safest and most outstanding truck driver in Texas? Do you know the answer? Is it the man next door who drives that large moving van, or is it that fellow that you know from the neighboring town, who drives a large cattle truck to all parts of the State?

In an attempt to answer these questions, the Texas Safety Association has conducted an Individual Driver Award Contest this year, and the winners of the contest will be announced at the Twelfth Annual Texas Safety Conference, at the Gunter Hotel, in San Antonio, March 26th and 27th.

Commercial truck operators who have entered the contest, were divided into the following groups, according to their particular type of truck operation: Common Carriers (for hire cargo), Private Carriers (property), Over-the-Road, Private Carriers (liquefied petroleum gases), Pickup and delivery, Oil Field Haulers, Live stock haul-

# SUPPLY POSITION OF U. S. TOO TIGHT TO TAMPER WITH TAX ALLOWANCE, THOMPSON ASSERTS

WASHINGTON — Lt. Gen. Erskine B. Thompson of the Texas Commission declared last week that this country's supply position is "too tight" to allow any tampering with the depletion allowance necessary for the production of additional supplies of oil.

General Thompson, who appeared before the House Ways and Means Committee, which is considering a Treasury Department proposal to reduce by 45 per cent the depletion allowance, said the provision which enables the industry to obtain some of the cost of their wells through the depletion allowance is a "lead-off witness" in the case of the oil industry.

"The supply situation in the United States is much tighter now than it was a year ago," General Thompson said in declaring that the depletion allowance is the "keystone" in the oil industry's production battle to find more oil to meet the demands of the people and the nation's defense.

"It is the domestic production, the General said, which range around 30,000 barrels per day and are subject to enemy attack in event of war, the difference right now being adequate supplies and gas.

"We are bringing out of the wells two vessels per day for our Navy. Tanks are being ordered by the thousands. Our Army is properly being rebuilt. I say to you gentlemen that I do not believe that we should tamper in any way with the depletion allowance, which has been so successful in furnishing the incentive to hunt for new oil."

He expressed hope that the committee would continue the present depletion allowance untouched "so that we may build up a reserve of petroleum that will help us avoid World War III." General Thompson stated succinctly:

"It is not too much to say that petroleum protects freedom. Our tanks, our ships, our planes and trucks all require petroleum. If we are to remain free, we must remain strong. Petroleum propels the machines of defense, and it protects freedom. Make sure that our industry is able to keep us all well supplied."

TRAPPED . . . John Ryan, Los Angeles light and power worker, sticks head out of manhole after he was trapped by auto driven by H. R. Marvin (leaning against auto). Marvin was pulling out of alley when car's wheel pushed aside safety screen and dropped into manhole.

## "I REMEMBER" BY THE OLD TIMERS

From Mrs. F. E. Moody, McKeesport, Pa.: I remember when the milk man came around in a little old wagon, drawn with a horse. We kids would go out with a pitcher or little bucket and he measured out our quart of milk. He always gave us a little extra. And it wasn't pasteurized, homogenized or vitamin D'd, just good old plain cow's milk.

From Mrs. T. A. Read, Ukiah, Calif.: I remember when my nice young man came on Sunday afternoon with his freshly washed buggy and high spirited horse and took me for a ride. It was the custom for everybody to go to church in the evening. When service was over, the young man would file out and line up on each side of the steps. As the young ladies came out, each young man would advance to his lady fair and say, "May I see you home?" How very formal we were in those days!

From A. R. Reid, Union Spring, Ala.: I remember, as a small boy in the pioneer town of Alya, Okla., a man peddled water from house to house.

From Mrs. Josie Butera, Pittston, Pa.: I remember when our neighbor used the first washing machine out. It was operated by arm power. Every time she had to wash clothes, she'd sit next to the washer and constantly turn the wheel by hand.

From Mary D. Garbarini, Cortland, N. Y.: I remember when blacksmiths did a flourishing business. We had three in our little town. On stormy days (for that was when the farmers came to town), you could hear the clang of the hammers until late in the evening.

From Mrs. Mary Stewart, Chicago: I remember when Lincoln's body went through Chicago on its way to Springfield crowds gathered in the railroad station and knelt to pray.

## Peanut Acre Hike Facing Trouble

House-passed legislation in Washington to permit larger peanut plantings this spring was in for major trouble in the Senate, according to informed sources in Eastland County.

The carryover of edible peanuts as of Jan. 1 was the greatest since just after the big 1947 crop, and this factor was expected to be used as a club in the Senate debate.

The House bill would permit an increase of 62,000 acres in edible peanuts and 83,000 acres in oil peanuts.

Eastland County farmers this spring are permitted under marketing quotas to plant approximately 78 percent as many acres of support price peanuts as they did a year ago, and all the oil crop peanuts they want to up to their 1947 acreage. The oil crop peanuts sell on the open market and are not in the price support program.

## Dots And Dashes To Appear In Cisco

Eastland's spryest and perhaps youngest square dance team, the Dots and Dashes, will appear in Cisco Friday night in a square dance event that will raise funds for the Cisco High School Band. The program will be in the Cisco gym.

David Byers is caller for the team of Eastland youngsters. Other members are Gayle Kilgore, Tommy Cooper, Barbara Ann Dalton, David Carothers, Barbara Hightower, Gayland Poe, Jr., and Goldia Beth Skiles.

Mrs. M. B. Griffen and daughter, Ila Gene, have returned from Sherman after a four-weeks stay during which Mr. Griffen continued his work in civil service with the government at Perrin Air Force Base despite a broken leg. He returned to Sherman Wednesday night.

## BEATTYS VISIT IN JOHNSON HOME

Mrs. John Beatty of Fort Worth, the former Dorothy Lou Johnson, and her husband and son, Carl John, are visiting her parents, Mr. and Mrs. Carl Johnson.

Mrs. Beatty is recuperating after an appendectomy recently in a Fort Worth hospital.

CARNIVAL . . . Brazilian President Vargas presents prize for most beautiful costume at carnival ball to Anna Bentes.

FROZEN ASSETS . . . Sandra Leino, West Allis, Wisc., howls her indignation after finding her milk supply in this state of inflation when Wisconsin experienced some eight-degrees-below-zero weather. Just when you have things figured out, something like this happens.

## Pigs Are Popular As 4-H Project

Eastland County 4-H Club boys in the county's 13 clubs have 115 pigs as club projects, or nearly one to every three of the 393 4-H Club members, Assistant County Agent C. V. Whitaker said this week.

Since many of the swine owned by the boys are gilts due to farrow in the next two months, the number of animals soon may climb above 500, Whitaker guessed.

Next most popular stock project among the boys of the county is beef cattle, with 74 owned by boys entering them as projects. Dairy cattle number 60.

However, like the hogs, many of the dairy animals are expected to have offspring soon, and their number will increase.

Whitaker said there are 2071 chickens owned by the boys as club projects, and 92 rabbits, seven sheep and six goats.

Of crop projects, he reported the boys plan or have planted 23 acre of peanuts, 48 gardens of at least one-tenth acre each, five acres of cotton, four and a half

## Easthams Pay Visit In Layton Home

Dr. Fred C. Eastham, former pastor of the First Baptist Church in Eastland, and Mrs. Eastham were guests last week end of Mr. and Mrs. E. E. Layton. They were en route to Abilene, where Dr. Eastham was to be guest speaker during Religious Focus Week, an annual affair at Hardin-Simmons University.

Dr. Eastham, pastor here in 1935 and 1936, now is pastor of the First Baptist Church in Springfield, Mo.

Pfc. Erie Lee Tucker spent the week end in Eastland with his parents, Mr. and Mrs. E. T. Tucker. He has been stationed at Chanute Air Force Base, Ill., but was on his way to station at Perrin Field at Sherman.

Mr. and Mrs. H. L. King returned Sunday from a two-weeks vacation trip to Mexico.

acres of oats, 10 acres of feed-stuff of various kinds, a strawberry patch, and to date, one entry in the Texas Hybrid Corn Contest.

# News From . . . OLDEN

By SPECIAL CORRESPONDENT

The Donkey Ball Game was enjoyed by a large crowd last Tuesday night in the Olden gym.

Mrs. Bill Edwards had as her guest over the week end, Mr. and Mrs. John McCune, Mr. and Mrs. Roy McCune of Dublin, Mrs. Artie Long and Miss Thelma McCune of Fort Worth.

Doug Armstrong and wife of New Mexico are spending a week with his grandparents, Mr. and Mrs. O. T. Hunt.

Mr. and Mrs. Dick Yielding and daughter, spent the week end in Electra, in the home of Mr. and Mrs. J. P. Crawford. They enjoyed a visit with Mr. and Mrs. Joe Crawford and son while there.

Mr. and Mrs. T. L. Fox and girls of Ranger visited his mother, Mrs. Nettie Fox Sunday afternoon. Mrs. Fox has been very sick with the flu.

Joe Bascum Norton was married last week in Odessa. Joe is the

son of Mr. and Mrs. E. A. Norton of Olden.

Robert Scott of McCamey, visited his parents, Mr. and Mrs. C. M. Scott here last week.

Mr. and Mrs. S. M. Holt visited their son Kenneth at Lackland Air Base last week.

Mr. and Mrs. Charlie Sims visited in the O. T. Hunt Home Sunday afternoon.

Tommy Matlock left Monday morning for Sacramento, Calif. where he is stationed.

Mr. and Mrs. Tommy Thompson and son of Iredale visited her folk here over the week end.

Mr. and Mrs. Horace Head and children of Hillsborough visited her sister, Rev. and Mrs. Clifford Nelson Sunday and Monday.

Mrs. Earnest Holloway, daughter of Mrs. C. J. Renfro is visiting here.

Mrs. Addie Bowers who has been spending the winter with her children in Fort Worth, has returned home.

Mrs. Oliver Canet is confined to her bed with the flu.

Mr. Pat Crawford of Electra is in bed with the flu and grandma Ford, also of Electra is very low. She has been sick for several months.

J. W. McKelvain and Jo Ann Turpin visited in the home of Mr. and Mrs. Joe McKelvain Saturday night and watched the television show which they enjoyed very much.

Mr. and Mrs. Glen Ferguson visi-

## Successful Parenthood

BY

### MRS. CATHERINE CONRAD EDWARDS

Associate Editor, Parents' Magazine

**ONE OF THE BEST FRIENDS** SHIPS young parents can have is with an older woman who will act as baby sitter. Many of these women have raised their own families, but have never before gone out to help in another's home. So it takes tact and a willingness to be friends to make the relationship the rewarding one it can be.

Not only do you have more confidence in someone you come to know well, but your child benefits by this older woman's company which was once supplied by grandmothers and the many aunts who used to make up a big family.

Of course, the arrangement must be on a business basis, too. There is an accepted rate of payment for baby sitting in your town and you should make your helper feel that she is earning what you pay her in a semi-professional, not a servant, capacity. If you have arranged for her to stay with your child, as a sort of guest in your absence, don't ask her to do housework. If, on the other hand, the person you hire is a houseworker and willing to do dishes or a little ironing, she should be paid extra for her double job.

Even if everything goes well and the children sleep through the evening, baby sitting can be a wearying job. Why not suggest that your helper make herself a cup of tea or coffee, and leave cake or fruit as a snack. If you have television, show her how to work it—don't leave her at the mercy of a lot of strange knobs and gadgets.

In return for your considerate treatment of her, you have a right

to expect on her part the most conscientious attitude toward her responsibility for your children's safety and comfort. To begin with, she should be fond of children and able to amuse and reassure them if they waken in the night while their parents are gone. That can be a most unhappy experience for a child if the substitute isn't warm and understanding. Better, though, for her to be gay and casual rather than too solicitous. A hovering nurse can put the idea in children's heads that there is something from which she is having to defend them.

Of course, the sitter should be thoroughly briefed on the habits of each child. If Billy wakens, usually a drink of water and a few pats are enough to put him back to sleep. But Cathy is apt to make a night of it unless you produce her velvet kitty or rag doll.

Instructions should be left about the thermostat if the house gets cold; also leave the phone number and name of the persons you are visiting and your doctor's name and phone number in case the sitter can't get you. If you have a car she should be called for and taken home, unless you expect to be very late, when sleeping accommodations should be provided for her.

If you have pets be sure your sitter is accepted by them before you leave—the dog may snarl or even bite if he sees a stranger for whom you haven't vouched going into the baby's room. And prepare the children too—don't sneak out to avoid a tearful goodbye. Assure the children that Mrs. So and So is going to look after them.

Donkey-basketball game. The high school boys in full costume, played the Cisco Junior College boys. There was so much confusion I'm not sure who won, but I think Cisco did.

At the half of the game the boys and girls basketball jackets were presented. Coach Hilliard presented the girls with solid black with gold trim jackets.

Coach weaver presented bright gold jackets trimmed in black satin to the boys.

Mr. Hilliard gave some interesting speeches on the progress of the team in the past season and presented the girls with the 2nd place District trophy.

It may get pretty warm, but not quite too warm to wear our new jackets.

The annual junior-senior banquet is going to be held in the P. T. A. room March 16. It is going to be semi-formal.

Sports in progress now are tennis, volleyball, and softball.

### SHERIFF'S NOTICE OF SALE

THE STATE OF TEXAS, COUNTY OF EASTLAND WHEREAS, by virtue of a certain judgment issued out of the District Court of Stephens County, Texas, on the 18th Day of December, A. D. 1950, wherein C. V. Welch and C. A. White is Plaintiff, and Dixieland Petroleum Corporation is Defendant, on a judgment rendered in said court against said Defendant and in favor of said Plaintiff, for the sum of Twelve Thousand, Three Hundred Ninety-Seven and 50-100 (\$12,397.50) DOLLARS, with interest thereon at the rate of 6 per cent per annum, from date of judgment, together with all costs of suit; I have levied up

on and will on the 3rd day of April, A.D. 1951, between the hours of ten o'clock a. m. and four o'clock p. m. at the Court House door of said County, proceed to sell for cash to the highest bidder, all the right, title and interest of Dixieland Petroleum Corporation in and to the following described property, levied upon, to-wit:

A certain oil, gas and mining leasehold estate set out and described in a certain oil and gas lease dated January 24, 1947, executed by J. T. Poe, et ux, as Lessors to N. M. Day as Lessee of record in Vol. 402, page 205 of the Deed Records in Eastland County, Texas, and which lease covers the East 1-2 of the Northeast 1-4 and the East 1-2 of the Southeast 1-4 of Section 15, Block 3, H. & T. C. Ry. Co. Survey in Eastland County, Texas, less 13 acres on the East side thereof; together with all personal property, if any, situated on said lease or used in connection therewith belonging to Defendant, Dixieland Petroleum Corporation.

The above sale to be made by me to satisfy the above described judgment for \$12,397.50 in favor of

Plaintiff, together with all of suit and sale, and the proceeds thereof.

J. F. TUCKER, Sheriff, Eastland County, Texas.

## When Nasty Colds Leave You WEAK AND RUNDOWN HADACOL CAN HELP

If Your System Lacks Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron, Which HADACOL Contains

When a nasty cold leaves you in a weakened and run-down condition, HADACOL can help build you up if your system is lacking in Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron, important elements contained in HADACOL. Many folks have found that this fine formula helps overcome these deficiencies and soon they feel again.

Mrs. A. Jiminez, 141 East 13th St., Port Arthur, Texas, gave HADACOL to her young son, Floyd, after he had recovered from a bad cold when she heard how HADACOL was helping folks suffering from deficiencies of Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron. It helped him so much in regaining his strength and energy that Mrs. Jiminez says she is always going to have HADACOL on hand for Floyd.

Here is Mrs. Jiminez's statement: "My son Floyd was very subject to colds. He's eleven years old, and he was run-down, didn't seem to have an appetite at all and just simply lacked energy. I heard about HADACOL on the radio, and it was about this time that Floyd was just recovering from a stage of bad cold. He was very run-down, lacked an appetite and I started giving him HADACOL. After about a bottle and a half I could not believe the improvement. His appetite picked up and he had increased strength. I think HADACOL has done wonders for Floyd, and I can't praise it enough. I have continued to give him HADACOL and intend to always have it on hand for Floyd."

Men, women and children of all ages are praising HADACOL for supplying Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron which their system lacks. Don't let that "After-Cold Run-down Feeling" drag you down—HADACOL can help you, too, if you suffer such deficiencies. Sold on a strict money-back guarantee. You'll feel great on the first few bottles you take or your money back. Trial size, \$1.50. Large family economy size, \$3.50.

### "I've Wanted an Electric Range Ever Since I Was a Little Girl..."

Remember when you "played house" and cooked the most delicious meals in the world on your toy electric stove? That's a dear memory of childhood. Now, it's time you actually enjoyed those wonderful results on your own modern, automatic electric range. Designed to make your task of preparing meals easier,

the new electric ranges bring a new pleasure to your cooking. And they're priced to fit the budget of the small or large family. Visit your favorite dealer . . . you'll find an electric range that will make your cooking far easier, faster, more pleasant than you ever thought it could be!

Recent photograph of a Texas primary highway

**\$115,282,344**

Damaged highways, such as the Texas highway shown in this picture, are a hazard to the safe operation of automobiles, farm trucks and other motor vehicles.

It costs three times as much to build roads that will withstand the loads of big trucks now being operated over them than it does for the smaller trucks and automobiles.

Latest records show **\$115,282,344** was spent on Texas highways for the year ending August 31, 1950.

A bill sponsored by the big truck operators is before the Texas Legislature. This bill proposes . . .

- (1) to increase the load limit from the present 48,000 pounds to 72,000 pounds, and
- (2) to increase the maximum truck length from 45 feet to 50 feet.

Recent official highway tests at La Plata, Md., sponsored by the U. S. Bureau of Public Roads, the highway departments of eleven states and the District of Columbia, effectively demonstrated that as trucks increased in size and loads, roads cracked up and "died" more quickly.

We need to safeguard our highways for Civilian and Military use. "Increased heavy loading might seriously disrupt the effectiveness of essential routes in the event of an all-out war," according to T. J. Kauer, director of the Ohio Highway Department and Chairman of the La Plata road test committee.

The big truckers want the taxpayers to continue providing expensive highways for them to use as "rights-of-way" for their own, selfish, personal gain.

**THIS IS A TUG-OF-WAR BETWEEN THE BIG TRUCKERS AND THE TAXPAYERS OF TEXAS!**

Automobiles and small trucks do not require extra strong, extra costly highways. The truth is, that the big truckers are putting the "pinch" on the pocketbooks of the Texas taxpayers.

Get the facts. Mail the coupon below for your copy of "The Case of the One Per Centers," and for a reprint of the article published in TIME, January 22, 1951, about the La Plata highway tests.
